The Graduate Catalog, an official publication of the WSU Graduate School, is produced annually to provide general information for students admitted to or considering graduate education at Wichita State. The Graduate Catalog contains policies, regulations, procedures, and fees current and in effect at the time of publication. Wichita State University and the Graduate School reserve the right to make changes at any time to reflect current university policies, administrative regulations and procedures, and revisions required by changes in federal or state law. Information provided in this catalog is subject to change without notice and does not constitute a contract between Wichita State University and a student or an applicant for admission to the Graduate School.

Produced by Lisa Fleetwood, catalog editor, 3/18.

Graduate Degree Programs and Departmental Admission Requirements

1845 Fairmount
Wichita, Kansas 67260-0004
316-978-3095
http://wichita.edu/gradschool

The Graduate School at Wichita State University considers each applicant holistically for admission to its various programs. While baselines are set to aid departments in making decisions, additional factors will be considered when reviewing each application. These considerations include experience, recommendations, test scores, and even program capacity. Unless otherwise indicated below, the GPA baseline for graduate admission is 2.750. Unless otherwise specified, required application materials will be uploaded or entered through the online application portal.

<table>
<thead>
<tr>
<th>Programs</th>
<th>Departmental Application Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accounting (MACC)</td>
<td>Overall GPA of 3.200; grade of B (3.000) or better in all accounting courses; Undergraduate degree in accounting or the functional equivalent of an undergraduate degree in accounting from an AACSB accredited institution. Applicants not meeting these criteria will be required to take the GMAT and obtain a satisfactory score. International applicants may have to complete significant additional foundational coursework beyond what may appear on a student’s transcript. This can include, but is not limited to, (re)taking business law, financial accounting, taxation, accounting information systems and auditing courses at Wichita State University.</td>
</tr>
<tr>
<td>Aerospace Engineering</td>
<td>Master of Science (MS) GPA 3.000; undergraduate degree in engineering or related field.</td>
</tr>
<tr>
<td></td>
<td>Doctor of Philosophy (MS to PhD) GPA 3.250 in all graduate hours, master’s degree in engineering or physical science.</td>
</tr>
<tr>
<td></td>
<td>Doctor of Philosophy (BS to PhD) Minimum GPA of 3.25 in last 60 hours (2 years) of coursework; undergraduate degree in aerospace engineering or closely related field; a letter of recommendation from a faculty member in the department of Aerospace Engineering stating that he or she would be the student’s academic and research advisor.</td>
</tr>
<tr>
<td>Aging Studies (MA)</td>
<td>One-page letter of intent, statement of computer proficiency, contact information for two professional references. Priority Application Deadlines: July 15 for fall, December 1 for spring, April 15 for summer. Concentrations offered: Social Sciences (online only), Public Health (online only), and Administration (online or on-ground).</td>
</tr>
<tr>
<td>Anthropology (MA)</td>
<td>GPA 3.250; 15 hours of anthropology; statement of purpose with intended specialization, Deadlines: February 1 for fall, October 1 for spring.</td>
</tr>
<tr>
<td>Art, Studio (MFA)</td>
<td>BFA degree or equivalent; 3.000 GPA in art courses; submit resume (or curriculum vitae), portfolio (15-20 images or video/audio - 2 minute maximum acceptable), contact information for three people to provide letters of recommendation, artist statement, and letter of intent. Deadlines: first Wednesday in February for fall admission; first Wednesday in October for spring admission.</td>
</tr>
<tr>
<td>Audiology (AuD)</td>
<td>GPA 2.750 overall; 3.000 GPA last 60 hours and in major; official GRE or Miller Analogies Test (MAT) taken within the last five years. Applicants will file a separate application through CSDCAS which will include three letters of recommendation, statement of purpose, and professional resume. Summer admission only. Deadlines: CSDCAS application is due January 15, by 11:59 pm EST. Graduate School application, fee and transcripts are due January 15.</td>
</tr>
<tr>
<td>Biological Sciences (MS)</td>
<td>Bachelor’s degree in life-science related field from an accredited institution; GPA 3.00 in all undergraduate biology courses; contact information for three references from science faculty, one-page statement of purpose that addresses the student’s areas of interest in biology. Application deadlines: March 1 for fall, October 1 for spring.</td>
</tr>
<tr>
<td>Biomedical Engineering (MS)</td>
<td>GPA 3.000 GPA; bachelor's degree in a discipline relevant to BME; statement of purpose including a section on research interests; GRE scores; contact information for three people to provide letters of recommendation.</td>
</tr>
<tr>
<td>Business Administration (MBA)</td>
<td>GMAT or GRE scores (taken within the last six years); personal goals statement; contact information for two people to provide letters of recommendation; current resume. GMAT/GRE may be waived in certain circumstances; visit <a href="http://wichita.edu/mba">http://wichita.edu/mba</a> for details on exceptions. Application deadline – July 1 for fall; December 1 for spring.</td>
</tr>
<tr>
<td>Executive Business Administration (EMBA)</td>
<td>Departmental application; personal essay; contact information for references; interview; five years relevant work experience. Program admits every other year (odd years only), the next intake is Fall 2019; application deadline is May 1, 2019; early application is encouraged. Visit website for specific details: <a href="http://wichita.edu/emba">http://wichita.edu/emba</a>.</td>
</tr>
<tr>
<td>Chemistry</td>
<td>Master of Science (MS) BS Chemistry (ACS approved or equivalent); GPA 3.000 overall and in all chemistry courses; general GRE; contact information for two people to provide letters of recommendation; statement of goals and research interests. Deadlines: April 1 for Fall, September 1 for Spring.</td>
</tr>
<tr>
<td>Program</td>
<td>Requirements</td>
</tr>
<tr>
<td>----------------------------------------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Doctor of Philosophy (PhD)</td>
<td>BS Chemistry (ACS approved or equivalent); GPA 3.000 overall and in all chemistry courses; general GRE; contact information for two people to provide letters of recommendation; statement of goals and research interests. Deadlines: April 1 for Fall, September 1 for Spring.</td>
</tr>
<tr>
<td>Communication (MA)</td>
<td>GPA 3.000; statement of purpose.</td>
</tr>
<tr>
<td>Communication Sciences and Disorders (PhD)</td>
<td>GPA 2.750 overall; 3000 last 60 hours and in major; official GRE or Miller Analogies Test (MAT) taken within the last five years. Applicants will file a separate application through CSDCAS which will include three letters of recommendation, statement of purpose, and professional resume. Fall admission only. Deadlines: CSDCAS application is due January 15, by 11:59 pm EST. Graduate School application, fee and transcripts are due January 15.</td>
</tr>
<tr>
<td>Doctor of Philosophy (PhD)</td>
<td>GRE score is desired; Miller Analogies Test (MAT) may be substituted for GRE; GPA at least 3.500; Letter of intent; professional resume; contact information for three professional references; sample of research and/or writing (optional); department may request an interview.</td>
</tr>
<tr>
<td>Computer Networking (MS)</td>
<td>BS in computer science, computer engineering, electrical engineering, or an area related to information technology. Cumulative GPA of 3.000; GRE General Test is required for those whose degree is from institutions outside the U.S.</td>
</tr>
<tr>
<td>Computer Science (MS)</td>
<td>BS in computer science, computer engineering, or a related area; cumulative GPA of 3.000. GRE General Test is required for those whose degree is from institutions outside the U.S.</td>
</tr>
<tr>
<td>Counseling (MEd)</td>
<td>GPA 3.000; statement of professional goals; contact information for three people to provide letters of recommendation; resume. Application deadlines: May 1 for summer/fall applicants; Nov. 1 for spring applicants.</td>
</tr>
<tr>
<td>Creative Writing (MFA)</td>
<td>GPA 3.000 in English coursework; 24 credit hours of relevant coursework. Fiction option will require 20 pages of original writing; poetry option will require 4–6 original poems. Admission for fall semester only. Deadline: January 10.</td>
</tr>
<tr>
<td>Criminal Justice (MA)</td>
<td>GPA 3.000; autobiographical statement of interests and goals; contact information for two references.</td>
</tr>
<tr>
<td>Earth, Environmental, &amp; Physical Sciences (MS)</td>
<td>Bachelor’s degree in any field of natural sciences, or acceptable coursework in natural sciences.</td>
</tr>
<tr>
<td>Economics (MA)</td>
<td>GPA 2.750 in all economic courses and required mathematics; must have completed principles of macro- and micro-economics, one course in statistics and one course in calculus, the latter two with a grade of C+ (2.300 points) or better.</td>
</tr>
<tr>
<td>Educational Leadership (MEd)</td>
<td>GPA 3.000; contact information for three people to provide letters of recommendation; resume; one year full-time teaching experience in an accredited school; mentor support letter; goals statement.</td>
</tr>
<tr>
<td>Doctor of Education (EdD)</td>
<td>GPA 3.500 in all graduate hours; three years of professional experience in P-12, higher education, or other educational organization; contact information for three professional references (1 supervisor and two professional peers); current resume; statement of professional goals; sample of academic writing. Summer admission only; review of completed applications will begin in November – applications will be accepted through June 1.</td>
</tr>
<tr>
<td>Educational Psychology (MEd)</td>
<td>Applicants must meet at least one of the following three conditions: (1) A GPA of 3.000; or (2) GRE scores of 150 or higher for each GRE subsection (Verbal and Quantitative), and a score of 4.0 or higher on the Analytical Writing subtest; or (3) A score on the Miller Analogies Test equal to the national mean at the time of taking the test (400). In addition, applicants must submit a resume, contact information for three people to provide references, statement of professional goals and research interests.</td>
</tr>
<tr>
<td>Electrical and Computer Engineering (MEM)</td>
<td>BS in electrical or computer engineering, or a related area; cumulative GPA of 3.000. GRE is required for those whose degree is from institutions outside the U.S.</td>
</tr>
<tr>
<td>Electrical Engineering and Computer Science (PhD)</td>
<td>Completed bachelor's or master's degree with a GPA of at least 3.250 in electrical engineering, computer science or a related field; Official GRE scores; evidence of ability to carry out independent research and present it in written English is highly desirable; contact information for two professional references and a statement of purpose are highly encouraged. Each applicant is evaluated individually. In addition to the previously listed requirements, applicants with a bachelor's degree will only be admitted to the PhD program if an EECS faculty member judges them as exceptional, and is willing to be their PhD advisor from the beginning of the program.</td>
</tr>
<tr>
<td>Engineering Management (MEM)</td>
<td>GPA 3.000; undergraduate major in engineering, science, business or related field; satisfactory completion of MATH 243 (Calculus II) and IME 255 (Engineering Economy). Department prefers and strongly recommends the GRE.</td>
</tr>
<tr>
<td>English (MA)</td>
<td>GPA 3.000 in English coursework; 24 credit hours of relevant English coursework; 500 word statement of purpose (see website for details on statement of purpose requirements: <a href="http://wichita.edu/english">http://wichita.edu/english</a>).</td>
</tr>
<tr>
<td>Program</td>
<td>Requirements</td>
</tr>
<tr>
<td>----------------------------------------------</td>
<td>-----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Exercise Science (MEd)</td>
<td>No additional documents required for consideration; students may be required to complete the following prerequisites: CHEM 101 (Elementary Chemistry); HPS 229 (Applied Human Anatomy); HS 312 (Exercise and Sport Nutrition); HPS 328 (Biomechanics/Kinesiology); HPS 490 (Exercise Physiology).</td>
</tr>
<tr>
<td>Global Supply Chain Management (MS)</td>
<td>Applicants must possess an undergraduate degree in business, engineering, science, or related field. GPA of 3.00 overall or in the last 60 hours (whichever is better) of undergraduate coursework and in all graduate coursework. Students with lower GPAs may submit GMAT or GRE scores for consideration of admission on probation. GRE/GMAT not required, but is preferred for all candidates. Submit personal goal statement, which clearly articulates the applicant’s reason for seeking admission to the program (500 word maximum); CV/Resume; contact information for two people who will serve as references. Meet the minimum TOEFL and IELTS requirements set by the Graduate School, for students with English as a second language. Applicants needing F1 visa must also provide documentation for financial support. Deadlines – May 1 for fall and October 1 for spring.</td>
</tr>
<tr>
<td>History (MA)</td>
<td>GPA 3.00 in all history coursework; undergraduate major in history or minimum of 18 credit hours of history coursework; one-page statement of purpose; and a writing sample of no more than 20 pages. Application deadlines: March 15 for fall; October 1 for spring.</td>
</tr>
<tr>
<td>Industrial Engineering</td>
<td>GPA 3.00; undergraduate degree in engineering, science, business or other related discipline; satisfactory completion of MATH 243 (Calculus II) and IME 255 (Engineering Economy). Department prefers and strongly recommends the GRE.</td>
</tr>
<tr>
<td>Master of Science (MS)</td>
<td>GPA 3.00; undergraduate degree in engineering, science, business or other related discipline; satisfactory completion of MATH 243 (Calculus II) and IME 255 (Engineering Economy). Department prefers and strongly recommends the GRE.</td>
</tr>
<tr>
<td>Doctor of Philosophy (MS to PhD)</td>
<td>Official GRE scores; GPA 3.250 in all graduate hours; evidence of the ability to carry out independent research and present it in written English is highly desirable; Contact information for two references, and a statement of purpose indicating research interests is encouraged; must have completed the following courses or their equivalents: IME 255 (Engineering Economy), MATH 344 (Calculus III); and a natural science course equivalent to that of the undergraduate engineering requirement; must have programming competence in at least one of the following languages: C, C++, or Visual BASIC; must have earned or be about to earn a master’s degree in engineering, physical sciences, or other related discipline.</td>
</tr>
<tr>
<td>Doctor of Philosophy (BS to PhD)</td>
<td>Direct admission from the BS is offered for truly exceptional students to the PhD program. Applicants must have consistent and exceptional credentials throughout all their academic career, including: An undergraduate degree in engineering, physical science, or other related discipline; A minimum GPA of 3.50/4.00 during the final 60 hours of coursework; and A letter of endorsement for admission from an ISME graduate faculty member (this requirement reflects the willingness of an ISME graduate faculty member to serve as the research advisor for the applicant upon admission). All other minimum requirements for admission into the PhD in Industrial Engineering program must be met.</td>
</tr>
<tr>
<td>Innovation Design (MID)</td>
<td>Applicants should submit a resume and a statement of purpose, also, they may include in their application any credentials they believe represent their accomplishments and help explain why they wish to join the MID program. A personal interview will be scheduled with the admission committee if minimum qualifications are met. Deadlines: June 1 for fall, September 1 for spring, February 1 for summer.</td>
</tr>
<tr>
<td>Learning and Instructional Design (MEd)</td>
<td>Show potential to do graduate work by meeting one of the following: (1) be a graduate of the WSU teacher education program with at least a 2.750 GPA, or (2) be a graduate from an NCATE accredited program with at least a 3.00 GPA, or (3) score at least 152 in Verbal reasoning and 153 in Quantitative reasoning on the GRE, or (4) achieve a minimum score of 40 on the MAT, or (5) provide alternative evidence of academic aptitude. All applicants must also provide evidence of involvement in teaching, and/or program design, or receive a recommendation by the graduate program committee.</td>
</tr>
<tr>
<td>Liberal Studies (MA)</td>
<td>GPA 3.00; applicants should contact the graduate coordinator for an initial interview. In addition, students must complete a brief essay describing their motivation for selecting the liberal studies program, outlining their proposed three areas of study, and showing how the program will contribute to their educational and career goals. Students must also submit contact information for two people to provide letters of recommendation. Deadlines for application are April 1 for the fall semester and October 1 for the spring semester.</td>
</tr>
<tr>
<td>Mathematics</td>
<td>GPA 3.00 in all mathematics courses; undergraduate major in math or equivalent.</td>
</tr>
<tr>
<td>Master of Science (MS)</td>
<td>GPA 3.00 overall (3.250 in all graduate hours if applicant holds master’s degree) and 3.250 in mathematics and statistics.</td>
</tr>
<tr>
<td>Mechanical Engineering</td>
<td>A calculus-based engineering degree (including differential equations, and physics courses with lab) or equivalent, with a cumulative GPA of 3.00 on 4.00 scale; GRE strongly recommended; statement of interest and two academic reference letters corroborating the applicant's undergraduate background; depending upon chosen concentration area, students may have to complete prerequisite coursework.</td>
</tr>
<tr>
<td><strong>Graduate Degree Programs and Departmental Admission Requirements</strong></td>
<td></td>
</tr>
<tr>
<td>---------------------------------------------------------------</td>
<td></td>
</tr>
<tr>
<td><strong>Doctor of Philosophy (MS to PhD)</strong></td>
<td>GPA 3.250 in all graduate hours; minimum combined GRE score of 310 (Verbal and Quantitative) and minimum score of 3.5 on the Analytical Writing section; contact information for two graduate faculty members to serve as references; statement of purpose indicating research interests.</td>
</tr>
<tr>
<td><strong>Doctor of Philosophy (BS to PhD)</strong></td>
<td>The mechanical engineering department offers direct admission to the PhD program for truly exceptional students who have earned a bachelor’s degree. Applicants must have consistent and exceptional credentials throughout their academic career – including a program GPA equivalent of 3.500/4.000 or higher in an undergraduate mechanical or closely related engineering program. A minimum combined GRE score of 310 or greater in Verbal and Quantitative skills and a minimum score of 3.5 in Analytical Writing skill are required; contact information for two graduate faculty members to serve as references; statement of purpose indicating research interests. Also, applicants are expected to demonstrate proven undergraduate research experience.</td>
</tr>
<tr>
<td><strong>Music (MM)</strong></td>
<td>Options include: opera, piano accompanying, chamber music, piano pedagogy, instrumental conducting, history/literature, composition, performance. Requires an accredited bachelor’s degree in music; minimum of 60 credit hours in music, with at least 24 credit hours in basic music studies (history and theory) and 15 credit hours in a major specialty. Individual options may have additional requirements for admission; consult the graduate program coordinator for specific details. Performance areas will require candidates to complete a satisfactory audition in their performance area of specialization. All areas will require applicants to submit contact information for three people to provide letters of recommendation.</td>
</tr>
<tr>
<td><strong>Music Education (MME)</strong></td>
<td>Options include: choral, elementary, voice, instrumental, special education, instrumental conducting. Requires BME or equivalent. Students holding bachelor’s degrees in music other than the Bachelor of Music Education must satisfy public school certification requirements to qualify for full admission. Applicants without such certification are admitted on a conditional basis pending their attainment of public school teaching credentials. All areas will require applicants to submit contact information for three people to provide letters of recommendation.</td>
</tr>
<tr>
<td><strong>Nursing</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Nursing (MSN)</strong></td>
<td>Bachelor’s degree with a major in nursing from NLN or CCNE accredited school; GPA of 3.000; RN licensure in the state in which the applicant practices; professional liability insurance; computer literacy and electronic database literature searching skills; evidence of meeting technical standards as identified by the WSU School of Nursing; background check is required. Must submit both Graduate School and departmental applications. Admission for fall semester only — application deadline May 1.</td>
</tr>
<tr>
<td><strong>Nursing Practice (BSN to DNP)</strong></td>
<td>For students entering following the award of the Bachelor of Science in Nursing (BSN) degree, a GPA of 3.000; BSN from a nationally accredited nursing program (NLN or CCNE); RN licensure in Kansas and/or other authorized online states; an approved graduate statistics course taken within the past six years; professional liability insurance; and additional application to the department is required. Admission for fall semester only – application deadline is May 1.</td>
</tr>
<tr>
<td><strong>Nursing Practice (MSN to DNP)</strong></td>
<td>For students entering the postmaster’s following the award of the master’s degree, a GPA of 3.250 in all graduate coursework is required, as is an MSN from a nationally accredited nursing program (NLN or CCNE); RN licensure in Kansas and/or other authorized online states; Additional application to the department is required. Admission is for spring semester only – application deadline is October 15. Additional requirements are detailed in the Nursing section of the Graduate Catalog and on the School of Nursing website.</td>
</tr>
<tr>
<td><strong>Physical Therapy (DPT)</strong></td>
<td>Visit program website for admission requirements and deadline information: <a href="http://wichita.edu/PT">http://wichita.edu/PT</a>.</td>
</tr>
<tr>
<td><strong>Physician Assistant (MPA)</strong></td>
<td>View program website for admission requirements and deadline information: <a href="http://wichita.edu/PA">http://wichita.edu/PA</a>.</td>
</tr>
<tr>
<td><strong>Physics (MS)</strong></td>
<td>Requires 24 credit hours of undergraduate physics, including 3 credit hours mechanics and 3 credit hours of electricity and magnetism.</td>
</tr>
<tr>
<td><strong>Psychology (PhD)</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Community, Clinical, Human Factors</strong></td>
<td>GRE (general); 3.000 GPA; contact information for three professional references; personal essay; supplemental information (honors, scholarships, employment history, etc.); professional article sample (articles, presentations, projects, etc.). Fall admission only; deadline for community and human factors: January 15; deadline for clinical: December 1.</td>
</tr>
<tr>
<td><strong>Public Administration (MPADM)</strong></td>
<td>GPA 3.000 in the last 60 credit hours of coursework; letter of application, resume, contact information for two references, intermediate level of skill (or better) with word processing, spreadsheet and presentation software programs. Deadline April 1 for fall, November 1 for spring.</td>
</tr>
</tbody>
</table>
### School Psychology (EdS)
Applicants may enter the program from either a bachelor's or master's degree program. For all candidates, there are three ways of determining academic competence for entry into the program. Applicants must meet at least one of the following conditions: (1) A GPA of 3.000; or (2) GRE scores of 150 or higher for each GRE subsection (Verbal and Quantitative), and a score of 4.0 or higher on the Analytical Writing subtest; or (3) A score on the Miller Analogies Test equal to the national mean at the time of taking the test (400). Applicants must submit names and addresses of three (3) persons from whom they may request letters of reference, resume, goal statement, writing assessment. An interview (either in person, or Skype) will be required. Application deadlines: March 15 for summer or fall admission; October 15 for spring admission.

### Social Work (MSW)
2.750 GPA; strong undergraduate preparation in liberal arts and sciences; departmental application, statement of purpose, contact information for three people to provide references. Deadline: 5 p.m. on December 15 for fall.

### Sociology (MA)
GPA 3.000; 15 hours sociology; college algebra; contact information for three people to provide references; statement of purpose that includes research interests and goals; Deadline: March 1 for fall.

### Spanish (MA)
GPA 3.000 in Spanish courses; for nonnative speakers, 24 credit hours undergraduate Spanish beyond basic language courses (8 credit hours at junior/senior level); for native speakers, 12 credit hours at junior/senior level.

### Special Education (MEd)
- **High Incidence, Early Childhood**
  - GPA 3.000 or acceptable GRE (required scores: Verbal 152 / Quantitative 153) or MAT scores; eligible for Kansas teaching certificate; applications reviewed upon receipt.
- **Unified, Low Incidence, Gifted**

### Sport Management (MEd)
Letter of application; resume; three reference reports, GRE may be required.

### Teaching (MAT)
Recommend that interested students contact the program before applying to ensure eligibility. 2.75 GPA in last 60 hours of coursework; BA/BS from an accredited higher education institution in the content area eligible for restricted licensure (or equivalent coursework in content area); receive passing score on PRAXIS Subject Assessment exam for restricted licensure area; secure a teaching contract in an accredited school district.

Applicants whose native language is not English may also be required to demonstrate English proficiency, in the form of official scores on the TOEFL, IELTS or PTE-Academic. Please refer to the international admissions section of the catalog for details about the English proficiency requirement (p. 20).
# Graduate Certificate Programs

Please see the program sections of the Graduate Catalog for specific details about each certificate program offered.

<table>
<thead>
<tr>
<th>Programs</th>
<th>Certificates</th>
<th>Certificate Descriptions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Business</strong></td>
<td>Enterprise Systems &amp; Supply Chain Management</td>
<td>A 12-hour program that equips students with the skills and abilities to design and manage enterprise-wide supply chains. Offered jointly with the department of industrial engineering in the College of Engineering.</td>
</tr>
<tr>
<td><strong>Education</strong></td>
<td>Child/Play Therapy</td>
<td>A 15-hour postmaster’s certificate program designed to meet training standards for play therapists established by the Association for Play Therapy.</td>
</tr>
<tr>
<td></td>
<td>Educational Technology</td>
<td>A 12-hour online program offering Information and Communication Technology (ICT) education to educators, trainers and professional developers who wish to advance their knowledge of Information Technology in education, integrate technology into classroom instruction or professional setting and use technology for communication and professional productivity.</td>
</tr>
<tr>
<td></td>
<td>Engineering Education</td>
<td>A 12-hour program designed to provide engineering graduate students with: (1) knowledge of contemporary learning theories that can be applied to university-level instruction; (2) knowledge and skills in classroom testing and program evaluation; (3) knowledge of pedagogical skills that can be applied to university-level instruction; (4) the skills to apply knowledge of learning theory, pedagogical theory and measurement theory in an authentic university setting. Offered jointly with the College of Engineering.</td>
</tr>
<tr>
<td></td>
<td>Interdisciplinary STEM Education</td>
<td>An 18-hour program designed for graduate students interested in designing and/or teaching an interdisciplinary STEM curriculum.</td>
</tr>
<tr>
<td></td>
<td>Literacy</td>
<td>A 15-hour program designed to allow educators to advance their knowledge and skills of teaching literacy in the classroom, and to integrate literacy into all content areas. Provides advanced study for teachers and educators seeking lead positions in buildings where literacy is a focus for federal legislation and state accreditation.</td>
</tr>
<tr>
<td><strong>Educational Leadership</strong></td>
<td>Higher Education Leadership</td>
<td>A 15-hour program designed to prepare current and prospective college or university staff members for entry- or mid-level positions as administrators in two- and four-year colleges and universities; policy makers and student affairs professionals in higher education; and to provide selected coursework/degrees for individuals currently in the field.</td>
</tr>
<tr>
<td></td>
<td>Building-Level Leadership</td>
<td>A 15-21 hour program whose goal is to provide a path for students who currently have a master's degree in an education-related field (e.g. curriculum and instruction, school counseling, etc.) and are currently employed in preK-12 education to be recommended for building licensure.</td>
</tr>
<tr>
<td></td>
<td>Superintendency/District Leadership</td>
<td>A 15-21 hour program that provides an opportunity for potential candidates who currently hold a Kansas professional building leadership license to participate in advanced graduate training that leads to positions as a Superintendent, Assistant Superintendent, or Special Education Director, as well as other district-level positions required by school districts.</td>
</tr>
<tr>
<td><strong>Electrical Engineering and</strong></td>
<td>Information Assurance and Cybersecurity</td>
<td>A 12-hour program designed for information technology professionals and graduate students enrolled in related fields who are wishing to gain training in this focused topic.</td>
</tr>
<tr>
<td><strong>Computer Science</strong></td>
<td>Engineering Education</td>
<td>A 12-hour program designed to provide engineering graduate students with: (1) knowledge of contemporary learning theories that can be applied to university-level instruction; (2) knowledge and skills in classroom testing and program evaluation; (3) knowledge of pedagogical skills that can be applied to university-level instruction; (4) the skills to apply knowledge of learning theory, pedagogical theory and measurement theory in an authentic university setting. Offered jointly with the College of Education.</td>
</tr>
<tr>
<td><strong>Engineering</strong></td>
<td>Functional Aging</td>
<td>A 12-hour program of study of the nature and scope of the physiological aspects of aging and issues related to designing the environment for older adults.</td>
</tr>
<tr>
<td><strong>Human Performance Studies</strong></td>
<td>Enterprise Systems &amp; Supply Chain Management</td>
<td>A 12-hour program that equips students with the skills and abilities to design and manage enterprise-wide supply chains. Offered jointly with the department of decision sciences in the Barton School of Business.</td>
</tr>
<tr>
<td><strong>Industrial Engineering</strong></td>
<td>Foundations of Six Sigma &amp; Quality Improvement</td>
<td>A 12-hour program primarily for graduate students with industrial affiliation who are interested in enhancing their skills in quality management and Six Sigma methodology.</td>
</tr>
<tr>
<td></td>
<td>Lean Systems</td>
<td>A 12-hour program of advanced knowledge and methodology of lean systems design, evaluation and operation for practitioners in industry who are responsible for the development and management of production systems in the workplace.</td>
</tr>
<tr>
<td>Program</td>
<td>Description</td>
<td></td>
</tr>
<tr>
<td>----------------------------------------------</td>
<td>---------------------------------------------------------------------------------------------------------------------------------------------</td>
<td></td>
</tr>
<tr>
<td>Systems Engineering &amp; Management</td>
<td>A 12-hour program of knowledge and methodology so students can learn to apply systems concepts and techniques to the understanding, description, design and management of large-scale systems requiring the integration of information and human activity.</td>
<td></td>
</tr>
<tr>
<td>Interdisciplinary Great Plains Studies</td>
<td>A 15-hour, interdisciplinary program for professional or personal enrichment. This certificate is for students interested in taking a concentration of courses from a number of disciplines focusing on a common topic, the Great Plains.</td>
<td></td>
</tr>
<tr>
<td>Advanced Composite Materials</td>
<td>A 12-hour program aimed at equipping students with the knowledge of advanced composites including materials and processes, manufacturing, and structural analysis and design.</td>
<td></td>
</tr>
<tr>
<td>Museum Studies</td>
<td>A 15-hour program aimed at preparing students for careers in the museum field. Students gain an overview of museum practice including administration, collections, exhibits and presentation, and education.</td>
<td></td>
</tr>
<tr>
<td>Management Entrepreneurship and Innovation</td>
<td>A 12-hour program aimed at providing students the knowledge base in entrepreneurship to undertake moving technological expertise or high potential business ideas through the start-up of high growth businesses. Provides extensive conceptual and applied know-how and expertise to students interested in entrepreneurship.</td>
<td></td>
</tr>
<tr>
<td>Mechanical Engineering Nano Engineering</td>
<td>A 12-hour program that is designed for engineering and technology professionals and graduate students enrolled in related fields who wish to gain training in this focused topic. Students completing this certificate will have a strong understanding of the fundamentals of Nano Engineering as well as in-depth knowledge in critical and upcoming areas such as nanotechnology in computers and consumer electronics devices, drugs, automobiles, laser nano-built products, other nano-related manufacturing and new emerging nanotechnologies.</td>
<td></td>
</tr>
<tr>
<td>Public Health</td>
<td>A 15-hour online program of core public health coursework covering principles and issues in health care policy and administration, the social and behavioral aspects of public health, epidemiology, environmental health and biostatistics. Students have the option to focus on coursework in health care policy and administration or public health and aging.</td>
<td></td>
</tr>
<tr>
<td>Health Administration</td>
<td>A 15-hour online program that prepares students in areas of health care leadership, operations management, strategic planning, health care policy, law and ethics, and trends in the health care delivery system.</td>
<td></td>
</tr>
<tr>
<td>Public Administration City &amp; County Management</td>
<td>A 12-hour program offering advanced study in the management of city and county government.</td>
<td></td>
</tr>
<tr>
<td>Economic Development</td>
<td>A 12-hour program offering advanced study in economic development by state and local governments.</td>
<td></td>
</tr>
<tr>
<td>Nonprofit Management</td>
<td>A 12-hour program offering advanced study in nonprofit management.</td>
<td></td>
</tr>
<tr>
<td>Public Finance</td>
<td>A 12-hour program offering advanced study in public finance. The program enhances student’s career opportunities and provides public finance practitioners an avenue to improve their skills. This certificate is available both online and on ground.</td>
<td></td>
</tr>
</tbody>
</table>

Certificate programs are not eligible for Title IV (federal financial aid) funding unless the certificate is part of the degree program being pursued or the certificate has been specified as a Gainful Employment (aid eligible) program.

1 These programs have been approved as Gainful Employment.
Graduate School

The Graduate School at Wichita State University (WSU) supervises graduate study at the university, establishes standards for admission to graduate work and recommends students who have completed requirements for graduation.

The Graduate School provides opportunities to pursue advanced study in more than 40 master’s programs, one educational specialist program, and 12 doctoral programs (eight PhD programs and four professional doctorates). The university is classified by the Carnegie Foundation as a doctoral granting research university (high research activity) and is an affiliate member of the National Association of Graduate and Professional Students. The university is also a member of the Council of Graduate Schools and the Midwestern Association of Graduate Schools.

The Graduate School operates according to bylaws approved by the graduate faculty. Current bylaws are available online (http://wichita.edu/gfbylaws).

Graduate Study Defined

The graduate experience involves specialized knowledge and concentrated study in one area. In this respect it differs from undergraduate study, which introduces students to a wide range of subjects and develops general intellectual skills. That is, a graduate program is generally more focused on a specific area of interest and on accruing specialized skills to practice a profession or do advanced research. There are two primary types of graduate degrees: professional degrees and research degrees.

At the master’s level, a professional degree provides a specific set of skills needed to practice a particular profession. It is generally a final degree. The research master’s provides experience in research and scholarship, and it may be a final degree or a step toward a doctoral degree.

Terminal projects associated with the completion of the master’s degree provide evidence of understanding the discipline-specific inquiry methods, thinking critically about a problem, and producing a written document or creative work appropriate to the standards of the discipline.

Wichita State University’s master’s degrees include a minimum of 30 graduate hours and usually take one or two years of full-time study to complete. Students have six years to complete their degree. The professional master’s degree often involves some type of internship or fieldwork. The research degree may involve writing a thesis or completing comprehensive exams.

The thesis is considered a scholarly contribution to knowledge evidencing research or creative capacity, independent thought, and the ability to interpret materials. In some cases it involves original research or development of original works such as a painting or a manuscript in creative writing.

The doctoral degree typically involves both coursework and a major research project. Students admitted to a doctoral program usually spend four to six years of full-time study completing their degree. Depending upon the field of study, the first two to three years involve classes, seminars, directed readings and directed research to provide a comprehensive knowledge of an academic field. During this time, students may also begin independent research projects.

Comprehensive knowledge in the field is assessed through the qualifying exam. On passing the qualifying exam, a student becomes a candidate for the degree and must be continuously enrolled every semester for a minimum of two credit hours of dissertation research.

As a candidate for a doctoral degree, a student works on a project that involves original research and reports on the research through the production of a dissertation. The dissertation is considered a substantial contribution to knowledge in which the student exhibits original scholarship and the ability to conduct independent research or creative works. Depending upon the field, the dissertation project may take one to two years to complete.

A graduate certificate gives students the ability to learn professional skills through focused study in a specific area. Graduate certificates are awarded by departments, colleges and the Graduate School to recognize graduate-level accomplishment in a cluster of related graduate courses on a topic, skill, theme or method, as defined by the appropriate faculty. The courses serve as the student’s record of coherent academic accomplishment. Graduate certificate programs are typically 12–15 credit hours. Graduate certificates are not degrees, concentrations, minors or certification programs.

Graduate Council

The Graduate Council consists of the dean and associate dean of the Graduate School, nine members of the graduate faculty elected by the graduate faculty, one member appointed by the graduate dean and one graduate student. The council determines and recommends general policies for the Graduate School.

In addition to being the elected representative of the graduate faculty, the Graduate Council serves as the Committee on Exceptions in an advisory capacity to the dean of the Graduate School. This responsibility may be discharged by the council acting as a committee of the whole, through subcommittees, or ad hoc committees consisting of selected members of the graduate faculty and graduate student body. Conclusions reached by the Graduate Council are transmitted as recommendations to the dean of the Graduate School.

The Graduate Council also serves as a committee on appeals if the student is dissatisfied with direct administrative action taken by the graduate dean. In such cases, the judgment of the council is final.

Graduate Faculty

The graduate faculty consists of the university president, the provost and vice president for academic affairs, the dean of the Graduate School, deans of the academic colleges, dean of the Honors College, dean of the libraries, and regular faculty members nominated and approved for graduate faculty status.

Graduate faculty develop curricula, teach graduate courses, guide student research, mentor graduate students, participate in the governance of graduate education, and determine criteria for graduate faculty membership.

Remaining current in one’s discipline is a special responsibility of faculty who teach at the graduate level. In particular, research, scholarship, creative activities and performance serve as models for graduate students. What constitutes a program of original work varies
considerably from discipline to discipline. Quantity is not the sole criterion, and may not even be a major criterion. However, periodic evidence that one’s work has undergone independent peer review and is part of an ongoing scholarly agenda is expected. In some disciplines, graduate faculty are also expected to generate external funding through grants and contracts to support their research and scholarly activities as well as to support graduate students.

There are two categories of graduate faculty membership at Wichita State University. Candidates for graduate faculty membership must meet all department-specific criteria and the following university-specified eligibility criteria. All nominations for graduate faculty status must originate from a Wichita State University academic department. Nomination forms for initial appointment and renewal of appointment of graduate faculty status are available on the Graduate School webpage (http://wichita.edu/gradschool).

A summary of university-specified eligibility requirements, and duties and responsibilities for each category of graduate faculty status is provided below. A detailed description is provided in Section 5.12 of the Policies and Procedures Manual of the university (follow the link to WSU’s Policies and Procedures Manual) (http://wichita.edu/policies).

**Graduate Faculty**

*Eligibility:*

- Possess the terminal degree in the discipline or its equivalent in training and/or experience (documentation is required when equivalency is claimed from a combination training and experience)
- Be tenured or tenure-track WSU faculty with assistant professor or higher rank or meet established criteria for the academic unit

* Duties and responsibilities:
  - Teach graduate courses
  - Serve on master's and doctoral committees
  - Chair capstone (project, thesis and dissertation) committees
  - Mentor graduate students

*Duration of membership in category:*

- Ongoing till separation from the university

**Affiliate Graduate Faculty**

*Eligibility:*

- Meet a demonstrated departmental need
- Have earned a graduate degree or be qualified by education and/or professional achievement

*Possible duties and responsibilities:*

- Teach graduate courses
- Serve on and chair master’s thesis and terminal committees for practice doctorates
- Serve on PhD dissertation committees
- Other duties as appropriate

*Duration of membership in category:*

- Appointment length suggested by chair of the department and approved by the dean of the Graduate School
- Membership may be renewed through the submission of a nomination form by the academic department recommending the appointment, which should document successful performance in the preceding term

**Granting of Graduate Faculty Privileges**

Research productivity, scholarship, and creative activities are best evaluated by graduate faculty at the departmental/college level. The Graduate School and Graduate Council provide oversight and due process for faculty seeking grievances in this matter, but the units are best equipped to make informed decisions regarding graduate faculty membership. Based on the rigorous process used to hire, review and promote faculty, all members of the tenure-track faculty are eligible for regular graduate faculty standing. The procedure below is to be used to identify nontenure track graduate faculty members.

Each graduate program, either individually or collectively by department and/or college, can establish regular graduate faculty criteria for nontenure track faculty. These criteria must be approved at the department, college and Graduate Council levels, and should be updated at least every five years.

**Departmental/College Level**

Faculty who seek graduate faculty status for the first time are responsible for submitting a completed nomination form along with pertinent supporting information/documents to the department chair. The department chair will forward the candidate’s material to the Departmental/College Graduate Faculty Status Committee (see below) for consideration. After the appropriate faculty status committee has reviewed, it will submit its recommendation to the chair who will send the nomination form (with supporting information/documents) to the academic dean with his/her own recommendation and signature.

Each department and/or college should have a committee (minimum of three members) composed of graduate faculty. Using the Graduate School’s graduate faculty categories as a guideline, the college or department committee will submit criteria for each graduate faculty category to the graduate dean for approval. In order to stay current, departments/colleges will re-evaluate the criteria and submit them to the Graduate School every five years. The committee will also assess faculty who seek to have graduate faculty status (including re-appointment). A positive recommendation is defined by a simple majority vote, after which the nomination and supporting information are forwarded to their respective department chair or college dean. Faculty (including departmental chairs) whose material is under consideration cannot serve or vote on the departmental/college committee during consideration of the candidate’s material.

The college dean has the right to request from the departmental/college committee additional justification in regard to the committee’s vote or candidate’s material. In the case of a positive vote by the college dean, the completed nomination form and supporting information/documents are forwarded to the Graduate School.

**Graduate Dean and Graduate Council Level**

The graduate dean has the responsibility to evaluate and approve the departmental/college committee’s criteria for each graduate faculty status. In cases where the graduate dean has disagreement with criteria established by the departmental/college committee, the graduate dean may return the criteria to the departmental/college committee for revision or further justification, and may also ask the Graduate Council for their recommendation.

The Graduate School will maintain records of current graduate faculty, including their status category and date of term completion (if applicable). The Graduate School will notify graduate faculty members (and their respective department chairs) whose terms will expire in a
timely manner. Review/renewal would then occur at the departmental/college level by the end of the fall semester. In addition, the Graduate School will notify the chairs to nominate newly hired faculty if they wish them to have graduate faculty status.

Once the nomination form is received by the Graduate School, the Graduate School dean may elect to confirm or deny the requested graduate faculty status. The Graduate School dean may also forward the candidate’s material to the Graduate Council for further discussion and recommendation. The Graduate School dean informs the faculty member and department chair of the final decision made regarding the granting of status.

**Faculty Due Process**
Each level of review should occur in a timely manner. When a negative recommendation is made (at any recommendation level), the denied recommendation form (which includes the justification for denial) is returned to the candidate (including the candidate’s materials), and a copy of the denied recommendation form is forwarded to bodies who previously granted approval.

Recommendations at all levels are based on a judgment of whether the faculty member meets the criteria set by the particular department or college. Faculty who receive a negative decision from the departmental or college committee, college dean, or Graduate School dean may petition the Graduate School dean to have their material reviewed by the Graduate Council. As part of their petition, faculty may elect to write a rebuttal to the vote justification of the departmental/college committee, college dean or Graduate School dean, and may include additional material in support of their grievance.

**Revocation or Loss of Status or Suspension of Privileges**

**Conditions Under Which Changes in Membership Status or Loss of Privileges May Take Place**
Membership status may be terminated or changed when an affiliate graduate faculty member no longer meets the eligibility requirements, or the affiliate graduate faculty member does not renew his/her membership. Nonrenewal of status, other than in cases of revocation or suspension of privileges may be appealed to the Graduate Council and the Graduate Council’s disposition of appeal is final. Membership of either status may be revoked or privileges may be suspended in certain extreme cases, such as those of professional incompetence as a graduate faculty member, academic dishonesty, scholarly/scientific/creative misconduct, or gross failure to fulfill duties related to graduate faculty membership.

**Procedure for Status Revocation or Suspension of Privileges**
Revocation of status or suspension of privileges of a graduate faculty member may only result from Graduate Council action following a complaint lodged with the graduate dean in writing, and only if the complaint includes appropriate documentation as evidence of cause for removal of status or suspension of privileges. The complaint will be investigated by a faculty committee formed by the Graduate Council (comprising at least three regular graduate faculty members). If further action on the complaint is deemed appropriate by the investigating committee, the Graduate Council will make the final decision about the action to be taken. The accused graduate faculty member will have the right to a hearing before the investigating committee and the Graduate Council.

A complete listing of graduate faculty is available on the Graduate School web page and in the Graduate School office. Students are advised to consult this list when selecting faculty advisors for theses and dissertations.

**Faculty Restriction**
Faculty members of WSU who hold the rank of assistant professor or higher cannot earn graduate degrees from Wichita State except for unassigned faculty (not attached to a particular college) or faculty members granted specific approval by the Graduate Council. Full-time faculty members may not pursue more than 6 credit hours of graduate credit per semester.

**Graduate Coordinators**
The Graduate School works closely with individual program areas to ensure that program operations function in compliance with Graduate School policies and regulations. As part of this process, a graduate faculty member is recommended by his or her department chair to the graduate dean for appointment as the graduate coordinator, to serve as the program representative to the Graduate School in matters of graduate education.

Although the nature of graduate coordinator appointments and responsibilities varies, graduate coordinators are charged with the responsibility for overseeing the evaluation of applications for admission and the transmittal of departmental recommendations for admission, academic performance, degree completion and exceptions to graduate school regulations.

Graduate coordinators also have a primary role in coordinating information between their programs and the Graduate School office, working with their departmental chairs or other administrators in maintaining the quality and viability of their graduate programs, and serving as the local agent for the graduate faculty in their program areas.

Graduate coordinators may also serve on graduate committees in their programs or academic colleges.
Admission to Graduate Study

In order to receive graduate credit at Wichita State University, students must be admitted to the Graduate School. Two admission statuses, degree and nondegree, are available to accommodate qualified students desiring to pursue graduate degrees as well as those simply desiring to earn graduate credit for personal and professional reasons.

To be considered for degree or nondegree graduate status, students must apply online (http://wichita.edu/apply) and submit all required materials, including the application fee. The online application will require uploading copies of official transcripts to be used for admission consideration.

The Graduate School at Wichita State University considers each applicant holistically for admission to its various programs. While baselines are set to aid departments in making decisions, additional factors will be considered when reviewing each application. These considerations include experience, recommendations, test scores, and even program capacity. Unless otherwise indicated for a specific program or degree level, the GPA baseline for graduate admission is 2.750. Unless otherwise specified, required application materials will be uploaded or entered through the online application portal.

Students who are offered admission are required to submit official transcripts of all previous academic work — including community college work, or work transferred to another institution — in order for their admission to be finalized. To be considered official, transcripts from U.S. Institutions must meet one of the following requirements:

- Sent directly by mail from the institutions where the academic credit was earned to the mailing address below.
- Sent directly through an e-transcript vendor by the institutions where the academic credit was earned to grad.transcripts@wichita.edu
- Sealed, official issued-to-student transcripts that are in envelopes sealed by the issuing institutions where academic credit was earned.

Official transcripts of work completed at Wichita State University (or transferred to Wichita State University) does not need to be sent to the Graduate School. WSU staff will be able to access those transcripts.

Note: the Graduate School cannot accept transfer work posted on another institution’s transcript. Students who transferred coursework from one institution to another and are applying for a degree-bound status, need to have official transcripts sent from each institution attended, unless that work is already posted as a part of their Wichita State University record.

To be considered official, transcripts and degree/provisional certificates from institutions outside the United States must bear an original stamp or seal from the issuing university or college. Plain copies and/ or notarized copies are not acceptable. Original transcripts, degree/ provisional certificates are not required, however, photocopies must be attested and include an original signature and stamp or seal in English from the issuing university or college.

The review criteria of student credentials for both domestic and international applicants are equivalent; differing only to account for variations in how the academic work is recorded.

Credentials other than official transcripts will be considered only for application as a visiting guest student or nondegree, Category B student. Please refer to the Levels of Admission (p. 19) section regarding the details of these options.

Admission Application

Applications for graduate study are made through the Wichita State University Graduate School regardless of the program. In addition to the Graduate School’s application, certain program areas will also require a program application.

All application materials in the folders (at the Graduate School and departmental levels) may be reviewed by the applicant upon request, except recommendation forms/letters where the applicant has waived his or her right to see the recommendations.

An admission to the Graduate School remains valid only if a student enrolls and completes at least one class as a graduate student within one calendar year of the admission semester. However, students admitted to the physician assistant, physical therapy, or other professional programs must enroll the semester of admission in order for the admission to remain valid. Students may apply to more than one program at a time, but may be admitted to only one program.

Admission Application Fee

All applicants to the Wichita State University Graduate School must pay a nonrefundable application fee each time an application is submitted. The application fee is:

$75 For international students
$60 For U.S. citizens or lawful permanent residents (proof of permanent residency will be required)
$10 Graduate Badge

Application Deadlines

The following are deadlines for submission of complete application materials for all applicants seeking on-time registration, except those applying for admission to programs in aging studies, anthropology, audiology, biological sciences, business administration, chemistry, communication sciences and disorders, counseling, creative writing, educational leadership, executive MBA, global supply chain management, history, innovation design, liberal studies, nursing, physical therapy, physician assistant, psychology, public administration, school psychology, social work, sociology and studio arts. Applicants to the program areas identified above should refer to departmental information in this catalog for application deadlines.

</thead>
<tbody>
<tr>
<td>Fall semester</td>
<td>May 1</td>
<td>August 15</td>
</tr>
<tr>
<td>Spring semester</td>
<td>October 1</td>
<td>December 1</td>
</tr>
</tbody>
</table>

Note: In cases where the departmental deadline is earlier than the Graduate School deadline, applicants must meet the departmental deadline. If the departmental deadline is later than the Graduate School deadline, the applicant must meet the Graduate School deadline.

Records required for admission to programs without application deadlines, and from applicants not requiring visa status, should reach the Graduate School by the published Graduate School application deadline for the semester in which admission is desired. Materials received after this date will be processed as the time of staff and faculty permits, but the Graduate School cannot guarantee that final action can be taken in time to allow enrollments for graduate credit.

Because of possible limitations in the number of faculty and available facilities, there are restrictions on the number of students admitted to some graduate programs. These limits may prevent some qualified students from being admitted. Since programs with enrollment limitations generally take action on new applicants in February or March for fall admission, early application is recommended. Preference is usually given to degree-seeking applicants.

Admission Preparation

Applicants with bachelor’s degrees in programs in which credit was awarded for experiences which were outside the control of a regionally accredited educational institution, for example, credit for life experience, may be viewed by some programs as inadequately prepared to undertake graduate study. In such instances, admission to the Graduate School may be denied or approved with prerequisite coursework assigned to fill the deficiencies.

Admission Requirements

Degree Admission

To pursue a graduate degree at WSU, students must be admitted to the specific program for which they are seeking a degree. Students may not be admitted to more than one degree program at a time. The Graduate School at Wichita State University considers each applicant holistically for admission to its various programs. While baselines are set to aid departments in making decisions, additional factors will be considered when reviewing each application. These considerations include experience, recommendations, test scores, and even program capacity. Unless otherwise indicated for a specific program or degree level, the GPA baseline for graduate admission is 2.750.

Specialist and Master’s Programs

Applicants for full-standing degree admission to the specialist and master’s programs typically must have:

1. Earned a bachelor’s degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor’s degree are substantially equivalent to a U.S. bachelor’s degree. The basis on which credits are awarded for the bachelor’s degree must be consistent with the policies and procedures for the award of such credit at Wichita State; and

2. Achieved a grade point average of at least 2.750 from a U.S. institution, or its equivalent from a foreign institution, including any postbachelor’s graduate work, and no more than 9 credit hours of background deficiencies in the desired field of graduate study. In certain instances, the GPA may be based on the last 60 credit hours of coursework (or nearest semester or term break to this). Many departments require a higher minimum grade point average.

Although an entrance exam is not a requirement for admission to the Graduate School, certain program areas require either the Graduate Record Exam (GRE), the Graduate Management Admission Test (GMAT), or the Miller Analogies Test (MAT). Applicants should refer to the program and admission requirements (p. 5) table to determine if a specific program requires an entrance exam.

See Entrance Exam Contact Information (p. 21).

Doctoral Programs

Applicants for full-standing degree admission to the doctoral programs typically must meet the following requirements:

1. Hold a bachelor’s degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor’s degree are substantially equivalent to a U.S. bachelor’s degree. The basis on which credits are awarded for the bachelor’s degree must be consistent with the policies and procedures for the award of such credit at Wichita State.

2. Typically, applicants must meet the GPA requirement as explained below.

   a. For programs where the minimum requirement for admission is the bachelor’s degree, students must achieve a grade point average of at least 3.000 from a U.S. institution, or its equivalent from a foreign institution, including any postbachelor’s graduate work. In certain instances, the GPA may be based on the last 60 credit hours (or nearest semester or term break to this).

   b. For programs where the minimum requirement for admission is the master’s degree, students must achieve a grade point average of at least 3.250 from a U.S. institution, or its equivalent from a foreign institution in all graduate-level coursework.

3. A student may have no more than 9 credit hours of background deficiencies in the desired field of graduate study.

Although an entrance exam is not a requirement for admission to the Graduate School, certain program areas may require the Graduate Record Exam (GRE). Applicants should refer to the program and admission requirements (p. 5) table to determine if a specific program requires an entrance exam.

Nondegree Admission

Persons who already possess a graduate degree, who do not want to seek an additional graduate degree at this time, or who wish to take graduate courses for professional advancement or personal satisfaction, should apply for nondegree admission. Students originally admitted to a nondegree category may later apply for degree admission. A maximum of 12 credit hours of graduate credit taken while in a nondegree category — not including courses leading to a graduate certificate — may be counted toward a degree program, provided students have obtained the approval of their major department and the graduate dean, through submission of the plan of study.

Nondegree, Category A

Admission to this category provides students the opportunity to take any level of graduate coursework for which they have the prerequisites. Nondegree applicants seeking graduate certificates must be admitted under this category. Upon satisfactory completion of a course, credit is placed on a Wichita State University graduate transcript.
only credit earned in courses numbered 500 and above is counted as
graduate-credit work.

Students applying for admission in this category typically must meet the
following requirements:

1. A bachelor’s degree from a regionally accredited institution; and
2. A grade point average of at least 2.750, including any
postbachelor’s graduate work. In certain instances, the GPA may be
based on the last 60 credit hours of coursework (or nearest semester
or term break to this). Many departments require a higher minimum
grade point average.1

Although there is generally no application deadline for nondegree,
Category A admission, applicants are encouraged to provide the
following items no later than three weeks prior to the start of the
semester in which they wish to enroll:

1. The Graduate School application form (submitted online)
2. Application fee (submitted online)
3. Uploaded copies of transcripts of either all academic work
including the bachelor’s, or an earned master’s degree (uploaded as
part of the online application form)

Note: If admitted, an official copy of the uploaded transcript will be
required. WSU transcripts will be ordered by the Graduate School
for admits who have completed WSU coursework.

Nondegree, Category B
This category is specifically for students who are not seeking a
graduate degree but who want to continue personal and professional
development beyond the bachelor’s level through enrollment in certain
graduate-level courses, including workshops. Students in this category
are restricted to enrollment in courses numbered through 799 and for
which they have the prerequisites. Credit earned in Category B status is
placed on a Wichita State University graduate transcript; graduate credit
is awarded for courses numbered 500 through 799.

Students applying for admission in this category must have earned
a bachelor’s degree from a regionally accredited institution. Many
programs require a minimum grade point average.

Although there is generally no application deadline for nondegree,
Category B admission, applicants are encouraged to provide a
completed application packet no later than three weeks prior to the start
of the semester in which they wish to enroll.

The completed application packet must contain the following:

1. The Graduate School application form (submitted online)
2. Application fee (submitted online)
3. Uploaded copies of transcripts of either a bachelor’s degree from a
regionally accredited institution or a copy of a teaching certificate
(uploaded as part of the online application form)

Note: If admitted, an official copy of the uploaded transcript will be
required. WSU transcripts will be ordered by the Graduate School
for admits who have completed WSU coursework.

Graduate Certificate Programs
Graduate certificates are awarded to students who desire
interdisciplinary coursework to complement their graduate degree
program or who, for academic, personal or professional reasons, desire
graduate-level education not leading to a graduate degree.

Students seeking graduate certificates must be admitted to the Graduate
School in a degree program or in nondegree, Category A status. All

Graduate School policies relative to the admission criteria mentioned
previously apply.

Students completing the requirements for a graduate certificate program
must submit the Graduate Plan of Study form and the Application for
Degree form no later than the 20th day of the fall or spring semester
or the 10th day of the eight-week summer term when certificate
completion is anticipated.

The graduate plan of study is prepared in conjunction with the advisor
of the graduate certificate program area and is forwarded to the dean
of the Graduate School. Certificate advisors are expected to inform
students that a plan of study and certificate degree form are required
according to the above deadlines.

Certificate programs are not eligible for Title IV (federal financial aid)
funding unless the certificate is a requirement of the degree program.
The exceptions are approved programs of at least one academic year
in duration that lead to a certificate and prepare students for gainful
employment in a recognized occupation. Approved programs will be
designated with disclosure information on the program web page in the
applicable academic college.

Graduate Badge Admission
Admission to this category provides students the opportunity to take
badge coursework for which they have the prerequisites. Students in
this category are not seeking a graduate degree, but want to continue
professional development through skills acquired in the badge
coursework. Students applying for admission in this category typically
must meet the following requirements:

1. A bachelor’s degree from a regionally accredited institution; and
2. A grade point average of at least 2.750. In certain instances, the
GPA may be based upon the last 60 credit hours of coursework (or
nearest semester or term break to this), including any postbachelor’s
graduate work.

Although there is no application deadline for the graduate badge
category, students are encouraged to provide the following items no
later than two to three weeks prior to the start of the badge course in
which they wish to enroll:

1. The Graduate School application form (submitted online)
2. Application fee (submitted online)
3. Uploaded copies of transcripts of either all academic work
including the bachelor’s, or an earned master’s degree (uploaded as
part of the online application form)

Note: Those admitted to Badge status do not have to submit official
transcripts for admission.

Important Note: Depending on a program’s structure, badge credit may
not be used in the future for a degree or certificate program. If a badge
student later applies for and is admitted to a degree seeking program
that does allow badge coursework, all graduate rules with respect to
coursework will apply to the badges (e.g. time limits; nonletter graded
coursework limits).

Graduate Guest Admission
Graduate students in good standing at another regionally accredited
graduate school may be admitted as visiting guest students. Such
admission is valid for only one semester. Admission requires the
submission of a completed application and application fee, and a signed
letter from the graduate dean or the dean’s representative at the home
institution certifying the student’s status as a graduate student in good
standing. Visiting guests must have their school’s permission to take up
to one semester’s work for transfer back to their home institutions. If enrollment is desired beyond one semester, students must obtain regular admission.

1 Please be aware that entrance requirements for the Master of Innovation Design program are more flexible, with more emphasis placed on the applicant's fit for the program.

**English Proficiency**
Proof of English proficiency may be required for U.S. citizens or permanent residents who are non-native English speakers. Please review the more detailed English Proficiency (p. 20) section for additional information.

**Levels of Admission**

**Full Standing**
Students who have fulfilled all of the admission requirements for a given program, including admission grade point average, entrance exams if required, reference and credentials if required, and have 9 credit hours or less of prerequisites, may be granted admission on a full-standing basis. Students admitted to full standing are eligible for consideration for assistantships and federally-funded financial aid.

**Conditional Status**
Students who may have background deficiencies in excess of 9 credit hours, but fewer than 16 credit hours, or who have not submitted required references, examinations and so forth, but who otherwise have met the full-standing degree program requirements, may be granted admission on a conditional basis. Students are allowed one semester to submit the remaining credentials, including test scores, and one year to remove background deficiencies. Transfer to an appropriate nondegree category will result if the necessary conditions are not satisfactorily met. Students admitted with conditions are not eligible for federal- funded financial aid, but may be considered for graduate assistantship positions.

**Probationary Status**
Students who do not meet the minimum academic requirements for full-standing degree program admission may be admitted on probation when reasonable evidence exists to indicate their ability to do satisfactory degree program work. In order to clear the probationary status, students must complete their first 9 credit hours of graded graduate-level coursework at Wichita State University with a minimum 3.000 grade point average. Only courses numbered 500 and above which are letter graded (A, B, C, D, F) can be used toward the 9-credit-hour requirement. S/U, Bg/NBg and Cr/NCr courses will not count toward the 9-credit-hour requirement.

Students who have a graduate history at WSU must also raise their graduate grade point average to a 3.000 or better to be removed from probation.

Students admitted on probation or placed on academic probation following admission are not eligible for federally-funded financial aid.

**Graduate Credit for Undergraduates**

**Senior Rule Admission**
Seniors at Wichita State or neighboring bachelor’s-degree-granting institutions may qualify to take work for graduate credit under the senior rule option. Students who wish to earn graduate credit under the senior rule option must apply to the Graduate School for regular graduate admission and also complete an Application for Senior Rule. Both forms, available on the Graduate School’s website, are due in the Graduate School no later than two weeks before the semester in which the student intends to enroll under the senior rule option. Students planning to earn senior rule credit for more than one semester must submit a new Application for Senior Rule form each semester. Courses taken at the 500–700 level that are not identified on the Application for Senior Rule form as being intended for graduate credit will be awarded as undergraduate credit.

Approval is needed from the student’s major advisor, the chairperson or graduate coordinator in the program in which the work is to be taken, and the dean of the Graduate School. In addition, students from other institutions must be admitted as undergraduates (possibly as guest students) through the WSU undergraduate admissions office. Tuition for graduate courses will be assessed at the graduate rate.

Students should meet with their advisor to create a plan for completing the undergraduate degree while taking additional graduate credit. Courses taken for graduate credit cannot be used to complete undergraduate degree requirements. Students must maintain a 3.000 GPA in all courses approved for Graduate credit under the senior rule policy. If a student does not complete their bachelor’s degree, the graduate credit may revert back to undergraduate credit.

Students who are receiving federal financial aid should consult with a financial aid advisor to determine if taking graduate level coursework while an undergraduate student will impact their financial aid award.

**Admission to Dual/Accelerated Bachelor’s to Master’s Degree Programs**
The dual/accelerated bachelor’s to master’s degree programs offer outstanding students opportunities to advance their careers in significant ways by pursuing the bachelor’s and master’s degrees in a parallel and coordinated program. In addition, it may be possible for students to complete the requirements for both degrees (in the same field) in an accelerated time frame. The goal of this program is to provide students with a high level of academic advising culminating in the preparation of the graduate program of study while students are still in their sophomore or junior years. Graduate education involves a close working relationship between students and graduate faculty mentors, and the dual/accelerated degree programs develop this relationship early in the student’s career. Dual/accelerated degree programs are available in:

- BA to MA in economics
- BS to MS in biomedical engineering
- BS (in industrial or manufacturing engineering) to MS in industrial engineering
- BS to MS in mechanical engineering
- BSN to MSN in nursing
- BS to MS in mathematics
- BA to MA in English

Each dual/accelerated program has specific admission requirements. Students should consult with the department’s graduate coordinator if they are interested in this type of program.

Students who are receiving federal financial aid should consult with a financial aid advisor to determine if taking graduate level coursework while an undergraduate student will impact their financial aid award.
Readmission for Former or Dismissed Students

WSU Former Graduate Students in Inactive Status

Students who have completed coursework at Wichita State University, but have not enrolled in the past 24 months, are placed in inactive status. To enroll again, inactive students must complete an online reactivation form available at the registrar’s website (http://wichita.edu/registrar). This should be done at least one month before any planned enrollment.

Because of changes in program requirements, periods of nonenrollment may result in the need to reapply for admission to the program.

Graduate Readmission Following Academic Dismissal

Following academic dismissal, students who wish to be considered for readmission to the Graduate School must first complete a minimum of 9 credit hours of 500 level or above letter-graded coursework, selected with appropriate advisement. These 9 credit hours cannot include repeats of courses for which graduate credit was previously earned, and cannot be applied toward a graduate degree should the student be readmitted. Such coursework must be completed with a grade point average of 3.000 or higher for the readmission application to be considered. Meeting this standard, along with both Graduate School and program-specific requirements, will permit consideration of readmission to a graduate program. Previously dismissed students who are recommended for readmission under this policy will re-enter on probation.

Information for International Applicants

All Graduate School policies relative to the admission criteria mentioned previously apply. The formal admission of international students is a two-part process. The first part evaluates academic admissibility based on the application form and transcripts or mark sheets provided. Applicants recommended for admission will be notified by the Graduate School of their eligibility for admission and the application will begin the second part of the admission process.

The second part requires the demonstration of sufficient English proficiency (TOEFL, IELTS or PTE Academic) and financial resources (WSU Certification of Financial Support) to support graduate work in the United States.

The first semester of enrollment at WSU for all international graduate students must be in the program to which the student was admitted.

Transcripts

For admission consideration, applicants will upload copies of their official documents into the online application portal. If offered admission, WSU will require that the student provide an official copy of all postsecondary school transcripts, translated into English. If the transcript does not indicate the award of a bachelor’s degree or its U.S. equivalent degree, official copies of the degree certificate or diploma are required.

International applicants who have completed graduate work or have attended a U.S. university will need to have an official transcript showing that work sent directly from the institution, or may submit official issued to student transcripts. Please note that in order to be accepted, the transcripts must be received in the Graduate School office in envelopes sealed by the issuing institution.

Graduate programs will evaluate international applicants based on the uploaded copies of official transcripts or mark sheets through at least the sixth semester of work in a four-year program. For international students in a yearly program, this will be after the third year.

In this instance, applicants who are recommended for admission and who have met all other admission requirements will be notified of admission and issued the I-20 form. Students admitted in this manner must provide the remaining transcript or mark sheet and the degree certification statement or diploma by the end of their first semester of enrollment as graduate students at WSU. Students who fail to meet this final requirement will be designated as out of compliance and will be reported to the university’s Office of International Education.

English Proficiency

During the online application process, students will have the option of uploading a copy of their official test scores, if available. If offered admission, applicants whose native language is not English must submit official, acceptable scores for either the TOEFL, the Academic Module of the IELTS examination, or the PTE Academic. To be acceptable, the score must be sent to WSU directly from the testing agency, and must be less than two years old. The minimum acceptable scores for most programs are: TOEFL — 79 on the Internet-based test, or 550 on the paper-based test. IELTS — minimum overall band score of 6.5 is required. PTE Academic — 58. Students completing the Intensive English program at WSU may establish English proficiency by achieving a cumulative GPA of 3.000 in Levels One through Six, and a grade of B+ or higher in Level Seven. Some programs do have higher requirements for English proficiency. Please refer to the table below for specific information. Programs with higher requirements may still require students to achieve these scores even if they complete the IELC coursework as described above.

Waivers will be considered if the applicant has attended a college or university in the United States as a full-time student for a minimum of one year. Enrollment must have been in academic-only coursework (no English language training courses), and must have resulted in a GPA of 3.000 or higher. In order to be considered for a waiver, this coursework must have been completed within two years of the proposed semester of admission at WSU.

Waivers will also be considered if the bachelor’s or graduate degree was awarded from a U.S. university within two years of the proposed semester of admission at WSU.

The following programs currently require a higher score than the minimum stated above. The listing below includes only the Internet-based TOEFL, IELTS and PTE Academic scores. For paper-based equivalencies, please contact the Graduate School.

Each nonimmigrant international student must obtain and maintain medical insurance from a company authorized to do business in the United States, with the following minimum coverages:

1. Basic injury and sickness benefits amounting to at least $10,000;
2. Major medical coverage in an amount of at least $100,000;
3. Coverage to provide for medical evacuation of the student to the student’s home country; and
4. Coverage to provide for repatriation of the student’s remains to the student’s home country in the case of death.

Failure to obtain and maintain such coverage during the student’s time of enrollment will be grounds for discipline up to and including expulsion.

**Exceptions to Regulations**

Departures from the rules and regulations stated in the Graduate Catalog require the filing and approval of an Application for Exception to Graduate School Regulations form. Such requests must have the approvals indicated on the form and must state in a logical and coherent manner a rational basis for the requested exception. Forms for such requests are available from the Graduate School website. Unusual and/or substantial deviations from stated rules and regulations may require action by the Graduate Council.

**Entrance Exam Contact Information**

Many graduate degree programs have entrance examination and GPA requirements. (See Graduate Degree Programs and Departmental Admission Requirements (p. 5))

Please contact the appropriate organization for further entrance exam information:

Enrollment
Load Definitions, Restrictions
Load Definitions
At least 9 credit hours of graduate credit coursework is defined as full-time graduate enrollment during the fall or spring semester. During the summer session, a minimum of 6 credit hours is considered full-time graduate enrollment. Load (total credit hours) does not include audit enrollments. Students enrolling in all or a majority of courses that carry undergraduate credit must meet the undergraduate requirement for certification as full-time students (12 credit hours).

International students must enroll as full-time students (at least 9 credit hours of graduate credit coursework) each semester. Students placed on probation after admission are not allowed to enroll in more than 12 credit hours during semesters in which they are on probation.

Students holding assistantships should work with their advisors to arrive at a load appropriate to their situation.

Graduate students holding assistantships during a fall or spring semester are expected to enroll in at least 9 credit hours of graduate coursework, of which 6 credit hours must be at the graduate level. Approval to allow graduate assistants who hold a 20-hour appointment to be enrolled in 6–8 credit hours may be granted by the program in which the student is admitted. Special consideration for thesis, project, dissertation and research enrollments below 6 credit hours may be obtained by filing an exception with the Graduate School.

Enrollment While on Probation
Students placed on probation after admission are not allowed to enroll in more than 12 credit hours during semesters in which they are on probation.

Registration, Drops and Adds
The registrar establishes procedures for registration. Graduate students must enroll according to the procedures published online (http://wichita.edu/registrar). Students register through web registration in the myWSU portal.

Prior to registering for classes, all students should contact their academic advisors to assure they are taking the appropriate classes. Early registration for one semester normally begins about midway through the preceding semester. Registration for a course or courses represents a financial commitment that the student is obligated to pay.

Newly admitted, currently enrolled and former graduate students, not academically dismissed, are eligible for online registration. Some academic restrictions have been built into the system. Some restrictions cannot be overridden including nondegree, Category B students enrolling in courses beyond the 799 level. Program specific restrictions may be considered for removal by contacting the appropriate program.

Registration and classes begin and end at varying times so it is important to consult the semester calendar for details. For more information, check the Schedule of Courses website (http://wichita.edu/schedule).

Once a student has enrolled, classes may be changed online for a certain period of time that varies according to the start date and length of the course. After the online period has passed, students must process in-person drop and/or add forms with the appropriate approvals. Changes of sections also require such action. If these forms are not submitted, a grade of F could be recorded for failure to attend the class shown on the original enrollment records.

Late enrollments or adds normally will not be approved after the 20th class day. Drops of classes with a grade of W (withdrawal) are subject to a time limit established by the registrar.

Cutoff deadlines for dropping with a refund also vary according to the start date and length of the course.

Students who find it necessary to completely withdraw from the university must drop each class.

Tuition and Fees
The tuition and fees listed are subject to change by the Kansas Board of Regents.

Basic Fees
Basic fees for resident and nonresident students are listed here. For tuition and fees for Shocker City Partnership, Shocker Select and Midwest Student Exchange students, visit the tuition and fees webpage (http://wichita.edu/tuition).

Note: Tuition and fees are for the fall and spring semesters and the summer session. Tuition and fees for 2018–2019 had not been established at the time of publication, but an increase is anticipated. Published fees reflect the 2017–2018 rates.

The tuition for online majors is set at the resident rate (undergraduate and graduate).

The Campus Infrastructure and Support Fee (formerly Facilities Use Fee) supports registration costs and the OneStop service center which provides 24/7 support for students in the areas of admissions, financial aid, registration, advising and student accounts. All students have access to such services virtually or at the physical OneStop service center.

The Technology Fee is assessed to all students for technology upgrades and replacement.

The Transportation Fee is assessed to all students to help offset the cost of the campus shuttle bus service.

Amount to be assessed in each semester per student.

Summer I and/or Summer II per student.

Students enrolled in online majors are exempt from the semester fee.

### Workshops, Off-Campus, Online, Auditing Course Fees

#### Credit and Noncredit Courses for Nondegree-Seeking Students

<table>

</tbody>
</table>

#### CATIA Workshops (regardless of location)

The laboratory fees for CATIA workshops are as follows:

- 1.5 Credit-Hour Workshops Tuition and Fees: $800/workshop
- 0.75 Credit-Hour Workshops Tuition and Fees: $400/workshop
- Media Course/Telecourse Fee          | $20/credit hour |

#### Auditing Course Fees

Tuition and fees per credit hour for courses and workshops audited are the same as for courses taken for credit.

#### Student Parking Permits

Students and frequent visitors desiring to park on campus can go to http://mywsu.wichita.edu to purchase an e-permit.

Students and Frequent Visitors: $75/semester (fall, spring)

Car/SUV/Truck/Motorcycle

#### Payment

Tuition and fees, including any departmental or college fees, are required to be paid in full for any course in which a student is still enrolled after the deadline for dropping that course with a 100 percent refund.

An installment payment plan is available at the time of enrollment to assist students in making tuition payments. Any student who does not have financial aid from other sources sufficient to pay tuition and fees is eligible if the student has paid all previous obligations to the university. The installment plan requires a $130 nonrefundable down payment which includes a $30 setup fee making the installment plan interest-free. Installment plans must be repaid in two or three equal installments according to the deadlines for a given semester.

### Assessment and Collection

The senior associate vice president for financial services is responsible for the assessment and collection of fees. All semester fees, including laboratory fees, are due and payable in full at registration.

#### Late Fees

All accounts with a balance greater than $150 from tuition, enrollment related fees, or housing charges assessed in the current term will incur a $100 late fee on the first business day after the published payment due date. The payment due date for tuition and enrollment related fees will coincide with the financial aid office consensus date, the registrar’s office late enrollment date, and the financial operations office 100 percent refund date. The payment due date for housing charges is stated in the housing contract.

All delinquent accounts with a balance due greater than $150 from tuition, enrollment related fees, or housing charges will incur a late payment fee of $100 ninety (90) calendar days into the current term.

#### Unpaid Fees

Students who leave Wichita State University without meeting their financial obligations to the university may have their records impounded by the registrar and their accounts may be sent to a collection agency resulting in additional fees. Their transcripts or diplomas will not be issued unless their accounts are cleared, and they may not enroll for a new term unless all fees are paid.

Students who are eligible to graduate but still have unpaid tuition balances will not receive their diplomas until those fees are paid.

#### Board of Appeals – Residency Status

Two faculty members, a representative of the vice president for student affairs, a representative of the director of financial operations, and a representative of the general counsel’s office constitute the board of appeals for students who believe their residency status has been incorrectly assessed or is eligible for change. The decision of this committee is final. Forms to initiate this process are available in the registrar’s office, 102 Jardine Hall. Residency forms can also be downloaded online (http://wichita.edu/residency). Also see the Residency Defined section in this catalog.

#### Special Fees and Refund Policies

#### Drop/Add Fee Policy

Students who drop credits in the same term and do not add credits will be charged the proportional percentage based on the week they drop the credits.

Students who drop and add credits in the same term will not be required to pay additional tuition/fees if the following conditions are met:

1. The drop and add occurs in one transaction; and
2. There are an equal number of credit hours added as are being dropped, and the credit hours have an equivalent charge.

A course that has been added in accordance with parts 1 and 2, and is subsequently dropped, will retain the same refund percentage as the
original course dropped. Students who drop the added course that met the above conditions will have an adjustment made to their account. (Example: A student drops course A and adds course B. Course A would have had a 0 percent refund; however, because conditions have been met, student receives a 100 percent refund for course A. Student then decides to drop course B. An adjustment is made to the account reversing the 100 percent refund received for course A.)

Complete and Partial Withdrawal
Complete withdrawal from the university is accomplished when a student officially drops all classes in which they are enrolled.

Students are eligible for refunds as published online in the fee calendar each semester. In short-term classes, students will have the first class period to determine if the class is suited for them. Students who register late or fail to attend the first class period in short-term classes will not be eligible for 100 percent refunds according to the policy.

The first class day refers to the first day of the part-of-term as defined by the department and registrar’s office; thereafter, the day refers to the business day. The length of the part-of-term determines the refund, not the start and end date of the course. When a course’s part-of-term length falls between two of the above categories, then the shorter one is used. (Example: If course A part-of-term begins Monday and the actual course meets on Thursday, the refund business day begins with Monday, not Thursday.

If a short-term class begins on Friday night, Saturday, or Sunday, students will have until the end of the first business day to drop the course. In order to receive a 100 percent refund for the class, the student must provide documentation that he or she did not attend more than four hours of the class.

No one other than the Office of Financial Operations and Business Technology in 201 Jardine Hall, or the Tuition Refund Board of Appeals is authorized to determine the amount of tuition refund a student will receive.

Military Refund Policy
Students serving in the National Guard or Reserves who are called to active duty during an academic term are entitled to receive a full refund of tuition and fees. Students who are drafted and must report for active duty during an academic term are entitled to receive a full refund of tuition and fees. All refunds are subject to presentation of official documentation. Students who are classified as civilians, but choose to assist in nonmandatory U.S. military related efforts, are not covered by this exception and will be subject to the university’s nonmilitary refund policy. Room and board charges will be prorated to the extent that services have been provided.

The university will return any unearned tuition assistance (TA) funds by using the standard formula for determining the amount of TA earned by the institution. This is calculated on a percentage basis by dividing the number of days a student completes, based on the last date of attendance, by the total number of days in the course. This calculation, if less than the 60 percent completion rate, determines how much TA the student has earned and for how much the military branch may be invoiced. Should there be any remaining TA funds prior to the 60 percent period of a course, these funds will be reimbursed directly to the military branch from which the funds were provided, not to the student.

Exceptions to the Refund Policy
Students who, because of extenuating circumstances, seek a higher refund than is available by policy, must petition the Tuition Refund Board of Appeals. Petition forms are available at the myWSU myFinances tab (http://myWSU.wichita.edu), or the Office of Financial Operations and Business Technology, 201 Jardine Hall. The petition must be filed with the appropriate documentation. A Petition for Tuition Refund beyond the policy must be filed at the Financial Operations and Business Technology Office within the semester the course was taken.

Students who may have received approval from the University Exceptions Committee for a late withdrawal from a previous semester are not eligible by policy for a tuition refund. These are separate issues and decisions. Medical or military approvals will receive a 100% tuition refund.

Tuition and Fee Waivers

Student Fee Waivers
Student fees shall be waived for all Wichita State University benefits-eligible employees who are not carrying full-time class loads (undergraduate 12 credit hours; graduate 9 credit hours); adjunct faculty members and lecturers. These university employees must have an appointment for the semester in which the student fee is applicable.

Student fees shall be waived for enrolled students who are working in their cooperative education or applied learning job, or who are performing a required clinical rotation or internship off the WSU campus (defined as the City of Wichita, its contiguous industrial sites and the WSU South and West locations) for the entire semester.

Student employees and graduate assistants are not eligible for student fee waivers.

Tuition Waiver for Kansas Teacher of the Year
Kansas Teacher of the Year recipients are allowed to enroll tuition free in up to 9 credit hours annually provided the individual is actively pursuing a teaching career in Kansas.

To be eligible, a person must be:

1. A past or present recipient of the Kansas Teacher of the Year award under the program administered by the Kansas Department of Education, and
2. Employed as a teacher in an educational institution accredited by the Kansas Department of Education.

A list of persons eligible for this tuition waiver is on file in the Board of Education Office.

Senior Citizen Fee Waiver
In accordance with Kansas Board of Regents policy, students who are at least 60 years of age may audit (no credit) regular lecture or certain group activity courses — when there is space available and for which they meet the prerequisites — without payment of tuition and student fees, campus infrastructure and support fees, and technology and transportation fees. However, senior auditors must pay any applicable workshop fees and lab/special course fees.

Prerequisites include admission to the graduate school for graduate courses, and program admission for courses in which program admission is required of all students.

Senior citizens must present a Medicare card or driver’s license to validate age. A special senior citizen registration is held after the first day of classes — see the Schedule of Courses, semester calendar at the registrar’s website (http://wichita.edu/registrar).
Senior citizens desiring college credit or the assurance of space in specific courses may enroll and pay full fees during regular registration.

Senior citizens who have not enrolled at WSU before must complete an application for admission and pay the application fee before registering at the undergraduate or graduate admissions office, $40 for undergraduate or $60 for graduate.

Senior citizens who want to participate in certain group activity courses, have three options:

1. Purchase a membership in the Center for Physical Activity and Aging (CPAA), $50 for membership purchased at the HPS department, and $75 for parking per student. Enrollment through the registrar’s office is not necessary.
2. Those who want more complete access to the Heskett Center, and Ablah Library privileges, may join CPAA and enroll through the registrar’s office with audit status in a 0 credit hour section. Costs include a $50 membership fee, $21 + tax Heskett Center fee, paid at the Heskett Center, and any applicable workshop fees and lab/ special course fees.
3. Senior citizens may enroll in one class for full credit at a total cost of the current tuition and student fees, campus infrastructure and support fees, and technology and transportation fees.

Members of the CPAA are eligible each semester for functional assessment testing of their ability to perform daily living activities and an annual bone density evaluation. Membership also provides education concerning the concepts of active aging to the older adult population through newsletters, workshops, lectures and exercise demonstrations.

**Midwest Student Exchange Program (MSEP)**

Residents of specified states who enroll in selected majors at WSU are eligible to pay just 150 percent of in-state tuition instead of paying out-of-state tuition rates. This is a tuition discounting program, not a scholarship.

In Kansas, all graduate students participating in the Midwest Student Exchange Program:

1. Must be fully admitted to the MSEP-eligible graduate program of choice — see admissions requirements online (http://wichita.edu/gradprograms); and
2. Must enroll full time in an MSEP-eligible graduate major and make acceptable progress toward the degree (Note that graduate students who hold a teaching, research or staff graduate assistantship of 16 credit hours or more per week are not eligible for the MSEP tuition reduction.); and
3. Must be a resident of Illinois, Indiana, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio or Wisconsin.

If a student satisfies these criteria, they will be sent an MSEP agreement. Fee bills will reflect MSEP tuition rates only after the agreement is signed and returned. MSEP participation must begin at the time of first admission and enrollment at WSU.

See the MSEP program website (http://wichita.edu/msep) for contact information and the most up-to-date list of eligible majors.

**Residency Defined**

The residence of students, for tuition and fee purposes, is determined by acts of the Kansas legislature, rather than university policy. The legislature has also granted the Kansas Board of Regents certain authority to adopt regulations and guidelines for the determination of residence, within the broader state law. The law and regulations are different than those that govern residency for any other purpose.

According to Kansas law and regulations, a resident, for tuition purposes, is someone who has resided (been physically present) in Kansas for 12 consecutive months prior to enrollment/re-enrollment as a U.S. citizen or permanent resident, and who has demonstrated, during those 12 months, the intent to make Kansas his or her permanent home. Intent is evaluated in light of:

1. The person’s statement about why she or he came to Kansas in the first place, and
2. What the person has done since coming to Kansas (objective, verifiable facts).

Many factors are considered when evaluating intent. The Kansas Board of Regents’ guidelines list nonconclusive factors or circumstances that could help support a claim for resident classification. The guidelines also specify a qualifier: “Any such factor, to be given weight, must be of at least one year’s duration prior to enrollment/re-enrollment.”

Residents of Kansas (for fee purposes) who leave the state retain their residency as long as they return to Kansas permanently within 60 months of departure.

A person who comes to Kansas to go to school, and who enrolls full time every semester after arriving, may not be able to demonstrate the intent to remain in Kansas permanently, as long as that pattern continues. In contrast, certain exceptions are authorized by state law to pay the equivalent of resident fees:

1. Regular employees of the university and their spouses and dependent children (does not apply to student assistants and graduate assistants);
2. Persons who are current military including members of the Kansas Air or Army National Guard, and their spouses and dependent children;
3. Veterans who live in Kansas and are eligible for post-9/11 benefits, or the eligible spouse or dependent child using the veteran’s benefits;
4. Persons who graduated from a four-year program at an accredited Kansas high school within six months of their enrollment at a state university, and who were Kansas residents for fee purposes at, or within 12 months of, high school graduation;
5. Dependent students as long as at least one parent is a Kansas resident for fee purposes;
6. Persons who were recruited to, or transferred to Kansas within the last 12 months for a full-time job, and their spouses and dependent children; and
7. Any person who is attending or has attended Haskell Indian Nations University and who is enrolled as an American Indian on a tribal membership roll maintained by the Bureau of Indian Affairs of the U.S. Dept. of the Interior.

*The details about each of these exceptions are critical and are not all on this page. Several require certification of appropriate information on a special form. None of them is automatic. Contact the registrar’s office for more information.*

A person who is residing in Kansas and would not otherwise be considered a resident of Kansas will be considered to be a resident for tuition purposes if she or he has attended three years of high school in Kansas and graduated from an accredited Kansas high school or
earned a Kansas GED and she or he is not on a student visa or eligible to pay resident rates in another state. This can apply to undocumented aliens and former Kansans who have not been back in Kansas long enough to re-establish residency. This law does not apply to an eligible person’s spouse or dependents. People who have been admitted as nonresidents and think they are eligible to be considered residents because of this provision should contact the registrar’s office. The three years of high school in Kansas (includes 9th grade), and Kansas high school graduation, must be documented. It doesn’t matter when the person attended or graduated. Aliens with nonpermanent resident status must document that. Aliens must sign an affidavit indicating that they will apply for permanent residency as soon as they are eligible. All students must sign an affidavit indicating that they are not eligible to pay resident rates in any other state.

Students applying for residency should contact the Office of the Registrar, 102 Jardine Hall. There are many details about establishing Kansas residency for tuition purposes that will be explained upon further inquiry.

Residency of new students enrolling for the first time at Wichita State is determined by the appropriate (undergraduate, graduate or international) admissions office according to the above law/regulations. Such students should address questions concerning residency to the appropriate admissions office.

When a continuing student, who was initially classified as a nonresident, thinks he or she meets these residency requirements, then he or she must apply for residency using a form available from the registrar’s office. Lower fees do not necessarily mean that someone has been classified as a resident — there are no nonresident fees, for example, for workshops.

The responsibility of registering under proper residence is placed on the student. If there is any possible question of residence classification, it is the duty of a student when registering and paying fees to raise the question with the registrar’s office. Students who disagree with their residency classification are entitled to an appeal, provided they file a written appeal with the registrar within 30 days from enrollment and pay the fees as originally assessed. A standard appeal form is provided by the registrar’s office. If notice of the appeal is not given in writing within 30 days, the classification or reclassification by the registrar becomes final. Appeals are reviewed and decided by the university committee on residency, and its decision is final. The committee is not empowered to make exceptions, just to apply the law and regulations to individual circumstances.

Students must report their correct address at the time of registration each semester. The address given must be the student’s actual place of residence, because it will be the one to which all correspondence from Wichita State is sent. Any change in residence must be reported within three days to the registrar’s office. More complete information on the residence law and regulations can be obtained from the registrar’s office.

1 The information in this section is a summary of Kansas law. Kansas law and Kansas regulations are controlling in case of conflict.

Student Identification
Each student is identified in the university’s computer system by a unique set of eight numbers and letters, called myWSU ID. This ID is assigned and communicated to students at the time of application. A social security number is also required for everyone who has federal financial aid or is employed by the university, as they must also be identified in the system by their social security number.

All WSU students are required to have a WSU photo identification card called the Shocker Card. The card does not expire and is used to determine a student’s current enrollment status. The initial card is free. Lost, stolen or discarded cards may be replaced for a fee.

The Shocker Card contains a unique 16 digit ISO number encoded on it and is the only means by which students can use the following services: Ablah Library, Heskett Center, athletic ticket office, student government, student health services, WSU police department.

Transcripts
A transcript is a certified copy of a student’s permanent academic record. It contains confidential information and cannot be furnished/released without the student’s signed, specific request.

Transcripts may be ordered online, in person at the registrar’s office, or by submitting a request form via mail or fax. Request forms and more detailed information are available at the registrar’s transcript webpage (http://wichita.edu/transcripts). A person’s undergraduate and graduate transcripts may be ordered separately. Official transcripts are $10 per copy, paid in advance. Normal service is same business day if received by 2 p.m. Additional fees for ordering a transcript online, faxing a transcript, or for mailing it by other than first-class postal rates also apply. All transcripts sent to or provided to the student are stamped Issued to Student. Some institutions will not accept transcripts that are Issued to Student.

Transcript requests received in person or via mail/fax must be accompanied by a readable copy of government-issued photo identification such as WSU ID, driver’s license, or passport. Requests will not be processed without this ID.

Mailed transcript requests should be sent to:
Attention: Transcripts
Office of the Registrar
Wichita State University
1845 Fairmount
Wichita, Kansas 67260-0058

Reminder: No one, including spouse or parent, can request or pick up another person’s transcript without written authorization and proof of identity from that person.

If a person still owes the university money, or has not returned borrowed university property, transcript services are withheld.

Withdrawal - Administrative

Administrative Withdrawal
Administrative withdrawal from courses may be initiated by the dean’s office of the college or school in which a student is enrolled, the provost’s office, or other appropriate university offices when a student is unable to complete courses because of extenuating circumstances. A grade of W will be officially recorded on the student’s permanent record for a course or courses from which the student is administratively withdrawn.

Exceptions to Regulations
Departures from the rules and regulations stated in the Graduate Catalog require the filing and approval of an Application for Exception to Graduate School Regulations form. Such requests must have the approvals indicated on the form and must state in a logical and coherent
manner a rational basis for the requested exception. Forms for such requests are available from the Graduate School, from graduate program areas, and may be downloaded from the Graduate School website. Unusual and/or substantial deviations from stated rules and regulations may require action by the Graduate Council.
Academics

Graduate Advisors

Various patterns exist for advising graduate students. Some programs have a central plan for new graduate students, after which individual advisors are assigned. Other programs assign new graduate students to advisors early in their graduate program. Coursework taken without the advisor’s expressed approval is not automatically applicable toward a graduate degree.

In all instances, advisors should be familiar with Graduate School rules and regulations as well as program and departmental requirements. While graduate students have the primary responsibility to know the rules and regulations and to fulfill the program requirements for their graduate degree, advisors’ knowledge and expertise can assist students in their progress toward the degree.

An advisor assigned at the time of admission to a doctoral program will assist the student in completing initial tasks such as enrollment, coordination of examinations, submission of a plan of study, and the formation of a supervisory committee. Depending on individual program procedures, the advisor may chair an advisory committee which also will be involved in the advising activities above. It is possible for the advisor to be named as chairperson of the supervisory or dissertation committee.

Students with assigned advisors should consult their advisors for information on course prerequisites, content and similar matters.

Graduate Course Numbering System

Courses carrying graduate credit are listed in the Graduate Catalog. Only courses numbered 500 and above can carry graduate credit and only for students admitted to the Graduate School at the time of enrollment.

Courses numbered under 500 carry undergraduate credit only and may be taken as supporting or prerequisite courses, but may not be counted toward a graduate degree and are not computed in a student’s graduate grade point average.

Courses numbered 500–699 are aimed primarily at juniors and seniors, but graduate students may also receive graduate credit for these courses if the student was admitted to Graduate School prior to enrollment in the course. Some graduate programs do not allow courses numbered 500–699, which carry graduate credit, to meet degree requirements and students should be aware of such restrictions before enrolling. In such mixed classes, a discernibly higher level of performance is expected from graduate students, with the nature of this differential performance set by the professor.

Courses numbered 700–799 are structured primarily for graduate students, but upper-division undergraduate students may be admitted if they meet course prerequisites. All students in these courses are expected to perform at the level of graduate students. (Graduate I students who ordinarily have not accumulated more than 30 hours in a graduate program). Students receive graduate credit if the student was admitted to the Graduate School prior to enrollment; undergraduate students receive undergraduate credit unless the student was preapproved to earn graduate credit for that specific course under the senior rule policy, or was preapproved for graduate credit for that specific course following the student’s admission to a dual/accelerated bachelor’s to master’s program.

Courses numbered 700–899 are designed primarily for Graduate I students. Courses numbered 900–999 are designed primarily for Graduate II students (those who ordinarily have completed more than 30 hours in a graduate program).

Courses numbered 800 and above are restricted to graduate students only or undergraduate students approved for enrollment under the senior rule or dual/accelerated degree options.

In special cases, courses in areas where graduate degree programs are not currently available may carry graduate credit and apply toward a graduate degree in a related field or simply count as graduate credit for some nondegree purpose. Any of these courses applied toward an advanced degree program must have the approval of the student’s advisor and the chairperson of the department involved in advance of enrollment.

Complaint Procedures, Academic Appeals

Complaint Procedures

The following statements are designed to provide guidance to graduate students in protesting an actual or supposed circumstance in which they feel they have been wronged.

Conflicts eligible for resolution under these procedures are restricted to academic matters other than grades. Disputes about grades are resolved through the Court of Student Academic Appeals.

These procedures do not include conflicts covered by other policies in the university. This may be initiated for circumstances which are within one year from the time of occurrence.

Steps in the Process

1. The student should first consult with the faculty member or administrator perceived to be causing the circumstance which has resulted in the feeling of being wronged and attempt to resolve the conflict at that level.
2. If the first step is not applicable or does not resolve the problem, the student should attempt to resolve the issue with the department chairperson, college dean, or through the use of department/program structures which may exist for this purpose.
3. If the student has exhausted the remedies provided in steps one and two without success, the student should schedule a meeting with the dean of the Graduate School or the dean’s designee (see Role of the Graduate Dean below). All requests must be in writing.

Role of the Graduate Dean

The dean of the Graduate School or the dean’s designee receives complaints or protests and decides whether to take direct administrative action to resolve the conflict or refer the complaint to the Graduate Council. A decision of the graduate dean may be appealed to the Graduate Council. If the student wishes to appeal the decision to the Graduate Council, he or she must notify the graduate dean in writing within 30 days of the decision. The graduate dean will then, in writing, provide the student the standard appeal processes that will be followed.

The decision of the dean of the Graduate School on recommendations received from the Graduate Council is final.

Role of the Graduate Council

In addition to being the elected representative of the graduate faculty, the Graduate Council serves as the Committee on Exceptions in an advisory capacity to the dean of the Graduate School. This responsibility may be discharged by the council acting as a committee of the whole, through subcommittees, or ad hoc committees consisting of selected members of the graduate faculty and graduate student body.
Conclusions reached by the Graduate Council will be transmitted as recommendations to the dean of the Graduate School.

The Graduate Council also serves as a committee on appeals if the student is dissatisfied with direct administrative action taken by the graduate dean. In such cases, the judgment of the council is final.

**Court of Student Academic Appeals**

The faculty at Wichita State has established a procedure to resolve disputes arising out of the classroom through the Court of Student Academic Appeals. The court hears appeals from students who believe they have been treated unfairly in grading. The court is designed to help resolve differences that cannot be settled within the framework of the student-faculty relationship and offers an important safeguard for students.

The student must file an appeal within one semester after the grade is assigned (excluding summer). The court may waive the time limit if documented and verifiable exceptional circumstances cause a delay in submitting the appeal.

Any student may use the appeals procedure. Forms are available in the Office of the Provost and Vice President for Academic Affairs, 109 Morrison Hall. The general procedure is explained to students when they pick up the form.

Appeals for charges of plagiarism must be filed with the class instructor’s dean. For more information see section 2.17 of the WSU Policies and Procedures Manual (http://wichita.edu/policiesprocedures).

**Credit Hour Defined**

A *credit hour* is a measure of graduate or undergraduate academic work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates not less than one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work for each week of instructional time for approximately 15 weeks for one semester, or an equivalent amount of work over a different amount of time. A class hour at Wichita State University is typically 50 minutes.

**Independent and Directed Study Courses**

A primary goal of the Graduate School is to encourage independent scholarship. Thus, graduate students have many opportunities to engage in self-initiated independent study under the supervision of an individual member of the graduate faculty.

In addition to traditional titles, such as thesis, research project, internship and practicum, various departments use various titles to identify opportunities for individual study (e.g., independent study, special problems, directed readings, individual projects and directed study). The following requirements govern enrollment in independent study offerings:

1. Consent of the instructor must be obtained before enrollment;
2. The content of the study should not be the same as that covered in a regular course (exceptions to this requirement must have the approval of the graduate dean before enrollment);
3. Although scheduled on an arranged basis, there must be a sufficient number of contact hours between the student and supervising instructor during the duration of the independent study to ensure consistency with the amount of graduate credit earned in regular course offerings; and
4. No more than 6 credit hours of independent study coursework (excluding dissertation, thesis and other independent study activities that are terminal requirements for a degree) can be used in a degree program.

Some programs have additional program requirements that must be met before enrolling in independent study courses. Students should consult the appropriate program personnel before enrolling.

**Grading System**

Wichita State grades include *A* (excellent), *B* (good), *C* (satisfactory), *D* (unsatisfactory), *F* (failure), *W* (withdrawal), *Cr* (credit), *NCR* (no credit), *BG* (badge), *NBG* (no badge), *S* (satisfactory), *U* (unsatisfactory), *I* (incomplete), *IP* (in progress), *NGS* (no grade submitted), *CRe* (credit by examination), and *Au* (audit). Passing grades include *A, B, C, D, Cr, CrE, Bg, S*. The grades *F, NCR, NBG* and *U* indicate that the quality of work was such that, to obtain credit, the student must repeat regular coursework. A plus/minus grading system was adopted beginning fall 2009. It applies to grades of *A, B, C* and *D*.

**Credit Points**

For each hour of work the student takes, credit points are assigned, as follows, to permit averaging of grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.000</td>
</tr>
<tr>
<td>A-</td>
<td>3.700</td>
</tr>

</tr>
</tbody>
</table>

**Related Details**

- *B* or better grade required: *B-* will fulfill this requirement unless otherwise indicated.
- *C* or better grade required: *C-* will fulfill this requirement unless otherwise indicated.
- *I*: Incomplete. An incomplete is a temporary grade assigned by a faculty member that grants a student an extension of time to complete the coursework. The extension of time may not exceed one calendar year from the end of the original semester. It is used in exceptional cases where a student is unable to complete coursework due to circumstances beyond his or her control. Credit is postponed and the course is not included in the student’s grade point average until a permanent letter grade is assigned. *The following conditions govern incompleteds:*
  a. When an incomplete grade is assigned, the faculty member may assign a default grade other than an *I*. If the coursework is not satisfactorily completed by the extension date, the *I* will revert to the default grade; if the faculty member does not assign a default grade the *I* will revert to an *F*. When the student completes the work by the extension date, the faculty member must submit an online change of grade request to assign the appropriate grade.
  b. Subsequent enrollment in the course will be governed by the university repeat policy.
c. Students are automatically informed of university policies and procedures when they receive an I grade.

- **IP**: In Progress. An IP (in progress) grade is temporarily recorded when a course does not have to be completed by the end of the semester of enrollment. The grade submitted when the course has been completed replaces all IP grades for that course. This only applies to courses such as Special Topics, Special Projects, Research, Thesis, and Dissertation, as specified by the departments.

- **Bg/NBg**: Badge/No Badge. In order for graduate credit to be awarded for a badge course, the expectation is that the quality of work would be consistent with a letter grade of a B (80%).

- **GPA**: Grade Point Average. The graduate grade point average includes only those courses taken at WSU for which graduate credit is earned and for which a regular letter grade (A, B, C, D or F) is assigned. For repeated courses, only the last assigned grade is used to calculate the WSU graduate grade point average. WSU courses repeated at another institution may be used to fulfill program requirements; however, the repeated course transferred from another institution will not be counted in the WSU graduate grade point average, nor will it replace the grade received at WSU. Courses transferred from another institution and graduate credit courses graded S (satisfactory) or Bg (badge) do not affect the graduate grade point average.

To remain in good standing in a graduate degree program, students must maintain a grade point average of at least 3.000 in all courses on the student’s graduate plan of study (excluding all transfer work) and for all graduate work taken at WSU. Grades lower than C, (generating less than 2.000 grade points), cannot be used to satisfy degree requirements, but such grades earned, beginning fall 2001, may be repeated.

### Repeats

A graduate student may enroll in graduate courses (for credit) a second or subsequent time and have it counted as part of the semester’s load. If a course is repeated, the Graduate School will consider that the last grade earned replaces the original grade for purposes of admission and degree completion (in calculating initial and subsequent admission GPAs, in certifying the student’s eligibility for graduation, in certifying completion of certificate programs, and in computing the WSU grade point average). Although the last grade earned becomes the grades of record (replaces original grade), the original course grade remains on the graduate transcript.

Repeated courses are identified on the transcript by an extra letter after the grade:

- I included in GPA
- E Excluded from GPA

Within existing departmental and university guidelines, WSU courses repeated at another institution may be used to complete program requirements, but the repeat grade will not be counted in the WSU grade point average (as transfer courses are not counted in the WSU grade point average).

### S/U Grades, Audit Credit

**Satisfactory/Unsatisfactory Graded Courses**

Certain approved courses that carry graduate credit are graded S/U (satisfactory/unsatisfactory) for all students enrolled, and badge courses are graded Bg/NBg (badge/no badge). Such courses are identified in the online Schedule of Courses, or students enrolling in special offerings for graduate credit will be informed of the S/U grading by the instructor if this system is to be used. Students wishing to transfer graduate coursework graded S/U to a degree program at another institution should, before enrolling, inquire of that institution’s willingness to accept credit graded in this manner.

No more than 15 credit hours of work graded S, Cr or Bg (if approved through the plan of study) may be used toward the requirements of a graduate degree (excluding dissertation, thesis and other independent study activities that are terminal degree requirements). Refer to individual program areas as they may differ regarding this limit.

### Audit Credit

Students are permitted to attend credit courses on a noncredit basis, with appropriate approval, under an auditor classification. To be enrolled as auditors, students must enroll in the same manner and pay the same fees as for credit courses at the university. Auditors may participate fully in the class and expect instructor evaluation of their work. Auditors are expected to attend class regularly. The audited course will appear on the transcript with the grade notation of Au.

Courses taken on an audit basis may be repeated for credit, and if repeated may be used to fulfill degree requirements if the repeated grade is acceptable. Use of the audit basis for a course must be declared at the time of enrollment. Audited courses are not eligible for financial aid.

### Final Grade Reports

At the end of each semester, students may access their final grades through the myWSU (http://mywsu.wichita.edu) portal on the university website.

### Change of Grades Due to Error

Changes of grade due to errors in calculation or reporting may be initiated by an instructor at any time during one calendar year following the assignment of the original grade. A grade change may be initiated by the chairperson of the department that offered the course if, and only if, the instructor is not in residence. The approval of the graduate dean is needed to have the change of grade entered on the student’s transcript.

This change of grade policy may not be applied after graduation to courses taken prior to graduation.

### Probation, Dismissal and Amnesty

#### Probation

**Admission on Probation**

Students admitted on probation will automatically be moved off probation upon completion of their first 9 credit hours of graded graduate-level coursework at Wichita State University with a minimum 3.000 grade point average. If the student already had a graduate record at WSU, then the student’s graduate GPA must also reach 3.000 before being removed from probation. Only courses numbered 500 and above (generating less than 2.000 grade points), cannot be used to satisfy degree requirements, but such grades earned, beginning fall 2001, may be repeated.

#### Academic Probation

Students admitted in good standing to a degree program, or nondegree Category A, will be placed on academic probation if their graduate grade point average falls below 3.000. Students are automatically removed from probation once they achieve a graduate grade point average of 3.000 or higher.

Students admitted on probation or placed on academic probation may not be eligible for assistantship awards or federally-funded financial aid during the semesters in which they are on probation. Students...
on probation should consult the Graduate School for information on exceptions regarding holding an assistantship while on probation, and with the Office of Financial Aid for information on exceptions to financial aid policies. Students on probation are not allowed to enroll in more than 12 credit hours during semesters in which they are on probation.

**Dismissal**

Students may be dismissed from their degree program or nondegree Category A status if they fail to attain a grade point average of at least 3.00 upon the completion of 9 graduate credit hours after admission on probation, or fail to raise their graduate grade point average to a 3.00 following placement on academic probation, or at any time their graduate GPA drops below a 2.00. Students in this situation may be dismissed from the Graduate School, or may be dismissed from their program and placed into a nondegree Category B status, upon the recommendation of the graduate coordinator of their program.

Students also may be dismissed from a graduate degree program if, in the opinion of the graduate faculty offering the program, they are unable to carry on advanced work or make satisfactory progress toward their degree. Students dismissed for this reason may be transferred to a nondegree category.

Following academic dismissal, students who wish to be considered for readmission to Graduate School must first complete a minimum of 9 credit hours of 500 level or above, letter-graded coursework, selected with appropriate advisement. These 9 credit hours cannot include a repeat of courses for which graduate credit was previously earned, and cannot be applied toward a graduate degree should the student be readmitted. Such coursework must be completed with a grade point average of 3.00 on a 4.000 scale or higher for the readmission application to be considered. Meeting this standard, along with both Graduate School and program-specific requirements, will permit consideration of readmission to a graduate program, but is not a guarantee of readmission. Previously dismissed students who are recommended for readmission under this policy will re-enter on probation. Please be aware that coursework completed as an undergraduate student cannot be used toward a graduate degree.

**GPA Amnesty (Academic Forgiveness)**

In exceptional circumstances, students may file an exception to have a semester’s grades (typically first semester) excluded from their overall graduate GPA calculation. This option is intended to give students a chance to be successful in a new program when they find themselves initially in a program that is a poor fit for them. To take advantage of this option, an exception request must be filed. The normal expectation is that the student would change to a new program. While the grades remain on the student’s transcript, they will not be reflected in the GPA and will not count against the student with respect to the 3.000 GPA requirement for graduation.

**Cooperative Education & Work-Based Learning Credit Courses**

Cooperative education is an academic program for undergraduate and graduate students who wish to combine classroom studies with academically related employment by being placed locally and nationally in paid work experiences closely related to their academic majors.

Enrollment in cooperative education courses for graduate credit can be made only through those programs that have an approved graduate-level course (numbered 700 and above) titled Cooperative Education. No other course titles such as independent study, special topics and so forth can be used for cooperative education enrollment. Co-op courses are graded Cr/NCr.

Graduate students in good academic standing desiring to participate in cooperative education classes should first consult with their program and the Graduate School. Some programs do not allow cooperative education credits to be used toward graduate degree completion.

The Career Development Center is located in Brennan Hall III, at the corner of 17th Street and Yale Avenue. The telephone number is 316-978-3688.

**Training in Professional and Scholarly Integrity**

Completion of a training program in professional and scholarly integrity is a graduation requirement for all doctoral students admitted into their program in fall 2012 or later and for all master’s students admitted into their program in fall 2013 or later. The training, at a minimum, must cover these four topical areas:

1. Research misconduct;
2. Publication practices and responsible authorship;
3. Conflict of interest and commitment; and
4. Ethical issues in data acquisition, management, sharing and ownership.

Programs may add additional areas of needed training. Contact the program graduate coordinator or department chair for the training content detail and how the training can be received. The Graduate School expects that students will complete this training requirement by the end of their first year of graduate study at Wichita State, and preferably by the end of their first semester of enrollment.

**Transfer of Credit from Another University**

Students may transfer, with departmental approval, graduate credit from an accredited graduate school under the following conditions:

1. The credit-offering institution is accredited by the cognizant regional accrediting association to offer graduate degree programs appropriate to the level of credit to be transferred;
2. the credit is fully acceptable at the issuing institution in satisfaction of its advanced degree requirement;
3. the credit must be approved by the student’s advisor as applicable in terms of content to the student’s program of study at WSU, and must carry a minimum grade value of 3.000 on a 4.000 point scale, with no course having a grade that generates fewer than 3.000 points on a 4.000 scale;
4. short courses must be at least three days in length/15 hours of instruction per credit;
5. taught by a faculty member of the institution, not a professional brought in to teach the course;
6. the course must be clearly marked as graduate level credit, with no other designation, such as: professional development, continuing education, etc.

2. Master’s and specialist degree programs may include no more than one-third of the total hours or 12 credit hours whichever is greater, of graduate work completed at another regionally accredited graduate school. (No more than 6 credit hours of the transfer amount may be coursework from an earned master’s degree.) Some programs may require lower limits on transfer credit and therefore
students should consult individual program descriptions. Doctoral, 
Master of Fine Arts (MFA), and other more lengthy programs have 
special transfer credit allowances, as indicated in their program 
descriptions.

3. Doctoral programs may include a maximum of one-third of the 
coursework hours required, beyond what may be accepted from a 
previously earned master’s degree.

4. Terminal activity hours specifically related to thesis and dissertation 
research may not be transferred from another institution. Some 
exceptions may apply for degree programs in which research hours 
constitute a larger portion of the program requirements. These 
instances and specific amounts must be approved by both the 
department and the Graduate School.

5. An official transcript containing the requested transfer work must 
be on file in the Graduate School. If such work is shown on the 
transcripts provided in support of the original admission to the 
Graduate School, no new record need be provided. Approval by the 
graduate degree program is necessary to ensure that the coursework 
has been accepted as an integral part of the candidate’s program. 
Students assume responsibility for initiating the request for transfer 
of graduate credit as part of their degree plan.

6. Transfer credit that is accepted must have been in courses started 
six years or less before the semester in which the degree work is 
completed, unless the transfer work is from a previously earned 
graduate degree, graduate certificate or graduate badge.

7. WSU courses repeated at another institution may be used to fulfill 
program requirements; however, the repeated course transferred 
from another institution will not be counted in the WSU grade point 
average.

8. Transfer hours cannot be used to satisfy the 60 percent course level 
requirements (see Credits Required (p. 34) for details) unless 
transfer hours are of appropriate level, and from Kansas Board of 
Regents institutions.

Graduate credit work from another university is posted on the WSU 
transcript only after it has been approved for transfer through the 
approved plan of study, and once the official transcript, sent directly 
from the transfer institution, has been received and accepted. Only the 
specific courses approved for transfer are posted.

Official Wichita State University transcripts reflect only a total 
number of transfer hours accepted and the transfer institution’s name. 
Additional detail, including course name and grade, appears only on the 
unofficial transcript.

Workshop, Extension, Badge, 
Correspondence Credit and Credit by 
Exam

Workshop, badge and extension graduate credit courses may be 
accepted for graduate credit as a part of a graduate degree program 
under the following conditions:

1. The work is approved by the major department;
2. The work is approved by the dean of the Graduate School; and
3. The work is an integral part of a program planned by the candidate 
and the advisor, and listed on an approved plan of study.

Graduate credit cannot be earned under a credit by examination 
program, and correspondence courses cannot be accepted for graduate 
credit.

Exceptions to Regulations

Departures from the rules and regulations stated in the Graduate 
Catalog require the filing and approval of an Application for Exception 
to Graduate School Regulations form. Such requests must have the 
approvals indicated on the form and must state in a logical and coherent 
manner a rational basis for the requested exception. Forms for such 
requests are available from the Graduate School, from graduate 
program areas, and may be downloaded from the Graduate School 
website. Unusual and/or substantial deviations from stated rules and 
regulations may require action by the Graduate Council.
Degree and Certificate Completion
Commencement

WSU holds commencement ceremonies each year in December and in May. All baccalaureate and master’s degree candidates for the spring semester are eligible to participate in the May ceremony and all baccalaureate and master’s degree candidates for the fall semester are eligible to participate in the December ceremony. Baccalaureate and master’s degree candidates for the summer semester are eligible to participate in either the preceding May or following December ceremony.

Doctoral degree candidates are only eligible to participate in a ceremony after all requirements for their degree have been successfully completed (May or December). Summer Doctoral graduates are not eligible to participate in the preceding May ceremony, but may participate in the following December ceremony.

More information may be found at the WSU commencement website (http://wichita.edu/commencement).

Diplomas are available for distribution approximately seven weeks following the close of a given semester. Degree recipients may obtain their diplomas from the registrar’s office. Diplomas will be mailed from that office upon a written, signed request that includes the name and student identification number of the degree recipient, the complete address where the diploma is to be mailed, the appropriate mailing fee ($6 inside USA; $40 outside USA), and a readable copy of the degree recipient’s driver’s license or other government issued photo ID.

Graduate Committees
Committee Structure

Committees for program completion exams are recommended by the major department and approved by the dean of the Graduate School.

Master’s Program. Final oral defense examinations are required of all students presenting theses or research projects. A thesis committee is composed of a minimum of three and a maximum of five graduate faculty, including the chairperson who must be a regular Graduate Faculty member. Faculty holding Affiliate Graduate Faculty status may cochair a thesis committee upon approval of the graduate dean and as long as the committee chair holds regular Graduate Faculty status. At least one committee member, the graduate dean’s representative, must be from an academic department outside the major department. A majority of the committee members must be from the major department. No more than one committee member may have Affiliate Graduate Faculty status.

Doctoral Program. Final oral defense examinations are required for all students presenting dissertations. The supervisory (dissertation) committee is composed of a minimum of five graduate faculty, with at least four having regular Graduate Faculty membership, including the chairperson. Faculty holding Affiliate Graduate Faculty status may cochair a dissertation committee if the chair holds regular Graduate Faculty status. At least one committee member, the graduate dean’s representative, must be from an academic department outside the major department. A majority of the committee members must be from the major department. No more than one committee member may have Affiliate Graduate Faculty status. In addition to guiding the student to successful completion of the dissertation, this committee conducts the final oral defense examination.

Once the supervisory committee has approved the dissertation proposal (via the proposal form submitted to the Graduate School), changes do not normally occur in the committee structure. If committee membership needs to be altered after proposal approval, the committee chair requests such a change via memo to the graduate dean indicating the membership change and the rationale for such a change.

In general, once a major advisor (thesis or dissertation committee chair) has been identified for the student (via plan of study or other document sent to the Graduate School), that advisor stays in place for the duration of the thesis or dissertation. Thesis and dissertation students considering a change in their major advisor should consult departmental guidelines for doing so. Doctoral students changing major advisors would likely need to submit a new proposal.

The oral defense of the thesis or dissertation is scheduled (via the Request to Schedule Oral Defense form submitted to the Graduate School) when the committee chair makes the determination that the student is ready to defend. The Request to Schedule Oral Defense form should be submitted to the Graduate School two weeks prior to the requested defense date. The defense must be held on or before the published deadline for the semester of graduation.

The defense examination is a public oral examination normally lasting about two hours, at which the candidate presents and defends the dissertation or thesis. The examination is chaired by the committee chair. All members of the examining committee (or substitutes appointed by the dean of the Graduate School) are expected to be present throughout the examination. One negative vote from a committee member (not the committee chair) on the examining committee (including substitutes) may occur, and the candidate would still be considered as having passed the examination. A failed oral defense may be retaken based on departmental guidelines. The thesis or dissertation manuscript must be delivered by the student to the committee members at least two weeks before the date of the oral defense.

Committee’s Role
Responsibilities of the Thesis/Dissertation Committee

Graduate faculty members are called upon to serve on student committees such as those constituted for master’s theses, master’s and doctoral oral examinations, and doctoral dissertations. The degree of committee involvement in the planning of the student’s work varies from program to program. However, at the very least, committee members in oral examinations, thesis defenses and dissertation defenses are expected to have given a thorough and thoughtful reading to all materials. They will have prepared questions to test the student’s knowledge, originality and independence of thought so that the faculty member will be able to ascertain the student’s success in meeting standards expected for graduate-level performance. Of course, graduate faculty members are expected to exercise independent critical judgment in evaluating students, to use fair and reasonable standards for the level of graduate work being evaluated and to refrain from introducing personal bias.

In general, the committee ensures that students are completing quality research specifically in terms of defining the research question, appropriateness of the research methods, and accuracy of the conclusions drawn from the research (via approval of the research proposal and approval of the student’s readiness to defend the completed research). In addition, the committee ensures that the presentation of the document conforms to the writing standards expected for scholarly documents in the discipline (via final copy approval on the Recommendation for Degree form).
Responsibilities of the Committee Chair
Supervision (chairing) of graduate students’ research takes many forms—guiding the development of research proposals, helping plan master’s theses or doctoral dissertations, and determining students’ readiness to take written and oral examinations. Although the traditions of different disciplines vary in the closeness of working relationships between graduate students and advisors during thesis, dissertation and exam preparation, advisors are expected to maintain active knowledge about students’ plans, work and progress, to read drafts of written work, to give prompt feedback, and to help students shape their work until it meets the standard of quality expected in the field. These qualitative standards range from details of form to more general standards of originality and integrity. The degree to which the chair involves other committee members in the initial stages of the student’s research varies across the disciplines. However, at the very least, the research proposal should be approved by the entire committee, and the proposal should contain sufficient substance and detail to determine the quality of the research being proposed.

The committee chair is specifically charged with the following duties:

1. Informing the student of applicable Graduate School regulations;
2. Approving, in consultation with other committee members, the research proposal;
3. Approving, in consultation with the student, those who will serve on the committee;
4. Assisting the student in preparation of the thesis/dissertation document in a format consistent with that expected of a scholarly document in the discipline;
5. Determining, in consultation with other committee members, that the student is ready to defend the thesis or dissertation. Assuring that the student provides the manuscript to the committee members at least two weeks in advance of the oral examination date;
6. Filing the student’s request to schedule the oral defense with the Graduate School. The defense examination is a public oral examination normally lasting about two hours, at which the candidate presents and defends the dissertation or thesis. It is generally the student’s responsibility to contact committee members and determine a date and time for the oral defense;
7. Assisting the student in announcing the oral defense date and time to the university community;
8. Chairing the oral defense; and
9. Handling the completion of the form: Recommendation for Degree. This form allows committee members and the committee chair to sign off on two substantive items:
   a. Student’s performance during the oral defense (pass/fail), and
   b. Readiness of the document (thesis or dissertation) for final copy. In this step, committee members ensure that changes in the thesis or dissertation document, requested during the oral exam, are included in the document by the student. Requested changes may pertain to:
      • content issues, and/or
      • formatting/grammatical corrections needed.

Committee members who also wish to see those changes in the document may request to review the document again before the final copy is produced.

In the case of terminal projects (versus theses and dissertations), departmental documentation should clarify the responsibilities of the project chair and committee.

Responsibilities of the Outside Committee Member
Although the outside member’s area of expertise may not directly pertain to the defense topic, his or her role is very important. As an outside member, the primary responsibility is one of oversight on behalf of the Graduate School assuring that the thesis or dissertation meets the standards of graduate scholarship, that committee members and the student abide by Graduate School regulations, and that the committee treats the student appropriately during the oral defense (e.g., asking questions only germane to the topic, treating the student professionally). Therefore the outside member evaluates the candidate’s performance and casts a vote just as other committee members do. In addition, the outside member completes a formal evaluation of the oral defense process by completing an Oral Defense Evaluation form on which the following elements are evaluated:

1. The final exam was conducted in an orderly manner;
2. The oral examination process was fair and reasonable; and
3. The quality of the student’s work was consistent with institution-wide expectations and standards.

