

## BS in Forensic Sciences

### Program Requirements

A minimum total of 120 credit hours is required for the BS in forensic science with an overall GPA of 2.000, WSU GPA of 2.000 and program GPA of 2.000. The major consists of 74-76 core credit hours and students will choose between one of two concentrations. In addition to meeting the requirements of the WSU General Education Program (<http://catalog.wichita.edu/undergraduate/academic-information/general-education-program/>) and the requirements of the Fairmount College of Liberal Arts and Sciences, students in the BS in forensic science must complete the distributed coursework as follows:

### Forensic Science with Biology Concentration

***Applied Learning***

Students in the BS in forensic sciences program are required to complete an applied learning or research experience to graduate from this program. The requirement can be met by successfully completing FS 499.

The curriculum, which is made up of all core courses in the hard sciences, requires students to participate hands on in labs, classroom experiments, etc., culminating in the Seminar in Forensic Science Techniques II, enabling each major to receive a great deal of experiential learning prior to graduating.
