

# BA in Biological Sciences with Ecological/Environmental/Organismal Emphasis

## Program Requirements

A minimum total of 120 credit hours is required for the BA in biological sciences with an ecological/environmental/organismal emphasis. In addition to meeting the requirements of the WSU General Education Program (<http://catalog.wichita.edu/undergraduate/academic-information/general-education-program/>) and the requirements of Fairmount College of Liberal Arts and Sciences, students must meet the following requirements:

A major in biological sciences leading to the BA in biological sciences with an ecological/environmental/organismal emphasis requires 35 credit hours of biological sciences coursework. Students must maintain a grade point average of 2.000 in all biological sciences coursework.

## Applied Learning

Students in the BA in biological sciences with ecological/environmental/organismal emphasis program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing BIOL 418 and/or BIOL 499.