The completed evaluation form is returned to the Graduate School within three weeks after the oral defense.

Credits Required
All master’s degrees require a minimum of 30 credit hours, with some programs requiring more.

The total credit hours required for a doctoral degree varies with the degree program. At least 60 percent of the doctoral credit hours, beyond the master’s degree, must be 800 level and above. However, in doctoral programs that require only a bachelor’s degree for admission, students must complete 60 percent of total hours at the 700 level or above, and the majority of total hours (50 percent plus one hour) must be 800 level or above.

Transfer hours cannot be used to satisfy the course level requirements stated above unless transfer hours are of the appropriate level, and from Kansas Board of Regents institutions. Workshop hours may not be used to satisfy the course level requirements.

Specific program requirements are listed in the individual program’s section of the Graduate Catalog. Transfer credit policies are outlined under the header “Transfer of Credit from Another University (p. 31).”

Concentrations in Graduate Programs
Concentrations, consisting of 9—12 credit hours, are offered within existing degree programs where the 9—12 credit hours constitute a coherent academic topic or theme. The concentration may include required and/or elective course as long as the listing of elective courses (from which the concentration courses are selected) forms a coherent academic topic or theme.

The Graduate Council and the graduate dean must approve concentrations. Once approved, the program area may:

1. Use the word concentration in their publications, and
2. May have the concentration identified on the student’s transcript and diploma (for example, Master of Accountancy/Taxation).

The graduate plan of study, filed with the Graduate School, must specify the name of the concentration and the courses to be taken as concentration courses.
Certificates in Graduate Programs
Students completing the requirements for a graduate certificate must submit the Graduate Plan of Study form and the Application for Graduate Certificate form no later than the 200th day of the fall or spring semester or the 10th day of the eight-week summer term when certificate completion is anticipated.

The graduate plan of study is prepared in conjunction with the advisor of the graduate certificate program area and is forwarded to the dean of the Graduate School. Transfer hours and substitutions are usually not acceptable for certificate programs. Graduate programs offering graduate certificates should have a process for knowing who is completing certificate work. Certificate advisors are expected to inform students that a plan of study, application for graduate certificate form, and $15 certificate filing fee are required according to the above guidelines. Students filing to earn their certificate who also file to earn their graduate degree the same semester need to file both the application for graduate certificate and the application for degree, and if they file both at the same time, need only pay one $15 filing fee. Students who file the forms separately pay the fee for each form.

If, after a student files an application for graduate certificate, the certificate is not completed, a new application for graduate certificate and filing fee must be filed within the time frame previously described for the semester in which the requirements for the certificate are again expected to be completed.

If a student later wishes to pursue a graduate degree program, coursework completed as a part of an earned graduate certificate can be used toward the degree program if approved by the department and Graduate School through the plan of study. The six year time limit will not apply to coursework from an earned graduate certificate.

Certificate programs are not eligible for Title IV (federal financial aid) funding unless the certificate is a requirement of the degree program. The exceptions are approved programs of at least one academic year in duration that lead to a certificate and prepare students for gainful employment in a recognized occupation. Approved programs will be designated with disclosure information on the program web page in the applicable academic college.

Badges in Graduate Programs
Badge Program
Wichita State University’s badge program is designed with the working professional in mind so coursework is developed around professional development content and structured in smaller units. In most cases, information is organized into 0.5 credit hour classes (one 0.5 credit hour class equates to one badge) which also makes the workload manageable for someone who works a full-time job. While some badges may be offered in a classroom setting, many are also offered online. Enrollment in badge courses is restricted to nondegree seeking students. In some cases, badges may be applied towards requirements for a degree should the student enter a WSU degree program.

Badges are credit courses that comply with the definition and assignment of credit hour policy and appear on a transcript indicating that academic work has been successfully completed. Students receive a grade of either Bg (badge earned) or NBg (no badge earned) when the class ends.

Important note for graduate students: Depending on a graduate program’s structure, it is possible that graduate badge credit may not be used in the future for a degree or certificate program. If a badge student later applies for and is admitted to a degree seeking program that does allow badge coursework, all graduate rules with respect to coursework will apply to the badges (e.g. time limits; nonletter graded coursework limits).

For more information visit the Office for Workforce, Professional & Community Education website (http://wichita.edu/WPCE) and click on the Badge Program link.

Examinations
Preliminary examinations are administered by several programs to determine students’ qualifications for further graduate study. Qualifying and/or comprehensive examinations are required in all doctoral programs. The candidate passes if no more than one negative vote is cast in a five-member committee, and the negative vote does not come from the committee chair.

Most master’s programs also require written or oral comprehensive examinations. The candidate passes if no more than one negative vote is cast in a three-member committee, and the negative vote does not come from the committee chair.

Candidates should refer to the appropriate program’s section of the catalog or consult with the program for additional information about exams.

Training in Professional and Scholarly Integrity
Completion of a training program in professional and scholarly integrity is a graduation requirement for all doctoral students admitted into their program in fall 2012 or later and for all master’s students admitted into their program in fall 2013 or later. The training, at a minimum, must cover these four topical areas:

1. Research misconduct;
2. Publication practices and responsible authorship;
3. Conflict of interest and commitment; and
4. Ethical issues in data acquisition, management, sharing and ownership.

Programs may add additional areas of needed training. Contact the program graduate coordinator or department chair for the training content detail and how the training can be received. The Graduate School expects that students will complete this training requirement by the end of their first year of graduate study at Wichita State, and preferably by the end of their first semester of enrollment.

Plan of Study
In order to officially define a program of study for a graduate degree, students must submit the Graduate Plan of Study form leading to admission to candidacy. Submission of the proposed plan of study requires that the conditions of admission (if any) to the program area have been completed. The proposed plan identifying the completion option and proposed coursework should be submitted after the completion of 12 credit hours, or after one third of the program has been completed, whichever is greater. Some programs may have earlier deadlines for submitting the plan of study. Early submission of the plan is vital to successful degree completion.

Students must meet the program requirements in effect at the time the plan of study is officially approved by the Graduate School. It is recommended, therefore, that the plan of study be submitted as soon as possible for master’s students and by the end of the semester in which qualifying examinations for doctoral students are completed.
The plan of study is developed in conjunction with the advisor and signed by the candidate, the advisor (and advisory committee members, if applicable), the chairperson of the major department, and the dean of the Graduate School. All academic work completed and planned for the degree must be included in the plan of study at the time of submission.

The process of filing an acceptable plan of study is not completed until the student has received a copy of their detail requirements from the Graduate School. If the detail requirements sheet has not been received approximately three weeks following submission of the proposed plan, students should check with the Graduate School office.

Excess hours beyond the program requirements are not permitted on a graduate plan of study. A variation of one or two hours can occur due to slight variations in course offerings, but a graduate plan of study may not exceed the program requirements by any significant amount.

Students may make changes to the plan of study that are necessary because of enrollment problems or other circumstances by submitting the plan of study form and showing only the necessary revisions. More extensive changes may be accomplished by filing a new plan of study marked revised plan.

Failure to meet the deadline for filing an acceptable plan of study may result in a delay in graduation or loss of credit planned for use in the program.

Students may not include a graduate-level course on their plan of study that has been previously taken as an undergraduate-level enrollment.

**Progress, Applying for Degree**

**Progress**

Degree-seeking graduate students and students completing graduate certificate programs are expected to make satisfactory progress toward their degree or certificate in a timely manner (six-year time limit for master’s and specialist degrees; six to nine years for doctoral degrees). Some departments take action to dismiss students who absent themselves for periods of a year or more.

Demonstrated suitability for professional practice, as determined by faculty, is also a consideration for remaining in good standing in graduate programs leading to advanced certificates or other endorsements indicating advanced professional practice or achievement.

Students who complete graduate degrees at Wichita State University are transferred to nondegree, Category A, status in the academic field of their graduate degree which allows continued enrollment for graduate credit at WSU. Should such students desire to undertake a new academic program or change advising areas, a new application for admission to the desired area of study and application fee must be filed with the Graduate School office.

**Degree Application**

An Application for Degree form (AFD) and $15 filing fee must be filed online through the myWSU portal within four weeks (20 class days) after the beginning of any fall or spring semester in which a student plans to finish all requirements for the degree.

Students planning to graduate at the end of the summer session must file the online application for degree form and fee within two weeks (10 class days) after the beginning of the regular eight-week session even if they plan to enroll for the second four-week session only.

If, after a student files an AFD, the degree is not completed, a new AFD and filing fee must be filed within the time frame just described for the semester in which requirements for the degree are again expected to be completed.

Failure to meet these deadlines will result in a delay in graduation and in the awarding of the diploma.

**Terminal Activity Credit**

When a thesis is part of a student’s master’s degree program, and a dissertation is part of a doctoral student’s degree program, thesis or dissertation or research project credit must show on their graduate transcript. The transcript will normally carry the grade of IP (in progress) until the thesis or dissertation is completed and the student has met the requirements of the supervisory committee and the Graduate School. An S (satisfactory) or grade of B or better is required for an acceptable thesis/dissertation. Thesis or dissertation hours in excess of the minimum required for the degree will be graded S, or marked as excluded, as appropriate.

Students writing a thesis or dissertation or engaging in research must be enrolled in courses entitled Thesis, Dissertation or Research each semester in which they receive advice, counseling or research direction from their advisors. This includes the semester of graduation. Enrollment is for the number of credit hours that accurately reflects the demands of the student on university faculty and facilities. The minimum enrollment for doctoral students is 2 credit hours of the terminal activity.

Students engaged in terminal activities other than thesis, dissertation or research (e.g., internship, practicum, portfolio, directed project) must be enrolled in courses carrying these titles each semester in which they receive advice, counseling or direction from their advisors. This includes the semester of graduation. An S (satisfactory) or grade of B or better is required for an acceptable terminal activity. Terminal activity hours in excess of the minimum required for the degree will be graded S, or marked as excluded, as appropriate.

**Thesis/Dissertation Preparation**

Since fall 2006, all students have been required to submit their theses or dissertations through an electronic process called ETD (Electronic Theses and Dissertations). The thesis/dissertation is converted to a Portable Document Format (PDF) file for electronic submission to the Graduate School. No bound copies are required from the student. Prior to ETD submission, all students are required to make an appointment with the degree audit specialist in the Graduate School for a format check of the paper copy. The PDF is uploaded to the Blackboard Learning System using the digital drop box once approval has been given by the Graduate School. A copy is saved on a CD by the Graduate School and given to the student, the chair of the committee, and the student’s major department. The final copy of the ETD is sent to the university library. The student’s ETD contributes to worldwide graduate education as WSU builds a Networked Digital Library of Theses and Dissertations (NDLTD) in collaboration with other scholarly institutions.

For additional information about the preparation of the thesis or dissertation, the student is referred to the Graduate School publication, Guide to the Preparation of Theses and Dissertations, which is available online (http://wichita.edu/gradforms).

**Thesis and Dissertation Embargo**

An important goal of Wichita State University is to produce and disperse new knowledge. As such, every possible effort should be
made to ensure that the scholarship produced at the university is disseminated as widely as possible. However, there are situations where publicly releasing research results, creative activities, and other scholarly projects too soon may jeopardize the ability of the owners of the intellectual property to obtain a patent or subsequently publish the work. Further, there may be cases when classified research is being conducted that cannot be published at all. As a result, this policy provides a framework to allow graduate student theses and dissertations to be embargoed, while simultaneously underscoring the university’s commitment to dissemination of its produced knowledge.

**Temporary Embargo**

In consultation with the faculty thesis or dissertation advisor, a graduate student may request an embargo of their work. The dean of the Graduate School will embargo the academic document in question (i.e., prohibit public disclosure) for a period of one year from the date of deposit. In reviewing such requests, the dean should consider the full implication of embargoing ongoing and future academic and scholarly work at the university.

If a request to temporarily embargo a thesis or dissertation is approved, the embargoed thesis or dissertation will be made unavailable within the university’s institutional repository. However, bibliographic information (i.e., author, advisor, title and date) will be publicly available. The dean of the Graduate School will inform the dean of University Libraries of all embargo decisions made relative to this policy and will provide pertinent information concerning a thesis or dissertation to be embargoed, such as title, student name, graduation date, department and thesis or dissertation director’s name. The completion of the requirements for a graduate degree will not be affected in any way by an embargo of a thesis or dissertation.

At the end of the one year period, the embargoed thesis or dissertation will automatically be released without further action. If an extension of the embargo is required, that request must be made to the dean of the Graduate School before the end of the embargo with appropriate justification. The threshold to demonstrate continued need of the embargo is high, and it is not expected that this would be a routine occurrence.

Pursuant to the university patent policy, it is the responsibility of the faculty advisor and the student to protect the intellectual property during the conduct of the project and the writing of the document, and in any examinations over the contents of the document. The faculty advisor and the student should consult with the dean of the Graduate School and the director of technology evaluation at WSU Ventures about these matters as early as possible.

**Classified Research**

In certain instances, graduate students may be involved in classified research that indefinitely prevents public disclosure of the results. These situations must have approval from the dean of the Graduate School before the research is started. In particular, the dean of the Graduate School will work with the student, faculty thesis or dissertation advisor, and (perhaps) sponsor to come to an agreement of all publication restrictions prior to initiating the project. Indefinite embargoes, beyond what is detailed in the above section, will typically not be approved once the project is underway.

---

**Time Limits, Residency and Tool/Language Requirements**

**Time Limits**

Students have six years in which to complete a master’s degree program starting from the first semester the student begins the coursework that is designated in the plan of study.

For doctoral programs requiring a master’s degree for admission, the doctorate must be completed within six years from the effective semester of admission. In those programs permitting admission directly after the bachelor’s degree, the doctorate must be completed within nine years from the effective semester of admission. Time limits are not imposed on transfer courses from a previously awarded graduate degree or from a graduate certificate awarded by Wichita State University.

In cases where the above time limits are exceeded and in which the student desires to have a course count toward degree completion, the outdated course must be validated or substituted with a course within the time limits, or an Application for Exception to Graduate Regulations must be filed and approved to waive the time limits for the course in question. To have courses validated, students seek approval from their department, and must submit a Course Validation Request form to the Graduate School for validation approval. The instructor must identify on the process that will be used to certify that the student has achieved a grade value of 3.000 on a 4.000 point scale. Grades lower than a B (generating less than 3.000 grade points), will not be accepted.

Transfer courses and work that originally received a grade lower than a B (generating less than 3.000 grade points), cannot be validated. Courses completed 10 or more years before the degree is granted, even if previously validated, may not be used to meet degree requirements.

**Residency Requirement**

Doctoral students are required to spend at least two continuous semesters (summer excluded) as full-time students.

**Tool or Language Requirements**

The Graduate School has no overall tool or language requirements, although such requirements have been established by some programs. Students should consult an individual program’s section of the Graduate Catalog for information regarding such requirements.

Any tool subjects (e.g., foreign language, computer programming, statistics) required by the major program must be identified in the student’s plan of study. The completion of this tool is not required prior to submission of the plan of study but is required prior to graduation.

**Transfer of Credit from Another University**

Students may transfer, with departmental approval, graduate credit from an accredited graduate school under the following conditions:

1. a. The credit-offering institution is accredited by the cognizant regional accrediting association to offer graduate degree programs appropriate to the level of credit to be transferred;
   b. the credit is fully acceptable at the issuing institution in satisfaction of its advanced degree requirement;
   c. the credit must be approved by the student’s advisor as applicable in terms of content to the student’s program of study at WSU, and must carry a minimum grade value of 3.000 on a
4.000 point scale, with no course having a grade that generates fewer than 3.000 points on a 4.000 scale;

d. short courses must be at least three days in length/15 hours of instruction per credit;

e. taught by a faculty member of the institution, not a professional brought in to teach the course;

f. the course must be clearly marked as graduate level credit, with no other designation, such as: professional development, continuing education, etc.

2. Master’s and specialist degree programs may include no more than one-third of the total hours or 12 credit hours whichever is greater, of graduate work completed at another regionally accredited graduate school. (No more than 6 credit hours of the transfer amount may be coursework from an earned master’s degree.) Some programs may require lower limits on transfer credit and therefore students should consult individual program descriptions. Doctoral, Master of Fine Arts (MFA), and other more lengthy programs have special transfer credit allowances, as indicated in their program descriptions.

3. Doctoral programs may include a maximum of one-third of the coursework hours required, beyond what may be accepted from a previously earned master’s degree.

4. Terminal activity hours specifically related to thesis and dissertation research may not be transferred from another institution. Some exceptions may apply for degree programs in which research hours constitute a larger portion of the program requirements. These instances and specific amounts must be approved by both the department and the Graduate School.

5. An official transcript containing the requested transfer work must be on file in the Graduate School. If such work is shown on the transcripts provided in support of the original admission to the Graduate School, no new record need be provided. Approval by the graduate degree program is necessary to ensure that the coursework has been accepted as an integral part of the candidate’s program. Students assume responsibility for initiating the request for transfer of graduate credit as part of their degree plan.

6. Transfer credit that is accepted must have been in courses started six years or less before the semester in which the degree work is completed, unless the transfer work is from a previously earned graduate degree, graduate certificate or graduate badge.

7. WSU courses repeated at another institution may be used to fulfill program requirements; however, the repeated course transferred from another institution will not be counted in the WSU grade point average.

8. Transfer hours cannot be used to satisfy the 60 percent course level requirements (see Credits Required (p. 34) for details) unless transfer hours are of appropriate level, and from Kansas Board of Regents institutions.

Graduate credit work from another university is posted on the WSU transcript only after it has been approved for transfer through the approved plan of study, and once the official transcript, sent directly from the transfer institution, has been received and accepted. Only the specific courses approved for transfer are posted.

Official Wichita State University transcripts reflect only a total number of transfer hours accepted and the transfer institution’s name. Additional detail, including course name and grade, appears only on the unofficial transcript.

## Degree Program Regulations

1. To pursue a graduate degree at Wichita State, students must be admitted to the specific program for which they are seeking a degree. Students may not be admitted to more than one graduate program at a time.

2. To remain in good standing in a graduate degree program, students must maintain a grade point average of at least 3.000 in all courses on the student’s WSU plan of study (excluding transfer work) and for all graduate work taken at WSU. Grades lower than C, including C-, cannot be used to satisfy degree requirements, but such grades earned may be repeated.

3. Any course taken as a part of an undergraduate degree may not be repeated for graduate credit except when the course content is substantially different (as indicated by instructors).

4. All students who wish to earn a degree or certificate are required to file a plan of study. An approved plan of study should be on file as early in the program as is feasible to ensure students are enrolling the correct courses for their degree or certificate program.

5. All master’s degrees require a minimum of 30 credit hours, with some programs requiring more.

6. The total credit hours required for a doctoral degree varies with the degree program. At least 60 percent of the doctoral credit hours, beyond the master’s degree, must be 800 level and above. However, in doctoral programs that require only a bachelor’s degree for admission, students must complete 60 percent of the total credit hours at the 700 level or above, and the majority of the total credit hours (50 percent plus one hour) must be 800 level or above.

7. Transfer hours cannot be used to satisfy the course level requirements stated above unless the transfer hours are of the appropriate level, and from Kansas Board of Regents institutions. Workshop hours may not be used to satisfy the course level requirements.

8. Specific program requirements are listed in the individual program’s section of the Graduate Catalog. Transfer credit policies are listed in the appropriate section of the Graduate Catalog.

9. Upon the advice and consent of the major department, a maximum of 6 credit hours of work in one earned master’s degree program may be applied to a second master’s degree.

10. No more than 6 credit hours of independent study coursework (excluding dissertation, thesis and other independent study activities that are terminal requirements for a degree) can be used in a degree program.

11. No more than 15 credit hours of work graded S, Cr or Bg (when on an approved plan of study) may be used toward the requirements of a graduate degree (excluding dissertation, thesis and other independent study activities that are terminal requirements for a degree). Refer to individual program areas as they may differ regarding this limit.

12. Master’s and specialist degree programs may include no more than one-third of the total hours or 12 credit hours whichever is greater of graduate work completed at another institution accredited to offer graduate degree programs (exclusive of hours in a previous master’s degree, from which a maximum of 6 credit hours can be transferred). Departments may require lower limits on transfer credit and, therefore, students should consult individual program descriptions. Doctoral, Master of Fine Arts (MFA) and other more lengthy programs have special transfer credit allowances, as indicated in their program descriptions.

13. Transfer credit that is accepted must have been in courses started six years or less before the semester in which the degree work is
14. **Enrollment in Final Semester.** Graduate students must be enrolled in appropriate graduate-level coursework during the semester of graduation. Such enrollment recognizes the use of university resources, including faculty and staff, as part of degree completion. The minimum enrollment for thesis students is 1 credit hour of thesis. The minimum enrollment for doctoral students is 2 credit hours of dissertation.

15. Doctoral students are required to spend at least two continuous semesters (summer excluded) as full-time students.

16. Faculty members of Wichita State University who hold the rank of assistant professor or higher cannot earn graduate degrees from Wichita State except for unassigned faculty (not attached to a particular college) or faculty members granted specific approval by the Graduate Council. Full-time faculty members may not pursue more than 6 credit hours of graduate credit per semester.

17. Doctoral students admitted fall 2012 or later and master’s students admitted fall 2013 or later are required to complete Professional and Scholarly Integrity Training (PSIT) as determined by their department. This training should be completed within the first year of enrollment in the program.

18. All graduate students must file an application for degree or application for graduate certificate by the 20th day of classes (or 10th day of classes in summer) in the semester they will complete all requirements in order for their degree or certificate to be awarded.

**Exceptions to Regulations**

Departures from the rules and regulations stated in the Graduate Catalog require the filing and approval of an Application for Exception to Graduate School Regulations form. Such requests must have the approvals indicated on the form and must state in a logical and coherent manner a rational basis for the requested exception. Forms for such requests are available from the Graduate School, from graduate program areas, and may be downloaded from the Graduate School website. Unusual and/or substantial deviations from stated rules and regulations may require action by the Graduate Council.
Financial Opportunities

Students wishing to be considered for assistantships, fellowships, scholarships or other forms of financial awards should indicate their interest to their graduate coordinator or program chair as soon as possible after notification of admission.

Students admitted on probation or placed on academic probation following admission are not eligible for assistantship, fellowship awards or federally-funded financial aid.

Assistantships

Each year Wichita State University awards a number of assistantships for advanced study. Grants are made in most departments offering advanced degrees. Assistantships are awarded primarily on the basis of a student’s academic record and demonstrated teaching, research and leadership abilities, together with any other available supporting evidence.

Students must be admitted to a degree program in either full-standing or conditional status. Students admitted on probation or placed on academic probation following admission may be eligible for assistantship awards under certain circumstances. Undergraduate students admitted under the senior rule option, or in accelerated bachelor’s to master’s programs are not normally considered for assistantship awards.

Recipients of a full-time graduate assistantship may not hold appointments totaling more than 20 hours per week and may not hold other WSU remunerative employment without the written approval of the department chairperson and dean of the Graduate School.

A graduate teaching assistantship may qualify the recipient for a full or partial waiver of in-state tuition for up to 12 credit hours of coursework numbered 500 and above. Graduate students must provide service from the 20th day of the semester through the remainder of the semester to be eligible for the nonresident to resident tuition waiver. Only courses numbered 500 and above are eligible for full or partial waiver of tuition for graduate teaching assistants. Potential applicants for graduate teaching assistantships who are non-native speakers of English must first attain a score of 23 or above on the speaking portion of the Internet Based TOEFL (IBT), or a score of 50 or above on the SPEAK, or a score of 7.0 or higher on the speaking portion of the IELTS exam. All students who are offered a graduate teaching assistantship, whether native or non-native speakers of English, must have their spoken English evaluated by a departmental assessment committee. The committee is appointed by the department chair or director, and is composed of at least three members: two faculty members and one student. The committee judges the graduate assistant’s spoken English according to the Spoken English Screening Form (SESF) scale of 1–4. A rating of 1 or 2 indicates competency in spoken English and is required for appointing the candidate. For non-native speakers of English, this is required in addition to the TOEFL/IELTS/SPEAK mentioned previously.

The department chairperson or graduate coordinator should be contacted for further information. The actual dollar amount of an assistantship varies according to the length of the appointment, the number of hours worked per week and the funding base within each department. At Wichita State University, assistantships for 20 hours of work per week for a nine-month period range from $5,800 to $24,000. This average is provided for information purposes. Assistantship appointments are made on a semester basis.

Graduate students holding assistantships during a fall or spring semester are expected to enroll in at least 9 credit hours of coursework, of which 6 credit hours must be at the graduate level. Exceptions to allow graduate assistants who hold a 20-hour appointment to be enrolled in 6–8 credit hours may be approved by the program where the student holds admission. Special consideration for thesis and research enrollments may be obtained by petitioning the Graduate School through the exceptions process.

As a part of the hiring process at WSU, all graduate assistants are required to submit to a criminal background check before employment commences.

Graduate School Awards

The Graduate School oversees and distributes general awards and certain fellowship activities as described below. Additional information can be found on the Graduate School awards webpage (http://wichita.edu/gradschoolawards/).

Dora Wallace Hodgson Outstanding Graduate Student Awards

Funding for the Graduate School Outstanding Graduate Student awards is made possible through generous donations to the WSU Foundation from the Dora Wallace Hodgson estate. Awards are given for the following categories: Dora Wallace Hodgson Outstanding Doctoral Student and Dora Wallace Hodgson Outstanding Master’s Student.

Delano Maggard, Jr. Graduate Research Grant

The Maggard research grant supports graduate students in their pursuit of independent research and investigation in their field of major interest. Funds are provided through the WSU Foundation, Delano Maggard, Jr. endowed account. Applicants must be in full-standing status in a degree program. Applicants must be enrolled in the semester prior to the semester of award and show satisfactory academic progress in coursework related to the proposed course of study.

Michael P. Tilford Graduate Fellowship

The Michael P. Tilford Graduate Fellowship, established in memory of former WSU Graduate School Dean Michael P. Tilford, is awarded to a currently enrolled full-time graduate student in good academic standing in any graduate degree program. Preference is for a minority student who is a U.S. citizen. Financial need is also considered.

Educational Opportunity Fund (Part-Time Students)

Funds are provided by the Student Government Association from student fees for new and continuing part-time students with financial need. Tuition awards are made contingent on annual funding to full-standing degree-bound students who are enrolled in at least 3 credit hours but not more than 8 credit hours, and who qualify for financial assistance. A financial statement form is part of the application. Please contact the Graduate School or visit the Graduate School website for application deadlines and details.

Student Travel – Special Research Fellowships

Special research fellowships encourage research among graduate students and recognize their superior achievement by providing financial support to students who present the results of their scholarly research at professional meetings and conferences.

In addition to the above awards, the Graduate School distributes the following awards based on financial need and other considerations:

- Dr. Laiten L & Verna Nye Camien Fellowship
- E.L. Cord Foundation Graduate Fellowship
• Ollie A. & J.O. Heskett Graduate Fellowship
• Donald D. Sbarra Endowed Fellowship
• Lawrence and Pauline Stettheimer Endowed Fellowship

Federal Financial Assistance, Work Opportunities

Federal Financial Assistance
WSU’s Office of Financial Aid helps graduate students secure federal and state financial aid on the basis of qualification.

The first step in applying for federal aid is to complete a Free Application for Federal Student Aid (http://fafsa.ed.gov) and to request the results be sent to the Wichita State University Office of Financial Aid. If financial aid is required, the Graduate School strongly recommends that the completed application for admission to Graduate School is received in the Graduate School by February 1 for the following fall semester. Graduate students admitted on probation or placed on academic probation following admission are not eligible for federal financial aid. Students admitted with conditions are also not eligible for federal financial aid.

Students must be enrolled in at least half-time status to qualify for federal aid. Half-time status for graduate students is defined as 5 credit hours for the fall or spring semesters, and 3 credit hours for the summer session. For additional information, visit the financial aid website (http://wichita.edu/financialaid).

Work Opportunities
Many graduate students participate in the university’s Cooperative Education and Work-Based Learning Program. In this program, students work at the local, state or national level in well-paying jobs that complement their academic fields of study. Students earn academic credit while learning degree-related skills and earning money to support their graduate studies. Students must have departmental permission to participate.

Exceptions to Regulations
Departures from the rules and regulations stated in the Graduate Catalog require the filing and approval of an Application for Exception to Graduate School Regulations form. Such requests must have the approvals indicated on the form and must state in a logical and coherent manner a rational basis for the requested exception. Forms for such requests are available from the Graduate School, from graduate program areas, and may be downloaded from the Graduate School website. Unusual and/or substantial deviations from stated rules and regulations may require action by the Graduate Council.
General Information

Wichita State University Profile

WSU’s location in the largest city in Kansas enhances the traditional classroom experience by providing students extensive applied learning and career opportunities. WSU students, faculty, staff and facilities are resources for businesses, nonprofits and local government.

Both traditional and nontraditional students enjoy a wide selection of day, evening and summer courses in more than 200 areas of study at the main campus and other locations throughout the metro area and online. Of approximately 15,000 students, 78 percent are from Kansas, representing 103 counties in the state, and the remainder are from almost every state in the U.S. and 105 other countries. The average age of entering freshmen at Wichita State is 19; the average age of all undergraduate students is 23.

Nearly 72 percent of the students attend full time, while the remainder attend part time and take advantage of gaining professional experience at leading local employers including Airbus, Bombardier Aerospace, Spirit AeroSystems, Textron Aviation (including Beechcraft and Cessna), Wichita Public Schools, Via Christi Regional Medical Center, Wesley Medical Center, Allen Gibbs & Houlik, BKD, Cargill, Westar Energy and Koch Industries. Students in every field of study find opportunities in Wichita as varied as financial accounting, performing in the Wichita Symphony Orchestra and creating social media content for Division I athletic teams. Many students take advantage of WSU’s work-based learning program, which has partnerships with 500 employers throughout the United States.

Wichita State, which is classified by the Carnegie Foundation as a doctoral granting, high research institution, offers undergraduate and graduate degree programs culminating in 58 bachelor’s degree programs, an associate’s degree, 12 doctoral degrees, 45 master’s degrees, a Specialist in Education degree and 43 credit bearing certificates in seven colleges and one institute: Dorothy and Bill Cohen Honors College, W. Frank Barton School of Business, College of Education, College of Engineering, College of Fine Arts, College of Health Professions, Fairmount College of Liberal Arts and Sciences, and the Institute for Interdisciplinary Creativity.

The Higher Learning Commission and 21 program-specific accrediting agencies accredit WSU. A listing of WSU programs and degrees is located in both the graduate and undergraduate catalogs.

Wichita State has 525 full-time faculty, with 71 percent of the faculty having earned the highest degree in their field. Academic programs also draw on the professional expertise of adjuncts from Wichita-based businesses and organizations. Instructors and guest lecturers include those actively practicing their professions in venues from boardrooms to newrooms to courtrooms to operating rooms to the world’s great opera stages.

In the past three years, WSU’s main campus in northeast Wichita has been expanded by 120 acres with the conversion of a golf course to a new Innovation Campus that houses an interconnected community of academic and partnership buildings, laboratories and mixed-use areas.

A building housing advanced manufacturing engineering laboratories and community makerspace is already open. Three partnership buildings are open or under construction, including one that’s home to 300 Airbus engineering employees and another that will train law enforcement officers for the City of Wichita and Sedgwick County, alongside WSU criminal justice students.

High-quality student housing, a food truck plaza and a freestanding Starbucks are open. A Wellness Center-YMCA, Westin Hotel and new retail and restaurant spaces are planned, along with a new home for the Barton School of Business and a Crash Dynamics Lab for the National Institute for Aviation Research.

WSU is adding more than 4,000 students and associated instructional staff and facilities through the recently approved creation of the Wichita State Campus of Applied Sciences and Technology (WSU Tech — formerly Wichita Area Technical College). The new affiliate, already the state’s largest technical college, will continue and expand WSU Tech’s curriculum offering over 100 programs of study in aviation, health care, manufacturing, design and business.

WSU and WSU Tech are already sharing recent or renovated facilities housing the National Center for Aviation Training, health care education programs and state-of-the-art media production facilities.

WSU is enhancing curriculum, programs and facilities to meet student, community and industry needs. Four recent examples:

- In 2017 the university began offering a Bachelor of Applied Arts degree in four areas of media arts – animation, audio production, filmmaking and game design. Some of the courses in the program are offered at Shocker Studios, a 35,000-square foot, state-of-the-art production facility.
- The Physician Assistant (PA) and Physical Therapy (PT) programs at Wichita State have joined WSU Tech health professions programs in a renovated building in the vibrant Old Town section of downtown Wichita. The state-of-the-art facility features large classrooms, modern work spaces, a simulation hospital with a general emergency room, labor and delivery and exam rooms, a surgical lab with cutting-edge simulators, a SynDaver (synthetic human) lab and a student lounge area.
- The university established the Institute for Interdisciplinary Creativity (IIC) to encourage interdisciplinary collaboration. Located in the IIC is the Master in Innovation Design (MID) degree that merges arts, science and technology curricula, creating opportunities for students and faculty to collaborate across WSU’s colleges. The MID program is individualized for each student and focuses on developing students’ design thinking skills. These include the capabilities to: develop creative solutions; effectively communicate; practice entrepreneurship; and develop prototypes.
- WSU’s badge program makes workforce training and continuing education accessible and affordable. Each badge is designed with the practicing professional in mind so coursework can be completed online and at the student’s own pace. A badge is worth 0.5 credit hours and equates to about 22.5 hours of combined online instruction and study time. This makes workloads more manageable for someone who is already busy with a full-time job and family.

All of these efforts are in service of Wichita State University’s vision to be a world leader in applied learning and its mission as an essential educational, cultural and economic driver for Kansas and the greater public good.

WSU’s first commitment is to excellence in instruction, but it also has strong commitments to excellence in research and public service as integral parts of its educational mission. The National Institute for Aviation Research consistently receives funding from such agencies as the FAA and NASA to continue important research in such areas as composites and aging aircraft. According to the National Science Foundation, WSU is one of the top research universities for aerospace research in the country. WSU’s Regional Community Policing Training
Institute is helping train law enforcement and other officials in the region on such relevant topics as counterterrorism.

Businesses, local government, industry and nonprofits benefit from such WSU resources as the Mid-America Manufacturing Technology Center, Small Business Development Center, Center for Management Development, Center for Entrepreneurship, Community Engagement Institute and Hugo Wall School of Public Affairs.

WSU offers numerous recreational and cultural opportunities through the many concerts, recitals, theater, dance and other productions performed in its fine arts facilities. The Ulrich Museum of Art specializes in contemporary art. More than 75 pieces of sculpture by internationally known artists adorn the campus as part of the Martin H. Bush Outdoor Sculpture Collection. The university’s premier cultural collection of Asmat art, one of the largest such collections in the United States, is on display in its Lowell D. Holmes Museum of Anthropology.

As an NCAA Division I institution, WSU fields teams in tennis, cross country, basketball, track, golf, baseball, volleyball and softball. The men’s basketball team has reached the NCAA tournament for six years in a row, including the Final Four in 2013. In 2017, the university accepted the invitation to join the American Athletic Conference.

In club and competitive sports, Wichita State men’s and women’s bowling teams have won 20 national championships. Men’s and women’s rowing teams compete in state, regional and national championships. E-sports is an up and coming feature of student life.

More than 200 social and special interest clubs provide opportunities for students to meet and work with others who share their interests. Twenty-two national sororities and fraternities are active on campus.

The 330-acre traditional campus is modern and accessible and at the same time retains the flavor of the university’s heritage, combining distinctive Georgian-style architecture with more modern buildings of stone and brick that are accentuated by attractive landscaping. Internationally, the most-recognized building on the WSU campus is the Corbin Education Center. It was one of the last buildings designed by one of America's best-known architects, Frank Lloyd Wright.

To find out more about WSU, go to http://wichita.edu.

**Mission**

The mission of Wichita State University is to be an essential educational, cultural and economic driver for Kansas and the greater public good.

**Vision**

Wichita State University is internationally recognized as the model for applied learning and research.

**2018 – 2019 University and Academic Officers**

John W. Bardo, president
Richard Muma, interim provost
Werner Golling, vice president for administration and finance
John Tomblin, vice president for research and technology transfer
Sheree Utash, president of WSU Tech and vice president of Workforce Development for WSU
Lou Heldman, vice president for strategic communications
Teri Hall, vice president for student affairs
Marche Fleming-Randle, vice president for diversity and community engagement
David Moses, general counsel

Andrew Schlapp, executive director of operations, government relations
Darron Boatright, director of athletics
Dennis Livesay, dean of the Graduate School
Kimberly Engber, dean of the Dorothy and Bill Cohen Honors College
Anand Desai, dean of the W. Frank Barton School of Business
Shirley Lefever, dean of the College of Education
Royce Bowden, dean of the College of Engineering
Rodney E. Miller, dean of the College of Fine Arts
Sandra C. Bibb, dean of the College of Health Professions
Ronald R. Matson, dean of Fairmount College of Liberal Arts and Sciences
Kathy Downes, dean of university libraries

**Kansas Board of Regents**

Blake Flanders, president and CEO

**Board Members**

Joe Bain, Goodland
Shane Bangerter, Dodge City
Ann Brandau-Murguia, Kansas City
Bill Feuerborn, Garnett
Dennis A. Mullin, Manhattan
Dave Murfin, Wichita, vice chair
Zoe Newton, Sedan, chair
Daniel J. Thomas, Mission Hills
Helen Van Etten, Topeka

**WSU History**

Wichita State University began as Fairmount College, a Congregational institution, in 1895. In 1926, by a vote of the citizens of Wichita, the college became the Municipal University of Wichita, the first municipal university west of the Mississippi River. After 38 years as a municipal university, WSU again changed its status July 1, 1964, when it entered the state system of higher education. The citizens of Wichita had voted to move the university into the state system and when the measure passed the Kansas Legislature, Wichita endowed WSU with a 1.5 mill levy, a tax that was later adopted by Sedgwick County. The WSU Board of Trustees administers these funds and other local assets of the university.

During its history, the university has had 13 presidents:

Nathan J. Morrison, 1895–1907;
Henry E. Thayer, 1907–1914;
Walter H. Rollins, 1914–1921;
John Duncan Finlayson, 1922–1927;
Harold W. Foght, 1927–1933;
William M. Jardine, 1934–1949;
Harry F. Corbin, 1949–1963;

Andrew Schlapp, executive director of operations, government relations
Darron Boatright, director of athletics
Dennis Livesay, dean of the Graduate School
Kimberly Engber, dean of the Dorothy and Bill Cohen Honors College
Anand Desai, dean of the W. Frank Barton School of Business
Shirley Lefever, dean of the College of Education
Royce Bowden, dean of the College of Engineering
Rodney E. Miller, dean of the College of Fine Arts
Sandra C. Bibb, dean of the College of Health Professions
Ronald R. Matson, dean of Fairmount College of Liberal Arts and Sciences
Kathy Downes, dean of university libraries
Emory Lindquist, 1963–1968; 
Clark D. Ahlberg, 1968–1983; 
Eugene M. Hughes, 1993–1998; 
Donald L. Beggs, 1999–2012; and 
John W. Bardo, 2012–present.

**University and Specialty Accreditation**

Wichita State University has held regional accreditation since 1927 from the Higher Learning Commission. The university will undergo its next comprehensive evaluation during the 2026–2027 academic year. Additionally, several WSU programs hold specialty accreditation. The accreditation status of those programs can be found online (http://wichita.edu/assessment) or in information published by the accredited programs. In some cases regional and specialty accreditation status is not available. Students may also do online writing exercises to help improve basic grammar skills. Reading comprehension exercises are also available in the center.

1 The Higher Learning Commission 
230 South LaSalle Street, Suite 7–500 
Chicago, Illinois 60604; 
1-800-621-7440 
HLC website: http://ncahlc.org

**Academic Resources**

**Language and Math Labs; Writing Center**

**Language Lab**

The Savaiano-Cress Language Laboratories offer a variety of services to foreign-language students. Audio, video and computer equipment are available to students and faculty alike, with the goal of enhancing and expanding the learning experience through the use of instructional media. Hours are flexible to accommodate all students’ needs.

**Math Lab**

The Math Lab, 371 Jabara Hall, offers free, drop-in mathematics tutoring for WSU students enrolled in the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 007</td>
<td>Arithmetic</td>
</tr>
<tr>
<td>MATH 011</td>
<td>Beginning Algebra</td>
</tr>
<tr>
<td>MATH 012</td>
<td>Intermediate Algebra</td>
</tr>
<tr>
<td>MATH 111</td>
<td>College Algebra</td>
</tr>
<tr>
<td>MATH 112</td>
<td>Precalculus Mathematics</td>
</tr>
<tr>
<td>MATH 123</td>
<td>College Trigonometry</td>
</tr>
<tr>
<td>MATH 144</td>
<td>Business Calculus</td>
</tr>
<tr>
<td>MATH 242</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH 243</td>
<td>Calculus II</td>
</tr>
<tr>
<td>STAT 370</td>
<td>Elementary Statistics</td>
</tr>
</tbody>
</table>

Students may work independently knowing that help is available when needed. The Math Lab is staffed by graduate and undergraduate students who are studying mathematics and/or mathematics-related disciplines. No appointment is necessary; students are encouraged to visit the lab during its hours of operation. To determine the hours for the current semester, refer to the schedule posted outside the lab or check the math department’s website (http://wichita.edu/mathlab).

**Writing Center**

The WSU Writing Center, 601 Lindquist Hall, is free and open to all WSU students. In the Writing Center, all students can meet with a tutor who is either an undergraduate or graduate teaching assistant. While tutors do not proofread or edit, they offer assistance with all aspects of writing, including brainstorming, organization, style and revision, as well as specific writing concerns voiced by the student. A tutoring session lasts about 30 minutes. No appointment is necessary, but appointments may be scheduled by contacting the center at 316-978-3173.

In addition to tutoring, the center is equipped with five computers with Internet access, Windows and Microsoft Word (printing services are not available). Students may also do online writing exercises to help improve basic grammar skills. Reading comprehension exercises are also available in the center.

The Writing Center is open 11 a.m.–7 p.m. Monday through Thursday and 11 a.m.–4 p.m. on Friday. It opens the second week of classes and closes at the end of the last day of classes each semester. It is not open on study day, during finals or on holidays.
The Media Resources Center (MRC) serves the instructional, research and service missions of the university for media, video and design. The MRC operates the university’s streaming television station, WSUTV (https://wichitastate.tv), provides cable TV service to campus, and programs two other channels on the campus network: Channel 95, MTV; and Channel 97: WSUTV Digital Signage.

The MRC provides high quality video production services with a team of videographers, editors, designers, and with an on-site professional television production studio.

The MRC also provides web development and training services for the campus community, with a focus on providing training, development and support to campus departments and offices building web content in the university’s content management system, Blackboard.

Facilities and resources at the MRC include a flexible learning space classroom, a multimedia lab, and recording/web conferencing spaces. A wide array of media equipment is available for use by students and faculty. This includes video recording systems and projection equipment.

WSUTV

Wichita State University operates WSUTV, which is available streaming online (https://wichitastate.tv). Programming includes a variety of content produced by the MRC Video services team, live coverage of convocation and commencement, and some athletics events.

KMUW

KMUW 89.1 is a listener-supported public radio station named Radio Station of the Year by the Kansas Association of Broadcasters, which includes commercial and noncommercial stations. KMUW is licensed to Wichita State University and operates at 100,000 watts with a schedule of local, national and international news, and a unique blend of music and entertainment. In addition to its traditional broadcast service, KMUW maintains a full-service website with local news, online streaming of its signal and archive access to its local music programs. KMUW supports local arts and culture in the community through partnerships, promotion and sponsorships. KMUW also produces seven music programs: Crossroads, Global Village, New Settlers, Straight No Chaser, Strange Currency, Night Train and Soulutions. KMUW is affiliated with NPR, PRI, AP and PRX national networks.

Information Technology Services

The Information Technology Services (ITS) organization provides the network and computational backbones for campus communications and computing. In addition to this hardware infrastructure, ITS supports the software systems for the administration of the university. Responsibilities include IT security and compliance (FERPA, PCI, HIPPA, etc.), administrative application support (Banner ERP, etc.) and training, interface programming, desktop diagnosis and repair, network administration and connectivity support (wired, Wi-Fi, 4G), voice telephony support, electronic door lock and security camera support, and general technology consulting relative to both academic and administrative software/systems. More details about these and other services are online (http://wichita.edu/its).

Technology Help Desk

Technology Help Desk is housed in 120 Jabara Hall. Technology Help Desk provides technical support to all students, faculty and staff of Wichita State University. More details about the help desk and its services are available online at the help desk website (http://wichita.edu/helpdesk). The phone number for the help desk is 316-978-HELP (4357).

Open Student Computer Labs

ITS maintains an open computer lab in 120 Jabara Hall. This lab is configured with up-to-date personal computer systems and an abundance of software applications. Other services that are available are Macintosh systems, scanning, laser printing and color printing. There are lab assistants and professional staff available to support the use of these applications, systems and other services such as email support, Internet use and class project assistance.

Campus Network Access

All residence hall students are provided a direct, high-speed connection to the campus network and the internet. Wireless access to the campus network (and Internet) is also available from all campus buildings.

Email ( @shockers.wichita.edu)

Every WSU student is automatically assigned an email account with the “@shockers.wichita.edu” suffix. This email account provides students with a convenient way to communicate with other students, faculty and university offices in their academic pursuits. Students are expected to use this email address for official communication with faculty and university offices. Applications, instructions and other information about email accounts are available at the online WSU email center (http://wichita.edu/email).

myWSU

The myWSU portal is a website that allows students to view and update their own WSU information. Examples are: add/drop courses, check academic status, check on status of financial assistance and get academic history (grades). For more information about this service, go to the myWSU website (https://mywsu.wichita.edu) and click on the New to myWSU link.

Student Early Alert System (SEAS)

WSU cares about student success. For this reason, WSU has implemented an academic early alert system. Under this system, called SEAS, instructors provide feedback to students who appear to be struggling and offer any assistance that may be needed to help get them back on track academically. Students who are contacted by their
instructors through SEAS are encouraged to take full advantage of the help offered.

**University Libraries**

University Libraries includes the main Ablah Library, the McKinley Chemistry Library, and the Thurow Lueuranse Memorial Music Library, located in the Music and Languages Innovation Center (MALIC). These libraries connect students and faculty to the information, technology, and other resources essential to learning and research at WSU.

Library collections include more than two million books and research journals, federal and state documents, music recordings and scores, videos, microforms and other materials. Digital access is available to a variety of information resources with 269 databases offering journal indexing, company information, statistics, streaming audio and video, as well as full-text access to over 475,186 e-books and 94,566 e-journals. Ablah Library has been a Federal Documents Depository Library for over 100 years and is an official United States Patent and Trademark Resource Center, the only such depository in Kansas. In addition to its own collections, University Libraries is able to borrow materials from a worldwide network of other libraries.

University Libraries is dedicated to offering students a variety of services, study environments and convenient hours. Facilities include both quiet and collaborative study spaces with SmartTVs and white boards. University Libraries facilities include wireless internet access, print stations, scanners, color printers, microform reader/printers, photocopiers, seating for more than 850 people, and a 24-hour study room. Over 200 computers provide access to library resources, the Internet, and a variety of software. Laptops, tablets, digital cameras and other technologies are available for checkout. C-Space provides individuals or student groups the opportunity to collaborate, create and receive assistance in using emerging technologies such as 3D printing, app development, and media production. Library instruction is offered through in-class or online collaboration with university departments, workshops, online tutorials and research guides. One-on-one reference and technical help desk personnel are available to assist library users with their research and technical needs.

University Libraries Special Collections and University Archives includes rare books, historical Kansas maps, photographs, records of the history of the university, and a growing manuscript collection of more than 700,000 documents. Featured collections include papers of the abolitionist William Lloyd Garrison, the Baughman Collection of Early Kansas Maps and local history, the Aitchison Rare Books Collection, the Gordon Parks Papers, and congressional papers including those of Kansas Congressman Dan Glickman. Over 124 digital collections presented by Special Collections and University Archives feature rare books, historical papers and photographs, as well as university and local history, including the Wichita Photo Archives.

More information about resources and services is located on the University Libraries website (http://libraries.wichita.edu).

**Wichita State Online**

Wichita State Online brings WSU’s campus to students everywhere, making it possible to earn a degree from Wichita State University completely online.

Offering online Associate, Bachelor’s, Master’s and Doctoral level degree programs, Wichita State Online provides a path to help students achieve their goals.

**Getting Started as an Online Student**

New online students apply for admission and select their online-only program option in the Academic Interest section of the application (http://wichita.edu/apply). Returning undergraduate students can reactivate their student record online (http://wichita.edu/reactivation). Students with questions before they apply or reactivate can call 844-978-6656 or email online@wichita.edu for assistance.

**Online Student Academic Advising**

Fully online program students work with a dedicated online academic advisor who provides support and guidance from application to graduation. It is recommended that all online program students work closely with their advisor before enrolling in courses to ensure the most effective plan of study.

**Online Student Support**

Online program students have access to a robust student support system, including a dedicated student success specialist who provides focused support, academic resources, and access to services like tutoring, counseling and more. Learn more at the Online Student Support webpage (http://wichita.edu/onlinestudents).

**Online Program Tuition and Fees**

Fully online program students pay in-state tuition (regardless of where they live), an online course fee, plus any applicable college fees. Students in fully online programs do not pay the on-campus student fee and are not issued a ShockerID card. Online program students do not receive benefits such as access to the Heskett Center, campus services, campus events and Shocker athletics.

**Fully Online Degree Programs**

**Undergraduate Online Programs**

- Associate of Arts (AA)
- Bachelor of Arts in Early Childhood Unified/Elementary Education (BA)
- Bachelor of Business Administration, general business (BBA)
- Bachelor of Business Administration, human resource management (BBA)
- Bachelor of Business Administration, management (BBA)
- Bachelor of Science in Criminal Justice (BS)
- Bachelor of Science in Dental Hygiene (BSDH)
- Bachelor of Science in Homeland Security (BS)
- Bachelor of Science in Engineering Technology — Management (BSET) (Hybrid)
- Bachelor of Science in Nursing (BSN)

**Bachelor's Degree Completion Online Programs**

- Bachelor of Arts Field Major (BA)
  - Aging Studies
  - Criminal Justice
  - Psychology (does not lead to licensure)
  - Sociology (does not lead to licensure)
  - Women’s Studies
- Bachelor of General Studies (BGS)
  - Aging Studies
  - Anthropology
  - Criminal Justice
  - English
  - Political Science
  - Psychology (does not lead to licensure)
Graduate Online Programs
• Aging Studies (MA)
• Business Administration (MBA)
• Criminal Justice (MA)
• Doctor of Nursing Practice — postmaster's (MSN to DNP)
• Learning and Instructional Design (MEd)
• Public Administration (MPA)
• Special Education — Gifted (MEd)
• Special Education — High Incidence (MEd)
• Special Education — Low Incidence (MEd)

Online Certificate Courses
• Educational Technology Certificate
• Public Health Certificate
• Public Finance Certificate
• Tilford Diversity Studies Certificate
• Undergraduate Leadership Certificate

1 Hybrid online programs are not 100 percent online and require some on-campus coursework.

• Search for online courses: http://wichita.edu/onlinecourses
• Request information by email: online@wichita.edu

University Facilities
Wichita State’s main campus is located on a 330-acre site bounded by Hillside, Oliver, 17th and 21st streets in northeast Wichita. The campus is modern and accessible and at the same time retains the flavor of the university’s heritage, combining distinctive Georgian-style architecture with more modern buildings of stone and brick that are accentuated by attractive landscaping. Wichita State continues to grow. During the past 25 years, WSU has more than doubled its instructional space, adding major buildings for art, engineering, health sciences, sciences, physical education, music, dance, and liberal arts and sciences. In the past three years, Wichita State’s main campus in northeast Wichita has been expanded by 120 acres with the conversion of a golf course to a new Innovation Campus that houses an interconnected community of academic and partnership buildings, laboratories and mixed-use areas.

Eugene M. Hughes Metropolitan Complex
The Eugene M. Hughes Metropolitan Complex, located at 29th Street North and Oliver, is considered part of the main campus. Named for WSU’s 11th president, Eugene Hughes, the 27-acre site has many amenities, including an initial building containing the 1,750-seat Roger Lowe Auditorium, the 145-seat Frederick Sudermann Commons, and the Richard Welsbacher Experimental Theater, a black-box theater. This facility offers meeting rooms that are available for rent and can accommodate groups from 10 people to 250 people. In addition, it houses the Office for Workforce, Professional & Community Education which offers community education classes for the public, the Small Business Development Center, the Educational Opportunity Center, and the Evelyn Hendren Cassat Speech-Language-Hearing Clinic offering special services in these respective fields. The complex also has playing fields for intramural sports and the Advanced Education in General

Dentistry building, providing advanced education to dental school graduates as well as needed oral health care to the general public.

Fine Arts Facilities
Wiedemann Hall houses the first pipe organ built in North America by the world-renowned firm of Marcussen and Son, Denmark. The 400-seat music venue, dedicated in 1986, is the ideal acoustical setting for the organ. The building is named for music-lover and philanthropist Gladys H.G. Wiedemann.

Duerksen Fine Arts Center, opened in 1956, hosts university, community and professional music and dance performances. Named for alumnus and long-time dean of the college, Walter Duerksen, the fine arts center houses the School of Music, including the 500-seat Miller Concert Hall, classrooms and practice studios.

Wilner Auditorium, built in 1938 with federal funds provided through the Public Works Administration, is named to honor speech and theater professor George Wilner. Although other stages are now available, the 550-seat Wilner Auditorium still serves as the main stage for theater activities.

Grace Memorial Chapel
Harvey D. Grace Memorial Chapel, located in the heart of the campus near Morrison Hall and the Rhatigan Student Center, was built in 1963 and dedicated to serve all creeds and races. The chapel is available to students for group or individual worship and meditation, and is a frequent location for weddings.

National Institute for Aviation Research
The National Institute for Aviation Research (NIAR) at Wichita State University is the largest university-based aviation research and development institution in the United States with more than 320,000 square feet of laboratory space. Established in 1985, NIAR offers research, development, testing, certification and training services in the areas of Additive Manufacturing, Advanced Coatings, Aerodynamics, Aging Aircraft, Ballistic and Impact Dynamics, CAD/CAM, Composites/Advanced Materials, Crash Dynamics, Environmental and Electromagnetic Test, Full-Scale Structural Test, Mechanical Test, Nondestructive Test, Research Manufacturing, Reverse Engineering, Robotics and Automation, Virtual Engineering and Virtual Reality.

NIAR is home to the National Center for Advanced Materials Performance and the FAA’s Center of Excellence for Composites and Advanced Materials. It is also a member of the FAA’s ASSURE Center of Excellence for UAS Research and NASA’s Advanced Composites Consortium.

NIAR headquarters is located on WSU’s main campus. Additional NIAR locations include the Environmental Test and EME labs at Air Capital Flight Line, laboratories within the National Center for Aviation Training, and the Aircraft Structural Test and Evaluation Center at the former Kansas Coliseum.

Find out more at the NIAR website (http://niar.wichita.edu), or by calling 316-978-6427, or 800-NIAR-WSU.

Plaza of Heroes
Surrounded by Ablah Library, Jabara Hall, Grace Memorial Chapel and Clinton Hall, the Plaza of Heroes is a beautiful and welcome gathering place. Dansense Espagnole (Spanish Dancer), by artist Sophia Vari, is a striking addition to WSU’s highly regarded outdoor sculpture collection and the centerpiece of the plaza. Landscaping and benches surround the sculpture enhancing the circular plaza, constructed of
bricks and granite pavers engraved with the names of honored women. Proceeds from the plaza project benefit the Center for Women's Studies scholarship fund.

**Ulrich Museum of Art**

Join the contemporary arts conversation! Most recognized for the iconic Joan Miró mosaic mural *Personnages Oiseaux*, the Ulrich Museum of Art is located in the southwest section of campus. WSU students are eligible for free museum memberships and may activate their memberships by phone 316-978-3664, email ulrich@wichita.edu, or in person at the museum. Members receive e-newsletters along with free admission to events, programs and exhibitions.

The Ulrich Museum presents contemporary and modern art exhibitions, prominent guest speakers and compelling performances that explore today’s visual culture and provide students with the opportunity to be engaged with some of the most important art of today. Exhibition openings (complete with live music and complimentary food and beverages) give WSU students an opportunity to see great works of art in a fun and relaxed setting, while students visiting during regular hours will find a quiet, contemplative space.

In addition to the art inside the museum, the Ulrich has one of the top 10 outdoor sculpture collections on a college/university campus in the United States (2006 *Public Art Review*). Free maps of the outdoor sculpture collection are available at the museum’s main desk.

Hours: 11 a.m. to 5 p.m. Tuesday through Friday and 1-5 p.m. Saturday and Sunday. Closed Mondays and major/university holidays.

- Admission: free
- Phone: 316-978-3664
- Email: ulrich@wichita.edu
- Website: http://ulrich.wichita.edu
- Facebook: http://facebook.com/ulrichmuseum
- Twitter: http://twitter.com/ulrichmuseum

**WSU Haysville**

WSU State University and WSU Tech will begin offering classes at WSU Haysville in the fall of 2018.

WSU Haysville is located in the former home of Haysville Alternative High School, 106 Stewart Ave, and will offer a variety of courses, including general education courses, as well as sign language, advanced social science and HVAC courses.

The majority of the classes will be held in the afternoon and evening and will be open to degree and nondegree students.

For further information, contact Michael Yeung at 316-978-8000.

**WSU Old Town**

WSU Old Town, a complex of facilities and services is located in downtown Wichita’s Old Town district. The complex comprises office space in three buildings located at 121 N. Mead, and buildings at 213 N. Mead and 238 N. Mead.

Several WSU units focused on health care and outreach to Wichita businesses and the larger community are housed at the satellite location including:

- Center for Combatting Human Trafficking
- Kansas Procurement Technical Assistance Center (PTAC)
- KMUW Wichita Public Radio
- Physician Assistant and Physical Therapy graduate degree programs
- Training and Technology Team (T3)
- WSU Tech — health professions

The Old Town location is a natural fit with the university’s mission to be an essential economic driver for Wichita and the state of Kansas.

The university generates substantial activity in all three buildings, with numerous educational sessions and public events — especially in the large activity space at the 238 N. Mead property.

WSU Old Town’s close proximity to the university’s main campus is convenient for WSU employees, while its central location with access to many area amenities benefits those who visit and take courses at this location.

**WSU South**

Previously in Derby, WSU South is temporarily located at WSU Tech (4501 E. 47th St. South, Wichita, KS 67210) during the 2018 spring and summer semesters. With its unique learning environment, classroom technologies, helpful instructors, and friendly professional staff, WSU South offers general education classes and professional bachelor’s programs, including the elementary education completion program, psychology and women’s studies. Many of these classes are offered late afternoon and evening in a once-a-week, three-hour class format for the students’ convenience. Increasingly, many classes are being offered in the hybrid format (online and in-class) favored by many students. WSU South has a diversity of students taking classes and graduating from its programs: high school guest students, regular university students, returning adults, as well as senior citizens, who can now audit WSU classes free in most cases.

In June 2018 when renovation is expected to be complete at the Wichita Mall on Harry Street, WSU South will relocate there to collaborate with WSU Tech (Wichita State University Campus of Applied Sciences and Technology; previously Wichita Area Technical College), and the WSU Shocker Studios to offer a powerful mix of classes and programs for a variety of student demographics. One of many WSU Tech campuses is located at WSU South. WSU Tech provides over 100 degree and certificate options that were designed to meet the workforce needs of Kansas. At WSU South, students will find several of WSU Tech’s technical programs including interior design, police science, business administration, massage therapy, veterinary technician and emergency medical technician (EMT). Students will also find transferable general education courses and the Shocker Pathway program. The Shocker Pathway is a partnership between WSU Tech and WSU that provides an affordable, convenient and respected way to earn a two-year Associate of Arts (AA) degree from WSU. Visit http://WSUTECH.edu (http://www.WSUITECH.edu) for more information or to apply. The WSU Shocker Studios is a state-of-the-art professional production facility and consists of over 35,000 square feet of facilities and equipment. It is heavily engaged with industry professionals in the fields of audio production, animation, filmmaking, and game design.

As a continuation of previous classes/programs, once at the Harry Street Mall location, WSU South will schedule general education classes not offered by WSU Tech. In addition, WSU South will continue to offer completion of majors in psychology, elementary education and a minor in women’s studies, as well as popular classes in sign language and sign language interpreting. In the near future, there will be other unique classes and programs (currently in the planning stage). Emphasis will also be placed on offering classes/programs relevant to the Shocker Pathway, in which WSU Tech students can transition to

www.wichita.edu
WSU bachelor’s degree programs once they complete 50 credit hours in their relevant fields of study at WSU Tech.

At the new WSU South center on Harry Street, with its spacious hallways adorned with artistic murals, and classrooms with the latest classroom technologies, WSU South will continue its tradition of offering a premium and comfortable learning environment and outstanding customer services. Well-trained, friendly and helpful staff will continue to help students with printing and copying, payments, registration and enrollment, proctored testing, arrangement of career and academic counseling, FAX services, WSU library materials pickups and returns, lactation room access and storage for nursing mothers, and general desktop support for workstations in the main office. WSU South will also provide general information on classes and programs, the Shocker Pathway, and other WSU programs offered at that location. Finally, the University Bookstore will also have a presence at the new WSU South location. Parking permits are not required to park in the WSU South parking lot. For the latest on this exciting update, please call: 316-978-8000.

WSU West

WSU offers general education and upper-level courses in select disciplines each semester at WSU West, located at 3801 N. Walker Avenue, which is near the intersection of 37th Street North and Maize Road. In addition, library book delivery (online checkout only) and return are available. Textbook ordering and delivery are also available through the University Bookstore.

WSU West has access to the WSU Secure Wi-Fi network for use by WSU faculty, staff and students, as well as the general public. In addition, a quiet, computer-equipped study room and a group study room are available. All WSU students, faculty and staff are welcome to use resources at WSU West, even if they are not enrolled in coursework at WSU West. Parking permits are not required to park in the WSU West parking lot.

For further questions call: 316-978-6777, or visit the WSU West website (http://wichita.edu/west).

University and Student Support Areas

Alumni Association

Courtney M. Marshall, president and CEO

The WSU Alumni Association is the oldest and largest support organization for Wichita State University. Founded in 1913, the alumni association is the network through which the university community and its alumni communicate with and serve one another. The primary intent of the partnership between the association and the university is to ensure the continued excellence of Wichita State. But this serious mission certainly doesn’t mean the association isn’t serious about fun, too. Scores of exciting Shocker opportunities to participate in fun programs and events prove this point every semester.

Many traditional university events — including commencement and homecoming — are supported by association dollars or volunteers. The association also sponsors Shockers Forever, a dynamic student group. Shockers Forever provides students unequaled opportunities to network with fellow students and WSU alumni of all ages. Another WSU initiative that directly benefits students and relies on alumni participation for its success is the Drive Your Pride license plate program. This program offers alumni and students the chance to sport WuShock on their official Kansas tags, and at the same time, contribute to student scholarships. The tag program pours thousands of dollars each year into scholarships for deserving students.

For more information about the groups, events, projects and publications of the WSU Alumni Association, visit the association online (http://wichita.edu/alumni), call 316-978-3290, or drop by the Woodman Alumni Center, 4205 E. 21st Street, just east of Eck Stadium/Tyler Field.

Career Development Center

WSU’s full-service career center!

Nail the resume, land the interview and prepare for the job with the Career Development Center. Build marketable skills and gain professional work experience before and after graduation through targeted internships, on-one counseling, special workshops, career fairs and more. Now is the time to develop the right habits and skills for a lifetime of professional success.

Need help choosing a major? No problem! The Career Development Center understands that deciding on a major isn’t always easy — and sometimes it’s downright hard. That’s why the center provides every student the perfect environment to explore their interests, discover their options and create a blueprint for success.

WSU students also have access to the one of the best cooperative education and internship programs. WSU students can earn work experience, college credit and a paycheck — all while bolstering their resumes and getting a leg up on the competition. Get started today by calling 316-978-3688, visit online (http://wichita.edu/careerdevelopment), or visit in person at the center’s main office in Brennan III, or one of the center’s satellite locations in CE 258, CH 023A or WH 300.

WSU Foundation

Elizabeth H. King, president and CEO

The WSU Foundation, the private fund-raising organization of the university, strives to enhance a community of learning excellence for students and faculty through philanthropy and stewardship. Private contributions are necessary to support the programs and vision of the university beyond current funding from fees, tuition and government monies.

Gifts of cash, stock, real estate and in-kind gifts are coordinated through the foundation. Planned gifts, most commonly established through a donor’s estate or retirement plan set up to benefit the university, also are coordinated through the foundation.

Each year, millions of dollars are given to university programs from endowed funds of the foundation. Much of that is in the form of scholarships to undergraduate and graduate students. The remainder funds projects such as faculty support, research, Ablah Library and the Ulrich Museum of Art.

For more information, contact 316-978-3040 or the foundation website (http://foundation.wichita.edu) where contributions can be made online.

Student Involvement, Services

Disability Services

The Office of Disability Services provides academic accommodations for students who experience physical, learning or mental disabilities. Students are required to provide appropriate documentation to the director of disability services before classroom services are provided. For more information, contact:

Office of Disability Services
Wichita State University
1845 Fairmount
Wichita, Kansas 67260-0132
316-978-3309 front office
316-978-6128 for rides
316-854-3032 video phone
316-978-3114 fax
Webpage: http://wichita.edu/disserv

Services are based on the student’s need for academic accommodation. Disability services encourages students to be independent on campus and to use those services which help maximize their educational experience.

**Diversity and Inclusion**

The Office of Diversity and Inclusion aims to cultivate and sustain an inclusive campus that strives for academic excellence by creating an environment that educates, empowers and mobilizes all members of the Shocker community. The office provides dynamic programs, which range from speakers and film showings to award ceremonies, cultural festivities and LGBTQ programming — each representing a small piece of the diversity displayed on the WSU campus. The Office of Diversity and Inclusion collaborates with many campus departments and student organizations for various diversity and multicultural student success initiatives. In conjunction with campus partners, the office celebrates Hispanic Heritage, LGBTQ, Native American, Black History, Women’s History and Asian/Pacific American Heritage months.

The office also sponsors the Multicultural Student Mentoring Program (MSMP) which facilitates the retention, academic success, holistic development and timely graduation of all minority students at WSU, through academic support services, educational and cultural programming, interpersonal relationships and mentoring. MSMP matches successful continuing WSU students with freshmen and transfer students to help ease the transition from high school or community college to WSU. The program helps new students quickly identify all the support services available and provides direct tutorial assistance to any program participants who have committed to achieving their personal best.

The Office of Diversity and Inclusion is located in the Rhatigan Student Center, suite 208. Much more detailed information describing the Ambassadors for Diversity and Inclusion, Men of Excellence and Phenomenal Women support groups and additional resources the office provides can be found at the office website (http://wichita.edu/odi).

**International Student Services**

The Office of International Education serves the special needs of approximately 1,750 international students from more than 100 countries enrolled at Wichita State University. (See the international student admission section for requirements.) An orientation program specially designed for new international students prepares them for entrance into the U.S. academic system and way of life.

The office also sponsors the Cultural Ambassador Program and other activities that promote interaction between U.S. and international students.

In addition, the office houses a study abroad reference center which provides information to U.S. students on study, work and travel opportunities abroad.

For more information, contact the Garvey International Center, 316-978-3232.

**Military and Veteran Services**

Wichita State is proud to be committed to helping veterans, active service members, dependents and spouses receiving military benefits make the successful transition into WSU’s academic community. Whether it’s needing assistance with educational benefits, access to resources that ease the transition into the university, or wanting to connect with fellow vets, WSU has access to resources that will help smooth the transition. An overview of resources can be found at the military student services website (http://wichita.edu/military).

In the capacity of serving active duty military and veterans, the Director of Adult Learning serves as the point of contact (POC) for inquiries pursuant to the Department of Defense Memorandum of Understanding. For questions concerning POC needs, contact Dr. Susan Norton via the Adult Learning website (http://wichita.edu/adultlearning).

**Captain Riley Leroy Pitts Military and Veteran Student Center**

The Captain Riley Leroy Pitts Military and Veteran Student Center, in 105 Grace Wilkie Hall, exists to build and maintain a community of students with military experience and to provide comprehensive support for the unique needs of veterans, military members and military dependents in an environment of respect. All students with military experience — past or present — and military dependents are welcome to visit the Military and Veteran Student Center to ask questions, find resources, make connections, study, use the free computer stations, get a free cup of coffee or to just unwind between classes. Call 316-978-3856 or visit the Military and Veteran Student Center website (http://wichita.edu/veterancenter) for more information. (Current or recent military members needing help with the transition to college can also contact the TRIO Veterans Upward Bound program.)

**Veteran Benefits**

The Office of Military and Veteran Services provides assistance to military members, veterans and their dependents in using their VA education benefits. It provides information on education benefit programs through the Department of Veterans Affairs, the application process for obtaining education benefits, and the certification process for using these benefits. Additionally, military-connected students who are admitted to Wichita State as non-Kansas residents may be eligible for in-state tuition rates. For additional information on VA education benefits, please visit the WSU VA Education Benefits webpage (http://wichita.edu/veterans), stop by 105 Grace Wilkie, call 316-978-3547 or email: veterans.services@wichita.edu.

**Military Tuition Assistance**

Tuition Assistance may be offered through the various branches of the military. Students wishing to use military tuition assistance should check with their branch of service education office and chain of command to determine the appropriate procedures for using these benefits. For questions regarding student accounts and tuition assistance billing, contact the Office of Financial Operations at wsu3rdparty@wichita.edu.

**OneStop**

OneStop offers student-focused support for most WSU student-related needs. OneStop allows students the ability to get many answers for admissions, financial aid, advising, student accounts and registration in a central place. OneStop offers self-service options 24/7/365 online (http://wichita.edu/onestop) and toll-free phone service at 855-978-1787. Students will need a OneStop telephone access code found by logging in to the myWSU portal (https://mywsu.wichita.edu/) and selecting “Manage your Password” for current students or “New to
myWSU” for incoming students. In-person service is also available in the OneStop office.

OneStop also provides first-year advising for incoming traditional freshman students. OneStop specialists (first-year advisors) work collaboratively with academic college advising offices to develop a degree plan for each student as well as educate them on the operational tools and resources that will aid their success at Wichita State.

OneStop is located in Jardine Hall, Room 112. Regular office hours are 8 a.m.–7 p.m. Mondays–Thursdays, and 8 a.m.–5 p.m. on Fridays.

**Student Government Association**

Wichita State believes that one of its primary tasks is preparing students for the responsibilities of citizenship in a democratic society. With this in mind, the university places an increasing emphasis on the role the Student Government Association plays on campus.

The legislative, executive and judicial responsibilities of SGA are vested in the Student Senate, the executive officers and cabinet, and the University Supreme Court. The senate appoints students to many university and faculty senate committees, recognizes and funds more than 200 student organizations, and allocates approximately $10 million annually in student fees to campus agencies including the Heskett Center, Rhatigan Student Center and Student Health Services. SGA also provides opportunities to fund education through the Rhatigan Leadership Scholarship. The cabinet executes the decisions of the senate and the officers. The Supreme Court issues opinions on constitutional questions and also serves as an appellate court for traffic appeals. Each of these entities also participates in the determination of university policy.

Each student is automatically a member of SGA and is eligible to vote in the annual elections in April. Throughout the year, openings exist on the Student Senate, as well as in many of the university committees. All students are encouraged to participate in student government through the many opportunities SGA offers.

For more information, contact the Student Government Association, 219 Rhatigan Student Center, Wichita State University; 316-978-3480.

**Student Money Management**

Students wanting to learn more about managing their finances can receive free help from certified peer financial coaches. Located in 115 Neff Hall, the Office for Student Money Management (OSMM pronounced awesome) is open during normal office hours and is available in the evenings by appointment.

OSMM, as part of the Office of Student Success, is designed to help increase retention and graduation rates by addressing one of the major stressors for WSU students and one of the major reasons for dropping out of college across the country: struggles related to money.

OSMM provides students with information and coaching on a variety of topics related to personal finances in college — including completing the FAFSA, making and sticking with a spending plan, matching a plan for paying for college with a plan for graduation, ways to establish good credit or get out of credit trouble, figuring out how much to borrow for college and how to pay it back, and finding campus and community resources.

OSMM does not offer scholarships, credit counseling or advice related to bankruptcy, investment or retirement. Contact 316-978-3254, or email the office (osmm@wichita.edu) for more information or to make an appointment to meet with a peer financial coach.

**TRIO Disability Support Services**

*The TRIO Disability Support Services* program provides opportunities for academic development, assists students with basic college requirements and motivates students with disabilities toward the successful completion of a baccalaureate degree.

The program’s goal is to increase the college retention and graduation rates of students with learning, physical and psychological disabilities.

Services provided by TRIO DSS include individualized academic tutoring, advice and assistance in postsecondary course selection and degree planning, assistance with graduate and professional program applications, and career exploration and referral. TRIO DSS assists students with information about financial aid programs and scholarship opportunities, provides assistance in completing financial aid applications, and offers education or counseling services designed to improve financial/economic literacy. Students at TRIO DSS sharpen life/study skills through workshops, access to the computer technology lab and textbook loan program, and exposure to cultural events and academic programs on campus and in the community.

For information, contact TRIO DSS at 316-978-5949, stop by 158 Grace Wilkie Annex, or visit the TRIO DSS website (http://wichita.edu/dss).

**Wellness Programs**

**Campus Recreation**

Campus Recreation is the primary destination for everything Shockers need to get their fitness, leisure and recreation groove on! Many indoor programs and activities take place in the Heskett Center. This 166,000 square-foot facility has everything fitness enthusiasts need for healthy, enjoyable, and productive college careers. By presenting a current Shocker ID card students open a door into the very best in fitness and recreation! Features include:

- Five convertible basketball/volleyball/badminton courts;
- Complimentary Shocker Fit, group fitness classes to all registered students. Over 34 classes/week including Cycle Fit, F45, PiYo, Yoga, and Zumba.
- Two hundred (200) meter indoor track;
- Three Shocker fitness studios, + CYCLE Fit studio + NEW F45 Functional Fitness Team Training Studio;
- Racquetball and squash courts;
- Mount Wu, a 25 foot-high climbing wall;
- Five thousand (5,000)+ square feet of fitness specific activity space including cardiovascular, and strength and conditioning equipment;
- Twenty-five (25) meter swimming pool with separate dive well;
- Six outdoor, lighted, hard-court tennis courts;
- Spacious men’s and women’s locker rooms; and
- Extensive sports and competition program consisting of many seasonal intramural opportunities as well as year-long sport club programs and activities.

Individual services available for purchase by members include:

- Personal training session packages;
- Massage session packages; and
- Variety of special event style activities including the Pumpkin Run 5k race, NIRSA Day and health fair.

Campus Recreation is here to provide students with solutions to their fitness, leisure and recreational needs. To learn more about the
programs and services provided check out the Campus Recreation website (http://wichita.edu/campusrecreation), Like us on Facebook, or speak with a guest services assistant at 316-978-3082.

**Child Development Center**

The WSU Child Development Center is located at 3026 East 21st Street North, at the NW corner of Hillside and 21st Street. It is a licensed child care center for children of WSU students, faculty, staff and alumni. A diverse staff of qualified lead teachers and WSU student assistants facilitates developmentally appropriate activities — art, language, science, math, music and literature — in a hands-on learning environment. The child care center is open Monday through Friday from 7:30 a.m. to 5:30 p.m. for children 6 weeks to 6 years old.

Enrollment is limited so it is recommended to get on the waiting list as soon as possible. There is a $70, nonrefundable fee to be added to the waitlist.

Students taking 6 credit hours or more receive a $50 discount. Students who receive financial aid and have an EFC of 0 receive a $100 discount.

For more information, call 316-978-3109, or visit the Child Development Center website (http://wichita.edu/childdevelopmentcenter).

**Counseling and Testing Center**

The Counseling and Testing Center provides services for personal and mental health issues. Psychological testing for learning disabilities is offered. Workshops and seminars on a variety of mental health and wellness topics are available. Academic testing services are also part of the center’s function. The center’s testing offerings include the credit by exam program, certification tests for community professionals, CLEP tests, and entrance exams for colleges and graduate schools.

Contact the Counseling and Testing Center in 320 Grace Wilkie Hall, at 316-978-3440, or online (http://wichita.edu/counselingtesting).

**Student Health Services**

Student Health Services offers affordable, conveniently accessed health care services. Staff provides treatment of acute and chronic illness and injury, preventive health services, and health promotion and educational activities for students.

**Features**

- Outpatient care for acute and long-term illnesses and minor injuries
- No insurance is needed to be seen at Student Health
- Physical exams for class requirements or for general health
- Women’s health services including pap tests, birth control, pregnancy testing
- Medications — over the counter and prescriptions when ordered by our providers
- Lab services including onsite rapid testing, blood draws, testing for sexually transmitted disease
- Free STI testing events during fall and spring semesters
- Vaccinations
  - Routine and travel immunizations
  - Ongoing allergy shot regimens
  - Free annual flu shots each fall
- myShockerHealth (http://studenthealth.wichita.edu) — a secure web portal providing 24 hour access to specific student health services including making an appointment, requesting a medication refill, exchanging messages with providers, checking Student Health financial accounts and paying a bill.

Student Health is located at 209 Ahlberg Hall. Hours are Monday – Thursday 8 a.m. to 7 p.m. and Friday 8 a.m. to 5 p.m.

Appointments can be scheduled anytime through the student portal at http://studenthealth.wichita.edu or by calling 316-978-3620.

For more information, visit the Student Health Services website at http://wichita.edu/shs

**Rhatigan Student Center**

The Rhatigan Student Center (RSC) is the community center for Wichita State University. Through its facilities and services, the RSC serves students, faculty, staff, alumni and the Wichita community.

The RSC Food Court features Mondo's Subs, Chick-Fil-A Express®, Pizza Hut Express®, Starbucks and Sono.

The University Bookstore, on the first floor of the RSC, stocks textbooks for rent or purchase, casual and professional Shocker apparel, art supplies, Shocker souvenirs and gifts.

The RSC’s Shocker Sports Grill and Lanes is for leisure use. Located on the lower level of the RSC, it includes billiards, bowling, poker tournaments, darts, and fun foods and beverages. It’s the perfect place for Shocker basketball watch parties, birthday parties and group events.

The RSC has meeting rooms of all sizes, as well as a 7,800 square foot ballroom, and all are made available for campus and noncampus group rentals at reasonable rates. The University Event Services office schedules the use of all facilities in the RSC as well as most university facilities for out-of-classroom use.

The RSC is home for the Student Government Association, Student Advocate, the Office of Diversity and Inclusion, Student Affairs, Student Involvement, the Shocker Card Center, the University Information Center (UIC), Commerce Bank, Campus Ministry, Lords and Ladys Hair Salon, and the Engraving Shop.

The nationally-ranked Shocker men's and women's bowling teams are also housed in the RSC.

Visit the RSC online (http://wichita.edu/RSC) for more information.

**Sports and Recreation**

Numerous sports and recreation programs exist at the university.

As an NCAA Division I member, Wichita State competes in the American Athletic Conference; WSU teams compete in basketball, baseball, softball, cross country track, tennis, golf and volleyball. The university fields teams in bowling and crew as independent sports.

There is also an extensive campus recreation program. Club sports include spirit squad, dance squad, racquetball, soccer, men’s volleyball, wheelchair athletics, ice hockey and aikido. Intramural sports include flag football, basketball, table tennis, badminton, soccer, softball, bowling, swimming and racquetball.

Students with a current Shocker ID card are admitted free to all varsity athletic events.

**Sport Facilities**

The 10,506-seat Charles Koch Arena, which is used for intercollegiate basketball games; the 7,851-seat Eck Stadium – Home of Tyler Field, home to the Shocker baseball program, which underwent a $7.8 million
renovation in 2000 and ranks among the finest college baseball facilities in the country; the Sheldon Coleman Tennis Complex with eight lighted courts, home to WSU’s intercollegiate tennis program; and the 1,000-seat C. Howard Wilkins Softball Facility for intercollegiate softball. Visit Shocker sports online (http://goshockers.com).

University Policies and Procedures
Notice of Nondiscrimination
Wichita State University does not discriminate in its employment practices, educational programs or activities on the basis of age, ancestry, color, disability, gender, gender expression, gender identity, genetic information, marital status, national origin, political affiliation, pregnancy, race, religion, sex, sexual orientation, or status as a veteran. Retaliation against an individual filing or cooperating in a complaint process is also prohibited. Sexual misconduct, relationship violence and stalking are forms of sex discrimination and are prohibited under Title IX of the Education Amendments Act of 1972. Complaints or concerns related to alleged discrimination may be directed to the Director of Equal Opportunity or the Title IX Coordinator, Wichita State University, 1845 Fairmount, Wichita KS 67260-0138; telephone 316-978-3187.

Concerns may also be directed to the U.S. Department of Education Office for Civil Rights:

- Office for Civil Rights, Kansas Office: U.S. Department of Education, Office for Civil Rights, One Petticoat Lane, 1010 Walnut St, Suite 320, Kansas City, MO 64106. Telephone: 816-268-0550. Email: OCR.KansasCity@ed.gov.

Inquiries for large print, Braille or audio versions of this catalog should be addressed to the Office of Disability Services.

Student Responsibility
Students at Wichita State University have the following responsibilities:

1. To consult their advisors on all matters pertaining to their academic careers, including changes in their programs;
2. To observe all regulations of their colleges and select courses according to the requirements of that college;
3. To attend all meetings of each class in which they are enrolled (instructors will announce at the beginning of the semester if they consider attendance in computing final grades);
4. To fulfill all requirements for graduation;
5. To be personally responsible for fulfilling all requirements and observing all regulations at Wichita State;
6. To answer promptly all written notices from advisors, faculty, deans and other university officers;
7. To file an application for degree in the appropriate college office by the published deadline for the semester in which graduation is intended; and
8. To enroll in only those courses for which the stated prerequisite(s) have been satisfactorily completed. Failure to comply with this procedure may result in administrative withdrawal.

Students also should comply with the principles in the following statement:

Wichita State University reaffirms the principle of intellectual freedom in scholarly activity for university students, and it recognizes the full citizenship rights of students in inquiry, discussion and such actions as they may choose to take on public issues.

The rights and freedoms of students involve concomitant responsibilities. Incumbent on all students, as on all citizens, is the responsibility to observe the university’s rules of orderly procedures and the laws of the larger community of which the university is a part. In the matter of actions on public issues, to speak one’s opinion, to petition, to distribute literature, to assemble peacefully and hold meetings, to use the persuasion of ideas, and other actions within the bounds of orderly and lawful procedures are sanctioned by the university. But infringement on the rights of others, acts or threats of violence to persons, destruction of property, disruption, or other interference with the normal functioning of the university and its personnel and other disorderly and unlawful acts will not be countenanced.

Within its sphere of responsibility the university will afford students proper procedural safeguards to resolve matters in dispute. Those who willfully violate university standards must expect to face disciplinary action on the part of the institution, which may include reprimand, administrative withdrawal, probation or suspension, consistent with campus provisions for due process.

Student Code of Conduct
The Student Code of Conduct outlines university behavior expectations for students, student groups, and student organizations in keeping with institutional values and to meet the university’s legal obligations. These expectations cover topics such as academic integrity, drug use, hazing, alcohol, weapons, physical violence and harassment. The conduct procedures outline the actions needed to file a complaint and the course followed in the student conduct process. Additionally, information on informal and conflict resolution processes for student-involved conflicts is also provided.

The Student Code of Conduct is located online at the student conduct webpage (http://wichita.edu/studentconduct). Individuals wanting to file an incident report about a student, student group, or student organization can submit a report online at the same site.

Sexual Misconduct, Relationship Violence and Stalking Policies
Wichita State University is committed to the elimination of sexual misconduct, relationship violence and stalking within the university community. These incidents may interfere with or limit an individual’s ability to work productively, maintain a safe living environment, or to benefit from or fully participate in the university’s educational programs. Additionally, these incidents may cause serious physical and/or psychological harm.

Wichita State University maintains a comprehensive program to prevent these behaviors, provides resources to assist and support those who are involved in such incidents, and will respond promptly and equitably to reports of sexual misconduct, relationship violence and stalking. The university has a responsibility to eliminate the behavior, prevent its recurrence, and address its effects on any individual and/or the community. Retaliatory actions against any individual involved in reporting or participating in the investigation of a complaint will not be tolerated.
Information regarding the university’s policies can be found in sections 8.16/Sexual Misconduct, Relationship Violence and Stalking Policy for Students, and 3.06/Sexual Misconduct, Sexual Harassment, Relationship Violence and Stalking Policy for Employees and Visitors in the WSU Policies & Procedures Manual.

Campus and community resource information can be found at the Care Team’s website (http://wichita.edu/care) or by contacting the Office of Equal Opportunity and Title IX.

Student Academic Honesty
A standard of academic honesty, fairly applied to all students, is essential to a learning environment. Students who compromise the integrity of the classroom are subject to disciplinary action by their instructor, their department, their college and/or the university. Violations of classroom standards of academic honesty include, but are not limited to:

1. Cheating in any form, whether in formal examinations or elsewhere.
2. Using or submitting the work of others as one’s own original work without assigning proper credit to the source.
3. Misrepresentation of any work done in or out of the classroom or in preparation for class.
4. Falsification, forgery or alteration of any documents pertaining to academic records.
5. Colluding with others in an effort to obtain a grade or credit not truly reflective of what the student knows or has learned.

Students violating such standards must accept the consequences and appropriately assessed penalties, which may include reprimand, a failing grade, or suspension or dismissal from an academic program or the university. Students accused of abridging a standard of academic honesty will be provided with mechanisms for review and appeal of decisions regarding allegations of academic misconduct.

The fundamental responsibility for the maintenance of the standards of academic honesty rests with each student. It is each student’s responsibility to be familiar with university policy on academic honesty and to uphold standards of academic honesty at all times and in all situations.

Release of Student Information Policy (Privacy Law)
The Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, is a federal law that sets forth requirements pertaining to the disclosure of, and access to, education records maintained by Wichita State University.

Wichita State University accords all rights under the law to students. Those rights are:

1. The right to inspect and review the student’s education records;
2. The right to request amendment of the student’s education records to ensure that they are not inaccurate, misleading or otherwise in violation of the student’s privacy or other rights;
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent; and
4. The right to file with the U.S. Department of Education a complaint concerning alleged failures by Wichita State University to comply with the requirements of FERPA.

No one outside the institution shall have access to, nor will the institution disclose any information from, students’ education records without the prior written consent of the student with the exception of disclosure to:

1. Personnel within the institution who have a legitimate educational interest,
2. Persons or organizations providing students financial aid,
3. Accrediting agencies carrying out an accreditation function,
4. Persons in compliance with a judicial order,
5. Persons in an emergency in order to protect the health or safety of the student or other persons, or
6. Other persons or entities to whom disclosure is permitted under FERPA.

Upon request, the institution may also disclose, without the student’s consent, education records to officials of another school in which the student seeks or intends to enroll, or is enrolled.

Within the Wichita State community, only those members, individually or collectively, acting in the students’ “legitimate educational interests” are allowed access to student education records. These members include personnel in the offices of admissions, registrar, financial operations, computing center, dean of students, financial aid, career services, cooperative education, planning, testing, library, college deans, academic advisors, and other administrative and academic personnel within the limitation of their need to know. “Legitimate educational interests” means:

1. The information or records requested is/are relevant and necessary to the accomplishment of some task or determination; and
2. The task or determination is an employment responsibility for the inquirer or is a properly assigned subject matter for the inquirer’s employment responsibility.

A Social Security number and student status data may be provided to other state agencies for use in detection of fraudulent or illegal claims against state monies.

Family Educational Rights and Privacy Act (FERPA)
1. Definitions
   a. Consent: Consent shall be in writing and shall be signed and dated by the student giving consent. It shall include:
      i. Specification of records to be released;
      ii. Purposes for such release; and
      iii. Parties or class of parties to whom such records may be released.
   b. Directory Information: FERPA defines directory information as: “Information contained in an education record of a student which would not generally be considered harmful or an invasion of privacy if disclosed.” Under FERPA, such information includes, but is not limited to, the student’s name, address, telephone listing, electronic mail address, photograph, age in years, place of birth, major field of study, dates of attendance, grade level, enrollment status, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors and awards received, and the most recent educational agency or institution attended.
   c. Disclosure: Permitting access to, or the release, transfer, or other communication of, the education records of the student or the personally identifiable information contained therein, orally,
or in writing, or by electronic means, or by any other means to any party.

d. **Education Records:** Those records that are directly related to a student and that are maintained by the university or by a party acting for the university. A record means any information recorded in any way, including, but not limited to, handwriting, print, tape, film, microfilm, microfiche, computerized and/or digitized storage. Records described in items i-vi below are excluded from the category of "education records." Therefore, the law does not guarantee the right of student access to the following:

   i. **Sole possession records:** Records that are kept in the sole possession of the maker, are used only as a personal memory aid, and are not accessible or revealed to any other person except a temporary substitute for the maker of the record.

   ii. **Employment records:** Records related solely to the employment of a student by the institution, provided the student is not "employed as a result of his or her status as a student." Records on a work study or GTA/GRA student are covered by FERPA.

   iii. **Medical and mental health records used only for the treatment of the student:** Such records may be personally reviewed by a physician or other appropriate professional of the student’s choice and with the student’s written consent.

   iv. **University law enforcement records:** Records of the WSU Police Department maintained solely for law enforcement purposes, which are maintained separately, and which are not disclosed to individuals other than law enforcement officials sharing the same territorial jurisdiction.

   v. **Alumni records:** Records that contain only information relating to a person after that person is no longer a student at the university. An example would be information collected by the university or the WSU Alumni Association pertaining to the accomplishments of its alumni.

   vi. **Peer graded papers and exams prior to the grade being recorded in the instructor's grade book.**

e. **Legitimate Educational Interests:** The interests of university personnel who have a demonstrably legitimate need to review records in order to fulfill their official professional responsibilities. Such responsibilities must involve the university in its primary educational and scholarly functions and/or secondary administrative functions of maintaining property, disbursing funds, keeping records, providing living accommodations and other services, sponsoring activities, and protecting the health and safety of persons or property in the university community. If a question arises concerning the legitimacy of a request to review records, such question shall be referred to the registrar and/or the general counsel prior to release of the records.

f. **Parent:** Includes a parent, guardian, or individual acting as a parent of a student in the absence of a parent or guardian.

g. **Personally Identifiable Information:** Includes the name of the student; the student’s parent(s) or other family member(s); the address of the student or student’s family; personal identifiers such as a social security number, student number, or biometric record; or other indirect identifiers such as the student’s date of birth, place of birth, and mother’s maiden name; or other information that, alone or in combination, is linked or is linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who WSU reasonably believes knows the identity of the student to whom the education record relates.

h. **School Official:** Includes a teacher, school principal, president, chancellor, board member, trustee, registrar, counselor, admissions officer, attorney, accountant, human resources professional, information systems specialist, and support or clerical personnel. A contractor, consultant, volunteer, or other party to whom a school or institution has outsourced institutional services or functions may also be considered a “school official” provided that they are performing an institutional service or function for which the agency would otherwise use employees and is under the direct control of the agency or institution with respect to the use and maintenance of education records.

i. **Student:** Anyone who is or has been enrolled at Wichita State University, with the following exception: A person who has applied for admission to, but has never been in attendance at a component unit of the university (such as the various schools and colleges of the university), even if that individual is or has been in attendance at another component unit of the university, is not considered to be a student with respect to the component to which an application for admission has been made.

j. **Unit Custodian of Student Records:** The head of each academic or administrative unit that is responsible for the education records within the unit (unless otherwise defined elsewhere in this policy).

2. **Student Access to Education Records**

   a. A student has the right and shall be accorded the opportunity to inspect, review, and/or receive copies of his or her educational record, except as provided for below. The university must comply with the student’s request within a reasonable period of time, not to exceed 45 days after the request.

   b. The student has the right to a reasonable request for explanation of the records and to copies of the records where necessary to provide full inspection and review. Such copies will be provided at the student’s request and expense; however, the charge to the student for any such records may not exceed $.25 per page. The university may not charge a fee to search for or retrieve a record. If any question arises as to the identity of the requesting student, the student shall be asked to provide his or her university ID card and/or other positive identification.

   c. The university is not required to afford inspection and review of the following records:

      i. Financial records of the student’s parents submitted as part of the financial aid process;

      ii. Confidential letters and statements of recommendation that were placed in the student’s education records prior to January 1, 1975, if such letters were submitted with an understanding of confidentiality, and are used only for the purpose for which they were specifically intended;

      iii. Confidential letters and statements of recommendation received after January 1, 1975, for which the student has signed a waiver of the right to access and which pertain to:

         1. Admission to this or any other educational institution or agency;

         2. Application for employment; or

         3. Receipt of an honor or honorary recognition so long as these letters are used solely for the purpose(s) for which they were specifically intended.
d. If an education record contains information about more than one student, the student may inspect only the information about himself or herself.

3. **Waiver of Rights**

The university may request, but not require, students to waive rights under this policy. All waivers must be in writing and signed by the student. Applicants for admission to the university and eligible students may waive rights to review confidential letters of recommendation only if:

a. The applicant or student, upon request, is notified of the names of all persons providing letters;

b. The letters are used only for the purpose for which they were originally intended;

c. The waiver is not required as a condition of admission or for any other service or benefit of the university.

All waivers under this paragraph must be executed by the individual, regardless of age, rather than by the parent or legal guardian of the individual. All waivers must be in writing and signed by the student. The student may revoke any waiver in writing, the revocation to apply only to documents received or entered into the record after the date of execution of the revocation.

4. **Disclosure of “Personally Identifiable” and “Directory Information”**

The university shall obtain the written consent of the student before disclosing personally identifiable information from education records, other than directory information, except as otherwise provided in this policy.

The university may, without the consent of the student, disclose directory information. If a student wishes to have such information withheld, he or she must notify the Office of the Registrar in writing, as described previously. If a student wishes to prevent the inclusion of such information in the online student directory, he or she must notify the Office of the Registrar.

The university may disclose personally identifiable information from a student’s education record(s) without the consent of the student if the disclosure is made to:

a. School officials within the institution determined to have a legitimate educational interest(s).

b. Authorized persons to comply with a judicial order or lawfully issued subpoena, provided the university makes a reasonable effort to notify the student in advance of compliance; except the university will not disclose to the student information about a grand jury subpoena, a subpoena issued for a law enforcement purpose when notice is prohibited, or a court order obtained by the United States Attorney General or Assistant Attorney General in investigations or prosecutions of certain criminal offenses or an act of terrorism, in accordance with the law or regulations, certain officials of the U.S. Department of Education, the Comptroller General and state and local educational authorities in connection with an audit or evaluation of federal or state supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs.

c. Financial aid personnel in conjunction with an application for or receipt of financial assistance, provided that the disclosure is needed:

   i. To determine the eligibility of the student for financial aid;
   
   ii. To determine the amount of financial aid;
   
   iii. To determine the conditions for the financial aid; or
   
   iv. To enforce the terms or conditions of the financial aid.

d. Appropriate parties, including parents, in connection with an emergency, if knowledge of the information is reasonably considered to be necessary to protect the health or safety of the student or other individuals. Disclosures for this purpose shall take into account the totality of the circumstances pertaining to the threat to the health or safety of a student or other individuals. If the university determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is reasonably considered necessary to protect the health or safety of the student or other individuals.

e. A parent regarding the student’s violation of any federal, state or local law, or of any rule or policy of the university, governing the use or possession of alcohol or a controlled substance if the institution determines that the student has committed a disciplinary violation with respect to that use or possession and the student is under the age of 21 at the time of disclosure to the parent.

f. Parent(s) or legal guardian(s) of dependent students who provide a written request for grades to the university registrar pursuant to Board of Regents policy. Dependency, for this purpose, is defined by the Internal Revenue Code of 1954, Section 152. The student will be notified in writing and/or electronically of any disclosure of grades made to the student’s parent(s) or legal guardian(s).

g. Another institution of postsecondary education where the student seeks or intends to enroll, or is enrolled, so long as the disclosure is for purposes related to the student’s enrollment or transfer.

h. Authorized representatives of federal, state and local educational authorities, to organizations conducting studies for or on behalf of educational agencies or institutions, to accrediting organizations, to comply with judicial orders or lawfully issued subpoenas, to victims of a crime of violence or nonforcible sex offense, in connection with university disciplinary proceedings, or if disclosure concerns sex offenders and other individuals required to register under federal law.

i. The university student health service is required to report to the Kansas Department of Health the names of students who have certain communicable diseases such as hepatitis, tuberculosis, and venereal disease. The health service is also required to report to local law enforcement officials the name of any student who is wounded with a deadly weapon.

5. **Notice to Third Parties**

The university must inform the parties to whom personally identifiable information is given that they are not permitted to disclose that information to others without the written consent of the student and that the information is to be used only for the purpose(s) intended.

6. **Providing Copies of Disclosed Records**

When the unit custodian discloses personally identifiable information from the education record of a student, the unit custodian shall, at the student’s request and expense, provide a copy of the disclosed record to the student, unless otherwise specified by this policy.

7. ** Destruction of Records**

Education records shall be maintained consistent with university policy on the retention of records. No education record, however, may be destroyed if there is an outstanding request to inspect and review the record. Also, the record of access to the education record and any explanations which are a part of the record must be maintained for as long as the education record to which it pertains is maintained.
8. **Maintaining Records of Requests and Disclosures**

The unit custodian shall maintain a record of requests and disclosures of personally identifiable information from a student’s education record. The record shall include, whether requests are granted or not, the name(s) of the person(s) who requested the information and their legitimate interests in the information.

Records of requests and disclosures will not be maintained:

a. For requests made by the student;

b. For requests for which the student has given written consent;

c. For requests made by school officials with legitimate educational interests;

d. For requests for directory information;

e. For disclosures in compliance with certain judicial orders or lawfully issued subpoenas, after a reasonable attempt has been made to notify the eligible student or parent.

The record of requests and disclosures may be inspected by the student, by school officials responsible for the custody of the records, and by federal and state officials who have been given permission to access records by the registrar.

9. **Students’ Right to Challenge Information Contained in Education Records**

a. The student has the right, upon reasonable request, for a brief explanation and interpretation of the record in question from the respective unit custodian.

b. The unit custodian of the challenged education record, after reviewing the record with the student, may settle the dispute informally with the student with regard to the deletion or modification of the education record. The unit custodian shall make his or her decision within a reasonable amount of time and shall notify the student of the decision.

c. In the event the unit custodian disapproves the student’s request to delete or modify the record in question, the student shall be notified by the unit custodian, in writing, of the decision and of the student’s right to a formal hearing upon the request.

i. All requests for formal hearings by the student shall be directed to the registrar, and shall contain a plain and concise written statement of the specific facts constituting the student’s claim.

ii. The hearings shall be conducted by a university staff member (hearing officer) who does not have a direct interest in the outcome of the challenge and who shall be appointed by the registrar. The hearing shall be held within a reasonable time of receipt of the student’s request and the student shall be notified reasonably in advance by the hearing officer of the date, place, and time of the hearing.

iii. At the hearing the student shall be afforded a full and fair opportunity to present evidence relevant to the claim and may, at his or her expense, receive assistance or be represented by any individuals of choice.

iv. Based solely on the evidence presented at the hearing, and within ten (10) working days of the hearing, the hearing officer shall make a written recommendation to the registrar together with written findings of fact concerning the student’s request. Within an additional fourteen (14) working days of receipt of the hearing officer’s report, the registrar shall notify the student in writing of the decision. The decision must include a summary of the evidence and the reasons for the decision.

d. In the event the decision of the registrar is adverse to the student’s request, the student shall be notified of the opportunity to place with the education record a summary statement commenting upon the information in the records and/or setting forth any reason for disagreeing with the decision. If the questioned document is released to a third person, the student’s summary statement shall accompany the release of any such information. The summary information shall be maintained for as long as the contested record is maintained.

e. If a student challenge to the content of a given record is successful, the university shall amend the education record accordingly and so inform the student. Upon the student’s specific written request to the registrar, the university shall make a reasonable effort to contact student-designated third persons who have received copies of the previous record to inform them of the change which has been made.

10. A student may challenge the content of an education record on the grounds that the record is inaccurate, misleading or otherwise in violation of the privacy or other rights of the student. No hearing under this policy shall be granted for challenging the underlying basis for the grade. However, the accuracy of its recording could be challenged.

The following procedure for challenging the content of an education record shall apply:

11. **Complaint Procedure**

If a student believes that the university is not in compliance with FERPA, the student should first contact the office involved and/or the Office of the Registrar.

If a student wishes to file a complaint with the federal government concerning the university’s failure to comply with FERPA, he or she must submit the complaint, in writing, within 180 days of an alleged violation of FERPA to the Family Policy Compliance Office (FPCO), U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202. The FPCO office will notify the student when the complaint has been received. The FPCO office will investigate the complaint, and may require further information of its findings and basis for such findings. In the event the university is found not to be in compliance, it will be afforded the necessary time to comply. If it does not then comply, the matter will be sent to a review board for a hearing. For information concerning this hearing procedure, see 34 C.F.R. Sections 99.64 through 99.67.

---

**Public Notice Designating "Directory Information"**

The Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, designates certain information related to a student as “directory information.” FERPA gives the university the right to disclose such information to anyone inquiring without having to ask a student for permission, unless the student specifically requests in writing that all such information not be made public without written consent, except by the National Student Clearinghouse to loan guarantors.

Wichita State University hereby designates the following student information as public or directory information.

**Directory information includes the student’s name, address, telephone listing, electronic mail address, photograph, age in years, place of birth, major field of study, dates of attendance, grade level, enrollment status, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors and awards received, and the most recent educational agency or institution attended.**
The name(s) and address(es) of the student’s parent(s) or guardian(s) may be disclosed when used for an official university news release about the student’s receipt of degrees or awards or about participation in officially recognized activities or sports. Parent name, address, telephone number, and email address is designated as directory information for the limited purpose of disclosure to the Wichita State University Foundation, Inc. to support programs and activities of the institution and the WSU Foundation.

Currently enrolled students may withhold disclosure of directory information (on an all or none basis) to non-institutional persons or organizations. If a student wishes to withhold the disclosure of all directory information items, she or he may obtain the request form from the Office of the Registrar, 117 Jardine Hall, or call 316-978-3090. Return the completed form, along with a readable copy of a government-issued photo ID (e.g., a driver's license) to the Office of the Registrar. The request form will be processed within one business day of receipt.

Consider carefully the consequences of any decision to withhold directory information, as any future requests for such information will be refused. Examples of, but not limited to, potential impacts are: no acknowledgement of a student’s attendance at WSU to potential employers, no verification of degrees to requestors, no printing of the student’s name in the commencement program and no press releases pertaining to graduation and/or honors. The institution will honor a request to hold directory information but does not assume responsibility to contact the student for subsequent permission to release it. Regardless of the effect upon the student, WSU assumes no liability for honoring instructions that such information be withheld.

If a student has previously submitted a nondisclosure request, but now wishes to disclose the information (i.e., release the nondisclosure hold), please contact the Office of the Registrar.

Addition Policies and Procedures

Injury or Accident
The state of Kansas and Wichita State University do not insure against, and are not responsible for, accidents or injury to students which may occur during university-sponsored activities on or off campus. The university will make every reasonable attempt to advise students concerning potential danger of accident or injury. Students are expected to act responsibly by taking necessary precautions to prevent accidents. Students also are advised to protect themselves from the financial burden of accident or injury through a personal insurance policy.

Offender Registry
Law enforcement agency information concerning registered sex offenders who are employed by or who are currently enrolled at Wichita State University may be obtained from the university police department. This information is made available to the campus community pursuant to the requirements of the Campus Sex Crimes Prevention Act. Further information on any registered offender can be obtained from the Kansas Bureau of Investigation or the sheriff’s office in the registrant’s county of registration.

Residency Requirements
See Residency Defined (p. 25).

Safety
Campus safety is a priority at Wichita State. The university campus is well lighted and parking lots are regularly patrolled by WSU police officers. WSU police and parking services personnel are available to provide safety escorts for students in the evenings. In case of emergencies, phones (designated by a blue light at the top of the pole) with direct access to the university police station are strategically placed around the campus.

More information about campus safety including links to emergency news and the option to opt in to ShockerAlert System emergency notifications can be found at the campus safety website (http://wichita.edu/safety).

The annual security and fire report is available online (http://wichita.edu/annualsecurityreport). Review safety and crime prevention information in addition to daily crime logs and crime statistics at the police website (http://wichita.edu/policy).

Care Team
Wichita State cares about the well-being of all members of the campus community. The Care Team applies a multidisciplinary approach to assisting students in need. More information may be found at the Care Team website (http://wichita.edu/CARE).

Title IX
Title IX of the Educational Amendments of 1972 prohibits discrimination based on sex in any educational institution that receives federal funding. Wichita State University does not tolerate sex discrimination of any kind including: sexual misconduct, sexual harassment, relationship/sexual violence and stalking. These incidents may interfere with or limit an individual’s ability to benefit from or participate in the university’s educational programs or activities. Students are asked to immediately report incidents to the University Police Department, 316-978-3450, or the Title IX coordinator, 316-978-5177. Students may also report incidents to an instructor, faculty or staff member, who are required by law to notify the Title IX coordinator. If a student wishes to keep the information confidential, the student may speak with staff members of the Counseling and Testing Center, 316-978-3440, or Student Health Services, 316-978-3620. For more information, visit the Title IX website (http://wichita.edu/titleix).

Tobacco-Free Campus
Wichita State University is committed to provide a tobacco-free environment for the health, well-being and safety of university students, employees and visitors; accordingly, Wichita State University is a tobacco-free campus.

This policy includes buildings and parking lots and covers traditional as well as other types of tobacco use such as vaping and electronic cigarettes or devices.

University Weapons Policy
For the full text of the policy, please refer to Wichita State University Policy 11.19 (http://wichita.edu/policiesprocedures).

It is the policy of the Kansas Board of Regents, to the extent permitted by law, to allow concealed carry of handguns and prohibit possession of other weapons and open carry of firearms on the university campus.

Beginning July 1, 2017, any individual who is 21 years of age or older and who is lawfully eligible to carry a concealed handgun in Kansas can do so on the Wichita State University campus except in buildings and public areas of buildings for which adequate security measures are provided, as restricted by policy, or as otherwise prohibited by law.

There are no university buildings that have been designated as gun-free with permanent adequate security measures. The university may designate a specific location as temporarily gun-free. Appropriate notice will be given whenever this temporary designation is made.
Each individual who lawfully possesses a handgun on campus shall be wholly and solely responsible for carrying, storing and using that handgun in a safe manner and in accordance with law and policy. Nothing in this policy shall be interpreted to require individuals who lawfully possess a handgun to use it in defense of others.

Possession of weapons, other than concealed handguns, anywhere on any campus location shall be prohibited. This includes the open carry of any weapon, including a handgun or handguns. Every entrance to each building and facility at any campus location shall be conspicuously posted with appropriate signs indicating that openly carrying a weapon into that building or facility is prohibited. Additional signs may be posted as appropriate.
Institute for Interdisciplinary Creativity

Jeremy Patterson, professor and director
316-WSU-3010
http://wichita.edu/iic

Overview
The Institute for Interdisciplinary Creativity at Wichita State University (WSU) administers and supervises interdisciplinary degrees, certificates and other credentials (e.g., badges). The institute provides opportunities for faculty across campus to come together in a collaborative environment to develop/participate in academic programs and related research and creative projects in support of interdisciplinary

The primary goals of the Institute for Interdisciplinary Creativity are to encourage independent scholarship and to develop competence in collaborative research and creative activity. Students are expected to master special fields as well as to develop appropriate methods of inquiry for future professional growth.

Program Representatives to the Institute
The Institute for Interdisciplinary Creativity works closely with individual program areas to ensure that program operations function in compliance with university policies and regulations. As part of this process, and on a voluntary basis, a faculty member can be recommended by his or her department chair to the institute director to serve as the program representative to the institute in matters of interdisciplinary education. Although the nature of responsibilities varies throughout program areas, they have a primary role in working with students and faculty in their academic programs. As a standard of expectation, program representatives are charged with the responsibility for overseeing the evaluation of applications for admission, and the transmittal of recommendations for admission, academic performance, degree completion and exceptions to graduate and undergraduate regulations. Program representatives also have a primary role in coordinating information between their programs and the institute office, working with their departmental chairs or other administrators in maintaining the quality and viability of their graduate programs, and serving as the local agent for the faculty in their program areas.

Programs in the Institute for Interdisciplinary Creativity
• MID - Master of Innovation Design (p. 61)

Institute for Interdisciplinary Creativity Courses
• Innovative Design (ID) (p. 292)

MID - Master of Innovation Design
Application Procedures
To be considered for admission, applicants will be required to apply online (http://wichita.edu/gradapplication). The online application will require the upload of copies of official transcripts of all schools previously attended, as well as the submission of the nonrefundable application fee.

Applicants are given the opportunity to include in their application any credentials they believe represent their accomplishments and help explain why they wish to join the MID program. Additional application materials will be uploaded through the online application portal, and may include but are not limited to:
• Documentation of prior learning or experience relevant to design;
• Examples of prior design work in whatever format best showcases that work (e.g., a portfolio of artwork);
• A video of a performance;
• Links to software applications;
• Descriptions of products developed;
• Published articles or reports;
• A resume; and
• A personal essay.

A personal interview is scheduled with the admission committee if minimum qualifications are met as determined by Graduate School policy.

An admissions committee consisting of faculty from all of WSU’s existing colleges reviews student applications. In reviewing applications, the admissions committee looks for the student’s level of commitment to completing a master’s degree, interest in learning design thinking skills, and whether there is a fit between the student’s goals and the resources of the MID faculty. If admitted, a faculty advisor is appointed and assist the student in developing a plan of study (see below). Deadlines for applications are as follows:

Fall admission: June 1
Spring admission: September 1
Summer admission: February 1

Questions regarding application procedures should be directed to:
Graduate School
Wichita State University
1845 Fairmount
Wichita KS 67260-0004
USA
316-978-3095
Website: http://wichita.edu/gradschool

Plan of Study Options
The MID degree requires the completion of a plan of study, approved by the student’s advisor, which must be filed within the first 12 credit hours of graduate coursework. Two options are available:
• The thesis option requires a minimum of 24 credit hours of coursework plus a minimum of 6 credit hours of thesis; and
• The directed project option requires a minimum of 30 credit hours of coursework plus a minimum of 3 hours of directed project.

Program Requirements
The MID program consists of at least 30 (thesis option) to 33 (nonthesis option) credit hours including the following:

Required Courses
<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>FA 710</td>
<td>Seminar in Creativity and Innovation</td>
<td>3</td>
</tr>

<tr>
<td>or MKT 706</td>
<td>Seminar in New Product and Technology Development</td>
<td></td>
</tr>
<tr>
<td>COMM 662V</td>
<td>Communication Entrepreneur</td>
<td>3</td>
</tr>
</tbody>
</table>
Electives are customized for each student in consultation with the student’s advisors and based on the student’s design goals. Courses are selected from existing WSU graduate courses.

Select one of the following plan of study options

<table>
<thead>
<tr>
<th>Plan of Study</th>
<th>Course Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major Project Option</td>
<td>Select a minimum of 30 credit hours of coursework Select a minimum of 3 credit hours of directed project</td>
</tr>
<tr>
<td>Thesis Option</td>
<td>Select a minimum of 24 credit hours of coursework Select a minimum of 6 credit hours of thesis</td>
</tr>
</tbody>
</table>

1. These courses are required and align with the four design thinking capabilities—creativity, communication, entrepreneurship and prototyping.
2. Some existing WSU graduate courses that relate to collaborative design include:
   - Special Investigations in Psychology
   - Human Factors Psychology
   - Professional Practices in Graphic Design
3. Completing a major project requires the development of a portfolio, patent application, process or prototype.
4. Completing a thesis requires a thesis defense in accordance with WSU Graduate School policies.

Students also complete Professional and Scholarly Integrity Training (PSIT) and satisfy other general graduate degree requirements. An optional 0 credit hour practicum is available to allow students to network with other MID students and faculty. No internship is required.
W. Frank Barton School of Business

Anand S. Desai, dean
100 Clinton Hall • 316-WSU-3200
http://wichita.edu/business
James Clark, associate dean
Khawaja Asjad Saeed, associate dean, graduate studies in business

Departments
Economics, 316-978-3220 — Jen-Chi Cheng, chairperson; Philip Hersch, graduate coordinator
Finance, Real Estate and Decision Sciences, 316-978-3219 — Rick LeCompte, chairperson
Management, 316-978-3214 — John Perry, chairperson
Marketing, 316-978-3367 — Stephen Porter, chairperson
School of Accountancy, 316-978-3215 — Paul D. Harrison, director; Michael Flores, graduate coordinator

Mission Statement
The Barton School of Business prepares students for lifelong learning and success in the global marketplace, advances the knowledge and practice of business, and supports economic growth through research, outreach and knowledge transfer. In pursuit of its mission, the school is committed to integrity, excellence and collegiality.

The vision of the Barton School of Business is to be internationally recognized as a model of research, knowledge transfer and applied business learning.

Consistent with the university’s role as the Regents’ urban serving research university, the Barton School aggressively pursues regional and national prominence for its academic and professional programs.

This mission is influenced by the location of the school in the largest economic and cultural center in the state of Kansas. As an integral part of the state’s designated urban serving research university, the Barton School of Business faculty are committed to programs and activities that will help sustain the contribution that this urban center makes to the economic, professional and cultural health of the state and nation.

Within this context, the faculty of the school have adopted the following educational goals of the Barton School which are listed below under the headings of Students, Faculty and Programs. For each grouping, a preamble states the basic values of the Barton School faculty.

Students
Students are the reason for the Barton School’s existence. It is the faculty’s responsibility to create programs and learning environments that ensure the ultimate success of students. We, the faculty, want our students to evaluate positively their Barton School experiences, both while enrolled in courses and afterwards.

Goals
To ensure that students completing Barton School programs possess skills that make them competitive with students from the best business programs in the region and to increase the quality and quantity of students.

Faculty
Faculty are the means by which the university creates a learning environment. The quality of the faculty and the opportunities provided to faculty for continuous improvement are of paramount importance to the success of the Barton School.

Goal
To have faculty who are widely recognized for their commitment to students and scholarship.

Programs
The programs offered by the Barton School link it to its multiple constituencies. The rich diversity of these programs reflects the university’s unique urban mission.

Goal
To increase the recognition of the Barton School through relevant, competitive and up-to-date programs.

The school is accredited by AACSB-International—The Association to Advance Collegiate Schools of Business.

Graduate degree programs in the school lead to the Master of Business Administration (MBA), Executive Master of Business Administration (EMBA), Master of Accountancy (MACC), and the Master of Arts in economics, and two graduate certificates in enterprise systems and supply chain management, and entrepreneurship and innovation.

Courses in the W. Frank Barton School of Business
- Accounting (ACCT) (p. 203)
- Business Law (BLAW) (p. 221)
- Decision Sciences (DS) (p. 262)
- Economics (ECON) (p. 264)
- Entrepreneurship (ENTR) (p. 278)
- Executive Master of Business Administration (EMBA) (p. 272)
- Finance (FIN) (p. 279)
- Human Resource Management (HRM) (p. 290)
- International Business (IB) (p. 292)
- Management (MGMT) (p. 308)
- Management Information Systems (MIS) (p. 308)
- Master of Business Administration (MBA) (p. 301)
- Marketing (MKT) (p. 309)
- Real Estate (RE) (p. 340)

Master of Accountancy
The Master of Accountancy (MACC) program at Wichita State University is designed to prepare qualified candidates for careers as professional accountants in public practice, industry, government and nonprofit organizations. The program is based on strong preparation in general education courses with special emphasis on communication skills, and includes a broad exposure to the different aspects of business and management.

The School of Accountancy recognizes students may desire differing technical requirements to enter a diverse work environment. Two specialized concentrations are offered to complement the traditional emphasis: Accounting Information Systems (AIS) and Taxation.

Programs in Master of Accountancy
- MACC - Master of Accountancy (p. 64)
- MACC - Master of Accountancy - Accounting Information Systems Concentration (p. 64)
MACC - Master of Accountancy - Taxation Concentration

Courses in Accounting

- Accounting (p. 203) (ACCT)

MACC - Master of Accountancy

Full admission to the MACC professional curriculum requires:

1. An undergraduate degree in accounting, or the functional equivalent of an undergraduate degree in accounting from an AACSB-accredited institution.
2. An overall grade point average (GPA) of 3.200 on a 4.000 scale.
3. A grade of B (3.000) or better in all undergraduate accounting courses.

