

# Certificate in Senior Living

## Senior Living

A graduate certificate in senior living is designed for professionals seeking advanced leadership positions in senior living. The curriculum provides an in-depth exploration of daily operations across the spectrum of senior living, care coordination, and hospitality principles critical to enhancing resident life and staff experiences. This program meets the industry's demand for well-rounded leaders prepared to serve residents, families, and staff in post-acute and senior living care settings.

This certificate will equip professionals with the skills needed to lead a growing industry, balancing business management with compassionate care for aging populations.

## Curriculum Completion/Transfer

The curriculum can be completed within one academic year, with program entry available in both the fall and spring semesters. All 12 credit hours are fully transferable to the Master of Aging Studies program. Students may pursue the certificate as non-degree-seeking professionals or concurrently with a graduate program, such as the Master of Arts in aging studies or Master of Health Administration.
