

Dual/Accelerated BS to MS in Computer Networking

The dual/accelerated bachelor's to master's degree offers outstanding students the opportunity to pursue both the bachelor's and master's degree in unison and in an accelerated time frame.

Admission

To be considered for admission to the program, a student must have successfully completed at least 90 credit hours with a GPA of at least 3.250 (or equivalent score from another country) in the bachelor's degree.

For complete requirements, including the eligible undergraduate programs and majors, please consult the Graduate Catalog and/or the EECS department's website.

Program Requirements

- Each student must take at least 18 credit hours of MSCN major courses.
- Only MSCN major courses at the 700-level and above can be used for dual credit hours. Up to 9 credit hours can be used for the combined undergraduate and graduate program.
- Until the bachelor's degree is awarded, a Dual/Accelerated Enrollment Form must be completed for each semester in which the student takes qualifying courses at the graduate level.
- Up to 12 credit hours of elective courses, i.e., courses other than the major courses listed above, may be taken by an MSCN student. Of these 12 credit hours of electives, at most 6 credit hours may be from outside the EECS department.

For complete degree requirements, including lists of major courses and graduating options, please consult the Master of Science in computer networking program in the Graduate Catalog and/or the EECS department's website.