Applicants not meeting these criteria will be required to take the GMAT and obtain a satisfactory score. A satisfactory GMAT score is considered to be in the 25th percentile or higher for each section and for the overall score.

International applicants may have to complete significant additional foundational coursework beyond what may appear on a student’s transcript. This can include, but is not limited to, (re)taking business law, financial accounting, taxation, accounting information systems and auditing courses at Wichita State University.

Program Requirements

Total degree requirements will vary and depend upon the specific course content of the undergraduate degree program. At a minimum, the candidate’s program must total 30 graduate-level credit hours beyond the bachelor’s degree, including 15 credit hours of accounting courses numbered 800 or above and a total of 21 credit hours in courses numbered 800 or above. ¹

In general, an undergraduate degree in business and an accounting major, equivalent to that offered at WSU is presumed. The following courses, or their graduate equivalents, must be included as part of the MACC degree program if not covered in the student’s bachelor’s degree:

Select graduate electives outside accounting ¹ ³

Select other graduate electives (accounting or non-accounting) ¹ ³

Total Credit Hours: 30

Note: all electives must be taken from within the Barton School of Business.

¹ Electives must be selected to conform to AACSB standards for Master of Accountancy programs. MBA 800 and ACCT 801 are not eligible for the MACC elective credit. See the graduate coordinator of the School of Accountancy for more information.

MACC - Master of Accountancy: Accounting Information Systems Concentration

Full admission to the MACC professional curriculum requires:

1. An undergraduate degree in accounting, or the functional equivalent of an undergraduate degree in accounting from an AACSB-accredited institution.
2. An overall grade point average (GPA) of 3.200 on a 4.000 scale.
3. A grade of B (3.000) or better in all undergraduate accounting courses.

Applicants not meeting these criteria will be required to take the GMAT and obtain a satisfactory score. A satisfactory GMAT score is considered to be in the 25th percentile or higher for each section and for the overall score.

International applicants may have to complete significant additional foundational coursework beyond what may appear on a student’s transcript. This can include, but is not limited to, (re)taking business law, financial accounting, taxation, accounting information systems and auditing courses at Wichita State University.

Program Requirements
Total degree requirements will vary and depend upon the specific course content of the undergraduate degree program. At a minimum, the candidate’s program must total 30 graduate-level credit hours in courses numbered 800 or above and a total of 21 credit hours in courses numbered 800 or above.\(^1\)

In general, an undergraduate degree in business and an accounting major, equivalent to that offered at WSU is presumed. The following courses, or their graduate equivalents, must be included as part of the MACC degree program if not covered in the student’s bachelor’s degree:

Select graduate electives, all outside of accounting¹ 9

Total Credit Hours 30

Note: all electives must be taken from within the Barton School of Business.

¹ Electives must be selected to conform to AACSB standards for Master of Accountancy programs. MBA 800 and ACCT 801 are not eligible for the MACC elective credit. See the graduate coordinator of the School of Accountancy for more information.

Master of Business Administration

The Barton School of Business offers the Master of Business Administration (MBA) through faculty in the accounting; economics; finance, real estate and decision sciences; management and marketing departments, as well as in other colleges of the university. The MBA program is designed to prepare men and women for responsible positions of professional leadership in business, government, health-related organizations and other institutions. The program concentrates on general management, with particular attention given to developing within the student an understanding of the organization as an integrated system. Areas of concentration are available for those students wishing to focus their elective coursework in a specialized area. Concentration areas currently available are finance, entrepreneurship and innovation, health care administration, marketing, and business analytics and information management.

Graduates of the WSU Master of Engineering Management (MEM) may be allowed to use up to 12 credit hours from the technical electives taken from the WSU MBA courses if they enroll in the Master of Business Administration program.

The total hours required of students and the level at which they begin participation in the MBA program depend on their academic preparation. Students without a background in business may be required to take up to 6 credit hours of undergraduate prerequisite coursework, and may also be required to complete up to 9 credit hours of graduate-level preparatory coursework that will count toward the degree. The total number of credit hours required for completion of an MBA therefore ranges from 36 to 45, depending on the student’s background.

Classes are taken for graduate credit and all of the courses are offered in the evening.
Concentrations in the Master of Business Administration Degree Program
The MBA degree program is a general management degree equipping students with an understanding of organizations as integrated systems. Within the program the curriculum provides knowledge across organizational functions. Students may wish to focus their elective coursework in a specific area of study to enhance their general organizational knowledge base by selecting a concentration from the following options provided in the MBA program.

- MBA - Master of Business Administration (p. 67)
- MBA - Business Analytics and Information Management Concentration (p. 68)
- MBA - Entrepreneurship & Innovation Concentration (p. 70)
- MBA - Finance Concentration (p. 72)
- MBA - Health Care Administration Concentration (p. 73)
- MBA - Marketing Concentration (p. 75)

Courses in Master of Business Administration
- Master of Business Administration (MBA) (p. 301)

MBA - Master of Business Administration
Admission to the MBA program is granted to students who show high promise of success in postgraduate business study and who hold bachelor’s degrees from regionally accredited institutions.

Previous academic training in business is not required for admission to the MBA program. Students may have backgrounds in such diverse fields as engineering, liberal arts, education and health related areas. The specific content of a student’s previous education is less important than the evidence that the student has sound scholarship, strong personal motivation, and the ability to develop the skills necessary to assume positions of leadership.

Admissions decisions are based on the following:

1. Graduate Management Admission Test/Graduate Record Examination (GMAT/GRE) scores — overall score and component (i.e., verbal, quantitative and analytical writing) scores are evaluated. The GMAT/GRE must have been taken within the last six years;¹
2. Personal Goals essay that clearly articulates the applicant’s reasons for seeking admission (500 words maximum);
3. Two reference forms completed by faculty, employer or suitable referee;
4. Current resume (career-based work experience is desirable but not required); and
5. International students are required to have a minimum score of 570 (paper-based), or 88 (Internet-based) on the Test of English as a Foreign Language, or an overall band score of 7.0 on the IELTS, or a score of 65 on the PTE-Academic.

Final admission of qualified applicants may be based on space available in the MBA program.

Applications for degree admission are reviewed twice a year, in the fall and spring. Deadlines for submitting applications to the Graduate School are July 1 for consideration for fall admission and December 1 for spring admission. International applicants living outside the United States must submit their applications by April 1 for fall admission consideration and August 1 for spring admission consideration.

Applicants who apply after these deadlines are considered in the order in which their completed application materials are received.

¹ GMAT exceptions:
- 3 years or more of managerial work experience, evaluated by the Office of Graduate Studies in Business; or
- WSU graduate with a GPA of 3.500 or higher in the last 60 credit hours; or
- business degree from an AACSB accredited school and a GPA of 3.500 or higher in the last 60 credit hours; or
- a U.S. master’s degree or equivalent

Advanced Standing
Students with strong backgrounds in business administration may be granted advanced standing in the MBA program through equivalent credit for background preparatory courses for which a minimum grade of C was received in an undergraduate or graduate program. Most students entitled to such credit hold bachelor’s degrees in business administration from accredited institutions.

Students may be granted equivalent credit for any or all of the preparatory courses, depending on the depth of their undergraduate or previous graduate preparation. The MBA program may consist of as few as 36 credit hours for students who have no deficiencies in prerequisites and who receive equivalent credit for all of the background fundamentals.

Students Not Receiving Advanced Standing
Students with bachelor’s degrees in nonbusiness fields usually will not have backgrounds warranting the granting of advanced standing through equivalency credit. There are some exceptions. Some students, for example, may have had enough coursework in economics or statistics to be granted credit for these courses. Determination regarding equivalency credit will be made following admission to the program. A minimum grade of C (2.000) or better is required for the prerequisites MATH 144 and ECON 231.

MEM to MBA Program
Students completing the Master of Engineering Management (MEM) program at WSU may be allowed to use up to 12 credit hours (four courses) in the Master of Business Administration (MBA) program at WSU if they pursue it (i.e., double-counting 12 credit hours between two programs). The 12 credit hours will be completed by the student as a requirement for the MEM program and should be taken from the required courses in the MBA curriculum. The main objective of making this change is to provide the opportunity to students to pursue dual degrees (MEM and MBA) and structure the curriculum so that both programs can be completed within a reasonable time frame. The double counting rule will allow students to complete both programs by taking 60 credit hours of coursework. The MEM program must be completed before any courses can be applied to the MBA program.

And 3 credit hours of electives which must be at the 700–800 level 3  

| Total Credit Hours | 36  |

1. These courses are to be taken only if a specific deficiency exists.
2. With approval of the program director, equivalent credit may be granted for courses of equal content taken in an undergraduate or graduate program. See Advanced Standing section above.

**Policies**

1. All incoming MBA students must attend an orientation session, which includes an introduction to the philosophy of graduate business education, development of networking skills, discussions about the history of the Barton School and the MBA program, and an overview of success strategies for MBA students. Only after completion of the orientation is a student considered for full standing in the MBA program.

2. A candidate’s individual plan of study must be approved by the director and submitted to the Graduate School for final approval. This plan must be filed within a month of the completion of 12 credit hours of graduate work.

3. All candidates must complete 36 credit hours of 800-level courses including:

   - ACCT 801 Managerial Accounting 3  
   - DS 850 Operations Management 3  
   - ECON 804 Managerial Economics 3  
   - FIN 850 Managerial Finance 3  
   - MGMT 803 Business Decision Making and Analysis 3  
   - or MKT 803 Marketing Analysis 3  
   - MGMT 862 Organizational Behavior 3  
   - MGMT 885 Advanced Strategic Management 3  
   - MKT 801 Marketing Management 3  
   - MIS 874 Management Information Systems 3  
   - IB 836 International Business and Competitiveness 3  
   - BLAW 810 Law and Ethics for Business 3  

And 3 credit hours of electives which must be at the 700–800 level 3  

| Total Credit Hours | 36  |

4. In addition to the coursework requirements, all students are required to complete MBA 799 Professional Development/360 in their first year of the MBA program.
MBA – Business Analytics and Information Management

The MBA with business analytics and information management concentration is designed to provide graduate students with knowledge and skills to effectively analyze large amounts of corporate data and information to support decision making and business performance management. This concentration aims to supplement the MBA core courses that discuss how managers and executives make their decisions in different business functions. To make such decisions, it is imperative that managers have the skills and knowledge to acquire appropriate information and transform it to actionable tactics and strategies. Applications of business analytics include but are not limited to, modeling the impact of advertising on sales, predicting stock returns based on historical data, differentiating among customers based on credit risk, and optimizing customer loyalty programs and inventory. The concentration will train managers to develop and maintain a culture of evidence/fact based decision making in the organization. The curriculum also aims to bridge the knowledge gaps between IT and non-IT workforces.

The following is a list of the required courses in common with the general MBA degree:

MBA - Entrepreneurship & Innovation Concentration

Admission to the MBA program is granted to students who show high promise of success in postgraduate business study and who hold bachelor’s degrees from regionally accredited institutions.

Previous academic training in business is not required for admission to the MBA program. Students may have backgrounds in such diverse fields as engineering, liberal arts, education and health related areas. The specific content of a student’s previous education is less important than the evidence that the student has sound scholarship, strong personal motivation, and the ability to develop the skills necessary to assume positions of leadership.

Admissions decisions are based on the following:

1. Graduate Management Admission Test/Graduate Record Examination (GMAT/GRE) scores — overall score and component (i.e., verbal, quantitative and analytical writing) scores are evaluated. The GMAT/GRE must have been taken within the last six years;

2. Personal Goals essay that clearly articulates the applicant’s reasons for seeking admission (500 words maximum);

3. Two reference forms completed by faculty, employer or suitable referee;

4. Current resume (career-based work experience is desirable but not required); and

5. International students are required to have a minimum score of 570 (paper-based), or 88 (Internet-based) on the Test of English as a Foreign Language, or an overall band score of 7.0 on the IELTS, or a score of 65 on the PTE-Academic.

Final admission of qualified applicants may be based on space available in the MBA program.

Applications for degree admission are reviewed twice a year, in the fall and spring. Deadlines for submitting applications to the Graduate School are July 1 for consideration for fall admission and December 1 for spring admission. International applicants living outside the United States must submit their applications by April 1 for fall admission consideration and August 1 for spring admission consideration. Applicants who apply after these deadlines are considered in the order in which their completed application materials are received.

---

Advanced Standing

Students with strong backgrounds in business administration may be granted advanced standing in the MBA program through equivalent credit for background preparatory courses for which a minimum grade of C was received in an undergraduate or graduate program. Most students entitled to such credit hold bachelor’s degrees in business administration from accredited institutions.

Students may be granted equivalent credit for any or all of the preparatory courses, depending on the depth of their undergraduate or previous graduate preparation. The MBA program may consist of as few as 36 credit hours for students who have no deficiencies in prerequisites and who receive equivalent credit for all of the background fundamentals.

---

Students Not Receiving Advanced Standing

Students with bachelor’s degrees in nonbusiness fields usually will not have backgrounds warranting the granting of advanced standing through equivalency credit. There are some exceptions. Some students, for example, may have had enough coursework in economics or statistics to be granted credit for these courses. Determination regarding equivalency credit will be made following admission to the program. A
minimum grade of C (2.000) or better is required for the prerequisites MATH 144 and ECON 231.

MEM to MBA Program

Students completing the Master of Engineering Management (MEM) program at WSU may be allowed to use up to 12 credit hours (four courses) in the Master of Business Administration (MBA) program at WSU if they pursue it (i.e., double-counting 12 credit hours between two programs). The 12 credit hours will be completed by the student as a requirement for the MEM program and should be taken from the required courses in the MBA curriculum. The main objective of making this change is to provide the opportunity to students to pursue dual degrees (MEM and MBA) and structure the curriculum so that both programs can be completed within a reasonable time frame. The double counting rule will allow students to complete both programs by taking 60 credit hours of coursework. The MEM program must be completed before any courses can be applied to the MBA program.

- International Business and Competitiveness 3 credit hours

- And 3 credit hours of electives which must be at the 700–800 level 3 credit hours

Total Credit Hours 36

---

1. These courses are to be taken only if a specific deficiency exists.
2. With approval of the program director, equivalent credit may be granted for courses of equal content taken in an undergraduate or graduate program. See Advanced Standing section above.

**Policies**

1. All incoming MBA students must attend an orientation session, which includes an introduction to the philosophy of graduate business education, development of networking skills, discussions about the history of the Barton School and the MBA program, and an overview of success strategies for MBA students. Only after completion of the orientation is a student considered for full standing in the MBA program.

2. A candidate’s individual plan of study must be approved by the director and submitted to the Graduate School for final approval. This plan must be filed within a month of the completion of 12 credit hours of graduate work.

3. All candidates must complete 36 credit hours of 800-level courses including:

</tbody>
</table>

And 3 credit hours of electives which must be at the 700–800 level 3 credit hours

Total Credit Hours 36

4. In addition to the coursework requirements, all students are required to complete MBA 799 Professional Development/360 in their first year of the MBA program.

**MBA – Entrepreneurship & Innovation**

The entrepreneurship and innovation concentration provides the foundation for developing one’s own business, moving into a leadership role in a family business, or managing innovation and new business formation in a corporate setting. Building on the MBA curriculum, the entrepreneurship concentration enhances the ability to cope with the full range of issues in evaluating markets, developing business ideas and innovative business models, new product and process innovation, and commercializing technologies. The specialized knowledge helps students understand the business startup process and related managerial issues.

The following is the list of required courses in common with the general MBA:

**Required Courses**

<table>

MBA – Finance

The MBA finance concentration provides students with the specialized knowledge necessary for understanding organizational financial management issues. The curriculum blends theory with applied business practice to prepare students for the varied activities involved in financial management issues. Students also gain experience with many different financial analysis tools that facilitate problem solving. Advanced courses involve cases and/or projects requiring computer modeling and analysis.

MBA - Health Care Administration Concentration

Admission to the MBA program is granted to students who show high promise of success in postgraduate business study and who hold bachelor’s degrees from regionally accredited institutions.

Previous academic training in business is not required for admission to the MBA program. Students may have backgrounds in such diverse fields as engineering, liberal arts, education and health related areas. The specific content of a student’s previous education is less important than the evidence that the student has sound scholarship, strong personal motivation, and the ability to develop the skills necessary to assume positions of leadership.

Admissions decisions are based on the following:

1. Graduate Management Admission Test/Graduate Record Examination (GMAT/GRE) scores — overall score and component
(i.e., verbal, quantitative and analytical writing) scores are evaluated. The GMAT/GRE must have been taken within the last six years;¹

2. Personal Goals essay that clearly articulates the applicant’s reasons for seeking admission (500 words maximum);

3. Two reference forms completed by faculty, employer or suitable referee;

4. Current resume (career-based work experience is desirable but not required); and

5. International students are required to have a minimum score of 570 (paper-based), or 88 (Internet-based) on the Test of English as a Foreign Language, or an overall band score of 7.0 on the IELTS, or a score of 65 on the PTE-Academic.

Final admission of qualified applicants may be based on space available in the MBA program.

Applications for degree admission are reviewed twice a year, in the fall and spring. Deadlines for submitting applications to the Graduate School are July 1 for consideration for fall admission and December 1 for spring admission. International applicants living outside the United States must submit their applications by April 1 for fall admission consideration and August 1 for spring admission consideration. Applicants who apply after these deadlines are considered in the order in which their completed application materials are received.

GMAT exceptions:

• 3 years or more of managerial work experience, evaluated by the Office of Graduate Studies in Business; or

• WSU graduate with a GPA of 3.500 or higher in the last 60 credit hours; or

• business degree from an AACSB accredited school and a GPA of 3.500 or higher in the last 60 credit hours; or

• a U.S. master’s degree or equivalent

Advanced Standing

Students with strong backgrounds in business administration may be granted advanced standing in the MBA program through equivalent credit for background preparatory courses for which a minimum grade of C was received in an undergraduate or graduate program. Most students entitled to such credit hold bachelor’s degrees in business administration from accredited institutions.

Students may be granted equivalent credit for any or all of the preparatory courses, depending on the depth of their undergraduate or previous graduate preparation. The MBA program may consist of as few as 36 credit hours for students who have no deficiencies in prerequisites and who receive equivalent credit for all of the background fundamentals.

Students Not Receiving Advanced Standing

Students with bachelor’s degrees in nonbusiness fields usually will not have backgrounds warranting the granting of advanced standing through equivalency credit. There are some exceptions. Some students, for example, may have had enough coursework in economics or statistics to be granted credit for these courses. Determination regarding equivalency credit will be made following admission to the program. A minimum grade of C (2.000) or better is required for the prerequisites MATH 144 and ECON 231.

MEM to MBA Program

Students completing the Master of Engineering Management (MEM) program at WSU may be allowed to use up to 12 credit hours (four courses) in the Master of Business Administration (MBA) program at WSU if they pursue it (i.e., double-counting 12 credit hours between two programs). The 12 credit hours will be completed by the student as a requirement for the MEM program and should be taken from the required courses in the MBA curriculum. The main objective of making this change is to provide the opportunity to students to pursue dual degrees (MEM and MBA) and structure the curriculum so that both programs can be completed within a reasonable time frame. The double counting rule will allow students to complete both programs by taking 60 credit hours of coursework. The MEM program must be completed before any courses can be applied to the MBA program.

**MBA - Health Care Administration**

The health care administration concentration offers the opportunity to study business administration at the graduate level with particular emphasis on health care management. Building on the MBA curriculum, this concentration provides understanding and knowledge of the issues facing organizations in the health services industry. The specialized knowledge will help students cope with managerial processes in the dynamic health care industry.

2. Personal Goals essay that clearly articulates the applicant’s reasons for seeking admission (500 words maximum);

3. Two reference forms completed by faculty, employer or suitable referee;

4. Current resume (career-based work experience is desirable but not required); and

5. International students are required to have a minimum score of 570 (paper-based), or 88 (Internet-based) on the Test of English as a Foreign Language; or an overall band score of 7.0 on the IELTS, or a score of 65 on the PTE-Academic.

Final admission of qualified applicants may be based on space available in the MBA program.

Applications for degree admission are reviewed twice a year, in the fall and spring. Deadlines for submitting applications to the Graduate School are July 1 for consideration for fall admission and December 1 for spring admission. International applicants living outside the United States must submit their applications by April 1 for fall admission consideration and August 1 for spring admission consideration.

Applicants who apply after these deadlines are considered in the order in which their completed application materials are received.

¹ GMAT exceptions:

• 3 years or more of managerial work experience, evaluated by the Office of Graduate Studies in Business; or

• WSU graduate with a GPA of 3.500 or higher in the last 60 credit hours; or

• business degree from an AACSB accredited school and a GPA of 3.500 or higher in the last 60 credit hours; or

• a U.S. master’s degree or equivalent

**Advanced Standing**

Students with strong backgrounds in business administration may be granted advanced standing in the MBA program through equivalent credit for background preparatory courses for which a minimum grade of C was received in an undergraduate or graduate program. Most students entitled to such credit hold bachelor’s degrees in business administration from accredited institutions.
Students may be granted equivalent credit for any or all of the preparatory courses, depending on the depth of their undergraduate or previous graduate preparation. The MBA program may consist of as few as 36 credit hours for students who have no deficiencies in prerequisites and who receive equivalent credit for all of the background fundamentals.

**Students Not Receiving Advanced Standing**
Students with bachelor’s degrees in nonbusiness fields usually will not have backgrounds warranting the granting of advanced standing through equivalency credit. There are some exceptions. Some students, for example, may have had enough coursework in economics or statistics to be granted credit for these courses. Determination regarding equivalency credit will be made following admission to the program. A minimum grade of C (2.00) or better is required for the prerequisites MATH 144 and ECON 231.

**MEM to MBA Program**
Students completing the Master of Engineering Management (MEM) program at WSU may be allowed to use up to 12 credit hours (four courses) in the Master of Business Administration (MBA) program at WSU if they pursue it (i.e., double-counting 12 credit hours between two programs). The 12 credit hours will be completed by the student as a requirement for the MEM program and should be taken from the required courses in the MBA curriculum. The main objective of making this change is to provide the opportunity to students to pursue dual degrees (MEM and MBA) and structure the curriculum so that both programs can be completed within a reasonable time frame. The double counting rule will allow students to complete both programs by taking 60 credit hours of coursework. The MEM program must be completed before any courses can be applied to the MBA program.

Total Credit Hours: 36

1. These courses are to be taken only if a specific deficiency exists.
2. With approval of the program director, equivalent credit may be granted for courses of equal content taken in an undergraduate or graduate program. See Advanced Standing section above.

**Policies**

1. All incoming MBA students must attend an orientation session, which includes an introduction to the philosophy of graduate business education, development of networking skills, discussions about the history of the Barton School and the MBA program, and an overview of success strategies for MBA students. Only after completion of the orientation is a student considered for full standing in the MBA program.

2. A candidate’s individual plan of study must be approved by the director and submitted to the Graduate School for final approval. This plan must be filed within a month of the completion of 12 credit hours of graduate work.

3. All candidates must complete 36 credit hours of 800-level courses including:
   - ACCT 801 Managerial Accounting 3
   - DS 850 Operations Management 3
   - ECON 804 Managerial Economics 3
   - FIN 850 Managerial Finance 3
   - MGMT 803 Business Decision Making and Analysis 3

   - MKT 801 Marketing Management 3
   - MIS 874 Management Information Systems 3
   - IB 836 International Business and Competitiveness 3
   - BLAW 810 Law and Ethics for Business 3

And 3 credit hours of electives which must be at the 700–800 level 3
Total Credit Hours: 36

4. In addition to the coursework requirements, all students are required to complete MBA 799 Professional Development/360 in their first year of the MBA program.

**MBA – Marketing**

The MBA marketing concentration provides students with specialized knowledge necessary to understand organizational marketing issues. The curriculum blends theory with applied business practices to enlighten students to the issues and challenges faced in creating and managing a customer oriented marketing function. Specific emphasis is placed on the importance of gathering and analyzing marketing intelligence and creating an understanding of the organization's customers and competitive environment, and developing appropriate
marketing initiatives. Advanced courses typically involve cases and/or applied learning projects.

Executive Master of Business Administration

The Executive MBA program is the premier option for professionals to obtain the MBA credential while continuing to work. Designed to develop mid-career managers, executives and business owners, the EMBA program focuses on the needs of professionals. Completed in 20 months, meeting on select Saturdays, the program offers a distinctive approach and value for the working professional. The interactive, collaborative environment in which the curriculum is delivered and the personalized support provided are available only through the EMBA program.

The Executive MBA program curriculum includes insights into human behavior, proven analytical tools, strategic operational and financial management, innovative marketing concepts, and the latest in competitive technology. The program is administered through Barton School of Business faculty in the accounting; economics; finance; real estate and decision sciences; management and marketing departments.

Programs in Executive Master of Business Administration

- Executive MBA (p. 77)

Courses in Executive Master of Business Administration

- Executive Master of Business Administration (EMBA) (p. 272)

Executive MBA

Admission to the EMBA is offered every two years. The next class will begin in fall of 2019. Good candidates for the Executive MBA program are individuals who are self-motivated and have the temperament to handle the demands of work, school and home and the willingness to make a 20-month commitment.

Requirements

1. Academic four-year undergraduate degree from a regionally accredited institution, not necessarily in business;
2. Minimum of five years relevant work experience, management experience is preferred;
3. Ability to participate in and contribute to an intensive learning environment;
4. Time and willingness to make a 20-month commitment to attend classes, study-group meetings and other required activities (including an international trip);
5. International students are required to have a minimum score of: 570 (paper-based), or 88 (internet-based) on the Test of English as a Foreign Language (TOEFL), an overall band score of 7.0 on the IELTS examination, or a score of 65 on the PTE-Academic.

Application Process

Applications are accepted throughout the year on a first-come, first-served basis. Because only 24 students are admitted for each cohort, early application is encouraged. The deadline for application is June 1. For international applicants, the deadline is May 1 (Graduate School application materials are due by April 1).

Once all application materials are received, the required personal interview will be scheduled.

Executive MBA applicants must submit the following:

- EMBA Application (forms: A, B, C and D);
- Forms A and B are completed and signed by the applicant;
- Confidential Recommendation (Form C) two required;
- Acknowledgement of Responsibility (Form D) signed by employer/employee;
- Career and program essay that clearly articulates reasons for seeking admission;
- Current resume;
- Two official transcript copies mailed from each college attended; and
- A $75 application fee (nonrefundable) payable to WSU — EMBA.

Executive MBA Course Requirements

All students must complete 36 hours of coursework. Students progress through the program as a group.

The Graduate Record Examination (GRE) is not required.

### Programs in Economics
- MA in Economics - Economic Analysis Track (p. 78)
- MA in Economics - Financial Economics Track (p. 78)
- MA in Economics - International Economics Track (p. 79)

### Courses in Economics
- Economics (ECON) (p. 264)

### MA in Economics - Economic Analysis Track

#### Admission
1. Academic four-year undergraduate degree from a regionally accredited institution.
2. Admission based primarily on grade point average (GPA) and background in economics.
3. Admission to full standing requires a GPA of 2.750 on a 4.000 scale overall and for all courses in economics and required mathematics.
4. Must have completed principles of macro- and microeconomics, plus one course in statistics and one in calculus. Additionally, students must have completed (or complete within one year of admission) intermediate level macro- and microeconomics. A minimum grade of C+ (2.300) or better is required for the two intermediate level classes as well as statistics and calculus.
5. The Graduate Record Examination (GRE) is not required.
6. Non-native speakers of English must have received 550 on the paper-based, or 79 on the Internet-based Test of English as a Foreign Language (TOEFL), or have an overall band score of 6.5 on the IELTS, or have a score of 58 on the PTE-Academic, or have attended another U.S. university as a full-time student enrolled in academic courses for a minimum of one year, or have earned a bachelor’s degree (or higher) from a U.S. university within two years of their proposed semester of admission.

### Program Requirements
All three tracks require either a thesis (30 credit hours) or an independent research project and an additional course in the student’s area of interest (33 credit hours). The MA degree in economics is typically completed in four semesters, although completion in three semesters is not unusual. The graduate coordinator or the department chairperson must approve the candidate’s plan of study. All plans of study must include at least 18 credit hours of graduate-level courses in economics or courses approved by the graduate coordinator. Courses identified as background fundamentals of the MBA program and other courses designated by the economics department may not be included in the hours required for the degree.

In all tracks, at least 70 percent of credit hours must be at the 700–800 level. (The remaining hours may be at the 500–600 level.)

#### Core Courses
- ECON 702 Mathematical Methods in Economics 3
- ECON 731 Applied Econometrics I 3
- ECON 801 Macroeconomic Analysis 3
- ECON 802 Microeconomic Analysis 3
  or ECON 804 Managerial Economics
- ECON 803 Analysis of Business Conditions and Forecasting 3
  or ECON 831 Applied Econometrics II

#### Required for the Track
Select one of the following:
- Five additional courses in economics or related areas and a 3-credit hour research project (18 credit hours)
- Four additional courses in economics or related areas and 3 credit hours of thesis (15 credit hours)

### MA in Economics - Financial Economics Track

#### Admission
1. Academic four-year undergraduate degree from a regionally accredited institution.
2. Admission based primarily on grade point average (GPA) and background in economics.
3. Admission to full standing requires a GPA of 2.750 on a 4.000 scale overall and for all courses in economics and required mathematics.
4. Must have completed principles of macro- and microeconomics, plus one course in statistics and one in calculus. Additionally, students must have completed (or complete within one year of admission) intermediate level macro- and microeconomics. A minimum grade of C+ (2.300) or better is required for the two intermediate level classes as well as statistics and calculus.
5. The Graduate Record Examination (GRE) is not required.
6. Non-native speakers of English must have received 550 on the paper-based, or 79 on the Internet-based Test of English as a Foreign Language (TOEFL), or have an overall band score of 6.5 on the IELTS, or have a score of 58 on the PTE-Academic, or have attended another U.S. university as a full-time student enrolled in academic courses for a minimum of one year, or have earned a bachelor’s degree (or higher) from a U.S. university within two years of their proposed semester of admission.

### Master of Science in Global Supply Chain Management

The Master of Science degree in global supply chain management (GSCM) is an interdisciplinary program collaboratively offered by the Barton School of Business and the College of Engineering. The program targets a wide range of diverse domestic and international applicants. The supply chain curriculum is designed in a manner that students will acquire mastery in the managerial and analytics aspects of supply chain operations and develop contemporary competencies via innovative hands-on activities and industry practices.

The Master of Science in global supply chain management offers two tracks:

1. Management track focuses on developing capabilities and mastery leading to value creation in global management of procurement, logistics, and operations.
2. Analytics track aims to build capabilities in the use of innovative tools and techniques in decision-making processes from design to planning phases.

Students will be able to earn a master's degree in global supply chain management in one of three ways:
Graduate Certificates Offered

Enterprise Systems and Supply Chain Management

This certificate is aimed at equipping students with a knowledge of key enterprise-level information technology systems and supply chain practices used by companies around the world. The courses are structured to provide extensive conceptual and applied information about enterprise-level systems and supply chain management. The curriculum is jointly offered by the decision sciences and ITMIS faculty in the School of Business and the industrial engineering faculty in the College of Engineering. This program requires satisfactory completion of four courses from the following list of courses, at least one course from both engineering and business is required:

Select four courses from the following (at least one course must be taken in each area)

<table>
<thead>
<tr>
<th>Business Courses</th>

</tr>
</tbody>
</table>

Entrepreneurship and Innovation

This certificate is aimed at providing students the knowledge base in entrepreneurship to undertake moving technological expertise or high potential business ideas through the start-up of high-growth businesses. The courses are designed to provide extensive conceptual and applied know-how and expertise to students interested in entrepreneurship. This program requires the completion of four of the following 3-credit-hour courses. There are no prerequisite courses for the certificate program.

Select four of the following: 12

College of Education

Shirley Lefever, dean
104 Corbin Ed. Center • 316-WSU-3300
http://wichita.edu/education
Clay Stoldt, associate dean
Ashlie Jack, assistant dean/accreditation officer

Departments

Counseling, Educational Leadership, Educational and School Psychology, 316-978-3325 — Jody Fiorini, department head; Susan Bray, graduate coordinator, Counseling; Marlene Schommer-Aikins, graduate coordinator, Educational Psychology; Jody Fiorini, graduate coordinator, School Psychology; Jean Patterson, graduate coordinator, Educational Leadership (EdD); Kristin Sherwood, graduate coordinator, Educational Leadership (MEd)

Curriculum and Instruction, 316-978-3322 — Kim McDowell, department head; Mara Alagic, graduate coordinator, Learning and Instructional Design; Janice Ewing, graduate coordinator, Master of Arts in Teaching; Donna Sayman, graduate coordinator, Special Education

Human Performance Studies, 316-978-3340 — Michael Rogers, chairperson and graduate coordinator, Exercise Science

Sport Management, 316-978-5445 — Mark Vermillion, department head; Wonyoung Kim, graduate coordinator

Graduate Degree Programs

The College of Education offers programs leading to the:

• Master of Arts in Teaching (MAT),
• Master of Education (MEd) in:
  • counseling,
  • educational leadership,
  • educational psychology,
  • exercise science,
  • learning and instructional design,
  • sport management, and
  • special education,
• Specialist in Education (EdS) in school psychology, and
• Doctor of Education (EdD) in educational leadership.

Admission Requirements

Specific admission requirements for each degree specialization are described in each department’s section of the Graduate Catalog. Applicants for admission should review admission criteria well in advance of intended enrollment dates to allow sufficient time for the admission process to be completed. Several programs require submission of scores from examinations (e.g., Graduate Record Examination), as well as transcripts and letters of reference.

Minimum admission requirements for full standing include a bachelor’s degree from a regionally accredited institution and a grade point average of at least 2.750 (including any postbachelor’s graduate work). The student should have no more than 9 credit hours of background deficiencies in the major field of graduate study desired. For most College of Education degree programs, admission requirements exceed these minimums.

Graduate Level Licensure

Graduate offerings include courses which help students meet requirements for state licensure as principals, district school administrators, school counselors, professional counselors, early childhood teachers, English as a second language/bilingual education teachers, special education teachers, reading specialists, and school psychologists.

Initial Teacher Licensure

Both undergraduates and degree/nondegree graduate students may pursue initial licensure as a teacher (PreK–12 schools) through Wichita State University. Interested individuals should contact the Office of Education Support Services in the College of Education, 316-978-3300, or visit http://wichita.edu/education/programs to inquire about teacher education as a graduate student.

Professional Development

Other courses are available to support the continued academic and professional development of educators. Graduate offerings also are available to support careers in sport management and exercise science.

Certificates Offered

Certificates offered by the College of Education include:

• building-level leadership,
• child/play therapy,
• engineering education,
• educational technology,
• functional aging,
• higher education leadership,
• interdisciplinary STEM education,
• literacy, and
• superintendent/district leadership.

Financial Assistance

Some financial assistance to support graduate study is available, including federal traineeships, assistantships, and Wichita State University fellowships. Full-standing status is required to receive financial assistance.

Applications for graduate program admission must be submitted by departmental deadlines to be eligible for student loans and scholarships.

Counseling, Educational Leadership, Educational and School Psychology

Degrees and Areas of Specialization

The College of Education Department of Counseling, Educational Leadership, Educational and School Psychology (http://wichita.edu/edus) offers graduate programs in:

• Counseling (MEd) (p. 82)
• Educational Leadership (MEd and EdD) (p. 84)
• School Psychology (EdS) (p. 90)
• Educational Psychology (MEd) (p. 88)

The department offers Graduate Certificate Programs in:

• Child/Play Therapy (p. 84)
• Engineering Education (p. 89)
• Higher Education Leadership (p. 87)
Counseling

• Building-Level Leadership (p. 86)
• Superintendent/District Leadership (p. 87)

EdS in School Psychology (Postbaccalaureate)

Courses in Counseling, Educational Leadership, Educational and School Psychology

• Counseling, Educational and School Psychology (CESP) (p. 223)
• Counseling, Educational Leadership, Educational and School Psychology (CLES) (p. 246)
• Educational Leadership (EL) (p. 269)

Counseling
The counseling program at Wichita State University offers:
• Master of Education in counseling (p. 82)
• Graduate Certificate in Child/Play Therapy (p. 84)

For further information, please visit the College of Education’s counseling webpage (http://wichita.edu/counseling).

MEd in Counseling
With a strong background in human growth and development, as well as communication skills, counselors assist clients in developing cognitive, emotional and behavioral strengths.

Wichita State University's Master of Education in counseling is designed to prepare students to meet the requirements of the Kansas State Department of Education (KSDE) for Licensed School Counselors and the Kansas Behavioral Sciences Regulatory Board (BSRB) for Licensed Professional Counselors. Upon completion of an MEd in counseling, students are able to provide counseling services in a wide range of settings, including PreK–12 schools, private practice settings, colleges/universities and community mental health agencies.

Visit the counseling program's website (http://wichita.edu/counseling).

Contact us for more information: cesp@wichita.edu.

Admission
To be considered for admission to the MEd in counseling, applicants must meet the following requirements:

1. Have a 3.000 GPA overall,
2. Submit a statement of professional goals,
3. Submit a resume, and
4. Provide contact information for three people to serve as professional references.

Upon receipt of this information, the departmental screening committee will make recommendations concerning acceptance/rejection for the master's program in counseling.

Application Deadlines
• For summer and fall semesters: May 1.
• For spring semester: November 1.

All applications must be complete. Candidates who apply are considered in the order in which their applications are completed until all openings are filled.

Visit the counseling program's website (http://wichita.edu/counseling).

Contact us for more information: cesp@wichita.edu.

Program Requirements
The MEd in counseling offers four different tracks depending upon the student's career goals. These tracks include school counseling (48 credit hours), clinical mental health counseling (60 credit hours), higher education counseling (45 credit hours), and sports counseling (45 credit hours).

### Admission Requirements

1. Evidence of having completed a master’s degree in counseling, social work or a closely related field;
2. Cumulative graduate GPA: 3.250 in required courses for the prerequisite graduate degree;
3. Resume: The resume should include evidence of experience working in a professional counseling role;
4. Goal Statement: The goal statement must indicate an intention to work with young children as part of a future professional role; and
5. References: Two professional references.

### Program Requirements

The certificate program comprises the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CESP 841</td>
<td>Fundamentals of Play Therapy</td>

<td>Practicum Play Therapy</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Credit Hours** 15

1 The practicum requires students to conduct 100 hours of play therapy while receiving weekly supervision from an experienced play therapist.

### Completion Requirements

A cumulative graduate GPA of 3.000 for all courses comprising the certificate program is required. No grades below a C (2.000) are allowed in certificate program courses.

Completion process:

1. Students must notify the program area, in writing, of intent to complete the certificate.
2. In the semester the certificate requirements are met students must:
   a. With graduate advisor, prepare and submit to the Graduate School a plan of study for the certificate.
   b. Submit to the Graduate School an application for the certificate along with a $15 filing fee.

Deadlines are no later than the 20th day of fall or spring semester, or the 10th day of a summer term.

### Educational Leadership

The educational leadership program at Wichita State University offers:

- MEd in educational leadership (p. 85)
- EdD in educational leadership (p. 85)
- Building-Level Leadership/Principal Graduate Certificate (p. 86)
- Higher Education Leadership Graduate Certificate (p. 87)
- Superintendency/District Leadership Graduate Certificate (p. 87)

For additional information visit the College of Education's Educational Leadership webpage (http://wichita.edu/edleadership).
MEd in Educational Leadership

WSU’s innovative master’s degree in educational leadership is designed using cohort groups. Students begin the program with a cohort who becomes a learning family for the next two years. In this program, students begin work in the real world from the very first meeting. From the beginning, students work with their mentors (usually their building principals) in assessing their strengths and weaknesses, and identifying strengths and weaknesses in their schools. Students capitalize on these strengths and build on the weaknesses - individually and organizationally - throughout the program.

Students who complete this program and pass the School Leaders Licensure Assessment are eligible for Building Leadership endorsement from KSDE.

Admission

Applicants must have a minimum 3.000 grade point average in all college coursework from accredited institutions. In addition, applicants must have validated strengths on the multiple indicators listed below.

1. Official transcripts of all college-level work completed, and indication of a degree conferred;
2. Three Reference Report Forms from supervisors and/or professional peers. At least one must be from a supervisor attesting to the applicant’s potential as a building administrator;
3. Evidence of licensure for a role in the public/private schools and at least one year of accredited experience;
4. A resume or curriculum vita of educational and professional experience;
5. A brief statement of professional goals related to completion of the master’s degree and/or certification as a school administrator; and
6. A letter signed by a building principal indicating he or she is willing to serve as the student’s mentor and will allow the student to fulfill the practicum requirements of the program.

Note: Requirement six above normally precludes the admission of international students from this program because applicants are usually employed by a Kansas K–12 public or private school district before being admitted.

Program Requirements

The Master of Education (MEd) in educational leadership consists of 33 graduate credit hours including:

<table>

Applied Learning

Students in the MEd program in educational leadership leading to building-level licensure are required to complete an applied learning or research experience to graduate from this program. The requirement can be met by completing two practicum experiences, EL 815 and EL 825.

EdD in Educational Leadership

The Doctor of Education in educational leadership is an innovative program premised on the belief that theory and practice must be combined in a hands-on learning environment that focuses on learning by doing. This degree program is intended for practicing professionals in K-12, higher education, and other educational organizations who wish to further develop and enhance their leadership capacity. Rather than the typical lecture classroom, seminars are held in a setting where faculty and students meet as equals and share ideas and presentations.
Admission
Applicants must have a minimum grade point average of 3.500 on a 4.000 scale for all graduate-level hours. In addition, applicants must have validated strengths on the multiple indicators listed as follows:

1. Official transcripts of all college-level work completed, and indication of a degree conferred;
2. Evidence of three years of formal experience in P-12, higher education, or other educational organizations;
3. At least three letters of recommendation from supervisors and/or professional peers that attest to the applicant’s potential for success as an educational leader;
4. A current resume or curriculum vita of educational and professional experience;
5. A brief, one-page statement of professional goals related to the completion of the doctoral degree in educational leadership; and
6. A sample of academic writing (such as a published article or paper written for a graduate-level course).

Review of completed applications begins in the fall semester. Applications are accepted until June 1st. Summer admission only.

Program Requirements
Completion of the EdD in educational leadership requirements include 55 graduate credit hours (including a minimum of 15 dissertation hours), comprehensive examinations, and an approved dissertation.

Total Credit Hours 55

The five-member dissertation committee will include at least three university professors holding graduate faculty status (the chair must hold graduate faculty status), one member must hold affiliate graduate faculty status, and an outside department university professor who also holds graduate faculty status who will serve as the graduate dean’s representative. See Graduate Faculty (p. 13) for graduate faculty status definitions.

Applied Learning
Students in the educational leadership (EdD) program are required to complete an applied learning or research experience to graduate from this program. The requirement can be met by completing the dissertation.

Certificate in Building Level Leadership/Principal
The Educational Leadership program in the department of counseling, educational leadership, educational and school psychology offers the Building-Level Leadership Graduate Certificate program. Its goal is to provide a path for students who currently have a master's degree in an education-related field (e.g. curriculum and instruction, school counseling, etc.) and are currently employed in preK–12 education to be recommended for building licensure.

Admission
Applicants must have a minimum 3.000 grade point average in their last two years (60 credit hours) of college coursework from accredited institutions. In addition, applicants must have validated strengths on the multiple indicators listed below:

1. Official transcripts of all college-level work completed with indication of having completed a master's degree in an education-related field (e.g. curriculum and instruction, school counseling);
2. Three completed reference report forms from supervisors and/or professional peers. At least one must be from a supervisor attesting to the applicant's potential as a building administrator;
3. Evidence of licensure for a role in public/private schools and at least one year of accredited experience;
4. A resume or curriculum vita of educational and professional experience;
5. A brief statement of professional goals related to completion of the certificate program and/or certification as a school administrator; and
6. A letter signed by a building principal indicating he or she is willing to serve as the student's mentor and will allow the student to fulfill the practicum requirements in the program. (Note: this requirement normally precludes the admission of international students from this program because applicants are usually employed by a K–12 public or private school district before being admitted.)

Program Requirements
The certificate program requires 15–21 credit hours of coursework comprising the following:

<table>
<thead>
<tr>

This graduate certificate can be earned and abilities to compete for professional positions of increasing responsibility and scope. This graduate certificate can be earned in a variety of leadership positions at two- and four-year institutions in a variety of leadership positions at two- and four-year institutions.

Leadership is designed to prepare current and prospective college administrators in two- and four-year colleges and universities; policy makers and student affairs professionals in higher education; and to provide selected coursework/degrees for individuals currently in the workforce.

Leadership webpage (http://webs.wichita.edu/?u=coedel&p=/programs/higher_ed_leadership/cert).

Certificate in Superintendency/District Leadership

The superintendency/district leadership graduate certificate program provides an opportunity for potential candidates who currently hold a Kansas professional building leadership license to participate in advanced graduate training that leads to positions as a superintendent, assistant superintendent, or special education director, as well as other district-level positions required by school districts. The program allows enrolled candidates to complete the coursework online or in the traditional face-to-face format.

This program is not cohort-based and provides great flexibility in time and with instructional options. It can be completed in one year or over a longer period. Although most candidates begin their program in June; candidates may begin their classes, online or in person, at any time.

Admission

1. Students seeking admission having already completed a master’s degree must have a GPA of 3.200 or higher, students currently enrolled in a master’s degree program must have a GPA of at least 3.200 based on the last 30 credit hours of graduate coursework;
2. Three letters of recommendation;
3. Letter of intent indicating reasons for pursuing certificate; and
4. Resume, to include evidence of two years of professional experience in education or a related field.

Program Requirements

Fifteen (15) credit hours from the following courses are required for completion of this certificate:

throughout the year (June, August, October, January, March). However, Graduate School admissions deadlines must still be met.

Admission
- Application to the Graduate School (http://wichita.edu/gradschool).
  - Three recommendations from supervisors and/or professional peers of which at least one must be from a supervisor that attests to the applicant's potential as a district-level leader.
  - Evidence of a professional license in school building leadership.
  - A 500-word statement that discusses the applicant's leadership experience (formal/informal; professional/nonprofessional). The applicant must be specific as to his/her leadership experience detailing the goals and outcomes of the applicant’s leadership experience. The statement of purpose will be analyzed for evidence of leadership ability and writing skill.

Program Requirements
The district program requires 15–21 credit hours.¹

Total Credit Hours 21

¹ Applicants who have prior coursework/experience may have their coursework/experience evaluated and may have their internship or other course requirements waived, resulting in a program of 15–18 credit hours.

Applied Learning
Students in the Superintendency/District Leadership Certificate program are required to complete an applied learning or research experience to graduate from this program. The requirement can be met by completing two semesters of EL 992 Superintendency/Internship, or showing evidence of having completed the equivalent through work experience.

Additional Requirements
In addition to the prescribed coursework of five seminars and a year-long internship working with a practicing professional, candidates must take and submit a passing score on the School Superintendent Assessment (SSA). The SSA is based on standards adopted by the Kansas State Department of Education which include knowledge, performance, and dispositions necessary for a district-level school leadership position.

Once a candidate successfully completes all coursework and program requirements, the licensure office at Wichita State will assist the candidate with their request for licensure. Past coursework/experiences can possibly reduce the number of courses required to complete the program.

Note: This certificate has not yet been approved as a gainful employment program.

Educational Psychology
The educational psychology program at Wichita State University offers:

- MEd in educational psychology (p. 88)
- Certificate in Engineering Education (p. 89)

For further information visit the College of Education's educational psychology webpage (http://wichita.edu/edpsych).

MEd in Educational Psychology
The master's in educational psychology (MEd) has wide applicability. This degree can be obtained in its generalized form or in the form of a customizable track. The customizable track allows students to collaborate with their academic advisor to determine electives that meet the student's needs and interests with emphasis on specific skills and knowledge.

The following customizable tracks are among the options available:

- Learning and Memory
- Behavioral Management and Motivation
- Diversity and Advocacy
- Program Evaluation
- Professional Development
- Institutional and Industrial Consultation
- Social Psychology and Leadership Skills
- School Psychology Foundations - for those who wish to pursue a career in School Psychology
- Doctoral Foundations - prepares students to move on to a doctoral program.

Visit the educational psychology webpage (http://wichita.edu/edpsych).

Admission
To be considered for admission to the MEd in educational psychology, students must provide:

- their grade point average (GPA);
- evidence of academic competence;
- a resume;
- names, addresses and phone numbers of three people to provide letters of reference;
• a statement of professional goals; and
• a statement of research interests.

Evidence of academic competence can be provided in one of the following ways:

• GPA of 3.000 or higher in all coursework;
• Graduate Record Examination (GRE) scores of at least 150 for each GRE subsection (verbal and quantitative) and a GRE writing assessment score of 4.0 or higher;
• Miller Analogies Test equal to the national mean score at the time of taking the exam (400).

Applications for admission to the MEd in educational psychology program are reviewed throughout the year as they become completed. Candidates who apply are considered in the order in which their applications are completed until all openings are filled.

Apply online at https://apply.wichita.edu.

Program Requirements

The MEd in educational psychology may be earned under a thesis or nonthesis option. The nonthesis option requires 33 credit hours of coursework and a written comprehensive examination.

The thesis option requires 32 credit hours of coursework plus an oral examination over the thesis.

Candidates for the nonthesis MEd in both educational psychology and in counseling are required to pass a written comprehensive examination in their major area. Within the first three weeks of the semester in which students take the exam, an Application for Comprehensive Examination should be filed with the department office. Applications will not be accepted if submitted less than two weeks prior to the scheduled examination.

Applied Learning

Students in the educational psychology (MEd) program are required to complete an applied learning or research experience to graduate from this program. The requirement can be met by conducting a case study research in CESP 728. The case study is guided and supervised by the educational psychology faculty and provides students with the opportunity to observe, assess and interact with a child/adolescent and the child’s family in the real world.

Generic Option Track

15 credit hours selected by the student with the guidance of an academic advisor. Includes 700- and 800-level courses in one or more related disciplines. Some potential disciplines include educational psychology, counseling, school psychology, curriculum and instruction, communication science and disorders, and psychology.

Total Credit Hours 33

Certificate in Engineering Education

The College of Education, in conjunction with the College of Engineering, offers the graduate certificate in engineering education. The graduate certificate in engineering education is designed to:

1. Provide engineering graduate students with knowledge of contemporary learning theories that can be applied to university-level instruction;
2. Provide engineering graduate students with knowledge and skills in classroom testing and program evaluation;
3. Provide engineering graduate students with knowledge of pedagogical skills that can be applied to university-level instruction;
postbaccalaureate program

This certificate program provides joint mentorship from College of Education and College of Engineering faculty members. Students who plan to apply for university teaching positions after graduation need to be competitive in a market that demands good teaching as well as good research. The engineering education certificate will give WSU graduates a competitive edge.

**Admission Requirements**

Students seeking this graduate certificate program must be Wichita State University engineering graduate students in good standing either in a degree-bound program or in nondegree, Category A status. Students should contact the Graduate School to determine if they need to apply for admission to this status, or need to reactivate their enrollment file. Students who have not completed graduate coursework at Wichita State University will need to apply for admission to degree status or nondegree, Category A status in an appropriate area of engineering, by submitting an application and application fee to the Graduate School. An official transcript from each school attended must be sent directly to the Graduate School from the institution issuing the transcript, or must be submitted to the Graduate School office in envelopes sealed by the issuing institution, if issued to student.

**Program Requirements**

The following courses are required for completion of this certificate:

</table>

**Completion Hours**

Total Credit Hours 12

**Completion Requirements**

A cumulative graduate GPA of 3.000 for all courses comprising the certificate program is required. No grades below a C (2.000) are allowed in certificate program courses.

Completion process:

1. Students must notify the program area, in writing, of intent to complete the certificate.
2. In the semester the certificate requirements are met students must:
   a. With graduate advisor, prepare and submit to the Graduate School a plan of study for the certificate.
   b. Submit to the Graduate School an application for the certificate along with a $15 filing fee.

Deadlines are no later than the 20th day of fall or spring semester, or the 10th day of a summer term.

**School Psychology**

The College of Education at Wichita State University offers:

Education Specialist in Education (EdS) in school psychology - postbaccalaureate program (p. 90)

For more information, please visit the College of Education's school psychology webpage (http://wichita.edu/schoolpsych).

**EdS in School Psychology - Postbaccalaureate**

This program leads to the Specialist in Education (EdS) degree in school psychology. School psychologists collaborate with educators and families to help ensure the academic, social, behavioral and emotional progress of children and youth in schools.

As school practitioners, school psychologists share their consultation, assessment, intervention and research expertise with youth, families and educators to promote healthy cognitive, social and emotional development.

The School Psychology Educational Specialist in Education (EdS) consists of 60 graduate hours if entering after obtaining an undergraduate degree or 39 graduate hours if entering with an earned master’s in a related area.

**Benefits**

- Excellent job prospects upon graduation: For the past several years, all graduates of WSU’s school psychology program have become employed upon graduation.
- Entry into a satisfying career: In 2016, US News and World Report ranked school psychology as #2 in social services jobs and #57 in the 100 Best Jobs.
- Dual programming: Program graduates will have earned the EdS degree in school psychology and will be eligible for certification/licensure as a school psychologist.
- Nationally-approved program: The EdS program is approved by the National Association of School Psychologists (NASP).
- State-approved program: The Kansas State Department of Education has approved WSU’s school psychology program.
- Flexible programming:
  - Courses are offered in the late afternoons and evenings so students can work full time while completing the degree. Some courses are offered in online/hybrid formats and summer courses are available.
  - Students can enter the 60-hour program after obtaining an undergraduate degree and can move through the program in two years going full time, or students may choose to attend part time.
  - Students with an earned master’s in a related field can enter the 39-hour program and go full time or part time.

**Admission**

Applications for admission to the postbaccalaureate EdS in school psychology are due March 15 for summer or fall admission and October 15 for spring admission. Late applications will be reviewed if space permits.

In addition to standard Graduate School requirements, applicants must have a 3.000 GPA, and submit the following:

1. Evidence of academic competence.
Program - Postbaccalaureate 60-Hour School Psychology Educational Specialist full-time course sequence below.)

The program can be completed in a full-time or part-time format. (See school.

For full licensure in school psychology, candidates must apply for a practicum. Licensure Requirements:

1. GPA of 3.000 or higher in all undergraduate work; or
2. Graduate Record Examination (GRE) scores of 150 or higher for each GRE subsection (Verbal and Quantitative), and a GRE score of 4.0 or higher for the Analytical Writing subtest; or
3. A score on the Miller Analogies Test equal to the national mean at the time of taking the test (400).

2. References — contact information for three (3) persons from whom we may request letters of reference. The individuals must know the applicant professionally or academically and have some basis for commenting on his or her probable success as a school psychologist.

3. Resume.

4. Goal Statement — a one-page statement of the applicant’s professional goals.

5. Writing assessment — all applicants will take a writing assessment that will be scored according to a rubric. If the writing sample does not meet the criteria of the rubric, applicants can be accepted provisionally, contingent upon taking a noncredit course to improve the applicant's writing skills: ENGL 011 (or the equivalent). After taking the course, applicants will be required to retake and pass the writing assessment.

6. Interview — an interview with faculty is required of all applicants either in person or by Skype or other technology.

Wichita State University - Graduate Catalog

Note: WSU psychology students with a 3.000 or higher undergraduate GPA and a recommendation from their academic advisor may enter the school psychology program without the other admission requirements (additional resume, professional goal statement, letters of recommendation, test scores). Students will still need to apply for the program through the Graduate School, interview with the EdS program faculty, and take the writing exam prior to admission.

Program Requirements

The Specialist in Education (EdS) in school psychology requires 60 credit hours of coursework beyond the bachelor's degree. The degree is awarded upon completion of coursework and a practicum.

Licensure Requirements:

For full licensure in school psychology, candidates must apply for a professional school license, register for a 4-credit-hour postsecondary internship, and complete the full-time, one-year internship in a public school.

The program can be completed in a full-time or part-time format. (See full-time course sequence below.)

EdS in School Psychology - Postmaster's

This program leads to the Specialist in Education (EdS) degree in school psychology. School psychologists collaborate with educators and families to help ensure the academic, social, behavioral and emotional progress of children and youth in schools.

As school practitioners, school psychologists share their consultation, assessment, intervention and research expertise with youth, families and educators to promote healthy cognitive, social and emotional development.

The school psychology Educational Specialist in Education (EdS) consists of 60 graduate hours if entering after obtaining an undergraduate degree or 39 graduate hours if entering with an earned master's in a related area.

Benefits

- Excellent job prospects upon graduation. For the past several years, all graduates of WSU's school psychology program have become employed upon graduation.
- Entry into a satisfying career: In 2016, US News and World Report ranked school psychology as #2 in social services jobs and #57 in the 100 Best Jobs.
- Dual programming: Program graduates will have earned the EdS degree in school psychology and will be eligible for certification/licensure as a school psychologist.
- Nationally-approved program: The EdS program is approved by the National Association of School Psychologists (NASP).
- State-approved program: The Kansas State Department of Education has approved WSU's school psychology program.
- Flexible programming:
  - Courses are offered in the late afternoons and evenings so students can work full time while completing the degree. Some courses are offered in online/hybrid formats and summer courses are available.
  - Students can enter the 60-hour program after obtaining an undergraduate degree and can move through the program in two years going full time. Or students may choose to attend part time.
  - Students with an earned master's in a related field can enter the 39-hour program and go full time or part time.

Admission

Applications for admission to the postmaster's EdS in school psychology are due March 15 for summer or fall admission and October 15 for spring admission. Late applications will be reviewed if space permits.

In addition to standard Graduate School requirements, applicants must have a 3.000 GPA, and submit the following:

1. Evidence of academic competence.
   The GRE is not required depending on the applicant's evidence of academic competence. Evidence of academic competence can be provided in one of the following ways:
   a. GPA of 3.00 or higher in all undergraduate work; or
   b. Graduate Record Examination (GRE) scores of 150 or higher for each GRE subsection (Verbal and Quantitative), and a GRE score of 4.0 or higher for the Analytical Writing subtest; or
   c. A score on the Miller Analogies Test equal to the national mean at the time of taking the test (400).
2. References — contact information for three (3) persons from whom we may request letters of reference. The individuals must know the applicant professionally or academically and have some basis for commenting on his or her probable success as a school psychologist.
3. Resume.
4. Goal Statement — a one-page statement of the applicant's professional goals.
5. Writing assessment — all applicants will take a writing assessment that will be scored according to a rubric. If the writing sample does not meet the criteria of the rubric, applicants can be accepted provisionally, contingent upon taking a noncredit course to improve the applicant's writing skills: ENGL 011 (or the equivalent). After taking the course, applicants will be required to retake and pass the writing assessment.
6. Interview — an interview with faculty is required of all applicants either in person or by Skype or other technology.

Note: WSU psychology students with a 3.00 or higher undergraduate GPA and a recommendation from their academic advisor may enter the school psychology program without the other admission requirements (additional resume, professional goal statement, letters of recommendation, test scores). Students will still need to apply for the program through the Graduate School, interview with the EdS program faculty, and take the writing exam prior to admission.

Program Requirements

The Specialist in Education (EdS) in school psychology requires a minimum of 39 credit hours of coursework beyond the master's degree. The degree is awarded upon completion of coursework and practicums. More credits may be required if students are not able to demonstrate prerequisite knowledge requirements. Graduate transcripts will be evaluated by program faculty to determine whether prerequisite knowledge requirements have been met (see list below). The degree is awarded upon completion of required coursework and a practicum.

Licensure Requirements:

For full licensure in school psychology, candidates must apply for a professional school license, register for a 4-credit-hour postspecialist
internship, and complete the full-time, one-year internship in a public school.

The program can be completed in a full-time or part-time format. (See full-time course sequence below.)

### Curriculum and Instruction

#### Degrees and Areas of Specialization

The department of curriculum and instruction offers courses of study leading to the Master of Education (MEd) in learning and instructional design, and the Master of Education (MEd) in special education (high incidence, early childhood unified, low incidence and gifted). A Master of Arts in Teaching (MAT) is offered for students seeking an initial license through an alternative licensure program. The theory to practice model offers three tracks — the transition to teaching (T2T) track, the early childhood unified residency (ECU-R) track, and the middle level/secondary residency (ML/S) track. For those already holding a teaching certificate or license, curriculum and instruction offers endorsements in reading, ESOL, library media and special education areas (high incidence, low incidence and gifted). For those licensed in elementary education, an early childhood unified endorsement is also available.

Graduate certificates are offered in educational technology, interdisciplinary STEM education and literacy.

**Applied Learning**

Students are required to complete an applied learning or research experience to graduate from programs in curriculum and instruction. The requirements can be met by the following:

Students who graduate from an undergraduate program must experience at least 600 hours of field experience/internship in various classroom settings throughout their specific program. In addition, all initial licensure students must complete the Kansas Performance Teaching Portfolio, which is an action research requirement for licensure.
Students who graduate from all master’s degree programs must complete either a master’s thesis or capstone research project in which the emphasis is on applying professional practices to research and is directly linked to applied learning. In addition, students who graduate from the graduate program in special education must experience at least 135 hours of field experience/internship in special education classrooms.

Applied learning occurs when students develop knowledge, skills and values from personal direct experiences that go beyond the traditional lecture or lab. Applied learning encompasses a variety of activities including service learning, undergraduate research, theses, dissertations and other creative (e.g., live performances) and professional services (e.g., practicums, internships, clinical rotations and cooperative education).

The applied learning experience requirements for the initial licensure programs develop knowledge, skills and values primarily through practicums and internships. These internship experiences allow students to apply educational theory into practice. In addition, students complete the Kansas Performance Teaching Portfolio (KPTP), which is a product of research in the K–12 classroom that includes data collection, teaching, data analysis and reflection.

The applied learning experience requirements for the graduate programs develop knowledge, skills, and values primarily through the completion of either the master’s thesis or the capstone project. The completion of these terminal projects allow students to apply knowledge and skills gained from their coursework to independent research. In addition, students in the special education graduate program are able to apply the knowledge gained from traditional classroom learning thorough their practicum/internship requirements.

Programs in Curriculum and Instruction

MEd - Master of Education
- MEd - Master of Education in Learning and Instructional Design (p. 97) (online program)
- MEd - Master of Education in Special Education - Early Childhood Unified (p. 97)
- MEd - Master of Education in Special Education - Gifted (p. 98) (online program)
- MEd - Master of Education in Special Education - High Incidence (p. 99) (online program)
- MEd - Master of Education in Special Education - Low Incidence (p. 100) (online program)

MAT - Master of Arts in Teaching
- Transition to Teaching Track (p. 94)
- Early Childhood Unified Residency (p. 95)
- Middle Level/Secondary Residency (p. 96)

Graduate Certificates
- Graduate Certificate in Educational Technology (p. 101)
- Graduate Certificate in Interdisciplinary STEM Education (p. 101)
- Graduate Certificate in Literacy (p. 101)

Courses in Curriculum and Instruction
- Curriculum and Instruction (CI) (p. 230)

MAT - Master of Arts in Teaching (Transition to Teaching Track)

The Transition to Teaching (T2T) program at WSU is a two-year alternative licensure program that combines graduate coursework and full-time, paid teaching in an accredited school as the classroom teacher of record. The program is geared toward working professionals looking for a career change and more recent graduates wanting to teach. Teaching candidates fulfill teacher licensure requirements in the first 29 credit hours (two years). Those who wish to earn the MAT degree must complete an additional 7 credit hours of research in the third year.

Admission

Students in the MAT transition to teaching track must have an undergraduate degree in a content licensure field (i.e., biology, chemistry, mathematics, etc.), or equitable coursework, and meet eligibility requirements for a Kansas State Department of Education (KSDE) restricted license. This practice-to-theory model requires students to have a signed teaching contract from an accredited school district to be eligible for a restricted license and to participate in coursework.

To be eligible for the T2T program, students must:

- Complete at least a BA/BS degree (in the secondary content field in which the candidate is seeking licensure), or equivalent coursework from an accredited higher education institution in a regular content area eligible for restricted licensure.
- Meet GPA requirements of 2.750 in last 60 hours of college coursework completed to meet state alternative certification and graduate school admission requirements.
- Be fully admitted to the WSU Graduate School, in the T2T/MAT degree-bound category.
- Receive passing scores on the Praxis Subject Assessment exam for the restricted licensure area.
- Secure a teaching contract in an accredited Kansas school district.
- Complete summer prerequisite education coursework.
- Complete a supervised practical training experience under the collaboration of WSU and the hiring school district.

Preferred criteria for success in the T2T program:

- Evidence of work experience in a field corresponding with the subject(s) they will teach.
- Evidence of working with middle or high school students.

Program Requirements

The Master of Arts in Teaching (MAT) transition to teaching track is a 36-credit-hour program. The program is offered for students seeking an initial license through an alternative licensure program. The core curriculum consists of:

| Select courses in child/adolescent development and pedagogy | 21 |
| Select research and reflection (within the 11 hours of research, students are required to complete either an action research portfolio or a master’s thesis) | 11 |
| Select an internship with university supervisors provided | 4 |
| Total Credit Hours | 36 |

MAT Transition to Teaching Program of Study

Required Courses

| CESP 728 | Theories of Human Development | 3 |
2. For full admission, a GPA of 3.000, or a GPA of 2.750 to 2.999 to
be admitted on probation.

Applicants to the MAT ECU residency program must pass a criminal
background check that they obtain at their own expense. Information
regarding the approved background check service provider is available
from Education Support Services.

Program Requirements

Master of Arts in Teaching (MAT) early childhood unified residency
(ECU-R) track is offered for students seeking initial KSDE license in
early childhood unified: birth–third grade. The graduate level initial
licensure program consists of 36 credit hours. The core curriculum
consists of:

Select courses in child development and pedagogy 21
Select research and reflection (within the 11 hours of research, students
are required to complete either an action research portfolio or a master’s
thesis) 11
Select an internship with university supervisors provided 4
Total Credit Hours 36

MAT ECU-R Program of Study

Required Courses

CESP 729 Theories of Early Childhood Development 3
CI 603 Foundations of Early Childhood Unified 2
CI 614 ECU Assessment and Methods: Infants, Toddlers
and Families 3
CI 617 ECU Assessment & Methods: Preschool 3
CI 704 Assessment & Methods K-1 3
CI 711 Multicultural Education 3
CI 733 Assessments & Methods: Grades 2-3 3
CI 743 Transition to Teaching or Residency Internship I 1
CI 744 Transition to Teaching or Residency Internship II 1
CI 748 Transition to Teaching or Residency Internship III 1
CI 749 Transition to Teaching or Residency Internship IV 1
CI 796 Family and Professional Collaboration 3
CI 849 Practices and Trends in Action Research 2
CLES 801 Introduction to Educational Research 3

Capstone Courses

CI 860 Seminar in Research Problems 2
Select one of the following combinations 2
CI 862 & CI 863 Evidence Based Inquiry: Capstone Project Proposal
and Evidence-Based Inquiry: Capstone Project 3
CI 875 & CI 876 Master’s Thesis and Master’s Thesis 3

Total Credit Hours 36

Applied Learning

Students are required to complete an applied learning or research
experience to graduate from programs in curriculum and instruction.
The requirements can be met by completing either an action research portfolio or a master’s
thesis.

MAT - Master of Arts in Teaching (Early Childhood Unified Residency Track)

The WSU MAT-ECU program reflects what is currently known about
best practices in early childhood teacher preparation. With an emphasis
on urban schools, the program prepares teaching residents to meet the
needs of children with and without disabilities in varied settings. The
MAT-ECU teacher residency program was developed using a PDS
philosophy that centers on shared responsibility for teacher preparation
between universities and schools as well as a shared responsibility
for student learning. It involves students working in classrooms as
paraprofessionals while working on their graduate degree and initial
licensure.

Admission

The program is limited to individuals who have:

1. Completed at least a BA/BS degree from an accredited higher
education institution prior to entry into the program.
The requirements can be met by completing either a master’s thesis or capstone research project in which the emphasis is on applying professional practices to research and is directly linked to applied learning.

**MAT - Master of Arts in Teaching (Middle Level/Secondary Residency Track)**

The MLS/MAT program is a partnership between WSU and Wichita-area school districts, which combines coursework and experience-based learning in a classroom setting. During this two-year residency, participants obtain positions as para-educator interns in the WSU Cooperative Education Program and work under the supervision of veteran teachers, while completing requirements for licensure and a MAT degree.

Key elements identified from various models of successful teaching residency programs include:

- A two-year residency consisting of coursework and classroom experience.
- Systematic mentoring and support while learning pedagogy.
- Ongoing professional development through the residency and support in obtaining license.

**Admission**

Students in the MAT transition to teaching middle level/secondary track must have an undergraduate degree in a content licensure field (i.e., biology, chemistry, mathematics, etc.), or equitable coursework, and meet eligibility requirements for a Kansas State Department of Education (KSDE) restricted license. This practice-to-theory model requires students to have a para-educator position with an accredited school district to be eligible for a restricted license and to participate in coursework.

To be eligible for the T2T Middle Level/Secondary program, students must:

- Complete at least a BA/BS degree (in the secondary content field in which the candidate is seeking licensure), or equivalent coursework from an accredited higher education institution in a regular content area eligible for restricted licensure.
- Meet GPA requirements of 2.750 in last 60 hours of college coursework completed to meet state alternative certification and graduate school admission requirements.
- Be fully admitted to the WSU Graduate School, in the T2T/MAT degree-bound category.
- Receive passing scores on the Praxis Subject Assessment exam for the restricted licensure area.
- Secure a position as a para-educator in a partnering school district through WSU’s Cooperative Education Program.
- Complete summer prerequisite education coursework.
- Complete a supervised practical training experience under the collaboration of WSU and the hiring school district.

Preferred criteria for success in the T2T Middle Level/Secondary program:

- Evidence of work experience in a field corresponding with the subject(s) they will teach.
- Evidence of working with middle or high school students.

**Program Requirements**

The Master of Arts in Teaching (MAT) middle level/secondary residency track is offered for students seeking initial licensure in middle level (grades 5–8) and secondary (grades 6–12) education. The graduate level initial licensure program consists of 36 credit hours. The core curriculum for the middle level/secondary residency consists of:

- Select courses in child/adolescent development and pedagogy
- Select research and reflection (Within the 10 hours of research, students may choose either the thesis or nonthesis research option)
- Select an internship with university supervisors provided

Total Credit Hours 36

1. Students may opt to complete CI 781 with approval from advisor.

**Applied Learning**

Students are required to complete an applied learning or research experience to graduate from programs in curriculum and instruction. The requirements can be met by completing either a master’s thesis or capstone research project in which the emphasis is on applying
professional practices to research and is directly linked to applied learning.

**MEd - Master of Education in Learning and Instructional Design**

The Master of Education (MEd) in learning and instructional design at Wichita State University is an innovative, dynamic and flexible program designed for educators and professionals alike. The program focuses on new approaches to learning and instructional design, best practices in education and corporate training.

The Master of Education in learning and instructional design is ideal for education and professional development career advancement for those who are engaged in the K–12 teaching and workplace training of adult learners. It is a 36-credit-hour, online program. The program is offered for students who meet the admission requirements and are seeking a graduate level degree in learning and instructional design leadership.

**Admission**

In addition to the Graduate School admission requirements, students seeking the Master of Education in learning and instructional design (MEd LID) must meet the following two criteria:

1. Show potential to do graduate work by meeting one or more of the following:
   a. Graduate from the WSU teacher education program with a minimum GPA of 2.750; or
   b. Graduate from an NCATE accredited program with a 3.000 or better GPA; or
   c. GPA of at least 2.750 and GRE scores of at least 152 in Verbal and 153 in Quantitative; or
   d. Provide alternative evidence that documents academic aptitude.
2. Provide evidence of involvement in teaching, training and/or program design, or recommendation by the graduate program committee.

**Program Requirements**

The Master of Education (MEd) in learning and instructional design is a 36-credit-hour, online program. The program is offered for students who meet the admission requirements and are seeking a graduate level degree in learning and instructional design. The core curriculum consists of 21 credit hours of foundational coursework, 3 credit hours of thesis or nonthesis work and 12 credit hours of electives.

### Required Courses

- **CI 794**: Diversity and Culture in a Global Society 3
- **CI 795**: Change, Creativity and Innovation 3
- **CI 880**: Learning Theory and Curriculum Design 3
- **CI 881**: Instructional Theory 3

**Applied Learning**

To graduate from programs in curriculum and instruction, students are required to complete an applied learning or research experience. The requirements can be met by completing either a master’s thesis or capstone research project in which the emphasis is on applying professional practices to research and is directly linked to applied learning.

**MEd in Special Education - Early Childhood Unified**

The Master of Education in Special Education - Early Childhood Unified emphasis at Wichita State University is a 31-credit-hour program that prepares teachers certified in K-6 general education for teaching all students ages Birth–3rd grade. The program is designed to develop reflective practitioners who possess both a theoretical understanding and practical skills related to (a) the field of early childhood education, (b) the field of special education for students with both high and low incidence needs Birth–3rd grade, (c) effective communication and collaboration with families and other professionals, and (d) research-validated practices.

**Program Overview**

The Early Childhood Unified (ECU) program is designed to prepare teachers of young children (birth through grade 3). The ECU program develops reflective practitioners who possess theoretical and practical developmental, educational, communicative, collaborative and family- and child-centered skills. The ECU program's advisory committee provides continual guidance to the program to assure that all candidates graduate with the belief that:

- all young children, birth through grade 3 (i.e., children with and without exceptionalities, at every socioeconomic level, from all cultures) are competent, creative and curious learners;
- working with, understanding, and respecting families is a critical component of working with young children;
- development and education are focused for each individual child in terms of the child’s relation with the family, other children, teachers, the school community and society at large;
- children must learn through both constructing their own knowledge and by direct instruction;
- the unique needs of all young children must be met; and
- programs and services provided are based on law, and scientifically- and evidence-based practices.

The degree program begins with a prerequisite foundational course and proceeds through methods/assessment courses in three different age levels. These courses are accompanied by three different practicum experiences. The remainder of the program consists of courses on family collaboration, research and finally a culminating capstone or thesis project.
Endorsement only option:

- Candidates may elect to complete only the first 24-credit-hours in the program to receive an endorsement in Early Childhood Unified. These candidates are considered nondegree seeking graduate students.

- Apply for provisional endorsement after completion of only 9 credit hours of coursework and the first practicum experience.

Admission
The special education degree with an emphasis in early childhood unified is available for individuals who are certified to teach young children (birth to age 8). Admission requirements include:

1. GPA of 3.000 or higher; or GPA of at least 2.750 and official GRE scores of at least 152 in Verbal and 153 in Quantitative.
2. Full admission to WSU Graduate School.
3. Current teaching certificate/license (or eligible for a certificate/license).

Applications are evaluated when received for the MEd in special education. Only a limited number of students are accepted into this program each year.

Program Requirements
The Master of Education in Special Education — Early Childhood Unified track may be earned under a thesis or nonthesis option. The program requires 31 credit hours of coursework, including a research component, practical experience, and the culminating activity (i.e., thesis or nonthesis).

Candidates may elect to complete only the first 24-credit-hours in the program to receive an endorsement in Early Childhood Unified. These candidates are considered nondegree-seeking graduate students.

**Applied Learning**
Students are required to complete an applied learning or research experience to graduate from programs in curriculum and instruction. The requirements can be met by completing either a master’s thesis or capstone research project in which the emphasis is on applying professional practices to research and is directly linked to applied learning. In addition, students who graduate from the graduate program in special education must experience at least 135 credit hours of field experience/internship in special education classrooms.

**MEd in Special Education - Gifted**
The special education degree with an emphasis in high incidence, low incidence and gifted is available for individuals certified at the elementary and/or secondary level (K-9, 7–12, or K–12) or licensed to teach children (early childhood through late childhood, late childhood through early adolescence, or early adolescence through late adolescence and adulthood). The special education degree with an emphasis in early childhood unified is also available for individuals who are certified to teach young children (birth to age 8). Courses are offered online enabling graduate students to earn their degree while employed full time and balancing other obligations.

For more information, visit the program website (http://wichita.edu/specialed).

**Admission**
Admission requirements include:

1. GPA of 3.000 or higher; or GPA of at least 2.750 and official GRE scores of at least 152 in Verbal and 153 in Quantitative.
2. Full admission to WSU Graduate School.
3. Current teaching certificate/license (or eligible for a certificate/license).

Applications are evaluated when received for the MEd in special education. Only a limited number of students are accepted into this program each year.

**Program Requirements**
The fully online Master of Education in special education — gifted may be earned under a thesis or nonthesis option — 30 credit hours of coursework, practical experience, and the culminating experience (i.e., thesis or nonthesis).

All students must complete the research component.

**MEd in Special Education — Gifted Track**

Candidates may elect to complete only a 26-credit-hour endorsement.  

Note: After successful completion of the first 9 credit hours, the candidate is eligible to apply to KSDE for a two-year provisional endorsement. A second two-year provisional may be applied for if the candidate has continued to make adequate progress in the program. Please contact the Licensure Office in Education Support Services, 316-978-3300, for information on the licensure application to submit.

Applied Learning
Students are required to complete an applied learning or research experience to graduate from programs in curriculum and instruction. The requirements can be met by completing either a master’s thesis or capstone research project in which the emphasis is on applying professional practices to research and is directly linked to applied learning. In addition, students who graduate from the graduate program in special education must experience at least 135 credit hours of field experience/internship in special education classrooms.

MEd or Endorsement in Special Education - Low Incidence
The Master of Education or endorsement in special education — low incidence at Wichita State University prepares educators for teaching students with moderate to severe disabilities. The program is designed to develop reflective practitioners who possess both theoretical understanding and practical skills related to:

- the field of special education for students with functional learning needs,
- effective communication and collaboration, and
- research-validated practices.

The special education — low Incidence program prepares professional practitioners to make curricular and instructional modifications in order to facilitate successful student learning. Courses are offered online enabling graduate students to earn their degree while employed full time and balancing other obligations.

Admission
Admission requirements include:

- GPA of 3.000 or higher; OR GPA of at least 2.750 and official GRE scores of at least 152 in Verbal and 153 in Quantitative.
- Full admission to WSU Graduate School.
- Current teaching certificate/license (or eligible for a certificate/license).

Applications are evaluated upon receipt.

Program Requirements
The fully online Master of Education in special education — low incidence may be earned under a thesis or nonthesis option — 33 credit hours of coursework, practical experience, and the culminating experience (i.e., thesis or nonthesis). Candidates may elect to complete only the endorsement in special education — low incidence through completion of the required courses (26 credit hours).

Total Credit Hours 33

Note: After successful completion of the first 9 credit hours, the candidate is eligible to apply to KSDE for a two-year provisional endorsement. A second two-year provisional may be applied for if the candidate has continued to make adequate progress in the program. Please contact the Licensure Office in Education Support Services, 316-978-3300, for information on the licensure application to submit.

Applied Learning
Students are required to complete an applied learning or research experience to graduate from programs in curriculum and instruction. The requirements can be met by completing either a master’s thesis or capstone research project in which the emphasis is on applying professional practices to research and is directly linked to applied learning. In addition, students who graduate from the graduate program in special education must experience at least 135 credit hours of field experience/internship in special education classrooms.
Certificate in Educational Technology
To provide for the changing needs of learners in the area of Educational Technology, this program offers Information and Communication Technology (ICT) education to educators, trainers and professional developers who wish to advance their knowledge of information technology in education, integrate technology into classroom instruction or professional setting, and use technology for communication and professional productivity. Through 6 credit hours of core courses and 6 credit hours of electives, the certificate will provide ICT foundational knowledge and skills, ways of integrating ICT in educational and other professional settings as well as opportunities to advance ICT knowledge and skills related to subject matter-specific topics.

Admission
Students seeking graduate certificates must be admitted to Graduate School in a degree program or in nondegree Category A status. All Graduate School policies relative to admission criteria apply.

Program Requirements
The educational technology graduate certificate is a 12-credit-hour program. The curriculum consists of 12 credit hours — 6 credit hours of required courses and 6 credit hours of electives.

Completion
Students completing the requirements for a graduate certificate program must submit the Graduate Plan of Study form and the Application for Degree form no later than the 20th day of the fall or spring semester, or the 10th day of the eight-week summer term when certificate completion is anticipated. A $15 filing fee is required each time a degree card is submitted.

Certificate in Interdisciplinary STEM Education
The interdisciplinary STEM education graduate certificate is designed for STEM professionals, educators and graduate students interested in designing and/or teaching an interdisciplinary STEM curriculum. Students in the program build interdisciplinary academic skills in context with an emphasis on real-world problem solving, critical thinking and career readiness. The curriculum is developed in a way that facilitates key features to effective interdisciplinary STEM curriculum preparation, induction and implementation including models and characteristics that guarantee quality curricula. The certificate comprises 18 credit hours in the following way:

- Select an entry course 3
- Select STEM courses for an individualized pathway 12
- Select an exit/capstone course 3

Total Credit Hours 18

Certificate in Literacy
This program provides graduate level studies in literacy for educators who wish to:

1. Advance their knowledge and skills of teaching literacy in the classroom, and
2. Integrate literacy into all content areas.

It provides advanced study for teachers and educators seeking lead positions in buildings where literacy is a focus for federal legislation and state accreditation.

Program Requirements
To meet the varied needs of elementary and secondary teachers, two strands are provided:

1. Early childhood/elementary, and
2. Middle level/secondary.

In each strand, students must take 15 hours of coursework:

Required courses Elementary (9 credit hours)

Human Performance Studies

Degrees and Areas of Specialization
The department of human performance studies offers courses of study leading to the Master of Education (MEd) in exercise science.
Academic training is provided for students who wish to prepare for careers in physical education, exercise science/wellness.

**Graduate Certificates**

Students seeking a graduate certificate must be admitted to the Graduate School in a degree program or in nondegree, Category A status. All Graduate School policies relative to admissions apply. Students must maintain a grade point average of 3.00 or better.

**Programs in Human Performance Studies**

- MEd in Exercise Science (p. 102)
- Graduate Certificate in Functional Aging (p. 102)

**Courses in Human Performance Studies**

- Human Performance Studies (HPS) (p. 289)

**MEd in Exercise Science**

Admission to the master’s degree program in exercise science requires students to have completed an undergraduate degree from a regionally accredited institution and have a grade point average of at least 2.750 (4.000 system) in all coursework including any postbachelor’s graduate work in accordance with university graduate school admission policy.

Students applying to the program must complete the following prerequisite courses. Students who have 9 credit hours or less of prerequisites remaining may be granted admission on a full-standing basis, but must complete all remaining prerequisites within one year of admission.

<table>

</tbody>
</table>

**Program Requirements**

The Master of Education (MEd) in exercise science program offers a 34-hour thesis option, a 36-hour nonthesis with internship option, and a 36-hour nonthesis without internship option. The thesis option requires an oral examination on the research; the nonthesis with internship and nonthesis without internship options require a written comprehensive examination.

All program students are required to take HPS 860, preferably in their first year in the program, to satisfy the professional and scholarly integrity training requirement.

**Thesis Option**

Complete the four required core courses 12
Select four specialty courses 12
Select two elective courses 6
HPS 875      | Thesis Research                            | 2            |
HPS 876      | Thesis                                     | 2            |
Successfully compete the required oral defense of thesis 34

**Nonthesis Option with Internship**

Complete the four required core courses 12
Select four specialty courses (including HPS 890 Special Topics) 12
Select two elective courses 6
HPS 857      | Internship in Exercise Science/Wellness    | 6            |
Successfully complete the required written comprehensive exam 36

**Nonthesis Option without Internship**

Complete the four required core courses 12
Select six specialty courses 18
Select two elective courses 6
Successfully complete the required written comprehensive exam 36

1 Elective courses may be additional specialty courses or selected from another department with advisor’s approval.

**Applied Learning**

Students in the exercise science (MEd) program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by the following:

For students choosing the thesis option — complete HPS 875 and HPS 876. For students choosing the nonthesis option with internship — complete HPS 857. For students choosing the nonthesis option without internship: complete HPS 860.

**Certificate in Functional Aging**

This certificate provides knowledge and training for those working in the field of aging. It will help them assist older adults to retain sufficient levels of functional ability and to understand the physiologic changes that occur with aging and how these changes impact the quality of life for older adults.
Students must receive approval to enter this certificate program from their graduate advisor and the certificate in functional aging faculty committee. To initiate the application process, candidates must provide a completed application form and a one-page statement to the certificate in functional aging faculty committee explaining the student’s purpose and interest in obtaining the certificate in functional aging, as well as his or her career plans.

The program consists of 12 credit hours of coursework selected from the following list. Students may not take more than 6 credit hours from a single department.

Total Credit Hours: 12

**Sport Management Degrees and Areas of Specialization**

The department of sport management offers courses of study leading to the Master of Education (MEd) in sport management.

**Programs in Sport Management**

- MEd in Sport Management (p. 103)

**Courses in Sport Management**

- Sport Management (SMGT) (p. 345)

**MEd in Sport Management**

Admission to the master’s degree program in sport management is considered for students who have completed an earned undergraduate degree from a regionally accredited institution with a grade point average of 2.750 (4.000 system), in accordance with WSU graduate school admission policy. Candidate evaluations are based on one of two options:

1. GPA in all coursework and faculty evaluation based on letter of application, resume, and three reference reports; or
2. GPA in all coursework, cumulative score for the verbal and quantitative sections of the Graduate Record Exam, and faculty evaluation based on letter of application, resume, and three reference reports.

The program limits admissions to 30 students per year with a minimum score of 70 (out of 100 possible) based on the above admission criteria options. For more information, please contact the Graduate Coordinator, Dr. Wonyoung Kim at wonyoung.kim@wichita.edu.

**Program Requirements**

The MEd program in sport management program requires 36 credit hours — 30 credit hours of coursework and a 6-credit hour internship. In addition, the program requires that all students pass a final written examination covering all required coursework during their final semester prior to graduation.

**Required Courses**

<table>
<thead>

Total Credit Hours: 36

**Applied Learning**

Students in the sport management (MEd) program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing SMGT 847.
College of Engineering

Royce Bowden, dean
100 Wallace Hall • 316-WSU-3400
http://wichita.edu/engineering

Steven Skinner, associate dean, undergraduate studies, finance and administration
Janet Twomey, associate dean, graduate studies, research and faculty success
Jason Bosch, scholarship coordinator

Departments

Aerospace, 316-978-3410 — L. Scott Miller, chairperson; Kamran Rokhsaz, master’s graduate coordinator; Klaus Hoffmann, doctoral graduate coordinator

Biomedical, 316-978-3742 — Michael Jorgensen, chairperson; Anil Mahapatro, master’s graduate coordinator

Electrical Engineering and Computer Science, 316-978-3156 — John Watkins, chairperson; Yanwu Ding, graduate coordinator, MSECE; Huzefa Kagdi, graduate coordinator, MSCS, MSCN and PhD

Industrial, Systems, and Manufacturing Engineering, 316-978-3425 — Krishna Krishnan, chairperson; Deepak Gupta, graduate coordinator

Mechanical, 316-978-3402 — Muhammad M. Rahman, chairperson; TS Ravi, graduate coordinator

The College of Engineering offers graduate programs leading to a:

- Master of Science (MS) in:
  - aerospace engineering,
  - biomedical engineering,
  - computer networking,
  - computer science,
  - electrical and computer engineering,
  - industrial engineering, and
  - mechanical engineering.

- Master of Engineering Management (MEM)
- Doctor of Philosophy (PhD) in:
  - aerospace engineering,
  - electrical engineering and computer science,
  - industrial engineering, and
  - mechanical engineering.

Areas of specialization can be found in the individual departmental sections. The graduate programs are enhanced by the presence of the industrial complex in Wichita and of the National Institute for Aviation Research on the Wichita State campus.

Certificate programs are also offered through the College of Engineering, including four certificates offered through the industrial and manufacturing engineering department, an interdisciplinary certificate in advanced composite materials, an information assurance and cybersecurity certificate offered by the electrical engineering and computer science department, a nano engineering certificate offered through the mechanical engineering department, and an engineering education certificate offered jointly with the College of Education.

Only students admitted to the College of Engineering or the Graduate School will be allowed to enroll in engineering courses. The academic dean will consider petitions for exceptions to the preceding statement because of legitimate reasons for qualified nonengineering students enrolling in engineering courses.

Professional & Scholarly Integrity Training

Graduate students in the College of Engineering must complete the following four modules provided by Collaborative Institutional Training Initiative (CITI) as part of their graduation requirements:

1. Research misconduct;
2. Responsible authorship in engineering;
3. Conflicts of interest in engineering research;
4. Ethical issues in management of data in engineering research.

It is the student’s responsibility to show evidence of the completion of the above four modules at the time of filing the plan of study.

Graduation Requirements

Master of Science

Admission Requirements

To be admitted to the MS program, students must have completed the equivalent of an undergraduate degree in an engineering or related field. Students with deficiencies in certain areas may be required to take additional courses. Master’s engineering programs require a minimum GPA of 3.000/4.000 for admission to full standing, 2.750/4.000 for admission on probation, and 2.500/4.000 for admission to nondegree, Category B. For some programs, GPAs are based on the last two years or approximately 60 credit hours of coursework. Other programs consider cumulative GPAs. These standards may be waived at the discretion of the individual department based on an applicant’s other qualifications. Scores for the general test of the Graduate Record Examination (GRE) are recommended for all students applying from non-U.S. institutions.

Also consult departmental admission sections of this catalog for additional admission requirements.

Program Requirements

The MS degree requires the completion of a plan of study approved by the student’s advisor and the department graduate coordinator, which must be filed within the first 12 credit hours of graduate coursework.

Three options are available:

1. The thesis option:
   - Select a minimum of 24 credit hours of coursework
   - Select a minimum of 6 credit hours of thesis
   - Total Credit Hours 30

2. The directed project option:
   - Select a minimum of 30 credit hours of coursework
   - Select a minimum of 3 credit hours of directed project
   - Total Credit Hours 33

3. The coursework option:
   - Select a minimum of 33 credit hours of coursework (36 credit hours in the department of electrical engineering and computer science)
   - Total Credit Hours 33

At least 60 percent of the credit hours in the plan of study must be 700-level or above. Additional details of the MS degree may be obtained from the department graduate coordinator.

Examination

Before the MS degree is granted, candidates in the thesis option must pass an oral examination over the thesis. Candidates in the directed...
project option must give an oral presentation and submit a written report on their directed project. Candidates in the coursework option may be required to pass a written exit exam. Details of the exit exam can be obtained from the department graduate coordinator.

**Doctor of Philosophy**

PhD programs are offered by four of the departments of engineering at WSU. A grade point average of at least 3.250 in all graduate-level coursework is required for admission. Typical fields of specialization can be found in the individual departmental sections. These fields will be used in determining testing areas for the comprehensive examination in the major and minor fields.

**Admission Requirements**

Admission to any PhD program in engineering requires that the student has completed (or nearly completed) a master’s degree in engineering or physical science. The College of Engineering also offers direct admission to some PhD programs for exceptional students with a BS degree in engineering or related areas. Direct admission to PhD program requirements vary by program. Please refer to specific engineering graduate programs for admission requirements.

In some departments, scores for the general test of the Graduate Record Examination (GRE) must be submitted. Some students may find it necessary to take prerequisite courses to be able to meet the course breadth requirements. The student is recommended to the graduate dean for admission by the department chairperson in consultation with the graduate coordinator of the department where the graduate student will be housed.

Also consult departmental admission sections of this catalog for additional admission requirements.

**Plan of Study and Advisory Committee**

Within the first 12 credit hours of PhD coursework, the department chairperson, in consultation with the graduate coordinator and the student, recommend to the graduate dean an advisory committee for each student. The committee will be composed of a minimum of five graduate faculty, with at least four having full membership including the chairperson who also must have authorization to chair doctoral committees. A majority of the advisory committee members must be from the major department and at least one member must be outside the student’s major department. The chairperson of the advisory committee should be the student’s dissertation advisor. The student and advisory committee chairperson will formulate a plan of study and a tentative dissertation topic for approval by the advisory committee, the department chairperson or graduate coordinator, and the graduate dean. The plan of study will include designation of major and minor fields and all graduate-level coursework which is applicable to the degree.

**Course Breadth Requirements**

To ensure proper breadth of coursework, the plan of study must include:

- Select at least 15 credit hours in the student’s major field 15
- Select 18 credit hours outside the major area which must include the following:
  - a minimum of 6 credit hours in a minor area (defined by the advisory committee)
  - a minimum of 6 credit hours of mathematics/statistics
- Select 24 credit hours in dissertation 24

Total Credit Hours 57

A plan of study normally contains 60 credit hours of coursework, including courses from the master’s degree, and should have a minimum of 60 percent of the credit hours (24 dissertation credit hours included) beyond the master’s work at the 800–900 level or equivalent.

**Comprehensive Examination**

After the PhD plan of study has been approved and after sufficient coursework has been completed, the student must take the comprehensive examination given by the advisory committee. The comprehensive examination will cover the major and minor fields and any course that the advisory committee deems necessary. The student’s advisory committee is responsible for ensuring that the student takes the comprehensive examination at the appropriate time. No part of the comprehensive examination may be attempted more than twice. Upon passing the comprehensive examination, a student is known as an aspirant for the PhD.

**Time Limits and Residency Requirement**

From the time the student is admitted to the program, no more than six years may elapse until requirements for the degree have been completed. However, the student may petition the advisory committee for a leave of absence to pursue full-time professional activities related to his or her doctoral program and long-range professional goals. At least two semesters shall be spent in residency on the WSU campus involved in full-time academic pursuits. This may include up to half-time teaching and research. Well-designed plans for obtaining dissertation research experience under the supervision of the student’s advisor will be considered in lieu of the residency requirement.

**Dissertation Approval Examination (DAE)**

When the PhD aspirant has completed the major portion of the coursework, the advisory committee can petition for permission to administer the DAE. The aspirant submits a written dissertation proposal to the advisory committee. After reading the proposal, the advisory committee conducts an oral examination to determine the aspirant’s ability to carry out the proposed research and whether or not this research qualifies as a PhD dissertation. Any essential change in the project requires committee approval.

After passing the DAE, the student is known as a candidate for the PhD degree. Upon notification to the graduate dean of a successful DAE, the student’s doctoral committee is officially acknowledged and recorded by the Graduate School. A candidate must be continuously enrolled in PhD Dissertation for a minimum of 6 credit hours each semester and 2 credit hours in the summer session until completion of the dissertation or 24 credit hours of PhD Dissertation have been taken. After this, 2 credit hours per semester are required. In any case, no less than 24 credit hours of enrollment for PhD Dissertation will be required. The dissertation may be performed in absentia with the approval of the advisory committee.

**Final Dissertation Examination**

The student must defend the dissertation before the advisory committee. At least five months must elapse between the DAE and the final examination. The final examination will be open to the public. Invited guests or external examiners may be invited if the committee desires.

**Courses in the College of Engineering**

- Aerospace Engineering (AE) (p. 203)
- Biomedical Engineering (BME) (p. 221)
- Computer Science (CS) (p. 253)
- Electrical Engineering (EE) (p. 265)
- Engineering Technology (ENGT) (p. 277)
- Industrial and Manufacturing Engineering (IME) (p. 293)
- Mechanical Engineering (ME) (p. 302)
Graduate Certificates

Certificate in Advanced Composite Materials

The College of Engineering offers a graduate certificate program in the area of advanced composite materials.

This program is designed to equip students with a knowledge of advanced composite materials including materials and processes, manufacturing, and structural analysis and design.

The array of courses is structured to provide extensive information about advanced composite material technologies, analyses associated with composite materials, and processing of composite materials.

Program prerequisites:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 555</td>
<td>Differential Equations I</td>
<td>3</td>
</tr>
<tr>
<td>AE 333</td>
<td>Mechanics of Materials</td>
<td>3</td>
</tr>
<tr>
<td>ME 250</td>
<td>Materials Engineering</td>
<td>3</td>
</tr>
</tbody>
</table>

This program requires satisfactory completion of the following courses (a total of 12 credit hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME 672</td>
<td>Manufacturing of Composites</td>
<td>3</td>

<tbody>
<tr>
<td>AE 853</td>
<td>Advanced Mechanics of Laminated Composites</td>
<td>3</td>
</tr>
</tbody>
</table>

Graduate level directed studies or special topics course in a composites related area approved by the COE Advanced Composites Committee

Total Credit Hours: 12

Students seeking this certificate must be admitted to the Graduate School in either a graduate degree program or in a nondegree, Category A status. All Graduate School policies relative to admissions apply. International students will not be issued an I-20 for pursuing a certificate program only, but they may obtain a certificate while concurrently pursuing a graduate degree.

Students pursuing a graduate certificate must submit a plan of study request to complete the certificate. Students may apply certificate coursework toward a degree program.

A cumulative grade point average of 3.000 must be maintained for all courses comprising the certificate program with no grades below C.

Certificate in Engineering Education

The College of Education, in conjunction with the College of Engineering, offers the graduate certificate in engineering education. The graduate certificate in engineering education is designed to:

1. Provide engineering graduate students with knowledge of contemporary learning theories that can be applied to university-level instruction;
2. Provide engineering graduate students with knowledge and skills in classroom testing and program evaluation;
3. Provide engineering graduate students with knowledge of pedagogical skills that can be applied to university-level instruction;
4. Provide engineering graduate students with the skills to apply knowledge of learning theory, pedagogical theory and measurement theory in an authentic university setting.

This certificate program provides joint mentorship from College of Education and College of Engineering faculty members. Students who plan to apply for university teaching positions after graduation need to be competitive in a market that demands good teaching as well as good research. The engineering education certificate will give WSU graduates a competitive edge.

Admission Requirements

Students seeking this graduate certificate program must be Wichita State University engineering graduate students in good standing either in a degree-bound program or in a nondegree, Category A status. Students should contact the Graduate School to determine if they need to apply for admission to this status, or need to reactivate their enrollment file. Students who have not completed graduate coursework at Wichita State University will need to apply for admission to degree status or nondegree, Category A status in an appropriate area of engineering, by submitting an application and application fee to the Graduate School. An official transcript from each school attended must be sent directly to the Graduate School from the institution issuing the transcript, or must be submitted to the Graduate School office in envelopes sealed by the issuing institution, if issued to student.

Program Requirements

The following courses are required for completion of this certificate:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CESP 820</td>
<td>Learning Theory &amp; Instruction (spring)</td>
<td>3</td>
</tr>
<tr>
<td>CESP 811</td>
<td>Principles of Measurement and Program Evaluation (spring)</td>
<td>3</td>
</tr>
<tr>
<td>CI 816</td>
<td>Advanced Methods: Developing Critical and Creative Thought (spring)</td>
<td>3</td>
</tr>
<tr>
<td>CI 816A</td>
<td>Internship: Developing Critical and Creative Thought (fall)</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credit Hours: 12

Completion Requirements

A cumulative graduate GPA of 3.000 for all courses comprising the certificate program is required. No grades below a C (2.000) are allowed in certificate program courses.

Completion process:

1. Students must notify the program area, in writing, of intent to complete the certificate.
2. In the semester the certificate requirements are met students must:
   a. With graduate advisor, prepare and submit to the Graduate School a plan of study for the certificate.
   b. Submit to the Graduate School an application for the certificate along with a $15 filing fee.

Deadlines are no later than the 20th day of fall or spring semester, or the 10th day of a summer term.

Aerospace Engineering

The department of aerospace engineering offers programs leading to Master of Science (MS) and Doctor of Philosophy (PhD) degrees. Faculty research provides valuable educational opportunities for graduate students. Current research topics include acoustics, aeroelasticity, aerothermodynamics, aircraft dynamic loads, aircraft flight dynamics, aircraft icing, airfoil design and rotor aerodynamics, artificial neural networks, composite materials, computational fluid dynamics, computational solid mechanics, continuum damage...
and fracture mechanics, damage tolerance, design, experimental aerodynamics, finite element analysis, flight dynamics and control, flight mechanics, hypersonics, intelligent control, laser velocimetry, solid mechanics, structural dynamics, and theoretical and applied aerodynamics.

The department’s research and instructional facilities are among the finest in the nation. They include: an astronautics lab; four wind tunnels; a water tunnel; a flight simulation lab; a structural testing lab; a small-aircraft prototype lab; a propulsion lab; and a controls lab. Graduate students have opportunities to use the equipment in all laboratories for their research projects. Students also may use the research facilities in the university’s National Institute for Aviation Research, including a composite materials lab and a crash dynamics lab. Computer facilities for students include mainframe terminals, high performance workstations, and various personal computers.

The department’s programs are enhanced by Wichita’s aviation heritage and the presence of major aerospace companies in the city, including Airbus, Bombardier Aerospace, Spirit AeroSystems, and Textron Aviation (Beechcraft and Cessna).

Graduate coursework is scheduled so that engineers employed in the local industry may conveniently pursue graduate degrees.

**Programs in Aerospace Engineering**
- MS in Aerospace Engineering (p. 108)
- PhD in Aerospace Engineering (p. 108)

**Courses in Aerospace Engineering**
- Aerospace Engineering (AE) (p. 203)

*Note:* All graduate courses must be approved in advance of enrollment by a student’s graduate advisor.

**MS in Aerospace Engineering**
Courses of study leading to the MS degree are available with specialization in any of the following four fields:
- Aerodynamics and fluid mechanics;
- Structures and solid mechanics;
- Flight dynamics and control; and
- Multidisciplinary analysis and design.

**Program Requirements**
Students must complete the following requirements:

**AE Core Options**
Select one of the following groups of core classes based on student’s chosen specialty

<table>
<thead>
<tr>
<th>Aerodynamics</th>
<th>Intermediate Aerodynamics</th>
</tr>
</thead>
<tbody>
<tr>
<td>AE 711</td>
<td>AE 716</td>
</tr>
<tr>
<td>AE 812</td>
<td>AeroFluids</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Structures</th>
<th>Finite Element Analysis of Structures I</th>
</tr>

<td>AE 777</td>
<td>Vibration Analysis</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Flight Dynamics and Controls</th>
<th>Modern Flight Control System Design I</th>
</tr>
</thead>
<tbody>
<tr>
<td>AE 707</td>
<td>AE 714</td>
</tr>
</tbody>
</table>

Total Credit Hours 30-33

1 Other graduate-level courses may be substituted for any of these nine courses that have been taken as a part of the undergraduate program

2 The coursework option exam is offered three times a year. Contact the MS program coordinator to confirm scheduled dates and to register to take the exam (at least 30-days prior to scheduled exam date).

See College of Engineering (p. 105) for requirement details.

**Graduate Courses**
All graduate courses must be approved in advance of enrollment by a student’s graduate advisor.

**PhD in Aerospace Engineering**

**Students Admitted with a Master of Science**
Courses of study leading to the Doctor of Philosophy (PhD) degree are available with specializations in
- aerodynamics and fluid mechanics;
- structures and solid mechanics;
- flight dynamics and control; and
- multidisciplinary analysis and design.

**Program Requirements**
The plan of study must include 60 credit hours of coursework, including courses from the MS degree, and the following:

Select one of the following major areas

<table>
<thead>
<tr>
<th>Aerodynamics/Fluid Mechanics</th>
<th>Intermediate Aerodynamics</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

Total Credit Hours 30-33
Qualifying Examination:
1. The qualifying exam is intended to reinforce and link pertinent high-level fundamentals. Upon passing the qualifying examination, a student is known as an aspirant for the PhD.
2. The exam, which covers major field core courses, is offered three times annually and may not be attempted more than twice.
3. The current guidelines require passing the qualifying exam with an 80 percent average with no single portion below 70 percent.
4. Students who fail to take the exam within three semesters (one year) from first enrollment, lose an attempt. Students failing to pass the exam within four semesters from first enrollment, are dismissed from the program.
5. Students who are dismissed from the doctoral program will be allowed to use the course credit hours completed toward a master's degree in aerospace engineering. However, the student must fulfill the master's thesis or project requirement.
6. A student who was dismissed from the AE doctoral program, but went on to successfully complete a master's degree in aerospace engineering, will not be allowed to enroll in the AE doctoral program again in the future.

Time Limits and Residency Requirement:
From the time the student starts to enroll in the program, no more than nine years may elapse until all requirements for the degree have been completed.

Other Program Requirements:
All other program requirements are the same as those for the existing doctoral program (admission following the completion of a master's degree).

Biomedical Engineering
Biomedical engineering is a discipline that uses engineering expertise to analyze and solve problems in biology and medicine, providing an overall enhancement of health care. New and innovative solutions to today's health challenges increasingly requires advanced, in-depth study that graduate education can provide.

The Master of Science in biomedical engineering combines engineering, science and health, and entrepreneurship as part of the curriculum as well as enhancing interdisciplinary research.

The Master of Science in biomedical engineering at Wichita State has unique concentration areas of biocomputational modeling and devices, and innovation and translational biomedical engineering.

Programs in Biomedical Engineering
• Master of Science in biomedical engineering (p. 109)

Courses in Biomedical Engineering
• Biomedical Engineering (BME) (p. 221)

MS in Biomedical Engineering
Admission
The minimum requirements for admission to the Master of Science in biomedical engineering include:

• A bachelor's degree in a discipline relevant to BME;
• Transcript from each institution attended;
• Minimum undergraduate grade point average (GPA) of 3.000;
• Statement of purpose including a section on research interests;
• Graduate Record Examination scores;
• Three letters of recommendation; and
• Acceptable, official score on the TOEFL, IELTS, or PTE-Academic as proof of English proficiency.

1 Applicants may request a waiver of some of the above requirements (e.g., undergraduate GPA less than 3.000, bachelor's degree not relevant to biomedical engineering, etc.) for admission if sufficient evidence is provided to the BME graduate admissions committee for review.

Prerequisite Courses
Students entering the biomedical engineering MS program are expected to have already completed the following courses or their equivalents:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AE 707</td>
<td>Modern Flight Control System Design I</td>
</tr>
<tr>
<td>AE 714</td>
<td>Advanced Flight Dynamics I</td>
</tr>
<tr>
<td>AE 773</td>
<td>Intermediate Dynamics</td>
</tr>
<tr>
<td>AE 976</td>
<td>PhD Dissertation</td>
</tr>
</tbody>
</table>

See College of Engineering (p. 105) for requirement details.

Graduate Courses
All graduate courses must be approved in advance of enrollment by a student's graduate advisor.

Students Admitted with a Bachelor of Science Admission
Applicants with a Bachelor of Science degree in aerospace engineering or a closely-related field must have:

1. A minimum grade point average of 3.250/4.000 over the last two years or approximately 60 credit hours, and
2. A letter of recommendation from a faculty member in the department of aerospace engineering at Wichita State University stating that he/she would be the student's academic and research advisor.

Continuation:
For the student to remain in the program, he/she must:

1. Maintain a minimum graduate GPA of 3.250/4.000 for every semester over the first 30 credit hours. Failing to do so, the student will be transferred to the Master of Science program in the appropriate category (full standing or on probation), or dismissed from graduate standing.
2. Demonstrate active involvement in research by producing publications in national/international conferences or journals by the completion of the first 30 graduate credit hours.

Course requirements:
Complete 60 credit hours of coursework which satisfies the course breadth requirements specified in the graduate catalog.

<table>

Total Credit Hours 60
Master of Science in Computer Networking

The Master of Science in computer networking (MSCN) degree program prepares graduate students for career-oriented jobs in the rapidly growing computer networking industry, or for gaining admission to PhD programs around the world. Its curriculum is designed to ensure that students can study traditional areas of computer science as well as modern research trends in courses taught by active researchers having national and international recognition.

Master of Science in Electrical and Computer Engineering

The Master of Science in electrical and computer engineering (MSECE) is a flexible degree program for students seeking an advanced professional career in electrical or computer engineering, or gaining admission into PhD programs around the world. Students of the program have the opportunity to build a strong foundation in physical science and mathematics, while exploring key subdisciplines taught by active researchers having national and international recognition in communication and signal processing, computing systems, control systems and robotics, power and energy systems, and computer networking.

Doctor of Philosophy

The Doctor of Philosophy (PhD) in electrical engineering and computer science prepares students for conducting advanced research in several specialization areas including algorithms and software systems, communication and signal processing, computer networking, computer systems and architecture, control systems and energy and power systems. Students of this program take courses that span the breadth of this field, as well as depth in their chosen specialization areas. Under the supervision of recognized researchers, students conduct research leading to archival publications, and prepare themselves for a research-oriented career.

Facilities

Modern laboratories contain facilities for experimental work in areas of control systems, computers and digital systems, communications, energy conversion, power electronics, power quality and computer networking.

Programs in Electrical Engineering and Computer Science

- MS in Computer Networking (p. 110)
- MS in Computer Science (p. 111)
- MS in Electrical and Computer Engineering (p. 111)
- PhD in Electrical Engineering and Computer Science (p. 112)

Certificates in Electrical Engineering and Computer Science

- Certificate in Information Assurance and Cybersecurity (p. 112)

Courses in Electrical Engineering and Cybersecurity

- Computer Science (CS) (p. 253)
- Electrical Engineering (EE) (p. 265)

MS in Computer Networking

The program admits students with a bachelor’s degree in computer science, computer engineering, electrical engineering, or an area related to information technology. Students from other areas with at least one year of university-level engineering mathematics may be admitted with an extra requirement to complete some undergraduate background deficiency courses prescribed at the time of admission.
To be considered for admission to the program, a student must have earned a GPA of at least 3.000 (or equivalent score from another country) in the bachelor’s degree. Students whose bachelor’s degree is from an institution outside the U.S. are required to submit official scores of the GRE General Test along with the admission application.

**Program Requirements**

**Major Area Courses**
Each MSCN student must take at least 18 credit hours of major area courses that are listed on the EECS department’s website. Courses taken from this group must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 736</td>
<td>Data Communication Networks</td>
</tr>
<tr>
<td>CS 721 (or CS 731)</td>
<td>Advanced Algorithms and Analysis Mathematical Foundations for Computer Networking</td>
</tr>
</tbody>
</table>

At least 12 credit hours of 800-level or higher courses (including thesis or project, if any)

At least 3 credit hours of courses with a research writing and presentation component

**Electives**
Select up to 12 credit hours of 600-level or higher courses other than the major area courses may be taken by a student including, at most, 6 credit hours of courses outside the department, approved by the student’s advisor.

**Graduating Options**

**Thesis Option**
Select at least 30 credit hours which must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 892</td>
<td>Thesis (Select 6 credit hours)</td>
</tr>
</tbody>
</table>

Total Credit Hours 30

**Project Option**
Select at least 33 credit hours which must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 891</td>
<td>Project (Select 3 credit hours)</td>
</tr>
</tbody>
</table>

Total Credit Hours 33

**Coursework Option**
Select at least 36 credit hours

Total Credit Hours 36

**MS in Computer Science**

The program admits students with a bachelor’s degree in computer science, computer engineering, or a related area. Students from other areas with at least one year of university-level engineering mathematics may be admitted with an extra requirement to complete some undergraduate background deficiency courses prescribed at the time of admission.

To be considered for admission to the program, a student must have earned a GPA of at least 3.000 (or an equivalent score from another country) in the bachelor’s degree. Students whose bachelor’s degree is from an institution outside the U.S. are required to submit official scores of the GRE General Test along with the admission application.

**Program Requirements**

**Major Area Courses**
Each MSCS student must take at least 18 credit hours of major area courses that are listed on the EECS department’s website. Courses taken from this group must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 721</td>
<td>Advanced Algorithms and Analysis</td>
</tr>
</tbody>
</table>

The Master of Science in Electrical and Computer Engineering is designed to provide in-depth specialization in a particular area in electrical or computer engineering. Areas of specialization offered by the program are communication and signal processing, computing systems, control systems and robotics, and power and energy systems. Students choose their area of specialization in consultation with their advisor.

The program admits students with a bachelor’s degree in electrical engineering, computer engineering, or a related area. Students from other areas with at least one year of university-level engineering mathematics may be admitted with an extra requirement to complete some undergraduate background deficiency courses prescribed at the time of admission.

To be considered for admission to the program, a student must have earned a GPA of at least 3.000 (or an equivalent score from another country) in the bachelor's degree. Students whose bachelor’s degree is from an institution outside the U.S. are required to submit official scores of the GRE General Test along with the admission application.

**Program Requirements**

**Major Area Courses**
Each MSECE student chooses a major specialization area. Major areas in the department are communication and signal processing, computing systems, control systems and robotics, and power and energy systems. Current courses in each of these areas are listed on the department’s website.

The number of courses taken by the student in the major and minor areas depends upon the graduating option chosen. A limited number of electives may also be taken with approval of the student’s advisor.
Graduating Options

Thesis Option
Select at least 30 credit hours at the graduate level, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least 9 credit hours of courses from a major area, of which at least 3 credit hours must be numbered at 800-level or higher</td>
<td>9</td>

<tr>
<td>EE 878 Master's Directed Project (Select at least 3 credit hours)</td>
<td>33</td>
</tr>
</tbody>
</table>

Total Credit Hours 33

Coursework Option
Select at least 36 credit hours at the graduate level, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least 12 credit hours of courses from a major area, of which at least 6 credit hours must be numbered at 800-level or higher, and at least 3 credit hours must be courses with a research writing and presentation component</td>
<td>12</td>
</tr>
<tr>
<td>At least 6 credit hours of courses from a minor area, of which at least 3 credit hours must be numbered at 800-level or higher (Any of the major areas can also be chosen as a minor area. In addition, computer networking can be a minor area. Current courses in each of these areas are listed on the department’s website)</td>
<td>6</td>
</tr>
<tr>
<td>At least 27 credit hours of courses should be a combination chosen from the MSECE major and minor course lists</td>
<td>36</td>
</tr>
</tbody>
</table>

Total Credit Hours 36

PhD in Electrical Engineering and Computer Science

Admission into the PhD EECS program requires the following:

1. A completed bachelor’s or master’s degree, with a grade point average of at least 3.250 in electrical engineering, computer science, or a related field.
2. Official GRE General (Aptitude) test scores.
3. Evidence of ability to carry out independent research and present it in written English is highly desirable.
4. Two letters of recommendation and a statement of purpose are encouraged.

Each applicant is evaluated individually.

In addition, applicants with a bachelor’s degree will only be admitted if an EECS faculty member judges them as exceptional, and is willing to be their PhD advisor from the beginning of the program.

Program Requirements

The PhD EECS program requires 84 credit hours of postbachelor’s courses. These include 30 credit hours of PhD dissertation for students admitted directly after a bachelor’s, or 24 credit hours of PhD dissertation for students admitted after a completed master’s. The remaining credit hours must contain the following:

Transfer Work
Students may transfer, toward the required 84 credit hours, up to 36 credit hours of courses taken previously as a graduate student at a regionally-accredited institution (or equivalent international institution).

Coursework

The postbachelor's nondissertation coursework of all PhD students must contain the following:

- At least 15 credit hours of courses in the student’s chosen major area of specialization. Currently available major areas are:
  - algorithms and software systems
  - communication and signal processing
  - computer networking
  - control systems
  - energy and power systems

At least 6 credit hours of courses in the student’s chosen minor area of specialization

At least 6 credit hours of courses in mathematics or statistics

Dissertation
EE 976 PhD Dissertation (30 credit hours for students admitted directly after a bachelor’s, or 24 credit hours for students admitted after a completed master’s)

Examinations

PhD students must also pass

- comprehensive examinations in their major and minor areas
- the dissertation approval examination
- the final dissertation examination

Details of these exams are at the beginning of the College of Engineering (p. 105) section of the Graduate Catalog.

At least 60 percent of all credit hours, including dissertation, taken as a PhD student must be at the 800-level or above.

Certificate in Information Assurance and Cybersecurity

The graduate certificate in information assurance and cybersecurity is a university-issued graduate certificate. It is designed for information technology professionals and graduate students enrolled in related fields who are wishing to gain training in this focused topic. Students completing this certificate will have a strong understanding of the fundamentals of information assurance and cybersecurity as well as an in-depth knowledge in critical and upcoming areas such as security and privacy in network and internet systems, cyber-physical systems and critical infrastructure, Internet-of-Things and software systems and cloud computing.

Students seeking this certificate must be admitted to the Graduate School in one of the degree programs offered by the electrical engineering and computer science department or in nondegree Category A status. All Graduate School policies relative to admissions apply.

Students pursuing a graduate certificate must file a plan of study for the certificate program with the graduate coordinator before half of the required hours are completed. Students may apply certificate coursework toward a degree program.

The certificate requires the completion of 12 credit hours from a selected list of courses.
A cumulative graduate grade point average of at least 3.000 must be maintained for all courses comprising the certificate program and no grades below C.

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 736</td>
<td>Data Communication Networks</td>
<td>3</td>
</tr>
<tr>
<td>CS 766</td>
<td>Information Assurance and Security</td>
<td>3</td>
</tr>
<tr>
<td>CS 767</td>
<td>Foundations of Network Security</td>
<td>3</td>
</tr>
</tbody>
</table>

With the help of these required courses, students will develop a strong and sound foundation of current data and network systems, security and privacy challenges in these systems, and fundamental cryptographic and cybersecurity techniques to overcome these challenges.

