

Certificate in Facilities Management

Admission

Students seeking this certificate must be admitted to the university, or in a nondegree status. All university policies relative to admission apply. Students pursuing an undergraduate certificate must file a plan of study for the certificate program with the undergraduate coordinator before half of the required hours are completed. Students may apply certificate coursework toward a degree program.

Program Requirements

The certificate requires the completion of 21 credit hours from a selected list of courses. A cumulative grade point average of at least 2.000 must be maintained for all courses comprising the certificate program and no grades below *C*.

Course	Title	Hours
APEN 210	Introduction to Facilities Management	3
APEN 664	Engineering Project Management	3
ACCT 210	Financial Accounting	3
ACCT 220	Managerial Accounting	3
ECON 202	Principles of Microeconomics	3
FIN 340	Financial Management - Fundamental Valuation Analysis	3
RE 420	Real Estate Property Management	3
Total Credit Hours		21

Students completing the certificate program receive an appropriately-worded certificate from the university and a notation is made on the student's transcript when the certificate has been awarded.