**Elective**

Select one of the elective courses listed on the EECS department website. Electives allow students to explore information assurance and security challenges in upcoming and modern networking, hardware and software systems.

**Total Credit Hours** 12

Students completing the certificate program will receive an appropriately worded certificate from the Graduate School, and notation will be made on the student's transcript when the certificate has been awarded.

**Industrial, Systems, and Manufacturing Engineering**

The Department of Industrial, Systems, and Manufacturing Engineering (ISME) at WSU is committed to instruction and research in design, analysis, and operation of manufacturing and other integrated systems of people, material, equipment and capital. The ISME department prepares students to be life-long learners and global citizens with successful careers in design, research, improvement, and management of systems in manufacturing and service organizations. The graduate programs are directed toward both full-time and part-time students with a special emphasis on providing training and experience in performing independent research on topics with theoretical as well as applied interest. Students are encouraged to conduct research or take courses on topics that overlap several disciplines.

The ISME department offers three graduate degree programs and four certificate programs. The ISME department offers Master of Engineering Management (MEM), Master of Science, and Doctor of Philosophy degree programs in industrial engineering (MSIE and PhDIE, respectively). The concentrations in the ISME graduate programs are operations research, systems, production and supply chain analytics, quality and reliability, manufacturing engineering and human systems engineering.

The ISME department has certificate programs in systems engineering and management, lean systems, foundations of six sigma and quality improvement, and enterprise systems and supply chain management (offered jointly with the W. Frank Barton School of Business).

**Facilities**

The following facilities used in teaching and research are available for graduate students:

**Cessna Manufacturing Laboratory**

Supports all courses offered in the areas of manufacturing engineering, tool design, advanced and nontraditional machining, composite machining, and computer-aided manufacturing. The lab is also used by other departments, mainly the ME department, for its educational and research needs. The Mini Baja team makes extensive use of this lab which also supports multi-disciplinary courses and senior design projects.

**Reliability and Maintenance Engineering Laboratory**

Provides students with hands-on experiences in modeling accelerated life testing and degradation testing, optimal design of testing plans, robust reliability design, system reliability optimization, condition-based maintenance and engineering risk assessment. To carry out these teaching-related activities, the lab hosts accelerated life/degradation testing equipment and several test beds for CBM.

**Human Performance and Design Laboratory**

Supports teaching and research in fields related to industrial ergonomics. CAD/Systems Laboratory teaching lab supports a number of courses including engineering graphics, systems simulation and neural networks. The lab is also used on a regular basis by the ME and other departments to support a number of courses.

**Advanced Manufacturing Process Lab**

Focuses on research in machining, sheet metal forming, and supports manufacturing engineering courses.

**Laboratory for Sustainable Engineered Systems**

Promotes the advancement of knowledge, understanding, and education of environmentally sustainable engineered systems in health care and the environment, life cycle analysis, green manufacturing and production systems. The lab conducts research in energy efficiency, health care and the environment, life cycle analysis, green manufacturing and sustainability.

**Health Systems Engineering Laboratory**

Provides resources and expertise for the design, analysis, and improvement of health care systems, and supports teaching and research in health care analytics, operations, quality and risk management, and medical decision making.

**Curriculum and Research Concentrations**

The teaching and research concentrations in ISME are clustered around the following six areas.

**Operations Research**: modeling and analysis of complex systems in manufacturing and service systems, optimization theory and methods, multi-criteria decision making, stochastic systems.

**Systems**: management of engineering enterprises, design and analysis of complex systems, decision analysis, application of intelligent systems and simulation in manufacturing, and activity–based costing.

**Production and Supply Chain Analytics**: design and control of manufacturing systems, facilities planning, supply chain management, scheduling, analytics applications.

**Quality and Reliability**: design of experiments, Total quality management, quality control, prognostics, risk management, data driven analysis, big data.

**Manufacturing Engineering**: manufacturing processes, CAD/CAM/ CIM systems, measurement/inspection, GD&T, forming, composites manufacturing, and free form surfaces manufacturing.

**Human Systems Engineering**: emphases include industrial ergonomics, biomechanics, human-machine systems, occupational safety and other industrial hygiene issues, and ergonomics and human factors issues in aviation/space systems.
Master of Science in Industrial Engineering
The Master of Science in industrial engineering (MSIE) degree enhances the skills of degreed engineers by providing advanced knowledge and skills that are needed to design, model, analyze and manage modern complex systems in order to increase the effectiveness of manufacturing and service sector organizations. Students have opportunities to enhance their knowledge on technical skills such as optimization, production planning, quality, supply chain management, simulation, analytics, reliability, ergonomics, systems engineering, manufacturing engineering, biomedical engineering, and also on nontechnical skills required for success in their careers. Recent graduates have obtained positions in manufacturing, services and consulting companies.

Master of Engineering Management
The Master in Engineering Management (MEM) program educates engineering, science and business graduates in the skills and knowledge to increase the effectiveness of manufacturing and service sector organizations in planning, decision making, and complex problem solving to increase the effectiveness of manufacturing and service sector organizations. Students should consider the MEM program if they find that they need to use (or develop) skills in decision making and management of teams, projects and organizations. The MEM program is structured for practicing technical professionals. Engineering management is for professionals who are interested in becoming managers while remaining engineers.

Doctor of Philosophy
The PhD in Industrial Engineering (PhDIE) program trains engineers to perform independent research and educates in advanced knowledge in the concentrations offered by the ISME program. Recent graduates have obtained positions in academic institutions, manufacturing, services, and consulting companies.

Certificate Programs
The ISME department offers graduate certificate programs in enterprise systems & supply chain management, foundations of six sigma & quality improvement, lean systems, and systems engineering & management. Students seeking any of these certificates must be admitted to the Graduate School:

1. In one of the degree programs offered by the department, or
2. In nondegree, Category A status.

All Graduate School policies relative to admissions apply. International students will not be issued an I-20 for pursuing a certificate program only. They may obtain a certificate only while concurrently pursuing a graduate degree.

Students pursuing a graduate certificate must notify the program coordinator (in a written memo) that they wish to complete the certificate. This notification must occur before half of the required hours are completed. Via the submitted plan of study, requests to complete the certificate are reviewed by the program faculty and the dean of the Graduate School.

Students may apply certificate coursework toward a degree program. A cumulative graduate grade point average of at least 3.000 must be maintained for all courses comprising the certificate program with no grades below C.

Programs in Industrial and Manufacturing Engineering
- MS in Industrial Engineering (p. 114)
- MEM - Master of Engineering Management (p. 115)
- PhD in Industrial Engineering (p. 116)
- Certificate in Enterprise Systems and Supply Chain Management (p. 117)
- Certificate in Foundations of Six Sigma and Quality Improvement (p. 117)
- Certificate in Lean Systems (p. 117)
- Certificate in Systems Engineering and Management (p. 117)

Courses in Industrial and Manufacturing Engineering
- Industrial and Manufacturing Engineering (IME) (p. 293)

Note: For all graduate programs in ISME, some IME courses may require programming skills as a prerequisite, and some IME courses may require Linear Algebra or Calculus III as a prerequisite.

MS in Industrial Engineering
In order to be admitted in the MSIE program, applicants must:

1. Possess an undergraduate degree in engineering, science, business or other related discipline;
2. Have satisfactorily completed: MATH 243; and IME 255;
3. Have a minimum GPA of 3.000, on a 4.000 scale. (Students with a lower GPA may be considered only for probationary or nondegree admission. In addition,
4. Applicants whose native language is not English must submit official, acceptable scores for either the TOEFL, the Academic Module of the IELTS examination, or the PTE-Academic test. Please visit the Graduate School website (http://wichita.edu/gradschool) to check English proficiency requirements; and
5. Department prefers and strongly encourages the submission of GRE scores.

Program Requirements
Please note that:

- Some of the IME courses may require programming skills as a prerequisite.
- Some of the IME courses may require Linear Algebra or Calculus III as a prerequisite.
- A student must select a concentration. The concentrations in the ISME graduate program are:
  - Operations Research
  - Systems
  - Production and Supply Chain Analytics
  - Quality and Reliability
  - Manufacturing Engineering
  - Human Systems Engineering
- Course distribution:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>IME 724</td>
<td>Statistical Methods for Engineers</td>
<td>3</td>

</tbody>
</table>
Additional Courses
Minimum 15 credit hours distributed as follows:  
Select one concentration area and take at least 9 credit hours from this concentration area
Select at least 3 credit hours from each of two other concentrations
Technical Electives 6
Select no more than 6 credit hours from other departments
Total Credit Hours 25

- Students must select one of the following options for completion of MSIE degree: All Coursework, Directed Project, or Thesis
- A plan of study should be submitted during the first semester of enrollment and at least 60 percent of credit hours in a plan of study must be 700 or higher level WSU courses. Students may take at most three 500- or 600-level courses (9 credit hours);
- The professional and scholarly integrity training requirement must be completed, preferably during the first semester of the program.

Options

Thesis Option
Select a minimum of 24 credit hours of coursework 24
Select a minimum of 6 credit hours of thesis 6
Total Credit Hours 30

Directed Project Option
Select a minimum of 30 credit hours of coursework 30
Select 3 credit hours of directed project 3
Total Credit Hours 33

All Coursework Option
Select a minimum of 33 hours of coursework and receive an external certification, or select a minimum of 36 hours of coursework
Total Credit Hours 33-36

Details of the 33-credit-hour All Coursework MSIE option with external certification:

Terminal activity for the all coursework option can be satisfied by receiving any of the following external certificates:

- Any of the following ASQ certifications:
  - Certified Quality Engineer-CQE
  - Reliability Engineer-CRE
  - Six Sigma Black Belt-CSSBB
  - Six Sigma Green Belt-CSSGB
  - Software Quality Engineer-CSQE
- Any of the following modules or certifications from APICS:
  - One module from the Certified Production and Inventory Management
    - Basics of Supply Chain Management
    - Master Planning of Resources
    - Detailed Scheduling and Planning
    - Execution and Control of Operations
    - Strategic Management of Resources
    - Certified Supply Chain Professional
  - Any of the SME certifications:
    - Certified Manufacturing Engineering (CMfgE) Certification
    - Lean Certification
    - Six Sigma Certification

Students need approval of the graduate coordinator for any other professional certifications not listed above. Note that certification resulting from completing any training module/online class does not qualify as an external certification.

MEM - Master of Engineering Management

To be admitted to the MEM program, applicants must:

1. Possess an undergraduate degree in engineering, science, business or other related discipline;
2. Have satisfactorily completed: MATH 243; and IME 255;
3. Have a minimum GPA of 3.000, on a 4.000 scale. (Students with a lower GPA may be considered only for probationary or nondegree admission. In addition,
4. Applicants whose native language is not English must submit official, acceptable scores for either the TOEFL, the Academic Module of the IELTS examination, or the PTE-Academic. Please visit the graduate school website (http://wichita.edu/gradschool) to check English proficiency requirements; and
5. Department prefers and strongly encourages the submission of GRE scores.

Program Requirements

Please note that:

- Some of the IME courses may require programming skills as a prerequisite.
- Some of the IME courses may require Linear Algebra or Calculus III as a prerequisite.
- Course distribution (at least 36 credit hours)

Select one course from each of the following ISME concentrations:  

- Operations Research Systems
- Production and Supply Chain Analytics
- Quality and Reliability

Electives

Select at least 11 credit hours of electives 11
Total Credit Hours 36

- A plan of study should be submitted during the first semester of enrollment and at least 60 percent of credit hours in a plan of study must be 700 or higher level WSU courses;
- The professional and scholarly integrity training requirement must be completed, preferably during the first semester of the program.
For a list of current courses in each concentration, please visit the ISME website (http://wichita.edu/ime).

**MBA to MEM Program**
Graduates of the WSU Master of Business Administration (MBA) program may be allowed to use up to 12 credit hours from the WSU MBA courses as technical electives if they enroll in the MEM program.

**MEM to MBA Program**
Graduates of the WSU MEM program may be allowed to use up to 12 credit hours from the technical electives taken from the WSU MBA courses if they enroll in the MBA program.

**PhD in Industrial Engineering Admission Requirements**
Following are the minimum requirements for admission to the PhD in Industrial Engineering program.

1. Applicants whose native language is not English must submit official, acceptable scores for either the TOEFL, the Academic Module of the IELTS examination, or the PTE-Academic test. Please visit the Graduate School website (http://wichita.edu/gradschool), to check English proficiency requirements;
2. Submission of official GRE scores is required;
3. Applicants must have (or be nearing the completion of) a master’s degree in engineering, physical science, or other related disciplines with a minimum cumulative GPA of 3.250 (on a 4.000 point scale) in all graduate coursework;
4. A statement of purpose indicating applicant’s research interests, and evidence of the ability to carry out independent research and present it in written English is highly desirable;
5. Submission of two letters of recommendation; and
6. Prerequisites:
   a. Completion of the following or equivalent courses:
      | Course   | Credit Hours |
      |----------|--------------|
      | IME 255  | Engineering Economy 3 |
      | MATH 344 | Calculus III (students deficient in this are considered for admission only in nondegree status) 3 |
   b. Programming competence in at least one of the following languages: C, C++, or Visual BASIC.

**Direct Admission of BS Graduates in Industrial Engineering**
The department of industrial, systems and manufacturing engineering (ISME) offers direct admission for truly exceptional students to its PhD program. Applicants must have consistent and exceptional credentials throughout all their academic career, including:

- An undergraduate degree in engineering, physical science, or other related discipline;
- A minimum GPA of 3.500, on a 4.000 scale, during the final 60 credit hours of coursework; and
- A letter of endorsement for admission from an ISME graduate faculty member. (This requirement reflects the willingness of an ISME graduate faculty member to serve as the research advisor for the applicant upon admission.)

All other minimum requirements for admission into the PhD in Industrial Engineering program must be met.

**Program Requirements**

1. **Course Distribution:** Total credit hours = minimum of 84 credit hours

   **Graduate Coursework:** at least 60 credit hours; 60 percent of the PhD courses beyond the master’s degree (including dissertation) must be at the 800 or higher level, and 60 percent of all graduate courses (including dissertation) must be at the 700 or higher level.

   **Dissertation**
   Select at least 24 credit hours in dissertation 24

   **Required Courses**
   - IME 724 Statistical Methods for Engineers 3
   - IME 777 IME Colloquium (three semesters) 0
   - CESP 750D Engineering Research Writing 1

   **Major**
   Select at least 21 credit hours from a list of approved courses 21

   **Minor**
   Select at least 9 credit hours from a declared minor (usually one of the concentrations in industrial engineering, computer science, psychology, or other engineering disciplines). The concentrations in the ISME graduate program are:

   - Operations Research Systems
   - Production and Supply Chain Analytics
   - Manufacturing Engineering
   - Human Systems Engineering

   **Mathematics/Statistics**
   Select at least 6 credit hours in calculus-based mathematics and/or statistics from a list of approved courses 6-9

   **Technical Electives**
   Select as many hours as necessary to satisfy the total hour requirements

   **Total Credit Hours** 64-70

2. **Advisor, Advisory Committee and Plan of Study:** Before completing 12 PhD credit hours at WSU, a student must select an advisor and an advisory committee. With the help of the advisor, the student must prepare a plan of study that needs to be approved by the advisory committee, graduate coordinator and Graduate School before the preliminary and comprehensive exam is attempted. For details of the preliminary examination, please refer to the ISME website.

3. **Preliminary examination:** Before completing 18 PhD hours at WSU, a student must pass the preliminary examination administered by the department in at most two attempts. Students who cannot pass the preliminary exam in 1.5 years will be dismissed from the PhD program.

4. **Comprehensive examinations:** Must pass the comprehensive examinations covering the major and minor areas. A student may attempt these exams no more than twice in each area. A student can enroll in dissertation hours only after passing the comprehensive exams.

5. **Dissertation approval examination:** Prepare a dissertation research proposal and pass an oral examination of the proposal. A student cannot attempt the examination more than twice. A student must be continuously enrolled in IME 976 after the dissertation approval examination.

6. **Dissertation defense:** Must pass an oral examination of the dissertation.
7. **Time limits and residency requirement:** From the time the student is admitted to the program, no more than six years may elapse until requirements for the degree have been completed.

8. **Transfer of credit from another university:** (Check the transfer rules in the Graduate Catalog.) Up to 12 credit hours may be transferred from another accredited graduate school.

9. **Professional and scholarly integrity training requirement:** Must complete professional and scholarly integrity training requirement, preferably during the first semester of the program.

Note: minor and MATH/STAT hours must add to at least 18 credit hours.

### Certificate in Enterprise Systems and Supply Chain Management

This certificate is aimed at equipping students with a knowledge of key enterprise-level information technology systems and supply chain practices used by companies around the world. The courses are structured to provide extensive conceptual and applied information about enterprise-level systems and supply chain management. The curriculum is jointly offered by the decision sciences and ITMIS faculty in the School of Business and the industrial engineering faculty in the College of Engineering. This program requires satisfactory completion of four courses from the following list of courses, at least one course from both engineering and business is required:

Select four courses from the following (at least one course must be taken in each area)

**Business Courses**
- MIS 750 Business Intelligence and Analytics
- MIS 874 Management Information Systems
- DS 755 Project Management
- DS 850 Operations Management

**Engineering Courses**
- IME 764 Systems Engineering and Analysis
- IME 767 Lean Manufacturing
- IME 783 Supply Chain Management
- IME 825 Enterprise Engineering
- IME 883 Supply Chain Analytics

### Certificate in Foundations of Six Sigma and Quality Improvement

This certificate program is primarily intended for individuals with industrial affiliation who may be interested in enhancing their skills in quality engineering and six sigma methodology. The program includes most of the Certified Six Sigma Black Belt (CSSBB) requirements outlined by the American Society for Quality (ASQ). Includes detailed coverage of applied statistical and managerial techniques most useful for process improvement, resource management and design optimization. Program prerequisite:

Select four courses from the following (a total of 12 credit hours) from among the following:

- IME 550 Operations Research I 3
- IME 553 Production Systems 12
- IME 724 Statistical Methods for Engineers 12
- IME 755 Design of Experiments 12
- IME 767 Lean Manufacturing 12
- IME 783 Supply Chain Management 12
- IME 890 Independent Study in Industrial Engineering (on Lean related topics) 12

### Certificate in Lean Systems

This program provides advanced knowledge and methodology of lean systems design, evaluation and operation for practitioners in industry. Curriculum focuses on the essential knowledge, analytical techniques, guidelines and contemporary issues in the design, evaluation and management of lean systems in industry. Program prerequisite:

Select four of the following:

- IME 555 Engineering Management 12
- IME 724 Statistical Methods for Engineers 12
- IME 740 Analysis of Decision Processes 12
- IME 764 Systems Engineering and Analysis 12
- IME 767 Lean Manufacturing 12
- IME 865 Modeling and Analysis of Discrete Systems 12

Total Credit Hours 12
**Mechanical Engineering**

The department of mechanical engineering offers courses of study leading to the Master of Science (MS) and Doctor of Philosophy (PhD) degrees. Departmental faculty have developed research activities in the following areas of specialization:

- Materials science and engineering (including composites, nano- and biocomposites, nanotechnology);
- Energy and thermal-fluid sciences (including alternative fuels and fuel safety, non-Newtonian and viscoelastic materials, biofluids and bioheat transfer, computational fluid dynamics, heat transfer) and renewable energy;
- Mechanical systems analysis and design (including vehicle crashworthiness and impact dynamics, mechanical design); and
- Robotics and control (including biosensors and biomedical devices, nonlinear control).

State of the art research laboratories within the department complement the above activities. In addition, faculty members are associates of Wichita State’s National Institute for Aviation Research (NIAR). This association makes NIAR facilities available for the research activities of these faculty and their graduate students.

Research facilities include the computational fluid dynamics laboratory (CFD lab) with a linux-based network, the crash dynamics laboratory, the shock and vibration laboratory, the computer integrated manufacturing laboratory, and the mechatronics laboratory.

Departmental facilities in the Engineering Research building:

- Nanotechnology Laboratory
- Nanocomposites and Biocomposites Laboratory
- Biodynamics Laboratory
- BioDevice Laboratory
- Acoustic Measurements and Material Characterization Laboratory
- Thermal Spray Coating Systems Laboratory
- Advanced Joining Processes and Assembly Lab
- Controls Laboratory
- Fuel and Fire Safety

The department’s programs and efforts are influenced by the concentration of technology-oriented industries in the Wichita area. Particular attention is given to scheduling coursework so that engineers employed by local industry may pursue a graduate degree in mechanical engineering.

**Programs in Mechanical Engineering**

- MS in Mechanical Engineering (p. 118)
- PhD in Mechanical Engineering (p. 121)
- Certificate in Nano Engineering (p. 122)

**Courses in Mechanical Engineering**

- Mechanical Engineering (ME) (p. 302)

**MS in Mechanical Engineering**

Courses of study leading to the MS degree are available with specialization in three of the departmental faculty research areas. Details of the MS program can be found under the College of Engineering (p. 105) heading. Additional information can be obtained at the mechanical engineering webpage (http://wichita.edu/mechanical).

**General Guidelines Toward the MSME Degree**

- Students must select one of the following options for completion of all MSME programs (traditional or any concentration): (1) all coursework, (2) directed project, or (3) thesis.
- A plan of study (indicating whether the student is selecting the traditional MSME degree option or the MSME with concentration option) should be submitted during the first semester of enrollment and at least 60 percent of the credit hours in a plan of study must be 700 or higher level WSU courses;
- The professional and scholarly integrity training requirement must be completed, preferably during the first semester of the program.
- For a list of current courses, please visit the ME website (http://wichita.edu/mechanical).

**Degree Options**

**Thesis Option**

- Select a minimum of 24 credit hours of coursework
- Select a minimum of 6 credit hours of thesis
- Total Credit Hours: 30

**Directed Project Option**

- Select a minimum of 30 credit hours of coursework
- Select 3 credit hours of directed project
- Total Credit Hours: 33

**All Coursework Option**

- Select a minimum of 33 credit hours of coursework, and completion of a terminal activity
- Total Credit Hours: 33

1 At least one of the courses should have an ‘applied learning’ component as required by WSU. Qualified courses are ME 731 Advanced Heat Exchanger Design, and ME 737 Robotics and Control.

2 Details of the 33-credit-hour all coursework option: terminal activity for the all coursework option can be satisfied by passing a comprehensive exam administered by the ME department.

**Coursework Requirements**

Students may select the traditional MSME degree option (with no specific concentration) or select the MSME degree option with any one of the three concentrations (energy & environment, advanced materials, and design).

**MSME (Traditional/no Concentration)**

Concentration Courses (variable credit hours)
Concentration courses are those courses that are specifically tailored in terms of course objectives toward a particular concentration/area. These courses are required for successful completion of an MSME degree with a specific concentration. A concentration course selected by the student towards the concentration courses option for the MSME (concentration) degree can’t be counted towards the technical electives category. Courses that could be selected toward the concentration courses option for the MSME (concentration) degree are given under specific concentration categories.

Technical Electives (variable credit hours)
Technical elective courses are student-specific courses that are 600 level or above (either within or outside of the ME department), and help students toward their research and/or enhance their quality of education. These are decided by consulting with the students’ major professor or advisor.

</tbody>
</table>

Note: Not more than 6 credit hours should be taken outside the ME department for the thesis option, and not more than 9 credit hours for the project/all course option.

Core Courses (6 credit hours)
Core courses are those courses that are required by all MSME students for a successful completion of their degree program.

ME 639 Applications of Finite Element Methods in Mechanical Engineering 3
ME 730 Modeling of Engineering Systems 3
ME 777 Mechanical Engineering Seminar 0

Technical Electives 4
Technical Electives are student-specific courses that are given under general course requirements below.

Any ME course (NOT selected in the core or under ME courses) or outside department course, 600 level or above, approved by the major professor/advisor.

General Admission Requirements
In addition to the requirements outlined by the Graduate School, the MSME program requires its applicants to:

1. Have a calculus-based engineering degree (having completed differential equations, and physics courses with lab) with a cumulative GPA equivalent of 3.000 on a 4.000 scale, based on the undergraduate study;
2. Applicants in other majors such as math, physics, or chemistry may be considered for conditional admission if they have completed calculus, including differential equations, and physics courses with lab; Undergraduate courses will be listed to correct deficiencies which will prepare them for graduate courses in mechanical engineering;
3. Department recommends the submission of GRE scores;
4. Applicants whose native language is not English must submit official, acceptable scores for either the TOEFL, or the Academic Module of the IELTS examination, or the PTE-Academic. Please visit the Graduate School website (http://wichita.edu/gradschool) to check English proficiency requirements;
5. Submit a statement of interest and two academic reference letters corroborating the applicant’s undergraduate background.
6. Depending upon the chosen concentration area, students may have to complete prerequisite coursework, as explained below.

Traditional MSME: Applicants must have a broad background in: energy systems, including courses in thermodynamics, fluid mechanics and heat transfer; in advanced materials, including courses in materials science and engineering with laboratory experience; and in mechanical systems, including courses in statics, dynamics and design of machine elements;

Energy & Environment Concentration: Applicants must have a broad background in advanced materials, including courses in materials science and engineering with laboratory experience.

Advanced Materials Concentration: Applicants must have a broad background in advanced materials, including courses in materials science and engineering with laboratory experience.

Design Concentration: Applicants must have a broad background in mechanical systems, including courses in statics; dynamics and design of machine elements.

Applicants who do not meet the listed requirements for their chosen concentration should meet with their advisor or graduate coordinator, so that they may recommend a list of undergraduate courses that will correct any deficiencies and prepare them for the chosen concentration. Prerequisite courses must be completed by the time the plan of study is to be filed.

Program Requirements
Core Courses
Core courses are those courses that are required by all MSME students for a successful completion of their degree.

| ME 866 | Advanced Fracture Mechanics | 3 |

**MSME — Design Concentration**

**Design Concentration Courses**

Select at least 9 credit hours for the thesis option. Select 12 credit hours for the project option. Select 15 credit hours for the all course option.

**Technical Electives**

Technical elective courses are student-specific courses that are 600 level or above (either within or outside of the ME department), and help students toward their research and/or enhance their quality of education. These are decided by consulting with the student's major professor or advisor.

**Technical Electives**

**Traditional Programs**

| Thesis Option | select 6 credit hours of technical electives | 6 |
| Project Option | select 9 credit hours of technical electives | 9 |
| All Course Option | select 9 credit hours of technical electives | 9 |

**Concentration Programs (all concentrations)**

| Thesis Option | select 9 credit hours of technical electives | 9 |
| Project Option | select 12 credit hours of technical electives | 12 |
| All course option | select 12 credit hours of technical electives | 12 |
If the student has already taken ME 639 and/or ME 730 in their undergraduate curriculum at Wichita State University, they need to replace the core courses with equivalent courses, decided by their advisor/graduate coordinator. Similar courses from other universities will not be considered for replacement, instead of the core courses.

Courses that are not from the list of core courses.

Not more than 6 credit hours should be taken outside the ME department for the thesis option, and not more than 9 credit hours for the project/all course option.

PhD in Mechanical Engineering
The PhD degree is usually a four-year program which requires rigorous study and a high degree of emphasis on original research. PhD graduates take up positions in academic institutions, design, services and consulting companies.

Admission
Following are the minimum requirements for admission to the PhD in mechanical engineering program.

1. Applicants whose native language is not English must submit official, acceptable scores for either the TOEFL, the Academic Module of the IELTS examination, or the PTE-Academic test. Please visit the Graduate School website (http://wichita.edu/gradschool), to check English proficiency requirements;
2. Submission of official GRE scores is required. GRE must be taken within two years of the application submission;
3. Cumulative GPA in graduate coursework. On a 4.000 scale, must have at least 3.250 in all graduate work;
4. Evidence of the ability to carry out an independent research problem and present it in written English is required;
5. Submission of two letters of recommendation and a statement of purpose indicating applicant’s research interests;
6. Prerequisites:
   a. Completion of the following or equivalent courses:
   b. ME 662 Senior Capstone Design 3
      MATH 555 Differential Equations I 3
      A natural science course sequence equivalent to that in a typical ABET undergraduate engineering program.
   c. Programming competence in at least one of the following languages: C, C++, or MATLAB and;
   d. Possession of (or nearing the completion of) a master’s degree in mechanical or closely-related engineering, or physical sciences.

Direct PhD Admission of BS Graduates in Mechanical Engineering
The mechanical engineering department offers direct admission for truly exceptional students to its PhD program. Applicants must have consistent and exceptional credentials throughout all their academic career — including:

- A program GPA equivalent of 3.500/4.000 or higher in an undergraduate mechanical or closely related engineering program.
- A minimum combined GRE score of 310 or greater in Verbal and Quantitative skills and a minimum score of 3.5 in Analytical Writing skill are required.
- Also, applicants are expected to demonstrate proven undergraduate research experience.

All other application requirements of the PhD program, such as a statement of purpose and two professional reference letters, and undergraduate prerequisites are required.

Program Requirements
1. Course Distribution: Total credit hours = minimum of 84 credit hours
   a. Graduate Coursework: at least 60 credit hours; 60 percent of the PhD courses beyond the master’s degree (including dissertation) must be at the 800 or higher level, and 60 percent of all graduate courses (including dissertation) must be at the 700 or higher level.
   b. Mathematics/Statistics
      Select at least 6 credit hours in calculus-based mathematics and/or statistics from a list of approved courses

<tbody>
<tr>
<td>ME 777</td>
<td>Mechanical Engineering Seminar</td>
<td>6-9</td>
</tr>
</tbody>
</table>

Dissertation

Select at least 24 credit hours in dissertation

Concentrations in the ME graduate program:

Mechanical Systems Design
Thermal Sciences/Energy Systems
Control Systems
Materials
Robotics

Technical Electives

Select as many hours as necessary to satisfy the total credit hour requirements

2. Advisor, Advisory Committee and Plan of Study: Before completing 12 PhD credit hours at WSU, a student must select an advisor and an advisory committee. With the help of the advisor, the student must prepare a plan of study that needs to be approved by the advisory committee, graduate coordinator and Graduate School before the preliminary and comprehensive exam is attempted. For details of the preliminary examination, please refer to the ME website.

3. Preliminary examination: Before completing four semesters, or 36 credit hours of coursework in the PhD program, a student must pass the preliminary examination administered by the department in at most two attempts. Students who cannot pass the preliminary exam in 1.5 years will be dismissed from the PhD program.

4. Comprehensive examinations: Must pass the comprehensive examinations covering the major and minor areas. A student may attempt these exams no more than twice in each area. A student can enroll in dissertation hours only after passing the comprehensive exams.

5. Dissertation approval examination: Prepare a dissertation research proposal and pass an oral examination of the proposal. A student cannot attempt the examination more than twice. A student must be continuously enrolled in ME 976 after the dissertation approval examination.

7. Time limits and residency requirement: From the time the student is admitted to the program, no more than six years may elapse until requirements for the degree have been completed.
8. Transfer of credit from another university: (Check the transfer rules in the Graduate Catalog.) Up to 12 credit hours may be transferred from another accredited graduate school.

9. Professional and scholarly integrity training requirement: Must complete professional and scholarly integrity training requirement, preferably during the first semester of the program.

1 Note: minor and MATH/STAT hours must add to at least 18 credit hours.

Certificate in Nano Engineering

The graduate certificate in nano engineering is a university-issued graduate certificate. It is designed for engineering and technology professionals and graduate students enrolled in related fields who are wishing to gain training in this focused topic. Students completing this certificate will have a strong understanding of the fundamentals of nano engineering as well as in-depth knowledge in critical and upcoming areas such as nanotechnology in computers and consumer electronic devices, drugs, automobiles, laser nano-built products, other nano-related manufacturing and new emerging nanotechnologies.

Admissions

Students seeking this certificate must be admitted to the Graduate School in one of the degree programs offered by the department or in nondegree status. All graduate school policies relative to admissions apply.

Program Requirements

Students pursuing a graduate certificate must file a plan of study for the certificate program with the graduate coordinator before half of the required hours are completed. Students may apply certificate coursework toward a degree program.

The certificate requires the completion of 12 credit hours from a selected list of courses. A cumulative grade point average of at least 3.000 must be maintained for all courses comprising the certificate program and no grades below C.

Courses in Fine Arts — General
Fine Arts (FA) (p. 279)

Note: Although there is no graduate degree in general fine arts, these courses are available for graduate study.

School of Art, Design and Creative Industries

Jeff Pulaski, director

The School of Art, Design and Creative Industries offers programs leading to the Master of Fine Arts degree. Students seeking the Master of Fine Arts degree select an emphasis in ceramics, painting, photo media, printmaking or sculpture. The specific requirements are described under the appropriate program listing, below.

Courses in the School of Art, Design and Creative Industries

- Art Education (ARTE) (p. 212)
- Art History (ARTH) (p. 213)
- Graphic Design (ARTG) (p. 212)
- Studio Art (ARTS) (p. 215)

Studio Arts

Master of Fine Arts

The Master of Fine Arts (MFA) degree, the terminal degree for studio art, is offered for qualified students planning careers as professional artists, either working independently or as artist-teachers on the college or art school level. The program offers emphases in ceramics, painting, photo media, printmaking, and sculpture.

Programs in Studio Art
- MFA in Studio Art (p. 123)

Courses in Studio Art
- Studio Art (ARTS) (p. 215)

MFA in Studio Art

Admission without deficiencies requires meeting the general requirements of the Graduate School, with the additional requirement of a 3.000 grade point average in the emphasis (ceramics, painting, photo media, printmaking or sculpture). Also required is a Bachelor of Fine Arts (BFA) degree, or the equivalent of a BFA, that includes a minimum of 12 credit hours of art history, 15 credit hours in the emphasis, and 20 credit hours of related work. Completed application materials must be received by the first Wednesday in February for admission to the following fall semester and the first Wednesday in October for the following spring semester. The Graduate Record Examination (GRE) is not a requirement for admission.

Application Procedures

Applicants apply directly to the Graduate School through the online application portal. All required materials, including the departmental materials listed below, can be uploaded through the online application portal. The Graduate School website includes step-by-step instructions (http://wichita.edu/gradapplication).

Required departmental materials to be uploaded:
- an application including a statement of intent (outlining artistic goals, professional objectives, and expectations of graduate study experience);
- an artist’s statement (outlining artistic philosophy and the nature of work presented in the portfolio);
- a resume listing education, academic and art awards and recognition, exhibitions and any relevant information;
- three original letters of recommendation (recommenders will be listed in the online portal); and
- a portfolio with 15–20 examples of recent work, labeled with title, description, size, medium and date.

Do not send materials directly to the School of Art, Design and Creative Industries. They will be returned unopened.
Prerequisites: Students who have not been accepted to the degree status for the MFA in Art may enroll in 800-level courses only with the written consent of the course faculty and graduate coordinator, and must be admitted to at least nondegree Category A status in any graduate area.

Questions regarding application procedures should be directed to:
Graduate Coordinator
School of Art, Design and Creative Industries
Wichita State University

Total Credit Hours: 45

1. The terminal project consists of an exhibition of original studio artwork, accompanied by the MFA terminal project report, which is a documentation of the candidate’s studio work (slides, video, photographs, CD), a written statement, and a resume.

### Plan of Study
In order to define a program of study for the graduate degree, students must submit the Graduate Plan of Study form leading to admission to candidacy for the degree no later than one month following the completion of 24 credit hours of graduate credit.

### Assessment Reviews and Examinations

#### First Year Review
At the end of the second semester, degree candidates must submit materials including digital portfolio, resume, proposed plan of study, and narrative self-evaluation for review by graduate faculty in the studio emphasis area. Quality of studio work, engagement with the program of study, and academic standing are assessed.

#### Mid-Program Review
At the end of the third semester, degree candidates must present materials including digital images of studio research, bibliography of relevant source material, and self-evaluation addressing issues of content, technique and contextual basis for review by graduate faculty participating in the MFA review process. Quality of studio work, scholarly engagement, academic standing, and progress toward terminal project proposal are assessed.

#### Terminal Project Proposal Review
At the end of the fourth semester or before enrollment in Terminal Project courses, degree candidates must satisfactorily complete the review with graduate faculty participating in the MFA review process. Quality of studio work, academic standing and ability to begin terminal project are assessed. If the proposal review is successful, the terminal project faculty committee is determined. In the event that the proposal is not accepted, the faculty recommends that the candidate either (1) Revise the proposal for a second and final review, or (2) The student is moved to nondegree status. Eligibility for the review and enrollment in the Terminal Project coursework requires good academic standing with an overall GPA no lower than 3.000. Any exception must be approved by a majority of graduate faculty participating in the MFA review process.
Terminal Project Progress Review. At the end of the fifth semester, degree candidates must satisfactorily complete the review with the terminal project faculty committee. Academic standing and progress toward successful completion of terminal project are assessed.

Terminal Project Review. During the semester in which the degree is to be conferred, degree candidates must satisfactorily complete two reviews with the terminal project faculty committee. At or near midterm, final plans, anticipated studio work and artist statement for the terminal project exhibition are assessed. Prior to the public presentation of the terminal project exhibition, the oral examination is conducted. Quality of the terminal project and oral examination are assessed. If the examination is successful, the committee recommends the candidate to the Graduate School for degree conferral.

Transfer of Credit
All graduate credit accepted for transfer will be at the discretion of the departmental advisor and graduate coordinator and must meet the transfer of credit conditions of the Graduate School. A maximum of 24 credit hours from prior graduate study may be considered for transfer to the MFA program. Final determination of transfer will be made after the student has successfully completed 12 credit hours at WSU and the first graduate review. A maximum of 12 credit hours can be applied to the emphasis. If a transfer of credit is allowed, it may reduce course requirements but not entrance requirements. A ruling on hours converted to the MFA program by the dean of the Graduate School, graduate coordinator, and the emphasis faculty is final. Graduate nondegree work obtained before admission to a planned degree program will not be accepted.

Required Prerequisite
Students who have not been accepted to degree standing in the MFA — studio program may enroll in 800-level courses only with written consent of the course faculty and graduate coordinator.

Policy On Retention of Student Work
Conforming to College Art Association MFA Standards Guidelines, the School of Art, Design and Creative Industries does not retain student work without compensation.

School of Music
Russell D. Widener, director
Aleksander Sternfeld-Dunn, coordinator, graduate studies

Graduate degree programs in the School of Music are designed to extend and broaden the professional competency of men and women desiring careers in music. Students may pursue graduate studies in chamber music, conducting, history-literature, music education, pedagogy, performance and composition. While providing for advanced training in the specific skills of music, these graduate programs help to cultivate the student’s capacity to think — to consider impersonally, dispassionately and without prejudice any problem related to the art of music.

Courses in the School of Music
• Music Applied (MUSA) (p. 310)
• Music Education (MUSE) (p. 314)
• Music Performance (MUSP) (p. 315)
• Musicology-Composition (MUSC) (p. 313)

Music Education
Master of Music Education
The Master of Music Education (MME) program allows for concentrations in choral music, elementary music, instrumental conducting, instrumental music (with recital option), music in special education, and voice. Conducting option may be elected (with approval) in the choral program.

Programs in Music Education
• MME - Choral Music Concentration (p. 126)
• MME - Elementary Music Concentration (p. 127)
• MME - Instrumental Conducting Concentration (p. 127)
• MME - Instrumental Music Concentration (p. 128)
• MME - Music in Special Education Concentration (p. 128)
• MME - Voice Concentration (p. 129)

Courses in Music Education
• Music Education (MUSE) (p. 314)

MME - Choral Music Concentration
Admission to the degree program in music education requires the completion of a Bachelor of Music Education (BME) degree, or the equivalent of a BME, from an accredited institution, as well as the contact information for three people to provide letters of recommendation. Students holding bachelor’s degrees in music other than the Bachelor of Music Education must satisfy public school certification requirements to qualify for full admission. Applicants without such certification are admitted on a conditional basis pending their attainment of public school teaching credentials. Approval of the MME specialization must be acquired.

Program Requirements
MME programs range from 32 to 36 hours. Core requirements and terminal project options — outlined below — are the same for each emphasis area unless specifically noted.

Required Core

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

**Electives**  
Must be approved by faculty advisor or graduate coordinator. May apply up to 5 credit hours of applied lessons. Two (2) credit hours of ensemble credit, 4 credit hours of workshops or 10 credit hours of Kodaly coursework.

1. Required terminal project for instrumental conducting concentration.
2. Recital is not a terminal project option for music in special education.
3. If a student has had this course previously at WSU, a 2-credit-hour 790 Special Topics in conducting may be substituted.

**MME - Elementary Music Concentration**

Admission to the degree program in music education requires the completion of a Bachelor of Music Education (BME) degree, or the equivalent of a BME, from an accredited institution, as well as the contact information for three people to provide letters of recommendation. Students holding bachelor’s degrees in music other than the Bachelor of Music Education must satisfy public school certification requirements to qualify for full admission. Applicants without such certification are admitted on a conditional basis pending their attainment of public school teaching credentials. Approval of the MME specialization must be acquired.

**Program Requirements**

MME programs range from 32 to 36 hours. Core requirements and terminal project options — outlined below — are the same for each emphasis area unless specifically noted.

Electives 7-9

Must be approved by faculty advisor or graduate coordinator. May apply up to 5 credit hours of applied lessons, 2 credit hours of ensemble credit, 4 credit hours of workshops or 10 credit hours of Kodaly coursework. Note: a minimum of 4 credit hours must be from MUSE 500+ courses.

Total Credit Hours 13-17

1. Required terminal project for instrumental conducting concentration.
2. Recital is not a terminal project option for music in special education.

Master of Music

The School of Music offers the following Master of Music degrees: MM in instrumental conducting, MM in history-literature, MM in opera performance, MM in piano pedagogy, MM in composition, MM in chamber music, MM in piano accompanying and MM in performance. Within the MM in performance degree, emphases in organ, piano, strings/wind/percussion, and voice are offered.

Programs leading to the Master of Music Degree:

- MM - Chamber Music Concentration (p. 130)
- MM - Instrumental Conducting Concentration (p. 130)
- MM - Opera Performance Concentration (p. 131)
- MM - Piano Accompanying Concentration (p. 131)
- MM - Piano Pedagogy Concentration (p. 132)
- MM in Performance:
  - MM in Performance (p. 132)
  - MM in Performance - Organ Emphasis (p. 133)
  - MM in Performance - Piano Emphasis (p. 133)
  - MM in Performance - Strings, Winds and Percussion Emphasis (p. 134)
  - MM in Performance - Voice Emphasis (p. 134)

MM in Performance - Voice Emphasis (p. 134)

Certificates in Music Performance

- Professional Studies in Music Performance (p. 135)

Program Requirements

The MM degree requires completion of a minimum of 32 graduate credit hours, including a thesis or recital as indicated for the respective concentration. Of these hours, 60 percent must be in courses numbered 700 or above. Each plan of study must include 12 credit hours in the MM core requirement, including:

</tr>
<tr>
<td>MUSC 892</td>
<td>Seminar in Music History post-1750</td>
</tr>
</tbody>
</table>

Additional Requirement
Select 20 additional graduate credit hours including a thesis or recital as indicated for the respective concentration

Total Credit Hours 32

Examinations
All degree candidates in the School of Music must pass an oral comprehensive examination. The oral comprehensive examination for thesis candidates includes a thesis defense.

Please view the specific area descriptions for details on the individual area requirements.

Courses in Music Applied, Music Performance
- Music Applied (MUSA) (p. 310)
- Music Performance (MUSP) (p. 315)

MM - Chamber Music Concentration
Admission to the MM program in performance requires a performance background, with a bachelor's degree in music in the performance area of specialization or the equivalent of the BM, as well as contact information for three people to provide letters of recommendation. Background deficiencies must be satisfied before admission to candidacy. All performance degree candidates must complete a satisfactory audition in their performance area of specialization.

Program Requirements
In addition to the core requirements for all MM programs, students must complete the coursework listed below. The program requires a total of 32 hours.

Core Required for all MM Concentrations
- MUSC 852 Introduction to Bibliography and Research 3
- MUSC 830 Seminar in Music Theory 3
Select 6 credit hours from the following in history and theory: 6
- MUSC 832 Topics in Music Analysis
- MUSC 891 Seminar in Music History pre-1750
- MUSC 892 Seminar in Music History post-1750

Courses Required for Concentration
- Graduate Performance Study — instruction in major medium (applied lessons) 10
- MUSA 732, Applied Music Instruction (repeatable)
- MUSA 734, Applied Music Instruction (repeatable)
- Chamber Music Ensemble — appropriate chamber ensemble 4

Other Required Coursework
- MUSC 786 Chamber Music Literature I 2
- MUSC 787 Chamber Music Literature II 2
- Graduate Recital 2
- MUSP 873 Graduate Recital 2

Total Credit Hours 32

A formal graduate recital, in lieu of a thesis, must be presented in partial fulfillment of the requirements for the MM degree with emphasis in performance. In order to receive permission to schedule a degree recital, students must satisfy the expectations of the respective performance area. Recital permission must be obtained no later than the semester before the semester in which the recital is to be performed. The student's performance repertoire and the recital program must be in accordance with the guidelines and expectations established by the respective performance area.

Students studying for the MM degree with emphasis in performance should plan to be in residence during at least one fall or spring semester, since continuous study opportunities may not exist in summer session.

MM - Instrumental Conducting Concentration
The Master of Music (MM) degree, instrumental conducting concentration, is designed to accommodate a small number of students (up to four per year) who receive extensive individualized conducting preparation with the university's resident band and orchestra conductors. Candidates have rehearsal/conducting opportunities with both large and small ensembles.

In addition to the core requirements for all MM concentrations, the program culminates in a conducting recital using university students and ensembles. Metropolitan or ad hoc ensembles may be substituted with faculty approval.

Admission
Students must have completed a baccalaureate degree in music. Contingent upon admission into the conducting program, all candidates must:

1. Complete a satisfactory conducting audition conducting a university ensemble with the approval of the appropriate conducting faculty member;
2. Complete a satisfactory audition on their primary performing instrument with the appropriate applied faculty member;
3. Submit a score analysis of a major work; and
4. Schedule a personal interview.

Program Requirements
The MM degree requires completion of a minimum of 32 graduate credit hours, including a thesis or recital as indicated for the respective concentration. Each plan of study must include 12 credit hours in the MM core requirement, including:

Core Required for all MM Concentrations
- MUSC 852 Introduction to Bibliography and Research 3
- MUSC 830 Seminar in Music Theory 3
Select 6 credit hours from the following in history and theory: 6
- MUSC 832 Topics in Music Analysis
- MUSC 891 Seminar in Music History pre-1750
- MUSC 892 Seminar in Music History post-1750

Courses Required for Concentration
- MUSC 786 Chamber Music Literature I 2
- MUSC 787 Chamber Music Literature II 2
- Graduate Recital 2
- MUSP 873 Graduate Recital 2

Other Required Coursework
Approved Electives 6
- Music or nonmusic courses 500 or above; May include applied lessons, ensembles, languages, etc. Courses must be approved by faculty advisor
- Approved Ensembles — conducting observation laboratories assigned by major advisor
- MUSP 710B Wind Ensemble (repeatable)
- MUSP 711A Orchestra (repeatable)
Students must complete the coursework listed below. The program requires a total of 33 hours.

**MM - Opera Performance Concentration**

This degree program is designed to provide specialized training in opera performance with graduates gaining more experience and training in all phases of opera production. While the MM in performance degree with an emphasis in voice provides for some experience with opera performance, the opera concentration provides greater focus with more specialized coursework, training and experience, which better prepares students who are accepted into the program to succeed in this competitive career field. The degree requires 4 more credit hours (total of 36) than the MM in performance degree with an emphasis in voice.

**Admission**

Admission to the program is based on the results of a live audition and an interview with the director of the WSU Opera Theatre and voice faculty. Prior to scheduling an audition, send the following to the director of opera and music theatre:

- Headshot and resume;
- A statement of academic and career goals; and
- A recording of three selections in various languages and styles.

When a live audition is not possible, a video audition will be considered. Students admitted to this program must show potential for future success and should have already had some experience with opera. Specific requirements include:

1. Strong operatic vocal potential;
2. Good academic background with a minimum 2.750 GPA;
3. Some stage experience, including a basic acting class; and
4. Conversational ability in at least one of the following languages: French, German or Italian.

**Program Requirements**

The Master of Music (MM) degree with a concentration in opera performance requires the completion of a minimum of 36 graduate credit hours, including a graduate performance recital, two leading roles in opera productions, and direction and assistance in two productions. Students must complete the coursework listed below:

**MM - Piano Accompanying Concentration**

The Master of Music (MM) degree with concentration in piano accompanying gives primary attention to the development of accompanying skills and artistry; secondary, but significant emphasis is placed on an acceptable demonstration of keyboard performance at the master’s degree level. The accompanying concentration includes preparation in the area of instrumental and vocal literature in relation to the need for piano accompaniment in the area of performance development.

**Admission**

Students must have completed a bachelor's degree in music in piano performance or its equivalent, as well as contact information for three people to provide letters of recommendation. All candidates must complete a satisfactory audition. Deficiencies, if noted, must be satisfied before admission to candidacy for the degree.

**Program Requirements**

The Master of Music degree with a concentration in piano accompanying requires the completion of a minimum of 33 graduate hours, including two accompanied full-hour degree recitals (one vocal and one instrumental recital in either order). In addition to the core requirements for all MM programs, students must complete the coursework listed below. The program requires a total of 33 hours.

**MM - Piano Pedagogy Concentration**

The Master of Music (MM) degree with a concentration in piano pedagogy requires the completion (minimum) of 32 graduate credit hours, including a graduate degree recital or a 2-hour professional inservice presentation project. The degree must include the following:

**Program Requirements**

- Students must complete a bachelor's degree in music in piano performance or its equivalent. All candidates must complete a satisfactory audition.
- Applicants must also submit (1) a letter of recommendation from a professor or teacher familiar with the applicants' teaching, or if the applicant has no prior teaching experience a general letter of recommendation will be accepted; and (2) a personal statement outlining the applicants' goals and objectives for study and/ or a statement of teaching philosophy. Deficiencies, if noted, must be satisfied before admission to candidacy for the degree.

**Admission**

Students must have completed a bachelor's degree in music in piano performance or its equivalent. All candidates must complete a satisfactory audition. Applicants must also submit (1) a letter of recommendation from a professor or teacher familiar with the applicants' teaching, or if the applicant has no prior teaching experience a general letter of recommendation will be accepted; and (2) a personal statement outlining the applicants' goals and objectives for study and/or a statement of teaching philosophy. Deficiencies, if noted, must be satisfied before admission to candidacy for the degree.

**Core Required for All MM Concentrations**

- MUSC 852 Introduction to Bibliography and Research 3
- MUSC 830 Seminar in Music Theory 3
- Select 6 credit hours from the following in history and theory: 6
  - MUSC 832 Topics in Music Analysis
  - MUSC 891 Seminar in Music History pre-1750
  - MUSC 892 Seminar in Music History post-1750

**Courses Required for Concentration**

- Graduate Piano Study—6 credit hours of instruction 6
  - MUSA 732P Applied Music Instruction for Majors - Piano
  - MUSA 734P Applied Music Instruction for Majors - Piano

**Support Courses**

- MUSP 760 Group Piano Practicum 2
- MUSP 761 Studio Piano Practicum 2
- MUSP 843 Piano Pedagogy Seminar 2
- MUSC 782 Piano Literature I 2
- MUSC 783 Piano Literature II 2

**Approved Electives**

Music or nonmusic courses 500 or above; may include applied lessons, ensembles, languages, etc. Courses must be approved by faculty advisor.

**Terminal Project — select one of the following**

- MUSP 873 Graduate Recital
- MUSP 874 Professional In-Service Presentation Project

Total Credit Hours 32

**MM - Performance Concentration**

**Additional Requirements for Admission**

Admission to the MM program in performance requires a performance background, with a bachelor's degree in music in the performance area of specialization or the equivalent of the BM, as well as contact information for three people to provide letters of recommendation. Background deficiencies must be satisfied before admission to candidacy. All performance degree candidates must complete a satisfactory audition in their performance area of specialization.

**Program Requirements**

A formal graduate recital, in lieu of a thesis, must be presented in partial fulfillment of the requirements for the MM degree with emphasis in performance. In order to receive permission to schedule a degree recital, students must satisfy the expectations of the respective performance area. Recital permission must be obtained no later than the semester before the semester in which the recital is to be performed. The student's performance repertoire and the recital program must be in accordance with the guidelines and expectations established by the respective performance area.

Students studying for the MM degree with emphasis in performance should plan to be in residence during at least one fall or spring semester, since continuous study opportunities may not exist in summer session.

The Master of Music Performance degree requires 32 credit hours, and offers emphases in organ, piano, strings/winds/percussion, and voice.

Certificate in Professional Studies in Music Performance

The Professional Studies in Music Performance certificate is a special one-year, 18-credit-hour, graduate level, nondegree course of study that addresses the needs of individuals preparing for performance careers. In this program, ongoing development of technique and musicianship is accomplished in a nondegree context, with emphasis placed on private lessons, practice, ensemble participation, and preparation for professional auditions or competitions.

Candidates may pursue study in the following performance areas

- Chamber Music
- Conducting
- Keyboard
- Jazz
- Strings
- Voice/Opera
- Wind/Percussion

The program’s objective is for students to focus on their primary area of study in order to obtain professional employment. The program often follows completion of a master’s degree, but can be taken following the completion of an undergraduate degree. In order to achieve the objective, an individual curriculum is designed by the advisor in collaboration with the student to meet the student’s specific needs.

Admission

Application procedures, audition repertoire, admission examinations, and admission requirements are the same as for all other graduate programs. Applicants must be admitted to the Graduate School, and have a GPA of no less than 3.000.

Musicology-Composition

Programs in Musicology-Composition

- MM - History-Literature Concentration (p. 136)
- MM - Composition Concentration (p. 135)

Courses in Musicology-Composition

- Musicology-Composition (MUSC) (p. 313)

**MM - Composition Concentration**

Admission to this area requires a bachelor's degree in music with a major in composition or the demonstrated equivalent. Background deficiencies must be satisfied before students may enroll in graduate composition courses. Applicants also must submit a portfolio including pieces — scores and live recordings (when appropriate) — demonstrating a variety of contemporary techniques, form and instrumentation. Approval for admission to candidacy is contingent upon the candidate’s demonstrated ability to complete a final project in composition.

Program Requirements

In addition to the core requirements for all MM programs, students must complete the coursework listed below. The program requires a total of 32 credit hours.

**Core Required for all MM Concentrations**

In addition, students must complete a terminal project which must consist of the following:
1. A composition of major proportions, or
2. A body of works in various media.

Composition majors may be required by the thesis committee to have a work or works performed publicly. The final thesis must be notated using computer software and submitted digitally in keeping with the procedures established through the Graduate School of Wichita State University.

**MM - History-Literature Concentration**

Admission to the Master of Music (MM) degree program, history-literature concentration, requires a Bachelor of Music or Bachelor of Arts with a major in music or the demonstrated equivalent. Applicants must submit a letter of reference from a professor or teacher familiar with their writing and a writing sample of no more than 15 pages.

**Program Requirements**

Completion of a Master of Music (MM) degree, history-literature concentration, requires a demonstration of reading proficiency in German, French, Italian or other language to be approved by an advisor. This requirement may be fulfilled by the equivalent of two semesters of language study at the undergraduate level at the discretion of the advisor. Reading proficiency tests are administered by the student’s committee or part thereof before the student schedules their thesis defense. A thesis and thesis defense are also required for the degree.

In addition to the core requirements for all MM programs, students must complete the coursework listed below. The program requires a total of 32 credit hours.

Departments

Advanced Education in General Dentistry, 316-978-8350 — Dean Elledge, program director

Communication Sciences and Disorders, 316-978-3240 — Julie Scherz, chairperson and graduate coordinator; Audiology; Anthony DiLollo, graduate coordinator, PhD; Douglas Parham, graduate coordinator, master's

Dental Hygiene, 316-978-3614 — Denise Maseman, chairperson

Medical Laboratory Sciences, 316-978-3146 — Diana Cochran-Black, chairperson

Physical Therapy, 316-978-3604 — Robert Manske, chairperson and graduate coordinator

Physician Assistant, 316-978-3011 — Kimberly Darden, interim chairperson; Gina Brown, graduate coordinator

Public Health Sciences, 316-978-3060 — Nicole Rogers, chairperson and graduate coordinator; Aging Studies

School of Nursing, 316-978-3610 — Victoria Mosack, chairperson; Alicia Huckstadt, graduate coordinator

The College of Health Professions offers graduate programs leading to:

- Master of Arts in communication sciences and disorders,
- Doctorate in communication sciences and disorders,
- Doctor of Audiology,
- Doctor of Physical Therapy,
- Master of Physician Assistant,
- Master of Arts in aging studies,
- Master of Science in Nursing, and
- Doctor of Nursing Practice.

Admission to these programs requires a bachelor’s degree and the fulfillment of requirements listed for each program elsewhere in the Graduate Catalog.

Certificates

The College of Health Professions offers certificates in health administration and public health, as well as the postdoctoral certificate in advanced education in general dentistry.

Licensing

Many state and national licensing and governing organizations will not grant a license, certification, registration or other similar document to practice a chosen profession if the applicant has been convicted of a felony, and in some cases a misdemeanor. Prospective applicants are encouraged to consult with their chosen professional governing or licensing organization for more detailed information before applying.

Clinical Learning

Learning in clinical settings is an important aspect of programs of study in the College of Health Professions. Many health care facilities require information on students engaged in clinical learning opportunities, including, but not limited to: verification of name, address and social security number, personal health information, drug and alcohol testing, criminal background checks, verification of education, listing on any registered sex offender list, listing on the U.S. Office of Inspector General’s Excluded Individual’s list, and listing on the U.S. General Services Administration’s Excluded Parties List. While the College of Health Professions will assist students in obtaining and gathering the information required by a health care facility, the cost of obtaining such information must be assumed by the student. What information will be required to permit the student to participate in a clinical setting learning experience will depend upon the respective health care facility. If a student is unable to fulfill the clinical experiences required by their program of study, the student may be unable to matriculate and/or graduate.

Essential Functions/Technical Standards

Essential functions/technical standards define the attributes that are considered necessary for students to possess in order to complete their education and training, and subsequently enter clinical practice. These essential functions/technical standards are determined to be prerequisites for entrance to, continuation in, and graduation from a student’s chosen discipline in the WSU College of Health Professions.

Students must possess aptitude, ability and skills in five areas:

1. Observation;
2. Communication;
3. Sensory and motor coordination and function;
4. Conceptualization, integration and quantification; and
5. Behavioral and social skills, ability and aptitude.

The essential functions/technical standards described by a student’s chosen discipline are critically important to the student and must be autonomously performed by the student. It should be understood that these are essential function/technical standards for minimum competence in a student’s discipline. Contact specific programs for detailed essential functions/technical standards. Reasonable accommodation of disability will be provided after the student notifies the department of the disability, and the disability has been documented by appropriate professionals.

School of Health Sciences

The School of Health Sciences offers graduate programs leading to the Master of Physician Assistant, Master of Arts in communication sciences and disorders, Master of Arts in aging studies, Doctor of Audiology, doctorate in communication sciences and disorders, and Doctor of Physical Therapy degrees. Specific requirements for each degree are described under the appropriate listing.

Courses in the School of Health Sciences

- Aging Studies (AGE) (p. 207)
- Communication Sciences and Disorders (CSD) (p. 257)
- Health Professions (HP) (p. 288)
- Health Sciences (HS) (p. 291)
- Physical Therapy (PT) (p. 337)
- Physician Assistant (PA) (p. 323)
- Public Health Sciences (PHS) (p. 329)
Communication Sciences and Disorders
Degrees and Areas of Specialization
The department of communication sciences and disorders offers courses of study leading to the following graduate degrees:

- Master of Arts (MA),
- Doctor of Audiology (AuD), and
- Doctor of Philosophy (PhD).

Academic and clinical education are provided for students who wish to become professionally qualified to work with children and adults. Instructional areas include communication sciences, speech-language pathology, and clinical and rehabilitative audiology. A graduate program culminating in a master’s degree is required for professional certification as a speech-language pathologist for work in the public schools, hospitals, clinics, rehabilitation centers or private practice. A professional doctoral degree (AuD) is required to practice as an audiologist. With an undergraduate preprofessional major, students typically can complete the master’s program in two years and the AuD in three years (including summers). The MA and AuD programs at WSU satisfy the minimum requirement for professional certification by the American Speech-Language-Hearing Association (ASHA) and for Kansas licensure, and are accredited by the Council on Academic Accreditation (CAA) of ASHA. The PhD program prepares individuals to function professionally as independent researchers, teacher-scholars in an academic setting, or as program administrators.

Minimum Grade Requirement
Admission to courses is possible with a minimum grade of C (2.000 points per credit hour) in each stated prerequisite or its judged equivalent, or with departmental consent, unless otherwise specified in the course description.

Programs in Communication Sciences and Disorders
- MA in Communication Sciences and Disorders (p. 138)
- AuD — Doctor of Audiology (p. 139)
- PhD in Communication Sciences and Disorders (p. 141)

Courses in Communication Sciences and Disorders
- Communication Sciences and Disorders (CSD) (p. 257)

MA in Communication Sciences and Disorders
Admission
Minimum requirements for application to the MA graduate program:

1. Hold a bachelor's degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor's degree are substantially equivalent to a U.S. bachelor's degree.
2. Minimum grade requirements: 2.750 overall GPA and 3.000 GPA in the last 60 semester credit hours. Receive a grade that generates at least 2.000 credit points per credit hour in all prerequisite courses.
3. Three letters of recommendation.
4. Statement of purpose.
5. Professional resume.

6. Official scores for the Graduate Record Examination (GRE) or Miller Analogies Test (MAT) taken within the last five years.
7. Applicants whose native language is not English must submit official scores for either the TOEFL, the academic module of the IELTS examination, or the PTE-Academic examination, taken with in the last two years. No waivers are allowed. Minimum acceptable scores to be considered for admission are: TOEFL - 100 Internet-based with a score of 23 or higher on the speaking portion; IELTS - an overall band score of 7.5; PTE-Academic - a score of 73.

To be considered for admission, the following steps must be completed by the published deadline:

1. Online application for admission to the WSU Graduate School, including upload of transcripts from all institutions attended.
2. Application to the Communication Sciences and Disorders Centralized Application Service (CSDCAS) including all transcripts, letters of recommendation and supporting documents.

Notes:

1. Application to the MA graduate program is competitive, which means there are more applications than positions offered each year.
2. The ability to meet the essential functions for students in the clinical speech-language pathology program is required (contact the program for more information).
3. Refer to the department’s website (http://wichita.edu/csd) for complete information.

Admission to the MA program is considered for students who have completed an undergraduate major in the area of speech, language and hearing disorders. Selected undergraduate or closely allied courses may be considered. Additionally, students with a degree from another field will be considered for admission after completion of prerequisite courses. Admission is for fall semester only. The deadline to submit a completed CSDCAS application is January 15 (11:59 p.m. EST). The Graduate School application, application fee, and transcripts are due by January 15.

Undergraduate students may request early admission to the MA program under the senior rule policy if they:

1. Meet the requirements for senior rule (p. 19) status as described in the Graduate School policies section of the Graduate Catalog;
2. Meet GPA requirements for senior rule status and have a 3.700 GPA in the last 60 credit hours;
3. Provide three letters of recommendation from CSD faculty or clinical educators. Two letters from CSD faculty and one letter from a faculty member in a related academic area is acceptable; and
4. Have a minimum MAT score of 415 or a minimum GRE score of 157 Verbal, 159 Quantitative, and 4.5 Analytical Writing.

Consult the department for an application packet. Early admission is contingent on faculty review of all application materials.

Tool Requirements
(Tool subjects may be taken at the undergraduate or graduate level, but are not counted toward the degree.)

| Research Methods (ex. PSY 311, CESP 701, HP 800) | 3 |
| Statistics (ex. PSY 301, CESP 704, PHS 804, STAT 370) | 3 |
| Total Credit Hours | 6 |
Program Requirements

The Master of Arts (MA) in communication sciences and disorders may be earned with an emphasis in speech-language pathology. This program requires students to complete 61 credit hours (thesis or nonthesis track). Prospective students with an undergraduate degree in another field should review the department website for details on prerequisite coursework (for example, undergraduate CSD courses, ASHA-required basic science courses, research methods, and statistics) and consult a CSD advisor prior to applying to the program.

A plan of study must be filed within the first year of the program. Transfer credit policies are listed in the appropriate section of the Graduate Catalog.

Successful completion of the program requires the following:

1. Satisfactory performance on all didactic and clinical evaluative measures as determined by program faculty, clinical educators and externship supervisors with at least a 3.000 GPA;
2. Satisfactory performance in completing the mentored research project; and
3. A passing score on the Praxis exam as determined by the state of Kansas.

An alternative assessment (e.g., an in-house written comprehensive examination) will be implemented if students have not passed the Praxis exam for a second time prior to meeting all other requirements for graduation.

Further, students must enroll in a clinical practicum course every semester during the master’s program to complete the necessary clinical hours for graduation via supervised practicums at the WSU Evelyn Hendren Cassat Speech-Language-Hearing Clinic, hospital, school, or other practice environment. To ensure that the placement will provide candidates the best clinical opportunities, the placement of the candidate may or may not be in the metropolitan area of Wichita. Although WSU has a number of sites established, the candidate may also independently seek placement for that experience. However, the final decision as to the suitability and location will be approved by the program faculty. A competency-based evaluation of the student’s performance will be made at regular intervals throughout the clinical experience.

Before graduation, students must have successfully completed a minimum of 400 clinical clock hours (at least 25 observation hours and at least 375 clinical hours) to satisfy requirements of the American Speech-Language-Hearing Association (ASHA) for the Certificate of Clinical Competence (CCC-SLP) and must have demonstrated clinical competency in completing those hours as determined by both in-house and external clinical supervisors. Students must also have demonstrated knowledge and skills learning outcomes in compliance with ASHA standards for certification.

Students enrolled in the department’s clinical practicum courses are required to provide proof of medical clearance (see department for details) prior to the start of the course and to renew annually. Semester clinic fees will also apply. The cost of professional liability insurance coverage (not less than $1 million per single claim/$3 million aggregate per year) is included in the program fee. Students are required to obtain a criminal background check at their own expense as part of the clinical placements. Students should consult the beginning of the College of Health Professions section of the catalog for additional requirements which may be needed to participate in clinical settings. In addition, applications for external practicum placements must be made one year in advance and are subject to departmental approval.

AuD - Doctor of Audiology

Minimum requirements for application to the AuD graduate program:

1. Hold a bachelor's degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor's degree are substantially equivalent to a U.S. bachelor's degree.
2. Minimum grade requirements: 2.750 overall GPA and 3.000 GPA in the last 60 semester credit hours. Receive a grade that generates at least 2.000 credit points per credit hour in all prerequisite courses.

3. Three letters of recommendation.

4. Statement of purpose.

5. Professional resume.

6. Official scores for the Graduate Record Examination (GRE) or Miller Analogies Test (MAT) taken within the last five years.

7. Applicants whose native language is not English must submit official scores for either the TOEFL, the academic module of the IELTS examination, or the PTE-Academic examination, taken with in the last two years. No waivers are allowed. Minimum acceptable scores to be considered for admission are: TOEFL - 100 Internet-based with a score of 23 or higher on the speaking portion; IELTS - an overall band score of 7.5; PTE-Academic - a score of 73.

8. Completion of interview with program faculty/clinical supervisors, which will include (but not be limited to) an assessment of academic potential, motivation and commitment to the profession, and interpersonal and communication skills. Not all applicants will be offered an interview.

To be considered for admission, the following steps must be completed by the published deadline:

1. Online application for admission to the WSU Graduate School, including upload of transcripts from all institutions attended.

2. Application to the Communication Sciences and Disorders Centralized Application Service (CSDCAS) including all transcripts, letters of recommendation and supporting documents.

Notes:

1. Application to the AuD graduate program is competitive, which means there are more applications than positions offered each year.

2. The ability to meet the essential functions for students in the audiology program is required (contact the program for more information).

3. Refer to the department’s website (http://wichita.edu/cs) for complete information.

Admission to the AuD program is considered for students who have completed an undergraduate major in the area of speech, language and hearing disorders. Selected undergraduate or closely allied courses may be considered. Additionally, students with a degree from another field will be considered for admission with the understanding that prerequisite coursework will be required during their first year of the program. Admission is for summer session only. The deadline to submit a completed CSDCAS application is January 15 (11:59 p.m. EST). The Graduate School application, application fee, and transcripts are due by January 15.

Program Requirements

The Doctor of Audiology (AuD) program requires a minimum of 88 credit hours of didactic and clinical courses. In addition, 13 hours of tool subjects in American Sign Language, normal development of speech and language, research methods, professional/scholarly integrity and aural rehabilitation are required. All students must enroll in a clinical practicum course each semester.

A plan of study must be filed within the first year of the program. Students must complete 60 percent of total hours at the 700 level or above and the majority of total hours (50 percent plus one hour) must be 800 level or above. Transfer hours cannot be used to satisfy the course level requirements stated above unless transfer hours are of appropriate level from Kansas Board of Regents institutions. Workshop hours may not be used to satisfy the course level requirements. Transfer credit policies are listed in the appropriate section of the Graduate Catalog.

Total Credit Hours: 18

Advancement to candidacy is contingent upon:

1. Satisfactory performance on all didactic and clinical evaluative measures throughout years one and two of the student’s AuD program as determined by program faculty, clinical educators and externship supervisors, with at least a 3.250 GPA;

2. Completion of the mentored research project with a subsequent presentation and evaluation, as reviewed by program faculty; and

3. Successful completion of comprehensive, competency-based examinations near the conclusion of years one and two. Students will be given two attempts each year to complete the comprehensive examination requirement.

Advancement to candidacy allows students to enroll in the final program requirement, the full-time residency.

Further, students must enroll in CSD 997, in consecutive semesters during the final year of the program of study to complete the necessary clinical hours for graduation. The residency involves a full-time supervised experience in a hospital, clinical or other audiology practice environment. To ensure that the placement will provide candidates the best environment for that culminating experience, the placement of the candidate may or may not be in the metropolitan area of Wichita. Although WSU has a number of sites established for the residency year, the candidate may independently seek placement for that experience. However, the final decision as to the suitability and location will be approved by the program faculty. A competency-based evaluation of the student’s performance will be made at regular intervals throughout the clinical experience.

Before graduation, students must have achieved sufficient clinical clock hours to satisfy the requirements of the American Speech-Language-Hearing Association (ASHA) for the Certificate of Clinical Competence (CCC-A) and must have demonstrated clinical competency in completing those hours as determined by both in-house and external clinical supervisors. Students must also have demonstrated knowledge and skills learning outcomes in compliance with ASHA standards for certification. A passing score on the Praxis exam as determined by the state of Kansas is required prior to graduation. An alternative assessment (e.g., written comprehensive examination) will be implemented if a student has not passed the Praxis exam for a second time prior to meeting all other requirements for candidacy and graduation.

Students enrolled in the department’s clinical practicum courses are required to provide proof of medical clearance (see department for details) prior to the start of the course and to renew annually. Semester clinic fees will also apply. The cost of professional liability insurance coverage (not less than $1 million per single claim/$3 million aggregate per year) is included in the program fee. Students are required to obtain a criminal background check at their own expense as part of the clinical placements. Students should consult the beginning of the College of Health Professions section of the catalog for additional requirements which may be needed to participate in clinical settings. In addition, applications for external practicum placements must be made one year in advance and are subject to departmental approval.

**PhD in Communication Sciences and Disorders**

Minimum requirements for application to the PhD graduate program:

1. Hold a bachelor's degree from a regionally accredited institution or a recognized institution in another country whose requirements for the bachelor's degree are substantially equivalent to a U.S. bachelor's degree.

2. Minimum grade requirements: 2.750 overall GPA and 3.500 GPA in the last 60 semester credit hours.

3. Three letters of recommendation.

4. Statement of purpose.

5. Professional resume.

6. Official scores for the Graduate Record Examination (GRE) or Miller Analogies Test (MAT) taken within the last five years.

7. Applicants whose native language is not English must submit official scores for either the TOEFL, the academic module of the IELTS examination, or the PTE-Academic examination, taken with the last two years. No waivers are allowed. Minimum acceptable scores to be considered for admission are: TOEFL - 100 Internet-based with a score of 23 or higher on the speaking portion; IELTS - an overall band score of 7.5; PTE-Academic - a score of 73.

8. Completion of interview with program faculty/clinical supervisors, which will include (but not be limited to) an assessment of academic potential, motivation and commitment to the profession, and interpersonal and communication skills. Not all applicants will be offered an interview.

To be considered for admission, please submit the application for admission to the WSU Graduate School, including official transcripts from all institutions attended, as well as the supporting documents listed above.

Admission to the CSD PhD program is restricted to those students whose abilities, experience and previous coursework indicate that they are likely to be able to complete the doctoral program successfully. It is expected that the applicant will have acquired sufficient knowledge in communication sciences and disorders to be prepared for entry into an integrated program of advanced study and research. Applications are reviewed on a continuing basis.

**Program Requirements**

The doctoral program in communication sciences and disorders requires a minimum of 65 hours beyond the master’s degree, or 95 hours beyond the bachelor’s degree, on the plan of study (including a maximum of 18 hours of dissertation). In addition, 12 credit hours of research tool courses are required. A doctoral student becomes a candidate for the degree after passing the qualifying examination, which typically is taken during the semester the plan of study requirements are completed (exclusive of dissertation hours). Doctoral candidates enroll in at least 2 dissertation hours each semester (including the semester of graduation). The final requirements for the PhD are the completion of original research, the dissertation and an oral defense.

**Physical Therapy**

**Doctor of Physical Therapy**

The program prepares individuals to enter beginning practice as physical therapists. Graduates are prepared to evaluate neuromuscular, musculoskeletal, sensorimotor, and related functions to determine the degree of muscle strength, motor development, motion, respiratory ventilation or peripheral circulatory efficiency of individuals. The physical therapist plans and implements appropriate interventions for
clients. Graduates are prepared to work in preventive health care as well as rehabilitative care. The program requires full-time study for a period of 36 consecutive months. Students enter the program in the summer semester only.

**Please contact the physical therapy graduate program office for the most recent information regarding curriculum.**

**Programs in Physical Therapy**
- Doctor of Physical Therapy (p. 142)

**Courses in Physical Therapy**
- Physical Therapy (PT) (p. 337)

**Doctor of Physical Therapy**

**Admission**

1. Bachelor’s degree from a regionally accredited institution;  
2. Minimum grade requirements: 3.000 GPA in the last 60 semester credit hours; 3.000 GPA in prerequisite courses; and 3.000 overall GPA. Receive a grade that generates at least 2,000 credit points per credit hour in all prerequisite courses;  
3. Prerequisite courses must be completed by the end of the spring semester prior to the beginning of summer courses in the curriculum:
   - biology—one semester of introductory biology with a laboratory;  
   - anatomy and physiology — minimum of 5 credit hours with laboratory;  
   - college chemistry — two semesters with laboratories;  
   - college physics — two semesters with laboratories;  
   - English composition — two semesters;  
   - exercise physiology — one semester;  
   - medical terminology — one semester hour minimum;  
   - speech — one semester;  
   - mathematics — college trigonometry or equivalent;  
   - statistics — one semester;  
   - social sciences — psychology, one introductory course and one advanced course;  
4. Math/science prerequisite coursework can be no more than 10 years old at the time of application to the DPT program. Coursework more than 10 years old will need to be repeated for a letter grade;  
5. Physical therapy clinical observation of twenty (20) hours in one or more physical therapy departments;  
6. International students must submit either an official TOEFL minimum score of 100 (Internet-based), or IELTS with an minimum overall band score of 7.5, or a PTE-Academic with a minimum score of 73; and  
7. Official scores from the General Aptitude section of the Graduate Record Examination (GRE), taken within the last five years, with verbal and quantitative sections combined scores to be greater than 290.

To be reviewed for admission, applicants should do the following:

1. Seek an application packet from the Graduate School, and review application process at http://www.ptcas.org;  
2. Submit the designated application for admission and supporting transcripts to the Graduate School; and  
3. Submit the designated application to Physical Therapist Centralized Application Service (PTCAS) by the published deadline.

Any applicant who has completed entry-level physical therapist education, regardless of degree or location of program, will not be considered for admission to the entry-level DPT program at Wichita State University.

Complete applications are reviewed when received by the department in a timely manner. Applicants will be notified of their admission status by the Graduate School. Once an applicant has been admitted, he or she will be asked to submit a $100 nonrefundable tuition deposit to reserve a space for the summer admission. Once the student enrolls, this money will be counted toward payment of tuition.

Students are advised to contact the department for any changes in the program course requirements or in prerequisite requirements. Information is also available on the department website (http://wichita.edu/pt).

**Program Requirements**

The student must maintain a 3.000 GPA as required by the Graduate School and achieve a grade that generates at least 2,000 credit points per credit hour in each of the following courses:

**Please contact the physical therapy graduate program office for the most recent information regarding curriculum.**

PT 941  PT Program Planning, Implementation and Evaluation I  1
PT 942  PT Program Planning, Implementation and Evaluation II  2
PT 943  Practice Management  2
PT 951  Evidence-Based Practice  1
PT 980  Licensure Exam Review  1

Applied Learning
Students in Doctor of Physical Therapy program are required to
complete an applied learning or research experience to graduate from
the program. The requirement can be met with successful completion of
PT 751, PT 771, PT 851, PT 871, PT 852, PT 953, PT 954, and PT 990.

Special Requirements
Students will be required to purchase uniforms and other clinical
apparel, professional liability insurance, health insurance coverage,
and specified immunizations, as well as submit evidence of an annual
physical examination while in the program. Students must also be
certified in cardiopulmonary resuscitation (CPR) prior to entering the
program, and must maintain that certification during their enrollment in the
curriculum.

Students are expected to provide their own transportation to and from
the health care facilities used for clinical experiences. During clinical
assignments outside Wichita, students may be required to pay all living and
travel expenses.

Students are referred to the Department of Physical Therapy Student
Handbook for more details on special departmental policies and
procedures.

Physician Assistant
Master of Physician Assistant
The graduate program in physician assistant studies, located in
the department of physician assistant within the College of Health
Professions at Wichita State University, is the only one of its kind in
Kansas. The program prepares graduates to practice medicine with
the supervision of a licensed physician. The functions of a physician
assistant include performing diagnostic, therapeutic, preventative and
health maintenance services in any setting in which the physician
renders care, in order to allow more effective and focused application of
the physician’s particular knowledge and skills.

The WSU department of physician assistant, accredited by the
Accreditation Review Commission on the Education of Physician
Assistants (ARC-PA), offers a 26-month (full-time, lock-step) graduate
course of study which leads to a professional Master of Physician
Assistant degree. The 93-credit-hour program is equally divided into
two parts: a didactic phase and a clinical/research phase. One class is
admitted each summer.

Professional Curriculum
The professional curriculum is divided into two phases: a didactic phase
and a clinical/research phase. Each phase lasts 13 months. The didactic
phase includes graduate coursework in the basic sciences (anatomy,
pharmacology, pathophysiology), clinical medicine, research methods
and statistics, epidemiology, behavioral medicine, ethics, preventive
medicine and community health, social and legal issues, and clinical
skills.

During the clinical/research phase of the program students complete
8 clinical rotations. Focus areas include: family medicine and primary
care, pediatrics, prenatal care and women’s health, emergency
medicine and acute care, general surgery, behavioral health and internal
medicine. The WSU PA program enjoys the support of preceptors
throughout Kansas. In keeping with the broad range of clinical
activities, students have the opportunity to experience a wide variety of
clinical rotation sites including at least two rotations in a rural location
site. All students will be assigned to clinical rotations outside of the
urban areas of Kansas and should therefore expect to spend several
months in rural areas of Kansas. Students are expected to pay for
transportation, room and board when traveling to clinical rotation sites.

Programs in Physician Assistant
• Master of Physician Assistant (p. 144)
Courses in Physician Assistant

- Physician Assistant (PA) (p. 323)

Master of Physician Assistant

Minimum requirements for application to the PA program:

1. A bachelor’s degree from a regionally accredited U.S. college or university is required prior to matriculation with additional prerequisite coursework below if not included in the bachelor’s degree. Core science prerequisite coursework more than 10 years old is subject to departmental review and in most cases applicants will be required to repeat core science prerequisite courses completed more than 10 years ago. Acceptance of foreign bachelor’s degrees is decided on an individual basis and after evaluation by a transcript evaluation service.

a. Core Science Prerequisites (must be complete at the time application is submitted)
   - chemistry (minimum 12 credit hours with lab). Recommended sequence—chemistry I, chemistry II, biochemistry
   - biology including microbiology (minimum 9 credit hours with lab). Recommended sequence biology I, biology II, microbiology
   - human anatomy and human physiology with lab (minimum 5 credit hours);

b. Prerequisites (other)
   - statistics (minimum 3 credit hours)
   - medical terminology
   - general psychology (minimum 3 credit hours) or higher level psychology

2. Recommended Courses

   a. Business coursework: accounting, finance, economics, statistics

   b. Social science coursework: history, sociology, psychology

   c. Recommended Courses

      The following courses are not required for admission, but are recommended. These and courses like these provide valuable background to prepare students for admission to the program and allow applicants to demonstrate their ability to succeed in rigorous science/medical courses similar to what they will encounter in the program.

      - pharmacology - strongly recommended
      - genetics - strongly recommended
      - pathophysiology - strongly recommended
      - biochemistry - strongly recommended
      - organic chemistry - strongly recommended
      - additional courses in anatomy and physiology beyond the required 5 hours - strongly recommended
      - human nutrition
      - epidemiology
      - gerontology
      - medical ethics
      - health care policy
      - abnormal psychology

2. Ideally, candidates should have a bachelor’s degree and all prerequisite coursework completed at the time of application. Those who have not completed all coursework can apply if outstanding coursework is within two semesters of completion, however all core science prerequisites must be completed at the time of application and only graded components will be counted toward prerequisite coursework. (Other prerequisites can be outstanding at the time of application.) Applicants whose native (first) language is not English must submit their TOEFL, IELTS or PTE-Academic score by October 1. If no TOEFL, IELTS or PTE-Academic score is received by October 1, the applicant will not be considered for admission. The bachelor’s degree and prerequisite coursework in progress must be completed before starting the program. Successful completion of degree and coursework must be verified if accepted and before acceptance is finalized. All prerequisite coursework must be completed with a C- grade or higher.

3. GPA requirements (on a 4.000 scale) apply to both the degree and core science prerequisites: 3.000.

4. Demonstrated commitment to diversity, leadership and service.

5. Completion of on-site interview with program faculty, which will include (but not be limited to) an assessment of academic potential, motivation and commitment to the PA profession, and interpersonal and communication skills. Not all applicants will be offered an interview.

6. Health care experience (direct patient care) is strongly preferred, but not required.

7. To be considered for the PA program the following three steps must be completed:

   a. Primary CASPA (national) application, including all transcripts and letters of recommendation (deadline Sept. 1);
   b. Supplemental application — if the program determines that the applicant meets minimum admission requirements (after review of the CASPA application), a supplemental application is emailed to the applicant to be returned by the assigned deadline; and
   c. University Graduate School application, including official transcripts from all institutions attended (deadline Sept. 1).

Notes:

1. The ability to meet the academic and technical standards for physician assistant students is required (contact the program for more information).

2. Application to the program is competitive, which means there are more applications than positions offered each year.

3. Refer to the department’s website (http://wichita.edu/pa) for complete information.

4. Due to the lock-step nature of the curriculum, senior rule admission is not applicable to the physician assistant program.

5. Applicants with foreign coursework must apply to the WSU Graduate School and be determined admissible prior to submitting their CASPA application.

Special Requirements

Students will be required to purchase lab coats, medical equipment, professional liability insurance and health insurance coverage. Each year while enrolled in the program, students are required to have an annual health history and physical examination (with documentation of appropriate immunizations and screening tests). Students, at their own expense, must pass a background check prior to entering the program. Clinical sites may also require students to undergo random serum or urine drug testing, as well as subsequent background checks, at the expense of the student.

Students are expected to provide their own transportation to and from the health care facilities used for clinical experiences (located throughout Kansas). During clinical assignments outside Wichita, students may be required to pay all living expenses.
Students are referred to the department of physician assistant student handbooks for more details on special departmental policies and procedures.

**Financial Assistance**

Many MPA students seek the assistance of WSU’s Office of Financial Aid in applying for loans and grants available for graduate students. In addition, the College of Health Professions awards several fellowships each academic year, and the department of physician assistant has several fellowships available to MPA students once enrolled in the program. Furthermore, there are several national scholarship programs supported by the federal government and national PA associations. Information about such programs is distributed to students during interviews.

1 PA 850 will become 1 credit hour in Spring 2019, increasing the required number of credit hours to 93.

**Applied Learning**

Students in the Master of Physician Assistant program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met with successful completion of PA 801, PA 802, PA 803, PA 804, PA 805, PA 806, PA 807, and PA 899.

**Public Health Sciences**

The department of public health sciences offers a Master of Arts in Aging Studies. A graduate certificate in public health is available for degree and nondegree seeking individuals whose primary goal is core public health training.

For the most current information or further questions, please refer to the public health sciences department website (http://wichita.edu/phs).

**Degree Programs in Public Health Sciences**

The School of Health Sciences, department of public health sciences offers the following degree programs:

- Master of Arts in Aging Studies (p. 145)
- Graduate Emphasis in Aging Studies (p. 148)

**Nondegree Programs in Public Health Sciences**

- Administrator-in-Training (AIT) Practicum Placement (p. 148)
- Graduate Certificate in Health Administration (p. 148)
- Graduate Certificate in Public Health (p. 149)

**Courses in Public Health Sciences**

- Aging Studies (AGE) (p. 207)
- Public Health Sciences (PHS) (p. 329)

**MA in Aging Studies**

Students maximize career potential by complementing their existing experience and educational background. Skill sets are diversified by a curriculum applicable to a wide range of professional settings. Students may transition a career/area of interest to an aging service position within another industry (e.g. social work, senior living, senior services, nursing home administration, fitness, nutrition, business). The aging studies curriculum incorporates a variety of perspectives from the numerous disciplines concerned with the physical, mental and social aspects of life.
The MA in aging studies can be completed 100 percent online. It comprises 30 total credit hours. Core courses comprise 15 credit hours. Additional hours are chosen within three curricular concentrations: social science, public health, and administration. Students choose from one of three study options: thesis, internship, and coursework, to complete the program. The aging studies program provides quality distance education, enabling students to earn the MA from anywhere in the state or country.

Concentrations in Aging Studies
- Administration (p. 146)
- Public Health (p. 146)
- Social Science (p. 147)

Courses in Aging Studies
- Aging Studies (AGE) (p. 207)

MA in Aging Studies - Administration

Admission
1. Admission to the Graduate School at Wichita State University;
2. A grade point average of 2.750 (4.000 system); and
3. International applicants must have a score higher than 79 on the Internet-based TOEFL examination, an overall minimum band score of 6.5 on the IELTS examination, or a score of 58 on the PTE-Academic examination.

Additional supporting documents:
1. Contact information for two professional references;
2. A one-page personal statement reflective of their desire for admittance to the aging studies program; and
3. Documentation of computer literacy including word processing, email, file attachments and Internet searches within the personal statement. Students are highly encouraged to review the information found on the Wichita State Office of Online Learning website, paying particular attention to the Introduction to Online Learning, and Computer Skills and Preparation information.

To be reviewed for admission, applicants should do the following:
1. Submit the designated application for admission and supporting transcripts to the Graduate School; and
2. Submit the additional supporting documents to the program director, by email: agingstudies@wichita.edu (preferred); or by mail:

   Aging Studies Program Director
   Wichita State University
   1845 Fairmount, Campus Box 43
   Wichita, Kansas 67260-0043

The priority application deadlines are: July 15 for fall admission; December 1 for spring admission; April 15 for summer admission. Applications are reviewed when the application and supporting documents are received by the program director. Applicants will be notified of their admission status by the Graduate School. Upon enrollment, he or she will be assessed a $50 nonrefundable acceptance fee. For additional details, please see the program website (http://wichita.edu/agingstudies).

AGE Culminating Experience

Select one of the following culminating experiences:

- Thesis: AGE 895 Thesis Research (3 credit hours)
- Internship: AGE 810 Aging Studies Practicum or AGE 660 Administrator-in-Training Long-Term Care Practicum

Coursework:

Any 3-credit-hour graduate-level course in AGE or PHS could count as an elective with advisor approval. Outside graduate level courses in SCWK may also be considered. Consult a graduate advisor for approval.

Total Credit Hours

30

Students are expected to meet with their faculty advisor and create their plan of study following the completion of 12 graduate credit hours, as discussed in the Graduate School section of the Graduate Catalog.

Applied Learning

Students in the Master of Arts in aging studies programs are required to complete an applied learning or research experience to graduate from these programs. The requirement can be met by completing the following course requirements: AGE 717.

MA in Aging Studies - Public Health
Admission
1. Admission to the Graduate School at Wichita State University;
2. A grade point average of 2.750 (4.000 system); and
3. International applicants must have a score higher than 79 on the Internet-based TOEFL examination, an overall minimum band score of 6.5 on the IELTS examination, or a score of 58 on the PTE-Academic examination.

Additional supporting documents:
1. Contact information for two professional references;

**Elective**

Select one 500 or higher level elective 3

#### AGE Culminating Experience

Select one of the following culminating experiences:

**Thesis:**

- AGE 895: Thesis Research (3 credit hours)

**Internship:**

- AGE 810 or AGE 660: Aging Studies Practicum
- Administrator-in-Training Long-Term Care Practicum

**Coursework:**

Any 3-credit-hour graduate-level course in AGE or PHS could count as an elective with advisor approval. Outside graduate level courses in SCWK may also be considered. Consult a graduate advisor for approval.

Total Credit Hours 30

Students are expected to meet with their faculty advisor and create their plan of study following the completion of 12 graduate credit hours, as discussed in the Graduate School section of the Graduate Catalog.

### Applied Learning

Students in the Master of Arts in aging studies programs are required to complete an applied learning or research experience to graduate from these programs. The requirement can be met by completing the following course requirements: AGE 717.

### Graduate Emphasis in Aging Studies

A 12–15-hour emphasis in aging studies may be taken as part of a graduate degree program in another department. Students who wish to pursue the aging studies emphasis must fulfill the requirements in both departments.

---

**Administrator-in-Training (AIT) Practicum Placement Program**

The AIT is designed to place qualified applicants in a 3-credit-hour, 480-clock-hour practicum placement with a qualified nursing home administrator, as part of the preparation necessary for becoming a licensed nursing home administrator in the state of Kansas.

The AIT practicum placement program is available to individuals with a bachelor’s degree, who have had coursework in aging studies or long-term care, management concepts, and finance or accounting. The required courses are available through the department of public health sciences for those interested applicants who have not taken such coursework prior to considering a career as a nursing home administrator. The Bachelor of Science degree in health management provides program majors with the coursework required for AIT placement. Interested program majors may pursue the AIT requirements while completing their degree programs. Students completing the Master of Arts in aging studies administration concentration can complete the AIT as part of their coursework.

### Certificate in Health Administration

Students expand upon prior business knowledge and expertise to advance their career potential in health care administration by completing the online Graduate Certificate in Health Administration (GCHA) program at Wichita State University. The GCHA allows students to complement existing experience and educational background in business, finance, or related management/leadership, building upon that knowledge base to better plan, direct, manage and coordinate medical and health services. The program prepares students in areas of health care leadership, operations management, strategic planning, health care policy, law and ethics, and trends in the health care delivery system.

The curriculum can be completed within one academic year, with entry to the program allowed in both fall and spring semesters. Classes completed in pursuit of the GCHA can be applied to the graduate program of study for the Master of Health Administration (MHA). A student admitted to the Master of Health Administration can apply all 15 GCHA credit hours to the MHA degree. Courses started more than six years before the semester in which the master's degree work is completed may not be used as part of the degree program. The certificate may also be pursued concurrently with a graduate degree program such as the Master of Arts in Aging Studies or the Master of Business Administration. The GCHA provides quality distance education, enabling students to earn their graduate certificate from anywhere in the state or country.

### Admission

To be admitted into the graduate certificate in health administration degree program, the applicant must:

- Be admitted to the Graduate School in a degree program or in nondegree Category A status. All Graduate School policies relative to admissions apply. International students will not be issued an I-20 for certificate programs alone. They may obtain this certificate only while concurrently pursuing a graduate degree.¹
- Possess an undergraduate or graduate degree in health management, business, finance, clinical profession or related field.
- Have a minimum overall GPA of 2.750 (on a 4.000 scale) or a 2.750 in the last 60 credit hours of undergraduate coursework.
Admission to this graduate certificate program in public health requires that the applicant meets the following criteria:

1. Possess a bachelor’s degree from a regionally accredited institution, or a foreign university with substantially equivalent requirements for the bachelor’s degree, and have a minimum GPA of 2.750 in the last 60 credit hours of coursework;
2. Demonstrate evidence of training and/or experience indicative of adequate preparation for the curriculum. This could include a degree in a recognized health profession, one or more years of responsible work experience in the health field, or other relevant evidence; and
3. Submit an official report of completion of the Test of English as a Foreign Language (TOEFL) with a score of 88 or above, or overall band score of 7.0 on IELTS exam, or a score of 65 or above on the PTE-Academic exam if the native language is not English. This report must be no more than two years old at the time it is reviewed by the certificate admissions committee.

The deadline for guaranteed review of applications to the public health certificate program is June 1 for the fall semester, and November 1 for the spring semester.

Program Requirements
The GCHA can be completed 100 percent online. It comprises 15 total credit hours covering topics such as health law and ethics, issues and trends in health professions, strategic planning and performance analytics in health care, health care policy and administration, and health care leadership and operations management.

Certificate in Public Health
A graduate certificate in public health provides documentation that a student has completed a core set of public health courses beyond the bachelor’s degree level. Through the graduate certificate in public health program, graduates bring population-based health knowledge to their work in health and medicine. The program covers principles and issues in health care policy and administration, the social and behavioral aspects of public health, epidemiology, environmental health and biostatistics. Students have the option to focus on coursework in health care policy and administration or public health and aging.

The required courses for this certificate are based on the five areas defined by the Council on Education for Public Health to be the basic areas of public health knowledge. The courses are offered on a fixed schedule so that all are taught once a year. Students can complete the coursework (15 credit hours) in one academic year. All courses are offered fully online to allow for a flexible learning environment and to accommodate working professionals.

Admission
Application deadlines: July 15 for fall admission; December 1 for spring admission.

Online only students (including international students) may complete the certificate without concurrent enrollment in a WSU graduate degree program.

Program Requirements
The deadline for guaranteed review of applications to the public health program information.

Certificate in Public Health
A graduate certificate in public health provides documentation that a student has completed a core set of public health courses beyond the bachelor’s degree level. Through the graduate certificate in public health program, graduates bring population-based health knowledge to their work in health and medicine. The program covers principles and issues in health care policy and administration, the social and behavioral aspects of public health, epidemiology, environmental health and biostatistics. Students have the option to focus on coursework in health care policy and administration or public health and aging.

The required courses for this certificate are based on the five areas defined by the Council on Education for Public Health to be the basic areas of public health knowledge. The courses are offered on a fixed schedule so that all are taught once a year. Students can complete the coursework (15 credit hours) in one academic year. All courses are offered fully online to allow for a flexible learning environment and to accommodate working professionals.

Admission
Admission to this graduate certificate program in public health requires that the applicant meets the following criteria:

1. Possess a bachelor’s degree from a regionally accredited institution, or a foreign university with substantially equivalent requirements for the bachelor’s degree, and have a minimum GPA of 2.750 in the last 60 credit hours of coursework;
2. Demonstrate evidence of training and/or experience indicative of adequate preparation for the curriculum. This could include a degree in a recognized health profession, one or more years of responsible work experience in the health field, or other relevant evidence; and
3. Submit an official report of completion of the Test of English as a Foreign Language (TOEFL) with a score of 88 or above, or overall band score of 7.0 on IELTS exam, or a score of 65 or above on the PTE-Academic exam if the native language is not English. This report must be no more than two years old at the time it is reviewed by the certificate admissions committee.

The deadline for guaranteed review of applications to the public health certificate program is June 1 for the fall semester, and November 1 for the spring semester.

Program Requirements
The total number of credit hours required for the certificate in public health is 15, with a cumulative grade point average of 3.000 or above and no grade that generates less than 2.000 credit points per credit hour. Students must complete the following courses:

- or AGE 822 Advanced Perspectives of Public Health and Aging 3

Total Credit Hours 15

School of Nursing
Master of Science in Nursing (MSN)
The program is individualized to meet the needs and professional goals of each student. The curriculum has been developed to accommodate part-time study (8 or fewer credit hours), as well as full-time study (9–12 credit hours). The purpose of the graduate program is to prepare nurses for advanced roles in indirect and direct care, e.g., administrators and educators.

Comprehensive Examination
A comprehensive written examination, thesis or research project is required of all MSN nursing students. The exam is completed within the student’s last two semesters.

Applied Learning
Students in MSN programs are required to complete an applied learning or research experience to graduate from these programs. The requirement can be met by completing the following program course requirements:

Nursing Education focus will complete all coursework culminating with NURS 724.
Nursing Leadership and Administration focus will complete all coursework culminating with NURS 812.

Doctor of Nursing Practice
This program is intended to provide advanced education in many areas beyond that provided by the MSN program.

Credit Hours
Students who enter with the BSN degree complete a minimum of 74 credit hours for the entire DNP degree. An MSN degree is not awarded.

Students who enter with the MSN degree complete a minimum of 29 credit hours for the DNP degree.
Final Project
Students complete a project within the DNP program culminating with the residency course. (See DNP Project (p. 153)).

Applied Learning
Students in DNP programs are required to complete an applied learning or research experience to graduate from these programs. The requirement can be met by completing all coursework culminating with the DNP Project. This evidence-based project stems from a series of courses and practicum work and is finalized and defended during the NURS 960 residency course.

Specializations
All students request entrance to a specific specialization upon application. The internal School of Nursing admission process includes this placement. Admission into a specialization for DNP applicants with a BSN degree is maintained as students successfully complete coursework on their plan of study. Those who do not successfully complete coursework compatible with their plan of study are not continued in the DNP program. Admission for MSN candidates is to the clinical (or administrative) specialization area in which their MSN was completed. Any exception is determined by individual review.

Students choose from the following individual/family focus specialties:
- Nurse Practitioner
  - Adult — Gerontology Acute Care
  - Family
  - Psychiatric/Mental Health

Graduate Certificates
Postmaster's Certificate
Students already admitted to the DNP degree program or alumni from a CCNE accredited DNP degree program may select 25 additional credit hours in a postmaster's specialization offered by WSU. Please contact the graduate nursing programs office for further information.

- Individual/Family Focus (p. 153)

Courses in the School of Nursing
- Nursing (NURS) (p. 318)

MSN in Nursing - Nursing Education
In addition to the general university requirements for admission to graduate studies (see the Admission to Graduate Study section for full details), the School of Nursing requires:

1. A bachelor’s degree with a major in nursing from a nationally accredited (NLN or CCNE) school;
2. Admission to the Graduate School at Wichita State University;
3. A cumulative grade point average of 3.000 or higher in the following area: the last 60 hours of nursing undergraduate coursework;
4. School of Nursing approval;
5. Coverage by professional liability insurance, in effect during practicums, in the minimum amount of $1/3 million individual/aggregate, to be renewed annually;
6. One year of nursing practice following professional licensure is highly recommended but not required;
7. Computer literacy and electronic database literature searching skills;
8. A background check is required. The School of Nursing can provide details for obtaining the background check;
9. Evidence of meeting the technical standards as identified by the School of Nursing graduate program;
10. Evidence of registered nurse licensure in the state for which they practice. WSU is accepting applications from anyone living in the state of Kansas, and the number of states WSU is authorized to admit is rapidly increasing. Check with WSU's Office of Online Learning (http://wichita.edu/online) to see if WSU is approved to provide distance education in a specific state;
11. One application must be submitted to the Graduate School. The application must be submitted by May 1 (fall admission only).

Program Requirements
All students must identify their concentration through the school of nursing admission process and take all required courses with a minimum total of 36 credit hours for leadership/administration, and a minimum of 37 credit hours for education MSN degrees. Students wishing to complete a project or thesis will be required to enroll in a minimum of 3-6 project hours or 6 thesis hours in addition to the courses listed below.

Core Curriculum
- NURS 703 Theoretical Foundations of Advanced Nursing Practice 3
- NURS 801 Health Care Systems: Policy and Politics 3
- NURS 806 Evidence-Based Nursing Practice and Outcomes of Care 3
- NURS 826 Evidence-Based Nursing Project I 2
- NURS 871 Leadership and Emerging Issues in Nursing 3
- Select one graduate level statistics course 3

Nursing Education (Direct Care)
- NURS 793 Advanced Pathophysiology I 4
- NURS 795A Applied Drug Therapy I 3
- NURS 701 Advanced Health Assessment 2
- NURS 702 Advanced Health Assessment Laboratory 1
- NURS 723 Foundations of Nursing Education 3
- NURS 757 Teaching Strategies for Nursing Education 3
- NURS 724 Nursing Education Practicum 2
- NURS 872 Clinical Focus Education Practicum 2

Total Credit Hours 37
Please contact the nursing graduate program office for the most recent information regarding curriculum.

**Applied Learning**

Students in the MSN nursing education program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing all coursework culminating with NURS 724.

**MSN in Nursing - Nursing Leadership and Administration**

In addition to the general university requirements for admission to graduate studies (see the Admission to Graduate Study section for full details), the School of Nursing requires:

1. A bachelor’s degree with a major in nursing from a nationally accredited (NLN or CCNE) school;
2. Admission to the Graduate School at Wichita State University;
3. A cumulative grade point average of 3.000 or higher in the following area: the last 60 hours of nursing undergraduate coursework;
4. School of Nursing approval;
5. Coverage by professional liability insurance, in effect during practicums, in the minimum amount of $1/3 million individual/aggregate, to be renewed annually;
6. One year of nursing practice following professional licensure is highly recommended but not required;
7. Computer literacy and electronic database literature searching skills;
8. A background check is required. The School of Nursing can provide details for obtaining the background check;
9. Evidence of meeting the technical standards as identified by the School of Nursing graduate program;
10. Evidence of registered nurse licensure in the state for which they practice. WSU is accepting applications from anyone living in the state of Kansas, and the number of states WSU is authorized to practice. WSU is accepting applications from anyone living in the state; see if WSU is approved to provide distance education in a specific state; six years;
11. One application must be submitted to the Graduate School. The application must be submitted by May 1 (fall admission only).

**Program Requirements**

All students must identify their concentration through the school of nursing admission process and take all required courses with a minimum total of 36 credit hours for leadership/administration, and a minimum of 37 credit hours for education MSN degrees. Students wishing to complete a project or thesis will be required to enroll in a minimum of 3-6 project hours or 6 thesis hours in addition to the courses listed below.

**Applied Learning**

Students in the MSN nursing leadership and administration program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing all coursework culminating with NURS 812.

**DNP in Nursing - Adult/Gerontology**

**Acute Care Nurse Practitioner (AG/ACNP)**

**Admission**

1. An approved graduate-level statistics course taken within the last six years;
2. A Bachelor of Science in Nursing from a nationally accredited school (NLN or CCNE);
3. A GPA of 3.000 or higher in the following areas:
   a. All undergraduate coursework
   b. All undergraduate nursing courses
   c. Any graduate-level courses taken
   d. The following four science courses taken with an overall GPA of at least 3.000 and no grade that generates less than 2.000 credit points per credit hour in any one course: anatomy/physiology, microbiology, pathophysiology, and pharmacology
4. One application must be submitted to the Graduate School. The application must be submitted by May 1 (fall admission only);
5. All students will request entrance to a specific specialization upon application. Please see choices below;
6. Evidence of license as a registered nurse in Kansas;
7. Coverage by professional liability insurance. CNS and NP students must have NP student coverage prior to enrollment in practicum coursework. Minimum coverage required: $1,000,000 single incident/$3,000,000 aggregate;
8. Computer literacy is an expectation of the graduate nursing program. Skills should include: word processing, email, file attachments, and Internet searches. If courses require Blackboard, students are highly encouraged to complete the Blackboard orientation. Students may elect to take PC 105, or another basic
computer skills course, to fulfill the computer literacy expectation; and
9. Technical standards must be met.

---

**Elective Courses**

Elective coursework is available in many topic areas, including education, diabetes, human lactation, genetics, dermatology and low back pain. Students should see their advisor for assistance with elective choices.

**Applied Learning**

Students in the DNP AG/ACNP program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing all coursework culminating with the DNP Project. This evidence-based project stems from a series of courses and practicum work and is finalized and defended during the NURS 960 residency course.

**DNP Project**

Students complete an evidence-based project. Students work collaboratively with at least one graduate nursing faculty member who is chairperson of their committee and one other graduate faculty member to identify an evidence-based practice problem and plan the implementation to address the problem. Successful defense of the evidence-based project proposal is the expected outcome within the Evidence-Based Project III course. After successful completion and defense of the Evidence-Based Project III proposal, the candidate may enroll in residency hours. The residency allows the student to complete/disseminate the results of the project and develop a portfolio documenting practice scholarship. The residency hours may be taken in 2-, 4- or 6-hour increments and may be repeated until requirements are met. The candidate completes an oral defense of the project at the end of the residency.

**DNP in Nursing - Family Nurse Practitioner (FNP) Admission**

1. An approved graduate-level statistics course taken within the last six years;
2. A Bachelor of Science in Nursing from a nationally accredited school (NLN or CCNE);

**Elective Courses**

Elective coursework is available in many topic areas, including education, diabetes, human lactation, genetics, dermatology and low back pain. Students should see their advisor for assistance with elective choices.

**Applied Learning**

Students in the DNP FNP program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing all coursework culminating with the DNP Project. This evidence-based project stems from a series of courses and practicum work and is finalized and defended during the NURS 960 residency course.

**DNP Project**

Students complete an evidence-based project. Students work collaboratively with at least one graduate nursing faculty member who is chairperson of their committee and one other graduate faculty member to identify an evidence-based practice problem and plan the implementation to address the problem. Successful defense of the evidence-based project proposal is the expected outcome within the Evidence-Based Project III course. After successful completion and defense of the Evidence-Based Project III proposal, the candidate may enroll in residency hours. The residency allows the student to complete/disseminate the results of the project and develop a portfolio documenting practice scholarship. The residency hours may be taken in 2-, 4- or 6-hour increments and may be repeated until requirements are met. The candidate completes an oral defense of the project at the end of the residency.

**DNP in Nursing - Individual/Family Focus**

**Admission**

1. An approved graduate-level statistics course taken within the last six years;
2. A nursing master’s degree from an accredited school, with a GPA of 3.250 or higher in all master’s work;
3. Individual/Family focus applicants are required to:
   a. Present proof of APRN licensure in Kansas and/or other authorized online states, and
   b. Present proof of, or eligibility for, national certification as a nurse practitioner or clinical nurse specialist;
4. Some latitude may be given in the following GPA requirements on an individual basis (3.000 or higher in the following areas):
   a. All undergraduate coursework;
   b. All undergraduate nursing courses;
   c. Any graduate-level courses taken;
   d. The following four science courses taken with an overall GPA of at least 3.000 and no grade that generates less than 2,000 credit points per credit hour in any one course: anatomy/physiology, microbiology, pathophysiology and pharmacology;
5. There are two applications in the process, the Graduate School and the School of Nursing. Both applications must be submitted by October 15 (spring admission only); and
6. Admission for postmaster’s applicants will be to the practice specialization area in which their nursing master’s degrees were completed.

**Total Credit Hours**

29
NURS 960  Residency  6
Total Credit Hours  74

1  Must be taken prior to NURS 819.

**Elective Courses**
Elective coursework is available in many topic areas, including education, diabetes, human lactation, genetics, dermatology and low back pain. Students should see their advisor for assistance with elective choices.

**Applied Learning**
Students in the DNP PMHNP program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing all coursework culminating with the DNP Project. This evidence-based project stems from a series of courses and practicum work and is finalized and defended during the NURS 960 residency course.

**DNP Project**
Students complete an evidence-based project. Students work collaboratively with at least one graduate nursing faculty member who is chairperson of their committee and one other graduate faculty member to identify an evidence-based practice problem and plan the implementation to address the problem. Successful defense of the evidence-based project proposal is the expected outcome within the Evidence-Based Project III course. After successful completion and defense of the Evidence-Based Project III proposal, the candidate may enroll in residency hours. The residency allows the student to complete/disseminate the results of the project and develop a portfolio documenting practice scholarship. The residency hours may be taken in 2-, 4- or 6-hour increments and may be repeated until requirements are met. The candidate completes an oral defense of the project at the end of the residency.

**School of Oral Health**
The School of Oral Health consists of the department of dental hygiene, and the advanced education in general dentistry residency program. The School of Oral Health offers degree programs leading to a Bachelor of Science in dental hygiene, and a postdoctoral certificate in advanced education in general dentistry.

For more information on the postdoctoral certificate, contact Dean Elledge, program director, at 316-978-8350.

Anthropology
The anthropology department offers a course of study leading to the Master of Arts (MA) degree, and a graduate certificate in museum studies.

Programs in Anthropology
• MA in Anthropology (p. 157)
• Certificate in Museum Studies (p. 159)

Courses in Anthropology
• Anthropology (ANTH) (p. 209)

MA in Anthropology
Admission to the MA program in anthropology requires the completion of a minimum of 15 credit hours in anthropology to include courses in the history and theory of anthropology and in the three main subdivisions of the discipline, and a grade point average of 3.250 (on a 4.000 scale).

The deadline for application is February 1 for fall and October 1 for spring. Prospective students are required to submit a written statement of purpose that addresses their intended area(s) of specialization. Applications will be reviewed by the entire faculty and those meeting the admission requirements may be accepted if there is a faculty
members specializing in the applicant’s area of interest and available to serve as graduate advisor.

Applicants will be notified of the faculty’s decision by March 15 for fall admission or November 15 for spring admission. Students deficient in any of the course prerequisites may be admitted conditionally pending removal of the deficiencies.

Application deadlines for financial award consideration are February 1 for fall and October 1 for spring. Awards will continue until funds are depleted.

**Program Requirements**

Only graduate students may enroll in 700- and 800-level courses for graduate credit. All graduate students who have been required to take ANTH 647 must successfully complete this requirement prior to enrolling in ANTH 746. Graduate enrollment in ANTH 770 requires successful completion of the corresponding core course of the particular area of focus, that is, ANTH 736 or ANTH 746 or ANTH 756. To enroll in a graduate seminar (ANTH 801, ANTH 802, ANTH 820, ANTH 837 or ANTH 848, a student must have full graduate standing and 6 credit hours of graduate coursework in anthropology, including the core course (ANTH 736, ANTH 746 or ANTH 756) in the same subfield as the seminar. To enroll in ANTH 871–ANTH 872, ANTH 873–ANTH 874, or ANTH 875–ANTH 876, graduate students must have successfully completed ANTH 736, ANTH 746 and ANTH 756 and have their final project (thesis, project or internship) approved by their committee.

A master’s degree in anthropology requires 36 credit hours of graduate study, of which 60 percent (22 credit hours) must be numbered 700 or above.

**Core Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 736</td>
<td>Advanced Studies in Archaeology and Ethnohistory</td>
<td>3</td>

<tr>
<td>ANTH 746</td>
<td>Advanced Studies in Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 756</td>
<td>Advanced Studies in Biological Anthropology</td>
<td>3</td>
</tr>
</tbody>
</table>

Select two of the following seminars:

- ANTH 801 Seminar in Archaeology
- ANTH 802 Seminar in Biological Anthropology
- ANTH 820 Seminar in Cultural Anthropology
- ANTH 837 Seminar in Cultural Anthropology
- ANTH 848 Recent Developments in Anthropology

Take two semesters of the following:

- ANTH 847 Colloquium in Anthropology

**Tracks**

Select a track (see details below)

<table>
<thead>
<tr>
<th>Total Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
</tr>
</tbody>
</table>

Students in all tracks are required to complete the core course in a particular subfield (cultural, biological or archaeological anthropology) prior to registering for any seminar in the same subfield, and students must complete seminars in two subfields. Students interested in multidisciplinary topics may, with the consent of their committee, count up to 12 credit hours of graduate-level credit from other disciplines toward their degree.

**Track 1**

Track 1 requires satisfying all the general requirements listed above and the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 875</td>
<td>Thesis</td>
<td>2</td>
</tr>
<tr>
<td>ANTH 876</td>
<td>Thesis</td>
<td>2</td>
</tr>
</tbody>
</table>

**Comprehensive exams are graded by all full-time teaching faculty in the department.**

**Track 2**

Track 2 requires satisfying all the general requirements listed above and the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 873</td>
<td>Advanced Projects in Anthropology</td>
<td>2</td>
</tr>
<tr>
<td>ANTH 874</td>
<td>Advanced Projects in Anthropology</td>
<td>2</td>
</tr>
</tbody>
</table>

**Total Credit Hours**

| 4 |

**Track 3**

Track 3 requires satisfying all the general requirements listed above and the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 871</td>
<td>Internship in Anthropology</td>
<td>2</td>
</tr>
<tr>
<td>ANTH 872</td>
<td>Internship in Anthropology</td>
<td>2</td>
</tr>
</tbody>
</table>

**Total Credit Hours**

| 4 |

**All Tracks**

Students in all tracks are required to form a thesis/project/internship committee of at least two full-time graduate teaching faculty from within the anthropology department and at least one graduate faculty from another department. This committee must be formed prior to, or upon the completion of, 18 credit hours of graduate study. Students must present to their committee a proposal for their thesis, project or internship. The committee approves these proposals and also the oral defense of all theses, project reports and internship reports. Theses, project reports and internship reports must be submitted to the committee at least 10 working days prior to the date of the actual defense.

All students who present a thesis, project or internship must pass an oral defense of their effort. A foreign language examination is contingent upon the nature of the thesis topic.

**Examinations**

Students in Track 1 are required to take the written comprehensive examination. Students must have completed a minimum of 15 credit hours of graduate work in anthropology, including ANTH 736, ANTH 746 and ANTH 756, before taking the examination which is usually given during the fourth week of each semester. All graduate students taking the comprehensive examination must obtain the Packet for the Comprehensive Examination (PACE) from the department office for detailed information on this requirement. Students are required to sign up for the comprehensive exam during the semester.
prior to taking it. Also, students must attend a comprehensive exam workshop during the semester prior to taking the exam.

**Certificate in Museum Studies**
This interdisciplinary program prepares students for careers in the museum field. Drawing on courses from anthropology, the School of Art, Design and Creative Industries (SADCI), nonprofit management (public administration), history and education, students gain an overview of museum practice including administration, collections, exhibits and presentation, and education (such as exhibition, workshops, interpretation, guided tours and school groups). The advisory board periodically refines the content. There is one advisor for all students seeking the certificate program in museum studies. The advisory board designates this individual.

**Program Requirements**
The program consists of 15 credit hours.

To complete the certificate program, students take the following management-based core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 606</td>
<td>Museum Methods</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 607</td>
<td>Museum Exhibition</td>
<td>3</td>
</tr>
<tr>
<td>HIST 703</td>
<td>Museum Administration</td>
<td>3</td>
</tr>
<tr>
<td>PADM 870</td>
<td>Fundraising and Financial Management for Nonprofit Organizations</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, select 3 credit hours of practice that could include any of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARTH 540A</td>
<td>Concepts in Creative Industries: Planning and Preparatoship</td>
<td>3</td>
</tr>
<tr>
<td>ARTH 540B</td>
<td>Concepts in Creative Industries: Research and Interpretation</td>
<td>3</td>
</tr>
<tr>
<td>ARTH 540C</td>
<td>Concepts in Creative Industries: Audiences and Outreach</td>
<td>3</td>
</tr>
<tr>
<td>ARTH 540D</td>
<td>Concepts in Creative Industries: Funding and Promotion</td>
<td>3</td>
</tr>
<tr>
<td>PADM 725</td>
<td>Public Management of Human Resources</td>
<td>3</td>
</tr>
<tr>
<td>HIST 701</td>
<td>Introduction to Local and Community History</td>
<td>3</td>
</tr>
<tr>
<td>Internship/Independent Study</td>
<td>Under the guidance of the student advisor; students may fulfill this requirement by taking existing internship and/or independent study courses from any of the participating programs involved with museums in the community</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, students are encouraged to develop a portfolio of work products that may include, for example, exhibitions and publications.

For information and application procedures, please contact: Rachelle Meinecke, director, Lowell D. Holmes Museum, 316-978-3195.

**Biological Sciences**

**Master of Science and Areas of Specialization**
The Master of Science (MS) program offered by the department of biological sciences provides an advanced education with either a research thesis or nonthesis option. A variety of specializations in the broad areas of ecology, molecular biology, microbiology, cell biology and environmental biology are available. All incoming students are assigned to a temporary graduate advisor; typically by the end of the first semester, students choose a permanent graduate advisor and committee. The advisors work with the student to develop a plan of study that meets the student’s educational goals.

**Programs in Biological Sciences**
- MS in Biological Sciences (p. 159)

**Courses in Biological Sciences**
- Biology (BIOL) (p. 217)

**MS in Biological Sciences**
Applicants must submit the online application and upload all required documents to the Graduate School by March 1 for fall semester admission, and by October 1 for spring semester admission (http://wichita.edu/gradapplication). Admission as a full-standing student requires:

1. A baccalaureate degree in a life science-related discipline from an accredited university or college;
2. An overall grade point average of at least 2.750 (4.000 scale) for all previous college/university coursework;
3. A grade point average of at least 3.000 (4.000 scale) for all undergraduate biological sciences courses;
4. A one-page statement of purpose that addresses the student’s areas of interest in biology;
5. Three letters of reference from science faculty; and
6. Acceptable score on the TOEFL, IELTS, or PTE-Academic for non-native speakers of English.

Students who do not meet requirements 1–3 but who wish to begin graduate coursework may qualify for conditional acceptance into a nondegree category.

**Program Requirements**
Students accepted into the MS program in biology may pursue either the thesis option or nonthesis option for their MS degree. All MS graduate students in biology must earn at least 16 credit hours from the department of biological sciences. A maximum of 6 credit hours can be transferred from other institutions and a total of 9 credit hours can be from departments outside of biological sciences. All MS graduate students must enroll in BIOL 797 and give professional presentations in this course in two semesters. Even when graduate students are not enrolled in BIOL 797, attendance at departmental seminars is expected. All graduate students must complete the department of biological sciences’ requirement for training in professional and scholarly integrity by the end of the student’s first semester in the program.

**Thesis Option**
Students selecting the thesis option must complete 30 credit hours of graduate coursework.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 797</td>
<td>Departmental Seminar</td>
<td>3</td>
</tr>
<tr>
<td>Up to 10 hours of BIOL 890</td>
<td></td>
<td>10</td>
</tr>
<tr>
<td>BIOL 891 in the semester in which the student defends their thesis</td>
<td>1</td>
<td></td>
</tr>
</tbody>
</table>

Total Credit Hours          30

Students must complete an oral defense of their thesis prospectus and a presentation and oral defense of the results of their original research.
Nonthesis Option
Students selecting the nonthesis option must complete 33 credit hours of graduate coursework.

Select 33 credit hours of graduate coursework which must include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 797</td>
<td>Departmental Seminar</td>
</tr>
</tbody>
</table>

4-6 credit hours from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 890</td>
<td>Research</td>
</tr>
<tr>
<td>BIOL 781</td>
<td>Cooperative Education</td>
</tr>
<tr>
<td>BIOL 781N</td>
<td>Internship in Biology</td>
</tr>
</tbody>
</table>

Total Credit Hours 33

Nonthesis MS graduate students must successfully defend a capstone project that may consist of a library research project, participation in research in a faculty member’s lab, a cooperative education experience or an internship experience.

Chemistry
The department of chemistry at Wichita State offers courses of study leading to the Master of Science (MS) and the Doctor of Philosophy (PhD) degrees in the areas of biochemistry, analytical, inorganic, organic and physical chemistry.

Programs in Chemistry
- MS in Chemistry (p. 160)
- PhD in Chemistry (p. 160)

Courses in Chemistry
- Chemistry (CHEM) (p. 227)

MS in Chemistry
To enroll in the graduate program in chemistry, students must follow the admission procedures required by the Graduate School. The chemistry department requires a baccalaureate degree in chemistry, a grade point average of at least 3.000/4.000 (both overall and in chemistry), two letters of recommendation from individuals familiar with the applicant’s academic background, a one-page typed statement of goals and research interests, and submission of test scores from the general GRE exam. The department strongly recommends test scores from the chemistry subject GRE as well. International students must have a minimum TOEFL score of 550 paper-based, or 79 Internet-based, or an overall band score of 6.5 on the IELTS, or a score of 58 on the PTE-Academic. Applicants whose transcripts do not explicitly list the chemistry courses which they have taken must submit an official description of the courses which comprise their chemistry degree. Students deficient in any of the requirements may be admitted conditionally provided they follow the specified procedures required to remove any deficiencies.

Applications are reviewed as completed throughout the year, however, all application materials required by the chemistry department must be submitted by April 1st for consideration for the following fall semester, and September 1st for consideration for the following spring semester.

Assessment Exam Requirements for the MS and PhD Degrees
All entering Master of Science and Doctor of Philosophy students are required to take assessment exams in analytical, inorganic, organic, physical chemistry and biochemistry at the beginning of their first semester in the program. Students must receive a pass or remove deficiencies in four of the subject areas listed above within the first year in the program. Deficiencies may be removed by enrolling in an appropriate course designated by the graduate affairs committee and passing with a B or better grade. Assessment exams are given two times a year — fall and spring.

Program Requirements
All MS students are required to satisfactorily complete the Professional and Scholarly Integrity Training by the end of their first year in the program.

The MS degree in chemistry requires the completion of 30 credit hours, including the presentation of a thesis based on original research.

CHEM 890 Research in Chemistry 6
Select at least 15 credit hours in chemistry courses numbered above 701, including the following:

CHEM 734 Instrumental Methods for Research

At least three of the graduate chemistry core courses (CHEM 715 – CHEM 722)
CHEM 700 Chemistry Seminar 1
Enroll in the following each semester of the degree program:

CHEM 701 Chemistry Colloquium 2
Select additional courses in consultation with major advisor and the department’s graduate affairs committee

Total Credit Hours 30

Applied Learning
Students in the master's degree program in chemistry are required to complete an applied learning or research experience to graduate from this program. This requirement can by met by successfully completing the thesis.

Thesis
The thesis is reviewed by a committee from the department, and an oral examination given by a faculty committee appointed by the Graduate School must be passed.

Students must select a faculty member to be their research advisor by the beginning of their second semester in the graduate program.

PhD in Chemistry
To enroll in the graduate program in chemistry, students must follow the admission procedures required by the Graduate School. The chemistry department requires a baccalaureate degree in chemistry, a grade point average of at least 3.000/4.000 (both overall and in chemistry), two letters of recommendation from individuals familiar with the applicant’s academic background, a one-page typed statement of goals and research interests, and submission of test scores from the general GRE exam. The department strongly recommends test scores from the chemistry subject GRE as well. International students must have a minimum TOEFL score of 550 paper-based, or 79 Internet-based, or an overall band score of 6.5 on the IELTS, or a score of 58 on the PTE-Academic. Applicants whose transcripts do not explicitly list the chemistry courses which they have taken must submit an official description of the courses which comprise their chemistry degree. Students deficient in any of the requirements may be admitted conditionally provided they follow the specified procedures required to remove any deficiencies.

Applications are reviewed as completed throughout the year, however, all application materials required by the chemistry department must be submitted by April 1st for consideration for the following fall semester, and September 1st for consideration for the following spring semester.
Assessment Exam Requirements for the MS and PhD Degrees

All entering Master of Science and Doctor of Philosophy students are required to take assessment exams in analytical, inorganic, organic, physical chemistry and biochemistry at the beginning of their first semester in the program. Students must receive a pass or remove deficiencies in four of the subject areas listed above within the first year in the program. Deficiencies may be removed by enrolling in an appropriate course designated by the graduate affairs committee and passing with a B or better grade. Assessment exams are given two times a year — fall and spring.

Program Requirements

All PhD students are required to satisfactorily complete the Professional and Scholarly Integrity Training by the end of their first year in the program.

All PhD students are required to take 24 credit hours of graduate chemistry courses comprising core courses and focused courses.

</tr>
</thead>
<tbody>
<tr>
<td>CHEM 701</td>
<td>Chemistry Colloquium</td>
<td>4</td>
</tr>
</tbody>
</table>

Select additional courses in consultation with major advisor and the department's graduate affairs committee

Total Credit Hours: 42

Students must pass five cumulative examinations out of 12 attempts to remain in the program. During their fifth semester, students must develop and orally defend an original research proposal. After passing the cumulative exams and successfully defending the original research proposal, the student will have qualified as a candidate for the PhD in chemistry and must be enrolled in at least 2 hours of Research (CHEM 990) each semester for the duration of the program. The final requirement for the degree is the defense of a dissertation based on original research. Well-prepared entering students should be able to complete the requirements within four years.

Applied Learning

Students in the PhD program in chemistry are required to complete an applied learning or research experience to graduate from this program. This requirement can be met by successfully completing the dissertation.

Dissertation

The dissertation is reviewed by a committee from the department, and an oral examination given by a faculty committee appointed by the Graduate School must be passed. Students must select a faculty member to be their research advisor by the beginning of their second semester in the graduate program.

Students in the PhD program in good standing, who have completed all required courses, have satisfactorily presented their departmental research seminar, have defended their creative research proposal, and have satisfied all other requirements for admittance to candidacy for the PhD degree, will upon request and approval by the student’s committee be awarded the MS degree.

Communication, Elliott School of Master of Arts in Communication, Areas of Emphasis

The Master of Arts in communication degree program at Wichita State is designed to provide students with a multidisciplinary foundation in human communication that will serve a broad spectrum of interests and needs in many fields of endeavor. The program is based upon integration and synthesis of academic resources in communication.

Programs in the Elliott School of Communication

• MA in Communication (p. 161)

Courses in the Elliott School of Communication

• Communication (COMM) (p. 250)

MA in Communication

In addition to the general Graduate School admission requirements, applicants for full-standing status must have a 3.000 GPA overall and must write a statement of purpose for pursuing the Master of Arts in communication. International students must score at least 600 paper-based, or 100 Internet-based on the TOEFL, or a minimum overall band score of 7.5 on the IELTS, or a minimum score of 73 on the PTE-Academic and, if applying for a graduate teaching assistantship, must score a 28 or higher on the speaking portion of the Internet based TOEFL, or 55 on the SPEAK test.

Program Requirements

The Master of Arts in communication requires 36 credit hours of coursework — 15 credit hours of core courses and 21 credit hours of electives.

</table>

Qualitative Methods: select two of the 3-credit 800-level qualitative methods courses offered by the department

Total Credit Hours: 42

Other Courses

Students selecting the thesis option must take 6 credit hours of thesis; students selecting the project option will devote either 3 or 6 credit hours of directed study to the 36-credit-hour total

In addition to the required courses, students, with the advice and consent of their faculty advisor, must select courses to complete the plan of study, as discussed in the Graduate School section of this catalog. The plan of study will be individually designed to accommodate a student’s background, interests and needs, and must include a minimum of 60 percent of their graduate hours at the 700–899 level

Examinations

Written comprehensive examinations will be administered to all candidates during the final semester of their degree program. In
addition, students writing a thesis will present an oral defense of the thesis.

**Criminal Justice, School of**
The School of Criminal Justice brings together the programs of criminal justice and ethnic studies to form a unique and diverse curriculum to better serve the needs of students to work in an ever-changing urban and global community. Additionally, the Midwest Criminal Justice Institute (MCJI) and the Regional Community Policing Training Institute (RCPTI) provide opportunities to blend teaching, research and service. As a result, the School of Criminal Justice not only serves as a quality educational unit for students, but also functions as a research and service unit that assists with a broader range of needs identified in the community.

**Programs in Criminal Justice**
- MA in Criminal Justice (p. 162)

**Courses in Criminal Justice**
- Criminal Justice (CJ) (p. 243)

**MA in Criminal Justice**
In addition to the Graduate School admission requirements, applicants must submit:

1. Contact information for two people acquainted with the applicant’s background and potential to serve as references; and
2. A brief autobiographical statement describing particular interests, experiences and goals related to academic and professional work in criminal justice.

Applicants are evaluated with respect to:

1. Undergraduate grade point average (a minimum GPA of 3.000 overall is required for consideration of admission to degree status);
2. Amount, type and scope of undergraduate preparation; and
3. Reference letters.

Final recommendation on a candidate’s admission to the MACJ program is made to the Graduate School by the graduate coordinator of the criminal justice program.

Effective fall semester 2015, the Master of Arts in criminal justice may be completed as an option entirely online (http://wichita.edu/cjonline).

**Program Requirements**
Students pursuing the MA degree in criminal justice may follow either a thesis or nonthesis option. Both program options require a minimum of 36 credit hours, including 24 credit hours taken in courses numbered 700 or above.

**Nonthesis/Thesis Option**
Select one of the following options:

24

Nonthesis Option:
Select 24 credit hours of electives, including 12 credit hours taken in courses numbered 700 or above

Thesis Option:
Select 18 credit hours of electives, including 6 credit hours taken in courses numbered 700 or above and Thesis CJ 900
Qualitative Methods (recommended)

Total Credit Hours 36

1. All degree candidates are required to complete the core curriculum with a grade of B or better in each course. All core courses should be completed in the first two semesters of study.

**Examinations**
Students selecting the thesis option must pass an oral defense of the thesis.
Ethnic Studies
Although a graduate program is not currently available in ethnic studies, the department of ethnic studies participates extensively with other departments in the multidisciplinary Master of Arts in communication and Master of Arts in liberal studies. See requirements for these programs in the Elliott School of Communication and Master of Arts in liberal studies sections of the Graduate Catalog.

Courses in Ethnic Studies
• Ethnic Studies (ETHS) (p. 279)

Earth, Environmental and Physical Sciences
Planet Earth consists of interacting systems — the lithosphere, biosphere, hydrosphere and atmosphere — which form the physical foundation of life on Earth and human societies. These systems are changing rapidly due to diverse human activities. The master’s program in earth, environmental and physical sciences (EEPS) at Wichita State University offers the opportunity for multidisciplinary and interdisciplinary graduate education and research to investigate the consequences of human actions and to seek wise development and use of the resources of our planet. The program combines the talents and expertise of faculty in the disciplines of geology, physics and environmental science, and supporting fields such as biology and chemistry. It is designed to train a new generation of scientists, professionals and educators who will be well equipped with general knowledge and skills in methodology, critical and creative thinking in scientific research, and advanced knowledge and skills in geology, environmental science or physics. Graduates will meet the requirements and challenges of the 21st century to become successful science educators, professionals in industry or government, and/or aspirants to PhD studies.

The EEPS program includes three interrelated disciplines: geology, environmental science and physics. Multidisciplinary and interdisciplinary education for a candidate in EEPS will be achieved through specially designed coursework, research and other learning opportunities. Four required courses (EEPS 700, EEPS 701, EEPS 702 and EEPS 721) will provide knowledge and skills in scientific methodology, research design, and scientific writing and presentation. Follow-up courses (e.g., EEPS 710) and discipline-specific graduate courses will enable students to master advanced knowledge and skills in the field chosen by the student; discipline-specific or interdisciplinary research projects will foster the student’s ability to conduct independent research, make scientific presentations and prepare quality scientific manuscripts.

The program is coadministered by the departments of geology and physics. It offers a variety of options for students pursuing a master’s degree in EEPS — thesis, nonthesis and internship. For example, by working on a project in a private company or government agency through internship, a student can gain first-hand experience in the professional workplace; likewise, by taking advanced courses in several fields, a student can broaden his or her scientific background to become a highly qualified science teacher.

Programs in Earth, Environmental and Physical Sciences
• MS in Earth, Environmental and Physical Sciences (p. 163)

Courses in Earth, Environmental and Physical Sciences
• Earth, Environmental and Physical Sciences (EEPS) (p. 268)

MS in Earth, Environmental and Physical Sciences
Upon admission, applicants need to consult with the graduate coordinator of EEPS to evaluate background deficiencies, if any, and to establish a plan of study that best suits the applicant’s goals. A master’s degree in EEPS requires satisfactory completion of coursework and/or research, which will ensure that students take advantage of the multidisciplinary/interdisciplinary nature of the program. Coursework must include at least 18 credit hours of 700–899 courses, among which at least 8 credit hours must be EEPS required courses (including 2 credit hours of EEPS 700). The required courses focus on methodologies, critical and creative thinking in scientific research, and issues common to geology, physics, environmental science and related disciplines. To further benefit from the interdisciplinary nature of the program, students are encouraged to take courses in different disciplines and other supporting courses.

To meet the requirements of differing career goals, students may choose a thesis, internship or nonthesis option for degree completion. The thesis and internship topic may be in geology, environmental science or physics; such activity may be interdisciplinary, involving two or more fields.

Admission
Applicants for admission to the EEPS master’s program should have a bachelor’s degree in any field of natural sciences. However, applicants with a bachelor’s degree outside the field of natural sciences are also encouraged to apply for conditional admission. Motivated candidates can make up background deficiencies early in their EEPS study before gaining full-standing status in the program.

All applicants also need to meet the general admission requirements of the Graduate School, which can be found in the Admission to Graduate Study section of this catalog or at the Graduate School website (http://wichita.edu/gradschool).

Program Requirements
Thesis Option
Thesis research is recommended for students who will pursue PhD study or seek professional employment after graduation. Students choosing thesis research must present a research proposal to the EEPS faculty to ensure that the research has merit and can be completed in a reasonable period of time. After completing the written thesis, the student must give it a public oral defense.

**Additional Courses**

Select 21 credit hours in additional courses 700 or above

Research

Select a maximum of 3 research credit hours

Total Credit Hours: 33

**English Language and Literature Master of Arts**

The Master of Arts (MA) program in English equips graduate students with the knowledge and skills necessary both to the outstanding teacher and to the well-prepared candidate for further graduate study. The graduate committee of the department accordingly requires its master’s candidates to follow a course of advanced study that leads to a comprehensive knowledge of English and American literature. Candidates are also given training in the principles of literary criticism and in the use of bibliographic tools so that they will have a general competence in criticism and research.

**Master of Fine Arts in Creative Writing**

The degree program for the Master of Fine Arts (MFA) in creative writing places emphasis on the development of skills and understanding in the practice of imaginative writing and upon related academic study. It is not exclusively a studio program; rather, it encourages the development of writers who are able, as the result of additional coursework in English, to demonstrate skills useful in teaching, editing and other related areas. A core of workshops and tutorials leads to a final writing project: a collection of fiction or poetry, a novel, or some other appropriate work. Flexibility is provided in academic coursework to allow for a variety of possible interests.

**Programs in English Language and Literature**

- Dual/Accelerated Bachelor’s to Master’s Degree Program (p. 164)
- MA in English (p. 164)
- MFA in Creative Writing (p. 166)

**Courses in English Language and Literature**

- English (ENGL) (p. 273)

**Dual/Accelerated Bachelor’s to Master’s Degree Program**

The dual/accelerated bachelor’s to master’s program in English is a coordinated program leading to both a bachelor’s and master’s degree. Admission requirements (http://catalog.wichita.edu/undergraduate/fairmount-liberal-arts-sciences/english-language-literature/accelerated-bachelors-masters-english) for the program are given in the Undergraduate Catalog. A student admitted to the dual/accelerated program in English as an undergraduate may take up to 9 joint degree credit hours that are applied toward both the bachelor’s degree and master’s degree program requirements. A course taken for joint credit must be so identified at the time of enrollment in the course. A student in the dual/accelerated program will be admitted to the MA program in English upon being awarded the bachelor’s degree if all admission requirements for the master’s program are satisfied at that time and the student has made continued satisfactory progress.

**MA in English**

Applicants must meet the general requirements of the Graduate School, with the additional requirement that they have a 3.000 grade point average in their previous work in English courses. The coordinator of graduate studies in English will then evaluate the applicant’s transcript, prescribing additional undergraduate hours for those who have fewer than 24 credit hours in English and American literature or in other work acceptable to the department of English. Courses in freshman composition, grammar, teaching methods, journalism, speech, etc., may not be included in the required 24 credit hours. Exceptions may be made for outstanding students who have majored in related fields.
In addition to Graduate School application materials, applicants to the English MA program should submit a 500 word statement of purpose explaining their goals or reasons for pursuing an MA in English as well as their skills, accomplishments or experiences that suggest they will be able to succeed in the program. The English department Master of Arts program accepts applications for admission on an ongoing basis.

Applicants who have earned degrees at institutions in countries in which English is not the native language must score at least 600 paper-based, or 100 Internet-based on the TOEFL (Test of English as a Foreign Language) Examination, or an overall band score of 7.5 on the IELTS, or a score of 73 on the PTE-Academic before being admitted to the MA degree program in English.

**Academic Advising**

All MA candidates in English are advised by the graduate coordinator in English. The coordinator and the student establish a plan of study that takes into account the student’s interests and future vocational plans.

**Transfer of Credit**

Students must complete 24 credit hours at Wichita State within the English department. Students may transfer up to 9 credit hours on the Plan A and Plan C programs and up to 6 credit hours on Plan B. If the credit to be transferred comes from a program in which the student took a graduate degree, the time limits imposed by the Graduate School on other transfers of credit will not apply. Credit for transfer courses will not count toward the required number of courses at the 700 level or above, unless the transfer hours are of appropriate level from Kansas Board of Regents institutions.

**Language Requirement**

Master’s degree candidates in English may fulfill the department’s foreign language requirements in any one of the following ways:

1. By submitting a transcript showing the completion with a grade of C- or better of at least 15 credit hours of undergraduate work in a single foreign language or the equivalent as defined by Fairmount College of Liberal Arts and Sciences,
2. By completing the required 15 credit hours of undergraduate work in a single foreign language.
3. By taking a test administered by the department of modern and classical languages and literatures in the elected foreign language, with a successful score determined by the English department.
4. By submitting a transcript showing completion of 6 credit hours of linguistics with a grade of C- or better.

**Program Requirements**

ENGL 700, normally should be included in the student’s first semester of graduate study.

At least seven courses toward all degree plans must be at the 700 level or above. The remaining hours may be taken at any level 500 or above. Candidates completing 500- or 600-level English courses for graduate credit must satisfy a higher differential of performance relative to undergraduate students in the same courses, with the nature of this differential set by professors.

There are three programs leading to the degree. Plan A, which emphasizes literature, composition and pedagogy and consists of 33 credit hours, is especially designed for teachers. Plan B, a 30-credit-hour plan which requires the student to submit a master’s thesis, places more emphasis on research, scholarly writing and the independent study of literature. Plan C, which emphasizes a comprehensive and cohesive study of literature, also requires 33 credit hours and is designed for students who wish to pursue advanced study of literature through coursework. All three degree plans require the following core literature coursework:

Program Plans
Select one of the following program plans (details below):  9-12
Plan A
Plan B
Plan C

Total Credit Hours  30-33

With graduate coordinator approval, courses with a minimum of 80 percent of the content meeting a requirement can occasionally be used to satisfy a requirement other than the one for which they are listed. No single course can be used to satisfy more than one requirement. A major author(s) course cannot be used to satisfy a period requirement. With approval of the graduate coordinator, a course can be repeated once for credit if at least 80 percent of the content is different. At least seven courses must be taken at or above the 700 level. All English department classes at the 500 level or above not taken to meet another requirement can earn credit as an elective provided that student has sufficient coursework at the 700 level or above. With graduate coordinator approval, one elective may be taken in another department or college, such as the College of Education.

Plan A
Select one course in composition theory, rhetoric, linguistics or pedagogy  3
Select three elective classes in linguistics, literature, composition theory, rhetoric or methods of teaching English  9
Total Credit Hours  12

A master’s thesis is not required, but students must take a comprehensive examination guided by their coursework and a standard suggested reading list. A Plan A student is examined on two literary periods, one American, one British. At least one of the two literary periods must cover literature before 1900. Students in Plan A are also tested on a question drawn from composition and rhetoric pedagogy. Students may take either the December or May comprehensive examination by informing the graduate coordinator of intent to do so.

Plan B
Select two elective classes in linguistics, literature, composition theory, rhetoric or methods of teaching English  6
ENGL 890  Master’s Thesis (a maximum of 3 credit hours can be applied toward the degree)  3
Total Credit Hours  9

Plan B also requires a written comprehensive examination and an oral thesis defense. The oral defense committee includes the director of the thesis, a graduate faculty member from the English department, and a reader from outside the English department who is a graduate faculty member. The written comprehensive examination is guided by their coursework and a standard suggested reading list. A Plan B student is examined on three literary periods, with at least one each from American and British. At least one of the three literary periods must cover literature before 1900. Students may take either the December or May comprehensive examination by informing the graduate coordinator of intent to do so.

Plan C
Select four elective classes in linguistics, literature, composition theory, rhetoric or methods of teaching English chosen in consultation with the graduate coordinator  12

Plan C students must take a written comprehensive examination guided by their coursework and a standard suggested reading list. A Plan C student is examined on three literary periods, with at least one each from American and British. At least one of the three literary periods must cover literature before 1900. Students may take either the December or May comprehensive examination by informing the graduate coordinator of intent to do so.

MFA in Creative Writing

Applicants must meet the general requirements of the Graduate School, with the additional requirement of a 3.000 grade point average in their previous coursework in English. The director of creative writing evaluates the applicant’s transcript, prescribing additional undergraduate hours for those who have fewer than 24 credit hours of acceptable coursework in English. Courses in freshman composition, grammar, teaching methods, journalism, speech, etc. may not be included in the required 24 credit hours. Exceptions may be made for outstanding students who have majored in related fields. With the permission of the director of creative writing, gifted writers may study in the program as special students with no specific degree intentions. Deadline for application: January 10. Admission will be for fall only.

Applicants who earned their undergraduate degrees more than 10 years before their application for admission must be interviewed by the director of creative writing before they are admitted into the program.

Applicants who have earned their degrees in countries where English is not the native language must score at least 600 paper-based, or 100 Internet-based on the TOEFL (Test of English as a Foreign Language) Examination or an overall band score of 7.5 on the IELTS or a score of 73 on the PTE-Academic before they may be admitted to the program.

Degree Program Status

Applicants who seek to be admitted with full standing in the degree program must submit a sample of original writing in literary fiction (approximately 20 pages), or poetry (about six poems), to the director of creative writing at the time they seek admission.

Advising

All MFA candidates in English are advised by the director of creative writing who will help the student establish a plan of study taking into account the student’s interests and future vocational plans.

Transfer of Credit

A minimum of 24 of the total 48 credit hours required for the degree must be taken at Wichita State. No more than 24 hours of credit may be counted toward the degree from other graduate work taken at Wichita State or at another school. If the credit to be transferred comes from a program in which the student took a graduate degree, the time limits imposed by the Graduate School on transfer of credit will not apply.

Program Requirements

All MFA students are required to take ENGL 681 and ENGL 780 unless specifically exempted.

Coursework

The 48 credit hours of coursework are apportioned into two categories: required and elective courses.
Required Courses

</tbody>
</table>

Electives

Select 15 elective credit hours (see details below) 15

Elective Courses

Elective courses may be taken to pursue historical, technical or theoretical studies that the candidate finds useful, to strengthen areas of weakness, or simply to enrich their degree program appropriately. All candidates must successfully complete a minimum of 15 elective credit hours in English courses numbered 800 and above, with the exception of English courses numbered 515 through 527, which may be taken for graduate credit. Candidates may take up to 26 elective credit hours in English courses numbered 800 and above and in the approved 500-level courses. Other exceptions may be made as approved by the director of creative writing and with the consent of the department chairperson. Graduate students in 500-, 600-, and 700-level courses are expected to meet higher standards of achievement than those imposed on undergraduates in the same courses. Within this unit, as many as 9 credit hours total of ENGL 880; ENGL 881; and ENGL 850, may be taken.

Comprehensive Examination

All candidates are required to pass a written comprehensive examination in the final semester of their coursework. This examination is based on a reading list of 30 books chosen from the creative writing program master list by the candidate’s final writing project director and the director of creative writing in consultation with the candidate.

Final Writing Project

The MFA final writing project in creative writing consists of a body of original work of publishable quality. The manuscript must be of such length as is appropriate to published books in its genre and is to be written under the direction of a member of the program staff. Candidates may preface their final writing project with a short introduction if they choose to do so.

Final Writing Project Review

Once the candidate has submitted the final writing project, a committee composed of the project director and a second reader, both creative writing faculty members in the student’s genre, will examine the work and determine whether or not the project meets the standards of acceptance.

Geography

Although there is no graduate program in geography, many courses are available for graduate study.

Courses in Geography

- Geography (GEOG) (p. 281)

Geology

Students interested in graduate studies in geology should see the separate section in this catalog for the earth, environmental, and physical sciences (EEPS) Master of Science program for details. This program offers advanced training in research, knowledge and skills in geology, environmental science or physics. For students concentrating their efforts in geology, the following courses are available for graduate credit in this degree program.

Courses in Geology

- Geology (GEOL) (p. 282)

History

Master of Arts and Areas of Specialization

The history department offers courses of study leading to the Master of Arts (MA) degree with specializations in U.S. history, the ancient and medieval world, European history, and local and community history.

Programs in History

- MA in History (p. 167)
- MA in History - Thesis Program in Local Community History (p. 168)

Courses in History

- History (HIST) (p. 284)

MA in History

Admission to the MA program in history requires completion of an undergraduate major in history, or a minimum of 18 hours of history; a grade point average of 2.750 or better, including all undergraduate hours, and a 3.000 grade point average in history. Under unusual circumstances applicants with less than a 3.000 average in history may be granted a probationary admission. Applicants must submit a one page Statement of Purpose, and a writing sample of no more than 20 pages to the graduate coordinator. International students are required to have a minimum TOEFL score of 600 paper-based, or 100 Internet-based, or an overall band score of 7.5 on the IELTS, or a score of 73 on the PTE-Academic. The application deadline for domestic and U.S. resident students for fall admission is March 15, and October 1 for spring admission. For international students, the deadlines are April 1 and August 1, respectively.
Program Requirements

Students may follow one of three plans for a graduate degree in history: a thesis program, a nonthesis program, and a program in local and community history.

Total Credit Hours: 33

Students must pass written examinations in two comprehensive fields.

Comprehensive Fields

Students may select from the following areas for their comprehensive examinations:

- U.S. History
- The Ancient and Medieval Worlds
- Modern Europe
- Public History
- Local and Community History

Written examinations will be scheduled to take place during a two week period following the spring and fall breaks.

MA in History - Thesis Program in Local and Community History

Admission to the MA program in history requires completion of an undergraduate major in history, or a minimum of 18 hours of history; a grade point average of 2.750 or better, including all undergraduate hours, and a 3.000 grade point average in history. Under unusual circumstances applicants with less than a 3.000 average in history may be granted a probationary admission. Applicants must submit one page Statement of Purpose, and a writing sample of no more than 20 pages to the graduate coordinator. International students are required to have a minimum TOEFL score of 600 paper-based, or 100 Internet-based, or an overall band score of 7.5 on the IELTS, or a score of 73 on the PTE-Academic. The application deadline for domestic and U.S. resident students for fall admission is March 15, and October 1 for spring admission. For international students, the deadlines are April 1 and August 1, respectively.

Total Credit Hours: 34

1 HIST 781, may be substituted for HIST 803 with the consent of the director of the local and community history program.

Comprehensive Fields

Students may select from the following areas for their comprehensive examinations:

- U.S. History
- The Ancient and Medieval Worlds
- Modern Europe
- Local and Community History

Written examinations will be scheduled to take place during a two week period following the spring and fall breaks.

Liberal Studies - Interdisciplinary

The Master of Arts in liberal studies (MALS) program is designed for people who wish to pursue a particular topical or interdisciplinary interest at the graduate level. The liberal studies program offers students an opportunity to design a program of study to answer their particular needs and interests in a focused, coherent manner.

Programs in Liberal Studies - Interdisciplinary

- MALS - Master of Arts in liberal studies (p. 168)
- Graduate Certificate in Great Plains Studies (p. 169)

Courses in Liberal Studies - Interdisciplinary

- Liberal Studies Interdisciplinary (LASI) (p. 296)

MALS - Master of Arts in Liberal Studies

Applicants must have a bachelor’s degree from an accredited institution. Applicants must also have a grade point average of 3.000 or better. No more than 6 credit hours of graduate credit from another institution will be considered for transfer into the liberal studies program.
Interested students must submit an application to the Wichita State University Graduate School. Applications must include two letters of recommendation, at least one of which addresses the student’s academic abilities. Students must also contact the MALS office for an initial interview with the graduate coordinator. In addition, students must complete a brief essay describing their motivation for selecting the liberal studies program, outlining their proposed areas of study and showing how the program will contribute to their educational and career goals. Deadlines for application are April 1 for the fall semester and October 1 for the following spring semester. Soon after the deadline, the MALS supervisory committee will meet. This committee, made up of graduate faculty representing the various disciplines, reviews and votes on each complete application.

The Liberal Studies Advisory Committee may request that the applicant submit Graduate Record Examination scores (verbal and quantitative).

Three graduate faculty members representing at least two of the three departments in which the student’s work will be concentrated should be secured as program advisors. One of these advisors, who must be a graduate faculty member of Fairmount College of Liberal Arts and Sciences, will serve as the student’s primary advisor and chair the student’s committee.

Before completing the first 12 credit hours of graduate work in the program, the student must:

1. Select members of the faculty thesis or terminal project committee and inform the graduate coordinator;
2. With the assistance of this committee, prepare a plan of study to be approved by the graduate coordinator and the Graduate School; and
3. Complete LASI 800, for 3 credit hours.

Once accepted by the Graduate School, the plan of study becomes the student’s individualized curriculum and any changes to it must be approved by the student’s thesis or terminal project committee.

Program Requirements
The structural framework for the degree is a plan of study, developed by the student in consultation with faculty in the program. It must include:

1. A minimum of 36 credit hours;
2. No more than 12 credit hours from any one department;
3. A maximum of 12 credit hours in a college other than liberal arts and sciences;
4. At least 22 of the 36 total credit hours in courses numbered 700 or above;
5. Completion of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Research Goals/Strategies</th>
</tr>
</thead>
<tbody>
<tr>
<td>LASI 800</td>

</tr>
</tbody>
</table>

Total Credit Hours 36

6. Completion of professional and scholarly training. Specific requirements vary depending upon concentrations and focus. Consult program for specific details.

Certificate in Great Plains Studies
Fairmount College of Liberal Arts and Sciences offers a graduate certificate in Great Plains Studies, an interdisciplinary program for professional or personal enrichment. This certificate is for students interested in taking a concentration of courses from a number of disciplines focusing on a common topic, the Great Plains.

Program Requirements
Graduate students must meet requirements for admission to the WSU Graduate School in a degree program or nondegree Category A status. They must have a cumulative grade point average of at least 3.000 for all courses comprising the graduate certificate program with no grade below C. The Graduate School does not accept transfer credit for certificate programs.

By the end of the student’s final semester, the student should submit to the coordinator at least three works that demonstrate the application of the concepts, issues, and topics of Great Plains Studies. Examples of these works may be a thesis, a conference paper or poster, a novel, a play, a work of nonfiction, a historic tour, historic performance, museum exhibit, policy paper, fieldwork notes, or collaborative event with a community or scholarly organization.

Students complete 15 credit hours of coursework.

Select 15 credit hours from the following courses, including at least two courses in each area

<table>

</tbody>
</table>

Total Credit Hours 15

Courses whose content may emphasize the Great Plains, depending on instructor and semester, may be counted toward the certificate provided they meet the proposed distribution requirements.

Any substitution of the listed course must be approved by the coordinator and must meet the subject domain distribution requirement.

Courses that do not meet the learning outcomes of the certificate will be taken off the approved course list.

For information and application procedures, please contact: Jay M. Price, coordinator, Great Plains Studies, 316-978-7792.

Linguistics
Although there is no graduate program in linguistics, the following courses are available for graduate study.

Linguistics courses fall into four categories:

Group A — Basic Linguistic Theory: LING 667, LING 672
Group B — Linguistic Study of Specific Languages or Language Groups: LING 505A, LING 505B, LING 505C, LING 635, LING 720

Group C — Areas of Contact Between Linguistics and Other Disciplines: LING 651, LING 740

Other — LING 590

Courses in Linguistics
• Linguistics (LING) (p. 297)

Mathematics, Statistics and Physics
The department of mathematics, statistics and physics offers courses of study leading to:
• the Master of Science (MS) degree in mathematics,
• the Doctor of Philosophy (PhD) degree in applied mathematics, and
• the Master of Science (MS) degree in physics.

Programs in Mathematics, Statistics and Physics
• MS in Mathematics (p. 170)
• MS in Physics (p. 170)
• PhD in Applied Mathematics (p. 171)
• Dual/Accelerated Bachelor’s to Master’s Program in Mathematics and Statistics (p. 170)

Courses in Mathematics, Statistics and Physics
• Mathematics (MATH) (p. 298)
• Physics (PHYS) (p. 331)
• Statistics (STAT) (p. 350)

Dual/Accelerated Bachelor’s to Master’s Program in Mathematics and Statistics
The dual/accelerated bachelor’s to master’s program in mathematics and statistics is a coordinated program leading to both a bachelor’s and master’s degree. Admission requirements (http://catalog.wichita.edu/undergraduate/fairmount-liberal-arts-sciences/mathematics-statistics-physics/mathematics/fast-track-dual-accelerated-bachelors-masters) for the program are given in the Undergraduate Catalog. A student admitted to the dual/accelerated program in mathematics and statistics as an undergraduate may take up to 9 joint degree credit hours — hours at the 700 level (or above) that are applied toward both the bachelor’s degree and master’s degree program requirements. A course taken for joint credit must be so identified at the time of enrollment in that course. A student in the dual/accelerated program will be admitted to the MS program in mathematics upon being awarded the bachelor’s degree if all admission requirements for the master’s program are satisfied at that time.

Students admitted to the dual/accelerated program are expected to write a thesis as part of their master’s degree program of study.

MS in Mathematics
Students will be admitted to full graduate standing if they have the equivalent of an undergraduate degree in mathematics, have a grade point average of at least 3.000 in mathematics courses, and meet Graduate School admission requirements.

Program Requirements
To complete the MS degree, students must earn 33 credit hours of graduate credit\(^1\), with a minimum of 24 credit hours in courses in mathematics or statistics offered by the department (exclusive of thesis) numbered 700 or above. The 33 credit hours must include the completion of three two-semester sequences in mathematics and/or statistics numbered 700 or above.

Students who plan to enter the PhD program in applied mathematics should include Real Analysis I and II (MATH 743 and MATH 843) and Numerical Linear Algebra (MATH 751) in their MS program of study.

Generally not more than 6 credit hours of approved coursework may be transferred from another university. Students may take either a thesis or a nonthesis option. Students electing to write a thesis should enroll in MATH 885 for up to 6 hours credit. A student’s program must be approved by the department.

An oral comprehensive examination is required of all degree candidates. For students electing the nonthesis option, the exam covers four courses, numbered 700 or above, chosen by the student. For students electing the thesis option, the comprehensive examination takes place at the same time as the thesis defense. The examination normally concentrates on the thesis, plus possibly two courses, numbered 700 or above, chosen by the student.

A student in the PhD program in applied mathematics who does not have a previous master’s degree in mathematics will be eligible to receive the MS degree in mathematics upon satisfying the following:

1. Completion of at least 33 credit hours in mathematics courses applicable toward the PhD degree course requirements, and
2. Passing the PhD qualifying exam. In such cases the qualifying exam will constitute the comprehensive exam for the MS degree.

\(^1\) Complex and Vector Analysis for Engineers (MATH 758) and mathematics or statistics courses numbered below 600 do not count toward the 33 credit hours needed for the MS in mathematics.

MS in Physics
Through its Master of Science (MS) degree program, the physics group in the department of mathematics, statistics and physics helps students prepare for doctoral work in physics or for STEM related jobs in research and industry.

The MS degree program is flexible, allowing students to design their studies to meet their educational or career goals. Students may combine the study of physics with interest in such fields as astronomy, engineering, geology, computer science, mathematics and education.

Admission
Admission to the MS program in physics requires the completion of 24 credit hours of undergraduate physics, including 3 credit hours of mechanics and 3 credit hours of electricity and magnetism. Graduate School admission requirements must also be met.

Program Requirements
The MS degree in physics requires the successful completion of a plan of study approved by the student’s advisor and the director of physics/department chairperson. Two options are available: a 36-hour nonthesis program, and a 30-hour program that includes a research project written as a thesis.

Select at least 12 credit hours in courses numbered 800 or above, the following are recommended by the department:
A maximum of 36 credit courses numbered above 800 (exclusive of courses may not be included: At least 36 credit hours must be in mathematics, statistics and physics courses numbered below 700. Courses used toward a master’s degree may be included. A maximum of 36 credit hours may be transferred from another university at the discretion of the student’s committee.

**Professional and Scholarly Integrity Training Requirement**

Students are required to take and pass the following four Collaborative Institutional Training Initiative (CITI) modules for the physical sciences: research misconduct; practices and responsible authorship; conflicts of interest and commitment; data acquisition, management sharing and ownership. This should be done during the first year as a student in the program.
Language Requirements
The student must demonstrate proficiency either in two foreign languages or in one foreign language and one high-level computer language. The foreign languages are Chinese, French, German and Russian. The language proficiency will be demonstrated by passing an examination that consists of the translation, with the use of a dictionary, of one or more passages of mathematics text from the foreign language into English.

Residency Requirement
The student must complete at least one academic year in residence as a full-time student at WSU.

Qualifying Exam
The qualifying exam is a written exam administered near the middle of both the fall and spring semesters. The student will choose to be examined in two of the following four areas:

1. Real analysis;
2. Numerical linear algebra;
3. Statistics;
4. Physics.

A student who does not pass on the first attempt may be permitted to take the exam a second time. A person who retakes the exam must retake the entire exam. The exam may be retaken only once.

PhD Committee
Upon the student passing the qualifying exam, the candidate for the PhD degree. The PhD committee consists of the student’s dissertation advisor as chair and four other members. At least one, but no more than two, of the committee members shall be from departments outside the department of mathematics, statistics and physics. Within one semester after passing the qualifying exam the student should submit a plan of study to the committee for approval. This committee serves as examining committee for both the preliminary and final exams.

Preliminary Exam
The preliminary exam covers specific topics relevant to the student’s research area as determined by his or her PhD advisor. The student should meet with their advisor to set the topics to be covered. For full-time students, the exam should normally be taken about one year after passing the qualifying exam. Before the preliminary exam is taken, one of the two language requirements must be satisfied. A student who fails the preliminary exam may be permitted to retake the exam if the committee so determines.

Dissertation and Final Exam
Upon passing the preliminary exam, the student becomes a candidate for the PhD degree. Soon thereafter the student must submit a written dissertation proposal to his or her committee for approval. While working on the dissertation, the student should enroll for a total of at least 18 credit hours of PhD dissertation. The student must be enrolled at the university during each semester after admission to candidacy until completion of the dissertation. After the dissertation is completed, the student must present and defend it before the committee. This defense constitutes the final exam. The dissertation defense is open to the public.

Modern and Classical Languages and Literatures

Spanish
The department of modern and classical languages and literatures offers courses of study leading to the Master of Arts (MA) degree in Spanish.

Programs in Spanish
- MA in Spanish (p. 172)

Courses in Spanish
- Spanish (SPAN) (p. 348)

Note: Upper-division courses are given on a rotating basis. SPAN 300 is a prerequisite for all upper-division literature and civilization courses, unless otherwise indicated.

MA in Spanish
Admission to the Master of Arts program requires a 3.000 GPA in Spanish. Non-native speakers must have completed 24 credit hours of undergraduate Spanish beyond the basic language courses (for example, WSU classes SPAN 111, SPAN 112 and SPAN 210); 8 of these 24 credit hours should be at the junior-senior level (WSU classes 300 and above). Native speakers must have completed 12 credit hours of Spanish at the junior-senior level.

Program Requirements
The MA degree in Spanish requires:

- The completion of 32 credit hours beyond the BA degree, including at least two seminars that require research papers from the following:
  - SPAN 623 Seminar in Spanish 2-3
  - SPAN 831 Seminar in Spanish Literature 3
  - SPAN 832 Seminar in Latin-American Literature 3

- A maximum of 9 credit hours of related fields may be included in the plan of study. Related fields typically include another foreign language; English, American and foreign literatures; art, Latin American history, or geography. All related field courses must be approved by the chairperson of the department of modern and classical languages and literatures or the graduate coordinator.
- A minimum of 23 credit hours of Spanish (and maximum of 32 credit hours of Spanish on the plan of study), must include the following:
  - SPAN 526 Advanced Spanish Grammar and Composition 3

School and the psychology department by December 1 for the clinical application for admission should be filed with the dean of the Graduate Deadlines psychological statistics and experimental psychology.

Applicants are not required to have an undergraduate degree in psychology, but must have completed courses in general psychology, prerequisites.

**PhD in Psychology**

**Courses in Psychology**

- Psychology (PSY) (p. 334)

**Programs in Psychology**

- PhD in Psychology (p. 173)

**Requirements**

Applicants are not required to have an undergraduate degree in psychology, but must have completed courses in general psychology, psychological statistics and experimental psychology.

**Deadlines**

Application for admission should be filed with the dean of the Graduate School and the psychology department by December 1 for the clinical psychology program and January 15 for the community and human factors programs, for enrollment the following fall. Students applying after the deadlines may be considered if any openings in the programs remain. Applicants are informed of admission decisions around April 1 of each year.

**Materials**

Applicants will be required to fill out the online Graduate School Application (http://wichita.edu/gradapplication), where they will be required to upload/provide the following:

- contact information for three people to serve as references (people acquainted with the applicant’s academic background and potential);
- personal essay;
- supplemental information (honors, scholarships, employment history, etc.);
- professional article sample (articles, presentations, projects, etc.); and
- scores (verbal and quantitative) on the Graduate Record Exam (GRE).

Applicants are evaluated with respect to their undergraduate grade point average, stated career goals; amount, type and scope of undergraduate preparation, reference letters and GRE scores.

**Program Requirements**

Required of all students. Must be completed with a B (3.000 or better).

<table>
<thead>
<tr>
<th>Methods Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 902</td>
<td>Advanced Research Methods I</td>
</tr>
<tr>
<td>PSY 903</td>
<td>Advanced Research Methods II</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Teaching and Ethics</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 911</td>
<td>Teaching of Psychology: Principles, Practices and Ethics</td>
</tr>
</tbody>
</table>

(Note: a grade of B (3.000) or better must be earned in each of the methods courses. Students may retake these courses once. Failure to meet this requirement may lead to dismissal from the program.)

**Second Year Project**

All students must complete a predoctoral research program resulting in a document similar to a manuscript ready for journal submission. The student must enroll in PSY 901 each semester (excluding summers) until the project is completed.

**Post Second Year Project Research**

After completion of the second year project requirement, all students will enroll in PSY 909 each semester until the successful completion of qualifying exams.

Community and Clinical students must have completed a minimum of 10 credit hours of PSY 901 and/or PSY 909. Human factors students must complete a minimum of 18 credit hours of PSY 901 and/or PSY 909. (Note: Neither PSY 901 nor PSY 909 may be used for electives.)

**Qualifying Examination**

Students take a qualifying examination upon completion of all foundation and method courses and most program courses. On passing this examination, students can be admitted to doctoral candidacy.
**Dissertation**

All students seeking the PhD are required to complete a dissertation. The dissertation ordinarily is a major research project. A formal written proposal must be approved by the student’s dissertation committee prior to beginning the project. A student must be enrolled in PSY 908 any time a student is working on his or her dissertation (including summers). A minimum of 12 credit hours of PSY 908 must be earned. In addition to regular course examinations, all students must pass an oral examination based on their dissertation.

**Additional Program Requirements**

**Human Factors**

*Required Courses (Must be completed with a B (3.000) or better)*

<table>

**Calculus Tool**

HFES accreditation requires that human factors students demonstrate a competency in calculus before admission to candidacy. This requirement may be satisfied by:

1. Satisfactorily completing a college-level calculus course;
2. Demonstrating proficiency on an exam; or
3. Providing other evidence of such skills.

**Internship**

Students must complete a three-month research internship (1 credit hour). It is the student’s responsibility to develop his or her internship setting.

**Community**

**Community Required Courses**

Select two of the following: 6

| PSY 941 | Applied Research Methods in Community Settings 2 |
| PSY 942 | Seminar in Community and Organizational Intervention |
| PSY 943 | Seminar in Prevention 2 |

**Clinical Elective Courses**

Select 3 credit hours in assessment courses 3
Select 6 credit hours in intervention courses 6
A one-year (2000 hour) clinical internship (APA or APPIC approved) is required. To apply for a clinical internship, students must have completed all required courses, qualifying examinations, and be internship ready as defined by APPIC.

Note: If PSY 941 or PSY 943 is used here it cannot be used to satisfy the clinical elective requirements.

Elective course choice depends on the student’s unique professional goals, and is made in consultation with the student’s faculty advisor. Students must take sufficient electives to total 101 credit hours.

Time Limits
Students should be aware that the Graduate School requires completion of the degree no later than 9 years after admission. The psychology department expects all degree-bound students to make satisfactory progress toward the completion of their degree program.

Public Affairs, Hugo Wall School of
The Hugo Wall School of Public Affairs advances excellence in public service through integrated instruction, research and community service. This focus results not only in an excellent graduate education for students, but also allows a special connection with the community’s needs through research and professional service. By integrating teaching, research and service, the school makes a distinctive contribution to Wichita State University’s long-standing commitment of service to Wichita, the surrounding communities, the state of Kansas, and the region.

The school serves as the academic home for the Master of Public Administration degree, the Environmental Finance Center and the Kansas Public Finance Center. Through these units, faculty, staff and students blend teaching, research and community engagement in the interdisciplinary field of public affairs. Students completing the Master of Public Administration degree gain experience through hands-on research, and network with practitioners in the fields of public and nonprofit administration.

Financial Assistance
The school has two forms of financial aid available that provide recipients opportunities to be directly involved with research and service projects. Financial aid in the form of graduate assistantships and fellowships is awarded competitively on the recommendation of the faculty in the Hugo Wall School of Public Affairs.

Graduate assistants work directly with faculty and professional staff on research and community service projects through the Environmental Finance Center and the Kansas Public Finance Center. Graduate assistants work 20 hours per week with faculty and staff in the school’s research and public service activities.

The Hugo Wall School has four endowed fellowships available for financial assistance to qualifying graduate students enrolled in the Master of Public Administration degree. Preference is given to graduate assistants. These fellowships — the Hugo Wall, George Pyle, Mike Hill, and George Van Riper — are awarded on a competitive basis to students with exemplary records and specific career interests in the field of public administration.

Public Administration
Master of Public Administration
The Master of Public Administration (MPA) degree program, with instruction in public management, public finance and public policy, prepares students for positions of leadership in public and nonprofit organizations. The Master of Public Administration program is accredited by the Network of Schools of Public Policy, Affairs and Administration.

The Master of Public Administration (MPA) degree draws upon the methods and perspectives of the social and behavioral sciences, economics and the humanities. The link between these disciplines and the challenges of public management are emphasized through the use of practitioners in the classroom, policy-relevant research assignments, public affairs seminars and internships. Teaching faculty, with significant professional experience in state and local government, are engaged in cutting-edge research relevant to public and nonprofit organizations in Kansas. This experience allows faculty to bring relevant perspectives on public management into the classroom.

Graduates of the MPA degree program now hold positions of responsibility in state and local government and in nonprofit agencies throughout the United States and in other countries. Graduates serve as city managers and department heads, program managers, finance directors, budget analysts, management analysts and agency planners. Although the majority are employed in public service, some graduates of the program have taken positions in the private sector, while still others have pursued additional study in law, doctoral education or other specializations.

Graduate Certificates
Students seeking any of the graduate certificates in public administration must be graduate students in good standing either in a degree bound program or in nondegree, Category A status. Students should contact the Graduate School to determine if they need to apply for admission to this status, or need to reactivate their enrollment file. Students who have not completed graduate coursework at Wichita State University will need to apply for admission to degree status or nondegree, Category A status in public administration, by submitting an application and application fee to the Graduate School. Two official transcripts from all prior schools attended must be sent directly to the Graduate School from the institution issuing the transcript, or must be submitted to the Graduate School office in envelopes sealed by the issuing institution, if issued to student. Admission to pursue a certificate program in public administration requires a GPA of 3.000 (4.000 system) in the last 60 credit hours of coursework, including any postgraduate work.

Courses in Public Administration
- Public Administration (PADM) (p. 326)

MPA - Master of Public Administration
The faculty in the Hugo Wall School of Public Affairs recruit students for the Master of Public Administration degree who are highly qualified and motivated to serve in positions of leadership in public and nonprofit organizations. A mix of preservice and inservice students are recruited for the degree program. Preservice students are generally those who have recently graduated with a baccalaureate degree, have limited work experience, and want to work toward a degree on a full-time
basis. Inservice students are generally those who have relevant work experience and want to continue working while pursuing a degree on a part-time basis.

The Master of Public Administration degree is designed for students to begin study in the fall semester. Admission is on a rolling basis, but the deadline for consideration for an assistantship or fellowship is April 1 for fall, and November 1 for spring. The program can be completed online or on campus.

**Admission**

Admission to the Master of Public Administration degree requires students to have completed an undergraduate degree from a regionally accredited college or university and have a grade point of at least a 3.000 (4.000 system) in the last 60 credit hours of coursework, including any postgraduate work. International students must attain a minimum score of 757 paper-based, or 88 Internet-based on the Test of English as a Foreign Language (TOEFL), or an overall band score of 7.0 on the IELTS, or a score of 65 on the PTE-Academic.

**Application requirements:**

1. Applicants must submit the online application through the Graduate School website. Students will be asked, as a part of that application, to upload/provide the following:
   a. Copies of official transcripts from all schools previously attended;
   b. A letter of application outlining a student’s career plans and how the MPA degree would further those plans;
   c. A resume including the student’s work and volunteer experience; and
   d. Contact information for two people with direct knowledge of a student’s work experience or academic performance, to provide letters of reference.

**Note:** Students are required to have an intermediate level of skill or better using word processing, spreadsheet and presentation software programs. Programs such as Word, Excel and PowerPoint, which are provided on the Wichita State University campus, or their equivalents are acceptable. Students can obtain these skills by taking short courses and through other means.

Faculty will consider exceptions to the minimum grade point requirement based on a student’s academic record, career plans, work and volunteer experience, and letters of reference. In reviewing requests for exceptions, faculty give consideration to achieving a diverse student body, racially and culturally, and a balance of preservice and inservice students.

**Program Requirements**

The Master of Public Administration degree consists of 39 graduate credit hours, taken over at least three semesters of study.

<table>

**Electives**

In addition to the core, students develop a plan of study for 15 credit hours of electives which must be approved by an advisor.

**Total Credit Hours** 39

**Internships**

Internships are an important part of the MPA program. Preservice students are encouraged to take an internship which must last at least nine months. Internship (PADM 890) carries 3 hours of credit and includes attendance at periodic seminars. Intern positions are remunerative and are awarded on a competitive basis. Although placement cannot be guaranteed, the public administration program has an excellent placement record.

**Certificate in City & County Management**

This graduate certificate program offers advanced study in city and county management. The program enhances students’ career opportunities and provides state and local practitioners in city and county management an avenue to improve their skills. The required courses are:

<table>

</tbody>
</table>

Total Credit Hours 12

Successful completion of these certificate requirements is noted on the student’s university transcript, and a graduate certificate is awarded by Wichita State University. Application for the certificate program requires completion of a bachelor’s degree, core prerequisites and admission to the Graduate School.

Religion
Courses in Religion
• Religion (REL) (p. 341)

Note: Although there is no graduate program in religion, these courses may be taken for graduate credit.

School of Social Work
The Master of Social Work (MSW) degree program has an emphasis in advanced generalist practice and is designed for people who are interested in entering the social work profession at an advanced professional level.

MSW Program Mission
The mission of the Master of Social Work program at Wichita State University is to prepare graduates for autonomous advanced generalist practice. This mission is accomplished through the preparation of advanced social workers capable of practice in complex, diverse and ever-changing environments. Emphasis is placed on developing evidence-based knowledge and skills for ethical, culturally competent, socially just and empowering interventions on all practice levels.

Applied Learning
MSW Regular Program (first year): Students in the MSW regular program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing a practicum experience in SCWK 720 and SCWK 721. These classes have both an on-campus seminar that reflects on experiences in the 480 hours combined of required supervised placement in a social service agency in the Wichita community, or the student's own community if possible. Each student must meet with a field instructor at the agency for supervision and attend a university class with a field liaison that provides the reflective feedback for the educational tie to the Council on Social Work Education's — Education Policy and Accreditation Standards.

MSW Advanced Standing Program and Regular Program (second year): Students in the MSW advanced standing program and the regular program (second year) are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing a practicum experience in SCWK 822 and SCWK 823. These classes have both an on-campus seminar that reflects on experiences in the 480 hours combined of required supervised placement in a social service agency in the Wichita community, or the student's own community if possible. Each student must meet with a field instructor at the agency for supervision and attend a university class with a field liaison that provides the reflective feedback for the educational tie to the Council on Social Work Education's — Education Policy and Accreditation Standards.

Accreditation Status
The MSW program is accredited by the Council on Social Work Education (CSWE).

Licensure
Graduates of the MSW program are eligible for licensure. Contact the School of Social Work or the Behavioral Sciences Regulatory Board for further information.

Programs in the School of Social Work
• MSW - Master of Social Work (p. 178)

Courses in the School of Social Work
• Social Work (SCWK) (p. 341)
MSW - Master of Social Work

Regular and Advanced Standing

The School of Social Work offers a regular program of study for applicants not having a baccalaureate degree in social work. In addition to the regular program, the School of Social Work offers an advanced standing program. In order to qualify for advanced standing, applicants must have an undergraduate degree in social work from a social work program accredited by the Council on Social Work Education. Advanced standing students must complete 37 credit hours. Regular program students must complete 63 credit hours.

Full- and Part-Time Enrollment Options

At the time of admission, applicants must designate their choice to be admitted into either the full-time or the part-time track. Given the highly structured nature of the MSW curriculum, applicants admitted to either the full-time or part-time track will be required to remain in that track throughout the course of their studies. Applicants should give careful consideration and make advanced preparation (work schedule, personal and family responsibilities) before choosing either the full- or part-time option. Applicants admitted into the full-time regular program enroll in a designated summer course and four full-time semesters, consisting of 12–14 credit hours a semester, not counting summer semester. All students, regular and advanced standing, are required to take SCWK 760 in the summer semester.

Applicants admitted into the part-time regular program must enroll in 6–10 credit hours a semester, and complete the degree within four years. Applicants admitted into the part-time advanced standing program must complete degree requirements in two years.

The MSW curriculum is highly structured. All courses in either the full-time or part-time regular or advanced standing program must be taken in exact sequence and in the semester in which they are offered as specified in the Master of Social Work course of study plan. Most MSW courses also have specified prerequisites and/or corequisites that must be adhered to before enrolling in subsequent coursework or before entering practicum placement. Most courses are only offered once a year. It is the student’s responsibility to follow precisely the course of study plan. Enrolling in courses outside of the sequence or failure to enroll in corequisite courses has an impact on practicum placements and will, at the very least, delay a student’s progress toward graduation and may be grounds for termination from the program. No course may be taken outside the student’s program plan of study.

Transfer of Academic Credit

Upon admission to the MSW program, requests for transfer of academic credits from another CSWE accredited MSW program will be considered on a case-by-case basis. Only courses taken in a CSWE accredited Master of Social Work program will be eligible for transfer of credits at the time of admission to the MSW program. No more than 12 total credit hours of graduate social work course credit will be accepted for transfer for either regular or advanced standing applicants. Only foundation level courses such as Micro and Macro Human Behavior in the Social Environment, Social Welfare Policy and Analysis, Fundamentals of Social Work Research and no more than six graduate social work electives, if applicable to WSU’s advanced generalist MSW program, will be considered for transfer credit. No transfer credit will be granted for hours completed as part of a practicum or internship placement. Applicants requesting transfers of credit upon admission to the MSW program must have received a grade of B or better in the course(s) being considered for transfer, and the course must have been successfully completed within the previous six years prior to the student’s enrollment in the MSW program. Pass/fail courses will not be accepted for transfer. See MSW Program Policy and Student Manual for specific guidelines related to transfer of elective credit after full admission to the MSW program.

Admission

Admission to the MSW program requires that the applicant:

1. Have a baccalaureate degree from an accredited four-year institution(s) acceptable to the Graduate School;
2. Have evidence of a liberal arts background from an accredited college or university prior to enrollment. Applicants should be knowledgeable about and committed to the advancement of diversity, humanistic values and ethics, resolving social problems, improving social conditions, and understanding factors shaping human behavior;
3. Have a grade point average of at least 2.750; and
4. Submit completed applications to both the MSW program and the Graduate School, no later than December 15, at 5 p.m.

Nonacademic Factors for Admission

Nonacademic considerations include experiences in providing social services, references and personal narratives. Measures of volunteer as well as paid experience in social services contribute to candidate rankings. References are primarily asked to provide an indication of the applicant’s suitability for entrance into the profession. Indicators of readiness for graduate studies and of suitability for the profession are drawn from descriptions of life experience, motivation, career goals and values as described in the applicant’s personal statement and references.

Admission Procedure

To be considered for admission, applicants must do the following:

1. Complete an MSW application packet which can be accessed online (http://wichita.edu/socialwork);
2. Submit to the Graduate School the designated application for admission and supporting transcripts; and
3. Submit to the School of Social Work, by 5 p.m., December 15, a completed MSW application form, personal statement and three references, and unofficial student transcript(s).

Electronic submission is preferred. Records will be reviewed when all materials have been submitted and received by the School of Social Work. All supporting documentation and application materials must be on file with the Graduate School and the School of Social Work by the December 15th deadline. The School of Social Work MSW program does not have a year-round admission review process. Admission review will begin shortly after the December 15th submission deadline and applicants will be notified of their admission status by the Graduate School. Admission review will not begin prior to the December 15th application deadline nor after final admission decisions are determined. Incomplete applications will not be reviewed.

Field Practicum Requirements

Students enrolled in the regular MSW program (63 credit hours) will be required to complete a total of 1180 agency-based clock hours in Field Practicum placement during their course of study. For their foundation year practicum, 240 hours per semester, or 480 total hours of field experience are required; for the advanced generalist year practicum, 350 hours per semester, or 700 total hours are required. Students enrolled in the Advanced Generalist Practicum will complete 350 agency-based clock hours per semester, or 700 total hours. Admission to social work practice and practicum classes is absolutely restricted to social work
students who have been formally admitted to Foundation or Advanced Generalist Practicum.

**Life Experience**
In accordance with Council on Social Work Education accreditation requirements, academic credit will not be given for life experience or work experience in coursework or field practicum.

There will be no credit towards the social work degree for prior life or work experiences.

**Nondegree Students**
Persons who already possess a graduate degree, who do not want to seek an additional graduate degree at this time, or who wish to take graduate courses for professional advancement or personal satisfaction must apply for nondegree admission with the Wichita State University Graduate School. Students wishing to enroll in select graduate social work courses in a nondegree category may do so on a space available basis. Under such nondegree admission, students may take up to a maximum of 12 credit hours of MSW graduate credit in only the following specified foundation level courses including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCWK 710</td>
<td>Micro Human Behavior and the Social Environment</td>
<td>3</td>
</tr>
<tr>
<td>SCWK 712</td>
<td>Macro Human Behavior and the Social Environment</td>
<td>3</td>
</tr>
<tr>
<td>SCWK 717</td>

<td>3</td>
</tr>
<tr>
<td>SCWK 751</td>
<td>Fundamentals of Social Work Research</td>
<td>3</td>
</tr>
</tbody>
</table>

700-level MSW graduate electives when offered

Total Credit Hours: 12

Students wishing to seek full admission to the MSW program must follow the normal admission procedures for both the Graduate School and the School of Social Work. Enrolling and successfully completing any or all of the above specified courses as a nondegree student does not automatically guarantee full admission to the MSW program.

A maximum of only 12 credit hours taken prior to acceptance and full admission to the MSW program may be applied toward the MSW degree. Only students fully admitted into the MSW program may enroll in practice and field practicum courses.

**Program Requirements**
The curriculum for the regular MSW program consists of 63 credit hours — 47 credit hours of classroom work and 16 credit hours of supervised practicum. The curriculum for the advanced standing program consists of 37 credit hours — 29 credit hours of classroom work and 8 credit hours of supervised practicum. The 63 credit hours for regular standing students and the 37 credit hours for advanced standing students includes 9 credit hours of graduate-level electives. Social work graduate elective courses are offered in the summer, spring and fall semesters of each year. Students must maintain a 3.000 grade point average; a grade of 2.000 is the minimum passing grade.

### Advanced Standing Program

**Concentration Electives — Select 9 credit hours of graduate-level electives**

Total Credit Hours: 37

### Thesis Option
Students are not required to complete a thesis, but do have the option of completing a thesis as part of their MSW degree. The thesis option

1 The Field Practicum courses require the following supervised hours in a social work setting:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCWK 720</td>
<td>240 hrs. (15 hrs. a week over 16 weeks)</td>
<td>4</td>
</tr>
<tr>
<td>SCWK 721</td>
<td>240 hrs. (15 hrs. a week over 16 weeks)</td>
<td>4</td>
</tr>
<tr>
<td>SCWK 822</td>
<td>350 hrs. (21–23 hrs. a week over 16 weeks)</td>
<td>4</td>
</tr>
<tr>
<td>SCWK 823</td>
<td>350 hrs. (21–23 hrs. a week over 16 weeks)</td>
<td>4</td>
</tr>
</tbody>
</table>
requires a total of 3 credit hours of thesis coursework (SCWK 800). Students must be enrolled in at least 1 credit hour of thesis during the semester of graduation. Thesis hours can count toward the required 9 credit hours of electives. Students who are interested in the thesis option should discuss their interest with the MSW program director prior to enrolling in the advanced (800-level or higher) curriculum.

**Applied Learning**
MSW Regular Program (first year): Students in the MSW regular program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing a practicum experience in SCWK 720 and SCWK 721.

MSW Advanced Standing Program and Regular Program (second year): Students in the MSW advanced standing program and the regular program (second year) are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by completing a practicum experience in SCWK 822 and SCWK 823.

**Sociology Master of Arts**
The sociology department offers courses of study leading to the Master of Arts (MA) degree with options for thesis and nonthesis programs. The sociology MA program offers a structured two-year series of courses that provide a strong foundation in sociological theory, research methods and statistics.

WSU’s sociology department emphasizes a social justice perspective, and students develop insights about the effects of social structures on individual lives and communities. For example, faculty research focuses on issues such as teen dating violence, sexual minority well-being, runaway youth, gentrification, educational policy, and caregiving in later life. Programs prepare students for employment in a number of different fields: graduates work in a number of different research positions and non-profit agencies, and many have gone on to competitive PhD programs across the nation.

To learn more about the program, please visit the sociology department webpage (http://wichita.edu/sociology).

Questions? Contact the graduate coordinator: jennifer.pearson@wichita.edu.

**Programs in Sociology**
- MA in Sociology (p. 180)

**Courses in Sociology**
- Sociology (SOC) (p. 346)

**MA in Sociology**
In addition to the Graduate School requirements for admission, the department of sociology requires:

1. A grade point average of at least 3.000 overall;
2. One college algebra course and at least 15 credit hours in sociology including an introductory sociology course, one descriptive and inferential statistics course, two research methods courses, and one theory course (similar courses in other fields of study may be substituted at the discretion of the graduate coordinator);
3. Three letters of reference from professors who are familiar with the student’s undergraduate coursework; and
4. A typed, double-spaced statement of purpose (approximately 500 words) articulating the student’s area of research interests and academic/career goals.

Application for admission should be filed with the Graduate School and the sociology department by March 1 for enrollment the following fall. Students applying later may be considered if any openings in the program remain.

**Program Requirements**
Students pursuing the MA degree in sociology may follow either a thesis or a nonthesis program.

Sixty percent of the credit hours in either program must be 700 level or above.

**Thesis Program**
Students in the thesis program must take a total of 32 credit hours, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 860</td>
<td>Proseminar - Sociology</td>
<td>3</td>
</tr>

<td>Thesis</td>
<td>3</td>
</tr>
</tbody>
</table>

Select sufficient electives (500-level or above) to total 32 credit hours including:

- One 800-level graduate seminar

Total Credit Hours 32

A maximum of 6 thesis credit hours can be counted toward program requirements.

**Nonthesis Program**
Students in the nonthesis program must take a total of 34 credit hours, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 860</td>
<td>Proseminar - Sociology</td>
<td>3</td>
</tr>

<td>Advanced Research: Qualitative Methods</td>
<td>3</td>
</tr>
<tr>
<td>SOC 845</td>
<td>Seminar in Sociological Theory</td>
<td>3</td>
</tr>
</tbody>
</table>

Complete 6 credit hours of the following course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 851</td>
<td>Directed Project</td>
<td>6</td>
</tr>
</tbody>
</table>

Select sufficient electives (500-level or above) to total 34 credit hours, including:

- Two 800-level graduate seminars

Total Credit Hours 34

**Applied Learning**
Students enrolled in the MA in sociology program are required to complete an applied learning or research experience to graduate. For thesis-track students, the requirement can by met by completing a master’s thesis and oral defense. For non-thesis track students, this can be achieved through the completion of the directed project.

**Examinations**
Students electing the thesis program in sociology must pass an oral defense of the thesis. The maximum number of attempts is two. If a student does not pass the oral defense on the first attempt, he or she
may choose to switch to the nonthesis program or to make a second attempt at the oral defense. A student who does not pass the second attempt will be terminated from the program without a degree.

**Women's Studies**

Women's studies may be included as one of two or three areas of interest under the MA degree in liberal studies, an individually designed, interdisciplinary graduate program (described in the Fairmount College of Liberal Arts and Sciences, Liberal Studies section of the Graduate Catalog). In other areas, such as the community/clinical program in psychology, students may orient course electives and thesis research to accommodate an interest in women's studies.

**Courses in Women's Studies**

- Women's Studies (WOMS) (p. 353)
Graduate Faculty (as of January 31, 2018)

See "Graduate Faculty" (p. 13) for more information about graduate faculty membership.

Gordon, Deborah A., Associate Professor, Department of Women's Studies and Religion (1992). BA, University of California-Davis, 1978; PhD, University of California-Santa Cruz, 1991.

Graham, Gerald H., Clinton Distinguished Professor, Department of Management (1967). AA, Pamols Junior College, 1957; BS, Northwestern State University, 1957; MS, 1960; PhD, Louisiana State University, 1968.

Gray, Keith D., Assistant Professor, Department of Geology (2014). BS, New Mexico State University, 1995; MS, University of Idaho, 2001; PhD, Washington State University, 2012.

Gregus, Samantha J., Assistant Professor, Department of Psychology (2017). MA, University of Arkansas, 2013; PhD, 2017.

Griffith, Jean C., Associate Professor, Department of English; Tilford Coordinator, Division of Academic Affairs (2007). BA, Boston College 1993; MA, Temple University, 1996; PhD, Texas A&M University, 2003.

Grouitas, William C., WSU Foundation Distinguished Professor, Department of Chemistry (1980). BS, American University of Beirut, 1969; PhD, University of Kentucky, 1973.

Gu, Shuang, Assistant Professor, Department of Mechanical Engineering (2015). BS, Dalian University of Technology, 2000; PhD, 2008.

Hackett, Donald W., Associate Professor and Kansas Family Business Fellow, Department of Management (1973). BBA, University of Oklahoma, 1967; MBA, 1970; PhD, 1974.

Hager, Kevin E., Associate Professor, Elliott School of Communication (1998). BA, Fort Hays State University, 1982; MS, 1983.

Hakansson, Nils A., Assistant Professor, Department of Biomedical Engineering (2011). BA, Duke University, 1988; MS, University of California-Davis, 2003; PhD, 2008.

Hale, LaDonna S., Professor and Director of Assessment, Physician Assistant Program (1997). BS, University of Kansas, 1995; PharmD, 1996.

Hall, Michael G., Associate Professor, Department of Political Science (2008). BS, University of Pittsburgh, 1991; MA, University of California-Santa Barbara, 1997; PhD, 2002.

Hanawalt, Michael J., Assistant Professor and Director of Choral Activities, School of Music (2012). BM, St. Olaf College, 2000; MM, Michigan State University, 2009; PhD, Florida State University, 2012.
Hawley, Suzanne R., Professor, Department of Public Health Sciences (2011). AA, Victor Valley College, 1990; BA, California State University-San Bernardino, 1993; MA, 1995; MPH, Loma Linda University, 1999; PhD, 2002.

Hayton, Jeffrey P., Assistant Professor, Department of History (2014). BA, McMaster University, 2002; MA, 2003; PhD, University of Illinois, 2013.

He, Jibo, Associate Professor, Department of Psychology (2012). BS and BA, Peking University, 2007; MA, University of Illinois Urbana-Champaign, 2010; PhD, 2012.

Held, Alan J., Associate Professor and Ross Faculty of Distinction, Program Director of Opera, School of Music (2014). BM, Millikin University, 1987; MM, Wichita State University, 1983.

Hellman, James L., Associate Professor, School of Art, Design and Creative Industries (1975). BA, Wichita State University, 1972; MA, 1975; MFA, Kansas State University, 1995.

Hendry, William J., Professor and Department Chair, Department of Biological Sciences (1991). BA, Northeastern University, 1974; MA, 1978; PhD, Clark University, 1982.

Henry, Robin C., Associate Professor, Department of History (2006). BA, Austin College, 1998; MA, University of Massachusetts-Amherst, 2000; PhD, Indiana University, 2006.

Hepburn, Brian S., Assistant Professor, Department of Philosophy (2014). BA, University of Lethbridge, 1999; PhD, University of Pittsburgh, 2007.

Herron, Jason P., Assistant Professor, Department of Counseling, Educational Leadership, Educational and School Psychology (2015). MEd, University of Oklahoma, 2013; PhD, 2015.

Hersch, Philip L., Professor and Barton Fellow, Department of Economics (1983). BA, Queens College, 1974; MA, Ohio State University, 1978; PhD, 1982.

Hershfield, Jeffrey A., Associate Professor and Department Chair, Department of Philosophy; Director, Master of Arts in Liberal Studies Program, Fairmont College of Liberal Arts and Sciences (1995). BA, University of British Columbia, 1982; MA, University of Arizona, 1985; PhD, 1992.

Hertzog, Jodie L., Associate Professor and Department Chair, Department of Sociology (2003). BS, Grand Valley State University, 1994; MA, Western Michigan University, 1997; PhD, Purdue University, 2003.

Ho, Lop-Hing, Associate Professor, Department of Mathematics, Statistics and Physics (1989). BS, Chinese University of Hong Kong, 1979; MA, Princeton University, 1982; PhD, 1984.

Hoffmann, Klaus A., Gordon Distinguished Professor, Department of Aerospace Engineering (1990). BS, University of Texas-Austin, 1972; MS, 1975; PhD, 1983.

Houseman, Gregory R., Associate Professor, Department of Biological Sciences (2008). BA, Cornerstone University, 1990; MS, Illinois State University, 1998; PhD, Michigan State University, 2004.

Hu, Xiaomi, Professor, Department of Mathematics, Statistics and Physics (1994). BS, Jiangxi Polytechnic University, 1982; PhD, University of Missouri-Columbia, 1993.

Huckstadt, Alicia A., Professor and Director, Doctor of Nursing Practice Program, School of Nursing (1975). BSN, Wichita State University, 1975; MN, 1978; PhD, Kansas State University, 1981; PhD, University of Colorado, 1990.

Hughes, David T., Associate Professor, Department of Anthropology (1988). BS, West Texas State University, 1973; MA, University of Arkansas, 1977; PhD, University of Oklahoma, 1988.

Hull, Raymond H., Professor, Department of Communication Sciences and Disorders (1993). BA, McPherson College, 1964; MA, University of South Dakota, 1965; PhD, University of Denver, 1971.

Hunsicker, John D., Assistant Professor, School of Music (2012). BM, Indiana University, 1994; MM, University of Michigan, 2000; DMA, Arizona State University, 2012.

Hwang, Gisuk, Assistant Professor, Department of Mechanical Engineering (2013). BE, Handong Global University–Korea, 2002; MS, University of Michigan-Ann Arbor, 2006; PhD, 2010.

Imhof, Michael J., Assistant Professor, School of Accountancy (2011). BBA, Pittsburg State University, 2003; MBA, 2005; PhD, University of Missouri-Columbia, 2011.

Isakov, Victor, Keith & Dutcher Faculty of Distinction Endowed Professor, Department of Mathematics, Statistics and Physics (1986). MS, Novosibirsk State University Institute of Mathematics, 1971; PhD, 1973.

Jack, Ashlie R., Assistant Professor, Assistant Dean and Accreditation Officer, College of Education (2012). BS, Emporia State University, 1996; MS, 2003; PhD, Kansas State University, 2011.

Jameson, Mary E., Associate Professor, Department of Biological Sciences (2009). BS, University of Nebraska-Lincoln, 1986; MS, 1998; PhD, University of Kansas, 1997.

Jeffres, Thalia D., Associate Professor, Department of Mathematics, Statistics and Physics (2004). BA, Johns Hopkins University, 1985; MA, Dartmouth College, 1987; PhD, State University of New York-Stony Brook, 1996.

Jewell, Ward T., Professor, Department of Electrical Engineering and Computer Science (1986). BS, Oklahoma State University, 1979; MS, Michigan State University, 1980; PhD, Oklahoma State University, 1986.

Jorgensen, Michael J., Associate Professor and Department Chair, Department of Biomedical Engineering (2001). BS, University of Nebraska, 1986; MS, 1989; PhD, Ohio State University, 2001.
Jung, DaEun. Assistant Professor, Department of Economics (2013). BA, Chungang University-Seoul, 2006; MA, Michigan State University, 2008; PhD, 2013.

K

Kalomo, Eveline N.. Assistant Professor, School of Social Work (2014). BA, University of Namibia; MICW, University of East Anglia, 2000; MSW, University of Minnesota 2014; PhD, 2015.

Kim, Wonyoung. Assistant Professor, Department of Sport Management (2012). BS, Chungnam National University-Korea, 2001; MS, 2003; MS, Mississippi State University, 2009; PhD, University of Southern Mississippi, 2012.

Kliment, Linda K.. Associate Professor, Department of Aerospace Engineering (2009). BS, University of Nebraska-Lincoln, 2000; MS, Wichita State University, 2002; PhD, 2009.

Koeber, Charles S.. Senior Associate Dean, College of Liberal Arts and Sciences; Associate Professor, Department of Sociology (1999). BA, University of Wyoming, 1991; MA, 1993; PhD, Binghamton University, 1999.

Krishnan, Krishna. Professor and Department Chair, Department of Industrial, Systems, and Manufacturing Engineering (1996). BS, Kerala University, India, 1984; MS, Virginia Polytechnic Institute and State University, 1991; PhD, 1994.

Kriz, Kenneth A.. Regents Distinguished Professor, Hugo Wall School of Public Affairs and Public Policy and Management Center (2013). BBA, University of Iowa, 1987; MS, University of Colorado-Denver, 1996; PhD, Indiana University, 2000.

Kumar, Preethika. Associate Professor, Department of Electrical Engineering and Computer Science (2007). BS, Bangalore University, 2000; MS, Wichita State University, 2004; PhD, 2007.

L

Latavietz, Beata M.. Assistant Professor, Department of Counseling, Educational Leadership, Educational and School Psychology (2014). MA, University of Warsaw-Poland, 1992; PhD, University of Illinois, 2012.

Laycock, Mark A.. Professor, Walenta Faculty of Distinction Endowed Professorship and Director of Orchestra, School of Music (2006). BA, University of Southern California, 1988; MM, University of Nebraska, 1990; DA, University of Northern Colorado, 2005.

Lee, Soon C.. Assistant Professor, Department of Curriculum and Instruction (2014). BS, Kyung-Hee University-Korea, 1994; MEd, Yonsei University-Korea, 2008; MA, Ohio State University, 2011; PhD, 2012.

Lefever, Shirley. Dean, College of Education; Professor, Department of Curriculum and Instruction (2005). BS, Kansas State University, 1984; MS, 1988; PhD, 1991.

Lehecka, Bryan J.. Assistant Professor, Department of Physical Therapy (2012). BS, Kansas State University, 2006; PhD, Wichita State University, 2009.

Lewis, Rhonda K.. Professor and Department Chair, Department of Psychology (1991). BA, Wichita State University, 1991; MA, University of Kansas, 1993; MPH, 1996; PhD, 1996.

Li, Bin. Assistant Professor, Department of Mechanical Engineering (2013). BS, Sichuan University, 2005; MS, 2008; PhD, Washington State University-Pullman, 2012.

Li, Jiaqi. Assistant Professor, Department of Counseling, Educational Leadership, Educational and School Psychology (2014). BA, Liaoning Normal University-China, 2000; MEd, Western Kentucky University, 2009; EdD, Texas Tech University, 2013.

Liu, Fuchang. Associate Professor, Department of Curriculum and Instruction (2005). BA, Liaocheng Teachers College, 1982; MA, Jilin University, 1989; MEd, Northeast Louisiana University, 1996; EdD, 1999.

Livesay, Dennis R.. Dean of Graduate School; Professor and Associate Vice President of Research and Technology Transfer (2016). BS, Ball State University, 1996; PhD, University of Illinois-Urbana Champaign, 2000.

Lohfink, Gayla. Associate Professor, Department of Curriculum and Instruction (2010). BS, Kansas State University, 1976; MS, Fort Hays State University, 1982; SPED, 1986; PhD, Kansas State University, 2006.

M

Madhavan, Viswanatha, Professor, Department of Industrial, Systems, and Manufacturing Engineering (1996). BSET, Indian Institute of Technology, 1991; MS, Purdue University, 1993; PhD, 1996.

Mahapatro, Anil, Associate Professor, Department of Biomedical Engineering (2011). BS, Maharashtra Institute of Technology-India, 1996; MS, University of Manchester-England, 1997; PhD, New York University, 2004.

Manske, Robert C., Professor and Department Chair, Department of Physical Therapy (1998). BA, Wichita State University, 1991; MPT, 1994.

Markova, Gergana, Associate Professor, Department of Management (2006). BS, Bulgarian University of National and World Economy, 1997; MS, 1998; MA, Southwest University of Bulgaria, 2001; PhD, University of Central Florida, 2006.

Martin, Charles L., Professor, Department of Marketing (1985). BBA, West Texas State University, 1981; MBA, 1982; PhD, Texas A&M University, 1986.

Matson, Ronald R., Dean, Fairmount College of Liberal Arts and Sciences; Associate Professor, Department of Sociology (1970). BA, University of South Dakota, 1965; MS, University of Colorado, 1967; PhD, 1973.

McDonald, J. D., Professor, Department of Biological Sciences (1992). BS, Kansas State University, 1983; PhD, 1988.

Medvene, Louis J., Professor, Department of Psychology (1992). BA, Clark University, 1967; MA, University of Rochester, 1972; MS, Columbia University, 1982; PhD, 1983.

Meissen, Gregory J., Professor, Department of Psychology (1980). BA, Wichita State University, 1977; PhD, University of Tennessee, 1980.

Menon, Mythili, Assistant Professor, Department of English (2016). MA, University of Southern California, 2012; PhD, 2016.

Meyer, Holger, Associate Professor and Director of Physics, Department of Mathematics, Statistics and Physics (2008). MS, Virginia Polytechnic Institute and State University, 1996; PhD, 2002.

Miles, William R., Professor, Department of Economics (1999). BS, Bentley College, 1993; PhD, University of Illinois Urbana-Champaign, 1999.

Miller, Josephine, Professor, School of Music (2004). BME, Ohio State University, 1972; PhD, University of Nebraska-Lincoln, 2005.

Miller, L. Scott, Professor and Department Chair, Department of Aerospace Engineering (1988). BSAE, Texas A&M University, 1981; MS, 1983; PhD, 1988.

Miller, Rodney E., Dean, College of Fine Arts; Professor, School of Music (2004). BM, West Texas State University, 1974; MM, Indiana University, 1977; PhD, Illinois State University, 1988.

Mitchell-Koch, Katie R., Assistant Professor, Department of Chemistry (2012). BA, University of Kansas, 2003; MS, University of Michigan-Ann Arbor, 2005; PhD, University of Kansas, 2008.

Moore-Jansen, Peer, Professor and Department Chair, Department of Anthropology (1989). BA, Texas Tech University, 1982; MA, University of Arkansas, 1982; PhD, University of Tennessee, 1989.

Mosack, Victoria A., Associate Professor and Department Chair, School of Nursing (1999). BSN, Wichita State University, 1980; MSN, 1992; PhD, 2006.

Moscoso, Wilfredo, Assistant Professor, Department of Industrial, Systems, and Manufacturing Engineering (2013). BS, Pontificia Universidad Catolica Madre y Maestra, 1996; MS, 2003, Purdue University; MS, 2008; PhD, 2008.

Muether, Matthew O., Assistant Professor, Department of Mathematics, Statistics and Physics (2014). BS, University of Missouri-Columbia, 2003; PhD, University of Illinois-Urbana, 2010.

Muma, Richard D., Interim Provost, Division of Academic Affairs; Professor, Department of Public Health Sciences (1994). BS, University of Texas Medical-Galveston, 1987; MPH, University of Texas-Houston, 1993; PhD, University of Missouri-St. Louis, 2004.

Myose, Roy Y., Professor, Department of Aerospace Engineering (1992). BSAE, University of Southern California, 1983; MS, California Institute of Technology, 1984; PhD, University of Southern California, 1991.

N

Nair, Rajeev M., Assistant Professor, Department of Mechanical Engineering (2013). BS, University of Calicut-India, 1998; MS, Wichita State University, 2002; PhD, Iowa State University-Ames, 2007.

Namboodiri, Vinod V., Associate Professor, Department of Electrical Engineering and Computer Science (2008). BS, Gujarat University-India, 2000; MS, University of North Carolina-Charlotte, 2003; PhD, University of Massachusetts, 2008.

Navarro Serrano, Jose E., Assistant Professor, Department of Modern and Classical Languages and Literatures (2013). BA, Universidad Autonoma de Madrid, 1996; MA, Texas State University-San Marcos, 2007; PhD, University of Texas-Austin, 2013.

Ni, Rui, Associate Professor, Department of Psychology (2008). BS, Beijing Normal University, 1996; PhD, Chinese Academy of Sciences, 2001.

Noble, Jeffrey S., Associate Professor, Department of Sport Management (2004). BS, Iowa State University of Science and

Oare, Steven R., Associate Professor and Director of Wind and Percussion, School of Music (2007). BM, University of Idaho, 1987; DFA, University of Calgary, 1991; MM, 1994; PhD, Michigan State University, 2007.

Okafor, Chinyere G., Professor and Department Chair, Department of Women's Studies and Religion (2002). BA, University of Nigeria, 1975; PhD, University College-Cardiff, 1977; MA, University of Sussex, 1977; PhD, University of Nigeria, 1989.

Pang, Chengzong, Assistant Professor, Department of Electrical Engineering and Computer Science (2013). BS, North China Electric Power University, 2000; MS, 2003; PhD, Texas A&M University, 2011.

Papadakis, Michael, Professor, Department of Aerospace Engineering (1982). BS, Loughborough University, 1979; MS, 1981; PhD, Wichita State University, 1986.

Parcell, Lisa M., Associate Professor and Graduate Coordinator, Elliott School of Communication (2001). BS, Appalachian State University, 1993; MA, University of Alabama, 1997; PhD, 2003.

Parcell, William C., Associate Professor and Department Chair, Department of Geology (2001). BS, University of the South, 1994; MS, University of Delaware, 2000; PhD, University of Alabama, 2000.

Parham, Douglas F., Associate Professor, Department of Communication Sciences and Disorders (2008). BA, Memphis State University, 1992; MA, University of Memphis, 1996; PhD, 2008.

Parsons, Susan D., Associate Professor, Accelerated Nursing Program (2008). BSN, Wichita State University, 1974; MN, 1978; PhD, Kansas State University, 1987.

Patterson, Jeremy A., Erker Faculty of Distinction Professor and Director of Human Performance Laboratory, Department of Human Performance Studies; Director of Institute for Interdisciplinary Creativity, Division of Academic Affairs (2004). BS, Linfield College, 1995; MS, Victoria University of Wellington, 2002; PhD, 2004.

Pearson, Jennifer D., Associate Professor and Graduate Coordinator, Department of Sociology (2008). BA, University of Texas-Austin, 2000; MA, 2003; PhD, 2008.

Pederson, Claudia C., Assistant Professor, School of Art, Design and Creative Industries (2014). BA, California State University-Long Beach, 2001; MA, 2004; MA, Cornell University, 2008; PhD, 2012.

Pelkowski, Jodi E., Associate Professor, Department of Economics (2000). BA, Coe College, 1995; MS, University of Kentucky, 1998; PhD, 2000.

Perez, Kathleen M., Associate Professor, Department of Sociology (1983). BA, Clarke College, 1979; MA, Miami University, 1980; PhD, Purdue University, 1984.

Perline, Martin, Professor and Dean's Distinguished Fellow, Department of Economics (1965). BA, Arizona State University, 1962; MA, Ohio State University, 1962; PhD, 1965.

Perry, John T., Associate Professor and Department Chair, Department of Management (2005). BA, Dickinson College, 1989; MBA, Lehigh University, 1992; MS, University of Pennsylvania, 1999; PhD, Pennsylvania State University, 2006.

Pickus, Keith H., Assistant to the Provost and Senior Vice President, Division of Academic Affairs; Professor, Department of History (1995). BA, University of California-Santa Barbara, 1983; MA, University of Washington, 1988; PhD, 1993.

Pile, Debra E., Associate Professor and Coordinator of Accelerated Bachelor of Nursing Program, School of Nursing (2008). BSN, Wichita State University, 1999; MSN, 2004; DNP, 2009.

Pitetti, Kenneth H., Professor, Department of Physical Therapy (1987). BS, University of San Francisco, 1968; MS, Fort Hays State University, 1980; PhD, University of Texas-Dallas, 1986.

Porter, Christine M., Assistant Professor, School of Accountancy (2015). BS, University of Denver, 2005; PhD, University of Kansas, 2015.

Porter, Stephen S., Associate Professor and Moore Faculty Fellow in Business and Department Chair, Department of Marketing (1995). BS, Friends University, 1976; MBA, Wichita State University, 1982; PhD, Oklahoma State University, 1994.

Price, Jay M., Professor and Department Chair, Department of History (1999). BA, University of New Mexico, 1991; MA, College of William and Mary, 1992; PhD, Arizona State University, 1997.

Pulaski, Jeffrey S., Associate Professor and Director, School of Art, Design and Creative Industries (2000). BFA, Wichita State University, 1991; MFA, Kansas State University, 2008.

Q

Quirin, Jeffrey J., Professor and Barton Distinguished Chair in Business, School of Accountancy (2000). BBA, Pittsburgh State University, 1994; MBA, 1995; PhD, University of Nebraska-Lincoln, 1998.

R

Rahman, Muhammad M., Professor, Department Chair and Sam Bloomfield Chair, Department of Mechanical Engineering (2014). BS, Bangladesh University of Engineering and Technology, 1980; MS, University of Manitoba, 1983; PhD, University of California-Berkeley, 1988.

Technology and Science, 1980; PhD, University of Illinois Urbana-Champaign, 1984.

Ravigururajan, Tiruvadi S., Professor, Department of Mechanical Engineering (1991). BA, University of Madras, 1978; MS, Howard University, 1981; PhD, Iowa State University, 1986. Licensed Professional Engineer-Iowa.

Rife, Aaron T., Assistant Professor, Department of Curriculum and Instruction (2014). BA, Brigham Young University, 2002; MS, University of Kansas, 2008; PhD, 2014.

Rillema, Donald P., Professor, Department of Chemistry (1994). BS, Hope College, 1965; PhD, Michigan State University, 1969.

Rimington, Glyn M., Professor of Global Learning, Fairmount College of Liberal Arts and Sciences (2001). BS, University of Queensland, 1980; PhD, 1986.

Rogers, Michael E., Professor and Department Chair, Department of Human Performance Studies; Research Director, Center for Physical Activity and Aging, College of Education (1998). BS, Mount Union College, 1991; PhD, Kent State University, 1996.

Rogers, Nicole L., Associate Professor and Department Chair, Department of Public Health Sciences (2007). BS, Mount Union College, 1992; MA, Kent State University, 1994; MEd, University of Texas-Austin, 1999; PhD, Wichita State University, 2003.

Roush, Dean K., Professor, School of Music (1988). BFA, Ohio University, 1973; MM, Bowling Green State University, 1975; DMA, Ohio State University, 1985.

Roussel, Brigitte. Associate Professor and Director, Foreign Language Teacher Education; Department of Modern and Classical Languages and Literatures; (1982). BA, La Sorbonne, 1976; MA, 1981; PhD, University of Kansas, 1991.

Russell, Francis L., Associate Professor, Department of Biological Sciences (2004). BA, Carlton College, 1992; PhD, University of Texas-Austin, 1999.

S

Saeed, Khawaja A., Associate Dean of Graduate Studies in Business, Barton School of Business; Professor, Department of Finance, Real Estate, and Decision Sciences (2004). BS, University of the Punjab, 1991; MBA, Punjab College of Business Administration, 1993; MBA, Asian Institute of Technology, 1995; PhD, University of South Carolina-Columbia, 2004.

Salar, Ehsan, Assistant Professor, Department of Industrial, Systems, and Manufacturing Engineering (2013). BS, Amirkabir University of Technology-Tehran, 2003; MS, Sharif University of Technology-Tehran, 2005; PhD, University of Florida-Gainesville, 2011.

Salinas Monroy, Sergio A., Assistant Professor, Department of Electrical Engineering and Computer Science (2015). BS, Jackson State University, 2010; PhD, Mississippi State University, 2015.

Sasanfar, Justine K., Assistant Professor, School of Music (2014). BM, St Olaf College, 2001; MM, Michigan State University, 2009; DMA, Florida State University, 2012; PhD, 2012.

Sayman, Donna, Associate Professor, Department of Curriculum and Instruction (2010). BA, Southwestern Assemblies of God College, 1991; MS, Oklahoma State University, 2003; PhD, 2009.

Scherz, Julie A., Associate Professor and Department Chair, Department of Communication Sciences and Disorders (1998). BA, Wichita State University, 1969; MA, 1971; PhD, 1989.

Scheeschurt, Mark A., Professor, Department of Biological Sciences (2000). BS, Rensselaer Polytechnic Institute, 1984; MS, 1985; PhD, Brown University, 1989.

Searle, Catherine, Associate Professor, Department of Mathematics, Statistics and Physics (2014). BA, Bryn Mawr College, 1984; PhD, University of Maryland-College Park, 1992.

Self, Patricia L., Associate Professor and Cassat Distinguished Chair in Communication Sciences and Disorders, Department of Communication Sciences and Disorders (1991). BA, Wichita State University, 1984; MA, 1985; PhD, 1991.

Shaw, Carolyn M., Professor and Department Chair, Department of Political Science (2001). BA, Dickinson College, 1991; PhD, University of Texas-Austin, 2000.

Showstack, Rachel, Assistant Professor, Department of Modern and Classical Languages and Literatures (2013). BA, University of California-Santa Cruz, 2001; MA, Sacramento State University, 2006; PhD, University of Texas-Austin, 2013.

Shuai, Bin, Associate Professor, Department of Biological Sciences (2003). BS, Nanjing University, 1993; MS, 1996; PhD, University of California-Riverside, 2003.

Shukaev, Leonid V., Associate Professor, School of Music (2010). BM, St. Petersburg Conservatory of Music-Russia 1984; MM-PhD, 1989.

Shvartsburg, Alexandre A., Assistant Professor, Department of Chemistry (2014). MS, University of Nevada, 1995; PhD, Northwestern University, 1999.

Sinha, Kaushik, Assistant Professor, Department of Electrical Engineering and Computer Science (2012). BS, National Institute of Technology-Warangal, India, 1997; MS, Indian Institute of Technology, 2002; MS, Ohio State University, 2009; PhD, 2010.

Skinner, Steven R., Associate Dean for Undergraduate Studies, Finance, and Administration, College of Engineering; Professor, Department of Electrical Engineering and Computer Science (1991). BS, University of Iowa, 1985; MS, 1988; PhD, 1991.

Smith, Martha J., Associate Professor and Film Studies Certificate Coordinator, School of Criminal Justice (2002). BA, Brown University,
1978; JD, New York University School of Law, 1981; MA, Rutgers University, 1995; PhD, 1996.

**Smith, Nicholas A.**, Assistant Professor, Department of Aerospace Engineering (2015). MS, Purdue University-West Lafayette, 2013; PhD, 2015.

**Solomey, Nick**, Professor, Department of Mathematics, Statistics and Physics (2007). BS, Mount Union College, 1983; MS, Ohio State University, 1987; PhD, University of Geneva, 1992.

**Soykan, Betul**, Assistant Professor, School of Music (2016). BM, Bilkent University, 1990; MM, Hochschule der Kunste, 1994; DMA, University of Georgia, 2015.

**Srithongrung, Arwiphaavee**, Associate Professor, Hugo Wall School of Public Affairs and Public Policy and Management Center (2013). BS, Kasetsart University-Bangkok, 1994; MFA, University of Missouri-Kansas City, 1996; DPA, University of Illinois-Springfield, 2006.

**St. Pierre, Kelly M.**, Assistant Professor, School of Music (2015). MA, Case Western Reserve University, 2009; PhD, 2012.

**Steck, James E.**, Professor, Department of Aerospace Engineering (1990). BSAE, University of Missouri-Rolla, 1980; MS, 1984; PhD, 1989.

**Steinke, Elaine E.**, Professor, School of Nursing (1990). BSN, Wichita State University, 1979; MN, 1982; PhD, Kansas State University, 1987.

**Sternfield-Dunn, Aleksander**, Associate Professor, Associate Director and Graduate Coordinator, School of Music (2011). BA, California State University, 2003; MA, Washington State University, 2006; DMA, University of Hartford, 2010.

**Sterrett, Susan**, Gridley Distinguished Professor of History and Philosophy of Science, Department of Philosophy (2013). BS, Cornell University, 1977; MA University of Pittsburgh, 1987; MA, 1988; PhD, 1999.

**Stoldt, G. Clayton**, Associate Dean, College of Education; Professor, Department of Sport Management (1998). BA, University of Oklahoma, 1984; MS, 1990; EdD, 1998.

**Stone, Jennifer P.**, Assistant Professor, Department of Curriculum and Instruction (2013). BA, Trinity University, 1997; MA, 1998; PhD, University of Texas-San Antonio, 2013.

**Sulyok, Levente**, Associate Professor and Associate Director and Grad Coordinator, School of Art, Design and Creative Industries (2007). AA and AS, Santa Rosa Junior College, 2001; BA, University of California-Berkeley, 2003; MFA, Rhode Island School of Design, 2006.

**Suss, Joel M.**, Assistant Professor, Department of Psychology (2015). BS, La Trobe University-Bundoora, Victoria, Australia, 2006; PhD, Michigan Technological University, 2013.

**Suzuki, Yumiko**, Assistant Professor and Graduate Coordinator, School of Criminal Justice (2014). BA, Southern Oregon University, 1994; MA, Southern Illinois University, 2001; PhD, State University of New York-Albany, 2011.

**Swindle, Andrew L.**, Assistant Professor, Department of Geology (2014). BS, Oklahoma State University, 1999; MS, 2003; PhD, University of Oklahoma, 2013.

**Taylor, Samuel B.**, Associate Professor, Department of English (2011). BA, Swarthmore College, 1997; MFA, University of Texas-Austin, 2002; MFA, University of Virginia-Charlottesville, 2010.

**Thelle, Rannfrid I.**, Assistant Professor, Department of Women's Studies and Religion (2014). PhD, University of Oslo, 1999.

**Thompson, Johnnie**, Associate Professor, Department of Curriculum and Instruction (1993). BS, University of Kansas, 1968; MS, Central Missouri State University, 1975; EdD, Kansas State University, 1992.

**Thrane, Lisa E.**, Associate Professor, Department of Sociology (2005). BA, Simpson College, 1999; MS, Iowa State University, 1999; PhD, 2003.

**Tomblin, John S.**, Vice President for Research and Technology Transfer; Executive Director of NIAR; Bloomfield Chair and Professor, Department of Aerospace Engineering (1994). BSAE, West Virginia University, 1990; MS, 1991; PhD, 1994.

**Tran, Anh Q.**, Associate Professor, Department of Curriculum and Instruction (1997). BA, Saigon University, 1973; MA, Wichita State University, 1993; PhD, Kansas State University, 2002.

**Trechak, Andrew**, Associate Professor, School of Music (1980). BM, Oberlin College Conservatory of Music, 1973; MM, State University of New York-Stony Brook, 1975; DMA, University of Texas-Austin, 1988; PhD, 1988.

**Twomey, Janet M.**, Associate Dean for Graduate Studies, Research and Faculty Success, College of Engineering; Professor, Department of Industrial, Systems, and Manufacturing Engineering (1994). BA, University of Pittsburgh, 1990; MS, 1992; PhD, 1995.

**Vermillion, Mark C.**, Associate Professor and Department Chair, Department of Sport Management (2006). BS, Kansas State University, 2000; MA, Wichita State University, 2003; PhD, Oklahoma State University, 2006.

**Vizzini, Anthony J.**, Special Assistant to the President, Division of Academic Affairs; Professor, Department of Aerospace Engineering (2013). BS, Massachusetts Institute of Technology, 1981; BS, 1982; MS, 1983; PhD, 1986.

**Walker, Melissa**, Associate Professor, Hugo Wall School of Public Affairs and Public Policy and Management Center (2006). BA,
Northwestern University, 1976; MPADM, Harvard University, 1992; PhD, University of Chicago, 2005.

**Waters, Mary A.**, Hughes Distinguished Professor and Department Chair, Department of English (2004). BS, Millersville University of Pennsylvania, 1979; MA, San Francisco State University, 1994; PhD, University of California, 2001.

**Watkins, John M.**, Professor and Department Chair, Department of Electrical Engineering and Computer Science (2004). BS, University of Nebraska-Lincoln, 1989; MS, Ohio State University, 1991; PhD, 1995.

**Wei, Wei**, Assistant Professor, Department of Mechanical Engineering (2017). PhD, Michigan Technological University, 2017.

**Widener, Russell D.**, Professor and Director, School of Music (1981). BS, Baylor University, 1968; MM, Catholic University, 1972.

**Wilks, Kerry K.**, Associate Dean, Graduate School; Associate Professor, Department of Modern and Classical Languages and Literatures (2004). BA, Rhodes College, 1991; MA, Auburn University, 1996; PhD, University of Chicago, 2004.

**Wimalasena, Kandatege**, Professor, Department of Chemistry (1989). BS, University of Peradeniya, 1977; PhD, Georgia Institute of Technology, 1986.

**Woods, Nicole C.**, Associate Professor, Department of Public Health Sciences (2012). BS, Wichita State University, 2007; MA, University of Kansas, 2009; MPH, University of Kansas, 2010; PhD, 2011.

**Wright, David W.**, Chief Data Officer, Division of Academic Affairs; Professor, Department of Sociology (1993). BA, Purdue University, 1987; MA, 1989; PhD, 1992.

**Y**

**Yang, Chihdar Charles**, Professor, Department of Aerospace Engineering (1997). BS, National Taiwan University, 1985; MS, 1987; PhD, Louisiana State University, 1993. Licensed Professional Engineer, Louisiana.

**Yao, Li**, Associate Professor, Department of Biological Sciences (2011). BS, Capital Medical University-Beijing, 1994; MS, Beijing Institute of Traumatology and Orthopaedic Surgery, 2000; PhD, University of Aberdeen-UK, 2006.

**Yeager, Samuel J. III**, Professor and Program Coordinator, Hugo Wall School of Public Affairs and Public Policy and Management Center
Key to Abbreviations and Symbols

Symbols
The number of hours of credit for each course is indicated in parentheses following the course title. The number of class meetings per week is normally the same as the number of credit hours. Two hours of laboratory work usually are required for 1 hour of credit. In courses involving meetings other than lectures, the following terms are used:

- Classroom
- Conference
- Demonstration
- Laboratory
- Lecture
- Practicum/Clinical
- Theory

1 Practicum/clinical — the hours of practicum/clinical per week are given in front (6–8 Practicum or 6–8 Clinical means six to eight hours of practicum/clinical per week).

Abbreviations
The following abbreviations of academic departments and subject areas are used in references to courses offered by those departments.

Teaching - Transition to Teaching  MAT Curriculum & Instruction  ED

1 Master of Fine Arts, a terminal degree
Courses A - Z

ACCT - Accounting

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ACCT 560. Accounting Information Systems (3).
A study of the content, design and controls of accounting systems, emphasizing the use of computers for processing financial data. Prerequisites: completion of ACCT 310, BADM 161, 162 and 163 each with a grade of C (2.000) or better, advanced standing, junior standing.

Examines accounting concepts and techniques related to consolidated statements, governmental and not-for-profit entities, and partnerships. Includes accounting for foreign currency, hedges, financial instruments and emerging issues in financial accounting and reporting. Prerequisites: completion of ACCT 410 with a grade of C (2.000) or better, advanced standing, junior standing.

ACCT 620. Accounting for Strategic Support and Performance Evaluation (3).
The use of accounting information to assist management in developing and identifying superior strategies to produce and sustain competitive advantages. Focuses on goal-congruent strategies and incentives. Prerequisites: completion of ACCT 310, 320 with a grade of C (2.000) or better in each course, advanced standing, junior standing.

ACCT 630. Taxation of Business Entities (3).
Studies the federal tax law as it applies to corporations, partnerships and other business entities. Examines the effect of taxation on business decisions. Prerequisites: completion of ACCT 430 with a grade of C (2.000) or better, advanced standing, junior standing.

ACCT 640. Principles of Auditing (3-4).
A study of the auditor's attest function, emphasizing auditing standards and procedures, independence, legal responsibilities, codes of ethical conduct and evaluation of accounting systems and internal control. Prerequisites: completion of ACCT 410 and 560 with a grade of C (2.000) or better, advanced standing, junior standing.

ACCT 690. Seminar in Selected Topics (1-3).
Repeatable for credit with School of Accountancy consent. Prerequisites: junior standing, advanced standing.

ACCT 781. Cooperative Education (1).
Provides the graduate student with a field placement which integrates theory with a planned and supervised professional experience. Programs must be formulated in consultation with appropriate graduate faculty. May be repeated for credit up to 3 hours. May not be used to fulfill degree requirements. Graded Cr/NCr.

ACCT 801. Managerial Accounting (3).
Examines the use of accounting information to assist management in planning, analyzing, and implementing business decisions and activities. Focuses on strategic and operational performance analysis and evaluation. This course is not available for credit in the Master of Accountancy program. Prerequisites: graduate standing and MBA 800 or equivalent, or permission of the School of Accountancy.

Uses the case method and financial accounting databases to examine and analyze the application of generally accepted accounting principles to problems of measurement, presentation, and disclosure in financial statements. Focuses on contemporary topics of interest in financial accounting and reporting. Prerequisites: graduate standing and ACCT 610 or equivalent, or permission of the School of Accountancy.

ACCT 825. Management Control Systems (3).
Studies accounting in the context of management control systems. Focuses on how accounting interacts with management in achieving an organization's strategic and operational objectives. Emphasizes contemporary challenges in accounting, related to broadening the types of information captured, measured, and reported. Prerequisites: graduate standing and ACCT 620 or 801 (or equivalent), or permission of the School of Accountancy.

ACCT 830. Taxation of Business Entities - Advanced Topics (3).
Analyzes various advanced topics in the taxation of business planning. Focuses on the use of various entity forms to achieve optimal tax and business objectives. Also considers the tax consequences of conducting business internationally. Prerequisites: graduate standing and ACCT 630 or equivalent, or permission of the School of Accountancy.

ACCT 831. Taxation of Estates & Trusts (3).
Studies the income taxation of trusts and estates, including the special cases of grantor and split-interest trusts. Examines the gift taxation of donors, the estate taxation of decedents, and the fundamentals of estate planning. Prerequisites: graduate standing and ACCT 430 or equivalent, or permission of the School of Accountancy.

ACCT 835. Tax Research & Selected Topics (3).
An in-depth study of traditional and computerized tax research and planning techniques, ethical issues, tax practice issues, and an introduction to state, multistate, and international taxation. Prerequisites: graduate standing and ACCT 630 (or equivalent), or permission of the School of Accountancy.

ACCT 840. Advanced Auditing (3).
An advanced study of auditing emphasizing auditing computerized systems, statistical sampling, and ethics. Prerequisites: graduate standing and ACCT 410 and 640 (or equivalent), or permission of the School of Accountancy.

A study of the concepts of information systems, their design and operation, and the relationship of these concepts to the economic information requirements, information flows, decision criteria, and control mechanisms in the business organization. Prerequisites: graduate standing and ACCT 560 (or equivalent), or permission of the School of Accountancy.

ACCT 890. Seminar in Special Topics (1-3).
Repeatable with permission of the School of Accountancy.

ACCT 891. Directed Study in Accounting (1-3).
Prerequisite: School of Accountancy consent.

ACCT 892. Internship in Accounting (1-3).
Graded S/U. Prerequisites: 3.000 GPA in accounting, graduate standing, School of Accountancy consent.

AE - Aerospace Engineering

All graduate courses must be approved in advance of enrollment by a student's graduate advisor.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

Survey of aerospace propulsion methods. Production of thrust and consumption of fuel. Rocket performance analysis; liquid chemical

AE 528. Aerospace Design I (4).
2 Classroom hours; 4 Lab hours. Methodology of flight vehicle design; mission objectives, regulations and standards; use of hand and computer methods for configuration development and component sizing, ethics, and liability in design. Prerequisites: AE 502, 514, 525.

Classical design methods for stability and control augmentation and guidance systems specifically for aerospace vehicles, including block diagrams, root locus and frequency response. Sensors used in aerospace systems. Flying qualities and performance specifications for closed loop systems. Includes a review of the aircraft and spacecraft dynamic model derivation. Prerequisite: AE 514.

AE 625. Flight Structures II (3).
2 Classroom hours; 3 Lab hours. Strength analysis and design of flight vehicle components. Introduction to energy methods and variational principles. Application of finite element method, including commercial finite element software, to the analysis of flight vehicle structures. Prerequisite: AE 525.

AE 628. Aerospace Design II (4).
2 Classroom hours; 4 Lab hours. Preliminary design of flight vehicles, design iteration, sensitivity studies, optimization, economic considerations and introduction to project management. Prerequisite: AE 528.

AE 660. Selected Topics (1-3).
New or special topics presented on sufficient demand. Repeatable for credit when subject material warrants. Prerequisite: instructor's consent.

AE 690. Independent Study (1-3).
Arranged individual independent study in specialized areas of aerospace engineering under the supervision of a faculty member. Repeatable for credit. Prerequisite: consent of supervising faculty member.

AE 702. Aerospace Propulsion II (3).
In-depth study of rocket and jet propulsion. Turbojet and rocket engine components. Effect of operating variables on turbojet cycles and rocket performance. Prerequisite: AE 502 or instructor's consent.

AE 703. Rotor Aerodynamics (3).
Aerodynamics of rotors, including propellers, wind turbines and helicopters; momentum, blade element and potential flow analysis methods; helicopter dynamics, control and performance. Prerequisite: AE 424.

Modern multi-loop design methods for stability and control augmentation and guidance systems, specifically for aerospace vehicles. State variable model. Optimal state feedback gains and Riccati's equation, tracking systems, sensors and actuator, discretization of continuous dynamic systems, optimal design for digital controls, and effect of nonlinearities and trim conditions on design considerations. Prerequisites: AE 514 or 714, and AE 607 or EE 684 or ME 659.

AE 711. Intermediate Aerodynamics (3).
Studies potential flow equations of motion, singularity solutions, principles of superposition, conformal mapping, thin airfoil theory, finite wing theory, three-dimensional singularities, swept wing theory, delta wing theory, and introduction to panel methods. Prerequisite: AE 424 or equivalent.

AE 712. Advanced Aerodynamics Laboratory (3).
2 Classroom hours; 2 Lab hours. Advanced topics in wind tunnel testing, such as analysis and sensitivity, modeling techniques, flexure design and calibration, control surface loads and moments, laser velocimetry, hot film anemometry, dynamic signal processing, flow measurement probes, flow visualization using smoke tunnels and water tunnel. Prerequisite: AE 512.

AE 714. Advanced Flight Dynamics I (3).
Detailed derivation of the linear and nonlinear equations of motion for aircraft. Aerodynamic and thrust force and moment models. Steady state flight and dynamic stability and control of aircraft. Aircraft, FAR and MIL specs. Prerequisite: AE 514.

AE 715. Intermediate Space Dynamics (3).
Advanced topics in orbital mechanics-vector mechanics perspective of the two-body problem; fast transfers; interplanetary missions including gravity assist maneuver and intercept problem; atmospheric entry. Prerequisite: AE 415 or instructor's consent.

AE 716. Compressible Fluid Flow (3).
Analysis of compressible fluid flow for one- and two-dimensional cases, moving shock waves, one-dimensional flow with friction and heat addition, linearized potential equation, method of characteristics, conical shocks and subsonic similarity laws. Prerequisites: AE 424, ME 521 or equivalent.

AE 719. Introduction to Computational Fluid Dynamics (3).
Classification of partial differential equations, numerical solution of parabolic, elliptic and hyperbolic differential equations, stability analysis, boundary conditions, scalar representation of the Navier-Stokes equations, incompressible Navier-Stokes equations. Prerequisite: AE 424 or ME 521.
AE 721. Aircraft Icing (3).
Topics include the icing environment, icing envelopes, ice accretion physics, fundamental equations for icing analysis, types of ice accretions, effects of ice accretions on aircraft aerodynamic performance, ice protection and detection systems, icing test facilities, introduction to simulation tools for aircraft icing analysis, icing incidents and accidents, and aspects of aircraft icing certification. Corequisite: AE 424 or equivalent.

AE 722. Finite Element Analysis of Structures I (3).
Advanced treatment of the theoretical concepts and principles necessary for the application of the finite element method in the solution of differential equations in engineering. Prerequisite: AE 525 or AE 733.

AE 731. Theory of Elasticity (3).
Develops the equations of the theory of elasticity and uses them to determine stress and displacement fields in linear elastic isotropic bodies; uses Airy stress functions to obtain solutions. Prerequisite: AE 525 or AE 733.

An extension of AE 333. Includes transformation of stress and strain in three dimensions, torsion of members with noncircular cross sections, curved beams, beams with unsymmetrical cross sections, energy methods, stress concentrations, and theories of failure and fracture mechanics. Prerequisite: AE 333.

AE 737. Mechanics of Damage Tolerance (3).
Introduction to fatigue analysis and mechanics of damage tolerance emphasizing stress analysis oriented fracture mechanics. Includes stress intensity, fracture toughness, residual strength, fatigue crack growth rate, fatigue crack propagation, and damage tolerance concepts. Prerequisite: AE 525 or AE 733.

AE 753. Mechanics of Laminated Composites (3).
A descriptive classification of advanced composite materials and their constituents; mechanics of lamina and laminates, testing for material properties, lamina and laminate failure criteria, laminate strain allowances, structural analysis (beams and axially loaded members), design guidelines, introduction to manufacturing methods, repair and nondestructive testing. Prerequisite: AE 525, or AE 733, or equivalent.

AE 759. Neural Networks for System Modeling and Control (3).
Introduces specific neural network architectures used for dynamic system modeling and intelligent control. Includes theory of feedforward, recurrent, and Hopfield networks; applications in robotics, aircraft and vehicle guidance, chemical processes and optimal control. Prerequisite: AE 607 or ME 659 or EE 684 or instructor's consent.

AE 760. Selected Topics (1-3).
Prerequisite: instructor's consent.

AE 760AA. Micromechanics and Multi-Scale Modeling (3).
Many materials and structures consist of multiple phases. Micromechanics models can be used to homogenize a structure at some appropriate scale for more practical modeling. Course covers the classical mean-field homogenization models. Explores several state-of-the-art numerical techniques used in micromechanics modeling, such as the method of cells, variational methods and Fourier transforms in addition to finite element techniques for periodicity.

AE 760AB. Structural Acoustics (3).
Introduces the basic concepts of engineering acoustical analysis to study wave propagation, sound radiation from simple sources, absorption and transmission of acoustic wave through partitions, duct acoustics, aircraft noise sources and control techniques.

AE 760AC. Nano-satellite Engineering (3).
This course provides a fundamental understanding of the design of a nano-satellite and mission design catering to given mission requirements. Specific topics covered in this course include nano-satellite mission analysis, attitude control, electrical power systems, propulsion subsystem, thermal system, telemetry, data handling/processing and systems engineering tests. The course includes hands-on experimentation utilizing nano-satellite educational kits.

AE 760AD. Applied Jet Propulsion (3).
In-depth overview of jet propulsion. Effect of operating variables on turbojet and modified engine cycles. Introduction to real world issues and engine testing.

AE 765A. Special Topics - Composite Manufacturing: Technology Safety Awareness I (0.5).
Provides composite materials technologies basic knowledge, an overview of different forms of composites manufacturing, various factory workflows, and the associated regulatory guidance documents. For graduate students only. Repeatable for credit. Graded S/U. Prerequisite: none.

AE 765B. Special Topics - Composite Manufacturing: Technology Safety Awareness II (0.5).
Educates students on the issues related to raw material manufacturing, its transport, incoming quality control and storage of composite materials. The preparation of tooling, cutting of composite preforms, layup and bagging of composite parts, and curing are discussed in detail. The use of procurement specifications and process control documents are emphasized. For graduate students only. Repeatable for credit. Graded S/U. Prerequisite: AE 765A.

AE 765C. Special Topics - Composite Manufacturing: Technology Safety Awareness III (0.5).
Topics include technical aspects related to trimming and drilling of composites, defects in composites, adhesive bonding and assembly, nondestructive and destructive inspection. For graduate students only. Repeatable for credit. Graded S/U. Prerequisite: AE 765B.

AE 765D. Special Topics - Composite Manufacturing: Technology Safety Awareness IV (0.5).
Topics include technical aspects related to painting and finishing composites, handling and storage, manufacturing defects and their root causes analyses, and scarf repair of composites. For graduate students only. Repeatable for credit. Graded S/U. Prerequisite: AE 765C.

AE 765E. Special Topics - Composite Manufacturing: Technology Safety Awareness V (0.5).
Lab course providing students with hands-on experiences on prepreg cutting, manual layup and bagging of simple laminated composite parts, nondestructive inspection, and scarf repair. For graduate students only. Repeatable for credit. Graded S/U. Prerequisite: AE 765D.

AE 770BA. Badge: Composite Manufacturing Technology Safety Awareness I (0.5).
Students are provided with composite materials technologies basic knowledge, an overview of different forms of composites manufacturing, various factory workflows, and the associated regulatory guidance documents. Repeatable for credit. Graded Bg/NBg. Prerequisite: none.

AE 770BB. Badge: Composite Manufacturing Technology Safety Awareness II (0.5).
Educates students on the issues related to raw material manufacturing, its transport, incoming quality control and storage of composite materials. The preparation of tooling, cutting of composite preforms, layup and bagging of composite parts, and curing are discussed in detail. The use of procurement specifications and process control documents are emphasized. Repeatable for credit. Graded Bg/NBg. Prerequisite: AE 770BA.
AE 770BC. Badge: Composite Manufacturing Technology Safety Awareness III (0.5).
Topics include technical aspects related to trimming and drilling of composites, defects in composites, adhesive bonding and assembly, nondestructive and destructive inspection. Repeatable for credit. Graded Bg/NBg. Prerequisite: AE 770BB.

AE 770BD. Badge: Composite Manufacturing Technology Safety Awareness IV (0.5).
Topics include technical aspects related to painting and finishing of composites, handling and storage, manufacturing defects and their root cause analysis, and scarf repair of composites. Repeatable for credit. Graded Bg/NBg. Prerequisite: AE 770BC.

AE 770BE. Badge: Composite Manufacturing Technology Safety Awareness V (0.5).
Lab course provides students with hands-on experience on prepreg cutting, manual layup and bagging of simple laminated composite parts, nondestructive inspection and scarf repair. Repeatable for credit. Graded Bg/NBg. Prerequisite: AE 770BD or instructor’s consent.

AE 770BF. Badge: Advanced MATLAB (0.5).
Review of programming basics, ordinary differential equation solvers, optimization solvers, control system toolbox, animation, file-based input/output, Matlab interaction with other programming languages (C/C++). Graded Bg/NBg.

AE 773. Intermediate Dynamics (3).
An extension of AE 373. Studies the kinematics and kinetics of particles and rigid bodies for two- and three-dimensional motion. Includes an introduction to vibratory motion, dynamic stability of linear systems and Lagrange’s equations. Prerequisite: AE 373.

AE 777. Vibration Analysis (3).
A study of free, forced, damped and undamped vibrations on multidegree of freedom discrete mechanical systems. Introduction to vibration analysis of continuous solids. Prerequisites: MATH 555, AE 333, 373.

AE 801. Structural Dynamics (3).
A study of the dynamic response of multiple degree of freedom systems and continuous systems subjected to external dynamic forcing functions. Classical, numerical and energy solutions, and introduction to experimental techniques. Prerequisites: AE 525 or AE 733, and AE 777.

AE 807. Modern Flight Control Systems Design II (3).
Principles of optimal control, optimal spacecraft trajectories including high-thrust and low-thrust transfers, optimization of powered and unpowered atmospheric flights, numerical methods including both direct and indirect optimization schemes, trajectory optimization for multi-air and space vehicle systems. Prerequisites: AE 707 and at least one of AE 714 or AE 715.

AE 811. Panel Methods in Aerodynamics (3).
An introduction to panel method theory and application for inviscid incompressible attached flows. Uses some two- and three-dimensional computer codes. Prerequisites: AE 711, MATH 757 or equivalent.

AE 812. Aerodynamics of Viscous Fluids (3).
Viscous fluids flow theory and boundary layers. Prerequisite: AE 424 or ME 521.

AE 813. Intro to Aeroelasticity (3).
Studies phenomena involving interactions among aerodynamic, inertial and elastic forces. Explores the influence of these interactions on aircraft design. Includes such specific cases as divergence, control effectiveness, control reversal, flutter, buffeting, dynamic response to rapidly applied periodic forces, aeroelastic effects on load distribution, and static and dynamic stability. Prerequisite: AE 777 or MATH 757, or instructor's consent and programming proficiency.

AE 814. Advanced Flight Dynamics II (3).
Sensitivity analyses of flight parameters, control surface sizing, handling qualities, pilot in-the-loop analysis, trajectory optimization. Prerequisite: AE 714.

AE 822. Finite Element Analysis of Structures II (3).
Formulation of the finite element equations by variational methods; the use of isoparametric and higher order elements for analyzing two- and three-dimensional problems in solid mechanics; introduction to solutions of nonlinear problems. Prerequisite: AE 722.

AE 831. Continuum Mechanics (3).
Introductory treatment of the fundamental, unifying concepts of the mechanics of continua with applications to classical solid and fluid mechanics. Prerequisite: instructor's consent. Prerequisite AE 731 or equivalent.

AE 832. Theory of Plates And Shells (3).
Analysis of the deformation of thin elastic plates, classical solutions for rectangular and circular plates, approximate solutions for plates of various shapes, introduction to the analysis of thin shells. Prerequisites: MATH 757, AE 731.

AE 833. Theory of Elastic Stability (3).
Buckling of columns, frames, beams, plates and shells. Prerequisite: AE 731.

An extension of AE 737. Includes the development of the mathematical foundations of linear elastic and plastic fracture mechanics, and computational fracture mechanics. Prerequisites: AE 731, 737, or equivalent.

AE 853. Advanced Mechanics of Laminated Composites (3).
An extension of AE 753. Includes anisotropic elasticity, micromechanics models for stiffness and strength, classical laminate and first order shear deformation theories, free-edge effects, failure theories, lateral deflections, analysis of notched laminates and sandwich structures. Prerequisites: AE 731, 753, MATH 758.

AE 860. Selected Topics (1-3).
Prerequisite: instructor's consent.

AE 876. Thesis (1-6).
Graded S/U.

AE 878. MS Directed Project (1-3).
A project conducted under the supervision of an academic advisor for the directed project option. Requires a written report and an oral presentation on the project. Graded S/U. Prerequisite: consent of academic advisor.

AE 890. Independent Study (1-3).
Arranged individual independent study in specialized areas of aerospace engineering under the supervision of a faculty member. Repeatable for credit. Prerequisite: consent of supervising faculty member. ?.

AE 911. Airfoil Design (3).
Historical development of airfoils, underlying theories and experiments, modern airfoil design philosophies and techniques, theories used in modern airfoil computation methods, application of computer programs for practical airfoil design problems including high lift and control devices. Prerequisites: AE 711, MATH 757.

AE 919. Advanced Computational Fluid Dynamics (3).
A study of structured grid generation schemes, transformation of the governing equations of fluid motion, numerical algorithms for the solution of Euler equations, parabolized Navier-Stokes equations, and
Navier-Stokes equations. Explores the fundamentals of unstructured grids and finite volume schemes. Prerequisite: AE 719.

**AE 936. Theory of Plasticity (3).**
Includes criteria of yielding, plastic stress-strain relationships; stress and deformation in thick-walled shells, rotating discs and cylinders, bending and torsion of prismatic bars for ideally plastic and strain-hardening materials. Includes two-dimension and axially symmetric problems of finite deformation and variational and extremum principles. Prerequisite: AE 731.

**AE 960. Advanced Selected Topics (1-3).**
Prerequisite: instructor's consent.

**AE 976. PhD Dissertation (1-16).**
Repeatable for credit. Graded S/U. Prerequisite: admission to doctoral aspirant status.

**AGE - Aging Studies**
Courses numbered 800 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**AGE 501. Field Experience (1-6).**
A supervised field experience in an agency or organization planning or providing services to older people, individually designed to enhance each student's skills and knowledge of the aging service network. Repeatable for 6 hours credit. Prerequisites: 12 hours of aging studies credit and instructor's consent.

**AGE 512. Diversity and Aging (3).**
*General education advanced further study course.* Cross-listed as ETHS 512. Introduces students to issues in aging that are unique to minority older adults. Demonstrates differences in the aging experience by race/ethnicity and addresses the differential patterns of health and illness in later life in relation to race/ethnicity, gender and culture. In addition, the student develops an appreciation for how race/ethnicity affects mental and social dimensions of life. Attention is given to the impact on the social, financial and health aspects of those who speak a language other than English. Course perspective is interdisciplinary, taking into account the physical, psychological, interpersonal, and social influences which shape our understanding of the challenges older minorities face when relocating to the United States. Course includes diversity content.

**AGE 514. Anthropology of Aging (3).**
Cross-listed as ANTH 514. An anthropological analysis of the latter stages of the life cycle with historical and cross-cultural perspectives.

**AGE 515. Women and Aging (3).**
Introduces students to issues in aging that are unique to women, to women's diverse developmental patterns, and to research methods appropriate for studying aging women and their life experiences. Topics include physical change, role transitions and adaptation from a life span perspective. Course includes diversity content.

**AGE 516. Age, Work and Retirement (3).**
Examines the basic implications of population aging on work life and retirement opportunities, now and in the future. Explores factors that may place individuals at risk for economic insecurity as they grow older. Topics covered include the current situation in the United States and other countries, examines the economic status of older Americans, addresses retirement policies in the private sector, social security and health care issues.

**AGE 520. Family and Aging (3).**
Cross-listed as SOC 520. An analysis of the families and family systems of older people. Emphasizes demographic and historical changes, widowhood, caregiving and intergenerational relationships as these relate to the family life of older people. Course includes diversity content. Prerequisite: AGE 100, SOC 111, or junior standing.

**AGE 525. Dying, Death and Bereavement (3).**
A broad overview of the psychological aspects of death and dying in our society. Topics include attitudes toward and preparation for death, the understanding of and care for terminal ill patients, funeral rituals, burial, mourning and grief practices; suicide and euthanasia. The class involves experiential learning activities such as personal preparation for death and field trips such as visiting a funeral home. These learning activities are designed to help the student be better equipped to help those who must make such preparations for themselves or loved ones.

**AGE 527. Introduction to Sexuality and Aging (3).**
Focuses on all aspects of sexuality and aging and the issues that arise with respect to sexual behavior as humans age. Examines human sexuality over the life course, focused on the experiences of those 65 and older and the impact of chronic disease, cognitive decline and physical disabilities on sexual attitudes and behaviors. Addresses key concerns regarding sexuality and aging, including misconceptions about sexuality and aging as well as the problems with sexuality that members of the aging population sometimes face. It also looks at solutions, treatments and techniques that can be applied to help address some of those problems. The course perspective is interdisciplinary, taking into account the physiological, psychological, interpersonal and social influences which shape our understanding of sexuality in the aged.

**AGE 529. Caregiving and Aging (3).**
Explores caregivers' gender roles, cost of caregiving, managing stress, respite care, finding resources, financial and legal matters, emerging caregiving trends, and long distance caregiving. Caregiving is often stressful to the caregiver. Attention is given to caring for the caregiver, informal versus formal caregiving, the importance of various services for the health of the caregivers themselves, working with professional caregivers, and emerging trends in caregiving.

**AGE 543. Aging and Public Policy (3).**
Cross-listed as SOC 543. Seminar-style course explores the impact of an aging population on social institutions, covers the history of American aging policies, the organization and financing of health care for the elderly, and discusses policy analysis as an evaluation tool for comparing public approaches to responding to the needs of an increasingly diverse aging population. Considers the process of policy formation, identifies key players and interest groups and contrasts political ideologies regarding federal, state and private responsibilities for older people. Emphasizes Social Security, the Older Americans Act, Medicare and Medicaid as policy examples. Also looks at the potential contributions of the older population to society (volunteer services, provision of family care, etc.) as affecting and affected by policy. Course includes diversity content. Prerequisite: SOC 111 or AGE 100 or junior standing.

**AGE 550. Selected Topics in Aging Studies (1-3).**
Study in a specialized area of aging studies with the focus upon preprofessional programs and current issues in the field of aging. Emphasizing knowledge and skills in applied areas of aging studies as they relate to an emerging area of research and application. Repeatable up to 6 hours. Prerequisite: instructor's consent.

**AGE 559. Successful Aging: Theory, Research & Practice (3).**
Cross-listed as PSY 559, SCWK 559, and SOC 559. Reviews current interventions which promote successful aging. Theoretical bases of this work in biomedical and life span/developmental psychology is featured.
Intended for students in the Colleges of Health Professions, Liberal Arts & Sciences and Engineering. Course includes diversity content. Prerequisite: AGE 100, or PSY 111, or SCWK 201, or SOC 111.

AGE 562. Human Resource Management in Long-Term Care (3).
Builds a solid foundation in human resource management principles for professionals working in long-term care. Intended for students who need a skillset in HR management principles for an administrative role, or who will be managing HR professionals. Key human resources functions covered include HR’s role as a strategic partner, employment law, recruitment, compensation and payroll, training and development, discipline and termination, and labor relations. Case studies, contemporary issues and discussions focus heavily on becoming an employer of choice in a long-term care environment.

AGE 564. Long-Term Care Management & Operations (3).
Designed to broaden the understanding of operating and managing a long-term care community — specifically assisted living communities. Students gain an understanding of human capital demands, cross-functional departmental dependences, financial and budgetary requirements, as well as the relationship between operational excellence and quality of life for the resident.

AGE 660. Administrator-in-Training Long-Term Care Practicum (1-3).
An academic long-term care administrator training program. Develops a professional competency and personal code of ethics for the field of long-term care administration. Gives students the practical experience required by the state of Kansas in order to sit for the state and national nursing home administrator licensure examination. The required text is the study guide for the national exam. It is the student’s responsibility to work through the study materials and seek guidance from their preceptor regarding questions over the material. A total of 480 clock-hours are required by the state of Kansas and must be completed in a licensed long-term care nursing home community under the guidance of an approved preceptor. Repeatable for a total of 3 credit hours. Prerequisite: instructor's consent.

AGE 663. Economic Insecurity (3).
Cross-listed as ECON 663. Personal economic insecurity, such as unemployment, old age, health care, disablement and erratic economic fluctuations. Includes costs and benefits of government action to aid in meeting such insecurities. Course includes diversity content. Prerequisites: ECON 202 or instructor's consent, and junior standing.

AGE 702. Research Methods (3).
Cross-listed as PADM 702. Acquaints students with applied public policy research methods. Emphasizes locating, collecting, appraising and using both primary and secondary sources of data of the type used in policy, planning and administrative research. Students must complete several short research projects. Fulfills the university’s professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership.

AGE 710. Systems in Long-Term Care (3).
Analyzes long-term care in the U.S. as a response to chronic illness and disability emphasizing the diversity of long-term care systems and addressing the needs of persons of all ages. Addresses system and organizational aspects that affect organizational outcomes and quality of long-term care services. Considers long-term care policy and management issues. It explicitly applies a trajectory model of chronic illness, conceptualizing formal long-term care services as one series of responses to chronic illness and disability.

AGE 717. Health Communications and Aging (3).
A multidisciplinary, empirically-based consideration of emotions, behaviors, beliefs and attitudes related to aging and the process of communicating with older adults. Topics include: approaches to communication and aging, current evidence about communication and the aging population, interpersonal and intergenerational communication, mass communication and aging, health and health care interactions (patient-physician communication, etc.), older adults and technology, and cultural change. Students develop applied skills and critical thinking. Applications to public health are explored throughout the course.

AGE 720. Independent Readings (1-3).
Supervised study of special topics and problems relating to older adults. Repeatable up to 6 hours. Prerequisite: program consent.

AGE 765. The Medicare System (3).
Designed to explore the many intricacies of the Medicare and Medicaid programs. Emphasizes the application of course material to the development of the student’s understanding of how these two programs affect the use of medical services among covered populations. Course format includes lecture, group and individual examination of the literature, and analysis of case studies.

AGE 780. Physical Dimensions of Aging (3).
Cross-listed as HPS 780. Designed to assist the student in developing an understanding of the complex physiological changes that accompany advancing age and the effects of physical activity on these factors. In addition, the student develops an appreciation for how functional consequences affect mental and social dimensions of life. Attention is given to sensory, motor, cognitive and psychological changes. Special emphasis is placed on factors associated with the preparation, implementation and evaluation of research projects involving older adult populations.

AGE 781. Cooperative Education (3-6).
Provides practical field experience, under academic supervision, that is suitable for graduate credit and complements and enhances the student's academic program. Repeatable up to 6 hours. These 3 to 6 hours may meet degree requirements (if approved by the academic adviser) in place of AGE 810. AGE 781 is graded Cr/NCr, while AGE 810 is letter graded. Prerequisites: 12 hours of aging studies and instructor's consent.

AGE 798. Interprofessional Perspectives on Aging (3).
Introduction to the advanced study of the process of aging from a multidisciplinary point of view. Not open to students with an undergraduate major or minor in aging studies. Prerequisite: admission to Graduate School.

AGE 801. Field Research Aging Studies (1-3).
An examination of the methods of participant observation and interview as approaches to understanding aging and the aged. Students gain practical experience in these methods through individual fieldwork projects. Prerequisite: AGE 798, 12 hours of aging studies credit, or instructor's consent.

AGE 802. Quantitative Methods for Public Sector Professionals (3).
Cross-listed as CJ 802. Uses standard microcomputer statistical software and analysis to introduce statistics and quantitative analysis for organizational and policy decision making. Emphasizes the application of statistics and writing with quantitative evidence to real public sector policy questions. Assumes little or no background in statistics and software applications.

AGE 804. Social Policy and Aging (3).
Analyzes and evaluates policies and programs related to aging and old age. Emphasizes the importance of social values and historical context.
for understanding current policies, programs and practices. Prerequisite: AGE 798, 12 hours of aging studies, or instructor's consent.

AGE 810. Aging Studies Practicum (1-3).
Integrates academic aging studies and practical experience through supervised placement of students in an agency or organization engaging in planning, administering or providing direct services to older people. Practicum requires 160 contact hours for each 3 hours of credit. A practicum internship paper is also required. Repeatable for a total of 3 hours credit. AGE 810 is a letter-graded course. Students may substitute the S/U course AGE 781, Cooperative Education, for AGE 810. Prerequisites: 12 hours of aging studies credit and instructor's consent prior to registration.

AGE 813. Advanced Sociological Perspectives of Aging (3).
Cross-listed as SOC 813. Overview of the significant sociological perspectives, social issues and social science research pertaining to the phenomenon of aging in society. Examines the major theories of social aging, analyzes the changing demographic trends and the political economy issues facing aging societies; describes how the broader societal context affects the nature of family relationships, community involvement, and the experiences of retirement and widowhood among older adults. Examines the current issues in health and social service delivery for care of older adults. Examines a substantive field which includes major social policy as well as personal significance in contemporary life. Course includes diversity content.

AGE 814. Advanced Psychological Perspectives of Aging (3).
Provides a comprehensive exploration of the psychology of aging. Students examine the issues surrounding the adult aging process. Topics include personality and intellectual change, mental health of older adults, and the psychological issues of extending human life. Teaches aspects of successful aging, normal aging and age-related illness such as dementia, Alzheimer's disease, cancer and heart conditions. Emphasizes the strengths of older adults and prevention of psychological problems of older adults.

AGE 818. Advanced Biological Perspectives of Aging (3).
Designed to provide students with the most up-to-date information on the current understanding of the aging process. Students develop an understanding of the biology of aging with a system-by-system description of aging phenomena. Students are expected to develop an understanding of the complexities of the aging process from various perspectives.

AGE 822. Advanced Perspectives of Public Health and Aging (3).
Explores the study of aging and advanced perspectives on aging theories, their application to current issues, current published research on public health and aging, and a range of health issues that older persons, their families, their providers and society will face in the next decade. Presents an in-depth review of aging from numerous perspectives including a systematic review of aging at the local, state, national and global levels.

AGE 850. Selected Tops Aging Studies (1-6).
Advanced study in a specialized area of aging studies focusing upon professional programs and current issues in the field of aging. Emphasizes knowledge and skills in applied areas of aging studies as they relate to an emerging area of research and application. Repeatable up to 6 hours.

AGE 895. Thesis Research (1-3).
Individual guidance in the development of a specific research problem. Potential thesis topics should be formulated by the student and discussed with their thesis adviser. May be repeated for a maximum of 3 hours credit. Prerequisite: completion of, or current enrollment in, all academic coursework for the master's degree.

AGE 897. Advanced Research Methods (3).
Cross-listed as CJ 897. Advanced research course. Studies the selection and formulation of research problems, research design, hypothesis generation, scale construction, sampling procedures, and data analysis and interpretation.

Original research project under a faculty member's direction. Project requires a written report and defense of that report before a faculty committee. Must be an individual effort, not a group project. Intended to be a major project or capstone activity completed at the end of a student's program of study. Repeatable. Prerequisite: graduate-level research methods class.

AGE 899. Thesis (1-3).
Repeatable, but total credit hours counted toward degree shall not exceed 4 hours.

ANTH - Anthropology
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ANTH 502. Introduction to Archaeological Laboratory Techniques (1-3).
Introduction to the laboratory processing of archaeology materials. Direct experience in all phases of preparing excavated materials for analysis, including cleaning, restoring, preserving, numbering and cataloging ceramic and lithic artifacts and other remains. Repeatable to a maximum of 3 credit hours. Prerequisite: ANTH 305.

ANTH 506. Peoples of the Pacific (3).
General education advanced further study course. A survey of the populations, languages and cultures of nonliterate peoples of Polynesia, Micronesia and Indonesia. Course includes diversity content.

ANTH 508. Ancient Civilizations of the Americas (3).
General education advanced further study course. A cultural survey of the Aztec, Maya and Inca. Prerequisite: instructor's consent.

ANTH 509. Cultures of Ancient Mexico (3).
Archaeological and ethnohistoric survey of the numerous civilizations of ancient Mexico from earliest inhabitants to the period of the Spanish invasion. The cultures covered include Olmec, Teotihuacan, Zapotec and Aztec. Explores the environmental, social and political conditions that led to the rise and fall of societies across Mexico. Prerequisite: ANTH 103.

ANTH 510. Archeology of the Ancient Maya (3).
Development of the tropical Lowland Maya civilization in Mesoamerica from the origins of agriculture through the Spanish Conquest. Topics include the rise of divine kingship, the Maya calendar and hieroglyphic writing, interstate conflict and warfare, and Maya religion. Explores archaeological, ethno-historical and linguistic data and accounts. Prerequisite: ANTH 103.

ANTH 511. The Indians of North America (3).
General education advanced further study course. A survey of tribal societies and native confederations north of Mexico from the protohistoric through the historic period. Course includes diversity content. Prerequisite: ANTH 102.

ANTH 515. China (3).
General education advanced further study course. An introduction to the people of China and aspects of their culture: economy, government, society, religion and the arts. Historical attention on the many adjustments the Chinese made during the 20th century following
political revolutions, industrialization and expanding trade relations. Course includes diversity content.

**ANTH 516. Japan: People and Culture** (3).
*General education advanced further study course.* An introduction to the culture of Japan including its history and prehistory, aspects of traditional culture, and 20th century Japan, its economy, politics and social organization. Course includes diversity content.

**ANTH 517. Anthropology of Islam** (3).
Designed to enhance undergraduate and graduate studies in the diversity of Islamic traditions as they are practiced in various geographic areas and social settings around the world. Covers some of the most prominent theoretical approaches in social and cultural anthropology, which are scrutinized by in-depth ethnographic accounts of Islamic practices in various sociopolitical contexts. Course includes diversity content. Prerequisite: ANTH 102.

**ANTH 519. Applied Anthropology** (3).
The application of anthropological knowledge in the solution of social problems in industry, public health and public administration. Prerequisite: ANTH 102.

**ANTH 522. Art and Culture** (3).
*General education advanced further study course.* A survey of the visual and performing arts of non-Western peoples with special attention to their relationships in the cultural setting. Course includes diversity content. Prerequisite: ANTH 102.

**ANTH 526. Social Organization** (3).
A survey of the varieties of social organization among peoples throughout the world. Deals with family systems, kinship, residence patterns; and lineage, clan and tribal organizations. Course includes diversity content. Prerequisite: 6 hours of anthropology.

**ANTH 528. Medical Anthropology** (3).
*General education advanced further study course.* Studies the health and behaviors of various human societies, especially in, but not limited to, those outside the Western scientific tradition. Covers attitudes toward the etiology of disease, the techniques of healing, the use of curative drugs and other agents, the roles of healers and therapists, and the attitudes of the community toward the ill. A library or field research project is required. Prerequisite: 3 hours of nursing or 3 hours of anthropology or instructor's consent.

**ANTH 538. Early Man in the New World** (3).
A critical examination of facts and theories concerning early man in the New World from the peopling of the continent to the beginning of the Archaic Tradition, and of the role of cultural contacts between Eastern Asia and North America. Prerequisite: ANTH 305.

**ANTH 540. The Indians of the United States: Conquest and Archaic Tradition, and of the role of cultural contacts between Eastern Asia and North America. Prerequisite: ANTH 305.

**ANTH 542. Women in Other Cultures** (3).
Cross-listed as WOMS 542. Deals with the place of women in primitive and other non-Western societies, in various aspects of culture: political, economic, social, religious, domestic, intellectual, psychological and aesthetic. Compares and contrasts societies in order to see how different kinds of roles for women are related to different kinds of societies. Course includes diversity content.

**ANTH 555. Paleoanthropology and Human Paleontology** (3).
*General education advanced further study course.* A detailed examination of human evolutionary history as evidenced by fossil remains and a survey of various interpretive explanations of the fossil record. Prerequisite: ANTH 101 or BIOL 210 or equivalent.

**ANTH 557. Human Osteology** (3).
Deals with human skeletal and dental materials, with applications to both physical anthropology and archaeology. Lecture and extensive laboratory sessions; includes bone and tooth identifications, measurement and analysis, and skeletal preservation and reconstruction. Individual projects are undertaken. Prerequisite: ANTH 101 or equivalent.

**ANTH 562. Introduction to GIS** (3).
A skills and techniques course that introduces elementary concepts and tools of geographic information systems and the particular tools available in the program ArcGIS Desktop. Application of GIS tools and concepts to data analysis and interpretation, to behavioral pattern interpretation, and management decisions in using the data available from the WSU City Archeologist program and from the Sedgwick County GIS department are emphasized.

**ANTH 597. Topics In Anthropology** (3).
Detailed study of topics in anthropology. Content varies with interest of instructor. Consult Schedule of Courses for current topic.

**ANTH 597AF. The Preservation of Artifacts in Relation to Exhibition** (3).
Explores preservation techniques for artifacts on exhibit and the preparation of artifacts to go on exhibit. Techniques include general conservation, lighting and temperature. Students work independently on a project and work with artifacts to prepare for exhibit.

**ANTH 600. Forensic Anthropology** (3).
Cross-listed as CJ 600. Encompasses the area of criminal investigation involving biological evidence: blood, hair, fingerprint, dentition and skeletal system. Covers procedures of collection, preservation, marking, transportation, referral, laboratory analysis, classification and identification emphasizing anthropological interpretation. Prerequisite: ANTH 101 or equivalent.

**ANTH 602. Archaeological Laboratory Analysis** (1-3).
Students analyze archaeological materials, including ceramic, lithic, faunal and vegetal remains according to accepted methods. Students learn to apply standard methods of identification and modes of interpretation to the materials to produce an acceptable archaeological report. Prerequisites: ANTH 502 and instructor's consent.

**ANTH 606. Museum Methods** (3).
An introduction to museum techniques relating to the acquisition of collections and related procedures, such as accessioning, cataloging, documentation, presentation and storage. Emphasizes current trends in museological philosophy concerning purpose, function and relevance of museums, as well as career opportunities. Prerequisite: instructor's consent.

**ANTH 607. Museum Exhibition** (3).
Contemporary philosophy of exhibition design and the application of recent concepts to the planning and installation of an exhibit. Prerequisite: ANTH 606 or instructor's consent.

**ANTH 609. Biological Anthropology Laboratory Analysis** (1-3).
Analyzes biological anthropology materials including human and nonhuman skeletal material of both forensic contemporary or prehistoric origin according to standardized methods for recording and collecting data in biological anthropology. Learn methods of identification, analysis and interpretation and prepare a standard technical report. Repeatable up to 6 credit hours. Prerequisites: ANTH 101, 106, 356 or 557.
ANTH 611. Southwestern Archaeology (3).
*General education advanced further study course.* A comprehensive survey of the prehistoric, historic and living cultures of the American Southwest particularly emphasizing the cultural continuities and changes covering 11,000 years. Prerequisite: one introductory course in anthropology or departmental consent.

ANTH 612. Indians of the Great Plains (3).
An investigation of the cultural dynamics of the Great Plains area from the protohistoric period to the present. *Course includes diversity content.* Prerequisites: 6 hours of anthropology and departmental consent.

ANTH 613. Archaeology of the Great Plains (3).
*General education advanced further study course.* The archaeology of the Great Plains area from earliest evidence to the historic period. Prerequisite: one introductory course in anthropology or departmental consent.

ANTH 647. Theories of Culture (3).
A survey of the main theoretical movements in cultural anthropology, including both historical and contemporary schools of thought. Prerequisite: 6 hours of anthropology.

ANTH 651. Language & Culture (3).
Cross-listed as LING 651 and MCLL 651. An introduction to the major themes in the interactions of language and society, and language and culture, including ethnography of communication, linguistic relativity and determinism; types of language contact, the linguistic repertoire, and cross-cultural discourse analysis. Content may vary with instructor. Prerequisite: 3 hours of linguistics or MCLL 351 or 6 hours of anthropology.

ANTH 662. Topics in Spatial Analysis (3).
Explores ways, means, techniques and methods to analyze geospatial data. Geographic analysis with GIS can identify patterns, relationships and trends that lead to better decision making. The class begins with six of the most common geographic analysis tasks: mapping where things are, mapping the most and least, mapping density, finding a boundary and what is inside the boundary, finding what is nearby, and mapping what has changed. The second half of the class covers analytical topics that range from identifying patterns and clusters, to analyzing geographic relationships. Prerequisites: grade of C or better in the elementary GIS course or instructor's consent. Knowledge of the Microsoft Windows operating system and Microsoft Office software suite is also a must.

ANTH 680. CRM Archaeology (3).
A review of the major federal and selected state laws and regulations affecting the practice of archaeology and anthropology in the area of Cultural Resources Management and historic preservation in the United States. Discussion focuses on the public concern with historic and cultural resources and archaeology, balancing research and planning needs, and interaction between clients and agencies.

ANTH 690. Field Methods in Anthropology (1-8).
Instructs the student in archaeological and ethnological field methods through actual participation in a field research program. The project depends upon the specific summer session and varies from year to year. A maximum of 6 credit hours can be counted toward either the BA or MA degree in anthropology. Prerequisite: instructor's consent.

ANTH 736. Advanced Studies in Archaeology and Ethnohistory (3).
Special area and theory problems in a historical approach to culture. Prerequisites: graduate standing and 6 hours of anthropology.

ANTH 746. Advanced Studies in Cultural Anthropology (3).
Entails an in-depth coverage of selected topics in cultural anthropology, including social structure, economic and political organization, religion, personality, arts and knowledge systems, and current research methods. Prerequisites: graduate standing and 6 hours of anthropology, including ANTH 647 or equivalent as determined by the graduate coordinator.

ANTH 750. Workshop (1-4).
Short-term courses focusing on anthropological problems. Prerequisite: instructor's consent.

ANTH 756. Advanced Studies in Biological Anthropology (1-3).
In-depth coverage of selected topics in biological anthropology, including the history of evolutionary thought, human variation, growth and development, population dynamics, paleoanthropology and primatology. Focuses on current issues, method and theory in biological anthropology. Prerequisites: graduate standing and 6 hours of anthropology (must include ANTH 101 or instructor's consent).

ANTH 770. Advanced Readings (1-3).
Provides opportunities for additional student research and reading on concepts and topics covered in the core graduate courses, ANTH 736, Advanced Studies in Archeology and Ethnohistory; ANTH 746, Advanced Studies in Cultural Anthropology; and ANTH 756, Advanced Studies in Biological Anthropology. Repeatable up to 6 hours. Prerequisites: full graduate standing, completion of one core course (ANTH 736, 746 or 756), departmental consent.

ANTH 781. Cooperative Education (1-4).
Provides practical experience that complements the student's academic program. Requires consultation with, and approval by, an appropriate faculty sponsor. May not be used to satisfy degree requirements. Repeatable for credit. Graded Cr/NCr. Prerequisite: graduate status.

ANTH 798. Introduction to Research (3).
Research methodology in anthropology, including bibliography, research design and the philosophy of research. Prerequisites: full graduate standing and completion of at least one of the following core courses: ANTH 736, 746, or 756.

ANTH 801. Seminar in Archaeology (3).
Comprehensive analysis of archaeological data emphasizing theoretical problems of interpretation and reconstruction. Repeatable up to 6 hours.

ANTH 802. Methods In Anthropology (2-3).
Develops abilities in the conception and investigation of anthropological problems, and interview and observation techniques, as well as more specialized methods such as photography, mapping and tape recording. Repeatable up to 6 hours. Prerequisite: departmental consent.

ANTH 820. Seminar in Biological Anthropology (3).
Analysis and discussion of ancient fossil, prehistoric, historic and recent/modern biological variation in an anthropological perspective. Can include advanced studies of human variation and skeletal biology, demography and population genetics in anthropology, advanced studies in paleoanthropology and issues in the debate over micro and macro levels of evolution, and quantitative applications to the study of human variation in anthropological contexts. Repeatable up to 6 hours. Prerequisite: departmental consent.

ANTH 837. Seminar in Cultural Anthropology (3).
Intensive study of advanced theoretical questions in cultural anthropology. Repeatable up to 6 hours. Prerequisites: graduate standing and 5 hours of completed graduate coursework in anthropology including ANTH 746.

ANTH 847. Colloquium in Anthropology (1).
Seminar-style experience in recent research in all of the subfields of anthropology. Allows those students preparing their first papers
for presentation at professional conferences to present them before a critical but friendly audience. May be repeated once for additional credit. Graded S/U. Prerequisite: graduate standing in anthropology.

ANTH 848. Recent Developments in Anthropology (3). A review of the latest discoveries and interpretations in the science of human beings. Repeatable up to 6 hours. Prerequisite: 5 hours of anthropology.

ANTH 870. Independent Readings (1-3). Repeatable up to 6 hours. Prerequisite: departmental consent.

ANTH 871. Internship in Anthropology (1-2). Students following applied or multidisciplinary tracks, such as museology, international business education, or health professions receive professional work experience in their field through an internship at a designated workplace approved by departmental committee. Course requires a written report. Prerequisite: full graduate standing, completion of ANTH 736, 746, 756, and committee consent.

ANTH 872. Internship in Anthropology (1-2). Students following applied or multidisciplinary tracks, such as museology, international business education, or health professions receive professional work experience in their field through an internship at a designated workplace approved by departmental committee. Course requires a written report. Prerequisite: full graduate standing, completion of ANTH 736, 746, 756, and committee consent.

ANTH 873. Advanced Projects in Anthropology (1-2). In consultation with their major adviser and committee, students design a project (e.g., a museum exhibit, a written plan for an international business venture, a lesson plan for an anthropology unit in schools) that applies anthropological method and theory to the specific needs of an institution, group or population. Requires a tangible end product (e.g., paper, thesaurus and/or visual production or exhibit). Prerequisite: full graduate standing, completion of ANTH 736, 746, 756, and committee consent.

ANTH 874. Advanced Projects in Anthropology (1-2). In consultation with their major adviser and committee, students design a project (e.g., a museum exhibit, a written plan for an international business venture, a lesson plan for an anthropology unit in schools) that applies anthropological method and theory to the specific needs of an institution, group or population. Requires a tangible end product (e.g., paper, thesaurus and/or visual production or exhibit). Prerequisite: full graduate standing, completion of ANTH 736, 746, 756, and committee consent.

ANTH 875. Thesis (1-2). Prerequisite: full graduate standing, completion of ANTH 736, 746, 756 and committee consent.

ANTH 876. Thesis (1-2). Prerequisite: full graduate standing, completion of ANTH 736, 746, 756 and committee consent.

ARTE - Art Education

Although applications are not being accepted for the graduate program in art education, the following courses are available.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ARTE 514. Aesthetic Inquiry (3). Focuses on contemporary trends in aesthetics relative to the visual arts. Students write critical observations and interpretations in response to artwork. Prerequisite: upper-division art major.

ARTE 515. Developing Visual Materials for Art Education (3). A production laboratory that emphasizes the integration and selection of appropriate visual media for art instruction. Prerequisite: ARTE 310 or equivalent.

ARTE 517. Teaching Internship Seminar: Art (1). Analyzes problems encountered in the art classroom during the second semester of the internship. For undergraduate students only. Prerequisites: acceptance into Core III internship, including grades of B- or above in ARTE 310, 410, 414, CI 427, CESP 433 and overall GPA of 2.500, or higher. Corequisites: ARTE 462, 459.

ARTE 550. Art Workshop (1-3). Repeatable for credit. Area covered is determined at the time the course is offered.

ARTE 702. Metal Processes for Jewelry Construction (3). Emphasizes fabrication techniques, design analysis and function of jewelry designed and produced by students and acknowledged craftsmen. Repeatable once for credit. Prerequisite: ARTE 302 or instructor's consent.

ARTE 710. Creative Behavior and Visual Thinking (3). Identification and application of theories for creative and critical thinking. Emphasizes strategies for problem solving and visual thinking and procedures to implement those strategies. Student identifies an area for individual investigation. Repeatable once for credit.

ARTE 711. Seminar In Art Education (1-3). Supervised study and research of contemporary issues in art education. Repeatable for credit with adviser's consent.

ARTE 713. Fiber & Fabric Processes (1-3). Fiber processes using traditional and experimental techniques in woven forms and other structural techniques using natural and man-made fibers. Repeatable once for credit. Prerequisite: instructor's consent.

ARTE 714. Aesthetics for Classroom (3). Focuses on applying the issues and theories of aesthetics to the K-12 classroom. Students participate in discussions and demonstrations of these theories through critical and reflective writing as well as curricular planning. Students consider aesthetic development and construct lessons to integrate strategies involving aesthetic concepts into their teaching.

ARTE 719. Electronic Imaging (1-3). Emphasizes Macintosh and other computer processes and their application to art and art education. Students generate computer images using digitizing, scanning, and animation with a variety of software and hardware. Makes application of this technology to problems of design, art history, and art criticism. Develops curriculum materials for art instruction employing computer graphic instruction. The graduate student prepares a research paper on a selected topic related to computer graphics and art learning.

ARTE 815. Individual Research Problems in Art Education (1-4). Directed independent study in art education not normally covered in other graduate coursework. Repeatable for credit. Prerequisite: instructor's consent.

ARTE 818. Terminal Project - Art Education (1-3). Terminal project in art education.

ARTG - Graphic Design

Although there is no graduate degree in graphic design, the following courses are available.
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ARTG 530. Seminar in Graphic Design (1-3). Supervised study and research. Requires weekly consultation and reports. Repeatable for credit. Prerequisite: instructor's consent.

ARTG 530AA. Working with Design (3). A study of the elements and principles of Graphic Design. Course is offered for nonmajors.

ARTG 530F. Seminar in Graphic Design: Graphic Design Studio Practice (3). Supervised study and research. Requires weekly consultation and reports. Repeatable for credit. Prerequisite: instructor's consent.

ARTG 530O. Basic Letterpress (2). Supervised study and research. Requires weekly consultation and reports. Repeatable for credit. Prerequisite: instructor's consent.

ARTG 530S. Seminar in Graphic Design: Graphic Design Studio (3). Supervised study and research. Requires weekly consultation and reports. Repeatable for credit. Prerequisite: instructor's consent.

ARTH - Art History

Although there is no graduate degree in art history, the following courses are available.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ARTH 520. Seminar In Art History (1-3). Systematic study in selected areas of art history. Course content varies but individual areas are not repeatable for credit.

ARTH 526. Art Since 1945 (3). General education advanced further study course. Art in the United States from 1945 to the present, stressing the relationship between contemporary trends in criticism, theory, and artistic practice. Prerequisite: ARTH 124 or instructor's consent.

ARTH 532. Independent Study in Art History (1-3). Work in a specialized area of the study of art history. Directed readings and projects. Prerequisite: instructor's consent.

ARTH 533. Seminar: Topics in Modern Art (3). Selected readings and problems in art of the modern era. Course content varies but individual areas are not repeatable for credit.

ARTH 533AA. Themes in Contemporary Art and Design II (3). Explores the historical foundations of contemporary art and design, as well as the various social, cultural, political and medium-specific issues that influence creative citizenship, contemporary practices, theories of postmodernism and globalization, existing and emerging exhibition strategies, and changing audiences and environments. Requires in-depth research and analysis in oral and written communication. Prerequisites: ARTH 347, graduate standing, or instructor's consent.

ARTH 533AB. Islamic Art (3). Explores the relationship between the Islamic faith and various art forms. Muslim societies have produced artworks of extraordinary vitality and diversity across three continents over the course of 1500 years. Course examines this art thematically. Topics include: introduction to Islam, mosque architecture, calligraphy, Islamic ornament, ceramics, contemporary video/performance art, and more.

Students gain a greater familiarity with the vibrant Islamic community in Wichita through guest speakers, field trips, and cultural exchanges.

ARTH 533AC. Curation and Installation of “Do It” Exhibition (3). This hands-on, applied learning course explores all the possibilities for working in a museum environment. Students collaborate closely with the staff of the Ulrich Museum of Art to curate the upcoming Do It exhibition, choosing works, installing the show, designing publicity materials and helping with events planning.

ARTH 533AF. Realism/Activism/Prints (3). Working closely with the director of the Ulrich Museum of Art and the museum’s notable collection of works on paper, students explore regional and national printmakers of the past century who engaged in social activism. Students have the opportunity to view firsthand the works discussed in the class, and to research and write critically about those works for an exhibition at the Ulrich Museum of Art the following semester.

ARTH 540A. Concepts in Creative Industries: Planning and Preparatorship (3). Working closely with cultural institutions and other partner organizations, students in this course work on the installation and/or deinstallation of a show or exhibition. They learn about the practical and conceptual aspects of working with art objects, from restrictions on light level, humidity and temperature, to proper handling procedures and hanging methods. Students experience collaboration within an arts organization first-hand, and learn the fundamentals of collections storage and display. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 540B. Concepts in Creative Industries: Research and Interpretation (3). Focuses on applied learning through partnerships with on- and off-campus arts and cultural organizations. Working closely with their partner organizations, students study the role of curator by participating in a show or exhibition during its planning and execution, or by helping an organization fulfill its research needs related to exhibition planning and collection management. In addition to engaging directly with actual artworks, students have the opportunity to practice critical thinking and writing skills, including authorship or essays and didactics that may be used in exhibitions or published in the partner organization's materials. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 540C. Concepts in Creative Industries: Audiences and Outreach (3). Focuses on applied learning through partnerships with on- and off-campus arts and cultural organizations. Working closely with their partner organizations, students study the dynamics of diverse audiences, explore the ways in which cultural institutions engage with communities, and contribute to efforts surrounding audience outreach. Students consider how diverse audiences may interact with didactics and other materials, engage in outreach activities in neglected or underserved communities, analyze the institution's primary patrons and supporters, and participate in conversations surrounding new audience cultivation. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 540D. Concepts in Creative Industries: Funding and Promotion (3). Focuses on applied learning through partnerships with on- and off-campus arts and cultural organizations. Working closely with their partner organizations, students learn the basics of funding and resource management for those organizations, such as grant writing, discovering alternative revenue streams, and collaborating with existing and
prospective donors or commercial sponsors. Students also learn about promotional strategies by participating in the venues' publicity and marketing efforts and by helping to create promotional materials, to plan events, to find advertising opportunities, and more. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 546. Modernism II (3).
Explores a changing array of social, cultural, political and medium-specific issues that have impacted the development of modern art and design and the notion of modernism as an important theoretical term. Themes, topics and artistic/design-based references in this class change and respond to current debates and dialogues informing art and design practice. Requires in-depth research and analysis in oral and written communication. Prerequisites: ARTH 346, graduate standing, or instructor's consent.

ARTH 550A. Art, Gender and the Body (3).
Examines the role of mechanical, electronic and digital technologies in the creative practices of the late 20th and 21st centuries with emphasis on Europe and North America. Beginning with kinetic and moving to cybernetically inspired art, this course explores early uses of computer technology, including early experiments in synthetic video and interactivity. Critical investigations of new media art such as computer games, bio and sound art, and art for mobile devices, as well as examinations of new media arts beyond Western traditions are integral parts of the course. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 550B. Contemporary Art & Technology (3).
Examines the changing array of social, cultural, political and medium-specific issues that have impacted the development of modern art and design and the notion of modernism as an important theoretical term. Themes, topics and artistic/design-based references in this class change and respond to current debates and dialogues informing art and design practice. Requires in-depth research and analysis in oral and written communication. Prerequisites: ARTH 346, graduate standing, or instructor's consent.

ARTH 550C. Media, Innovation and Social Impact (3).
Investigates technological innovation and its social impact through a range of media theories and historical and contemporary practices. Also examines a range of emerging expressive forms and their intersections within creative practice, including radio, film, the internet, software innovations, electronic objects, biotechnologies, video games, social media platforms, sound/music integration and more. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 550D. Spaces, Borders & Transitions (3).
Investigates the relationships between technology, perception, and the built environment broadly conceived. Explores a variety of practices, including architecture, digital art, design, social media, social networking, emerging technologies, user-generated content, and other structures that use borders, indeterminacy and transition as expressive strategies. Students examine inbetweeness, interstitial space and flux as inherent elements of contemporary practice, and apply this learning through group projects and discussions. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 560A. Global Art Now (3).
Examines the theoretical, conceptual and technical trends that underpin global contemporary art and design practices, as well as their changing relationships to various art historical models and events. Some of the topics addressed include globalization, emerging media and interdisciplinarity, the growth of festival and biennale culture, the Culture Wars, gender and sexuality, and the fluid relationships between artists, works, viewing environments and audiences. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 560B. Contemporary Theory and Criticism (3).
Examines a range of contemporary theoretical models, as they apply to the study and execution of art and design. Through intensive readings and classroom discussion, students learn ways in which to approach art and design critically and to use a range of theories for the sound interpretation, analysis and evaluation of visual culture. Topics addressed may include structuralism and poststructuralism, deconstruction, semiotics, abjection, Foucauldian theory, postcolonial theory, queer theory, feminism and cyber theory. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 560C. Festivals and Biennales (3).
Course explores a diverse range of large-scale exhibitions, art fairs and biennales, and speculates on their importance and relevance within the changing world of contemporary art and design. Beginning with a survey of large global exhibitions such as the Great Exhibition of 1851 and the Venice Biennale, the course explores the economic, social, cultural, political and artistic implications of large-scale exhibitions and their impact on contemporary art history and individual creative practice. Course may include national or international travel to visit one or more exhibitions. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 560D. Contemporary Art of the Americas (3).
Explores the various ways in which American identity — in its broadest possible sense — has been articulated through and contested within contemporary art and design practices of North, Central and South America, as well as the Caribbean. Examines a range of topics including Latin American modernism and postmodernism and its relationship to its Western counterparts, art and (post-) coloniality, indigenous identity and culture, public and site-specific art, Bolivarian theory and the concept of revolution in artistic practice, developing art traditions and models, as well as other current topics. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 560E. Contemporary Asian and Pacific Art (3).
Explores contemporary art and design practices in the Australasian region and explores their unique relationships to and differences from Western art history and the canon. Topics include Australasian modernism and postmodernism, indigenous art practices, anime, Orientalism and Occidentalism as theoretical models, cultural hybridization, Australasia's relationship to globalization, and other relevant debates and dialogues. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.

ARTH 560F. Islamic Art (3).
Islamic artists working in diverse cultures have produced works of art, design and architecture of exceptional vitality over the past 1500 years. The geographic purview of these artistic ventures spans the Near East to Spain, Africa and Asia, and their artistic production encompasses textiles, ceramics, manuscript production, metalwork and other media. Introduces students to the major themes of Islamic art (both iconographic and stylistic) and situates those works within their religious, political and cultural contexts, as well as providing opportunity for community engagement with local, regional and national Islamic cultural institutions. Prerequisites: ARTH 125 and at least one 300-level ARTH course; or instructor's consent.
ARTH 560G. Art and Surveillance (3).
Considers how the concept of The Body, Space and Place as well as Archive intersect with surveillance. Course comprises three key components. First, how artists have responded to old and new surveillance methods that codify our ideas of gender/sexuality, race/ethnicity, and religion. Second, how artists have responded to old and new surveillance methods that shape our relationship with space in its various forms including public/private, national/international/transnational, and digital environments. Third, how artists have addressed personal, institutional, military and governmental archives as forms of surveillance. Also examines related cultural theory and contemporary issues. Students engage with these ideas through three creative projects—one for each of the focal areas of this course. Students working in any artistic discipline are welcome; no photo experience required.

ARTH 732. Independent Study in Art History (1-3).
Work in specialized area of the study of art history. Directed readings and projects for graduate students in all disciplines. Prerequisite: instructor's consent.

ARTH 832. Independent Study (1-3).
Individually supervised work in a specialized area of the study of art history. Directed readings, research and projects. Repeatable for credit. Prerequisites: suitable preparation for graduate work in art history (e.g., BA or BFA in art history) and instructor's consent.

ARTS - Studio Art
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ARTS 517. Community & Social Practice Senior Project (1).
BFA in art - studio art with community and social practice concentration capstone course. Emphasizes individual development of research and/or artistic content. For undergraduate students only. Prerequisites: ARTS 481N, instructor's consent. Corequisite: ARTS 599.

ARTS 525. Advanced Electronic Media (3).
Focus on further development of thematic content, creative problem solving, and producing original artwork that makes a personal artistic statement. Exploration of the field through presentations and/or research papers. Repeatable for credit. Prerequisites: ARTS 322, instructor's consent.

ARTS 527. Electronic Media Senior Project (1).
BFA in art-studio art with electronic media concentration capstone course. Emphasizes individual development of research and/or artistic content. Limited to undergraduate students. Prerequisites: ARTS 525, instructor's consent. Corequisite: ARTS 599.

ARTS 535. Advanced Photo Media (3).
Focus on further development of thematic content, creative problem solving, and producing original artwork that makes a personal artistic statement. Exploration of the field through presentations and/or research papers. Repeatable for credit. Prerequisites: ARTS 335, instructor's consent.

ARTS 537. Photo Media Senior Project (1).
BFA in art-studio art with photo media concentration capstone course. Emphasizes individual development of thematic content. Limited to undergraduate students. Prerequisites: ARTS 535, instructor's consent. Corequisite: ARTS 599.

ARTS 545. Advanced Drawing Studio (3).
Independently-defined projects and directions in drawing and drawing-related media aimed toward development of a drawing practice, process or portfolio. Research, readings and/or lectures investigating historical, contemporary and applied approaches to drawing in both fine art and popular applications. Repeatable for credit. Prerequisite: ARTS 341 or 345, or instructor's consent.

ARTS 547. Drawing Senior Project (1).
BFA in art-studio art with applied drawing concentration capstone course; emphasizes individual development of thematic content. Limited to undergraduate students. Prerequisites: ARTS 545, instructor's consent. Corequisite: ARTS 599.

ARTS 549. Independent Study-Drawing (1-3).
A professional emphasis on technical or aesthetic research in the drawing area. Available only for the advanced drawing student with instructor's consent. Statement of intent must be submitted for faculty approval before registration. Prerequisites: ARTS 340, 345, instructor's consent.

ARTS 550. Art Workshop (1-3).
Intensive study of topics related to studio arts. Differing topics are denoted by a letter following the course number (i.e., ARTS 550C, ARTS 550P, etc.).

ARTS 550AA. Photography Abroad: Paris (3).
Class travels to Paris, France, to make photographs, study the history of the area, and see amazing ancient and contemporary art over spring break. Cost varies depending on prices at the time of travel, but includes all travel and lodging. Contact instructor for details. Prerequisite: instructor's consent.

ARTS 550AB. Photography Abroad: Italy (3).
Class travels to Northern Italy to make photographs, study the history of the area, and see amazing ancient and contemporary art over spring break. Fly from Wichita to Rome, drive a rental van from Rome to Florence, stop in several small hill-towns in northern Italy and finish in Venice. Cost varies depending on prices at the time of travel, but includes all travel and lodging. Contact instructor for details. Prerequisite: instructor's consent.

ARTS 551. Advanced Watercolor Studio (1-3).
For the professionally-oriented student. Emphasizes independent study. Repeatable for credit. Prerequisites: four semesters of ARTS 351 and interview with instructor.

ARTS 552. Advanced Decorative and Ornamental Painting and Design (3).
Projects in decorative and ornamental painting and design developed and completed by the student with faculty supervision. Preparation for more independent work. A plan of study defining projects must be submitted and approved by the instructor. Repeatable for credit. Prerequisite: ARTS 352 or instructor's consent.

ARTS 553. Independent Study: Painting (1-3).
A professional emphasis on technical or aesthetic research in the painting area. Available only for the advanced painting student with instructor's consent. Statement of intent must be submitted for faculty approval before registration. Prerequisite: departmental consent.

ARTS 554. Advanced Painting (3).
Focus on further development of thematic content, creative problem solving and producing original artwork that makes a personal artistic statement. Exploration of the field through presentations and/or research papers. Repeatable for credit. Prerequisites: 6 hours from ARTS 354, 356, 358; instructor's consent.

ARTS 557. Painting Senior Project (1).
BFA in art-studio art with painting concentration capstone course; emphasizes individual development of thematic content. Limited to
undergraduate students. Prerequisites: ARTS 554, instructor's consent. Concurrent enrollment in ARTS 599.

ARTS 559. Terminal Project: Decorative and Ornamental Painting and Design (3).
Supervised independent study. A plan of study for a project in decorative and ornamental art must be submitted for faculty approval prior to registration. Repeatable for credit. Prerequisite: ARTS 552.

ARTS 560. Advanced Printmaking (3).
Focus on further development of thematic content, creative problem solving, and producing original artwork that makes a personal artistic statement. Exploration of the field through presentations and/or research papers. Repeatable for credit. Prerequisites: ARTS 369, instructor's consent.

ARTS 564. Independent Study: Printmaking (1-3).
A professional emphasis on technical and aesthetic research in the printmaking area. Only for the advanced printmaking student with instructor's consent. Statement of intent must be submitted for faculty approval before registration. Prerequisite: departmental consent.

ARTS 564A. Ceramics Senior Project (1).
BFA in art-studio art with ceramics concentration capstone course. Emphasizes individual development of thematic content. Limited to undergraduate students. Prerequisites: ARTS 560, instructor's consent. Corequisite: ARTS 599.

ARTS 565. Independent Study: Ceramics (1-3).
Focus on further development of thematic content, creative problem solving, and producing original artwork that makes a personal artistic statement. Exploration of the field through presentations and/or research papers. Repeatable for credit. Prerequisites: ARTS 373, instructor's consent.

ARTS 565A. Printmaking Senior Project (1).
BFA in art-studio art with printmaking concentration capstone course. Emphasizes individual development of thematic content. Limited to undergraduate students. Prerequisites: ARTS 560, instructor's consent. Corequisite: ARTS 599.

ARTS 574. Independent Study in Ceramics (1-3).
A professional emphasis on technical or aesthetic research in the ceramics field. Available only for the advanced ceramics student with instructor's consent. Statement of intent must be submitted for faculty approval before registration. Prerequisite: departmental consent.

ARTS 575. Advanced Sculpture (3).
Focus on further development of thematic content, creative problem solving, and producing original artwork that makes a personal artistic statement. Exploration of the field through presentations and/or research papers. Repeatable for credit. Prerequisites: ARTS 380 and instructor's consent.

ARTS 580. Independent Study in Sculpture (1-3).
A professional emphasis on technical or aesthetic research in the sculpture area. Available only for the advanced sculpture student with instructor's consent. Statement of intent must be submitted for faculty approval before registration. Prerequisites: ARTS 282, 283, departmental consent.

ARTS 580A. Sculpture Senior Project (1).
BFA in art-studio art with sculpture concentration capstone course; emphasizes individual development of thematic content. Limited to undergraduate students. Prerequisites: ARTS 580, instructor's consent. Corequisite: ARTS 599.

ARTS 590. SlowBurn Topics - 1st Semester (3).
Course travel fee may apply. Long-term projects consisting of experiential coursework whose planning and implementation extend across two successive semesters, with the first semester course typically devoted to research and planning. Requires enrollment in consecutive semesters of a single sequence of two SlowBurn Topics courses. Repeatable for credit. Graded Cr/NcR. Prerequisites: ARTF 202; senior standing in an ARTS major or instructor's consent.

ARTS 590A. SlowBurn Topics - 2nd Semester (3).
Course travel fee may apply. Long-term projects consisting of experiential coursework whose planning and implementation extend across two successive semesters, with the second semester course typically devoted to the experience researched and planned in the first semester SlowBurn Topics course. Requires enrollment in consecutive semesters of a single sequence of two SlowBurn Topics courses. Repeatable for credit. Prerequisite: ARTF 202; approved ARTS 590 in sequence; senior standing in an ARTS major or instructor's consent.

ARTS 591. SlowBurn Topics - 2nd Semester: Artist As Administrator (3).
Second semester of two semester sequence in which students design a professional project suiting their interests. Students will execute and evaluate the project designed in the first semester. Project may include an organizational connection if desired. Prerequisite: Successful completion of ARTS 590A during the Fall 2017 semester.

ARTS 591A. SlowBurn Topics - First Semester: Artist As Administrator (3).
First semester of two semester sequence in which students design a professional project suiting their interests. Students will execute and evaluate the project designed in the first semester. Project may include an organizational connection if desired. Prerequisite: Successful completion of ARTS 590A during the Fall 2017 semester.

ARTS 595. Galleries and Exhibitions (3).
Professional, practical, theoretical aspects of managing, organizing, marketing, funding and designing art exhibitions through installations in student art galleries, readings and lectures. Includes experiential assignments. Repeatable for credit. Prerequisite: ARTF 202 or faculty approval.

ARTS 599. Senior Exhibition (3).
Creation of artwork and research for public group exhibition as part of programmatic capstone requirement for BFA in studio art. For undergraduate students only. Prerequisite: either ARTS 481N, 525, 535, 545, 554, 560, 570, or 580. Corequisite: either ARTS 481N, 527, 537, 547, 557, 567, 577, or 587.

ARTS 790. Graduate Teaching Seminar (1).
Discussion seminar for graduate students already teaching or intending to teach. Meets six to eight times per semester. Class format is discussion. Students participate in discussions, read articles and essays, create teaching philosophy, create academic portfolio. Not repeatable for credit. Graded S/U.

ARTS 800. Seminar in Art Topics (2-3).
Explores areas of common interest in the arts. Supervised study, research and discussion. Repeatable for credit.

ARTS 800A. SlowBurn Topics: Designing and Creating a Sculpture Path in Matfield Green, KS (3).
Students assist in all phases of designing and installing a sculpture path in the art colony of Matfield Green, Kansas. First semester: designing signs, brochures, creating an online presence and applying for grant support for the project. Second semester: preparing the path, installing signage and assisting professional artists in installing their work. Travel to and from Matfield Green (one hour drive from Wichita) is required; funding for travel and overnight accommodations is provided.
ARTS 800L. Photography Abroad (3).
Class travels overseas to make photographs, study the history of the area, and see amazing ancient and contemporary art. Cost varies depending on prices at the time of travel, but includes all travel and lodging. Contact instructor for details. Prerequisite: instructor’s consent.

ARTS 830. Special Problems in Photo Media (1-5).
Introduces and develops advanced research methods in photography and related media through broad-based material/conceptual experimentation, personal expression, formal resolution, and theoretical grounding. Techniques include the spectrum of photographic processes, including traditional digital or analog photography, video, appropriation of imagery, experimental/antiquated techniques, etc. As students progress through the program, expectations shift to more deeply engaged and narrowly focused studio research in preparation for, and in support of, the terminal project. Scholarly research that augments the artistic practice is expected in the form of readings of pertinent literature, discussions in small-group and seminar formats, field studies, etc. Course meets program requirements for studies in the graduate photo media major. Majors in other areas may take this course to fulfill requirements for the minor area. Repeatable for credit and may be taken for 1-5 hours, based on the scope and nature of specific research interests, as determined by the area head, in consultation with the student and the student's primary advisor.

ARTS 838. Terminal Project - Photo Media (1-5).
As the first part of the culmination of the 60-hour MFA degree, this course emphasizes original studio research in areas related to photo media in preparation of the terminal project exhibition. While the terminal project is offered in lieu of thesis, it is expected that MFA candidates engage in scholarly research and writing in support of their studio practice. Repeatable for credit. Prerequisite: successful completion of the terminal project review and instructor's consent.

ARTS 839. Terminal Project - Photo Media (1-5).
As the culmination of the 60-hour MFA degree, this course focuses on the production of the terminal project exhibition. The terminal project is offered in lieu of thesis, but is accompanied by a written statement outlining the conceptual premise, historical and contemporary contexts, and/or technical aspects of the work. Repeatable for credit. Prerequisite: ARTS 838.

ARTS 840. Special Problems in Life Drawing (1-3).
Drawing from life. Requires sketchbooks and/or portfolio. Repeatable for credit.

ARTS 845. Special Problems in Drawing (1-3).
Advanced drawing in various media emphasizing independent work and the development of personal expression. Repeatable for credit.

ARTS 850. Special Problems in Painting (1-5).
Professional and experimental painting emphasizing the development of maturity, ideas, independent thinking and personal expression. Media include oil, watercolor and synthetic media. Repeatable for credit with the consent of the drawing/painting faculty.

ARTS 858. Terminal MFA Project - Painting (2-5).
ARTS 885. Terminal Project - Painting (1-5).
Research into and practical application of professional practices, business skills and career planning specific to the discipline of studio art. Provides a foundation of practical information to assist the graduate studio art major in building a successful professional career. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership when taken in conjunction with appropriate terminal project course. Not repeatable for credit.

BIOL - Biology
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

2 Classroom hours; 4 Lab hours. An introduction to the structure, reproduction, and evolution of the major groups of living and extinct vascular plants. Includes an introduction to flowering plant systematics.
Students earning graduate credit perform a primary literature survey on a topic selected in consultation with the instructor and deliver a 30-minute oral presentation to the class. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212.

BIOL 503. Field Botany (4).
Introduction to the field identification of common flowering plants, the use of technical scientific keys, distributional patterns and general principles of taxonomy. In addition to lecture and laboratory activities, numerous field trips are used to develop botanical skills and reinforce principles covered in lecture. Prerequisites: BIOL 211, CHEM 212, or instructor's permit.

BIOL 510. Ecosystem Management & Restoration (3).
Examines the design, implementation, and evaluation of land management plans and restoration projects. Restoration case studies covering a wide-array of ecological systems (e.g. grassland, forest, wetland, aquatic and marine) are used to examine the strengths and weaknesses of different approaches in these contexts with particular attention to key ecological principles and socio-economic realities. Students produce a written management plan for a site in south-central Kansas. Course includes diversity content. BIOL 418 is recommended. Prerequisite: BIOL 211 or instructor's permission.

BIOL 523. Freshwater Invertebrates (4).
2 Classroom hours; 4 Lab hours. Emphasizes the ecology, taxonomy, form and function of free-living, freshwater invertebrates. Half of the course deals with arthropods. Includes methods of collecting, culturing and preserving specimens. Part of the course grade is based on a collection of invertebrates correctly prepared and identified. For graduate credit, students submit a term paper or a more extensive collection within a given taxon. Prerequisites: BIOL 211, CHEM 212.

BIOL 524. Vertebrate Zoology (3).
Evolution, distribution, natural history and special characters of vertebrate animals. Students earning graduate credit produce a term paper based on the technical literature on a topic chosen in consultation with instructor. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212; BIOL 527 is also recommended.

BIOL 526. Endocrinology (4).
3 Classroom hours; 3 Lab hours. The hormonal regulation of bodily functions is considered in representative vertebrate systems, including humans. Students enroll in both lecture and laboratory portions of class. Students earning graduate credit submit a term paper on a topic chosen in consultation with the instructor. Prerequisite: BIOL 204 (no longer offered) or BIOL 211, CHEM 212.

BIOL 527. Comparative Anatomy (5).
3 Classroom hours; 4 Lab hours. An intensive study of representative chordates emphasizing vertebrate anatomy. Students earning graduate credit complete additional assignments chosen in consultation with the instructor, such as a term paper based on technical literature, dissection of additional animals, etc. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212.

BIOL 528. Parasitology (4).
2 Classroom hours; 4 Lab hours. Studies the parasites of man and other vertebrate hosts. Students earning graduate credit produce a term paper based on the technical literature on a topic chosen in consultation with the instructor. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212.

BIOL 530. Applied and Environmental Microbiology (3).
A characterization of the roles of microbes in natural and man-made environments. Discussions of microbial ecology and communities, interrelationships with higher organisms, biogeochemical cycling, biotechnology and bioremediation. Students earning graduate credit produce an additional research paper based on primary literature on a topic chosen in consultation with the instructor. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212.

BIOL 532. Entomology (4).
2 Classroom hours; 4 Lab hours. An introduction to the morphology, physiology, life cycles, behavior, ecology and economic significance of insects. Students earning graduate credit produce a term paper based on the technical literature on a topic chosen in consultation with the instructor or develop proficiency in a specific taxon by performing an individual systematics project. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212.

BIOL 534. Human Physiology (3).
An organ systems approach to human physiology. Emphasizes nervous and endocrine control systems and the coordination of body functions. Students earning graduate credit submit a term paper based upon library research on a topic in human physiology chosen in consultation with the instructor. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 531, or instructor's consent.

BIOL 535. Human Physiology Lab (2).
4 Lab hours. An empirical approach to human physiology. Students seeking graduate credit submit an additional laboratory report relating the results of a laboratory experiment to those found in the current technical literature. Pre- or corequisite: BIOL 534.

BIOL 540. Developmental Biology (4).
2 Classroom hours; 4 Lab hours. Developmental processes in animals emphasizing vertebrates. Centered on the cell interactions controlling differentiation and morphogenesis. Students earning graduate credit complete additional assignments chosen in consultation with the instructor. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212. BIOL 420 recommended.

BIOL 560. Plant Ecology (2).
2 Classroom hours. An examination of the relationship of plants to their environment at the organismal, population, community and ecosystem levels. For graduate credit, a student must prepare and present a 30-minute lecture over one of the topics covered in this course. Prerequisites: BIOL 418 and CHEM 212 or instructor's consent.

BIOL 561. Plant Ecology Lab (2).
Laboratory component of BIOL 560. Field trips are an integral part of the course. Emphasizes an experimental approach to plant ecology. For graduate credit, a student must present the results of the library/laboratory project orally, as well as in writing. Prerequisite: prior or current enrollment in BIOL 560.

BIOL 570. Conservation Biology (3).
Examines the application of fundamental concepts in ecology, evolutionary biology and genetics to the preservation of biological diversity at the levels of genotypes, species and ecosystems. Topics covered include (1) how biologists quantify biological diversity, (2) threats to biological diversity, (3) tools used to evaluate the level of threat to individual species and to design species management plans, and (4) concepts and considerations for preserve design. Decisions related to biodiversity conservation often have social and economic consequences, students explore these complexities through case studies. Skills developed in this course include critical reading of primary scientific literature, scientific writing and oral presentation. Prerequisite: BIOL 418.

BIOL 575. Field Ecology (3).
9 Lab hours. Techniques for analysis of systems consisting of living organisms and their environments. Field trips are required. Students earning graduate credit perform an individual project on comparative
community structure and report the results as a technical paper. Prerequisite: BIOL 418 or instructor's consent.

**BIOL 578. Aquatic Ecology (4).**
2 Classroom hours; 4 Lab hours. Introduction to the biological and physical processes that operate in lakes, streams and estuaries. Requires assigned readings, individual projects and field trips. Students earning graduate credit investigate and compare the characteristics and properties of two freshwater ecosystems or investigate a specific taxon or trophic level in a freshwater ecosystem. The results of this investigation are reported as a technical paper. Prerequisite: BIOL 418 or instructor's consent.

**BIOL 590. Immunobiology (3).**
The nature of antigens and antibodies and their interactions. Includes cellular and humoral aspects of immunologic phenomena. Students earning graduate credit prepare a term paper based on the technical literature on a topic chosen in consultation with the instructor. Prerequisites: BIOL 204 (no longer offered) or 211, CHEM 531.

**BIOL 595. Avian Biology (3).**
Prepares birds (class Aves) as models in contemporary animal behavior, physiological ecology, evolutionary biology, population ecology and conservation. The laboratory portion of the course teaches field identification of resident and migratory species by sight, song and call note on frequent field trips to a diversity of habitats, and culminates in a field survey of avian species diversity and abundance conducted by each student. Additional laboratory topics are bird banding, determination of age, sex, body lipid reserves, morphological measurement and population census. Student-led discussions of current papers in avian biology are required, as is an all-day Saturday field trip during spring migration through the Central Flyway, which includes south central Kansas. Graduate students must write a term paper on an approved topic in avian biology. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212, or instructor's consent.

**BIOL 610. Topics in Botany (1-5).**
Selected offerings in botany. Consult the Schedule of Courses for current offering(s). Students wishing to enroll in courses not listed in the current schedule must complete a Directed Independent Study Abstract form and obtain approval prior to enrollment. Students earning graduate credit produce a term paper based on the technical literature on a topic chosen in consultation with the instructor. Repeatable. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212 and instructor's consent.

**BIOL 610A. Cell and Molecular Biology Lab (1).**
Acquire current techniques and experimental approaches for studying cells. Prerequisite: departmental approval.

**BIOL 610M. Topics in Genetics Lab (1).**
Students acquire knowledge in current genetics techniques, and know how to apply that knowledge to analyze genetic data, which helps to improve their trouble shooting and problem solving skills. Prerequisite: departmental approval.

**BIOL 610N. Plant Ecology Lecture and Lab (4).**
Focuses on identifying and explaining key ecological patterns found in plant populations and communities.

**BIOL 620. Reproductive Biology (3).**
Covers the basic organization and function of vertebrate reproductive systems. Includes current concepts and contemporary research from the molecular to the population level. Students earning graduate credit prepare a term paper based on the technical literature on a topic chosen in consultation with the instructor. BIOL 526 is strongly recommended. Prerequisite: BIOL 420.

**BIOL 630. Behavioral Ecology (3).**
Studies the biological basis of social behavior, stressing the underlying evolutionary and ecological mechanisms. Lectures examine altruism and kin selection, kin recognition mechanisms, sexual behavior, sexual selection and mate choice, mating systems, and reproductive strategies from the perspective of natural selection. Students earning graduate credit write a term paper based on the technical literature and present this in a class seminar. Prerequisite: BIOL 418.

**BIOL 640. Topics in Zoology (1-4).**
Selected offerings in zoology. Consult the Schedule of Courses for the current offering(s). Students wishing to enroll in courses not listed in the current schedule must complete a Directed Independent Study Abstract form and obtain approval prior to enrollment. Students earning graduate credit produce a term paper based on the technical literature on a topic chosen in consultation with the instructor. Repeatable. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 212 and instructor's consent.

**BIOL 640AA. Ecology Lab (1).**
Laboratory explores the principles underlying the interrelationships of living organisms and their environments from the biosphere to the population level of organization. Prerequisite: departmental approval.

**BIOL 640AB. Human Anatomy (3).**
Gives students an understanding of the anatomy of the human body at the 600 level. Emphasis is on the detailed structural anatomy and classification of each of the human body’s organ systems. Students are challenged to begin thinking clinically so as to prepare for a future in the health professions. Includes weekly lectures and laboratories that the student is expected to attend.

**BIOL 640AL. Human Anatomy Lab (2).**
The gross and microscopic anatomy of each human body system is examined in lab through the use of models, diagrams, lab activities and dissections. Dissections include fetal pig full dissection and organ dissections of the following sheep organs: brain, eyeball, heart and kidney.

**BIOL 640G. Topics in Neurobiology (3).**
The course covers fundamental neuroanatomy, cellular and molecular neuroscience, development, sensory systems, motor systems, and regulatory systems.

**BIOL 640OL. ST: General Biology I - Lab (1).**
Biology is a laboratory science and the laboratory portion of General Biology I introduces students to experimental methods and scientific communication. Prerequisite: departmental approval.

**BIOL 640P. Evolution (3).**
Students in this course will learn basic aspects of evolutionary pattern and process with a focus on changes within populations. Topics include: 1) an overview of natural selection and its effects; 2) the microevolutionary process in natural populations (drift, selection, mutation, etc.); 3) quantitative genetics; 3) testing hypotheses of adaptation; 4) the evolution of genomes; and 5) lineage divergence (speciation).

**BIOL 640QL. ST: General Biology II - Lab (1).**
The laboratory includes a survey of organismal diversity including prokaryotes, protists, fungi, plants and animals. Prerequisite: departmental approval.

**BIOL 660. Topics in Microbiology (1-4).**
Selected offerings in botany. Consult the Schedule of Courses for current offering(s). Students wishing to enroll in courses not listed in the current schedule must complete a Directed Independent Study Abstract form and obtain approval prior to enrollment. Students earning graduate credit produce a term paper based on the technical literature...
on a topic chosen in consultation with the instructor. Repeatable. Prerequisites: BIOL 330 and instructor’s consent.

BIOL 660J. General Microbiology Lab (2).
Hands on general microbiology laboratory skills will be performed, including: microscopy, staining, aseptic and cultivating techniques, isolation and identification of bacterial species, and other standard techniques used in microbiology. Prerequisite: departmental approval.

BIOL 661. Pathogenic Microbiology (3).
Focuses on those microbes that produce disease. Most coverage is given to those microbes that cause disease in humans, but zoonotic diseases are also covered. In addition to describing the features of each microbe that enable its pathogenesis, attention is given to the distinctive aspects of its epidemiology, its means of spread and effective countermeasures. Prerequisite: BIOL 330 or instructor’s consent.

BIOL 662. Virology (3).
Focuses on the following aspects of viruses: structure, function, replication strategy, host cell interactions and mechanism of variability. Additional topics include the coevolution of viruses and their host cells, the unique ecological niche occupied by viruses, and the challenge that viruses present when attempting to draw clear distinctions between living and nonliving entities. Prerequisite: BIOL 330 or instructor’s consent.

BIOL 666B. Special Topics in Biochemistry (3).
The basic mechanisms of carcinogenesis are covered by discussing the control of normal and abnormal cell growth in several model systems.

BIOL 666. Special Topics in Biochemistry (3).
Primarily for students who choose the biochemistry field major. Discusses a small number of current problems in biochemistry in depth. Requires reading published research papers in the field. Students earning graduate credit produce a term paper based on the technical literature on a topic chosen in consultation with the instructor. Prerequisites: BIOL 204 (no longer offered) or BIOL 211, CHEM 662 and 663.

BIOL 666B. Special Topics in Cancer Biology (3).
The basic mechanisms of carcinogenesis are covered by discussing the control of normal and abnormal cell growth in several model systems.

BIOL 669. Research in Biochemistry (2).
Cross-listed as CHEM 669. Primarily for students who choose the biochemistry field major. Requires participation in a biochemistry research project under the direction of a faculty member and a written report summarizing the results. May be repeated once for credit. Graded Cr/NCr. Prerequisites: BIOL 420 and CHEM 662 or 663, and CHEM 664 and instructor’s consent.

BIOL 710. Glycobiology (3).
Introduction to glycoprotein biosynthesis, structure and function. Covers the various roles of carbohydrates in modifying protein structure and function. Students earning graduate credit prepare a term paper based on the technical literature on a topic chosen in consultation with the instructor. Prerequisite: BIOL 420.

BIOL 725. Biodiversity Analyses (3).
Surveys the theory, principles, metrics and applications of biodiversity sciences including systematics, biogeography and phylogeny. The pervasive role of phylogenetic data in evolutionary biology (e.g., biogeography, coevolution, speciation, conservation) and other fields (e.g., epidemiology, anthropology, agriculture) are highlighted. Species diversity, species radiations, structure of the tree of life, the wealth of comparative data (from genes to proteins and morphology) and the role of systematics in conservation biology are discussed. Offered fall, even years.

BIOL 730. Cancer Biology (3).
The basic mechanisms of carcinogenesis are covered by discussing the control of normal and abnormal cell growth in several model systems. Students earning graduate credit also submit a term paper dealing with a specific topic to be determined by discussion with the instructor. Prerequisite: BIOL 420.

BIOL 737. Aquatic Toxicology (3).
The qualitative and quantitative study of the fate and effects of toxic agents in the aquatic environment. Class examines the concentrations or quantities of chemicals that occur in the aquatic environment. Includes a detailed study of the transport, distribution, transformation and ultimate fate of various environmentally important chemicals. Class is for undergraduate or graduate students interested in advanced training in toxicology. Prerequisites: BIOL 418 or equivalent, CHEM 531 or equivalent, or instructor’s consent.

BIOL 738. Plant and Animal Interactions (3).
Develops and expands basic ecological and evolutionary concepts presented in earlier biology courses including natural selection, coevolution, population growth and factors structuring ecological communities. Applies these concepts to the study of herbivory, pollination by animals and seed dispersal by animals. Designed to improve students’ abilities to read current primary scientific literature critically with particular emphasis on identifying and evaluating evidence for hypotheses in ecology and evolutionary biology. Introduces the peer review process and hones students’ scientific writing skills. Students write a mini-review article of a current hypothesis in the field of plant-animal interaction. An oral presentation based on the findings of the mini-review is also required. Prerequisites: BIOL 418 or equivalent general ecology course.

BIOL 740. Topics in Graduate Biology (2-4).
Lecture, laboratory, field techniques, selected readings or discussion course pertaining to a specific biological topic not available in the regular curriculum. May include oral presentations(s) and/or written paper(s). Topics are developed by individual faculty members and reflect current topics, in-depth analysis and biological specialties. May be taken more than once for credit up to 6 hours. Prerequisites: any two of the following three courses: BIOL 418, 419, 420; and instructor’s consent.

BIOL 740F. Biology of Arthropod Vectors (2).
Overview of the major groups of parasites and arthropod-borne pathogens that infect humans throughout southeastern Kansas with a focus on understanding the biology of these organisms including their life history and behavior.

BIOL 740G. Special Topics in Microbiology (3).
This course will closely examine the primary literature in a narrow topic area. Students will present and discuss reviews of these reports from both a scientific and editorial standpoint. Successful students will learn in-depth information about the concepts and methods in this area of science. They will also acquire the skills needed to understand and perform peer-review, while becoming better authors. The focus for this semester will be microbial ecology and astrobiology.

BIOL 760. Experimental Molecular Biology (4).
2 Classroom hours; 4 Lab hours. Introduces upper-level undergraduate and graduate students to molecular biology techniques. The methodology primarily involves the manipulation of DNA and the expression of genetic material in prokaryotic and eukaryotic systems. Prerequisite: BIOL 419 or 420.

The mechanism of action of several hormones is described and used to illustrate the major intracellular signal transduction pathways. Includes gonadotropin-releasing hormone, the glycoprotein hormones, luteinizing hormone, follicle-stimulating hormone, chorionic gonadotropin, thyroid-stimulating hormone, steroid hormones, thyroid hormone, activin/inhibin, prostaglandins, insulin and growth hormone. Mostly lectures covering signal transduction pathways. Students write
brief summaries of recent research papers related to the current week's lecture topics. Each student makes an oral presentation of a research paper in journal club format. Students earning graduate credit write a term paper describing in detail a hormone not described in class and its mechanism of action. Prerequisites: BIOL 420 and CHEM 662 or their equivalents, plus either BIOL 526 or 534 or their equivalents, and instructor's consent.

BIOL 773. Statistical Applications in Biology (3). Introduction to experimental designs and statistical analyses that are commonly used in biological research. Focuses on univariate statistical analyses including t-tests, analysis of variance, nonparametric equivalents of ANOVA, linear regression, goodness-of-fit tests and categorical data analysis. Applications to research questions that arise in biological research, including the students' own research, are emphasized. Students also receive training in the use of statistical analysis computer software. Previous enrollment in STAT 370 is recommended.

BIOL 780. Molecular Genetics (3). Studies the physiochemical nature of genetic material and the mechanisms of genetic regulation of metabolism. Students earning graduate credit produce a term paper and deliver a class seminar based on the technical literature on a topic chosen in consultation with the instructor. Prerequisite: BIOL 419.

BIOL 781. Cooperative Education (1-4). Students pursuing the nonthesis MS degree may gain practical professional experience, under academic supervision, that complements the student's academic program. BIOL 781N is for internships that last no more than one semester or summer and may be unpaid. The intern experience to be used for credit must be approved by the student's graduate capstone project committee. An academic product from the experience, such as a written summary and/or oral presentation is assigned by the graduate capstone committee. Graded Cr/NCr. Prerequisite: acceptance into MS program.

BIOL 781N. Internship in Biology (1-4). Students pursuing the nonthesis MS degree may gain practical professional experience, under academic supervision, that complements the student's academic program. BIOL 781N is for internships that last no more than one semester or summer and may be unpaid. The intern experience to be used for credit must be approved by the student's graduate capstone project committee. An academic product from the experience, such as a written summary and/or oral presentation is assigned by the graduate capstone committee. Graded Cr/NCr. Prerequisite: acceptance into MS program.

BIOL 797. Departmental Seminar (1). Forum for the weekly presentation and discussion of research projects performed by invited scientists from outside departments and institutions, departmental faculty and graduate students. All MS degree-bound graduate students are required to attend the seminar each semester and must enroll in the course for credit during two semesters. Students enrolled in the course must attend all seminars presented in the course, fill out an evaluation of each seminar and make one 15 minute professional-meeting style presentation of their research. Repeatable up to 5 credit hours. Graded S/U. Prerequisite: acceptance into MS program.

BIOL 890. Research (1-5). Students performing research toward an MS degree in biology should enroll for an appropriate number of hours. A brief written summary of research progress during the semester in which the student is enrolled must be submitted to the student's advisor before a grade is assigned. Graded S/U.

BIOL 891. Thesis (1-2). Students must be enrolled in this course during the semester in which the thesis is defended. Graded S/U.

BLAW - Business Law

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

BLAW 636. Business Law for Accountants II (3). Law of agency, partnerships and corporations. Considers the organizational and relational aspects of both small, closely held businesses and large corporate enterprises. Prerequisites: junior standing, advanced standing.

BLAW 690. Seminar in Selected Topics (1-5). Repeatable with departmental consent. Prerequisites: junior standing, advanced standing.

BLAW 810. Law and Ethics for Business (3). An understanding of the foundational principles of the legal system and the laws that impact business is essential to the business leader. Course provides an overview of the legal system and dispute resolution procedures, and covers specific legal topics of particular importance to business leaders, including contracts, torts, constitutional law, product liability, intellectual property, employment law, business entities and business regulation. It introduces students to ethical decision making processes, the major philosophical traditions in ethical theory, as well as principles of corporate governance, corporate responsibility and sustainability. The focus is on stimulating analytical thinking and class discussion about how to apply ethical principles to practical business situations.

BME - Biomedical Engineering

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

BME 585. Capstone Design I (3). First course in a two-semester capstone design sequence. Focuses on the process of strategic clinical problem solving and innovation through evaluation of real world diagnostic processes, current therapeutic approaches and clinical outcomes. Students work in teams to identify and critically evaluate unmet medical or clinical needs through the use of a biodesign and innovation process, including clinical needs finding through on-site observations, stakeholder assessments, needs statement development and concept generation. Students and their results from this course transition to the next course in this sequence, BME 595, Capstone Design II. For undergraduate students only. Students must be within three semesters of graduation in order to take this course. Prerequisites: BME 335 and program consent.

BME 590. Independent Study and Research (1-3). Independent study or research directed by a faculty member affiliated with the bioengineering program. May be repeated for credit. A maximum of 3 credit hours may be applied toward graduation. Prerequisite: consent of supervising faculty member.

BME 595. Capstone Design II (3). Second course in a two-semester capstone design sequence. Uses design and engineering practice involving a team-based biomedical engineering analysis and design project, including discovering customer...
requirements, design requirements, biocompatibility, regulatory, ethical, societal, environmental and economic considerations, creativity, alternative approaches for solution, specific system analysis, project management, prototype construction and testing, and final report and presentation. For undergraduate students only. Prerequisites: BME 482, 585.

BME 722. Introduction to Biorobotics (3).
Biorobotics combines human anatomy and physiology, electronics, mechanics and robotics technology using computer programming. It is being investigated for use in prosthetics, surgical and therapeutic devices. Course includes robotic principles, theories and control strategies used to manipulate various robotics devices through human physiological signals in real time. Covers topics on robotics in BME, prosthetics, biosignal processing, microcontroller programming, human sense of touch and virtual world communication. Fundamental knowledge of bioinstrumentation, rehabilitation, robotics and signal processing is demonstrated in the laboratory to create a human-machine-computer interface. Students gain hands-on experience with sensors, microcontrollers, actuators, haptic controllers, robotic arm, prosthetic hand and various MATLAB/Simulink toolboxes in order to implement biorobotics algorithms into 3D simulation and stationary/automobile robotic devices. Prerequisite: BME 480 or instructor's consent.

BME 735. Biocomputational Modeling (3).
Prepares students for engineering practice by introducing 3D multiphysics modeling software. Students use COMSOL multiphysics simulation software linked with SolidWorks and MATLAB to solve engineering problems in complex 3D geometries such as the human body. Within the simulation software environment, students define the geometry, set boundary conditions, specify the physics, set material properties, mesh, simulate, and visualize their results. Topics include modeling of biofluid mechanics (e.g., stress and strain on arteries), heat and mass transfer (i.e., bioheat and drug delivery), and structural mechanics (i.e., stress and strain on bone). Computer simulation has become an essential part of science, medicine and engineering. Course gives students hands on experience to meet those demands. Prerequisites: either BME 462 or ME 521, and BME 335 or its equivalent; or instructor's consent.

BME 738. Biomedical Imaging (3).
Prepares students with knowledge of medical imaging and gives hands on experience with ultrasound imaging, dual-energy x-ray absorptiometry (DEXA), spectral imaging, and medical image processing labs. Covers medical imaging modalities such as planar x-ray, x-ray computed tomography (CT), DEXA, magnetic resonance imaging (MRI), nuclear medicine imaging–positron emission tomography and single-photon emission computed tomography, ultrasound imaging, and spectral imaging. Students gain hands on experience with medical image processing software to import CT or MRI scans and construct 3D models of human anatomy. Introduces fundamental physical and engineering principles used in medical imaging and image processing, with a primary focus on physical principles, instrumentation methods, and image processing methods. Strengths, limitations, sensitivity and appropriate applications for each modality of imaging are also examined. Prerequisites: PHYS 314 and BME 335 or its equivalent; or instructor's consent.

BME 742. Biosensor Development (3).
A comprehensive introduction to the basic features and components of biosensors. Discusses different ways to evaluate the physiological state of cells in culture or a whole organism using various methods such as: optical detection, impedance measurements, amperometric measurements, potentiometric measurements and physical measurements using a scanning probe microscope. Primary focus is given to optical measurements and techniques used to explore surface chemistry such as: bioconjugation of biomolecules such as proteins, biomolecule attachment to transducer surfaces, DNA microarrays and bead-based assays. Case studies and analysis of commercially available biosensors are covered. Students perform a project for the design, fabrication and testing of a microfluidic-based biosensor. Students leave the course with a fundamental knowledge of biosensor design and development. Prerequisites: MATH 242 and either CHEM 532 or 533 or 536; or instructor's consent.

BME 743. Mechanobiology of Cells and Tissue (3).
Focuses on how the mechanical environment influences cell behavior and integrates principles from engineering, cell biology, physiology, and biomechanics. Topics include, but are not limited to: (1) global health importance of mechanobiology; (2) the role mechanical forces play in normal cell function and disease; (3) the role of the mechanical environment in regenerative medicine and tissue engineering applications; (4) how the extracellular matrix and biomimetic matrices alter cellular function; (5) how cells sense and respond to mechanical forces; (6) the mechanobiological feedback loop; (7) cell and tissue mechanics; (8) microscopy of cells and tissues; and (9) experimental methods to study cellular mechanobiology. Course emphasizes experimental design, data analysis, interpretation of data and results, and hands-on laboratories. In these laboratories, students gain first-hand experience with cell culture techniques; microscopy, and experimental and computational techniques in cell mechanobiology. Prerequisites: BIOL 210, BME 452 or equivalent, or instructor's consent.

BME 747. Biochemical Engineering (3).
Prepares students for careers in the pharmaceutical industry as research scientists or process engineers. Students learn about designing scaffolds for tissues, molecular design for new drugs, in vitro testing of cells and in vivo testing of whole organisms. Students are guided through the process of transgenic organism production, production of pharmaceutical agents using bioreactors and downstream processing. Topics covered include the thermodynamics and kinetics for the biosynthesis or enzymatic degradation of various biological macromolecules. Students learn the application of engineering principles to analyze, design and develop processes using biocatalysts to enhance these processes. Processes covered include those that are involved in the formation of desirable compounds and products and in the transformation, or destruction of unwanted substances. Several in-class demonstrations are performed, and students design a micro-bioreactor. Prerequisites: MATH 242 and either CHEM 532 or 533 or 536; or instructor's consent.

BME 748. Biomolecular and Cellular Engineering (3).
Focuses on the molecules and mechanisms underlying cellular function from an engineering point of view. Emphasizes experimental methods, mathematical analysis, and computational modeling, where hands-on laboratories complement lectures. Topics include, but are not limited to: (1) enzymes and biochemical kinetics; (2) cell signaling and modeling signaling pathways; (3) biophysical-based models of biological/biochemical systems; (4) gene expression and regulation; (5) ‘omic’ approaches to cell signaling including data analysis of high-throughput data; (6) system biology approaches - analysis of complex biological systems across multiple temporal and spatial scales; (7) bioinformatics; and, (8) quantitative experimental methods related to biomolecular and cellular engineering. Applications to tissue engineering, regenerative medicine, biotechnology, bionanotechnology, drug and gene delivery, molecular medicine, and personalized medicine are discussed. Prerequisites: BIOL 420 or equivalent, or instructor’s consent.
BME 752. Applied Human Biomechanics (3).
Examines the biology, physiology, and structure of skeletal muscle, the mechanisms of skeletal muscle force generation, and the adaptations to muscle that arise from changes in muscle usage. Students learn to create biomechanical models and generate simulations of human movement based on data collected in a human biomechanics lab. Experimental design and data analysis and interpretation are emphasized. Prerequisites: BIOL 223 and BME 452 or its equivalent; or instructor's consent.

BME 757. Clinical Biomechanics Instrumentation (3).
Students learn to collect, process, analyze and interpret motion of the human body (e.g., running, walking, jumping, lifting, etc.), muscle force, muscle activity and acceleration data using various equipment in a human biomechanics lab. The equipment and techniques used are common to multiple fields and disciplines, including physical medicine and rehabilitation, orthopedics, physical therapy, prosthetics and orthotics, wearable biosensors, sports performance and medical/sport/safety equipment design. Prerequisite: BME 452 or instructor's consent.

BME 760. Special Topics in Biomedical Engineering (3).
Focuses on a contemporary biomedical engineering topic through traditional lecture, research and/or experiential learning activities. Content changes as new problems and research advances related to biomedical engineering attain prominence nationally and international. Repeatable for credit. Prerequisite: instructor's consent.

BME 777. Biodegradable Materials (3).
A comprehensive overview of biodegradable materials as it relates to their applications in the biomedical and health care fields. Covers in detail different classes of biodegradable materials including biodegradable polymers, ceramics and metals. Synthesis, characterization and degradation of these materials in the biological environment are covered. Biodegradation/biocorrosion mechanisms of these materials, the complexity of the response of the biological environment, and the experimental methods for monitoring the degradation process are discussed, as well as strategies for surface modification to control the degradation. Finally specific applications are covered. Prerequisite: either BME 477 or ME 651; or instructor's consent.

BME 779. Tissue Engineering (3).
Introduction to the strategies and fundamental bioengineering design criteria behind the development of tissue substitutes. Principles of engineering and the life sciences toward the development of biological substitutes that restore, maintain or improve tissue function are discussed. Topics include stem cells, cell growth and differentiation, cell signaling, materials for scaffold formation, scaffold degradation and modification, cell culture environment, cell nutrition, cryopreservation, bioreactor design, clinical applications, regulatory and ethics. Prerequisite: BME 477 or instructor's consent.

BME 876. Thesis (1-6).
Repeatable for credit. Graded S/U. Prerequisite: consent of MS thesis advisor.

BME 890. Independent Study (1-3).
Arranged individual independent study in specialized content areas under the supervision of a faculty member. Repeatable for credit. Prerequisite: consent of supervising faculty mentor.

CESP - Counseling, Educational and School Psychology
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

CESP 517. Families and Addictions (3).
Teaches basic family processes in families with a family member experiencing an addiction. The impact of the addiction on the functioning of other family members is examined, including children and adolescents. The family’s role in the recovery process is examined. Major topics include: family systems theory, alcoholic family systems and the impact of substance abuse and addiction on the family. Basic family assessment and interventions is covered. Prerequisite: PSY 111 or equivalent course.

CESP 701. Introduction to Educational Research (3).
An introduction to research in education. Includes (1) a survey of current educational research, (2) the nature of research methodology, (3) the preparation of research reports, and (4) criticism of current research.

CESP 704. Introduction to Educational Statistics (3).
Introduction to statistics, including measures of central tendency, measures of variability, correlation, chi square, t-test, correlated t-test, one-way, two-way analysis of variance and simple regression.

CESP 728. Theories of Human Development (3).
Describes what developmental theories are, what they do, where they come from, how they work and how they are used to explain human nature. Uses theoretical assumptions and related research to systematically evaluate developmental theories in terms of their scientific worthiness and their ability to address characteristics of human development. Focuses on those theories which helped shape the way we currently view human development as well as significant new perspectives which may shape the way it is viewed in the future. Prerequisite: CESP 801 or CLES 810 may be taken prior to or concurrently with CESP 728.

CESP 729. Theories of Early Childhood Development (3).
Describes what developmental theories are, what they do, where they come from, how they work and how they are used to explain human nature. Uses theoretical assumptions and related research to systematically evaluate developmental theories in terms of their scientific worthiness and their ability to address characteristics of early childhood development. Focuses on those theories which helped shape the way we currently view early childhood development as well as significant new perspectives which may shape the way we view it in the future. Intended to cover birth through elementary school years of development. Prerequisite: CESP 701 or CLES 801, or equivalent, or instructor's consent.

CESP 750. Workshops in Education (1-6).
Intensive study of topics related to education. Differing topics are denoted by a letter following the course number (i.e., 750C, 750P, etc.).

CESP 750AA. How Boys & Girls Learn Diff (1).
This course will provide participants with the latest research-based information identifying the basic differences, learning styles, and abilities of each gender. Special attention will be devoted to the debate of Nature vs. Nurture and their impact upon the learning styles of males and females.

CESP 750AC. Interpersonal Skills for Teachers (1).
Focuses on nonverbal communication, using "I" messages, conversation starters, active listening, giving and accepting forgiveness, and developing trust.
CESP 750AD. Parenting Techniques (1).
Students learn basic parenting techniques to help develop their children's self-concept, responsibility and self-control. Different parenting theories are discussed.

CESP 750D. Engineering Research Writing (1).
The class is meant to teach students how to create, research, and write a simple graduate-level paper, using strict document formatting based on the most recent edition of the APA Style Guide.

CESP 750E. Tutoring Techniques (1).
The goal of the CESP 750E tutor-training workshop is to ensure all tutors have the skills necessary to provide effective tutorial assistance to students enrolled in the TRIO Student Support Services Program at Wichita State University. Tutors are expected to set an example of excellence in ethics and in academics for their students. By successfully completing this workshop, the tutors will have reached objectives that are directly related to the measurable objectives set by the Student Support Services Program, which is funded by the U.S. Department of Education. These objectives guide the peer-tutors toward fulfilling their main responsibility, which is to assist each of their students to understand the content of their course work and improve their grade.

CESP 750G. How Families Function (1).
This course is designed for school and agency employees to understand how families function by learning about different family theories and family therapies so they can become better teachers, counselors, and administrators.

CESP 750Q. Children with Criminal Justice Contact (1).
Designed to allow participants to gain the necessary background and theory information regarding children who have had contact with the criminal justice system. Contact can be defined as children with incarcerated parents as well as children who have been incarcerated themselves. Understanding this expanding group of children, who are currently 2.3 percent of today's child population, can assist in working with them in many different settings, including educational environments. Participants work together in group activities to evaluate scenarios, view informative videos, and are required to choose an article for review and discussion pertaining to the subject in the class.

CESP 750X. Brain Retraining (1).
Teachers and counselors will learn how the brain can be retrained for optimizing learning through the introduction of educational kinesiology, brain gym, Bal-a-vis-x, cup stacking and other resources. There will be an emphasis on how to obtain training and certification in these programs.

CESP 750Z. Stress Management Technique (1).
Teachers and counselors will learn different stress management techniques such as: relaxation, assertive behavior, financial management, anxiety reduction, appropriate diet, and exercise. Students will learn how to assess stress and make a stress reduction behavior management plan for themselves or students.

CESP 751A. Anger Management Technique (1).
Teachers and counselors will learn different anger management techniques such as: rational self-instruction, relational aggression, anger management classes, videotherapy, and bibliotherapy.

CESP 751D. Working Effectively w Parents (1).
This course explores the topic of effective communication with parents in educational and agency settings. It provides strategies to work effectively with all types of parents. It will help you understand how to build a relationship with the student and parent and give practical and realistic strategies in working with parents dealing with ADD, stress, depression, and attention seeking students. The course also shows how to work with a culturally diverse population and help integrate the community into the school setting.

CESP 751E. Dealing with Boys in School (1).
This course will provide participants with the latest research-based information identifying the challenges that male students face in achieving success in our schools today including societal, academic, and behavioral issues.

CESP 751R. Gender Communication (1-4).
This course will provide participants with the latest research-based information identifying the basic differences in communication styles of men and women.

CESP 752. Special Studies in Education (1-3).
For students with personnel and guidance interests. May emphasize different preselected areas during a semester. Repeatable with advisor's consent. Prerequisite: instructor's consent.

CESP 752K. Effectiveness at School and Work (1).
Focuses on concepts underlying the well-known and widely used Myers-Briggs Type Indicator®. The personal interaction information from the MBTI® is used to enhance students ability to interact positively with others in the workplace and in their personal life. Practical approaches to conflict resolution and effective communication strategies are discussed. Individuals take the MBTI® during the first class and receive interpretive material ($20 test fee required the first class period). Instructor holds a leadership position in the Association for Psychological Type International.

CESP 753L. Filial Play Therapy (1).
Filial Play Therapy, also known as Child-Parent Relationship Training, is an evidence-based training program to improve the relationship between parents and children. No play therapy model has been more researched or found to be as effective as filial therapy. The method uses the basic tenets of child-centered play therapy to teach parents to improve their relationship with their child, be more aware and sensitive to their child's needs, and to promote healthy development. Filial play therapy has been successfully employed with parents, teachers and paraprofessionals to support the emotional growth and development of children for over 40 years.

CESP 753M. Drugs for the Mind (1).
The use of psychotropic medications has dramatically increased over the past two decades in all age groups. This is a clear indication that all helping professionals need to increase their knowledge base and understanding of psychotropic medications. During this seminar, students discuss the basics of psychopharmacology, the branch of pharmacology dealing with the psychological effects of drugs. Students debate the issues surrounding the use of these medications, learn how it is believed they work, and with which disorders; also both how they work alone and in concert with therapy. Students develop an awareness of potential side-effects and complications and the importance of staying current with research in this field. This is important information for all counselors and therapists to be able to discuss capably with the clients and families with whom they work.

CESP 7581. Cooperative Education (1-3).
Work-related placement that integrates theory with a planned and supervised professional experience. With advisor approval, may be repeated for credit with a maximum of 4 credit hours counting toward a graduate degree. Graded Cr/NCr.

CESP 803. Counseling Theory (3).
A study of selected theories of counseling. Prerequisite: admission to counseling or school psychology program or instructor's consent.

CESP 804. Foundations of School Counseling (3).
Introduces the role of the school counselor and comprehensive, developmental school counseling programs. Examines basic concepts in counseling, and the function of the helper in school settings. Focuses
on the demands and strains of the helping professions and their effects on the helper. Designed to provide students with an overview of theory, practice, methods, basic principles and concepts, and to help students develop a professional identity in the counseling field. Prerequisite: admission to counseling program or instructor's consent.

CESP 808. School Psychology Professional Issues (3).
Examines roles and functions of school psychologists within the context of the historical foundations of the profession. Uses lecture, discussions, observations in schools, and presentations by field-based school psychologists to acquaint students with the kinds of problems with which school psychologists typically work, the methods they employ to deal with problems, social systems in which these endeavors occur, and professional issues that shape and characterize the profession.

Covers the transdisciplinary field of program evaluation including history and current trends, alternative program evaluation models, program evaluation standards, program evaluation procedures, data collection instrument development and interpretation, data analysis, and reporting of evaluation results. Prerequisites: CESP 704 and CLES 801, or equivalent.

CESP 815. Career Development (3).
For master's-level students interested in assisting students and adults in career development and related concerns. Covers (1) career development of individuals across life span, (2) sources and organization of information, (3) assessment designs and career intervention techniques, and (4) career decision-making/planning processes. Includes hands-on experience with a variety of assessment methods and intervention techniques and theory-based career decision-making strategies for career interventions.

CESP 820. Learning Theory & Instruction (3).
Applications of some major learning theories and learning principles. Prerequisites: CLES 728, and CLES 801 or CLES 810, or departmental consent.

CESP 821. Multicultural Issues in Counseling (3).
Students acquire knowledge and skills that enable them to offer help to individuals in a multicultural environment. Focuses include developing a sense of the student's own cultural identity, increasing sensitivity to cultural differences in help-seeking attitudes and behaviors, and understanding how the potential sources of cultural misunderstanding, biases and prejudice may affect their counseling effectiveness.

CESP 822. Assessment and Testing in Counseling (3).
Study of the historical perspectives of assessment and the use of assessments for diagnostic and intervention planning. Includes the basic concepts of assessments, including statistical concepts such as reliability and validity. Provides preparation on the methods of conducting assessment meetings, procedures for identifying risk of harm to self or others, identifying trauma, and the ethical and culturally relevant practice of assessment in counseling.

CESP 823. Experimental Design in Educational Research (3).
Focuses on the use of inferential statistics for various experimental designs. Parametric topics covered include t-test, one-way and factorial analysis of variance and covariance (with and without repeated measures), post-hoc comparisons, and simple and multiple regression. Also covers selected nonparametric statistics. Develops all statistics through practical application with computer programs. Prerequisite: CESP 704 or instructor's consent.

CESP 824. Techniques of Counseling (3).
Examines and practices techniques of counseling through simulated counseling situations and extensive examination of counseling case studies. Prerequisite: CESP 803 (or concurrent enrollment).

CESP 825. Group Counseling and Group Work (3).
Examines the theoretical foundations of group work, group dynamics, group leadership, and the process for planning and conducting group work that is ethical, culturally relevant, and effective. Prerequisites: CESP 803 and 824.

CESP 827. Field Experiences for Non Education School Counseling Students (3).
Structured field experiences in school settings for students without an education background who want to be eligible for licensure as a PreK-12 school counselor. To meet KSDE requirements, students must enroll in the class for two separate semesters. Repeatable for up to 6 hours of credit. Prerequisites: CLES 801, CESP 704, 728, 803, 804. Must be enrolled in CESP 845 during one of the semesters.

CESP 831. Social Psychology for Educational and Helping Professions (3).
A critical study of an individual's thoughts, feelings and behaviors, based on the influences of, and the impact and interactions with, social settings and the individual's culture. Theory, research and practice in relation to social, developmental, psychological and educational issues and problems are discussed throughout the course. Furthermore, this is examined in the context of how it may impact the helping relationship. Students study the relationship between social settings and the psychological functioning of children, adolescents and adults. Students also study the role of educational and psychological professionals within the cultural, academic and organizational operations of education. Prerequisites: CLES 801 (previously taught as CESP 701) or equivalent, CESP 728 or equivalent, or instructor's consent.

CESP 834. Biological Principles and Psychological Functioning for School Psychologists (3).
Biological bases of behavior and implications for assessment and intervention within school settings are major topics. Neuropsychological assessment and intervention, sensory and motor functioning, and psychopharmacological treatments relevant to children's functioning in school comprise a major component. Specially designed for school psychologists. Prerequisite: graduate standing in the CESP department (enrolled in a degree program or nondegree A status in CESP), or instructor's consent.

CESP 835. Psychopathology and the DSM (3).
Introduction to psychopathology for graduate students preparing for careers in school psychology, counseling and related professions. Mental disorders occurring in children as well as adults are studied. The Diagnostic and Statistical Manual of Mental Disorders (DSM) is used as the diagnostic system for understanding psychopathology. Assessment procedures, prevention programs and treatment/intervention approaches are considered for the mental disorders studied.

CESP 838. Counseling Families in Crisis (3).
Teaches basic family processes and how they impact the growth and development of children and adolescents. Covers the family life cycle, healthy and maladaptive family functioning including appropriate and inappropriate parenting practices, the unique challenges faced by single parent and blended families, the impact of substance use on families, the impact of traumatic experiences on families, basic family assessment, and basic family therapy techniques. In addition, acquaints students with the etiological factors, potential indicators, consequences, reporting strategies, and treatment strategies associated with child abuse and neglect. Prerequisite: graduate standing.
CESP 840. Psychology and Education of Exceptional Children (3).
Study of the conceptual and theoretical formulations, empirical evidence and research concerning behavioral characteristics of exceptional children.

CESP 841. Fundamentals of Play Therapy (3).
Covers the historical development of play therapy as a treatment procedure, through current trends and practices of major disciplines in the field. Primary emphasis is on the development of fundamental skills and practices of major disciplines in the field, and strategies necessary to conduct successful play sessions. The effectiveness of play therapy with various diagnostic populations is discussed. Prerequisites: master's degree in counseling or related field or program consent.

CESP 842. Play Therapy for Young Children (3).
Examines the use of play therapy with young children. Emphasizes the developmental concepts and diagnostic approaches and issues of young children and their caregivers. Therapy strategies covered include treatment of regulation problems, filial therapy, floor time, interaction guidance, infant/parent relationship training and other strategies. Prerequisite: master's degree in counseling or related field or program consent.

CESP 843. Child Psychopathology in Play Therapy (3).
Examines common childhood diagnoses that present for treatment. Topics include: Reactive Attachment Disorder, Oppositional Defiant Disorder, Conduct Disorder, Separation Disorder, Post Traumatic Stress Disorder, as well as other common DSM IV diagnoses. The class discusses symptoms and the child's clinical presentation. Appropriate treatments, including the use of play therapy and other therapy activities is also covered. Prerequisites: master's degree in counseling or related field, CESP 841 or equivalent course; or program consent.

CESP 844. Advanced Techniques in Child and Play Therapy (3).
An advanced skills class, building on the fundamental and requisite skills learned in an introductory course in play therapy. Emphasizes enhanced understanding and use of the nature and construction of therapeutic responses in the play therapy process. Explores the use of play therapy with varied therapeutic approaches and special populations. Prerequisites: master's degree in counseling or related field, CESP 841 or equivalent course; or program consent.

CESP 845. Professional School Counseling (3).
The role of school counselors in providing counseling, guidance and consultation services to students, staff and parents in PreK - 12 settings is covered. Prerequisites: Admission to the counseling degree program, CESP 803, 804 or departmental consent.

CESP 847. Addiction Counseling (3).
Provides counselors and other human service workers with an overview of the addictive process. Theories of addiction counseling and application of these theories comprise a significant part of this course, particularly with how they apply to work with individuals, couples, families and groups. Co-occurring disorders, such as process addictions and mental illnesses, are also addressed. Students develop conceptual knowledge, practical skills and self-awareness concerning the etiology of addiction, addiction assessment strategies, wellness strategies for facilitating optimal development and preventing clinician burn-out, and diagnosis and treatment planning. Course includes diversity content. Prerequisite: graduate standing.

CESP 848. Crisis Counseling (3).
Introduces students to crisis intervention theory, development and applications. Provides an overview of crisis theories, assessment procedures, techniques and counseling processes used with adolescents and adults in school and community settings. Prerequisites: CLES 801, CESP 803, 804, or instructor's consent.

CESP 852. Special Studies (1-3).
Covers specific topics identified by the department in consultation with institutions or groups of graduate students. Course procedures vary according to topic. Repeatable. Prerequisite: instructor's or departmental consent.

CESP 853. Law, Ethics and Multicultural Issues for School Psychologists (3).
Examines school psychologist roles, functions and professional issues within the context of the historical foundations of the profession and the current systems in which they work. Covers topics related to legislation, litigation, and ethical issues that impact the practice of school psychology with a focus on the needs of diverse populations. Prerequisite: instructor's consent.

CESP 854. Evidence-Based Academic Assessment and Intervention (3).
Explores various applications of measures of cognitive processing and academic achievement in reading, writing and mathematics. Examines the classification systems of learning differences, their neurological bases, the administration and interpretation of selected processing and achievement measures, and critical issues related to provision of evidence-based interventions and services. Includes case simulation and practice activities. Prerequisite: CESP 704.

CESP 855. Individual Intelligence Assessment (3).
Use of individual tests for assessment of intelligence. Examines the nature of intelligence, theory, administration and interpretation of selected individual intelligence tests, and critical issues related to the assessment of intelligence. Includes case simulation and practice activities. Prerequisite: CESP 854, or instructor's consent.

CESP 856. School Counseling Practicum (1-3).
Supervised school counseling experience. A minimum of 100 hours of professional counseling service that includes a minimum of 40 hours of direct client contact experience in counseling, with the remainder of hours in indirect client service. Builds on the skills learned and practiced in CESP 824. Prerequisites: CESP 824 within the last 12 months, CESP 803 and departmental consent. Prerequisites for school psychology students: CESP 824 within the last 12 months and departmental consent. Repeatable for credit.

CESP 857. Professional and Ethical Issues in Counseling (3).
Covers major ethical, legal and professional issues involved in professional counseling, education and psychology in school settings. Students engage in dialog throughout the course and work in peer consultation teams to identify and resolve ethical dilemmas and adopt sound ethical and professional practices.

CESP 858. Diagnostic Testing (3).
An in-depth examination of the assessment process. Studies the theory and uses of individual assessment techniques for evaluating the learning difficulties of preschool and school-aged children. Emphasizes planning the assessment, interpreting and integrating assessment data, proposing relevant interventions, and communicating assessment findings to others. Prerequisites: CESP 855, and instructor's consent.

CESP 859. School-Based Interventions (3).
Focuses on planning, implementing, monitoring and evaluating interventions in the school setting with students who are experiencing academic and/or behavioral problems. Prerequisite: departmental consent.

CESP 860. Seminar in Research Problems (1).
Development and presentation of research proposals. Required of students enrolled in thesis programs.
**CESP 862.** Presentation of Research (1-2).
A project submitted in thesis manuscript form. Repeatable for a maximum of 2 hours of credit. Prerequisite: CESP 860.

**CESP 865.** Practicum Therapy (3).
Students conduct and observe a series of play therapy sessions with children. Individual and group supervision is provided. Each student participates in analysis and discussion of therapy intervention strategies, completing session critiques and therapy plans. Prerequisites: master's degree in counseling or related field, CESP 841 or equivalent course, or program consent.

**CESP 873.** College Student Development and the Campus Environment (3).
Explores the history, meaning and implications of student development theories. Emphasizes typologies, person-environment, psycho - social and cognitive theories, and the diversity of student populations served by student affairs. Special focus on the application of theory and how it may provide a springboard for practice and further discovery. Prerequisite: CESP 728 or departmental consent.

**CESP 875.** Master's Thesis (2).
Thesis. Prerequisite: CESP 860.

**CESP 876.** Master's Thesis (1-2).
Thesis. Prerequisite: CESP 860.

**CESP 890.** Special Problems in Education (1-3).
Directed reading and research under the supervision of a graduate instructor. Prerequisite: departmental consent.

**CESP 914.** Consultation Techniques (3).
Intensive study of the literature in counseling, school psychology, social psychology and administration that provides a basis for consultation techniques in the interpersonal context of school and work settings. Prerequisites: graduate standing and departmental consent.

**CESP 934.** Personality Assessment (3).
Focuses on theory and interpretation of instruments representing three major approaches to personality assessment: projective techniques, behavioral techniques, and personality inventories. Includes alternative personality assessment approaches and reviews of personality theory and psychopathology. Includes supervised experience. Prerequisites: CESP 811 or 822, 855 (school psychology students only), postmaster's standing or last 6 hours of master's program and instructor's consent.

**CESP 946.** Practicum in School Psychology (2-6).
Supervised practice in providing school psychological services to children in school, clinical or community agency settings. Requires at least 300 hours applied experience per 3 hours of credit. Repeatable for a maximum of 6 hours. Prerequisite: departmental consent.

**CESP 947.** Internship in Counseling (1-8).
The internship is a placement appropriate to the intern's career objectives in a position within an agency, institution or school. The student and university supervisor develop goals and objectives that enhance the student's level of professional functioning. Repeatable up to 6 hours of credit.

**CESP 949.** Counseling Internship (3).
A minimum of 600 clock hours of supervised counseling experiences, including 240 hours of direct service with clients. Clinical setting must be approved and appropriate to the student's emphasis. The semester prior to enrollment, the student must complete the internship application process. Repeatable for credit. Graded S/U. Prerequisites: admission to candidacy, CESP 803, 821, 824, 825 (or concurrent enrollment), and CESP 856.

**CESP 949A.** School Counseling Internship I (3).
This one-semester course requires a total of 300 hours in the practice of professional school counseling under clinical supervision. Of the 300 hours, a minimum of 120 hours must be direct counseling service. Students should consider selecting internship sites that offer opportunities to engage in both individual counseling and group work. Clinical settings must be approved and appropriate to the student's emphasis. The semester prior to enrollment, the student must complete the internship application process. Graded S/U. Prerequisites: admission to candidacy, CESP 803, 821, 824, 825 (or concurrent enrollment) and CESP 856.

**CESP 949B.** School Counseling Internship II (3).
This one-semester course requires a total of 300 hours in the practice of professional school counseling under clinical supervision. Of the 300 hours, a minimum of 120 hours must be direct counseling service. Students should consider selecting internship sites that offer opportunities to engage in both individual counseling and group work. Clinical settings must be approved and appropriate to the student's emphasis. The semester prior to enrollment, the student must complete the internship application process. Graded S/U. Prerequisites: admission to candidacy, CESP 803, 821, 824, 825 (or concurrent enrollment) and CESP 856.

**CESP 949C.** School Counseling Internship III (3).
This one-semester course requires a total of 300 hours in the practice of professional school counseling under clinical supervision. Of the 300 hours, a minimum of 120 hours must be direct counseling service. Students should consider selecting internship sites that offer opportunities to engage in both individual counseling and group work. Clinical settings must be approved and appropriate to the student's emphasis. The semester prior to enrollment, the student must complete the internship application process. Graded S/U. Prerequisites: admission to candidacy, CESP 803, 821, 824, 825 (or concurrent enrollment) and CESP 856.

**CHEM 523.** Analytical Chemistry (4).
2 Classroom hours; 6 Lab hours. Lab fee. General education advanced further study course. Evaluation of data, theory and application of gravimetric analysis and precipitation, neutralization and oxidation-reduction volumetric analysis. Prerequisite: CHEM 212 with a grade higher than C-. CHEM 531 strongly suggested but not required.

**CHEM 524.** Instrumental Methods of Chemical Analysis (4).
2 Classroom hours; 6 Lab hours. Lab fee. Introduction to spectroscopic techniques (UV-Visible atomic absorption, molecular absorption, infrared, mass spectrometry and NMR), electrochemical techniques (potentiometry, voltammetry and coulometry) and separation techniques (gas chromatography and HPLC). Applications of computer
and automated methods of analysis also covered. Prerequisite: CHEM 531. CHEM 532 strongly recommended but not required.

**CHEM 531. Organic Chemistry I (5).**
3 Classroom hours; 6 Lab hours. Lab fee. *General education advanced further study course.* Introduction to the study of carbon compounds emphasizing reaction mechanisms, stereochemistry and spectrographic analysis. Credit is not allowed for both CHEM 531 and 535. Prerequisite: CHEM 212 with a grade higher than C-.

**CHEM 532. Organic Chemistry II (5).**
3 Classroom hours; 6 Lab hours. Lab fee. A continuation of CHEM 531 emphasizing the structure and reactions of principal functional groups and compounds of biological interest. Credit is not allowed for both CHEM 532 and 536. Prerequisite: CHEM 531 with a grade higher than C-.

**CHEM 533. Elementary Organic Chemistry (3).**
A one semester survey of organic chemistry, examining various classes of organic compounds, organic reactions and reaction mechanisms. The goal of the course is to establish an understanding of the relationship between structure and reactivity, with particular emphasis on the importance of organic chemistry to the health sciences and biomedical engineering. Credit is not allowed for both CHEM 533 and 531. This course does not meet the needs of chemistry majors or premed students. Prerequisite: CHEM 212 with a grade higher than C-.

**CHEM 535. Organic Chemistry I (3).**
Introduction to the study of carbon compounds emphasizing reaction mechanisms, stereochemistry and spectrographic analysis. Credit is not allowed for both CHEM 535 and 531. This course does not include a lab, is open only to biomedical engineering majors and does not meet the needs of chemistry majors or premed students. Prerequisites: must be a biomedical engineering major and have completed CHEM 212 with a grade higher than C-.

**CHEM 536. Organic Chemistry II (3).**
Continuation of CHEM 535 emphasizing the structure and reactions of principal functional groups and compounds of biological interest. Credit is not allowed for both CHEM 536 and 532. This course does not include a lab, is open only to biomedical engineering majors and does not meet the needs of chemistry majors or premed students. Prerequisites: must be a biomedical engineering major and have completed CHEM 531 or 535 with a grade higher than C-.

**CHEM 545. Physical Chemistry I (3).**
*General education advanced further study course.* Introduction to the fundamentals of thermodynamics with the goal of understanding the driving forces behind chemical and physical changes and equilibria. Covers the laws of thermodynamics and explores concepts involving work, heat and simple mechanical processes. Helmholtz and Gibbs energy are introduced as thermodynamic indicators of spontaneity/ equilibria. The last portion of the course applies these concepts to the study of phase changes, chemical equilibria, ideal and non-ideal solutions, electrolytes and chemical kinetics. Prerequisites: CHEM 212 with a grade higher than C-, one year of college physics, MATH 344 or its equivalent.

**CHEM 546. Physical Chemistry II (3).**
Covers elementary quantum mechanics and its applications to chemistry. Begins with a historical comparison between classical and quantum mechanics, then builds from the postulates of quantum mechanics to explore the Schrödinger equation and its use in solving problems involving particles, rotating bodies and vibrations. Special emphasis on spectroscopy and approximation methods relevant to chemistry. Prerequisites: CHEM 212 with a grade higher than C-, one year of college physics, and MATH 344 or its equivalent.

**CHEM 547. Physical Chemistry Lab (2).**
6 Lab hours. Lab fee. Laboratory experiments and exercises that reinforce physical chemistry concepts of thermodynamics, equilibrium, spectroscopy and error analysis. Students gain practical, hands-on experience with computerized data acquisition and learn computational techniques for data reduction and analysis. Pre- or corequisites: CHEM 545, 546.

**CHEM 605. Medicinal Chemistry (3).**
For students interested in chemistry related to the design, development and mode of action of drugs. Describes those organic substances used as medicinal agents and explains the mode of action and chemical reactions of drugs in the body; illustrates the importance and relevance of chemical reactions as a basis of pharmacological activity, drug toxicity, allergic reactions, carcinogenicity, etc.; and brings about a better understanding of drugs. Includes transport, basic receptor theory, metabolic transformation of drugs, discussion of physical and chemical properties in relation to biological activity, drug design, structure-activity relationships and discussion of a select number of organic medicinal agents. Prerequisite: CHEM 532 or equivalent; a semester of biochemistry (CHEM 661 or 662) and a year of biology are strongly recommended.

**CHEM 615. Advanced Inorganic Chemistry (3).**
Includes modern bonding theories, structure and spectra of inorganic compounds, coordination and organometallic chemistry, boranes, inorganic ring systems and polymers, inorganic environmental chemistry, mechanisms of inorganic reactions and solid state chemistry. Prerequisite: CHEM 514. Pre- or corequisite: CHEM 546.

**CHEM 616. Inorganic Chemistry Lab (2).**
6 Lab hours. Lab fee. Experimental methods of inorganic chemistry. Pre- or corequisite: CHEM 615.

**CHEM 661. Introductory Biochemistry (3).**
*General education advanced further study course.* An introductory course for chemistry majors including chemistry/business majors and students in life sciences. Not recommended for the BS in chemistry-premedicine or biochemistry field majors for whom CHEM 662 and 663 are required. Introduces thermodynamics and biological oxidation-reduction reactions; structure, metabolism and synthesis of proteins, carbohydrates, lipids and nucleic acids; enzyme kinetics, photosynthesis and transfer of genetic information. Prerequisite: CHEM 532, 533, or 536. Credit is not granted for both CHEM 661 and 662.

**CHEM 662. Biochemistry I (3).**
Study of major constituents of the cell: protein, carbohydrate, glycoprotein, lipid, nucleic acid, nucleoprotein, enzyme catalysis, biological oxidations, photosynthesis and introduction to intermediary metabolism. A fundamental background of biology or microbiology is recommended but not essential. Prerequisites: CHEM 523 and 532 or equivalents. Credit is not granted for both CHEM 661 and 662.

**CHEM 663. Biochemistry II (3).**
Study of metabolism and control of carbohydrates, lipids, phosphoglycerides, spingolipids, sterols, amino acids and proteins; synthesis of porphyrins, amides and polyamines; synthesis and metabolism of purines, pyrimidines and nucleotides; synthesis and structure of DNAs, RNAs and proteins; organization and functioning of genes; evolution of proteins and nucleic acids, hereditary disorders of metabolism, biochemistry of endocrine glands, major nutrients and vitamins, body fluids and generalized tissues. A fundamental background of biology or microbiology is recommended but not essential. Prerequisite: CHEM 662 with a grade higher than C-.

**CHEM 664. Biochemistry Laboratory (3).**
1 Classroom hour; 6 Lab hours. Lab fee. Practical training in biochemical procedures and literature searching; experiments include
isolation, characterization and assay of biomolecules and use of centrifugation, chromatography, electrophoresis, spectrophotometry, enzyme kinetics and molecular cloning techniques. Prerequisite: CHEM 532. Pre- or corequisite: CHEM 662 or 663.

CHEM 666. Special Topics in Biochemistry (3).
Discusses a small number of current problems in biochemistry in depth. Requires reading of published research in the field. (Offered fall semester in even-numbered years.) Prerequisites: BIOL 211, CHEM 662, 663.

CHEM 669. Research In Biochemistry (2).
Cross-listed as BIOL 669. Students in the biochemistry field major participate in a biochemistry research project under the direction of a faculty member. Requires a written report summarizing the results. May be repeated once for credit. Graded Cr/NCr. Prerequisites: BIOL 420, CHEM 662 or 663, and CHEM 664 and instructor's consent.

CHEM 690. Independent Study and Research (1-3).
Studies performed must be directed by a faculty member in the department of chemistry. For undergraduate students only. Repeatable for credit. A maximum of 3 credit hours may be counted toward graduation. Graded Cr/NCr. Prerequisite: departmental consent.

CHEM 700. Chemistry Seminar (1).
Students give seminars on either papers recently published in the literature or on their own research. Repeatable for credit. Graded S/U.

CHEM 701. Chemistry Colloquium (1).
Speakers for the colloquium consist of outstanding chemists from other institutions and faculty. Repeatable for credit. Graded S/U.

CHEM 709. Special Topics in Chemistry (2-3).
A discussion of topics of a special significance and interest to faculty and students. Offerings announced in advance. Repeatable for credit.

CHEM 715. Advanced Spectroscopy (3).
Introduction to 1H and 13C NMR spectroscopy including basic concepts such as integration, chemical shifts, diamagnetic shielding, magnetic anisotropy, spin-spin coupling (first and second-order), coupling constants, proton decoupled 13C NMR interpretation of 1H and 13C NMR spectra. More advanced topics include NOE and protein structural mapping, and multidimensional techniques such as COSY, DEPT, INEPT, molecular motion by NMR, coupling to >1 metal centers, including those with <100 percent natural abundance, virtual coupling in metal complexes, NMR of paramagnetic systems and use of paramagnetic shift reagents. An introduction to mass spectroscopy including instrumentation-magnetic sector, quadrupole, ion trap, MS-MS; sample preparation and interfaces-GC-MS, LC-MS, electrospray, MALDI; methods of ionization-electron impact, chemical ionization, electrospray, interpretation of mass spectra-basic concepts, fragmentation patterns. An introduction to the interpretation of mid-infrared spectroscopy of complex molecules and ionic compounds followed by the synthesis of results from NMR, MS and mid IR spectra to determine structure. Emphasis on interpretation of results for understanding electronic and molecular properties of chemical compounds related to their symmetry. Prerequisite: CHEM 532 or equivalent; or admission to a chemistry graduate program.

CHEM 717. Advanced Spectroscopy II (3).
Introduction to electronic and vibrational spectroscopy, EPR and magnetic properties of compounds. A study of the electric field interaction of radiation, electronic and vibrational spectroscopy, and the magnetic field interaction of radiation, EPR and magnetism, with molecular systems examining the different changes in state that molecules can undergo. Emphasis on interpretation of results for understanding electronic and molecular properties of chemical compounds related to their symmetry and structure. Prerequisites: CHEM 532, 546, 615, or their equivalents; or admission to a chemistry graduate program.

CHEM 719. Modern Synthetic Methods (3).
Introduction to modern synthetic methods in chemistry. A detailed investigation of the synthetic chemistry of anions is followed by a detailed survey of functional group interconversions, then oxidation and reduction reactions. The topic of retrosynthetic analysis is introduced. Topics in inorganic synthesis include organometallic bond forming and breaking reactions, ligand synthesis and replacement, solid state synthesis and topics in bioinorganic synthesis. Prerequisites: CHEM 532 and 615, or their equivalents; or admission to a chemistry graduate program.

CHEM 721. Advanced Biochemistry (3).
Introduction to advanced biochemical concepts, processes and techniques. A comprehensive survey of structure and functions of biomolecules including proteins, nucleic acids, lipids, DNA replication and translation, biological membrane and membrane transport are covered. Enzyme mechanisms and kinetics and protein structure/function are discussed in detail. Biochemical, molecular biological, biophysical and chemical techniques that are commonly used in the study of biochemical processes are introduced and discussed. Prerequisite: CHEM 661 or 663 or their equivalents; or admission to a chemistry graduate program.

CHEM 722. Advanced Physical Chemistry (3).
In-depth overview of the fundamentals of thermodynamics, kinetics, quantum mechanics and statistical mechanics as they apply to chemistry. Special emphasis is placed on solution thermodynamics, kinetics of coupled reactions, statistical mechanics of macromolecules and quantum mechanics as it applies to spectroscopy. Prerequisites: CHEM 545 and 546, or their equivalents; or admission to a chemistry graduate program.

CHEM 734. Instrumental Methods for Research (3).
Designed to prepare graduate students or other researchers to perform spectroscopy experiments relevant to their research. The identity of organic compounds can be determined by the information provided by several types of spectra: mass, infrared, nuclear magnetic resonance, fluorescence and ultraviolet. Students learn to operate such instruments as the Varian 2200 GC/MS mass spectrometer, the Thermo Nicolet Avatar FTIR spectrophotometer, the Varian Mercury 300 and Inova 400 NMR spectrometers, the Fluorolog fluorescence spectrophotometer and the Hitachi U-2010 and Varian Cary 100 UV-Vis spectrophotometers in the department's NMR and analytical facilities. The focus of this class is technique and not the interpretation of spectra. On successful completion of this course, students are authorized to use departmental instruments. Prerequisite: CHEM 524 or equivalent, or departmental consent, or admission to a chemistry graduate program.

 Discusses chiroptical techniques, infrared, ultraviolet, nuclear magnetic and electron spin resonance and mass spectroscopy, and their practical use in structure determination. Prerequisite: CHEM 532.

CHEM 744. Computational Quantum Chemistry (3).
An introduction to molecular orbital procedures and methods for calculating a wide range of physical, chemical and electronic properties of systems large enough to be of interest to inorganic, organic and biochemists. Using commercial molecular orbital software programs such as MOPAC, SPARTAN and GAUSSIAN, students learn to select appropriate "model" computational procedures to predict properties of molecules and reactions. By comparison with experiment, students learn to assess the range of applicability and accuracy of the "model" methods as applied to various categories of chemical systems.
Properties considered include energies and structures of molecules, ions and transition states; vibrational frequencies, IR and RAMAN spectra; thermochemical properties, heat of formation, bond and reaction energies, isomerization energy barriers, reaction pathways; molecular orbitals, atomic charges, dipole and multipole moments, ionization potentials, bond orders; orbital energies and photoelectron spectroscopy; excited state properties, singlet and triplet surfaces. Prerequisite: CHEM 546 or equivalent (MATH 344 is necessary).

**CHEM 809. Special Studies in Chemistry** (2-3).
Systematic study in selected areas of chemistry. Repeatable for credit. Course content differs from one offering to the next.

**CHEM 815. Bioinorganic Chemistry** (3).
The study of the role of inorganic chemistry in biological systems. Includes electron transport, biological catalysis mediated by metal ions, metal storage and transport, ion transport, and the role of transition metals in metabolism. Prerequisites: CHEM 615, 665 or equivalents.

**CHEM 823. Analytical Spectroscopy** (3).
Absorption (UV visible, IR, and atomic); emission: flame emission and atomic absorption spectrometry, molecular fluorescence, and phosphorescence methods; Raman, nuclear magnetic resonance, and electron spin resonance spectroscopy; X-ray methods. Lectures and discussions on theory and practice. Particular emphasis on instrumentation and the acquisition of artifact-free data. Prerequisite: CHEM 524 or equivalent.

**CHEM 835. Bio-organic Chemistry** (3).
Includes the chemistry of amino acids and peptides, enzyme structure and function, and inhibitor design. Prerequisites: CHEM 532, 661, or CHEM 663 or equivalent.

**CHEM 863. Analytical Biochemistry** (3).
A review of modern analytical methods used in biochemistry and molecular biology including absorbance and fluorescence spectroscopy chromatography (affinity, gel-filtration, HPLC, ion-exchange, ion-pair), gel electrophoresis, radioactive tracer methods; cloning, sequencing and recombinant DNA procedures. Prerequisites: BIOL 210, 211, and CHEM 662 or 663 or equivalents.

**CHEM 890. Research in Chemistry** (1-12).
Research for the student planning to receive an MS. Research is directed by a faculty member. Repeatable for credit. Graded S/U.

**CHEM 990. Research in Chemistry** (1-11).
Research for the student planning to receive the PhD. Research is directed by a faculty member. Repeatable for credit. Graded S/U.

---

**Cl - Curriculum and Instruction**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**CI 501. Professional Writing for Educators** (1-3).
Helps students learn the writing skills, techniques and typical procedures required for developing manuscripts for possible publication in the field of education. Addresses manuscripts for a variety of publication outlets.

**CI 502. Math for Exceptionalities** (3).
Teacher education candidates explore and evaluate instructional theories, principles and research-based instructional strategies appropriate for mathematics for learners with exceptionalities. They also become familiar with formal and informal diagnostic tools to identify students experiencing difficulties learning mathematical concepts and gain skill implementing research-based intervention practices for these students. In addition, teacher education candidates explore the interface of technology and effective mathematics instruction. Through assignments designed to provide practical application of content, they explore resources, technology, research and practices that facilitate specific skill development in students. They also learn about strategies to support enjoyment of mathematics for students with diverse and challenging learning needs. For undergraduate students only. Course includes diversity content. Prerequisite: admission to the ECU/Elementary Apprentice Program.

**CI 503. Mathematics for High School Teachers** (3).
Capstone course in secondary mathematics education designed to prepare secondary mathematics education majors for a career in high school teaching by examining secondary school mathematics from an advanced, mathematical point of view. Topics covered are rooted in core secondary curriculum including number and operations, algebra, geometry, functions and statistics. Students draw connections between ideas taught separately in different mathematics courses as they explore familiar high school level mathematics problems. Open to education majors only. Course includes diversity content. Prerequisites: MATH 321, 344, 415, 511, 513, 531, 615, 621, STAT 460 (with a grade point of 2.00 or better, or instructor's consent).

**CI 504. Special Education Law** (3).
Specific local, state, and federal laws governing special education programs and services are discussed in detail. The impact, application of the laws, and strategies for complying with them in the PreK-6 setting are major areas of focus. For undergraduate students only. Course includes diversity content. Prerequisite: admission to ECU/Elementary Apprentice Program.

**CI 505. Science Technology & Society** (1).
Investigates the relationships between science and technology, and the effects of both on our past and present society/culture.

**CI 519. Mathematical Investigations** (3).
Based on the NCTM principles and standards for school mathematics focusing on process standards: problem solving, reasoning and proof, communication, connections and multiple representations. Students gain an active understanding of problem posing and problem solving in mathematics, as well as a familiarity with heuristics of problem solving. Course integrates appropriate educational technology tools and instructional strategies for students with special needs including English Language Learners (ELL). Prerequisite: MATH 501 with a grade of 2.00 or better, or instructor's consent.

**CI 520. Physical Science in the Elementary Classroom** (4).
Students discover how the world around them works by doing a series of hands-on activities which allows them to apply the investigative nature of science to an elementary classroom setting. Intended only for elementary teacher candidates who are seeking to better understand the critical connections between the discovery and understanding of science concepts and the inquiry approach used in elementary science instruction.

**CI 541. Desktop Publishing I** (3).
Desktop publishers control the entire publishing process, from creation and typesetting to printing and distribution, with desktop equipment. Word processing on the personal computer and laser printing are the two technological achievements that make possible a desktop publishing revolution. Stresses type design, harmony, legibility, copy fitting and layout fundamentals.

**CI 542. Desktop Publishing II** (3).
An intermediate-level course which enhances, enriches and develops further skills and techniques used in desktop publishing. Students select software packages in which they need additional depth toward master-level. Prerequisite: CI 541.
CI 602. Social Emotional Learning in the School Community (2).
Teacher education candidates understand the purpose of the social, emotional, and character development standards and how these standards provide classrooms and schools with a framework for integrating social-emotional learning (SEL) with character development so that students learn, practice and model essential personal life habits that contribute to academic, vocational and personal success. For undergraduate students only. Course includes diversity content. Prerequisite: admission to the ECU/Elementary Apprentice Program.

CI 603. Foundations of Early Childhood Unified (2).
An introduction to working with young children (including those developing normally, those at risk due to environmental and biological issues, and those with special needs), their families, and professionals in community schools, agencies and programs. Emphasizes professional development, positive dispositions, early childhood learning environments and early childhood professional standards. Examines the ECU professions, characteristics of good teaching, the nature of teacher education and basic historical and philosophical foundations of ECU education. Prerequisite: CI 270.

CI 604. ECU Assessment and Methods: Infants, Toddlers and Preschool (B-PreK) (3).
Provides knowledge, skills and dispositions for candidates regarding developmental principles, evaluation/assessment, and the development of services, supports and accommodations for infants/toddlers (birth through age 2) and preschool (3-4 years old). Includes competencies within both the early childhood and early childhood special education fields. For undergraduate students only. Course includes diversity content. Prerequisite: admission to ECU/Elementary Apprentice Program.

CI 605. Internship I (2).
In the licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the ECU/Elementary Apprentice Program complete at least 15 hours per week under the supervision of a classroom teacher. For undergraduate students only. Course includes diversity content. Prerequisite: admission to the ECU/Elementary Apprentice Program.

CI 606. Internship II (2).
In the licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the ECU/Elementary Apprentice Program complete at least 15 hours per week under the supervision of a classroom teacher. For undergraduate students only. Course includes diversity content. Prerequisite: admission to the ECU/Elementary Apprentice Program.

CI 607. Internship III (2).
In the licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the ECU/Elementary Apprentice Program complete at least 15 hours per week under the supervision of a classroom teacher. For undergraduate students only. Course includes diversity content. Prerequisite: admission to the ECU/Elementary Apprentice Program.

CI 608. Internship IV (2).
In the licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the ECU/Elementary Apprentice Program complete at least 15 hours per week under the supervision of a classroom teacher. For undergraduate students only. Course includes diversity content. Prerequisite: admission to the ECU/Elementary Apprentice Program.

CI 614. ECU Assessment and Methods: Infants, Toddlers and Families (3).
Provides knowledge, skills and dispositions for candidates regarding developmental principles, evaluation/assessment, and the development of services, supports and accommodations for infants/toddlers (birth through age 2) and their families. Includes competencies within both the early childhood and early childhood special education fields. Prerequisite: CI 603. Corequisite: CI 614I (for undergraduate students only).

CI 614I. ECU Preteaching Internship: Infant Toddler (2).
Candidates participate in a preteaching internship experience in natural settings (within homes and the community) that include young children from birth through age 2 and their families. Candidates work with a cooperating teacher, other professionals and a university supervisor to plan, implement and assess services and supports for young children and their families. Prerequisite: CI 603. Corequisite: CI 614 (for undergraduate students only).

CI 615. Learning & Reading Strategies (2-3).
Students are provided with an understanding of the development of learning and reading strategies and explore instructional approaches for guiding secondary students in those strategies and their use in content areas.

CI 616. Literature for Adolescents (3).
Students expand their knowledge of strategies for helping culturally, developmentally and linguistically diverse students comprehend and construct meaning from texts using appropriate education technology and face-to-face instructional techniques. Includes extensive reading of classic and contemporary young adult literature in all genres. Prerequisite: acceptance into teacher education. Currently and previously certified teachers meet prerequisites.

CI 617. ECU Assessment & Methods: Preschool (3).
Provides knowledge, skills and dispositions for teacher candidates regarding development and learning at the preschool level (ages 3-5). Candidates learn to link theory and evidence-based practices to the preparation of the learning environment, the curriculum and instructional methods that are appropriate for all children. Includes methods of screening and evaluation, adaptations and accommodations, and interventions to meet individual child needs, including those with exceptionalities. Prerequisite: CI 603. Corequisite: CI 617P (undergraduates).

CI 617P. ECU Preteaching Internship: Preschool (2).
Candidates participate in preteaching internship experiences in preschool settings that include young children from ages 3 through 5 (both with and without exceptionalities) and their families. Candidates work with a cooperating teacher(s) and university supervisor to screen, evaluate, assess, plan curriculum, deliver instruction, adapt for individual child needs, and implement special education services and support for the education of young children. Prerequisite: CI 603. Corequisite: CI 617 (for undergraduate students only).

CI 620. Assessment & Methods: K-3 (2-3).
Provides knowledge, skills, and dispositions for candidates working with families and young children from kindergarten through grade three. Covers theory, methodology, screening, evaluation, assessment, and instructional practices, including adaptations/modifications/assistive technology of general education curriculum/instruction for young children both with and without delays/diagnosed disabilities. Prerequisites: CI 603, and at least one of the following: CI 402J, 402S, 402L, or 402M; or hold an elementary teaching license.

CI 621. Instructional Strategies: Middle-Level Education (3).
Students examine the middle grades school as an organization that takes its design specifically from the analysis of 10-14-year-olds, their characteristics and needs. Students examine many curricular and instructional alternatives for middle grades education and learn to manage changes.
CI 647A. Teaching Internship: ECU K–3 (3-8).
Candidates spend nine weeks in professional settings (K-3 level) working with a cooperating teacher and university supervisor. The candidate and cooperating teacher, with the approval of the university supervisor, devise a plan for the intern to assume full responsibility for the program/classroom for a designated period of time during the nine-week period. Prerequisites: CI 614*, 614I*, 703*, and either 611 or 796; successful completion of all Core I (CESP 334, CI 311, 320, 321, 323, 317*, 519 (2.000 or better)), and Core II (CI 603, CESP 433, CI 402E*, CI 402J*, CI 411A*, HPS 425*, CI 324, CI 402I*, CI 402M*, CI 402S*, CI 411B*, CI 617, CI 617P) courses and assessments and acceptance into clinical practice. Corequisites: CI 446, 647B. *Course requires a grade of B- or better.

CI 647B. Teaching Internship: ECU Birth-PreK (4).
Candidates spend seven weeks in professional settings (infant/toddler level or preschool level) working with a cooperating teacher and university supervisor. The candidate and cooperating teacher, with the approval of the university supervisor, devise a plan for the intern to assume full responsibility for the program/classroom for a designated period of time during the semester. Course credit is awarded upon successful completion by the candidate of the prekindergarten program for undergraduate students only. Prerequisites: CI 614*, 614I*, 703*, and either 611 or 796; successful completion of all Core I (CESP 334, CI 311, 320, 321, 323, 317*, 519 (2.000 or better)), and Core II (CI 603, CESP 433, CI 402E*, CI 402J*, CI 411A*, HPS 425*, CI 324, CI 402I*, CI 402M*, CI 402S*, CI 411B*, CI 617, CI 617P) courses and assessments and acceptance into clinical practice. Corequisites: CI 446, 647A. *Course requires a grade of B- or better.

CI 654E. Instructional Methods in Middle Level/Secondary Education (1-3).
Acquaints current or potential educators with the concepts and skills necessary to meet the needs of students in middle level and/or secondary education. Focuses on content specific pedagogy as it relates to classroom instruction, management and assessment or adaptations. Prerequisite: teaching license or admission to the Master of Arts in Teaching.

CI 654J. Instructional Methods in Middle Level/Secondary Education - History (1-3).
Acquaints current or potential educators with the concepts and skills necessary to meet the needs of students in middle level and/or secondary education. Focuses on content specific pedagogy as it relates to classroom instruction, management and assessment or adaptations. Prerequisite: teaching license or admission to the Master of Arts in Teaching.

CI 654M. Instructional Methods in Middle Level/Secondary Education - Mathematics (1-3).
Acquaints current or potential educators with the concepts and skills necessary to meet the needs of students in middle level and/or secondary education. Focuses on content specific pedagogy as it relates to classroom instruction, management and assessment or adaptations. Prerequisite: teaching license or admission to the Master of Arts in Teaching.

CI 654S. Instructional Methods in Middle Level/Secondary Education - Science (1-3).
Acquaints current or potential educators with the concepts and skills necessary to meet the needs of students in middle level and/or secondary education. Focuses on content specific pedagogy as it relates to classroom instruction, management and assessment or adaptations. Prerequisite: teaching license or admission to the Master of Arts in Teaching.

CI 701. Foundations of Education (2).
Students survey the various foundations areas, including philosophical, historical, social and comparative. This course is prerequisite to subsequent foundations courses. Prerequisite: graduate standing.

CI 702. Introduction to Exceptional Children (3).
A survey of the characteristics of exceptional learners, including the handicapped and the gifted. Presents service delivery models and current practices. Fulfills certification requirements for teachers and serves as an introductory course in exceptionality for special education majors, administrators and school psychologists. Prerequisite: bachelor's degree or departmental consent.

CI 703. Assessments and Methods: K-3 (3).
Provides knowledge, skills and dispositions for candidates working with families and young children from kindergarten through grade three. Covers theory, methodology, screening, evaluation, assessment and instructional practices, including adaptations/modifications/assistive technology of general education curriculum/instruction for young children both with and without delays/diagnosed disabilities. Prerequisites: CI 603, and at least one of the following: CI 402J, 402S, or 402M; or hold an elementary teaching license.

CI 704. Assessment & Methods K-1 (3).
Provides knowledge, skills and dispositions for candidates working with families and young children from kindergarten through first grade. Covers theory, methodology, screening, evaluation, assessment and instructional practices, including adaptations and modifications for all young children, including English language learners and those with and without delays/diagnosed disabilities. Prerequisite: CI 603. Corequisite: CI 748.

CI 705. Knowledge and Beliefs About Reading (3).
Helps students understand the theories of reading development, individual student differences, the nature of reading difficulties and principles of assessment. Includes the standards developed by the International Reading Association concerning knowledge and beliefs about reading as the learning outcome. Prerequisite: graduate standing.

CI 706. Reflective Inquiry Into Learning, Teaching and Schools (5).
Fosters the reflective thinking ability of teachers about the relationships among learning, teaching and schools. Explores various frameworks of growth and development, learning theory, social and multicultural education, and philosophical foundations. Students are engaged in initial reading and investigation into individualized research topics. Prerequisites: admission to graduate school, CLES 801.

CI 708. Current Topics in Curriculum (1-3).
Addresses a broad range of topical issues in curriculum development and implementation. A current issue is covered under this course number, an umbrella number for a variety of topics/innovations in curriculum. Repeatable.

CI 709. Current Topics in Instruction (1-3).
Addresses a broad range of topical issues in current practices for effective instruction. A current issue is covered under this course number, an umbrella number for a variety of topics/innovations in instructional practices. Repeatable.

CI 710B. Differentiated Instruction for Active Engagement (2).
Intended as part of the core for a Master of Arts in Teaching. Focuses on the elements of differentiation, differentiated instruction based on student need, and lesson plan design that reflects planned differentiation. Students explore best practices, strategies and practical applications of differentiation in diverse classroom contexts.
CI 711. Multicultural Education (3).
Emphasizes students understanding multiple perspectives in a global society and developing multiple modality, culturally aware curriculum experiences. Provides disciplined inquiry and critical experience to become more responsive to the human condition, cultural integrity, and cultural pluralism in society (NCATE, 1982, p. 14). Emphasizes diversity issues in education and the development of a knowledge base to support culturally responsible pedagogy. Prerequisite: graduate standing or departmental consent.

CI 714. Reading Instruction and Assessment (3).
Helps students create instructional environments; teaches phonemic awareness, word identification (including phonics), vocabulary-building skills, strategies for comprehension and the construction of meaning, reading and writing fluency, and study strategies; and assesses student performance and progress. Prerequisite: CI 705 or departmental consent.

CI 716. Introduction to the School Library (2).
An introduction to the role of the library and the library teacher in the school. An overview of issues affecting libraries and library teachers is presented. Prerequisite: teacher certification/license.

CI 717. Qualitative Inquiry in Education (1-3).
Through readings and guided experiences in acts of inquiry in qualitative research, students acquire the disposition of a reflective inquirer, becoming familiar with the knowledge base for qualitative inquiry. Prerequisite: instructor's consent.

CI 724. Introduction to Teaching Strategies for Students With Mild/Moderate Disabilities (3).
Examines introductory assessments, curriculum and instruction related to students with mild and moderate learning needs. Includes competencies for (a) developing individual educational plans, (b) assessment for culturally responsive models of instructional planning, (c) planning and delivering research-validated individualized instruction, (d) monitoring and basing instructional decisions on performance data, (e) managing safe and conducive learning environments, and (f) strategies for working with students with adaptive learning needs in general and special education environments.

CI 725. Improvement of Instruction in Science (3).
Assists teachers in improving the way they teach science and the way their students learn science. Includes instructional strategies, curriculum, research and technology. Prerequisite: CI 402S or 454S.

CI 726. Information Technologies in the School Library (2).
Introduces a wide range of computer applications, including word processing, database, spreadsheet and presentation software to create and manage information in the library. Covers the use of the internet, options for filtering internet content, internet user policies and basic webpage design. Includes basic computer and software troubleshooting, installation and removal of software, and computer security issues. Prerequisite: Windows 95 or equivalent skills, CI 716.

CI 727. Technology in the School Library II (2).
An introduction to a wide range of technologies and equipment in the school library. Covers selection and purchase as well as basic maintenance and repair of equipment. Includes the basis of local area network design. Students learn the basics of media production and strategies for teaching media production to students. Students also look at the future of technology in school libraries. Prerequisites: CI 716, 726, 728, 730.

CI 730. Curriculum in the School Library (2).
Comprehensively designed to give students knowledge about the role of the school library in the curriculum development process. Addresses how the school library teacher collaboratively develops and integrates information literacy and content area standards into library and classroom activities. Prerequisite: CI 716.

CI 731. The Reflective and Inquiring Educator (6).
Builds a foundation for reflective thinking about (a) the role of the educational practitioner; (b) educational issues in curriculum, instruction and change theory; and (c) principles and application of teacher-based action research. Prerequisite: admission to MEd in curriculum and instruction.

CI 732. Library Management & Design (2).
An introduction to a wide range of technologies and equipment in the school library. Covers selection and purchase as well as basic maintenance and repair of equipment. Includes the basis of local area network design. Students learn the basics of media production and strategies for teaching media production to students. Students also look at the future of technology in school libraries. Prerequisites: CI 716, 726, 728, 730.

CI 733. Assessments & Methods: Grades 2-3 (3).
Provides knowledge, skills and dispositions for candidates working with families and young children in second and third grade. Covers theory, methodology, screening, evaluation, assessment and instructional practices, including adaptations and modifications for all young children, including English language learners and those with and without delays/diagnosed disabilities. Prerequisites: CI 603, 704. Corequisite: CI 749.

CI 734. Literature-Based Reading Programs (3).
Students examine specific methods for developing a literature program with children (preschool-elementary years) emphasizing extending literature and media through the reading environment, language arts, the arts and creative expression. Prerequisites: CI 705, graduate standing.

CI 736. Organizing a Reading Program (3).
Helps students communicate information about reading to various groups, develop literacy curricula, participate in or lead professional development programs, participate in or conduct research, collaborate or supervise other literacy practitioners, communicate assessment results, and engage in professional activities. Prerequisites: CI 705, 714.

CI 737. Methods/Assessment: Gifted (3).
Explores a variety of assessment instruments, both teacher-made and standardized, to determine a gifted student's cognitive functioning level and educational needs. Examines strategies and techniques for planning qualitatively differentiated curriculum to meet the academic needs of the gifted learner.

CI 738. Professional Education Badge (0.5-3).
For professionals interested in strengthening their expertise in an education-related area. Students enrolled in these courses develop knowledge that enhances their professional skills and leadership capacity for educational environment. Graduate students only. Graded Bg/NBg.
CI 742. Introduction to Teaching Strategies for Students with Severe/Multiple Disabilities (3).
Examines introductory assessments, curriculum and instruction related to students with severe and multiple disabilities. Includes competencies for (a) developing individual educational plans, (b) assessment for culturally responsive models of instructional planning, (c) planning and delivering research-validated individualized instruction, (d) monitoring and basing instructional decisions on performance data, (e) managing safe and conductive learning environments, and (f) strategies for working with students with moderate to severe needs in general and special education environments.

CI 743. Transition to Teaching or Residency Internship I (1).
In the transition to teaching or residency licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the transition to teaching program teach half time or more with a restricted license. Students in the residency program teach at least 20 hours per week under the supervision of a classroom teacher. Transition to Teaching and Middle Level Secondary prerequisites: CI 760A, employment by a school district or agency partnership and completion of program requirements for restricted teacher licensure or residency. Corequisite: CI 761A. ECU Residency prerequisite: admission to the program.

CI 744. Transition to Teaching or Residency Internship II (1).
In the transition to teaching or residency licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the transition to teaching program teach half time or more with a restricted license. Students in the residency program teach at least 20 hours per week under the supervision of a classroom teacher. Transition to Teaching and MLS Residency prerequisites: CI 743, 761A, employment by a school district or agency partnership and completion of coursework for restricted teacher licensure or MLS residency. Corequisite: CI 769. ECU Residency prerequisites: CI 603, 743. Corequisite: CI 614.

CI 745. Alternative Certification Internship III and IV (1).
Continuation of CI 743 and 744. Prerequisites: employment by a school district, CI 743, 744, and admission to MEd in CI.

CI 747L. Practicum: ESL/Bilingual Education (2-3).
Provides full-time participation in an ESL class supervised by a master teacher and a university professor. Focuses on the application of teaching methods for ESL/bilingual learners, the appropriate use of formal and informal assessment procedures, the development of cross-cultural teaching strategies, and the integration of language with content-area instruction. Prerequisites: CI 321 or 711, CI 774, 775, 776, 777.

CI 748. Transition to Teaching or Residency Internship III (1).
In the transition to teaching or residency licensure program, this internship replaces the required student teaching assignment for the purposes of licensure. Students in the transition to teaching program teach half time or more with a restricted license. Students in the residency program teach at least 20 hours per week under the supervision of a classroom teacher. Transition to Teaching and MLS Residency prerequisites: CI 744, 769, employment by a school district or agency partnership and completion of coursework for restricted teacher licensure or residency. Corequisite: CI 848. ECU Residency prerequisites: CI 617, 744. Corequisite: CI 704.

CI 749. Transition to Teaching or Residency Internship IV (1-3).
In the transition to teaching (T2T) or residency (ECU or middle level secondary) licensure programs, this internship fulfills the required student teaching assignment for the purposes of licensure. Students in the transition to teaching program teach half time or more with a restricted license. Students in the residency (ECU or middle level secondary) programs are full-time interns for the entire semester under the supervision of a classroom teacher. Transition to Teaching prerequisites: CI 748, employment by a school district and completion of coursework for provisional teacher certification. Corequisite: CI 849. Middle level secondary residency prerequisite: CI 748. Corequisite: CI 849. ECU Residency prerequisites: CI 703, 748. Corequisite: CI 733.

CI 749A. Practicum: High-Incidence Learners (3).
Provides prospective special education teachers with participation in a class for children or adolescents with high incidence learning needs being served in special education programs. Supervision is provided by a fully-qualified special education teacher and a university faculty member. Emphasizes (a) research-validated teaching methods for students with high incidence learning needs, including planning individual education programs and standards-based education; (b) use of formal-informal psychoeducational assessment devices, curriculum strategies, positive behavior support, behavior management and evaluation of student performance; and (c) reflective analysis of personal performance and its impact on student learning. Prerequisite: practicum placement approval.

CI 749F. Practicum: Low-Incidence Learners (3).
Provides supervised practical experience in a program setting that serves students who have low incidence disabilities. Candidates work with a cooperating teacher to plan, implement and assess instruction aligned with state and/or district standards for students with low incidence disabilities. Prerequisite: practicum placement approval.

CI 749G. Practicum: Gifted (3).
Provides prospective special education teachers with participation in an educational setting for children and adolescents needing the gifted curriculum served in special education programs. Supervision is provided by a fully-qualified gifted education teacher and a university faculty member. Emphasizes research-validated teaching methods for students with gifted curriculum needs. Prerequisite: practicum placement approval.

CI 750. Workshops in Education (1-4).
Workshops on a variety of education topics. Different topics are indicated by a letter following the course number.

CI 751. Special Studies in Education (1-3).
For elementary and secondary school teachers. Repeatable with adviser's consent. Prerequisite: teacher certification or departmental consent.

CI 751AA. Student-Led Conferencing (0.5).
Parents and teachers become partners with their students when all parties play equal roles in conferencing. Traditional conferencing between only the teacher and parent can limit students from becoming self-advocates for their education. Student-led conferencing encourages students to take responsibility for their learning through analysis and reflection of their work and goal setting. Workshop guides teachers into the rationale and steps for successfully implementing student-led conferences with any age and setting.

CI 751AB. Enhancing Science Instruction Through STEM Education for the K-8 Classroom (3).
STEM education incorporates science, technology, engineering and mathematics into the science curriculum. Anticipating a significant increase in the percentage of STEM careers over the next four years, the National Science Foundation and the Federal Government have placed an emphasis on improving STEM education in the K-12 classroom. Professional learning course participants use the NGSS standards to develop and present STEM activities appropriate for the elementary classroom. Course participants learn the foundations of STEM education as well as engage in hands-on STEM activities. Participants apply the foundations of STEM education and the NGSS
CI 751AC. Inquiry Instruction as a Foundation of Science Education in the Elementary Classroom (0.5).
Inquiry-based education is a powerful instructional strategy that has shown increased intellectual engagement and has fostered deep understanding through the development of hands-on and minds-on science activities. The 5E learning model develops the natural curiosity of elementary students to stimulate an inquiry mentality of learning science. Using the NGSS standards as the foundation, participants learn to analyze or dissect the standards for critical content and develop engaging science lessons. Throughout the workshop, participants have the opportunity to observe elementary science activities that correlate to the NGSS standards and are presented in an “activity before concept” method. The workshop presents the instructional foundations of the 5E learning model. Additionally, participants have the opportunity to engage in science activities presented in the 5E learning model. Each participant develops and presents a science activity that uses the 5E learning model. Ultimately, participants learn to read the standards and use the information to develop lessons in the 5E learning model.

CI 751AD. Motivating the Writer in Every Student (0.5).
Participants engage in multisensory writing strategies that encourage all students to learn how to effectively write in various modes. The day is designed around an accumulation of research-based procedures used over 22 years’ experience as a classroom teacher, writing coach, academic coach and blended virtual teacher. Teachers leave the workshop with various tools that they are able to use with their K-5 students. Time is also spent discovering author Jon Scieszka, children's author and creator of "Guys Read." If workshop participants teach male students that are discouraged by reading and writing, this author has a reputation of altering those mindsets. Finally, the day also includes how to prepare students for the Multidisciplinary Performance Task portion on the Kansas State Assessment.

CI 751AE. Fractions and Decimals Made Easier (0.5).
Discusses difficulties elementary school students face in learning fractions and decimals and ways teachers can help in handling these topics. Research-based workshop incorporates current theories of cognitive science in the teaching and learning of fractions and decimals. It consists of several hands-on activities focusing on such key issues as what initial instruction should focus on, what aspects of fractions and decimals should be stressed, and how some common misconceptions involving these topics can be overcome.

CI 751AF. The Highly Engaged Classroom (0.5).
Participants learn how to use effective engagement techniques and strategies to facilitate the “ultimate” level of student engagement. There are ample opportunities for making classroom connections, energizing attitudes, sharing ideas and best practices.

CI 751AG. Nonverbal Classroom Management (0.5).
Studies Michael Grinder's work in the area of nonverbal communication. As teacher behavior establishes classroom management, and classroom management is the language of relationship, we know that what a teacher DOES communicates. Students increase awareness of the messages in body language and consider together how to create a safe, supportive, productive classroom environment.

CI 751AI. Differentiations and Scaffolds in Instruction (0.5). Examine, from principle to practice, differentiated instruction and scaffolds to meet the needs of individual students. Interactive, collaborative experience includes modeling and use of several research-based strategies which lend themselves to classroom use as teachers work to make the best use of instructional opportunities.

CI 751AJ. Simple View of Reading: The Ingredients of Reading and Instructional Supports (0.5).
Reviews theoretical models of reading from research, such as the Simple View of Reading and Scarborough’s Rope to help teachers understand the ingredients of reading comprehension. Areas addressed include word recognition, language comprehension and automaticity. Participants learn and experience strategies to address the different components within all content areas. These strategies help students access the content that they need to learn to become college and career ready.

CI 751AK. KMIC Summer Mentor Forum (0.5).
Mentors from KMIC member districts who have been trained by the New Teacher Center are invited to attend the Summer Mentor Forum. Participants collaborate and network with other mentors from across the state. Topics for the forum are: mentoring around social emotional learning, differentiating the use of tools, analyzing a case study, and investigating resources in the Learning Zone. Structures include coaching conversations, focused dialogue, World Café, and triad conversations.

CI 751AL. Integrating STEM in the Primary Classroom (0.5).
A professional learning opportunity aimed to increase student success in science by focusing on the implementation of integrated STEM in the primary classroom. Participants increase their (a) confidence in implementing iSTEM instruction and content knowledge, (b) instructional level of iSTEM pedagogical skills leading to effective lessons using the 5E process, (c) knowledge and factors in discourse, assessment and curriculum to apply Kansas College and Career Ready Standards for the Next Generation of Science Standards in their instructional practice, and (d) focus on STEM instructional practices to increase student attitude toward science, technology, engineering and math learning.

CI 751AM. Integrating STEM in the Intermediate Classroom (0.5).
A professional learning opportunity aimed to increase student success in science by focusing on the implementation of integrated STEM in the intermediate classroom. Participants increase their (1) confidence in implementing STEM instruction and content knowledge, (2) instructional level of STEM pedagogical skills leading to effective lessons using the 5E process, (3) knowledge and factors in discourse, assessment and curriculum to apply Kansas College and Career Ready Standards for the Next Generation of Science Standards in their instructional practice, and (4) focus on STEM instructional practices to increase student attitude toward science, technology, engineering and math learning.

CI 751AN. Creating Literacy Moments with the Current 6th-8th Grade William Allen White Books (1).
Looks at five of the preselected books from the 2016 WAW 6th-8th grade master list. Participants need to purchase/bring to class the five preselected books and have read two prior to class. Participants gain insight on how to incorporate the WAW books during teacher read-aloud time, small-group work, or literature circles with the use of specific comprehension strategies, vocabulary, writing prompts, close reading, and accompanying informational text. Each participants leaves the workshop with five unit guides.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CI 751AO</td>
<td>Designing the &quot;WOW&quot; Unit (1)</td>
<td>Participants research ways to make learning relevant, engaging and real. Participants either individually or collaboratively build a unit that can be used in the classroom using the research on connecting learning to real-life.</td>
</tr>
<tr>
<td>CI 751AP</td>
<td>Social Emotional Learning in the School Community (0.5-3)</td>
<td>Workshop designed to help the attendee understand the purpose of the Social, Emotional and Character Development Standards and how these standards provide classrooms and schools with a framework for integrating social-emotional learning (SEL) with character development so that students learn, practice, and model essential personal life habits that contribute to academic, vocational, and personal success.</td>
</tr>
<tr>
<td>CI 751AQ</td>
<td>Mentoring for Effective Instruction (1)</td>
<td>This targeted professional development series is designed to advance the skills, abilities, and knowledge of mentors and coaches of early career teachers. The series ensures that experienced teachers become even more effective in their skills in advancing the practice of new teachers, ultimately helping to improve student learning.</td>
</tr>
<tr>
<td>CI 751AR</td>
<td>Fostering Resiliency: Helping Children with Challenging Life Situations Using Children's Literature (0.5)</td>
<td>Teachers learn how to foster resiliency through instructional techniques such as: (a) increasing social bonding; (b) setting clear and consistent boundaries; (c) teaching life skills; (d) providing care and support; (e) setting and communicating high expectations; and (f) providing opportunities for meaningful participation, through the use of children's literature. Participants view, gather and develop resource plans using recent picture book publications.</td>
</tr>
<tr>
<td>CI 751AS</td>
<td>Creating a Makerspace/Genius Hour in Your Classroom (1)</td>
<td>Discover how to transform your classroom into a place where students want to come in and learn. A classroom where teachers create a space to empower students of all levels to explore their own passions through passion projects.</td>
</tr>
<tr>
<td>CI 751AU</td>
<td>New Horizons - I Miss Pluto! (1)</td>
<td>For the world-changing Apollo 11 mission, the average age of engineers working in Mission Control was only 28. When Columbia first launched, it was 47. As the Baby Boom generation moves toward retirement, this aging workforce will soon start to disappear and need to be replaced, a problem recognized by NASA as well as many other organizations. New Horizons for Kansas K-12 seeks to connect educators to space science via the Cosmosphere and using NASA content, helping to excite the next generation about NASA missions and to encourage them to pursue STEM careers. Towards that goal this class aligns well with the following NASA research priorities: Understanding the universe and our origins through the study of deep space, new crew vehicles including deep space and Mars, living and working in space.</td>
</tr>
<tr>
<td>CI 751AV</td>
<td>Space Agriculture for Kansas K-12 (1)</td>
<td>Advances the three major education goals of the NASA Office of Education — to support U.S. innovation and competitiveness. Seeks to increase the STEM workforce pipeline through the use of NASA content. Focuses on bringing NASA content to educators who are currently educating the next generation of people with extraordinary knowledge in science and engineering. Focuses on the NASA Office of Education’s mission of attracting and retaining students in STEM disciplines by connecting informal and formal education, communicating NASA content to the public, and ultimately using NASA as an engaging method to bring the students into aerospace.</td>
</tr>
<tr>
<td>CI 751AY</td>
<td>Technology Tool Belt: Stress-Free Student-Centered Applications (0.5)</td>
<td>In this professional learning course, elementary teachers learn about free innovative technologies they can incorporate in their lessons to improve their teaching practices today. Resources presented enable teachers to easily add student-centered technology to their daily classroom routine. Teachers formulate a standards-based weekly plan implementing the technologies presented into center rotations. This enables the teacher to monitor progress as a guide for students instead of the traditional classroom structure with a teacher-directed focus. Ideas for classroom preparations and set up are shared to make the use of technology painless. Resources covered include Web 2.0 tools and interactive whiteboard SMART Notebook software that engages students with learning activities. Technology used includes laptops, video recording devices, a document camera, and an interactive whiteboard. Participants who have these devices available to them and would like to learn easy ways to use them in the classroom, greatly benefit from this professional learning course. (All materials are provided for use during the course. Participants are welcome to bring their own laptops if they choose.)</td>
</tr>
<tr>
<td>CI 751AZ</td>
<td>Improving Classroom Management (1-2)</td>
<td>Teachers with strong classroom management skills have proven to be more successful than their peers. Course goal is to provide both aspiring and veteran teachers with a tool kit of classroom management structures and techniques to create a positive learning environment where learning can take place.</td>
</tr>
<tr>
<td>CI 751AC</td>
<td>Enhancing Literacy Learning through Movement (0.5)</td>
<td>Offers curriculum integrating movement, physical activity, and literacy in elementary education. Research of elementary teacher candidates’ implementation of integrating movement and literacy content via lesson planning is shown. Participants not only engage in how to enhance literacy learning through movement activities, but also explore and implement practices in their own classrooms. Participants are asked to reflect on organized movement and management procedures in their own teaching experiences.</td>
</tr>
<tr>
<td>CI 751BC</td>
<td>Boost Classroom Learning with STEM Education (0.5)</td>
<td>Aims to increase student success in science by focusing on the implementation of STEM in the primary and intermediate classroom. Participants engage in a variety of STEM activities in small groups, explore the use of free STEM technology to support learning, and learn tips and tricks for facilitating STEM activities.</td>
</tr>
<tr>
<td>CI 751CC</td>
<td>Look What I Can Do! Tapping the Talents of Primary Students (0.5)</td>
<td>Provides teachers with the opportunity to design complex learning experiences based on discovery, inductive, deductive and inquiry approaches. Teachers learn why the approach works, see examples of primary students learning when a teacher uses the approach, then have the opportunity to collaborate in the design of standards-based tasks and lessons to use in the classroom for each model. Teachers are guided in the design of tasks that also promote student use of individual talents, many of which may not be fostered when using direct instruction. Teachers also dialogue about the pacing and assessment related to the complex tasks they design. Participants select one of the four lesson plans they complete and customize it to fit their classroom, teach the lesson, and then submit two reflections, one on the taught lesson and another on the remaining three models.</td>
</tr>
<tr>
<td>CI 751CD</td>
<td>Engaging K-8 Learners with Inquiry and Project-Based Strategies (0.5)</td>
<td>Inquiry and Project-Based learning are powerful instructional strategies that have shown increases in intellectual engagement as well as</td>
</tr>
</tbody>
</table>
fostering deep understanding through the development of hands-on and minds-on activities. The 5E learning model develops the natural curiosity of K-8 students to provide an inquiry mentality of learning science, social studies and math. Using the NGSS and Common Core Standards, participants will learn to dissect the standards for critical content and develop engaging lessons. Through this professional learning course, participants will have the opportunity to observe and participate in lessons that correlate to the standards and are presented in an “activity before concept” method. This professional learning course will allow participants the opportunity to observe and develop lessons that can be utilized directly in their classroom and ultimately create an engaging environment.

CI 751CE. Teaching Historical Inquiry and Reasoning (1). What and how educators teach in history classes are controversial matters. For some, history is a form of information (students mastering an agreed-upon narrative) rather than a form of knowledge. But students then lack any way of determining whether it, or any other narrative, is accurate. The word “history” derives from the Greek word historia meaning “inquiry, knowledge acquired by investigation.” Course is based on the research findings of the Stanford History Education Group. Participants create assignments that engage millennial learners in history content and historical inquiry while meeting the History/Social Studies Common Core and Kansas HGSS Standards.

CI 751CF. A Novel Idea (3). Participants need access to The Book Whisperer: Awakening the Inner Reader in Every Child, by Donalyn Miller--ISBN-13: 978-0470372272. Participants create an effective independent reading program that supports their content area; identify read-aloud books for individual content areas; evaluate and identify a personal reading style; learn to distinguish between different types of readers and how to create a classroom environment to support all readers; and learn to evaluate literature circle material and create a program that works for individual content areas.

CI 751CG. Getting Along in Education: Building Effective Relationships (1). Effective and healthy relationships are an important part of education for teachers and administrators. Workshop focuses on communication and conflict resolution skills to make the education setting a more active and positive learning environment with a focus on learning. Development of strategies to deal with classroom situations with effective work in a problem solving model with students, communication with parents, and interactions with colleagues are discussed and implemented. Participants learn skills and tools that provide them with opportunities to make the educational setting a positive and rewarding environment for all of the students and adults involved.

CI 751CI. Inclusive Education Strategies in the Classroom (1). Working with students with special education needs in curriculum and social-emotional areas in the regular education classroom can be challenging and rewarding. Course reviews characteristics of, and strategies for, supporting students with special education needs. Participants learn and develop lessons and practices that assist them in providing diverse and unique learning opportunities to the students in their classrooms.

CI 751CJ. Behavior Management in the Classroom (1). Emotional and behavioral concerns in the classroom continue to increase in frequency and intensity, interfering with learning. Course looks at problematic behaviors and emotions exhibited by students and potential causes and triggers. Participants research behavior concerns and develop lessons and practices to assist in student learning. Course goal is to develop plans for working with students, parents and administration to provide a positive environment for students, and to develop individual and classroom behavior management plans.

CI 751CK. 8 to Great: Empowering Your Students (0.5-1). 8 to Great is THE powerful process for positive change empowering participants to become more successful, productive, and positive in their classrooms. By incorporating the High-Ways in their personal and professional lives, participants become more effective in dealing with student behaviors, understanding how to internally motivate students, and guiding students to success. The process is a “recipe for success” as participants discover the following in hoping, believing, and achieving greatness, not only in their personal lives, but in the classroom as well: · A guaranteed positive attitude formula that is simple to live and teach · A decision-making formula to help make the right decisions every time · A one-minute process for using imagination to achieve goals and dreams · A forgiveness formula for releasing past hurts and mistakes · A communication skill that breaks through negative patterns such as defensiveness · A process for dealing with strong emotions such as depression and rage · A one-minute gratitude exercise that helps every day start out right Discover how to take back and keep your power and how to teach students to do the same by taking these simple to understand concepts and putting them into practice.

CI 751CL. Our Journey - a Year of Growth (1). Calling all K-2 teachers who want to learn an unique way of showcasing student writing and projects! Learn about a student made portfolio using monthly writing prompts and projects to encompass the entire school year. This is a great opportunity to help build better relationships with students and parents through the writing process.

CI 751CM. Co Teaching 101 a New Type of Classroom (1). In this course we will present how we have utilized co teaching in our first grade classrooms. We will demonstrate how we combine two classrooms into one learning community. We will model how we are able to reach all levels of students and obtain their highest level of success. We will demonstrate how we utilize our guided reading block and math block to provide for all levels of learning and provide enrichment and reinforcement. We will provide examples of how we have created this type of combined classroom and learning environment during center time and what it looks like.

CI 751CN. Positive Behavior Supports (2). Do you always have to tell students to “stop, quit” or are saying “NO”? Tired of constantly dealing with negative behaviors and disruptions in your classroom that take away from learning time? If so, it sounds like it is time for a change. Positive Behavior Supports, a behavior management system, will positively change the atmosphere of your classroom and strengthen teaching practices with results! Teachers will gain strategies such as safe spots, behavior plans, and a reward system that support positive student behaviors allowing for better relationships, communication, and integration for student success. A close analysis of the MTSS Behavior component will also occur; supporting a design for the expectations and behaviors you want out of your students. In this class, you will learn how to create, modify, and execute behavior plans that are designed for your classroom. Place the “YES” back into your teaching vocabulary!

CI 751CO. Classroom Contexts: Knowing Our Students (1). Intended to heighten the holistic understanding of these classroom teachers in terms of who their students are as learners and individuals. Course is directly aligned with Standard 1: Knowledge of Students, from the National Board for Professional Standards, Career and Technical Education Standards.

CI 751CP. Responding to Diversity Within STEM Classrooms (1). Intended to heighten the holistic understanding of these classroom teachers in terms of how accomplished teachers respond to their own
Biases while promoting instructional inclusivity and a proactive stance toward individual respect, emotional safety and global citizenship in the CTE learning environment. Course is directly aligned with Standard 2: Responding to Diversity, from the National Board for Professional Standards, Career and Technical Education Standards.

CI 751CQ. LFKS Professional Development (0.5-3).
Individuals in this session attend Learning Forward Kansas Professional Development sessions as provided by the organization and complete non-degree graduate credit course requirements.

CI 751CR. Mindset, Motivation, and Engagement (0.5).
This course will explore the topics of mindset, motivation, and engagement in the classroom. Several empirically-supported strategies that target mindset, motivation, and engagement in the classroom will be discussed.

CI 751CS. Intensive Reading Interventions (Elementary) (0.5).
This course will explore a variety of intensive reading interventions that can be used with struggling readers as well as English Language Learners in the elementary classroom.

CI 751CT. Electronics for Everyone (0.5).
Introductory course specifically targeted to educators and nonengineers who want to learn the basics of electronics with hands-on applications. Educators seeking professional development opportunities gain access to resources and the ability to integrate them into their own teaching practices. Students start with simple circuits, learn how to solder, create interactive projects, and eventually progress to programming with an Arduino microcontroller.

CI 751CU. Hands on STEM (0.5).
Professional development course that explores the constructivist theory of learning. Students learn to create hands-on activities based on their own academic interests. Participants research a STEM topic, prototype an activity or interaction, share, receive feedback, iterate and finally showcase their activities. Students also learn several tips and tricks on presenting scientific topics using interactions.

CI 751G. Creating Literacy Moments with the 3rd-5th Grade William Allen White Books of 2016 (0.5).
Looks at five of the preselected books from the 2016 WAW 3rd-5th grade master list. Participants need to purchase/bring to class the five preselected books and have read two prior to class. Participants gain insight on how to incorporate the WAW books during teacher read-aloud time, small-group work, or literature circles with the use of specific comprehension strategies, vocabulary, writing prompts, close reading, and accompanying informational text. Participants leave the workshop with five unit guides.

CI 752. Special Studies in Education (1-3).
For elementary and secondary school teachers. Repeatable with adviser's consent. Prerequisite: teacher certification or departmental consent.

CI 753. Special Studies in Education (1-3).
For elementary and secondary school teachers. Repeatable with adviser's consent. Prerequisite: teacher certification or departmental consent.

CI 754. Special Studies in Education (1-3).
For elementary and secondary school teachers. Repeatable with adviser's consent. Prerequisite: teacher certification or departmental consent.

CI 755. Special Studies in Education (1-3).
For elementary and secondary school teachers. Repeatable with adviser's consent. Prerequisite: teacher certification or departmental consent.

CI 758. Nature of Technology and Educational Implications (3).
Addresses issues regarding the nature of technology and how it impacts thinking and action related to learning and teaching. Includes examinations of historical and contemporary examples, with applications in classroom instruction, assessment and supervision. Integrates appropriate educational technology tools and instructional strategies for culturally, developmentally and linguistically diverse student populations. Course includes diversity content.

CI 760A. Creating an Effective Classroom (2).
Part of the core for a Master of Arts in Teaching. Participants conduct an initial examination of instructional methods, educational trends and effective practices for classroom management. Participants in the Transition to Teaching program will have secured (or have been cleared to secure) a teaching contract in an accredited school system. Participants in the Middle/Secondary Residency Program will have secured a position as a school district para-educator or as a WSU/Work Study intern in an accredited school system. Prerequisite: admission to the Transition to Teaching program or Middle Level Secondary Residency program.

CI 761A. Instructional Planning and Technology (2).
Intended as part of the core for a Master of Arts in Teaching. Addresses issues in instructional planning including: identifying appropriate learner goals, aligning goals with accepted standards, models of instruction, integrating technology into instruction, adapting instruction to meet individual student needs, including English language learners, and differentiated instruction. Concurrent enrollment in CI 743, Transition to Teaching or Residency Internship I, or Cooperative Education is required. Prerequisites: students in this course will have secured a teaching contract or paraeducator position in an accredited school system, will have met the prerequisites for admission to the Transition to Teaching or Middle Level Secondary Residency program at WSU and will have completed the summer induction course. Corequisite: CI 743.

CI 764. Interdisciplinary STEM Education: Entry Course (3).
Helps students learn methods of instruction in integrated STEM, using the lens of STEM content knowledge and modeling, inquiry and design practices. A set of methodologies that students can effectively adapt to a variety of situations beyond their specific disciplines are introduced. Students learn how to identify, develop, deliver and evaluate STEM instructional activities with models of project-based learning. Course includes a comprehensive overview of the theories of and instructional strategies for integrated STEM education. Students have various opportunities to evaluate curricula developed for integrated STEM education, as well as procedures for developing a new STEM curriculum. Class comprises a combination of lecture, experiential exercises, discussion, in-class presentations, videos, individual assignments and team assignments.

CI 769. Instructional Strategies, Technology Integration and Assessment (2).
Intended as part of the core for a Master of Arts in Teaching (Transition to Teaching and/or Middle/Secondary Residency Programs). Allows the student to explore a variety of instructional strategies, technologies and assessment techniques while learning how to adapt these strategies and techniques to meet the individual needs of the students. Prerequisites: CI 743, 761A, 768, and continued employment by a school district. Corequisite: CI 744.

CI 771. Technology in the Classroom (1-2).
Introduces classroom teachers to new technologies and their use in the classroom. Uses field trips and speakers to expose teachers to leaders in specific technology. Includes telecommunications, multimedia
applications, integrated media and new hardware and operating systems. Prerequisite: instructor's consent.

CI 772. Integrating Technology Into the Curriculum (2-3). Covers skills and strategies needed for classroom teachers to use computers and computer-related technology to meet curricular goals and professional standards. Includes professional standards, classroom management, choosing appropriate software, assessment, teaching strategies and activities, and professional resources. A project-based course; educators develop materials and strategies to assist in integrating available technology into the curriculum.

CI 774. Teaching English as a Second Language (1-3). Examines current objectives for teaching English as a second language and a variety of methods and specialized techniques for obtaining these objectives. Students develop knowledge of criteria for evaluating curricula, teaching materials and professional literature related to teaching English as a second language and bilingual education. Students examine methods of selecting and adapting curricular ways to enhance the curriculum through developing activation plans for involving parent and community resources in the ESL/BE curriculum. Designed to meet the standards required for ESL/BE endorsement or certification in TESOL.

CI 775. Applied Linguistics: ESL/Bilingual Teacher(s) (3). Examines a broad picture of human language: what it is, what it is used for and how it works. Enables students to recognize uninformed statements about language, to examine personal beliefs and attitudes about language, and to learn to use basic tools to analyze language in particular as it relates to teaching English as a second language. Provides an introduction to most of the sub-fields of linguistics (e.g., phonetics, morphology, semantics, syntax, etc.).

CI 776. Second Language Acquisition (3). Surveys nativist, environmentalist and interactionist theories of second-language acquisition. Covers a broad introduction to the scope of second-language acquisition and bilingualism by reviewing substantive research findings as well as causes for differential success among second-language learners. Includes discussions over readings, collaborative activities and presentations involving application of theory to teaching practice.

CI 777. ESL Assessment (3). Examines legal, theoretical and practical considerations in the ESL/BE students. Explores a variety of established principles of language assessment, procedures for identification of language-minority students and applications for these procedures and techniques. Covers level placement, monitoring of language development and exit criteria for language programs. Introduces the desirable qualities of tests: validity, reliability, practicality and beneficial backwash.

CI 778. TESOL Content Test Preparation (3). Provides teacher candidates preparation for the licensure exam through summaries of ESOL topics in (a) linguist theories, (b) examination of student language production, (c) research-based teaching strategies, (d) assessment procedures and techniques, (e) cultural and professional matters, and (f) test-taking strategies. Prerequisite: senior standing for undergraduate students.

CI 780C. Technology and the Classroom: Young Children (1-2). Teaches effective use of a variety of hardware, software and peripherals in early childhood classroom settings (ages 3-9, grades PreK-3). Prerequisites: entrance into teacher education, a valid teaching certification or instructor's consent.

CI 780L. Technology in the Classroom: Language Arts (2). Enables classroom teachers to use computers and related technology in the language arts curriculum. Appropriate software is evaluated and used in planning for instruction.

CI 780M. Technology in the Classroom: Mathematics (1-2). Focuses on the integration of information and communication technology in mathematics. Explores mathematics-related software and online resources, instructional strategies and assessment techniques. Strongly focuses on the use of technology to meet the subject matter and technology and curriculum standards. Emphasizes building a community of reflective learners. Prerequisite: entrance into teacher education, valid teacher certificate/license, or instructor's consent.

CI 780S. Technology in the Classroom: Science (2). Assists teachers of science in integrating the use of technology appropriate for their classrooms. Explores software and online resources, instructional strategies and assessment techniques. Strongly focuses on the use of technology for communication and student assistance to meet the science and technology curriculum standards. Emphasizes building a community of reflective learners. Prerequisite: entrance into teacher education, valid teacher certificate/license or instructor's consent.

CI 781. Cooperative Education (1-4). Provides the candidate a work-related placement that integrates theory with a planned and supervised professional experience designed to complement and enhance the student's academic program. Graded Cr/Nr. CI graduate candidates are limited to any combination of 6 hours of pass/fail, S/U, and Cr/Nr credit toward the degree program.

CI 782. Internet in Classroom (3). Project-based course requires students to identify internet resources that best meet classroom curricular goals and plan instruction using those resources. Assumes all enrolled students have basic computing skills prior to enrolling in this class and access to a computer connected to the internet.

CI 783. Special Projects in Internet (1-2). Students explore and expand their knowledge of the internet. They complete a special project designed to use knowledge and experiences developed in CI 782. Students and instructor establish goals and activities appropriate for graduate-level study and applicable in an educational setting. Prerequisite: CI 782 or instructor's consent.

CI 784. Foundations of Education for Individuals with Exceptionalities (3). Addresses the basic foundations of special education across exceptionality areas. A general history of special education and its relationship to general education trends (as well as the disability movement as a whole) is discussed. Students are familiarized with important special education legislation and regulations, learn the role litigation has played in the development of the discipline, and study ethical issues in the provision of special education services. Course explains the cognitive, communicative, social/emotional, sensory and physical characteristics of students with mild/moderate (high incidence), moderate/severe (low incidence), and gifted exceptionalities and how these characteristics influence planning and instruction. Issues related to the field of special education include: characteristics and learning needs, identification, theories of intelligence, diverse populations and curriculum differentiation. Course examines the roles of students, professionals, and families in meeting student needs. Course includes diversity content.

CI 785. Instructional Design and Learning Management Systems (LMS) (2). Students analyze, apply and evaluate principles of instructional design as they develop an online instructional unit that can be delivered via
Learning Management System (LMS: e.g., Blackboard). Students learn how to identify learning objectives, analyze tasks and learners, organize resources, specify instructional strategies, design instructional units, and assess outcomes within an LMS.

**CI 787. Emerging Educational Technology (2).**
Introduces emerging technologies which have been gaining attention and increased presence in educational settings. Students develop a deeper knowledge of the ways that emerging technologies can empower teaching and learning through research and experiential learning about augmented reality, virtual reality, learning analytics, web 3.0, 3D printing, Massive Open Online Courses (MOOCs), micro computing, and internet of things. In addition, students examine the expected challenges caused by emerging technologies and find strategies to overcome such issues.

**CI 788. Multimedia Production (2).**
Project-based learning course focuses on students’ learning to develop or improve multimedia development skills so that they can use various multimedia teaching materials in their professional setting. Students learn to create instructional multimedia by using image editing software (e.g., Photoshop, GIMP), audio recording/editing software (e.g., Audacity), and movie editing software (e.g., WeVideo, iMovie, Windows Moviemaker). In addition to learning how to use this software, students have an opportunity to apply their critical thinking skills through evaluating others’ work and reflecting on their own instructional multimedia products.

**CI 790. Special Problems in Education (1-4).**
Directed reading, activity or research under supervision of a graduate instructor. Prerequisite: departmental consent.

**CI 794. Diversity and Culture in a Global Society (3).**
Equips students to become multi-instructional leaders who practice cultural and social justice. Provides students with the necessary concepts of diversity to scaffold a paradigm shift from cultural awareness to cultural diplomacy. Enables students to become successful global citizens in the globalized world. Prerequisite: graduate standing or departmental consent.

**CI 795. Change, Creativity and Innovation (3).**
Focuses on key theories and elements related to organizational change, the creative process and innovation. Students develop an understanding of creative thinking processes to explore how those processes can impact change and lead to innovation. Prerequisite: graduate standing or departmental consent.

**CI 796. Family and Professional Collaboration (3).**
Assists the special educator in developing the skills to collaborate and consult with parents/family members, general educators, support personnel, paraprofessionals/teaching assistants, and community agencies to facilitate the needs of children with exceptionalities.

**CI 804. Classroom Research in Curriculum and Instruction (6).**
Guides students in formulating questions and using appropriate research principles to collect, analyze, interpret and report data to evaluate the effectiveness of educational policies and/or practices. Sustained exploration of topics from CI 731 expected. Prerequisite: CI 731.

**CI 812. Transition across Life Span (2).**
Examines aspects of transition programming for individuals with exceptionalities across their life span. Addresses transitions from (a) early childhood special education settings to the school environment, (b) elementary to middle school, (c) middle school to high school, (d) one special education setting to another (e.g., self-contained classroom to resource room or general education classroom), and (e) high school to postsecondary settings and independent functioning. Discusses roles of individuals with exceptional learning needs, parents, educators and community personnel. Prerequisite: CI 749A, 749F, or 749G.

**CI 814. Advanced Methods: Gifted (2).**
Develops strategies and techniques, including technology, for planning qualitatively-differentiated curriculum to meet the unique academic needs of the gifted learner. Prerequisite: CI 749G. Corequisite: CI 814A.

**CI 814A. Internship/Practicum: Advanced Methods Gifted (1).**
Provides a supervised opportunity for students to implement and evaluate differentiated curriculum for gifted learners. Prerequisite: CI 749G. Corequisite: CI 814.

**CI 815. Advanced Teaching Strategies for Students with Mild/Moderate Disabilities (2).**
Develops strategies and techniques related to the diverse individual needs of learners identified with mild/moderate disabilities including ensuring access to the general education curriculum, environments and extracurricular activities through adaptations, modifications and use of technology. Corequisite: CI 815A.

**CI 815A. Internship/Practicum: Advanced Teaching Strategies for Students with Mild/Moderate Disabilities (1).**
Provides a supervised opportunity for students to implement and evaluate learning experiences and curriculums that develop the cognitive potential of learners with adaptive learning needs and their accessibility to the general education curriculum. Prerequisite: CI 749A. Corequisite: CI 815.

**CI 816. Advanced Methods: Developing Critical and Creative Thought (2-3).**
Curriculum and instruction students enroll for 2 credit hours. Students use understanding of cognitive and creative development to construct learning experiences that challenge the cognitive and creative potential of gifted learners. Prerequisite: CI 749G. Corequisite: CI 816A.
Graduate certificate in engineering students enroll for 3 credit hours. Graduate students in engineering use understanding of cognitive and creative development to construct learning experiences that challenge the cognitive and creative potential of university students. Prerequisites: CESP 811, 820.

**CI 816A. Internship: Developing Critical and Creative Thought (1-3).**
Curriculum and instruction students enroll for 1 hour. Provides a supervised opportunity for students to implement and evaluate curricula that challenge the cognitive and creative potential of gifted learners. Prerequisite: CI 749G. Corequisite: CI 816. Graduate certificate in engineering students enroll for 3 credit hours. Provides engineering students a supervised opportunity to implement and evaluate curricula that challenge the cognitive and creative potential of engineering students within a university-level engineering class. Prerequisite: CI 816.

**CI 817. Language to Literacy: Meeting the Needs of Students with Disabilities (2).**
Provides content relevant to language development and disorders that impacts the educational achievement of students with special education classifications. This includes oral and written communication, emergent literacy and reading. Candidates learn how to apply educational interventions that are effective in meeting the language and literacy needs of all students including strategies for exceptional students from English for Speakers of Other Languages (ESOL) backgrounds. Specifically, candidates learn appropriate instructional strategies for teaching oral language, reading and written expression. An emphasis on the principles of information processing as they apply to effective
instructional procedures is stressed. Prerequisite: CI 749A. Corequisite: CI 817A.

CI 817A. Internship/Practicum: Language to Literacy (1).
Provides a supervised opportunity for students to evaluate and implement learning experiences, including application of educational interventions that are effective in meeting the language and literacy needs of students. In addition, candidates implement educational interventions that are effective in meeting the language and literacy needs of students as well as implementing appropriate strategies for teaching oral language, reading and written expression. Prerequisite: CI 749A. Corequisite: CI 817.

CI 818. Positive Behavior Supports for Students With Exceptionalities (3).
Develops knowledge and skills for conducting a functional behavior assessment along with a positive behavior support plan needed by classroom teachers to affect academic and social/emotional outcomes. Addresses connections of challenging behaviors to aspects of the learner's (a) environments, (b) cultural diversity, (c) developmental and academic skills, and (d) physiological needs along with an awareness of disability harassment, bullying and the social/emotional needs of the exceptional child. Prerequisite: 749A. Corequisite: CI 818A.

CI 818A. Internship/Practicum: Positive Behavior Supports (1).
Provides a supervised opportunity for candidates to evaluate and implement positive behavioral supports for students with challenging behaviors, including functional assessment of problem behavior, design and implementation of behavior plans, and provision of ongoing positive behavior supports. Prerequisite: one of the following courses — adaptive, CI 749A; functional, CI 749F; gifted, CI 749G; and full admission to the special education program. Corequisite: CI 818.

CI 819. Nonsymbolic & Symbolic Communication (2).
Develops strategies and techniques for assessing, designing and delivering instruction in order to meet the unique communication needs of learners with severe and multiple disabilities. Prerequisite: CI 749F. Corequisite: CI 819A.

CI 819A. Internship/Practicum: Communication (1).
Provides a supervised opportunity for candidates to evaluate and implement nonverbal and verbal communication strategies for students with functional learning needs. Prerequisite: CI 749F. Corequisite: CI 819.

CI 820. Advanced Teaching Strategies for Students with Severe and Multiple Disabilities (2).
Develops strategies and techniques, including assistive technology, related to curriculum, instruction and planning of the learning environment within the functional curriculum. Imparts knowledge, skills and dispositions needed to meet the diverse cognitive, physical, social and emotional needs of students with severe and multiple disabilities. Prerequisites: CI 742, 749F, full admission into the special education-functional program. Corequisite: CI 820A.

CI 820A. Internship/Practicum: Low-Incidence Learning Needs (1).
Provides a supervised opportunity for candidates to evaluate and implement learning experiences, including curriculum planning, environmental arrangements, instructional delivery, and use of assistive technology, that develops cognitive, physical, social and emotional needs of students with severe and multiple disabilities. Prerequisites: CI 742, 749F, full admission into the special education — functional program. Corequisite: CI 820.

CI 821. Classroom Reading Practicum (3).
Students participate in a practicum experience, delivering developmental and corrective reading instruction in a classroom setting. Prerequisite: CI 705.

CI 822. Principles of Nondiscriminatory Assessment for Students With Exceptionalities (2).
Applies standardized and informal evaluation techniques including critical evaluation of standardized tests, their appropriateness for special populations (including school-age individuals with exceptionalities and reading disabilities as well as young children and culturally and linguistically diverse learners), and alternative methods of assessment and intervention techniques based on diagnostic profiles. Historical, racial, gender and social disproportionalities issues within special education are also addressed. Prerequisite: CI 749A, 749F or 749G.

CI 824. Reading Internship I (2).
The first of a two-semester internship required by the state of Kansas to qualify for endorsement as a professionally licensed reading specialist. The intern has a university supervisor and an employing school district-appointed mentor who is a licensed reading specialist. A minimum of two visits from both the university supervisor and mentor as well as additional communications occur. Provides the candidate with experience as a reading specialist. Candidates are expected to provide evidence of meeting all licensure standards. Prerequisites: CI 736, Kansas conditional endorsement as a reading specialist.

CI 825. Reading Internship II (2).
The second of a two-semester internship required by the state of Kansas to qualify for endorsement as a professionally licensed reading specialist. The intern has a university supervisor and an employing school district-appointed mentor who is a licensed reading specialist. A minimum of two visits from both the university supervisor and mentor as well as additional communications occur. Provides the candidate with experience as a reading specialist. Candidates are expected to provide evidence of meeting all licensure standards. Prerequisite: CI 824.

CI 837. Collaborating and Refining Problem-Solving Skills (4).
This integrated class guides students in implementing school and classroom improvement practices that have documented success. Emphasizes collaboration skills in the identification, selection and development of approved school and professional development projects. Prerequisite: CI 804.

CI 843. Leadership and Sustained Professional Growth (4).
Emphasizes commitment to and application of professional leadership in curriculum and instruction and/or school improvement. Sustained exploration of topics from CI 731, 804, 837 expected. Prerequisite: CI 837.

CI 845. Curriculum Models & Practice (2).
Examines theories, development processes, evaluation procedures and current practices in curriculum. Emphasizes multiple conceptual frameworks for thinking about curriculum and reflective inquiry into the implications of those frameworks in today’s classrooms and schools. Prerequisite: admission to MAT program.

CI 847A. Practicum/Field Experience: ECU (1-10).
Provides supervised field experiences for candidates to evaluate and implement learning experiences, including curriculum planning, environmental arrangements, instructional delivery, and use of assistive technology that links to increased development in all domains. Experiences are assigned at three levels, infant-toddler, preschool and K-3. Prerequisites: CI 614, 617 and/or CI 703, and full admission into the special education/early childhood unified program.
CI 847B. Practicum: School Libraries (2-3).
Students pursue a professional experience in a school library media center under the cooperative supervision of an experienced practitioner in the field and a university supervisor. Prerequisite: CI 732.

CI 847T. Practicum/Field Experience in ECU: Infant/Toddler (3-4).
Candidates participate in practicum teaching opportunities located in an infant/toddler setting that includes young children both with and without special needs. Candidates work with a cooperating/mentor teacher(s), other professionals, and university supervisor to plan, implement, and assess services and supports for young children at this level. Course includes diversity content. Pre- or corequisite: CI 614.

CI 847KG. Practicum/Field Experience in ECU: K-3 (3-4).
Candidates participate in practicum teaching opportunities located in a K-3 setting that includes young children both with and without special needs. Candidates work with a cooperating/mentor teacher(s), other professionals, and university supervisor to plan, implement, and assess services and supports for young children at this level. Course includes diversity content. Pre- or corequisite: CI 703.

CI 847P. Practicum/Field Experience in ECU: Preschool (3-4).
Candidates participate in practicum teaching opportunities located in a preschool setting that includes young children both with and without special needs. Candidates work with a cooperating/mentor teacher(s), other professionals, and university supervisor to plan, implement, and assess services and supports for young children at this level. Course includes diversity content. Pre- or corequisite: CI 617.

CI 848. Analysis and Reflection (2).
In the transition to teaching or residency licensure program, this course introduces techniques for analyzing impact on student learning and effective reflection as well as requiring students to apply these techniques to specific learning environments. Transition to teaching and Middle Level Secondary prerequisites: CI 744, 769, and continued employment by a school district. Corequisite: CI 748.

In the transition to teaching or residency licensure program, this course introduces techniques of action research and requires students to apply these techniques to specific learning environments. Transition to teaching and MLS Residency prerequisites: CI 748, 848, and continued employment by a school district. Corequisite: CI 749 or 781. ECU Residency prerequisite: CI 603. Corequisite: CLES 801.

CI 855. Models and Practices of Curriculum and Instruction (3-6).
Examines theories behind, the development of, current practices and trends in, and evaluation and assessment procedures pertaining to curriculum and instruction. Emphasizes multiple conceptual frameworks for thinking about curriculum and instruction, and reflective inquiry into the implications of those frameworks in today's classrooms. Prerequisite: CI 706.

CI 856. Improvement of Instruction in Mathematics (3).
Students examine recent trends in subject matter content and teaching guides to improve understanding of meanings, vocabulary and mathematical concepts. Includes instructional methods and materials.

CI 860. Seminar in Research Problems (1-3).
Helps MA in teaching graduate students formulate an acceptable agenda for the development of a professional action research project or portfolio to satisfy the application requirements for the master's in teaching program. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Prerequisite: CLES 801.

CI 862. Evidence Based Inquiry: Capstone Project Proposal (1-2).
Students develop a research-based inquiry proposal as a process for increasing skills as evidence-based practitioners. A formal proposal is written to research evidence-based practices or other important knowledge bases relevant to learning and instruction. Prerequisites: CI 860 or 885 or all SPED core classes or instructor's consent.

CI 863. Evidence-Based Inquiry: Capstone Project (1-2).
Students complete and present a research-based inquiry report as a process for increasing skills as evidence-based practitioners. This formal report is presented to a preidentified audience describing the results of an inquiry into a knowledge basis relevant to the fields of learning and instruction. Prerequisite: CI 862.

CI 867. Interdisciplinary STEM Education: Exit Course (3).
Cultivates students' STEM content knowledge and pedagogical skills for implementing integrated STEM teaching by providing practical experiences in formal and informal STEM settings. Experiential and application-based course which allows students to demonstrate their ability to develop integrated STEM curriculum. Prerequisites: CI 764 and 3-4 courses of individualized pathway STEM courses listed in the certificate program catalog.

CI 868. School Library Media Internship II (2).
The second of a two-semester internship required by the state of Kansas to qualify for endorsement as a professionally licensed library media specialist. Provides the candidate with experience as a library media specialist. Candidates are expected to provide evidence for meeting all licensure standards required of library media specialists. Prerequisite: CI 757.

CI 871. Evidence-Based Inquiry Portfolio Proposal (1-2).
Special education degree candidates/students develop a research-based inquiry proposal as a process for increasing skills as evidence-based practitioners. A formal proposal is written in APA style for the investigation of research and other evidence-based practices that link to the validation of specific curricula, instruction/intervention strategies/methods, or other important knowledge bases that improve practices within the field of special education or related fields. Prerequisites: CI 851, 858 and one of the following—CLES 801, CESP 704 or CI 717.

CI 872. Evidence-Based Inquiry Portfolio Presentation (1-2).
Candidates in the degree program present/defend a research-based inquiry project that promotes knowledge and skills of being an evidence-based practitioner. A formal paper is written in APA style and a presentation is prepared and delivered to a preidentified audience describing the results of an investigation of research and other evidence-based practices that link to the validation of specific curricula, instructional and/or intervention strategies, or other important knowledge bases linked to the field of education, special education or related field. The second part of a required capstone project for the master's degree in special education. Prerequisite: CI 871.

CI 875. Master's Thesis (1-2).
Students complete the research proposal accepted by their thesis committee. Students work closely with their advisor and committee. Students receive credit for this course when their thesis has been completed and defended. Prerequisite: CI 860 or 885.

CI 876. Master's Thesis (1-2).
Students complete and orally defend their thesis. Students work closely with their adviser and committee. Students needing an additional semester to satisfy these requirements should enroll in one hour of CI 876. Students receive credit for courses(s) when their thesis has been
completed and defended. Prerequisites: CI 875, 884, 885 or instructor's consent.

**CI 880. Learning Theory and Curriculum Design (3).**
Focuses on cognitive science relative to how people learn and how instruction is designed to facilitate and optimize learning. Students explore different theoretical perspectives on learning, cognition and cognitive development. Using current learning theories and a range of tools, students come to understand effective curriculum design for a variety of settings. Prerequisite: graduate standing or departmental consent.

**CI 881. Instructional Theory (3).**
Fosters the art of teaching and provides students with knowledge and skills to bring instructional theory into practice in order to optimize learning in a variety of professional trainings as well as in multiple sociocultural and educational learning settings. Prerequisite: graduate standing or departmental consent.

**CI 884. Inquiry Into Instructional Practice: Part 1 (3).**
Introduces students to the procedures commonly used in research and data analysis. Conceptual, procedural and analysis issues from a wide variety of areas are covered, ranging from formal research techniques to approaches used by researchers involved in investigations in real-life settings. Includes critical analysis of selected published research in the student's professional area. Prerequisite: graduate standing or departmental consent.

**CI 885. Inquiry Into Instructional Practice: Part 2 (3).**
Provides students with the skills necessary to conduct research relevant to their professional practice. Includes elements of qualitative as well as quantitative data analysis. Students critically analyze data-based decision making and the potential implications of instructional practice. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship conflict, of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Prerequisite: CI 884.

**CI 890. Special Problems in Education (1-4).**
Directed reading and research under the supervision of a graduate instructor. Graduate students only.

**CI 893. Instructional Leadership: Professionalism and Collaboration (3).**
Focuses on the role of the instructional leader to facilitate the implementation and sustainability of change necessary to support individual and organizational learning. Candidates acquire the skills necessary to facilitate, nurture and maintain partnerships. Prerequisites: CI 880, 884, 885.

**CI 894. Advanced Topics in Early Childhood Special Education (1-4).**
Students participate in topical seminars in early intervention offered periodically to facilitate opportunities for the in-depth study of critical issues or topical research in the field of early childhood and/or early childhood special education. Repeatable for credit. Prerequisites: CI 603 and at least one methods class: CI 614, 617 or 703.

**CJ - Criminal Justice**
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**CJ 501. Integrity in Public Service (3).**
Cross-listed as PADM 501. Exposes students to basic principles of personal and professional integrity and how those principles apply to their daily lives as a members of the community and as employees of a government or social service agency. Employs a case study method, using cases and examples from a wide range of government and nonprofit agency experiences. Students become aware of the moral and ethical issues which may arise in their professional and personal lives, begin to develop critical thinking and analytical skills regarding ethical behavior, and become more personally and professionally responsible. Prerequisite: junior or senior level or instructor's permission.

**CJ 513. Violent Crime (3).**
General education advanced further study course. Examines the extent, causes and policy implications of violent crime. Begins with a review of the rates of violent crime in various parts of the U.S. Provides students with some direct experience of violence such as an emergency room observation period or a panel of victims of violence. Course also covers the theoretical approaches of violent crime as well as factors related to violence among strangers vs. families. Critical reviews of various policy responses to violence, including their likelihood to prevent or reduce violent crime are required.

**CJ 515. Sex Crimes (3).**
Examines and defines what are classified as criminal forms of sexual behavior and the unique challenges they present to the criminal justice system. Examines the extent and nature of sex crimes, sexual predator laws, sexual harassment and the victims of such crimes. Discusses the theoretical developments in the field.

**CJ 516. Profiling (3).**
Familiarizes students with the methods used to profile violent crimes, including homicide, rape, arson and burglary. Includes scope of the problem in each of these crimes, typical investigation sequence and the role of profiling up to the trial preparation stage.

**CJ 517. Homicide Investigation (3).**
Introduction to death investigations from an investigation-oriented perspective. Emphasis is given to crime scene investigations, mechanisms of injury and death and sex-related homicides.

**CJ 518. Criminal Justice & Crime in Film (3).**
General education advanced further study course. Presents films and associated popular cultural materials related to the criminal justice system and crime. The genre of the crime film has become an important component of contemporary culture. The course begins with basics of film criticism and provides students with instruction on elements of a film genre. American and European films are considered.

**CJ 520. Drug & Alcohol Issues in Criminal Justice (3).**
Overview of issues related to substance abuse in the criminal justice system. Covers the impact of drug and alcohol dependency in society, biological and psychological factors of drug and alcohol dependency, and various treatment modalities used in the criminal justice system for drug and alcohol dependent offenders.

**CJ 521. Forensic Social Work (3).**
Cross-listed as SCWK 521. Introduction to and overview of the field of forensic social work. Content focuses on the role of social workers in forensic arenas, and the issues related to recent practice trends, relevant theoretical frameworks, collaborative team roles, and multisystem interactions. Psychosocial and legal issues are explored, with particular focus on intersections with family and social services, education, child welfare, mental health, substance abuse, criminal justice, diversity and human rights. Prerequisite: 6 hours of social sciences.

**CJ 522. Domestic Violence (3).**
Cross-listed as WOMS 580J. SCWK 590. Deals with the roots of domestic violence embedded in family roles, legal systems, religious beliefs, and the psychology of women, children and men. Also covers the consequences and prevention of family abuse. Includes discussion of literature and films. Course includes diversity content.
CJ 530. Private Security (3).
Provides students with a fundamental understanding of the contemporary principles of security and crime prevention. Course materials and discussions explore fundamentals of physical security, security personnel and education, loss prevention, crime prevention and zones of protection.

CJ 541. Medical and Legal Aspects of Death Investigation (3).
Emphasizes the manner, cause and mechanism of death; physiological effects of trauma, postmortem changes, identification techniques, investigation of child deaths, and the components of a complete death investigation. Considers and analyzes the history, function and responsibilities of the coroner/medical examiner. Prerequisite: CJ 191.

CJ 551. Workshop (1-6).
Specialized instruction using variable formats in relevant criminal justice subjects. Repeatable for credit up to 6 hours.

*General education advanced further study course.* Introduction to theoretical issues in criminal justice. Primary emphasis is the etiology of criminal and delinquent activity and the response of the criminal justice system to such behavior. Discusses the significant contributions of outstanding criminologists, as well as elaborating the application of these perspectives to criminal justice agencies. Prerequisite: CJ 191.

CJ 598. Contemporary Issues in Criminal Justice (3).
A capstone course for criminal justice majors nearing the completion of the baccalaureate degree. Explores current criminal justice issues and integrates material learned in the criminal justice curriculum. Covers theories of crime and delinquency, origins and development of criminal law and procedure, functions and operations of criminal justice agencies in America, including the response to juvenile offenders; prevention of crime and delinquency, privatization in corrections and policing; the nature, meaning and purpose of criminal punishment; the nature and impact of criminal justice policy, and the relationship between criminal justice and human diversity. Prerequisites: CJ 191, 391, 392, 394, 407, 593, senior standing. For undergraduate criminal justice majors only.

CJ 600. Forensic Anthropology (3).
Cross-listed as ANTH 600. Encompasses the area of criminal investigation involving biological evidence: blood, hair, fingerprint, dentition and skeletal system. Covers procedures of collection, preservation, marking, transportation, referral, laboratory analysis, classification and identification emphasizing anthropological interpretation. Prerequisites: 15 hours of criminal justice courses including CJ 191, or junior, senior or graduate standing.

CJ 610. Correctional Counseling (3).
Analysis of the role of a correctional counselor. Emphasizes current practices in community-based and institutional correctional counseling. Discusses application of theories of counseling which are widely used in correctional settings, rehabilitative programs and special needs of offenders.

CJ 641. Forensic Psychiatry (3).
Analysis of the role of psychiatry in the criminal justice process. Introduces the student to concepts and procedures of forensic psychiatry. Prerequisites: 15 hours of criminal justice courses including CJ 191, or junior, senior or graduate standing.

CJ 643. Forensic Science (3).
An overview of the various sciences used in the forensic investigation of crime, including toxicology, drug identification, questionable documents, firearm and toolmark identification, trace evidence analysis, fingerprint identification, forensic pathology, forensic serology, forensic odontology and forensic anthropology. Prerequisites: 15 hours of criminal justice courses including CJ 191, or junior, senior or graduate standing.

CJ 651. Dispute Resolution (3).
Examines a range of topics including causation, typologies, communications, mediation, arbitration and other dispute resolution techniques. Includes criminal and victim mediation and both intergroup and interorganization relations and dispute resolution techniques. Analyzes case studies. Prerequisites: 15 hours of criminal justice courses including CJ 191, or junior, senior or graduate standing.

*General education advanced further study course.* Analyzes decision-making processes in juvenile justice and the content of juvenile law and Supreme Court decisions affecting juvenile justice, and selected problems in juvenile justice. Reviews the juvenile justice reform movement. Covers delinquency prevention and control, and ethical issues associated with juvenile justice. Prerequisite: CJ 191.

CJ 692. Community Policing (3).
Reviews the various models and strategies of community policing. Examines key concepts such as problem-oriented policing, crime prevention, community relations, empowering the community and the integration of these concepts into community policing. Prerequisites: 15 hours of criminal justice courses including CJ 191, or junior, senior or graduate standing.

CJ 781. Cooperative Education (1-5).
Provides a field placement that integrates theory with a planned and supervised professional experience designed to complement and enhance the student's academic program. Students work with a faculty member in the formulation and completion of an academic project related to the field experience. The cooperative education experience must be an integral part of the student's graduate program. Individualized programs must be formulated in consultation with, and approved by, the cooperative education coordinator. Open only to CJ graduate students. Repeatable for credit. No more than 6 hours may be counted toward a plan of study. Enrollment limited to 4 hours per semester. Graded Cr/NCr.

CJ 782. Workshop in Criminal Justice (3-6).
Prerequisites: CJ 191, instructor's consent.

CJ 783. Advanced Special Topics in Criminal Justice (1-4).
Detailed study of topics in criminal justice with particular emphasis established according to the expertise of the various instructors. Prerequisites: CJ 191, junior, senior or graduate standing.

CJ 783AK. Digital Investigations (3).
Cross-listed as CJ 381AK. Discusses how computers play a role in both crime and criminal investigations. Although digital investigation is usually thought to be associated with cybercrimes, class does not necessarily focus solely on cybercrimes. With today's technologies, all crimes could involve digital evidence and hence require digital investigation. Students learn about the methods that criminals may adopt as well as the methods that investigators may use. Some coursework requires more-than-minimum computer knowledge and operation of computer software. Students need to have a functional computer and access to the internet.

CJ 783AL. Criminal Brains, Criminal Minds (3).
Cross-listed as CJ 381AL. Explores the causes of criminal behavior holistically by employing genetics/biology, neuroscience, psychopathy, and development/life course criminology. The impact of pre/perinatal care, parental substance abuse, child maltreatment, and the exposure to violence on developing brains and its behavioral consequences is addressed. Additionally, the relationship between brain dysfunction and mental disorder in conjunction to the genesis of violence is examined.
CJ 783AN. Environmental Crime/Green Criminology (3).
Studies of crimes against the environment remain underrepresented in criminology. Course seeks to bring attention to this important area of criminology by introducing the scope and prevalence of environmental harms and crimes in the United States and abroad. Topics such conflict and climate change, exposure to toxins and correlated deviance, the distribution of environmental hazard sites relative to race, class, and ethnic groups, as well as environmental law and regulation are explored.

CJ 783AO. Crime & Transportation (3).
Explores the relationship between crime and a variety of forms of transportation, including public transport, paratransit, and private vehicles. Looks at crimes against passengers, transit employees, and the system itself, as well as some types of terrorism incidents involving transportation. Focuses primarily on transportation as the setting for these crime events, using an opportunity theory perspective, and on situational crime prevention strategies to address these crimes; however, the use of transportation to facilitate crime is also discussed. When looking at crime and fear of crime, the course examines the utility of adopting a “whole journey” approach.

CJ 783AP. Crime, Race & Social Class (3).
Introduces students to criminological, historical, and legal analyses of the American justice system, with special emphasis on: (1) racial and class relations in society (2) racial and class differences in crime and violence, and (3) racial and class disparities in the justice system. Draws on research to examine the social construction of racial and class identity, the causes of racial and class differences in offending, and the consequences of ethnicity and class identity in criminal case processing. A variety of specific topics are addressed, including theories of racial, class, and ethnic antagonism, racial, class, and ethnic differences in violence, racial/class disparities in punishment such as the death penalty, and correctional problems surrounding the overrepresentation of minorities and poor people in American prisons. Course goal is to provide a foundation for critically assessing the often controversial issues surrounding class, race, ethnicity, crime, and criminal justice in society.

CJ 783AQ. Victims & Victim Services (3).
Cross-listed as CJ 381AQ. Examines the nature of violent victimization as well as services and treatment options available for crime victims. Topics include stress and coping models for victims, crisis intervention, child abuse, intimate partner violence, sexual violence, homicide, elder abuse, and mass violence. As part of understanding the interface between victims and the criminal justice system, victimization patterns, victim-offender relationships, victim interaction with law enforcement, and the victim’s role in court are discussed.

CJ 783AR. Terrestrial 3D Laser Scanning/Mapping (3).
Cross-listed as CJ 381AR. Hands-on course designed to learn the basics of High Definition 3-Dimensional Scanning (HDS) to capture millions of data points. Students use time-of-flight scan equipment to capture data and state-of-the-art software to register (stitch) the data into a 3D coordinated system of point clouds and other related products used in many professions to include geographic information systems (GIS), civil infrastructure, crime scene and accident reconstruction, building information modeling (BIM), the documentation of large industrial complexes, heritage preservation, and the detailing of archaeological excavations. Basic understanding of Microsoft Windows operating system is needed.

CJ 783AT. Intelligence Lead Policing (3).
Cross-listed as CJ 381AT. Examines current initiatives, best practices, dynamics and national standards for Law Enforcement Intelligence. Approaches in relation to homeland security, tactical planning, investigative strategies and other concepts are discussed. Understanding and managing the information flow for basic analysis known as the Intelligence process.

CJ 783AU. Criminal Mind & Behavior (3).
Cross-listed as CJ 381AU. Designed to provide a foundational understanding of criminal behavior from a psychological perspective. Specifically, discusses the role of psychology in explaining criminal behavior and the nature of violent crime, as well as risk assessment with the help of case study and field practices. Also explores the potential impact of genetics, biology and developmental pathways on delinquency and criminality as these factors may offer new insight into the holistic examination of the etiology of violence.

CJ 796. Criminal Typologies (3).
Introduces an area of criminology that categorizes large amounts of information into mutually exclusive categories. Analyzes the various categories of crimes, the situations under which they are committed, the offenders who commit them and the victims of those offenses. Examines the offenses of homicide, rape/sexual assault, aggravated assault, robbery/armed robbery, burglary, auto theft/carjacking, prostitution, drugs, gambling, cybercrime, white collar crime/occupational crime, arson and hate crimes.

An overview of approaches to public policy analysis and program evaluation. Examines the roles of participants in public policy development, implementation and evaluation. Explores policy and program functions and their intended and unintended impacts. Examines methodologies for collection of data and their use in the assessment of programs and program impacts. Prerequisites: 15 hours of criminal justice courses including CJ 191, or junior, senior or graduate standing.

CJ 802. Quantitative Methods for Public Sector Professionals (3).
Cross-listed as AGE 802. Uses standard microcomputer statistical software and analysis to introduce statistics and quantitative analysis for organizational and policy decision making. Emphasizes the application of statistics and writing with quantitative evidence to real public sector policy questions. Assumes little or no background in statistics and software applications.

CJ 817. Crime in Popular Culture (3).
Analyses film as an expression of popular culture; focuses on films dealing with the subject of crime. Particular attention to portrayal of violence and the images of women. Discusses the images of police, correctional officers and other criminal justice professionals.

CJ 820. Terrorism and Modern Societies (3).
A broad overview of the many theoretical approaches to the study of terrorism. Studies recurring issues regarding the interpretation of various types of terrorism. Focuses not only on theoretical concerns, but also on policy debates and the substantive ramifications of current events. Exposes students to the range and complexity of both domestic and international terrorism and also to different approaches to the study of terrorism.

CJ 850. Workshop (1-6).
Specialized instruction using variable formats in relevant criminal justice subjects. Repeatable for credit up to 6 hours. Restricted to graduate students.

CJ 853. Crime Prevention through Environmental Design (3).
Examines the premises and concepts of Crime Prevention Through Environmental Design (CPTED), including access control, natural surveillance, territorial reinforcement and activity support. Emphasizes case studies and field research.
CJ 855. Seminar on Juvenile Justice (3).
An analysis of the criminal justice process as related to the youthful offender. Emphasizes functional components, such as training of corrections personnel, community coordination for delinquency prevention and control, police-school relations, and ethical, administrative and operational aspects of juvenile justice agencies.

CJ 861. Police Administration (3).
A comparative survey and analysis of administrative philosophy, procedures, organizations and functions of effective agency organization. Considers administrative skills related to operations and personnel.

CJ 873. Advanced Criminal Law (3).
Presents students with a greater understanding of the complex structure of penal codes in the United States. Traditional issues covered in a criminal law course, such as actus reus (the act requirement), mens rea (the mental element), and punishment philosophy are addressed. Challenges students to integrate these elements into a workable penal code that fits into the larger framework of the purposes that punishment serves.

CJ 874. Qualitative Methods (3).
Practical introduction to qualitative research methods and their applicability in the social sciences. Provides an overview of the theoretical and philosophical perspectives informing qualitative research. Methods (design, data collection, data analysis and reporting) used in qualitative research for criminal justice and criminology are examined and applied.

CJ 882. Individual Directed Study in Criminal Justice (1-6).
Faculty-directed readings and/or research in special areas of interest in the field of criminal justice. Prerequisite: consent of graduate coordinator and instructor.

Reviews and analyzes the functional and legal theories impacting the administration and operation of the judicial system. Examines actual practice as well as statutory and case law.

CJ 893. Seminar on the Application of Criminological Theory (3).
An in-depth analysis of the major theories of criminology and of their importance to the criminal justice process. Emphasizes the student's development of a consistent and valid frame of reference.

CJ 894. Proseminar in Criminal Justice (3).
Familiarizes students with critical issues facing the criminal justice system. Reviews issues which face law enforcement, the courts, corrections and the juvenile justice system, considering the integrity of the entire criminal justice system.

CJ 895. Seminar in Policing (3).
Familiarizes students with such law enforcement topics as the historical development of policing, the police role, occupational socialization and problems of police work.

CJ 896. Seminar in Corrections (3).
Focuses on the major issues and dilemmas facing modern corrections in America. Includes both institutional programs such as prisons and jails, as well as alternatives in community settings, such as diversion, probation, parole, halfway houses, work release centers and community corrections.

CJ 897. Advanced Research Methods (3).
Cross-listed as AGE 897. Advanced research course; studies the selection and formulation of research problems, research design, hypothesis generation, scale construction, sampling procedures, and data analysis and interpretation. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership.

Original research project under a faculty member's direction. Project requires a written report. Must be an individual effort, not a group project. Primarily for graduate students who wish to provide evidence of writing and research ability in order to pursue further graduate education. Prerequisite: graduate-level research methods class.

CJ 900. Thesis (1-6).
Prerequisite: consent of graduate adviser.

CLES - Counseling, Educational Leadership, Educational and School Psychology

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

CLES 511. Introduction to School Psychology (3).
Cross-listed as PSY 511. Introduces students to a career in school psychology. School psychologists work in schools to solve students' academic and behavioral problems through consultation, assessment and intervention. Course examines the roles and functions of school psychologists, the methods used to address students' psychoeducational needs, and the school and community systems within which they operate. Course includes diversity content.

CLES 512. Exploring Concepts and Careers in Educational Psychology (3).
Cross-listed as PSY 512. Explores the field of educational psychology and its application in different areas, such as teaching, learning, coaching, training, assessment and research. Introduces students to the wide variety of careers in educational psychology. Also introduces students to the practical application of educational psychology by considering topics such as cognition (problem solving, memory, decision making), behavioral learning principles, motivation, human development, curriculum development, assessment, basic research design, and the role of research. Course includes diversity content.

CLES 710BA. Badge: Mental Health Supervision (1).
Provides training in the supervision of mental health practitioners in the State of Kansas. Topics include: the roles and functions of the clinical supervisor; models of clinical supervision; mental health related professional development; methods and techniques in clinical supervision; supervisor relationship issues; cultural issues in clinical supervision; group supervision; legal and ethical issues in clinical supervision; and evaluation of supervisee competence and the supervision process. Course includes diversity content. For graduate students only. Graded Bg/NBg.

CLES 750. Workshops in Education (1-6).
Intensive study of topics related to education. Differing topics are denoted by a letter following the course number (i.e., 750A, 750C, etc.).

CLES 750AB. Clinical Foundations in Gender and Sexual Diversity (3).
Supports the student-clinician in building foundational competencies relative to diversities of sexuality and gender. Students work integratively to connect critical exploration of relevant theory and research with their impact and utility across a range of LGBTQ-centered clinical contexts. In order to facilitate the development of readily applicable skills, self-reflection, group discussion, role play, and direct engagement with community stakeholders are core learning components.
CLES 750B. Neurobiology of Play Therapy: How to Improve Our Practice (1-6).
Over the past two decades, research has clearly documented the vulnerability of the developing brain and the negative impact of social and emotional trauma on brain functioning. It is now apparent that traumatic and neglectful developmental experiences alter normal brain development in all parts of the brain depending on the nature of the maltreatment, developmental stage of the child, and the quality of the nurturing environment. As play therapists learn more about brain development, brain organization, and the impact of trauma they are better able to identify play therapy interventions likely to be effective treatment options. Class reviews basic brain development principles, the impact of social and emotional trauma on the developing brain, and treatment options consistent with the child's current brain functioning through the use of developmental, symptom, and functional history interviews designed to assist the play therapist in appropriate intervention strategies.

CLES 750D. Using Art to Integrate Social Emotional Learning (0.5).
Based on practice and research within the mental health field of art therapy, learn how art integration across academic subjects increases social emotional learning in the classroom with activities that school counselors and educators can adapt for a range of ages and a variety of academic, career and personal/social counseling goals. Workshop provides an introduction to the field of art therapy, its history, approaches and applications in meeting Kansas Social, Emotional, and Character Development Model Standards and Common Core. Participants experience how an expressive arts project can facilitate student empowerment through self-expression and a shared art experience can promote community building as well as useful tools to build integrated lesson plans for their classroom.

CLES 750E. Art Therapy in Schools: An Introduction (0.5).
This professional learning courses provides an introduction to the field of art therapy, its history, approaches and applications in working with children and adolescents. The expressive arts - visual arts, movement, drama, music and writing - offer countless ways to promote the academic, career and personal/social development of students, which are goals of a comprehensive school counseling program. This course is customized for educators and counselors, as well as education and counseling students who are interested in strategies to incorporate art therapy into their practice or classroom but is open to anyone seeking an introduction to the field of art therapy. Participants experience hands-on how the creative process of art making can be used for self-care and with students. Participants are introduced to program models in school districts in which school counselors and art therapists work together to address the needs of students with social, emotional, academic and/or behavioral challenges. Please wear casual clothes for art making.

CLES 750F. Understanding Students Who Have Experienced Trauma and Neglect (0.5).
Introduction to trauma. Includes different types of trauma and some general impacts of trauma. In addition, students learn about the Adverse Childhood Experience (ACE) study; understand how developmental trauma can impact students socially, emotionally and academically; understand some basic Neurosequential Model in Education (NME) concepts, including how the therapy can be a lens through which to view children who are victims of trauma. Students apply NME concepts in order to develop interventions and supports in the classroom.

CLES 750G. Go Alliance Module 1 — Building a College-Going Culture for All Students (0.5).
Developed for practicing professional school counselors and preservice school counselors, course includes four sessions: understanding the national workforce landscape and 21st century careers; cultural competency and equity; understanding, communicating, and advocating for the role of the school counselor in college and career planning; and creating a school-wide college-going culture. These sessions are designed for school counselors to develop an understanding of their role in developing a college-going mission for all students, particularly students in poverty or facing other barriers in postsecondary planning. Additionally the sessions help counselors develop approaches for communicating and working with high-poverty students and diverse populations to remove barriers to high aspirations and achievement.

CLES 750H. Go Alliance Module 2 — Building a College-Going Culture for High-Poverty Students (0.5).
Developed for practicing professional school counselors and preservice counselors, course includes four sessions that focus on engaging students in early career awareness and planning, using data to guide academic planning, transition of students from middle school to high school and then to college, and the importance of postsecondary choices and finding the right postsecondary fit. Participants are engaged in building knowledge and skills in each of these areas, and they engage in constructive discussions in a learning community with their colleagues during each session.

CLES 750I. Go Alliance Module 3 — College, Career and Academic Planning (0.5).
Developed for practicing professional school counselors and preservice counselors, course includes four sessions that focus on the middle grades, barriers middle school students face, developing early career awareness and planning, transitioning students from elementary grades to middle grades and from middle grades to high school, and engaging them academically. Participants are engaged in building knowledge and skills in each of these areas, and they participate in constructive discussions in a learning community with their colleagues during each session. Each participant completes a final project consisting of a module portfolio containing a completed barriers chart, a PowerPoint presentation, and an action plan.

CLES 750J. Go Alliance Module 4 — Financial Aid and College Applications (0.5).
Developed for practicing professional school counselors and preservice school counselors, course includes four sessions which address financial literacy, financial aid, completing the FAFSA and preparing college applications. Parents and students need assistance in navigating the complexities of financial aid and the college admission process. The school counselor, in collaboration with principals and teachers, can guide parents and students through these processes to increase student access to college and postsecondary training. This module focuses on the counselor’s role in counseling parents and students in accessing financial aid and successful preparation and application for college admission.

CLES 750L. Positive Psychology Counseling (3).
Discover how to assess client's character strengths to develop the client's full potential and make them a more positive individual. (Possible text: Positive Psychology Coaching, Biswas-Diener and Dean, 2007.)

CLES 750M. Mindfulness & Acceptance in Therapy (3).
Teach clients how to reboot their brains by using mindfulness and acceptance techniques with individuals, couples and families. (Possible text: Mindfulness and Acceptance in Couple and Family Therapy, Gehart, 2012.)

CLES 750N. Introduction to Educational Psychology (3).
Introduces students to the field of educational psychology and its application in different areas, such as teaching, learning, coaching, training, and assessment. Introduces students to the practical
application of educational psychology by considering topics such as the following: cognition (problem solving, memory, decision making), behavioral learning principles, motivation, human development, curriculum development, assessment, basic research design, and the role of research in educational psychology. While these topics are considered, the course also introduces students to careers in educational psychology; many educational psychologists work in K-12 schools, but many also work in higher education, health professions, program evaluation, instructional design (including online instructional design), industry, human resources, military settings, research, counseling, and sports — in any field requiring training, teaching and learning, motivation, assessment, or research.

CLES 750O. Introduction to School Psychology (3).
Introduces students to the opportunity of a career in school psychology. School psychologists work in schools to solve students' academic and behavioral problems through consultation, assessment, and intervention. Course examines the roles and functions of school psychologists, the methods they use to address students’ psychoeducational needs, and the school and community systems within which they operate.

CLES 750P. Counseling Children and Adolescents (3).
Prepares counselors to address the specific needs of children and adolescents, with emphasis on developmental needs, specific therapeutic interventions, and common emotional issues. Counseling techniques and treatment planning are included. Prerequisite: None.

CLES 750Q. Advanced Issues in Psychopathology (0.5).
Studies of crimes against the environment remain underrepresented in criminology. Seeks to bring attention to this important area of criminology by introducing the scope and prevalence of environmental harms and crimes in the United States and abroad. Topics such conflict and climate change, exposure to toxins and correlated deviance, the distribution of environmental hazard sites relative to race, class, and ethnic groups, as well as environmental law and regulation are explored.

CLES 750R. Advanced Issues in Psychopathology and the DSM (3).
Designed to assist students in further understanding the diagnoses in the DSM. Students distinguish among similar diagnoses and recognize how they manifest in clients in both community and inpatient settings. Students acquire skills in differential diagnosis and treatment planning, and recognize personality traits and learned behaviors which impact client outcomes. Designed to help students to understand mental health disorders through a variety of frameworks beyond the introductory level.

CLES 750S. Social Emotional Learning Across the K-12 Curriculum (3).
While moving towards becoming responsive schools staffed with responsive educators, educators must embrace and fully understand the Social and Emotional standards and look for opportunities to incorporate them into the curriculum in ways that are meaningful for students and seamless for educators. In this course, teachers and other educators explore and apply nonacademic standards to prepare students for success in the ever changing 21st century society.

CLES 750T. Understanding Students Living in Poverty (1).
Students living in poverty attend every school in Kansas. Understanding the dynamics of situational and generational poverty are key to relating with and adjusting approaches to serving the families of these students. This workshop explores key definitions surrounding the dynamics of poverty and ways to tailor programs to meet students and families where they are. Provides educators with a real-life simulation of poverty situations and gives them an opportunity to discuss their feelings as they navigate the academic life of a student living in poverty.

CLES 750U. KCA Mental Health Drive In (0.5).
Encompasses four content areas: (1) Enhancing emotion intelligence effective self care for mental health professionals includes definition of emotional intelligence (EI), increasing emotional intelligence and awareness, and providing operating instructions for optimal human psychological functioning. (2) Strategies for supporting compassionate classrooms and building staff resilience includes compassionate instruction and discipline in the classroom; building a framework for a compassionate curriculum, and fostering resilience to avoid burnout. (3) Making clinical diagnoses using the DSM 5 — assists counselors and other mental health workers to increase their knowledge of the diagnostic criteria in the DSM 5 and improve their skills in diagnosis and treatment planning. (4) Trauma based play therapy – introduce participants to trauma-informed play therapy TM, an evidence-based and neurodevelopmentally appropriate method for working with traumatized children. A final reflective paper is due one week following the course.

CLES 750V. Social Work in Sports (3).
Cross-listed as SCWK 611Q. Explores the role of social work practice in serving the holistic needs of an athlete while understanding their involvement in the culture of sport. Explores the vulnerabilities and resiliencies of individuals who participate in youth, secondary, collegiate and professional sports. Provides a foundation for professionals interested in social work practice in sporting environments and begins to prepare social workers to assist athletes at all levels and in various settings.

CLES 750W. What Counselors and Therapists Need to Know About Psychotropic Medications (1-3).
Surveys basic neuropharmacology, the effects of various psychotropic drugs, and the actions of drugs used to treat mental disorders. Examines the actions of specific drugs and their effects on behavior and their uses in biological psychiatry. Basic principles of neuropharmacology are covered.

CLES 750X. KASB BOLD Program (1-6).
Individuals in this session attend Kansas Association of School Board professional sessions as provided by the organization and complete non-degree graduate credit course requirements.

CLES 750Y. USA Seminars (1-6).
Individuals in this session attend USA professional sessions as provided by the organization and complete non-degree graduate credit course requirements.

CLES 750Z. KSDE Annual Conference (1-3).
Individuals in this session attend KSDE Annual Conference professional sessions as provided by the organization and complete non-degree graduate credit course requirements.

CLES 801. Introduction to Educational Research (3).
Includes (1) the nature of research methodologies, (2) the preparation of research reports, (3) critical reading of research, and (4) ethics and integrity in conducting and reporting research. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Prerequisite: graduate standing.

CLES 802. Theories of Human Development for Counseling Professionals (3).
Describes what developmental theories are, what they do, where they come from, how they work and how they are used to explain human nature. Uses theoretical assumptions and related research
to systematically evaluate developmental theories in terms of their scientific worthiness and their ability to address characteristics of human development. Focuses on those theories which helped shape the way we currently view human development as well as significant new perspectives which may shape the way we view it in the future. Course includes diversity content. Prerequisites: graduate standing, counseling program status, or instructor's consent.

CLES 805. Professional and Ethical Issues in Clinical Mental Health Counseling (3). Focuses on legal and ethical issues confronting community agency, mental health, and rehabilitation counselors. Students engage in dialog throughout the course and work in peer consultation teams to identify and resolve ethical dilemmas and adopt sound ethical and professional practices. Current topics and needs of special populations (e.g., multicultural issues, competence and malpractice, consultation and supervision) are also explored. Course includes diversity content.

CLES 806. Foundations of Clinical Mental Health Counseling (3). Designed for persons pursuing careers in mental health counseling. Topics addressed include the history of counseling, an analysis of the current status of the mental health delivery system, and a futuristic look at mental health services. Examines professional organizations, preparation standards, and credentials relevant to the practice of clinical mental health counseling; models and principles of clinical supervision; consultation; management of mental health services and programs, including areas such as administration, finance, managed care and accountability; and ethical and legal standards in clinical mental health counseling. The legal and societal bases of clinical mental health services are explored within a social justice framework. Course includes diversity content.

CLES 810. Research and Program Evaluation for Counselors (3). Focuses on introducing students to important concepts related to research, statistics and program evaluation for counselors. Designed to provide counseling students a foundation that supports the counseling practitioner model. Fulfills the university's professional and scholarly integrity requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, and ethical issues in data acquisition, management, sharing and ownership.

CLES 812. Counseling Student Athletes (3). Examines mental health issues that student athletes may encounter such as anxiety, depression, suicidality, eating, body image, substance abuse, and behavioral disorders. Develops effective strategies to address these issues. The impact of culture, gender, SES, sexual orientation, and disability status on student athletes' mental health is also explored. Course includes diversity content.

CLES 813. Student Athlete Identity Development (3). Explores the identity of student athletes including: what it means to be a student athlete; how multicultural factors influence student athlete development; how identity impacts career readiness; and the impact of exit from sport due to injury, retirement or deselection on an athlete's identity. Course includes diversity content.

CLES 860. Clinical Mental Health Counseling Practicum (3). Supervised clinical mental health counseling experience. A minimum of 100 hours of professional counseling service that includes a minimum of 40 hours of direct client contact experience in counseling, with the remainder of hours in indirect client service. Builds on the skills learned and practiced in CESP 824. Repeatable for credit. Prerequisites: CESP 824 within the last 12 months, CESP 803 and departmental consent. Prerequisites for school psychology students: CESP 824 within the last 12 months and departmental consent.

CLES 861. Behavioral, Social and Emotional Assessment (3). Focuses on basic concepts and methods of assessing behavioral, social and emotional functioning of children and adolescents. Students are introduced to varied theoretical approaches to understanding personality and resultant social-emotional functioning. Assessment methods studied include interview, observation, inventory instruments, behavior rating scales, and functional behavioral assessment. Includes supervised experience. Course includes diversity content. Prerequisites: one of the following courses: CLES 801, CLES 810, CESP 811, CESP 822, or CESP 854; and instructor's consent.

CLES 871. Foundations of Higher Education (3). Explores the basic structures, history and purposes of higher education. In addition to addressing the issues that students identify, the course explores the development of the different systems of higher education, the different missions and goals of colleges and universities, the multiple sectors of higher education, and the roles and responsibilities of different stakeholders. Special attention is paid to the historical development of different institutional types and the experiences and expectations of different institutional and system members.

CLES 872. Finance and Human Resources in Colleges and Universities (3). Provides a basic overview of administrative functions related to funding, allocation and management of human and fiscal resources in higher education. Current practices, issues and challenges related to finance and human resource management in college and university settings are explored. Emphasis is placed on identifying meaning and implications of practices, and applying learning to practical situations as found in the field.

CLES 873. College Student Development and the Campus Environment (3). Explores the history, meaning and implications of student development theories. Emphasizes typologies, person-environment, psycho-social and cognitive theories, and the diversity of student populations served by student affairs. Special focus on the application of theory and how it may provide a springboard for practice and further discovery.

CLES 874. Legal and Ethical Issues in Higher Education (3). Introduces students to the historical and contemporary legal issues affecting higher education in the United States. Designed to touch upon the multiple perspectives and various legal aspects of higher education, as well as to introduce a wide range of current issues. Intended for students in graduate programs emphasizing higher education as well as graduate students throughout the university interested in an introduction to the legal issues that have had an impact on the field of higher education.

CLES 875. Practicum in Higher Education (3). Designed to provide the student with an opportunity for observation and participation in a wide range of higher education leadership professional activities in an approved college setting, and as a means of integrating didactic experiences and information with actual experience under the supervision of qualified practitioners. Prerequisites: any two of CLES 871, 872, 873 or 874.

CLES 952A. Clinical Mental Health Counseling Internship I (3). Requires a total of 300 hours in the practice of clinical mental health counseling under clinical supervision. Of the 300 hours, a minimum of 120 hours must be direct counseling service. Students should consider selecting internship sites that offer opportunities to engage in both individual counseling and group work. Clinical settings must be approved and appropriate to the student's emphasis. The semester prior to enrollment, the student must complete the internship application process. Graded S/U. Prerequisites: admission to candidacy, CESP 803, 821, 824, 825 (or concurrent enrollment), and CLES 860.
CLES 952B. Clinical Mental Health Counseling Internship II (3).
Requires a total of 300 hours in the practice of clinical mental health counseling under clinical supervision. Of the 300 hours, a minimum of 120 hours must be direct counseling service. Students should consider selecting internship sites that offer opportunities to engage in both individual counseling and group work. Clinical settings must be approved and appropriate to the student’s emphasis. The semester prior to enrollment, the student must complete the internship application process. Graded S/U. Prerequisites: admission to candidacy and CLES 952A.

CLES 952C. Clinical Mental Health Counseling Internship (6).
Requires a total of 600 hours in the practice of clinical mental health counseling under clinical supervision. Of the 600 hours, a minimum of 240 hours must be direct counseling service. Students should consider selecting internship sites that offer opportunities to engage in both individual counseling and group work. Clinical settings must be approved and appropriate to the student’s emphasis. The semester prior to enrollment, the student must complete the internship application process. Graded S/U. Prerequisites: admission to candidacy, CESP 803, 821, 824, 825 (or concurrent enrollment), and CLES 860.

COMM - Communication
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

COMM 500. Advanced News and Feature Writing (3).
1 Classroom hour; 4 Lab hours. Focuses on journalistic techniques for reporting and writing the more complex and important types of news and feature stories. Students work in various forms of traditional and emerging journalism. Emphasizes creating comprehensive content by integrating print, broadcast, Web, social media and other delivery methods. Prerequisites: junior standing. COMM 301 with a C or better, and COMM 401.

COMM 502. Public Information Writing (3).
Uses basic journalistic skills of clear, precise writing to communicate effectively with various audiences. Students write press releases, speeches and popularizations of complex documents. Techniques learned are valuable in writing grant proposals, committee reports, pamphlets and journal articles. Prerequisite: COMM 301 with a C+ or better, or departmental consent.

COMM 506. Sound for Picture (3).
Focuses on the use of sound as a part of the storytelling process of film and video production. Examines the concepts and technology necessary for production. Prerequisite: COMM 406.

COMM 510. Editing For Print (3).
Selection, evaluation and preparation of copy and pictures for publication. Covers copy editing, rewriting, headline and caption writing. Prerequisites: junior standing and COMM 301 with a C or better.

COMM 511. Strategic Communication in Organizations (3).
Emphasizes the importance of effective communication in building meaningful relationships, grooming civic leadership and producing marketable employees. Human communication skills taught include: how to give effective presentations, facilitate small group discussions, handle conflict, manage diverse constituencies at various levels: organizational, interpersonal, small group and public; and contemporary topics and issues. Prerequisite: COMM 130 or 190, or instructor's consent.

COMM 512. Principles of Video Production (3).
Examines the concepts and technology necessary for effective production of video communication. Topics include camera operation, video editing and the role of light, sound and sequencing in video production. Prerequisite: COMM 306.

COMM 525. Advertising Copywriting (3).
Detailed practice at writing various kinds of advertising copy, including print and broadcast forms. Emphasizes terse, precise writing that evokes response sought by advertiser. Prerequisites: COMM 301, 324 with a C or better or departmental consent.

COMM 526. Media Buying & Selling (3).
Principles, methods and strategies of buying and selling media for advertising, including study of reach and frequency of the various mass media and specialized media, budgeting, research, rates, market share and other tools of current buying and selling strategies. Prerequisite: COMM 324 or instructor's consent.

COMM 535. Communication Analysis and Criticism (3).
General education advanced further study course. Introduces the methods used for the analysis and critique of various linguistic, pictorial and aural elements of communication to become more discerning consumers of the various forms of public and mass-mediated messages. Analysis includes print advertisements, radio and television messages, newspaper features and public speeches. Prerequisites: junior standing and COMM 301 with a C- or better or instructor's consent.

COMM 550. Opinion Writing (3).
Studies editorial judgment, including practice in writing print, broadcast and electronic opinion pieces, and examining traditional and new technology research materials available to opinion writers. Prerequisites: COMM 301 with a C or better, junior standing.

COMM 555. News and Information Design (3).
Examines contemporary theories of publication layout and the visual presentation of quantitative information. Students investigate methods for combining type, graphics and photographs to convey information and tell stories. Prerequisites: COMM 301, 305.

COMM 570. Magazine Product (3).
Magazine production, including the choosing of subjects, approaches and illustrations; the shooting and editing of photographic stories; layout; the handling of production and management concerns. Prerequisites: COMM 301 and 510, or departmental consent.

COMM 571. Feature Writing (3).
Writing features for newspapers and magazines. Nonfiction topics may include personal experience essays, consumer pieces, travel articles and personality profiles. Prerequisites: COMM 301 with a C or better, junior standing.

COMM 581. Communication Practicum (1-3).
Application of theory, principles and practices to professional settings where students work under instructor supervision to continue their professional preparation in various areas of media and communication. Prerequisites: COMM 301 and instructor's consent.

COMM 604. Video Storytelling (3).
Application of video equipment and techniques for field productions. Execution of visual and audio expression in relation to effective video productions in a field setting. Prerequisite: COMM 512.

COMM 609. Interactive Media Production (3).
Investigation and application of production techniques for educational and instructional broadcasting, emphasizing television. Prerequisite: COMM 304.
COMM 612. Scholastic Journalism Instructional Strategies (3).
Assists those who are preparing to advise and teachers who currently supervise a student newspaper or yearbook. Emphasizes techniques for teaching various forms of writing and design, duties relating to production and finance of school publications, and methods to help students become better communicators. Prerequisite: COMM 301 with a C or better, or instructor's consent.

COMM 622. Studio B: Live Television News (3).
Reporting and writing about events in the university and community. Story assignment and preparation under the instructor's guidance; story broadcast over WSU Cable Channel 13. May be repeated for credit with adviser's consent. Prerequisite: COMM 422 or instructor's consent.

COMM 626. Integrated Marketing Communications Campaigns (3).
Instruction and practice in planning and developing integrated advertising and public relations campaigns. Teaches students to perform a situation analysis, identify objectives, develop strategies and tactics, and write a plans book, as well as produce advertising and public relations campaign materials. Prerequisite: COMM 502 or 525, or instructor's consent.

COMM 630. Communication Law and Responsibility (3).
Emphasizes both oral and written aspects of communication law and responsibility. Addresses general functions of the law including the right to communicate, broadcast law and law of the press. Includes discussion of First Amendment rights, libel, privacy, copyright, advertising, obscenity, pornography and corporate communication concerns. Prerequisite: COMM 301 with a C- or better or instructor's consent.

COMM 631. Historical and Theoretical Issues in Communication (3).
General education advanced further study course. Examines the development of various issues in communication in historical context. Emphasizes different humanistic and scientific theories of communication and the historical development of mediated communication. Uses selected theories to generate critiques of specific communication events. Prerequisites: junior standing and COMM 130 or 190, or instructor's consent.

COMM 633. Senior Honors Project (3).
For undergraduates seeking departmental honors in communication. An individual written and oral project, including a review of literature, methodology and critical analysis on a communication topic approved by the instructor. Prerequisites: senior standing; minimum GPA of 3.500; COMM 430, 535, 630, 631; departmental consent.

COMM 636. Advanced Public Speaking (3).
General education advanced further study course. Skills development in a variety of advanced presentational methods, including speaking from a TelePrompter, using PowerPoint technology, spokesperson/press conference speaking, conducting a training session, formal manuscript speaking, after dinner speaking and writing a speech for another person. Prerequisite: COMM 325.

COMM 640. Issues in Corporate Communication (3).
Examines how corporations craft messages that are persuasive to their various publics. Special attention to how companies use communication strategies to cope with situations that threaten their reputations.

COMM 650. Communication Training and Development (3).
An examination of communication concepts, processes, technologies and strategies related to training and development. Includes the application of these elements to formal instruction across disciplines and at various educational levels as well as in most professional training settings.

COMM 660. Seminar in Communication (1-3).
Special seminars dealing with current problems, issues or interests in various areas of communication. Repeatable for credit in different topics only.

COMM 660AI. Advertising Copy Writing for Professionals (3).
This advanced, online copy writing class is an exploration course designed for returning professionals, traditional graduate students and undergraduate seniors interested in copy writing. The class focuses on developing creativity as a strategic approach to ad copy writing, as well as honing existing writing skills.

COMM 660AL. Real News, Fake News: Literacy for the Information Age (3).
In today's media-saturated world, in an era many refer to as “post-truth,” much of what we see, hear and read is FAKE news. This advanced-level course probes the background for this development, and provides students with methods and tools to understand and critique this phenomenon.

COMM 660AM. Autoethnography (3).
Provides a comprehensive study and application of autoethnography as a qualitative research method. Autoethnography explores through various media the dynamic relationships among method, theory and personal narratives.

COMM 660AN. Race, Rhetoric and Media (3).
Examines the role of rhetoric and media in the public life of race and racism. Explores how race is constituted through symbolic practices, how race is negotiated through the use of media technologies, and how rhetoric and media have been used to both perpetuate and challenge racism.

COMM 660AO. Communication Case Studies Methods (3).
Cross-listed as COMM 860AO. Examines the creation of communication strategies and application of communication techniques in industry and society through case studies. Students learn how to analyze and create case studies as a qualitative research method.

COMM 660AP. Storytelling (3).
Cross-listed as COMM 860AP. Practice in developing a plot starting with a strong main character acting on a wish and confronting obstacles. Practice, too, in organizing that character’s conflicts into escalating action, and in knocking out the habit of “telling,” and doing more “showing” instead.

COMM 660AQ. Student Media Production (3).
Cross-listed as COMM 860AQ. Students learn the roles and responsibilities of producing independent student media.

COMM 660AR. Live Sports Production (3).
Cross-listed as COMM 860AR. Students learn the roles, responsibilities and techniques of producing live sporting events. Topics also include equipment, graphics, replay and technical direction.

COMM 661. Directing Forensics Program (3).
A study of the methods and procedures in coaching and directing the high school and collegiate forensic programs (debate and individual events). The future teacher is made aware of the literature and professional organizations in the field.

COMM 662. Seminar in Communication (1-3).
Special seminars dealing with current problems, issues or interests in various areas of communication. Repeatable for credit in different topics only.

COMM 662T. IMC Practicum (3).
This is an applied skills-based course that functions as a student-run advertising and public relations agency. Students design, write, edit, photograph, video record and produce client work across all platforms,
COMM 803. Empirical/Quantitative Research Methodology in Communication (3).
An introduction to empirical research methods in communication. Emphasizes both experimental and nonexperimental research, particularly those forms of research common to communication studies. Studies research design, methods and reporting techniques. Prerequisite: COMM 801.

COMM 812. Contemporary Theories of Communication (3).
Studies selected conceptual models useful in the academic study of human communication, including theories involving such contexts as interpersonal communication, public communication and mass communication.

COMM 820. Investigation & Conference (1-3).
Cross-listed as THEA 820. Directed research and experimentation for graduate students in some phase of (a) speech communication, (b) electronic media, or (c) speech education. Repeatable for credit up to a total of 6 hours.

COMM 832. Methods in Communication History (3).
COMM 832. Methods in Communication History (3). Introduction to the historical methodologies used by communication historians. Emphasizes major works of past and current communication historians and the methodological and analytical tools used in such scholarship. Prerequisite: COMM 801.

COMM 850. Effectively Instructing and Managing the Basic Communication Course (1).
Instruction on effective oral communication teaching methods and on effectively managing the basic communication course. Course includes diversity content. Repeatable for a maximum of 4 credit hours. Prerequisite: departmental consent.

COMM 860. Seminar In Communication (1-3).
Special seminars dealing with current problems, issues or interests in various areas of communication. Repeatable for credit in different topics only.

COMM 860AL. Advanced Copy Writing for Professionals (3).
This graduate-level, online copy writing class is an exploration course designed for returning professionals, traditional graduate students and undergraduate seniors interested in copy writing. The class focuses on developing creativity as a strategic approach to ad copy writing, as well as honing existing writing skills.

COMM 860AL. Real News, Fake News: Literacy for the Information Age (3).
In today’s media-saturated world, in an era many refer to as “post-truth,” much of what we see, hear and read is FAKE news. This advanced-level course probes the background of this development and provides students with methods and tools to understand and critique this phenomenon.

COMM 860AM. Autoethnography (3).
Provides a comprehensive study and application of autoethnography as a qualitative research method. Autoethnography explores through various media the dynamic relationships among method, theory and personal narratives.

COMM 860AN. Race, Rhetoric and Media (3).
Examines the role of rhetoric and media in the public life of race and racism. Explores how race is constituted through symbolic practices, how race is negotiated through the use of media technologies, and how rhetoric and media have been used to both perpetuate and challenge racism.

COMM 860AO. Comm Case Studies Methods (3).
Cross-listed as COMM 660AO. Examines the creation of communication strategies and application of communication techniques
in industry and society through case studies. Students learn how to analyze and create case studies as a qualitative research method.

**COMM 860AP. Storytelling (3).**
Cross-listed as COMM 660AP. Practice in developing a plot starting with a strong main character acting on a wish and confronting obstacles. Practice, too, in organizing that character’s conflicts into escalating action, and in knocking out the habit of “telling,” and doing more “showing” instead.

**COMM 860AQ. Student Media Production (3).**
Cross-listed as COMM 660AQ. Students learn the roles and responsibilities of producing independent student media.

**COMM 860AR. Live Sports Production (3).**
Cross-listed as COMM 660AR. Students learn the roles, responsibilities and techniques of producing live sporting events. Topics also include equipment, graphics, replay and technical direction.

**COMM 865. Organizational Communication (3).**
Cross-listed as MGMT 865. An analysis of communication models emphasizing their applications to communication problems in organizations. Explores social psychological processes underlying persuasion in interpersonal relations and through mass media. Critically analyzes communication systems and techniques within formal organizations.

**COMM 870. Directed Study (1-3).**
Individual study or projects. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

**COMM 875. Thesis (1-3).**
Prerequisite: departmental consent.

**COMM 876. Thesis (1-3).**
Prerequisite: departmental consent.

---

**CS - Computer Science**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**CS 510. Programming Language Concepts (3).**
Theoretical concepts in the design and use of programming languages. Formal syntax, including Backus Normal Form (BNF), Extended Backus-Naur Form (EBNF), and syntax diagrams. Semantics, including declaration, allocation and evaluation, symbol table and runtime environment; data types and type checking, procedure activation and parameter passing, modules and abstract data types. Prerequisites: CS 311, MATH 322.

**CS 540. Operating Systems (3).**
Fundamental principles of modern operating systems. CPU management including processes, threads, scheduling, synchronization, resource allocation and deadlocks. Memory management including paging and virtual memory. Storage management and file systems. Prerequisites: CS 238, 311.

**CS 560. Design and Analysis of Algorithms (3).**
Design of various algorithms including several sorting algorithms. Analysis of their space and time complexities. Data structures include heaps, hash tables and binary search trees. Prerequisites: CS 322, 400; STAT 460 or IME 254.

**CS 594. Microprocessor-Based System Design (4).**
3 Classroom hours; 2 Lab hours. Presents knowledge and skills required to design and program microprocessor-based systems. Introduces vendor-supplied special-purpose chips such as interrupt controllers and programmable input/output devices. Laboratory activities give hands-on experience. Prerequisites: CS 238, 394.

**CS 644. Advanced Unix Programming (3).**
Improves skills in C programming under the Unix environment. Covers file I/O, both buffered and unbuffered, working with the Unix file system, concurrent programming with multiple processes and process control. Also includes the use of signals and concepts of interprocess communication with pipes and FIFOs. Students must have prior knowledge of C language and its use in structures and pointers. Prerequisite: CS 540.

**CS 655. Information Delivery on the Internet (3).**
Explores the capabilities of providing information on the World Wide Web. Information is typically provided through some sort of website that incorporates static text and the dynamic capabilities of the Web. Learn how to create an interactive website through the use of CGI and Java programming and how to interconnect a website to databases and generate images on the fly. Java portion covers a wide range of Java language and the Applet interface and utilities. Prerequisite: CS 300.

**CS 665. Introduction to Database Systems (3).**
Fundamental aspects of relational database systems, conceptual database design and entity-relationship modeling; the relational data model and its foundations, relational languages and SQL, functional dependencies and logical database design; views, constraints and triggers. Course includes a group project involving the design and implementation of a relational database and embedded SQL programming. Prerequisites: CS 311, MATH 322.

**CS 697. Selected Topics (1-3).**
1-3 Classroom hours; 0-2 Lab hours. Selected topics of current interest. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

**CS 697AG. Introduction to Intelligent Robotics (3).**
The study of intelligent robotics allows robots to gather information from surrounding environments and take actions autonomously. This course will introduce the fundamental principles and methods of manipulation, navigation and perception for intelligent robotics. Topics covered include geometry transformations, kinematics, dynamics, localization, navigation, mapping, motion planning, intelligent processing, smart sensing, decision making, and robotic intelligence. The students will explore the robot concepts and algorithms, such as dexterous manipulation, simultaneous localization and mapping (SLAM), and autonomy, while working with Nao humanoid robots and Sawyer collaborative robots. Prerequisites: CS 300, MATH 511, IME 254.

**CS 697AI. Static Program Analysis (3).**
Graduate and senior undergraduate level, project-based class in programming languages implementation. Studies techniques and algorithms that can be used to understand programs. Discusses classical and recent research papers during class meetings. Looks into applications of these techniques to detect bugs and security vulnerabilities in Android apps. Students finish a static analysis project and submit a short paper. Prerequisite: CS 300.

**CS 697AJ. Computer & Network Security (3).**
First course on computer and network security. Introduces security design principles, cryptography, cyber operations, risk analysis, vulnerability models, as well as ethical and legal issues. Students apply basic computer and network defense strategies using software tools. Prerequisite: CS 464.

**CS 697AN. Hardware-Based Computer Security (3).**
Intended for seniors and graduate students who want to study and explore the role of hardware in improving computer security.
Topics covered may include (1) elements of computer security, (2) secure coprocessor, (3) secure bootstrap loading, (4) secure memory management, (5) hardware-based authentication, (6) hardware-based virus detection, (7) hardware as a cybersecurity solution, (8) security engineering, (9) managing the development of secure systems, and (10) system evaluation and assurance. Prerequisites: CS 394 and a desire to learn more about both computer architecture and security.

CS 697AO. Computational Study of Nanomaterials (3).
Introduces computational approaches for analyzing nanomaterials to undergraduate and graduate students. Lectures focus on fundamentals of nanomaterials, characterizations of nanoparticles, parallel computing, and computer-based simulation of nanomaterials. Laboratory assignments provide hands-on real-life experiences. Special attention is given to team-based project activities. Prerequisites: CHEM 211, and either CS 211 or ME 325.

CS 715. Compiler Construction (3).
First course compiler for students with a good background in programming languages and sufficient programming experience. Covers compiler design, lexical analysis, parsing techniques, symbol tables, scope analysis, type checking and conversion; run-time organization, code generation and optimization. Project-oriented course involves implementation of a full compiler for a simplified but nontrivial procedural language. Prerequisites: CS 238, 510.

CS 720. Theoretical Foundations of Computer Science (3).
Provides an advanced level introduction to the theoretical bases of computer science. Computer science theory includes the various models of finite state machines, both deterministic and nondeterministic, and concepts of decidability, computability and formal language theory. Prerequisite: CS 322.

CS 721. Advanced Algorithms and Analysis (3).
Topics include height-balanced trees, graph algorithms, greedy algorithms, dynamic programming, hard problems and approximation algorithms. Prerequisite: CS 560.

Introductory class on applying various mathematical tools to the field of computer networks and related areas. Divided into three phases: phase one covers the fundamentals of probability, statistics and linear algebra required for understanding the core topics to follow. Phase two covers the core topics of optimization and queuing theory. Phase three briefly covers the advanced topics of game theory and information theory. The depth of coverage is sufficient to allow students to read and understand research papers in computer networking and related areas that use these standard techniques. Ideas are taught through intuition, mathematically correct formalization and detailed numerical examples. Prerequisite: MATH 243. Corequisite: CS 464.

CS 736. Data Communication Networks (3).
Presents a quantitative performance evaluation of telecommunication networks and systems. Includes fundamental digital communications system review; packet communications, queuing theory, OSI, s.25 and SNA layered architectures, stop-and-wait protocol, go-back-N protocol, and high-level data link layer; network layer flow and congestion control, routing, polling and random access, local area networks (LAN); integrated services digital networks (ISDN), and broadband networks. Prerequisite: CS 464.

CS 737. Wireless Networking (3).
Covers topics ranging from physical layer to application layer in the wireless and mobile networking fields. Explores physical layer issues of wireless communications, wireless cellular telephony, ad-hoc networks, mobile IP and multicast, wireless LAN (IEEE 802.11), security, Bluetooth and WAP, etc. Imparts general knowledge about wireless communication technologies and ongoing research activities. Prerequisite: CS 736.

CS 738. Embedded Systems Programming (3).
Studies the requirements and design of embedded software systems. Application of the C programming language in the implementation of embedded systems emphasizing real-time operating systems, interfacing to assembly and high-level languages, control of external devices, task control and interrupt processing. Prerequisite: CS 594.

CS 750. Workshop in Computer Science (1-5).
Short-term courses with special focus on introducing computer science concepts. Repeatable for credit. Prerequisite: departmental consent.

CS 764. Routing and Switching I (4).
3 Classroom hours; 2 Lab hours. An introductory course which studies different hardware technologies, like Ethernet and token ring. Discusses VLSM. Introduces different routing protocols. Includes hands-on experience in the CS department's routing and switching lab. Prerequisite: CS 464 or 736.

CS 766. Information Assurance and Security (3).
Provides basic concepts in information assurance and security including encryption, digital certificates, security in networks, operating systems and databases. Topics in intrusion detection, legal and ethical issues in security administration are also discussed. Prerequisite: CS 464 or 736 or 764.

CS 767. Foundations of Network Security (3).
Presents fundamental concepts in cryptography and network security, and discusses applications and protocols for providing confidentiality, authentication, integrity, and availability in networking services and systems. Includes review of symmetric-key cryptographic schemes such as DES and AES, public-key cryptographic schemes such as RSA and Diffie-Hellman key exchange protocol, cryptographic hash functions such as SHA, message authentication codes such as HMAC digital signature schemes such as ElGamal and DSS, kerberos and user authentication protocols, transport layer security and TLS, IP layer security and IPSec, and wireless security principles. CS 766 is highly preferred, but not required. Prerequisite: CS 464 or 736.

CS 771. Artificial Intelligence (3).
Introduction to some of the fundamental concepts and techniques underlying artificial intelligence. Topics covered include state spaces, heuristic search, game playing, knowledge representation, and resolution in propositional and first-order predicate logic. Prerequisite: CS 560.

CS 780. Advanced Software Engineering (3).
Discusses advanced topics in software development, maintenance and evolution. Topics include software design patterns, architecture and architectural styles, frameworks, refactorings, and static and dynamic analyses. Includes a group project. Prerequisite: CS 480.

CS 781. Cooperative Education (1-3).
Short-term courses with special focus on introducing computer science topics to undergraduate and graduate students. Lectures focus on fundamentals of computer science and software engineering, (9) managing the development of secure systems, and (10) system evaluation and assurance. Prerequisite: CS 464 or 736.

CS 794. Multicore Architectures and Programming (3).
3 Classroom hours. Introduces state-of-the-art concepts and techniques to design and program modern computer systems. Particular attention is given to the following areas: multicore architecture, parallel programming and advanced research. Labs give hands-on experience. Prerequisites: CS 211, 394.
CS 797. Special Topics in Computer Science (1-4).
New or special courses presented on sufficient demand. Repeatable for credit. Prerequisite: departmental consent.

CS 798. Individual Projects (1-3).
Allows beginning graduate students and mature undergraduate students to pursue individual projects of current interest in computer science. Graded S/U. Prerequisite: departmental consent.

CS 805. Compiler Theory (3).

CS 810. Programming Languages: Advanced Concepts (3).

CS 834. Advanced Routing and Switching (3).
Advanced course which provides an introduction to the Border Gateway Protocol (BGP), the main Internet routing protocol, and mobile all-IP-networks. Significant research topics regarding BGP and mobile IP networks are covered. Prerequisite: CS 764.

CS 835. Ad Hoc and Sensor Networks (3).
Teaches the basic techniques, particularly algorithms and protocols used in sensor networks. Exposes students to various sensor network applications and the fundamental issues in designing and analyzing sensor networks. Provides students with a perspective on the active research areas in wireless ad hoc and sensor networks and enhances their potential to do research in this area. Focuses mainly on data intensive sensor networks. Prerequisite: CS 560.

CS 836. Computer Performance Analysis (3).
Teaches the basic concepts in stochastic modeling of systems for analysis and for simulation. Analytic modeling techniques include discrete- and continuous-time Markov chains, queuing theory, and queuing networks, as well as approximate methods based on these techniques. Operational analysis presents a nonstochastic, measurement-based perspective to the analysis of computer systems. Also emphasizes discrete-event simulation, a widely-used technique in many areas of performance evaluation. Performance metrics taken from stochastic simulations are phantom variables, and are subject to the same types of statistical analysis as data obtained from real systems. Prerequisite: CS 560.

CS 837. Energy Intelligent Computing and Communications (3).
3 Classroom hours; 1 Lab hour. Introduces various mobile computing scenarios, explores fundamental causes of energy wastage and addresses means to be more efficient. Looks at how computing can, in general, be carried out in an energy-intelligent manner and be applied to the broader area of cyber-physical systems. Topics covered include: energy as an issue, its relevance to computing and communications, battery technology and mobile device constraints, computing and its role toward achieving broader goals of environmental sustainability. Application areas targeted include mobile computing, cloud computing and smart grids. Course involves team-based research projects targeting these application areas. Prerequisite: CS 464 or 560.

A study of hardware and software features of online multiple computer systems emphasizing network design and telecommunication. Includes distributed databases, interprocessor communication and centralization versus distribution. Studies the use of microcomputers in representative configurations. Prerequisites: CS 540, 736.

CS 862. Advanced Database Systems (3).
Covers recent developments and advances in database technology. Designed for students who have had a first database course and have a good background in the related computer science disciplines. Possible topics include: extended relational database management systems, object-oriented database management systems, deductive databases, database type systems and database programming language, persistent languages and systems, distributed databases. Prerequisite: CS 665.

Presents state-of-the-art techniques for representing and manipulating information in multimedia databases. Emphasizes image, audio, video and document data. Covers theoretical principles underlying storage, retrieval, querying and delivery of such data. Requires good prior knowledge of relational and/or object-oriented databases. Prerequisite: CS 665.

CS 864. Database Query Processing and Optimization (3).
Covers concepts and techniques for efficient and accurate processing of queries for a variety of data forms, such as centralized and distributed relational databases as well as object-oriented, fuzzy and multimedia databases. Prerequisites: CS 560, 665.

CS 865. Principles of DBMS Implementation (3).
Deals with two of the three main components of a relational Database Management System (DBMS): storage management, and query processing. The third component, transaction management, is covered as time permits. Prerequisites: CS 560, 665.

CS 866. XML Databases (3).
Deals with modeling semi-structured Web databases as XML databases, their schema (DTD and XML schema), integrity constraints, and their query languages (XPath, XSLT and XQuery). Prerequisite: CS 665.

CS 868. Database Transaction Management (3).
Topics covered include logging and recovery from system failures, concurrency control, serial and serializable schedules, schedulers, and deadlock detection and recovery. Prerequisite: CS 665.

CS 891. Project (1-3).
An intensive project involving the analysis and solution of a significant practical problem which must be supervised by a CS graduate faculty advisor; it can be job-related. Students must write a report on the project and pass an oral final examination by an ad hoc faculty committee headed by the project advisor. Graded S/U. Prerequisite: departmental consent.

CS 892. Thesis (1-6).
May be repeated for up to 6 hours of credit. Graded S/U. Prerequisite: departmental consent.

CS 893. Individual Reading (1-5).
Graded S/U. Prerequisite: departmental consent.

CS 898. Special Topics (2-3).
1-3 Classroom hours; 0-2 Lab hours. Topics of current interest to advanced students of computer science. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

CS 898AG. Software Visualization (3).
Software products are constantly growing in terms of size, complexity, and application domains, among other things. To match the enormity of the problem of evolving software, a likewise support is needed for software developers and maintainers. Software visualization encompasses the study of graphical metaphors, techniques, and tools to represent several aspects of software products, processes, and projects. The visual representations include 2D and 3D. The
represented aspects include structural, behavioral, and evolutionary. The course is organized in the form of a research seminar. Students are required to read, present, and review papers from the reading list prepared for the course. The instructor provides the paper review format. Additionally, students need to do a term project (e.g., software prototype development and in-depth literature survey) and submit a 10-page project report in the form of an IEEE two-column proceedings format. Active participation in the class discussion on papers is also an integral part of the class.

**CS 898AI. Alternative Computing Paradigm (3).** Computing has been changing its paradigms to fulfill various computation needs. Students learn to understand the present computing systems and then explore some alternative computing paradigms. Topics should include: modern computer systems, optimization techniques for serial code, parallelism and concurrency, parallel computers, parallel computing, quantum computing, chaotic computing and research projects. Students are expected to have adequate knowledge in computer architecture. By continued enrollment in this class, students are certifying that they have met the prerequisite. Prerequisite: at least one of the following: CS 694, CS 738, CS 794, or equivalent.

**CS 898AO. Mobile Computing (3).** Covers various research topics in the broad area of mobile computing. Students are exposed to several research challenges faced by mobile computing platforms and associated applications such as intermittent network connectivity, battery and performance constraints, indoor localization and navigation. Each student is expected to work in groups to complete a research project at the end of the class that addresses an outstanding research challenge in the area of mobile computing. Students are also expected to read, present and critique existing research literature in the area. Prerequisites: CS 560, and prior experience programming with Android Studio.

**CS 898AR. Machine Learning in Computational Biology (3).** Introduces statistical machine learning algorithms and their applications in computational biology. Intends to achieve two major goals: first, to help students understand the theories of advanced machine learning algorithms; second, to teach students how to apply these cutting-edge machine learning methods to solve problems in life sciences and biomedical research. Students are asked to read and present some selected research papers. They are also required to apply machine learning algorithms to solve real, biological problems in the context of course projects, present the results and document the findings in the form of a final report.

**CS 898AS. Deep Learning: Theory, Algorithms and Applications (3).** Deep learning is one of the hottest areas in machine learning and is at the core of many recent advances in artificial intelligence, particularly in audio, image, video, and language analysis and understanding. Deep learning is widely deployed by such companies as Google, Facebook, Microsoft, IBM, Baidu, Apple and others for audio/speech, image, video, and natural language processing. Course covers a wide variety of topics in deep learning architectures, feature learning and neural computation, including restricted Boltzman machines, autoencoders, convolutional neural networks etc. Covers mathematical methods and theoretical aspects as well as algorithmic and practical issues. Students have the opportunity to build practical deep neural network architectures and test them on real life datasets in the form of a class project. Prerequisites: CS 560, CS 697AB and good Python programming skills.

**CS 898AT. Bitcoins and Cryptocurrencies (3).** Bitcoin is a new and exciting form of cryptocurrency technology that has the potential of altering payments and economics around the world. In between the optimism surrounding Bitcoin’s evolution as an alternate form of currency and the pessimism related to its security, success and adoptability, there is significant confusion and lack of understanding at the technical level about the precise architecture and operation of Bitcoin. This advanced graduate-level course attempts to bridge this gap in the technical understanding of Bitcoin and its operation. Specifically addresses the following fundamental questions: How does Bitcoin work and what makes it different? How secure is Bitcoin? How anonymous are Bitcoin users? What applications can be built using Bitcoin as a platform? Can cryptocurrencies be regulated? What is the future of Bitcoin and cryptocurrencies in general? Prerequisite: CS 767 (strictly enforced). If prerequisite is not met, seek the instructor's explicit permission before registering.

**CS 898AU. Assistive Mobile Computing (3).** Covers various research topics in the broad area of mobile computing as it applies to assistive technologies. Assistive technology is an umbrella term that includes adaptive, assistive and rehabilitative devices for people with special needs, and also includes the process used in selecting, locating and using them. Assistive technology promotes greater independence by enabling people to perform tasks that they were formerly unable to accomplish, or had great difficulty accomplishing, by providing enhancements to, or changing methods of interacting with, the technology needed to accomplish such tasks. Mobile devices present new opportunities in the field of assistive technologies through their portability and by providing ubiquitous connectivity. A fundamental advantage of using mobile devices to deliver assistive technologies is the unobtrusive nature of many of the platforms. Furthermore, assistive systems are typically adaptable across multiple mobile platforms and can support multiple special needs. Students are exposed to several interdisciplinary research challenges in the design and application of mobile computing platforms when they are used as assistive technologies. These include intermittent network connectivity, battery and performance constraints, indoor localization and navigation, human computer interfaces, biomechanics and human factors. Each student is expected to acquire and apply technical skills to solve some of these research challenges working in groups to complete a research project at the end of the class. Students are also expected to read, present and critique existing research literature in the area. Prerequisites: CS 560, and prior experience creating mobile applications with Android or iOS.

**CS 898AV. Software Defined Networking (3).** SDN has been widely envisioned to be the next-generation networking paradigm for both wired and wireless networks (e.g., Google B4 SDN data center networks and AT&T SDN cellular systems). The main ideas of SDN are (1) to separate the data plane from the control plane; and (2) to introduce novel network control functionalities based on an abstract representation of the network. The key advantages of SDN, including programmability and virtualizability can lead to extremely flexible computing, networking and storage infrastructure, which dramatically improves network resource use, simplifies network management, reduce operating costs, and promotes innovation and evolution. Students are first introduced to SDN development history, SDN architectural design, SDN traffic engineering, and SDN development tools, (e.g., SDN management protocols Openflow and FlowVisor), network controllers (e.g., Floodlight and Ryu), and software programmable switches (e.g., Open vSwitches). Then, students are instructed on how these technologies are applied to some emerging applications (e.g., data center networks, cloud-computing environments, internet, and cellular systems). Finally, the group lab assignment is implemented on the OpenFlow-Mininet simulators as well as on a state-of-the-art wireless SDN testbed. Prerequisite: CS 764 or CS 835 or CS 898AF (Cognitive Radio Networks).
CS 898AW. Artificial Intelligence for Robotics (3).
Focuses on scene understanding, decision making and reasoning for robots, and action planning. Prerequisites: MATH 511, IME 254, CS 560.

CS 898AX. Foundations of Data Science (3).
Mathematical toolkit that can be applied to problems in data analysis. Topics covered: geometry of high dimensional space; best-fit subspaces and singular value decomposition (SVD); random walks and Markov chains; machine learning; algorithms for massive data problems: streaming, sketching and sampling; clustering. Prerequisites: CS 560, MATH 511.

CS 898AY. Sequential Decision Problems (3).
Sequential decision problems arise in many applications including packet routing, ad placement, website and page content optimization, or medium access in wireless communications. They typically involve a trade-off between exploration and exploitation, which corresponds to the decision of either exploiting an option that gave high rewards in the past or exploring new options with the hope to obtain higher rewards. Introduces learning methods for sequential decision problems, and presents their theoretical analyses. Topics covered include multi-armed bandits, stochastic bandits, adversarial bandits, Markov decision processes, tools for regret analysis. Prerequisite: EE 754 or CS 731.

CS 898AZ. Accessible Computing (3).
Covers various research topics in the area of accessible computing, defined as adaptive, assistive and rehabilitative computing devices, software and techniques for people with special needs to access and use various services. Students are exposed to several interdisciplinary research challenges in the design and application of mobile computing platforms when used towards the accessible computing paradigm. These include intermittent network connectivity, battery and performance constraints, indoor localization and navigation, human computer interfaces, biomechanics and human factors. Each student acquires and applies technical skills to solve research challenges working in groups to complete a research project at the end of the class. Students are also expected to read, present and critique existing research literature in the area. Students from non-CS backgrounds (such as psychology, bioengineering, kinesiology, exercise science, gerontology, communication sciences and disorders, among others) are welcome, and add a multidisciplinary flavor to the class. Students from non-CS backgrounds will have the curriculum adapted to their unique backgrounds. Prerequisites: For computer science (CS) and related majors: CS 560 or equivalent, and prior experience creating mobile applications with Android or iOS. For students with non-CS backgrounds: instructor’s consent.

CS 898B. Information Retrieval (3).
Course deals with information retrieval on the web. Roughly, it deals with how search engines select the desired documents, based on the query. Topics include Boolean retrieval, inverted indexes, and their construction; ranked retrieval, term weighting, and relevance ranking. Prerequisite: CS 560.

CS 898CA. Introduction to Intelligent Robotics (3).
The study of intelligent robotics allows robots to gather information from surrounding environments and take actions autonomously. This course will introduce the fundamental principles and methods of manipulation, navigation and perception for intelligent robotics. Topics covered include geometry transformations, kinematics, dynamics, localization, navigation, mapping, motion planning, intelligent processing, smart sensing, decision making, and robotic intelligence. The students will explore the robot concepts and algorithms, such as dexterous manipulation, simultaneous localization and mapping (SLAM), and autonomy, while working with Nao humanoid robots and Sawyer collaborative robots. Prerequisite: MATH 511.

CSD - Communication Sciences and Disorders
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

CSD 504. Aural Rehabilitation (3).
Discussion and labs concerning the role of speech-language pathologists and audiologists in evaluation and treatment of hearing-impaired children, adolescents, adults and their families. Students focus on understanding psychological, social, educational and occupational impacts of hearing loss; on applying a rehabilitative model, technology, individual and group therapies, and collaboration with families and professionals to help hearing-impaired persons improve or cope better with their communication problems. Prerequisite: CSD 351 or instructor’s consent.

CSD 506. Acoustic and Perceptual Phonetics (3).
Study of the physical patterns (acoustic) of speech sounds and the importance of these acoustic patterns to speech recognition (perception). Focuses on segmental phonemes (vowels and consonants) and on suprasegmental characteristics such as stress and intonation. Introduces different types of speech analysis techniques and discusses how they may be used to study the acoustic patterns of speech sounds. Studies how different aspects of the speech signal relate to listener perception. Prerequisites: PHYS 210 and CSD 301.

CSD 506H. Acoustic and Perceptual Phonetics - Honors (3).
Study of the physical patterns (acoustic) of speech sounds and the importance of these acoustic patterns to speech recognition (perception). Focuses on segmental phonemes (vowels and consonants) and on suprasegmental characteristics such as stress and intonation. Introduces different types of speech analysis techniques and discusses how they may be used to study the acoustic patterns of speech sounds. Studies how different aspects of the speech signal relate to listener perception. Honors section. Prerequisites: PHYS/CSD 210 and CSD 301.

Focuses on communication differences, delays, and disorders in children. Emphasis will be placed on the potential impact on quality of life and on academics resulting from communication disorders associated with special populations of children with speech-language impairments, intellectual disabilities, hearing impairment, acquired language disorders, and craniofacial anomalies. Prerequisites: CSD 304 and CSD 306.

CSD 512H. Communication in Special Populations: Children Honors (4).
Focuses on communication differences, delays, and disorders in children. Emphasis will be placed on the potential impact on quality of life and on academics resulting from communication disorders associated with special populations of children with speech-language impairments, intellectual disabilities, hearing impairment, acquired language disorders, and craniofacial anomalies. Prerequisites: CSD 304 and CSD 306.

CSD 517. Communication in Aging (3).
Focuses on how communication is affected by aging, what communication problems may be experienced by older persons, and what the implications are for speech-language pathologists and audiologists providing services to older persons. Explores prevention activities geared toward maintaining functional communication abilities...
CSD 517H. Communication in Aging - Honors (3).
Focuses on how communication is affected by aging, what communication problems may be experienced by older persons, and what the implications are for speech-language pathologists and audiologists providing services to older persons. Explores prevention activities geared toward maintaining functional communication abilities in older adults as well as functional treatment approaches geared toward the specific communication needs of older persons. Honors section. Course is appropriate for students in other fields of study. Course includes diversity content.

CSD 518. Deaf Culture (3).
Examines various cultural aspects of the deaf community. Presents the interrelationship of language and culture along with a study of socialization, norms and values. Course includes diversity content.

CSD 519. Genetic and Organic Syndromes (3).
Introduces human genetics and the impact of chromosomal and structural anomalies of communication disorders. Assessment and remediation of cleft palate speech. Prerequisites: CSD 301, 302 with grades of B (3.000 points/credit hour) or better. Corequisite: CSD 521.

CSD 519H. Genetic and Organic Syndromes - Honors (3).
Introduces human genetics and the impact of chromosomal and structural anomalies of communication disorders. Assessment and remediation of cleft palate speech. Prerequisites: CSD 301, 302 with grades of B (3.000 points/credit hour) or better. Corequisite: CSD 521.

CSD 520. ASL: Nonverbal Communication (3).
Nonverbal way of communication which forms an integral base for communication in American Sign Language. Emphasizes the use and understanding of facial expression gestures, pantomime and body language. Role play and acting out are required as part of this class. Prerequisite: CSD 370 or instructor's consent.

CSD 521. Genetic and Organic Syndromes Lab (1).
Laboratory experience which provides students the opportunity to observe and document assessment and treatment of individuals with various communication disorders caused by syndromic and/or gene-linked conditions. Prerequisites: CSD 301, 302 with grades of B (3.000 points/credit hour) or better. Corequisite: CSD 519.

CSD 522. Deaf Heritage (2).
Considers the history, nature and uses of language and its effect upon human thought and action. Also covers the ideas and ideals expressed by deaf people over many periods of time through drama, philosophy, painting and related areas. Course includes diversity content.

CSD 605. Neuroscience of Speech and Language: Basic Processes (4).
A consideration of basic neuroanatomy and neurophysiology necessary for obtaining an understanding of the representation of speech and language in the human central nervous system and of conditions resulting from neurological impairment. Prerequisite: CSD 301 with a grade of B (3.000 points/credit hour) or better, senior standing.

CSD 605H. Neuroscience of Speech and Language: Basic Processes - Honors (4).
A consideration of basic neuroanatomy and neurophysiology necessary for obtaining an understanding of the representation of speech and language in the human central nervous system and of conditions resulting from neurological impairment. Prerequisite: senior standing.

CSD 635H. Senior CSD Honors Practicum (1).
Focuses on techniques and methods for developing clinical skills for a selected supervised practicum setting in speech-language pathology at the university’s Evelyn Hendren Cassat Speech-Language-Hearing Clinic. Clinical practice skills include knowledge related to universal precautions, procedures for assessment/intervention, and electronic record keeping. Restricted to senior CSD honors students who have applied and been accepted according to department guidelines.

CSD 705. Counseling in Communication Disorders (3).
Provides information on the structure and conduct of interviews, basic counseling strategies, and consideration of the “helping” role as practiced by communication disorders professionals. Focuses on information supportive of developing effectiveness in these roles. Considers multicultural concerns. Course includes diversity content.

CSD 710. Autism Spectrum Disorder (3).
An overview of the characteristics and etiology of autism spectrum disorder and the knowledge needed to conduct effective communication and language assessments and develop evidence-based treatment strategies for individuals with ASD. Covers guidelines for the assessment and intervention of communication skills, including decision making for the selection of functional communication systems, structured teaching and positive environmental supports for effective learning. Course includes diversity content.

CSD 740. Selected Topics in Communication Sciences and Disorders (1-3).
Individual or group study in specialized areas of communication sciences and disorders. Repeatable for credit to a maximum of 6 hours. Prerequisite: instructor's consent.

CSD 740L. Speech Sound Disorders (2).
Discussed basic methods and procedures for identifying, assessing, analyzing and remediating speech–sound disorders. Practice in phonetic transcription of highly unintelligible speech samples. Includes classroom and clinic observations. Prerequisite: Admission to CSD graduate program.

CSD 750. Workshop in Communication Sciences and Disorders (1-4).
Individual or group study in specialized areas of communication sciences and disorders. Repeatable for credit to a maximum of 8 hours.

CSD 750Q. Improving Communication Skills of Children (1).
“Communication = Power! Improving the communication skills of individuals with complex communication challenges.” Workshop designed for teachers and speech-language pathologists who work with individuals who have been diagnosed with various disabilities, including autism spectrum disorder (ASD) and are minimally verbal or nonverbal. Participants engage in activities focused on selecting appropriate assessment tools, using a guided decision making process for developing instructional supports, setting goals and objectives based on assessments and observations, and implementing collaborative evidence-based instructional strategies, including augmentative alternative communication, in the classroom and/or home.

CSD 781. Cooperative Education (1-4).
A work-related placement that integrates theory with a planned and supervised professional experience designed to complement and enhance the student's academic program. May not be used toward degree requirements. Repeatable for credit. Graded Cr/NCr.

CSD 803. Intro to Psychoacoustics (4).
Fundamental principles, measurement methods, research findings, laboratory practice, and readings relating physical properties of nonspeech and speech sounds to people's subjective sensations and perception responses.
CSD 804. Clinical Audiology I (3).
Lectures, labs and case studies concerning measurement of hearing sensitivity with the pure tone audiogram. Topics include types and features of audiometers, audiometric test environments, behavioral and electro-acoustic calibration, pure tone air-conduction and bone-conduction threshold testing, clinical masking, audiometric tuning fork testing, and verbal and written interviewing and reporting of pure tone results.

CSD 805. Clinical Audiology II (4).
Lectures, labs and case studies concerning auditory evaluation beyond the pure tone audiogram, focusing on differential diagnosis of auditory site-of-lesion. Topics include speech audiometry, acoustic immittance testing, behavioral testing of cochlear versus retrocochlear sensorineural hearing loss, auditory processing evaluation in adults, and assessing nonorganicity. Prerequisite: CSD 804.

CSD 806. Advanced Anatomy and Physiology of the Auditory System (3).
An in-depth study of the structure and function of the ear, emphasizing the conductive and sensory mechanisms and cochlear processes of acoustic signals. Introduces neuroanatomy and electrophysiology of the auditory system, including the efferent system. Highlights major clinical and pathologic correlates to link basic science principles and practice.

CSD 807. Acoustics & Instrumentation (3).
Study of basic acoustics for the hearing and speech sciences, including physical and mathematical concepts in sound generation, transmission, manipulation, measurement and wave analysis. Introduces the fundamentals of electricity and electronics related to research and clinical application in audiology, including essential concepts and function of circuits and electronic devices, and technical knowledge of major forms of instrumentation.

CSD 808. Otoacoustic Emissions (2).
Study of theoretical consideration of otoacoustic emissions in evaluating cochlear function and clinical applications of different types of measures, including instrumentation, stimulus and acquisition parameters; effects of intrinsic and extrinsic variables, and interpretation of test results. Prerequisites: CSD 807.

CSD 809. Language & Literacy for Young Children: Assessment and Intervention (3).
Emphasis on etiology and characteristics of language deficits of young children. Provides current evidence relevant to language assessment and intervention strategies for children birth to school age. Includes examination and development of culturally sensitive individual and family treatment plans, facilitation of emergent literacy, and problem-based application of the descriptive developmental treatment model. Prerequisite: previous coursework in typical language development.

CSD 810. Motor Speech Disorders (2).
Studies the neurologic bases for motor speech production and dysfunction: dysarthrias and apraxia. Covers assessment of motor speech disorders and clinical management principles and strategies for the speech subsystems of respiration, phonation, articulation, resonance and prosody. Pre- or corequisite: coursework in neuroscience.

CSD 811. Dysphagia (2).
Covers the disorder of dysphagia as it affects persons of all ages, but with a focus on adults. Examines evidence-based assessment and treatment procedures. Addresses the importance of interprofessional teamwork and ethical issues. Provokes discussions on the art and science of evaluation and intervention in dysphagia management.

CSD 811L. Dysphagia Lab (2).
Study and labs targeting specific populations — from infant to geriatric patients — having various feeding and swallowing issues. Hands-on practice with instrumentation for dysphagia, and supervised observation/participation on teams and with patients live or through video presentation/case studies. Additional coursework to enhance knowledge and skills concerning specific disease groups and populations, with accompanying evaluation and treatment considerations. Course includes diversity content. Prerequisite: CSD 811 (may be concurrent).

CSD 812. Aphasia (3).
Designed to prepare students for clinical work with people with aphasia. Students integrate background information from neurophysiology to understand aphasia. Emphasis is placed on psycholinguistic and neurolinguistic theories of language processing, assessment, differential diagnosis of neurogenic language disorders, and the development of appropriate restorative and compensatory intervention plans. Also focuses on the clinical description and characteristics of the impairments as well as on the psychosocial changes in life activities and participation of people who live with aphasia.

CSD 814. Speech-Sound Disorders (2).
Reviews current theories on the etiology and development of the disorder. Considers behaviorally based diagnostic procedures for children and adults, as well as methods for clinical intervention, including procedures for parent interviewing and counseling, and multicultural concerns. Provides opportunities for observation, one focus being demonstration of intervention methods.

CSD 815. Augmentative and Alternative Communication (2).
Provides information about assistive technology for persons with special needs across the life span (e.g., cerebral palsy, degenerative neurological diseases, autism). Considers physical, linguistic and cognitive factors in the design and implementation of assistive technology resources. Provides resources for assessment, intervention, partner training and report writing. Studies use of augmentative and alternative communication systems and computer applications/modifications. Explores resources for purchase and funding of AAC systems.

CSD 816. Language and Literacy for School-Age and Adolescents (3).
Examination of various approaches to working with children and adolescents with language and literacy deficits which compromise school success. Explores the multidimensional nature of the language and literacy needs of students in the classroom to meet Common Core standards. Includes multicultural aspects and collaboration strategies.

CSD 817. Voice Disorders (3).

CSD 818. Fluency Disorders (3).
Reviews current theories on the etiology and development of the disorder. Considers behaviorally based diagnostic procedures for children and adults, as well as methods for clinical intervention, including procedures for parent interviewing and counseling, and multicultural concerns. Provides opportunities for observation, one focus being demonstration of intervention methods.

CSD 819. Cognitive Communication Disorders (2).
Addresses cognitive communication disorders that result from brain injuries (e.g., traumatic brain injury, right hemisphere stroke and
dementia). The similarities and differences between cognition and the language are considered. Evaluation and treatment methods are introduced for adult clients with these acquired disorders.

CSD 820. Graduate Methods and Practicum in Speech and Language Evaluation (2).
Discusses clinical methods for evaluation and diagnosis of children and adults presenting with speech and/or language disorders. Prerequisites: CSD 510, medical clearance, and insurance.

CSD 821. Educational Settings Practicum (3).
Provides supervised clinical experiences in identification, diagnosis, evaluation, treatment, referral and counseling of children with speech or language impairments in a school setting. Demonstration of applied clinical skills in the elementary and/or secondary school levels is completed. Prerequisites: CSD 809, 816, 822, medical clearance, liability insurance, and departmental approval one year prior to enrollment.

CSD 822. General Clinic Practicum (1-2).
Provides supervised clinical experiences in settings with preschoolers, school-aged children and adults with a wide variety of communication disorders. Covers concepts of practice, including diagnosis, data collection, report writing, counseling and treatment techniques. Repeatable for credit Prerequisites: admission to CSD graduate program on a clinical track, medical clearance and liability insurance.

CSD 823. Medical Settings Practicum (3).
Provides supervised clinical experiences in individual and group therapy diagnostics, documentation, consultations and interdisciplinary staffings in a medical setting. Prerequisites: CSD 810, 811, 812, 822, medical clearance, liability insurance and departmental approval one year prior to enrollment.

CSD 824. External Placement Practicum (1).
Supervised clinical experiences in off-site locations for advanced clinical experiences in a variety of settings as well as a wide spectrum of speech and language disorders. Repeatable for credit Prerequisites: CSD 822, medical clearance, liability insurance and departmental approval.

CSD 831. Auditory Assessment—SLP Practicum (1).
Discusses proper hearing screening techniques for all age groups that are commonly conducted by speech-language pathology students. Students engage in practical experiences throughout the semester.

CSD 832A. Critical Thinking in Clinical Practice I (3).
Introduction to critical thinking and problem solving related to clinical practice in speech-language pathology. Content includes introduction to evidence-based evaluation/assessment, goal writing, data collection, treatment models and report writing. Case-based inquiry is used along with clinical role playing and cooperative/interprofessional learning. Prerequisite: admission to CSD graduate program.

CSD 832B. Critical Thinking in Clinical Practice II (2).
Provides further introduction to critical thinking and problem solving related to clinical practice in speech-language pathology. Content includes further discussion of evidence-based evaluation/assessment, goal writing, data collection, treatment models and report writing. Case-based inquiry is used along with clinical role playing and cooperative/interprofessional learning. Prerequisite: CSD 832A.

CSD 832C. Critical Thinking in Clinical Practice III (2).
Further development of critical thinking and problem solving related to clinical practice in speech-language pathology. Content includes further discussion of evidence-based evaluation/assessment, goal writing, data collection, treatment models and report writing. Case-based inquiry is used along with clinical role playing and cooperative/interprofessional learning. Prerequisites: CSD 832A, 832B.

CSD 836. Clinical and Research Writing (1).
A study of basic writing skills, scientific writing, and professional writing, particularly for assessment reports, treatment plans, progress reports and professional correspondence in speech-language pathology and audiology.

CSD 837. Clinical Assessment of Speech-Language Disorders (1).
Study of the basic diagnostic procedures used in speech-language pathology. Emphasis placed on criteria for test selection, techniques in test administration, and interpretation of test results. Course includes diversity content.

CSD 838. Supervisory Process in Speech-Language Pathology and Audiology (1).
Study of theories and strategies used in the supervision of student speech-language pathology and audiology clinicians. Discusses professional standards and methods for analyzing the teacher-learning process. Course includes diversity content.

CSD 851. Medical Audiology (3).
Introduces medical aspects of hearing impairment and other auditory disorders, emphasizing pathological changes of the auditory system and diagnosis of prevalent diseases related to the auditory system. Links up audiologic findings with otologically diagnosed disorders. Introduces general information on embryologic development of various portions of the auditory system. Addresses fundamental knowledge on human genetics such as DNA structure and function, genes, modes of genetic transmission, hereditary deafness. Discusses application of genetic testing and prenatal diagnosis of genetic disorders. Prerequisite: CSD 806, or instructor's consent.

CSD 854. Hearing Conservation (2).
Discussion and labs concerning prevention of hearing loss in the workplace, military, community and recreation. Students focus on risk factors of major preventable hearing impairments including noise, chemical ototoxicity, measurement, calculation and reporting of noise levels; application of forensic audiology and government regulations; and implementing prevention programs through noise control, hearing testing, hearing protection devices, and worker and public education.

CSD 855. Pediatric and Educational Audiology (3).
Discussion and labs concerning identification, evaluation and intervention with infants, children and adolescents with hearing losses, other auditory problems, or developmental disabilities. Students focus on newborn hearing screening programs, auditory and global development of children and their importance in behavioral, functional and electrophysiological evaluation of hearing and listening; administering school hearing conservation and aural rehabilitation programs, classroom acoustics and amplification, interdisciplinary teamwork and collaboration with families and educators, and legal protections of hearing-impaired students, including individual education plans.

CSD 860. Amplification I (3).
Introduction to the area of amplification. Students learn basic knowledge and skills in topics such as types of hearing aids, hearing aid components, hearing aid systems, electroacoustic performance and measurement, hearing aid plumbing, basic compression systems, probe microphone verification, hearing aid candidacy, problem solving, assessing outcomes and hearing aid orientation/counseling. Prerequisite: CSD 804.

CSD 861. Amplification II (3).
Students investigate topics such as advanced probe microphone measures, advanced signal processing, advanced hearing aid design, remote microphone options in amplification, and special amplification options, such as cochlear implants and bone-anchored hearing devices.
CSD 863. Professional Seminar in Audiology (3).
An exploration of current topics in audiology that delves into principles, practices, innovation, conduct and interpretation of research. Covers professional issues of the field that can impact the profession. Examines current professional, ethical and service issues that can impact the practice of audiology.

CSD 866. Auditory Evoked Potentials (3).
Provides information on the anatomic and physiologic basis of auditory-evoked potentials generated from the peripheral and central auditory systems. Discusses techniques for the administration and interpretation of auditory-evoked potentials, including cochlear potentials (ECochG), the auditory brainstem responses (ABR), and the late-occurring evoked potentials (MLR, ALAE, MMN, and P300). The use of evoked potentials in intraoperative monitoring is also discussed. Lab component provides opportunities for hands-on learning and independently performing various auditory-evoked potential tests. Prerequisites: CSD 804, 806.

CSD 868. Diagnosis and Management of Persons with Balance Disorders (3).
Discussion and labs concerning an audiologist's role in diagnosis and management of persons with vestibular and balance disorders. Students focus on anatomy, physiology, development and disorders of vestibular and ocular-motor systems; subjective evaluations using interview and scaling; objective evaluations using ENG/VNG, rotational testing, posturography and vestibular evoked potentials; balance rehabilitation, and interdisciplinary collaboration and communication. Prerequisite: CSD 806 or instructor's consent.

CSD 870. Current Topics Amplification (2).
Explores the role of evidence-based practice in the selection/provision of amplification. Facilitates the critical consumption of current original research in the area of hearing aids. Explores the perceptual effects of new technologies in the form of peer-reviewed journals, trade journals and hearing aid manufacturer's white papers. Discusses additional considerations for special populations. Prerequisites: CSD 860, 861.

CSD 871. Current Topics in Auditory Disorders (2).
Advanced audiology course covering the latest evidence-based research in evaluation and intervention with persons who have special auditory problems that are increasingly influential for audiologists now and in the future (e.g., tinnitus, hyperacusis, auditory neuropathy, age-related hearing loss, dual sensory loss).

CSD 886. Clinical Practicum in Audiology (1-2).
Supervised clinical practicum at the WSU Evelyn Hendren Cassat Speech-Language-Hearing Clinic and/or an off-campus clinical rotation site. Clinical expectations and responsibilities vary with the student's level of experience and the requirements of the placement site. Practicum assignments are determined by each student's competency needs, ASHA requirements and availability of rotation sites. Repeatable, but total credit hours may not exceed 8. Prerequisite: departmental approval.

CSD 890. Independent Study in Speech and Language Pathology or Audiology (1-4).
Arranged individual, directed study in specialized content areas in speech and language pathology or audiology. Repeatable for credit to a maximum of 4 credit hours. Prerequisite: instructor's consent prior to enrollment.

CSD 891. Nonthesis Research (1-3).
The benchmark for the applied research experience in the Master of Arts program in communication sciences and disorders. A directed research project which may include literature searches, data collection or interpretation of data. Independent projects must involve extensive data collection, analysis and preparation of a written manuscript. Repeatable, but total credit hours may not exceed 5. Prerequisites: research methods course, departmental consent prior to enrollment.

CSD 892. Presentation of Research (1).
The benchmark for the applied research experience in the Doctor of Audiology program in communication sciences and disorders. A directed research project which may include literature searches, data collection and interpretation of data. Culminates in the oral presentation of capstone project, which may also be prepared for publication. Repeatable, but total credit hours may not exceed 5. Prerequisites: research methods course, departmental consent prior to enrollment.

Repeatable, but total credit hours counted toward degree requirements must not exceed 2. Prerequisite: instructor's consent.

CSD 899. Thesis (1).
Course serves as an applied research experience in the Master of Arts program in communication sciences and disorders. Independent projects must involve extensive data collection, analysis and preparation of a written manuscript. Repeatable, but total credit hours counted toward degree requirements shall not exceed 1 credit hour. Prerequisites: research methods course, departmental consent prior to enrollment.

CSD 935. Advanced Practicum in Communication Sciences and Disorders (3).
Supervised internship in one or more of the following sections: client management, clinical supervision, academic instruction, research and clinical and program administration. Intended for doctoral students or advanced master's-level students. Repeatable; more than one section may be taken concurrently.

CSD 940. Advanced Selected Topics in Communication Sciences and Disorders (1-4).
Advanced individual or group study in specialized areas of communication sciences and disorders. Intended for doctoral students or advanced master's-level students. Repeatable.

CSD 940O. Advanced Selected Topics in CSD: Technology Design (1-4).
Directed study into how technology impacts speech, language, and social/emotional development in children. Emphasis on research methods being used to analyze such impacts, current therapeutic applications, current consensus findings, and areas requiring further study.

CSD 940P. Cognitive Communication in Children (1-4).
Covers selected topics relevant to the field on domains of cognitive communication in children and design of a novel research project. Discussions include executive functioning, attention, memory, and problem-solving skills while focusing on domains that predict later achievement (e.g., working memory). Intended for doctoral students.

CSD 940Q. Cultural Diversity in CSD (1-4).
Covers selected topics relevant to cultural diversity in communication sciences and disorders, and design of a novel research project. Intended for doctoral students.

CSD 940U. Concepts of Critical Thinking (1-4).
Designed to engage doctoral students in the process of critical thinking and how it applies to communication sciences and disorder issues. Students learn how to apply critical thinking components to issues related to, but not limited to, concepts in teaching critical thinking, augmentative and alternative communication, and other related communication issues.
CSD 940V. Alternative and Augmentative Technologies - Applications and Research (1-4).
Covers selected topics relevant to the field on Alternative and Augmentative Communication (AAC), and design of a novel research project. Discussions include fundamental principles of AAC assessment, research planning and implementation, data collection and interpretation, and potential problems faced by researchers.

CSD 990. Advanced Independent Study in Speech and Language Pathology, Audiology or Speech Science (1-3).
Arranged individual, directed study in specialized content areas in speech and language pathology, audiology or speech sciences. Repeatable. Prerequisites: advanced standing and instructor's consent.

CSD 992. Advanced Presentation of Research (1-3).
A directed research project for doctoral students culminating in a manuscript appropriate for publication.

CSD 995. Research Proseminar (1).
A weekly seminar of informal discussion and formal presentation of ongoing or planned research by the CSD faculty and doctoral graduate students. Goal is to provide CSD doctoral students with new and valuable knowledge and insights regarding how real-world research is performed. Prerequisite: doctoral student standing.

CSD 996. University Teaching (1).
A weekly seminar on university teaching. The pedagogy, theories and research of teaching are discussed through presentation of readings, observation of teaching, and teaching experiences. The goal is to provide doctoral students with information and experience in university teaching. Repeatable. Prerequisite: doctoral student standing.

CSD 997. Audiology Residency (4-7).
Full-time supervised clinical experience at an approved clinical facility. Repeatable, but total credit hours may not exceed 18. Prerequisite: advancement to candidacy in the AuD program.

CSD 999. Doctoral Dissertation (1-18).
Successful completion of this course assures that the student has participated in an independent research activity that includes aspects of literature review, data collection and analysis, and scholarly writing. The expectation is that one or more manuscripts may be prepared for submission to scholarly journals based on this research experience. Course serves as the benchmark for the applied research experience in the Doctor of Philosophy program in CSD. Repeatable, but total credit hours counted toward degree requirements shall not exceed 18 credit hours. Graded S/U. Prerequisite: instructor's consent.

**DANC - Dance**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

DANC 501. Modern Dance 4 (3).
Advanced level. Continuation of DANC 401. Emphasizes professional technique and performance quality. Repeatable for credit. Prerequisite: instructor's consent or by audition.

DANC 505. Choreography 3 (3).
Focuses on the choreographic process. Students create choreographic studies for more than one dancer using elements studied in Choreography 1 and 2 and exploring different choreographic approaches. Further exploration may include environmental, chance and collaborative choreographies and multimedia approaches. Prerequisite: DANC 405. Corequisite: appropriate level modern dance or ballet technique class.

DANC 510. Ballet 4 (3).
Continuation of DANC 410. Advanced level. Emphasizes professional technique and performance quality. Repeatable for credit. Prerequisite: instructor's consent or by audition.

DANC 535. Jazz Dance 4 (3).
Advanced level. Continuation of DANC 435. Emphasizes professional technique and performance quality. Repeatable for credit. Prerequisite: instructor's consent or by audition.

DANC 545. Methods of Teaching Dance (3).
Develops teaching skills for elementary schools, high schools, recreation centers, private and professional schools, and universities through lesson planning and in-class teaching practice. Prerequisite: DANC 401 or 410.

DANC 580. Senior Project (1).
Focuses on the process of choreographing and producing a dance concert for the completion of the dance major, under the supervision of a dance faculty mentor. A written paper and an oral review with the dance faculty support the concert. May be taken concurrently with DANC 505 with instructor's consent. Corequisites: appropriate level technique class, senior standing.

DANC 580A. Senior Project - BA (1).
Capstone of a dance major's educational experience. The project comprises a final project and research paper that demonstrates skill in self-evaluative writing, knowledge of principles learned in the dance emphasis and complimentary course of study culminating in a presentation to the dance faculty.

DANC 580F. Senior Project - BFA (1).
Focuses on the process of choreographing and producing a dance concert for the completion of the dance major, under the supervision of a dance faculty mentor. A written paper and an oral review with the dance faculty support the concert. Corequisites: appropriate level technique class, senior standing.

DANC 675. Directed Study (1-3).
Individual study or projects. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

DANC 690. Special Topics in Dance (1-6).
For individual or group instruction. Repeatable for credit with departmental consent.

DANC 750. Dance Workshop (1-4).
Variable credit dance course for WSU graduate students, alumni and the Wichita community. Credit hour enrollment determines the varying course requirements. Repeatable for credit. Technique courses can be taken with instructor's consent.

**DS - Decision Sciences**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

DS 625. Global Procurement and Outsourcing (3).
Designed to expose learners to the latest supply chain trends and issues dealing with global purchasing and sourcing. Covered topics include global sourcing management, purchasing management, financial and operational strategies for sourcing and procurement, diversity in sourcing and procurement, supplier base management, risks in sourcing and procurement, ethical and sustainable sourcing. Real-life experience and practices by guest speakers from area multi-national companies (Koch, Cargill, Spirit, Cessna and other aviation companies, etc.) are featured. Course includes diversity content.
Introduces the underlying need for integration in organizations that have traditionally operated with fragmented information systems. The focus is on ERP (enterprise resource planning) systems, but other e-commerce systems are discussed. Includes an overview of ERP systems, business processes and implementation issues. Covers relevant software packages. Not open to students with credit in DS 860. Prerequisites: DS 350 with a grade of C+ (2.300) or better, junior standing, advanced standing.

DS 665. Supply Chain Management (3).
Emphasizing global integration and coordination, this introductory course delivers the basic concepts and decision-making models critical to managing a global supply chain. Topics covered include supply chain design and operation, logistics strategies and network configuration, inventory management and risk pooling, the role of information technology in the supply chain, warehousing and material handling systems, supplier relations, and strategic alliances. Not open to students with credit in DS 865. Prerequisites: DS 350 with a grade of C+ (2.300) or better, junior standing, advanced standing.

DS 675. Spreadsheet Modeling for Decision Making (3).
Cross-listed as FIN 675. Adopts a practical spreadsheet-based approach to the modeling of a wide variety of business problems. Concentrates on problem solving in an interdisciplinary context and developing spreadsheet skills. Not open to students with credit in DS 875 or FIN 675. Prerequisites: DS 350 and FIN 340 each with a grade of C+ (2.300) or better, junior standing, advanced standing.

DS 690. Seminar in Selected Topics (1-5).
Repeatable with departmental consent. Prerequisites: DS 350 with a grade of C+ (2.300) or better, junior standing, advanced standing.

DS 701. Introduction to Supply Chain Management (SCM) (0.5).
Enables students to understand the basics of integrated business logistics and supply chain management.

DS 702. Introduction to Spreadsheet Modeling (0.5).
Covers how to create spreadsheet models in Excel. Regardless of title (manager, supervisor, purchasing agent, etc.) and functional area (operations, supply chain, finance, etc.), students learn how to use Excel to summarize, report and analyze data — a critical set of skills in today’s data-driven business environment.

DS 703. Introduction to Forecasting (0.5).
Predictive analytics is one of the three key parts of analytics (descriptive, predictive, and prescriptive), and deals with forecasting. Course introduces students to time series analysis, and the averaging techniques of forecasting, including moving average, and exponential smoothing. Also introduces the metrics for error analysis in forecasting.

DS 704. Introduction to Inventory Management (0.5).
Overview of the concepts, tools and techniques used in managing inventory in a system.

DS 705. Basics of Analytics (1).
Covers basic methods for the analysis of existing datasets. Commonly used techniques for the analysis of quantitative and qualitative data are introduced. Topics include: data preprocessing, linear regression, logistic regression, classification, and cluster analysis. Students are introduced to R, an open source data mining software. Lectures use R and Microsoft Excel to guide the analysis, but students are welcome to use their preferred software package in solving assignment problems and evaluations.

DS 706. Introduction to Demand Management (1).
Focuses on fundamentals of demand management and introduces collaboration, consensus and integration issues of demand management. Includes strategies for managing uncertainty and the role of technology.

DS 707. Introduction to Supply Management (0.5).
Exposes learners to the latest trends and issues dealing with supply management. Covered topics include sourcing management, purchasing management, financial and operational strategies for procurement, supplier base management, and risks and sustainability in procurement.

DS 708. Advanced Forecasting (1).
Predictive analytics is one of the three key parts of analytics (descriptive, predictive, and prescriptive), and deals with forecasting. Course goes beyond the averaging techniques for forecasting, and covers linear regression for forecasting time series with trend, and the decomposition method for forecasting time series with trend and seasonality.

DS 709. Introduction to Project Management (1).
Establishes fundamental guidelines for defining the process of project management and designing time-constrained projects. Covers core methodology for managing complex projects on time.

DS 710. Supply Chain Management Network Planning (1).
Enables students to understand the basics of network planning in distribution networks, network design, global network design, and transportation network design.

DS 711. Performance Management in Supply Chains (1).
Performance management — a standard practice in organizations — is presented and promoted through business processes, methodologies, metrics and technologies used by an organization to measure, monitor and manage business performance. Covers a broad category of processes, technologies, applications and metrics for managing the performance of supply chains. Emphasizes the criticality of creating and maintaining an enterprise-level culture of evidence/fact-based management and decision making. Covers concepts and frameworks related to performance management in supply chains and exposes students to supporting technologies used by contemporary organizations.

DS 712. Advanced Demand Management (1).
Case-based course focusing on implications of demand management and elements of supply chain management in an effort to optimize revenue, inventory costs and customer service levels via promotional activities and intelligence.

DS 713. Integrated Supply and Demand Management (1).
Enables students to understand how integrated supply and demand management impacts design of an optimized supply chain.

DS 714. Strategic Management in Supply Chain Management (0.5).
Presents innovative strategies and best practices for strategically managing and optimizing supply chains to improve supply chain performance.

DS 715. Supply Chain Management A (0.5).
Uses simulation games to introduce different concepts in strategic supply chain management.

DS 716. Supply Chain Management B: Simulation Game (0.5).
Uses simulation games to discuss different concepts in strategic supply chain management.

DS 750. Workshop in Decision Sciences (1-4).
Prerequisite: junior standing.

DS 755. Project Management (3).
This hands-on and project-based technology course establishes fundamental guidelines for defining the process of project management and designing time-constrained projects. Covers core methodology for managing complex projects on time. Uses a software tool. Prerequisites:
junior standing, advanced standing; students are strongly recommended to take DS 350 before taking DS 755.

**DS 850. Operations Management (3).**
Develops an understanding of the operations function in a business and how it interfaces with other major functions in business. Students gain an appreciation of the strategic importance of operations and how a firm can gain competitive advantage through world-class performance by operations in delivering high-quality, cost-competitive products and services. Builds a knowledge base of the concepts, tools and techniques related to designing, managing and improving operations. Helps managers, regardless of functional specialization, gain an operations perspective. Prerequisites: calculus and statistics.

**DS 860. ERP: Enterprise Resource Plan (3).**
DS 860. ERP—Enterprise Resource Planning (3). Provides an overview of Enterprise Resource Planning (ERP) and related systems like CRM. E-commerce systems are designed to assist an organization with the integration and management of its business processes. ERP systems can be expensive and time-consuming to implement. Topics covered include the ERP life cycle for implementation and change management. Students get hands-on exercises with ERP software, like SAP, if available. Prerequisite: DS 850 or equivalent.

**DS 865. Supply Chain Mgmt (3).**
DS 865. Supply Chain Management (3). Introduces concepts, models and solution approaches critical to managing a supply chain. Focuses on understanding how supply chain design and operation impact the performance of the company and its competitive advantage. Topics include strategy development, profitability, demand forecasting, inventory management, facility location, warehousing, transportation, network design and information sharing. Prerequisite: DS 850 or instructor’s consent.

**DS 875. Spreadsheet Modeling in Business (3).**
Overview of decision making models used in various functions in business. Students learn to build and analyze the models in a spreadsheet and with different add-ins. Students acquire advanced analytical and spreadsheet skills that can make them better analysts regardless of their area of specialization. The course is example driven, covering various scenarios from business. Prerequisite: DS 850 or instructor’s consent.

**DS 890. Seminar in Special Topics (1-3).**
Repeatable with departmental consent.

**DS 890G. Risk Management in Global Supply Chains (3).**
For a successful global company, risk management is an essential element. This course is designed to explore and outline the best practices in identifying, assessing, and mitigating various risks stemming from internal and external environments of a supply chain. Among the topics are risk management concept and process, risk management strategies, action based risk management framework, operational, tactical and strategic risk management, effect of risks on financial performances, and best industrial applications of risk management.

**DS 891. Directed Studies (1-5).**
Prerequisite: departmental consent.

---

**ECON - Economics**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**ECON 570. International Political Economy (3).**
Cross-listed as POLS 570. Examination of policy decisions regarding exchanges of trade, money and labor that span national boundaries.

Studies the interaction of politics and economics at the international level, as well as the modern history of the global economy. Economics often studies the material benefits and costs of different policies. Political science asks why these policies exist in the first place with a focus on who gets the benefits, who pays the costs, and how decisions about allocating benefits and costs are made. *Course includes diversity content.*

**ECON 611. Economics of Sports (3).**
Inquiry into the economic aspects of professional and intercollegiate sports. Includes industrial organization of sports, public finance of sports, and the labor economics of sports, as well as the unique competitive nature of the sports enterprise. Not applicable toward the MA in economics. Prerequisite: junior standing.

**ECON 627. Economic History of the United States (3).**
Cross-listed as HIST 515. Analysis of the basic factors in economic growth. Explores agriculture, trade and commerce, industrial development and the changing role of the government in economic activity. Prerequisites: ECON 201 and junior standing.

**ECON 660. Labor Economics (3).**
Introduction to labor economics surveying both theoretical and empirical research in this field. Includes labor markets, wage determination and human capital theory. *Course includes diversity content.* Prerequisites: for undergraduate students, ECON 201, 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

**ECON 663. Economic Insecurity (3).**
Cross-listed as AGE 663. Personal economic insecurity, such as unemployment, old age, health care, disablement and erratic economic fluctuations. Includes costs and benefits of government action to aid in meeting such insecurities. *Course includes diversity content.* Prerequisites: for undergraduate students, ECON 201, 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

**ECON 672. International Economics and Business (3).**
Cross-listed as IB 561. A survey of the economic foundations of international trade, finance and investment. Includes foreign exchange markets, regional integration, trade theories and instruments, U.S. trade policies and treaties, multinational companies, immigration, as well as differences in cultural, political and economic systems. Includes current events. *Course includes diversity content.* Prerequisites: for undergraduate students, ECON 201, 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

**ECON 674. International Finance (3).**
Cross-listed as FIN 625 and IB 625. A study of the international financial and monetary system, emphasizing currency markets. Examines market instruments and techniques, including synthetic and derivative securities and their application to management of currency risk in international trade and finance. Prerequisites: for undergraduate students, ECON 201, 202, FIN 340 with a grade of C+ (2.300) or better, junior standing; for graduate students, the equivalent of ECON 201, 202.

**ECON 692. Group Studies in Economics (1-3).**
Repeatable for credit with departmental consent. Prerequisites: for undergraduate students, ECON 201, 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

**ECON 702. Mathematical Methods in Economics (3).**
Introduces mathematical tools that are especially useful in economics, econometrics and finance. Includes a review of differential and integral calculus, an introduction to matrix algebra, and various constrained optimization and economic modeling techniques. Emphasizes economic applications and modeling. Prerequisites: for undergraduate students,
calculus, ECON 201, 202, junior standing; for graduate students, calculus and the equivalent of ECON 201, 202.

ECON 709. Urban Economics (3).
Cross-listed as RE 709 and PADM 709. A survey of the economic structure and problems of urban areas on both the microeconomic and macroeconomic levels. Stress the application of regional economic analysis in the study of urban areas as economic regions. Prerequisites: for undergraduate students, ECON 201 and 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

ECON 731. Applied Econometrics I (3).
Studies regression techniques through business, finance and economics examples. Reviews the fundamentals of statistics and covers practical model building, data collection, use of statistical software packages, interpretation of regression results and various diagnostic tests. Prerequisites: for undergraduate students, ECON 201, 202, 231 each with a grade of C+ (2.300) or better, junior standing; for graduate students, the equivalent of ECON 201, 202, 231 each with a grade of C + (2.300) or better.

ECON 740. Monetary Economics and Policy (3).
A study of monetary theory and policy. Analyzes historical and contemporary monetary issues using macroeconomic theories and empirical studies. Prerequisites: ECON 340, junior standing.

ECON 765. Public Sector Economics (3).
Cross-listed as PADM 765. Examination of theories of economic decision making and institutions, with a focus on how economic tools can be used to inform policy and management in the public and nonprofit sectors. Covers economic principles and discusses market failures and public policies intended to correct or alleviate market failure. Economic decision making tools for public and nonprofit management are also introduced.

ECON 781. Cooperative Education (1).
Provides the graduate student with a field placement which integrates theory with a planned and supervised professional experience. Programs must be formulated in consultation with appropriate graduate faculty. May be repeated for credit up to 3 hours. May not be used to fulfill degree requirements. Graded Cr/NCr.

ECON 800. Analysis of Economic Theory (3).
An intensive analysis of micro- and macroeconomic principles. Not for graduate credit in the MA program in economics. Prerequisite: departmental consent.

ECON 801. Macroeconomic Analysis (3).
An in-depth examination of contemporary macroeconomic theories. Includes economic growth, short run classical and Keynesian theories of fluctuations, real business cycle theory, inflation, monetary policy, and new classical and new Keynesian theories. Prerequisite: calculus and ECON 301.

ECON 802. Microeconomic Analysis (3).
An analysis of the consumer, the firm, and competitive and noncompetitive markets using mathematical models. Prerequisites: ECON 302, 702.

ECON 803. Analysis of Business Conditions and Forecasting (3).
Intensive study of research methodologies and forecasting for real life business decision making. Covers formulation of research questions, specification of models, collection of time series and survey data, applications of forecasting techniques, and interpretation and communication of the results. Prerequisite: ECON 731 or instructor's consent.

ECON 804. Managerial Economics (3).
A survey of theoretical and analytical tools of economics that are useful in decision making by managers. Prerequisites: ECON 201, 202, or 800; one course in statistics; one course in calculus.

ECON 831. Applied Econometrics II (3).
Introduces the maximum likelihood estimation and the methods of moments estimation technique. Covers SUR, panel data, simultaneous equations, VAR and ARCH/ GARCH models. Emphasizes the time series model building practiced in finance and macroeconomics. Prerequisites: ECON 702, 731 or equivalent.

ECON 865. State and Local Government Finance (3).
Analyzes state and local government expenditure and revenue systems, introduces state and local financial administration. Students must complete computational work requiring at least an intermediate level of competence using spreadsheet software such as Excel. Prerequisite: ECON 765 or instructor's consent.

ECON 870. International Finance and Investment (3).
A case study of the contemporary and business-related issues of international finance and investment. Includes foreign exchange markets, European integration, international trade organizations and monetary systems, and emerging markets. Prerequisite: one of the following courses: ECON 731 and 672 (IB 561) or ECON 674 (FIN 625).

ECON 891. Directed Study (1-3).
Individual study of various aspects and problems of economics. Repeatable for credit with departmental consent. Prerequisites: graduate standing and departmental consent.

ECON 892. Group Studies Economics (1-3).
Repeatable for credit. Prerequisite: departmental consent.

ECON 896. Thesis (1-3).
Thesis preparation.

ECON 897. Project Completion (1).
Designed for students who need additional time to complete either their directed study project or thesis. Graded S/U. Prerequisite: ECON 891 or 896.

EDUC - Education
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

EDUC 500. Dimensions of Wellness (3).
Students holistically examine meanings of wellness, including relevant biological, psychological and social concepts. As a result, students gain an understanding of how to identify, program and promote individual, organizational and community wellness initiatives.

EDUC 751. Special Studies (0.5-3).
Professional development course. EDUC 751 is an umbrella course created to explore a variety of subtopics differentiated by letter (e.g., 751A, 751B, etc.). Students should enroll in the lettered courses with specific topics in the titles rather than in this root course.

EE - Electrical Engineering
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.
EE 577. Special Topics in Electrical and Computer Engineering (1-4).
New or special courses presented on sufficient demand. Repeatable for credit. Prerequisite: departmental consent.

EE 577L. Renewable Energy Engineering (3).
Analysis and design of renewable energy systems, including solar, wind, hydroelectric, geothermal, and biomass systems. Analysis and design of energy storage systems that integrate with renewable energy systems. Integration of renewable energy systems with the electric power supply system. Prerequisites: Physics 314 and EE 282.

EE 577M. Real-Time Signal Processing Applications (3).
In most digital signal processing operations, it is assumed that we have sampled signals which are considered as digital signals. Often in classroom elections, these signals are usually stored for subsequent retrieval or synthesized when needed, for convenience for demonstrations or computer-based assignments. However, this does not allow for real-time processing of the signals. "Real-time" processing means guaranteed delivery of data by a certain time. This undergraduate elective course is hardware based with hands-on simulations to introduce students the analysis, design, and implementation of real-time digital signal processing (DSP) applications. The course first briefly introduces basic DSP theory, then focuses on practical, step-by-step framework that provides hands-on experience in real-time DSP to reinforce the basic DSP theory. Students are expected to learn how to use/apply the DSP theory in real-time applications. Prerequisites: EE 383 or equivalent, CS 211.

EE 585. Senior Design Project I (2).
3 Lab hours. A design project under faculty supervision chosen according to the student's interest. Does not count toward a graduate degree in electrical engineering, computer engineering or computer science. For undergraduate students only. This class should be taken in the semester prior to the one in which the student is going to graduate. Prerequisites: senior standing, CS 480 or EE 492. Corequisite: PHIL 354 or 385.

3 Classroom hours; 2 Lab hours. Fundamentals of communication systems; models and analysis of source, modulation, channel and demodulation in both analog and digital form. Reviews Fourier series, Fourier transform, DFT, probability and random variables. Studies in sampling, multiplexing, AM and FM analog systems, and additive white Gaussian noise channel. Additional topics such as PSK and FSK digital communication systems covered as time permits. Prerequisites: EE 383, IME 254.

EE 588. Advanced Electric Motors (3).
Advanced electric motor applications and theory. Includes single-phase motors, adjustable speed AC drive applications and stepper motors. Prerequisite: EE 488.

EE 589. Senior Design Project II (2).
3 Lab hours. A continuation of EE 585. For undergraduate students only. Will not count toward a graduate degree in electrical engineering, computer engineering or computer science. Prerequisite: EE 585.

EE 598. Electric Power Systems Analysis (3).
Analysis of electric utility power systems. Topics include analysis and modeling of power transmission lines and transformers, power flow analysis and software, and an introduction to symmetrical components. Prerequisite: EE 585.

EE 610. Introduction to Quantum Computing (3).
Introduction to the theory and practice of quantum computing. Topics covered include the basics of quantum mechanics, Dirac notation, quantum gates and circuits, entanglement, measurement, teleportation and algorithms. Prerequisite: MATH 511.

EE 684. Introductory Control System Concepts (3).
Cross-listed as ME 659. An introduction to system modeling and simulation, dynamic response, feedback theory, stability criteria, and compensation design. Prerequisites: (1) EE 282 and MATH 555, or (2) EE 383.

EE 688. Power Electronics (4).
3 Classroom hours; 2 Lab hours. Deals with the applications of solid-state electronics for the control and conversion of electric power. Gives an overview of the role of the thyristor in power electronics application and establishes the theory, characteristics and protection of the thyristor. Presents controlled rectification, static frequency conversion by means of the DC link-converter and the cyclo converter, emphasizing frequency, and voltage control and harmonic reduction techniques. Also presents requirements of forced commutation methods as applied to AC-DC control and firing circuit requirement and methods. Introduces applications of power electronics to control AC and DC motors using new methods such as microprocessor. Prerequisites: EE 383, 488, 492.

EE 691. Integrated Electronics (3).
A study of BJTs and MOS analog and digital integrated circuits. Includes BJT, BiMOS and MOS fabrication; application specific semi-custom VLSI arrays, device performance and characteristics; and integrated circuit design and applications. Prerequisites: CS 194, EE 493.

EE 697. Electric Power Systems Analysis II (3).
Analysis, design, modeling and simulation of high-voltage electric power transmission systems and rotating generators. Simulations include short circuit studies, economic dispatch and transient stability. Prerequisite: EE 598.

EE 726. Digital Communication Systems I (3).
Presents the theoretical and practical aspects of digital and data communication systems. Includes the modeling and analysis of information sources as discrete processes; basic source and channel coding, multiplexing and framing, spectral and time domain considerations related to ASK, PSK, DPSK, QPSK, FSK, MSK, and other techniques appropriate for communicating digital information in both base-band and band-pass systems; intersymbol interference, effects of noise on system performance, optimum systems and general M-ary digital systems in signal-space. Prerequisites: EE 586 and 754.

Covers the fundamental concepts of modeling and analysis of discrete event systems, with an emphasis on understanding computer and communication networks. Course begins with an in-depth introduction to discrete event systems (state space, transitions, and system classification). Subsequent topics include languages and automata (untimed, timed and stochastic timed automata). A unified modeling framework centered on automata is followed towards achieving a better understanding of complex systems. Prerequisites: EE 586 and 754.

A course in random processes designed to prepare the student for work in communications controls, computer systems information theory and signal processing. Covers basic concepts and useful analytical tools for engineering problems involving discrete and continuous-time random processes. Discusses applications to system analysis and identification, analog and digital signal processing, data compression parameter estimation, and related disciplines. Prerequisites: EE 383 and IME 254.
EE 777. Selected Topics in Electrical Engineering (1-4).
New or special courses presented on sufficient demand. Repeatable for credit. Prerequisite: departmental consent.

EE 777C. Network Programming (1-4).
Introduces techniques for developing TCP and UDP network clients, servers, and applications. Topics covered include sockets, client/server design alternatives, concurrent processes and threads, web applications, and security. Programming-intensive course that assumes some experience with programming in a high-level language. Prerequisite: CS 300 (or an equivalent course).

EE 777OL. Digital Communications I Lab (1).
Lab objective is for the students to implement and explore each block in a wireless communications system signal chain by combing LabVIEW software and the National Instrument (NI) Universal Software Radio Peripheral (USR) hardware. Covers pseudorandom bit generation, path loss in wireless radio frequency (RF) communication channel, forward error correction (FEC) channel coding, wireless digital communications modulation, demodulation, synchronization (timing recovery), bit error rate (BER), and a multiple-input and single-output (MISO) wireless system.

EE 782. Digital Signal Processing (3).
Presents the fundamental concepts and techniques of digital signal processing. Time domain operations and techniques include difference equations and convolution summation. Covers Z-transform methods, frequency-domain analysis of discrete-time signals and systems, discrete Fourier transform, and fast Fourier transform. Emphasizes the frequency response of discrete-time systems and the relationship to analog systems. Prerequisite: EE 383.

EE 784. Digital Control Systems (3).
Studies the effects of sampling and quantization, discrete systems analysis, sampled-data systems and Z-domain and state space design. Prerequisite: EE 684 or ME 659.

EE 790. Independent Study in Electrical Engineering (1-3).
Arranged individual, independent study in specialized content areas in electrical engineering under the supervision of a faculty member. Repeatable for credit. Prerequisite: departmental consent.

EE 792. Linear Systems (3).
Review of mathematics relevant to state-space concepts. Formulation of state-variable models for continuous-time and discrete-time linear systems. Concepts of controllability, observability, stabilizability and detectability. Pole placement and observer design. State transformation techniques and their use in analysis and design of linear control systems. Prerequisite: EE 684 or ME 659.

EE 796. Electric Power Distribution (3).
Analysis, design, modeling and simulation of radial medium-voltage electric power distribution systems. Simulations include power flow and short circuit. Prerequisite: EE 598.

Studies cooperative communication systems in which the users collaborate in their data transmissions. Cooperative transmission is regarded as an efficient, low cost technique to obtain the advantages of multiple antennas. Introduces fundamental cooperative protocols as well as recent advanced topics in relay communication systems. Prerequisites: EE 726, 754 or equivalent.

EE 826. Digital Communication Systems II (3).
Studies modern digital communication systems. Discusses topics such as carrier and symbol synchronization techniques, fading multipath channels, frequency-hopped spread spectrum systems, smart antenna array systems, space time codes (STC), space-time block codes (STBC), multi-input multi-output (MIMO), orthogonal frequency division multiplexing (OFDM) systems, and multi carrier code division multiple access (MC-CDMA) communication. Prerequisite: EE 726.

Covers the fundamental concepts in modeling and analysis of stochastic discrete event systems, with an emphasis on understanding computer and communication networks. Course begins with an in-depth introduction to stochastic timed automata, and their modeling and analysis techniques. Subsequent topics include Markov chains, queuing theory, controlled Markov chains, and discrete event simulation. A unified modeling framework centered on stochastic modeling is followed toward achieving a better understanding of complex systems. Prerequisite: EE 732 or departmental consent.

EE 836. 5G Wireless Communications (3).
Covers the fundamental and advanced technologies for future fifth generation (5G) wireless communication systems. Studies the emerging wireless communication technologies such as small cells, coordinated multipoint (CoMP), massive multiple-input multiple-output (Massive-MIMO), millimeter wave (mmWave), device-to-device (D2D), etc. Combinations of these technologies may support future explosive higher data rates, lower latency, and larger coverage area. Prerequisite: EE 726.

EE 856. Information Theory (3).
Introduction to information theory for students of communication theory, computer science, and statistics. Introduces the definitions of entropy, relative entropy, and mutual information. Discusses asymptotic equipartition property, entropy rates of a stochastic process, channel capacity, differential entropy and Gaussian channel. Prerequisite: EE 754.

EE 864. Multi-Service Over IP (4).
3 Classroom hours; 2 Lab hours. Advanced networking course; deals with challenges and solutions associated with sending voice, video and data (multi-service) over IP. Includes telephony signaling, call routing and dial plans, measuring voice quality, voice digitization and coding, quality of service issues, and current research. Hands-on lab allows students to design, troubleshoot and test different VOIP scenarios. Prerequisite: CS 764.

EE 876. Master's Thesis (1-6).
Repeatable for credit toward the MS thesis option up to 6 hours. Graded S/U. Prerequisite: prior consent of MS thesis advisor.

EE 877. Special Topics in Electrical Engineering (2-3).
New or special courses are presented under this listing on sufficient demand. Repeatable for credit. Prerequisite: departmental consent.

EE 877AA. Information Theoretic Security (3).
Presents a framework for secure communication, which makes no assumptions on the computational power of a potential adversary. Begins with fundamental tools from information theory and cryptography, which provide the basis for modern research on security at the physical layer and secret-key generation. Various models and applications are discussed. Prerequisite: IME 254.

EE 877M. 5G Wireless Communication (3).
Students learn the fundamental technologies for future, e.g., 5G wireless communication systems candidates. Topics include: OFDM, CoMP (coordinated multipoint reception), massive MIMO, small cell networks, millimeter wave communications, D2D communications, and lattice codes. Course requires a knowledge of probability, random variables, random processes, and fundamental modulation and demodulation schemes for digital communication systems, basic channel models, e.g., additive white Gaussian noise (AWGN), multipath fading, and interference. Prerequisites: ECE 726, ECE754.
EE 877S. Detection and Estimation (3).
Deals with extracting information from observed signals. Observations are typically distorted or corrupted due to various reasons. Therefore, detection and estimation problems are formulated in a probabilistic framework, where unknown behavior is assumed to be random. The objective is to extract information about some phenomenon related to a given random observation. Detection problems aim at deciding among a finite number of possibilities. Estimation problems aim at finding estimated values of certain quantities that are not observed directly. Detection and estimation theory has a wide range of applications, including networking and communication systems, power systems and control systems. Prerequisite: EE 754 or departmental consent.

EE 877X. EECS Graduate Seminar (1).
Provides an opportunity to learn about contemporary research and technologies in electrical engineering, computer engineering and computer science. Students are expected to strengthen their topics of current interest and explore beyond their own research area thorough oral and written presentations.

EE 877Y. Nonlinear Systems (3).
Focus is more on methods to analyze nonlinear systems, as opposed to control of nonlinear systems. Topics include: (1) introduction to nonlinear systems, (2) one-dimensional nonlinear system: bifurcations (saddle-node, transcritical, and pitchfork bifurcations), (3) two-dimensional nonlinear systems: phase portraits, limit cycles, bifurcations (saddle-node, transcritical, pitchfork, and Hopf bifurcations), (4) weakly nonlinear oscillators (Van der Pol equation, and Duffing equation), method of averaging, (5) Lyapunov analysis, and (6) describing function methods. Prerequisite: EE 792.

EE 877Z. Nano Communications (3).
Nano communication is the exchange of information at the nanoscale and it is at the basis of any wired/wireless interconnection of nano machines, enabling a plethora of applications in the biomedical, environmental, industrial and military fields. Presents different approaches to realize this type of communication through electromagnetic, ultrasonic and magnetic-induction communications. Each of these alternatives is described by following a bottom-up approach, i.e., first, an overview of its specific enabling device technology is presented and, second, the state of the art in terms of communication channel modeling, physical layer techniques (e.g., modulation, coding, transmission) and link layer solutions (e.g., medium access control, error control) is described. In addition to the theoretical knowledge that is assessed in exams, students are assigned independent group projects focused in the different core areas of the field. Through the projects, students have the chance to learn and practice COMSOL Multi-physics, MATLAB, and LabVIEW. At end of the semester, students write a technical report and orally present their work in class. Course provides students with the necessary knowledge to work in a cutting-edge research field, at the intersection of nanotechnologies and information and communication technologies.

EE 878. Master's Directed Project (1-4).
A project conducted under the supervision of an academic advisor for the directed project option. Requires a written report and an oral presentation on the project. Graded S/U. Prerequisite: consent of academic advisor.

EE 885. Robust Control Systems (3).
When applying control theory to real systems, engineers are faced with uncertainties in plant models, plant disturbances, and sensor noise. Robust control theory is an optimal approach for applying feedback control theory to systems with these uncertainties. Students completing this course should be capable of analyzing a linear control system in terms of performance and robustness, designing controllers and estimators using H-infinity optimization, and reducing plant model and/or controller implementation orders. Prerequisites: EE 792; EE 684 or ME 659.

EE 886. Error Control Coding (3).
Introduces error control codes, including Galois fields, linear block codes, cyclic codes, Hadamard codes, Golay codes, BCH codes, Reed-Solomon codes, convolutional codes, Viterbi decoding algorithm, Turbo codes, and ARQ protocols. Applies to digital 3G and 4G cellular and satellite communication systems. Prerequisite: EE 726.

EE 893. Optimal Control (3).
Reviews mathematics relevant to optimization, including calculus of variations, dynamic programming, and other norm-based techniques. Formulates various performance measures to define optimality and robustness of control systems. Studies design methods for various classes of systems, including continuous-time, discrete-time, linear, non-linear, deterministic and stochastic systems. Prerequisite: EE 792.

EE 897. Operation and Control of Power Systems (3).
Acquaints electric power engineering students with power generation systems, their operation in economic mode, and their control. Introduces mathematical optimization methods and applies them to practical operating problems. Introduces methods used in modern control systems for power generation systems. Prerequisite: EE 598.

EE 898. Electric Power Quality (3).
Measurement, analysis, modeling, simulation and mitigation of electric power quality on medium- and low-voltage distribution systems. Prerequisite: EE 697.

EE 976. PhD Dissertation (1-16).
Repeatable for credit. Graded S/U. Prerequisite: admission to doctoral aspirant status.

EE 981. Cooperative Education (1).
A work-related placement with a supervised professional experience to complement and enhance the academic program. Intended for master's-level or doctoral students in electrical engineering. Repeatable for up to 8 hours. May not be used to satisfy degree requirements. Graded S/U. Prerequisites: departmental consent and a graduate GPA of at least 3.00.

EE 986. Wireless Spread-Spectrum Communication (3).
Explains what spread-spectrum communication is and why direct-sequence code-division multiple access (DS-CDMA) spread-spectrum is used for wireless communication. Studies the block diagrams of the IS-95 forward and reverse wireless communication links under multi-path mobile fading environment using analysis techniques and simulation. Analyzes pseudo-noise (PN) signal generation, the bandlimited waveform shaping filter, convolutional coding, interleaver, Walsh code orthogonal modulation, Rake finger receivers, no coherent Walsh orthogonal sub-optimal demodulation, other simultaneously supportable subscribers, and third generation CDMA. Prerequisite: EE 726.

EE 990. Advanced Independent Study (1-3).
Arranged individual, independent study in specialized content areas in engineering under the supervision of a faculty adviser. Repeatable toward the PhD degree. Prerequisites: advanced standing and departmental consent.

EEPS - Earth, Environmental and Physical Sciences
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.
EEPS 700. Technical Sessions (1).
Through seminar presentations by students, faculty and guest lectures, students critically analyze essential elements and skills of effective oral presentation of scientific research methodology, data and results to audiences of diverse backgrounds; learn techniques of effective use of visual display media, presentation styles and speaker-audience interactions. Must be taken for two semesters for maximum of 2 credit hours toward the degree. Prerequisite: graduate standing or instructor's consent.

1 Classroom hour; 4 Lab hours. Survey of computer applications commonly used by scientists, emphasizing nonstatistical applications. Includes computer-assisted instruction, data management, presentation packages, Internet resources, digital image analysis, graphics and spreadsheets, reference acquisition and management, desktop publishing, and specialized applications for modeling, simulations, mapping and time-series analysis. Lectures and demonstrations involve individual hands-on activities and student projects. Prerequisite: graduate standing or instructor's consent.

EEPS 702. Research Methods (1).
Essential elements and principles in scientific research, such as project design, funding, literature research, publication practices and issues of conflict of interest and commitment. Also addresses research misconduct and ethical issues in data acquisition, management, sharing and ownership. May include speakers from the library and research offices. Prerequisite: graduate standing or instructor's consent.

EEPS 710. Great Discoveries and Controversies in Science (3).
Foundation, history and insights that led to great discoveries in various scientific fields, and which caused great and continuing controversies in scientific theory, the advancement of science, and lessons and perspectives to be learned for future scientific research. Course involves lectures, seminars, literature research, essay writing and presentation by students. Course includes diversity content. Prerequisite: graduate standing or instructor's consent.

EEPS 720. Scientific Writing (1).
Procedure, organization, format and style of a variety of technical and scientific publication vehicles, such as abstracts, professional journal articles, government and industrial reports and paper and book reviews. Essential elements and skills of effective scientific written communication. Must be taken in conjunction with any course (except EEPS 889 and 890) that requires extensive writing. May be repeated two times for different courses for a maximum of 2 credits toward the degree. Prerequisite: EEPS 700.

EEPS 721. Current Issues in Global Environmental Science (3).
Introduces and uses basic concepts relating to ecosystems, habitats, environments and resources as a basis for understanding environmental problems at different spatial and temporal scales. An interdisciplinary approach frames these problems to facilitate understanding of inter-relationships required for environmental analysis, remediation and management. Course includes diversity content. Prerequisite: EEPS 710 or instructor's consent.

EEPS 760. Whole Earth Geophysics (3).
Examines the principles of physics as applied to both surface features and the interior configuration of the earth. Studies include an understanding and measurement of the physical properties of magnetism, heat flow, seismicity and gravity. These physical parameters are used to determine the internal structure and to explain the active processes of the earth. Prerequisites: GEOL 111, MATH 243 and PHYS 214 or equivalent, or instructor's consent.

EEPS 781. Cooperative Education (1-6).
Provides practical field experience, under academic supervision, that complements and enhances the student's academic program. Graded Cr/NCr. Prerequisite: departmental consent.

EEPS 889. Internship (1-6).
Students may gain interdisciplinary skills by participating in applied and/or basic research internship projects with local business, industry or government agencies. Enrollment in internship projects requires an approved proposal. Completion of an internship for graduation requires a formal oral presentation of the internship activity and a written report. For students choosing the internship option. Repeatable for a maximum of 6 credit hours toward the degree. Enrollment is limited to 3 credit hours before a student's internship proposal is approved. Prerequisite: consent of internship supervisor.

EEPS 890. Thesis (1-6).
For students choosing the thesis option. Repeatable for a maximum of 6 credit hours toward the degree. Enrollment is limited to 3 credit hours before a student's thesis proposal is approved. Prerequisite: EEPS 720 and consent of thesis supervisor.

EL - Educational Leadership
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

EL 750. Experienced Administrator's Workshop (1-6).
Offers a variety of administrative topics.

EL 750G. Serving on an Accred team (1-3).
This workshop is open to any educator serving as member of an AdvancED External Review Team. Credit is earned by participating during the entire review and submitting the required reports.

EL 750V. School Improvement Plan 1 (1).
This workshop is open to any educator serving as an AdvancED External Visiting Team Chairperson or a member of the Internal Steering Committee. Credit is earned by: (a) completing a school improvement plan or a peer review report, and b) attending an AdvancED Kansas Profiling workshop or the Fall Conference.

EL 750W. School Improvement Plan 2 (1).
This workshop is open to any educator serving as an AdvancED External Visiting Team Chairperson or a member of the Internal Steering Committee. Credit is earned by: (a) completing a school improvement plan or a peer review report, and b) participating in an AdvancED Kansas School Improvement Plan workshop/webinar or Fall Conference.

EL 750Y. School Improvement Implementation I (1).
Open to any educator serving as an AdvancED External Visiting Team Chairperson or a member of the Internal Steering Committee. Credit is earned by: (a) documented school implementation of the school improvement plan or a peer review report, and (b) participating in an AdvancED Kansas data workshop/webinar or fall conference.

EL 750Z. School Improvement Implementation II (1).
Open to any educator serving as a member of the Internal Steering Committee. Credit is earned by: (a) completing the accreditation report, and (b) participating in the AdvancED Kansas External Review workshop/webinar or fall conference.

EL 803. Introduction to Educational Leadership, Team-Based Collaboration, and Inquiry Process (3).
Participants engage in self-assessment and readiness for becoming a school administrator. Includes discussing and learning issues and techniques for measurement in the cognitive, affective and psychomotor domains. Also reviews the basics of educational research, the nature of
research methodologies, and methods for the preparation of research reports. Prerequisite: admission to the MEd in educational leadership or instructor's consent.

EL 813. Introduction to Educational Leadership (3).
Explores systems thinking in schools, leadership and interpersonal skills in the context of budgeting processes, crisis and safety planning, and other building-level educational issues. Examines theoretical concepts related to financial planning and teacher evaluation programs. Reviews knowledge necessary to plan and organize teams, projects, and the resources necessary to carry out day-to-day functional activities of school. Engages in simulated exercises to acquire interpersonal skills desirable for group collaboration and communication and leading change process. Conducts action research in school settings. Prerequisite: EL 803.

EL 814. Instructional Leadership in a Systems Thinking Environment (3).
Focuses on curriculum, instruction, assessment and professional development through a framework of systems and organizational theory. Students examine theoretical concepts related to curriculum philosophies and developmental processes, review recent programs and proposals as well as curriculum development at the building and school system levels. Prerequisite: EL 813.

EL 815. Building-Level Leadership Practicum I (3).
Spend time in schools identifying how major theories of administration apply to specific problems in the school and how the school interacts with the district and the community. Practice day-to-day activities of an educational leader in a systems-thinking, building-level setting. Focus on building collaboration skills and development of interpersonal skills. Prerequisite: EL 803. Corequisite: EL 813 (inquiry-based emphasis) or 814 (urban-based emphasis).

EL 823. Changing the Culture in an Environment of Collaboration and Partnership (3).
Examines theoretical concepts of building relationships through effective interpersonal skills. Includes development of interpersonal skills that lead to success in collaborating and supervising staff, and development of community relations to enhance support of schools. Explores change theory and its application in transforming the educational process and culture of a school. Engages in simulated exercises to acquire interpersonal skills desirable for group collaboration and communication, and leading change process. Conducts action research in school settings. Prerequisites: EL 803, 813, 833, 843 or by permission.

EL 824. Leadership for Managing the Urban Organization (3).
Focuses on critical areas of management in urban schools, including facilities, governance structures, budget, school safety and technology leadership. Students examine the operational procedures that support an effective learning environment in the school. Prerequisites: EL 825 and 823 or 831.

EL 825. Building-Level Leadership Practicum II (3).
Spend time in schools identifying how major theories of administration apply to specific problems in the school and how the school interacts with the district and the community. Practice day-to-day activities of an educational leader in a systems-thinking, building-level setting. Practicum experiences encompass more advanced leadership activities than practiced during EL 815. Focus on change process, conflict resolution, staff supervision and building community partnerships. Prerequisites: EL 813 or 814, 815. Corequisite: 823 or 831.

EL 831. Diversity and Social Justice (3).
Examines the role of school leadership in an increasingly complex and diverse society. Students investigate diversity in its various forms including race, ethnicity, language, gender, socioeconomic status, disability and religious beliefs. Students analyze inequities within societal, institutional and personal frameworks and engage in problem solving toward socially equitable educational practices and inclusive learning communities. Prerequisite: EL 825.

EL 833. Seminar: School Law and Personnel Management (1-3).
Examines concepts related to staffing issues, including selection and recruitment, certification, orientation, staff development, evaluation, transfer and dismissal, and retirement. Covers general concepts of law, interpretations of statutes and court decisions affecting education, and the legal responsibilities of school personnel and professional negotiations. Prerequisites: EL 803, 813 or by permission.

EL 834. Leading and Managing Personnel and Target Student Populations in an Urban District (3).
Focuses on school personnel management and school law related to specific student groups that populate an urban district. The legal aspects of schooling, particularly those faced by a building administrator are the major focus. Licensure, recruitment, selection, orientation, evaluation, staff development and compensation are addressed. Prerequisites: EL 823, 824.

EL 835. Building-Level Leadership Practicum III (3).
Spend time in schools identifying how major theories of administration apply to specific problems in the school and how the school interacts with the district and the community. Practice day-to-day activities of an educational leader in a systems-thinking, building-level setting. Focus on application of concepts related to selection, recruitment, certification, orientation, staff development, evaluation, transfer, dismissal and retirement. Apply general legal concepts and statutes to various situations and personal/professional liability. Practicum experiences encompass advanced leadership activities. Third semester practicum includes broad and in-depth leadership activities. Prerequisites: EL 823, 825.

EL 843. Seminar: Curriculum and Learning Theory (1-3).
Examines theoretical concepts related to curriculum philosophies and developmental processes. Examines recent programs and proposals as well as curriculum development at the building and school system levels. Reviews techniques of program evaluation and major learning theories and principles. Prerequisites: EL 803, 813, 833 or by permission.

EL 845. Building-Level Leadership Practicum IV (3).
Spend time in schools identifying how major theories of administration apply to specific problems in the school and how the school interacts with the district and the community. Practice day-to-day activities of an educational leader in a systems-thinking, building-level setting. Apply the concepts of curriculum theories and major learning theories and principles as they relate to academic and behavioral aspects of the classroom. Fourth semester practicum culminates in proficiency of building-level leadership experiences. Prerequisites: EL 835. Corequisites: EL 843 (inquiry-based emphasis), or 823 (urban-based emphasis).

EL 852. Special Studies in Educational Administration and Supervision (3).
Group studies in new materials, new research or innovations in advanced educational administration and supervision areas for practicing administrators or advanced students. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

EL 855. Practicum: Postgraduate I (2).
The first of two postgraduate courses for building-level administrators to continue learning with a mentor and faculty supervisor. Provides the graduate building-level leader a chance to communicate and seek guidance during the early phase of building leadership. The major topics outlined for this course may also be accomplished during the
second postgraduate course. Prerequisite: licensure as a building-level administrator.

**EL 884. Leadership in Vision, Collaboration and Planning (3).**Candidates study multiple visioning and collaboration efforts for developing long-range, strategic planning in preparing for the future of preK through graduation learning environments. The evaluation of existing educational facilities is an important element and includes an overview of operations for such facilities. Prerequisite: master's degree or instructor's consent.

**EL 890. Special Problems in Administration (1-4).**Directed problems in research for master's students primarily under supervision of a graduate instructor. Prerequisite: instructor's consent.

**EL 947. Postprogram District-Level Internship (2).**A two-semester course designed for individuals who have a conditional leadership certification license and a full-time position in a district-level program. Focuses on the performance expectations of district-level administrators as identified in the ISLLC standards and KSDE certification guidelines. The student works under the guidance of a mentor, who, together with the university clinical supervisor, assesses the intern's performance level. Prerequisites: completion of district-level certification program, conditional leadership license from KSDE, and must be currently in a district-level position.

**EL 953. Financial Support of Education (3).**Focuses on the financial support of education at local, state and national levels. Emphasizes methods of taxation, budget preparation and efficient expenditures.

**EL 956. Human Services Leadership (3).**Designed for those students preparing to become district-level school administrators in general, and school superintendents in particular. Focuses on the selection, retention, development and evaluation of the panoply of personnel that comprise a typical school district. Particular emphasis is placed on hiring practices, staff development, conflict resolution and contract management. Prerequisite: admission into the district-level certification program.

**EL 963. Policy and Politics in Educational Leadership (3).**Investigates the relationship between society and school as it relates to the political process. Students examine the interaction and influence of federal, state and local policies and politics on educational decision making and how the implementation of laws and policies occurs at the district level. Students examine the pressures applied by diverse stakeholder and interest groups that have differential control as they relate to the various statuses afforded different groups in U.S. society.

**EL 964. Administration & Supervision of Special Education (3).**Provides district-level administrators with understanding of federal and state laws that apply to students with exceptionalities, and information related to the legal, instructional and administrative aspects of special education. Covers the mobilization of community resources to support quality education for all children. Addresses practical ethical dimensions of district-level leadership by providing a framework for reflection and deliberation. Explores the various ecological contexts of the family, school and community. Prerequisite: admission to district-level program.

**EL 968. Technology Orientation (1).**Provides new doctoral candidates with an orientation on the application of a variety of modern communication technologies and software packages to successful completion of the doctoral program in educational leadership. Prerequisite: admission to the EdD program.

**EL 969. Introduction to Educational Research and Academic Writing (3).**Introduces students to ethical standards of educational research, the various research traditions and methodologies employed in the conduct of educational research. Students learn to conduct a literature review using both library and online search tools, to discriminate among the types of published works available, to critically read research and related literature, to develop an understanding of academic writing conventions and expectations, and develop facility with APA 6 style. Prerequisite: admission to the EdD program in EL.

**EL 970. Theoretical Research Perspectives and Applications for Educational Leadership (3).**Examines the relationship between theory and practice in educational leadership. Participants consider various theoretical frameworks for empirical studies, program designs and organizational implementation efforts, and take initial steps toward an integration of those frameworks. Prerequisite: admission to the EdD program in EL.

**EL 971. Contemporary Policy and Organizational Theories in Education (3).**Focuses on contemporary theories of policy and organization, and their application to P-16 educational organizations. Major theories studied include organizational culture, organizational learning, and organizational sensemaking. Critical, feminist and postmodern policy and organizational theoretical perspectives are also examined. Prerequisites: admission to the EdD program, EL 970, 981, concurrent enrollment in EL 982.

**EL 972. Leadership Theories Seminar (3).**Facilitates in-depth investigations of leadership theories and their application to research and practice. Prerequisites: admission to the EdD program, EL 970, 971, concurrent enrollment in EL 986.

**EL 981. Introduction to Field-Based Research (5).**Provides doctoral students with an introduction to field-based inquiry/problem-solving strategies; begins the development of field-based problems/issues, and provides practice in field research design, implementation and reporting. Prerequisite: admission to the EdD program in EL.

**EL 982. Introduction to Field-Based Research II (5).**Continues EL 981 and provides opportunities for more sophisticated and complex field-based studies. Prerequisite: admission to the EdD program in EL.

**EL 983. Research Proposal Development (3).**Focuses on developing the individual dissertation research proposal, particularly conceptualizing the research problem and research questions, expanding the literature review, and identifying potential research designs. Prerequisites: admission to the EdD program or instructor's consent, EL 981, 982.

**EL 984. Theoretical Frameworks for Organizational Analysis (3).**Introduces doctoral students to the theoretical frameworks and constructs that have an effect on educational organizations. Students study appreciative inquiry, action research and social capital. Students learn to apply these frameworks and constructs to forthcoming field studies as well as consideration as a lens for viewing the dissertation. Prerequisites: EL 970, 971, 981, 982. Corequisite: EL 983.

**EL 986. Advanced Field-Based Research I (5).**Provides advanced doctoral students with opportunities to increase their knowledge and experience with field-based research. Prerequisites: admission to the EdD program, EL 981, 982, 983, concurrent enrollment in EL 972.
EL 987. Advanced Field-Based Research II (3-5).
Provides advanced doctoral students with opportunities to increase their knowledge and experience with field-based research. Prerequisites: admission to EdD program, EL 983, 986.

EL 989. Research Design (3).
Students develop research design techniques appropriate for use in educational leadership doctoral dissertation proposals. Prerequisites: EL 981, 982, 983, 986.

EL 990. Special Problems in Administration (1-4).
Directed problems in research for specialist and doctoral degree students under supervision of a graduate instructor. Prerequisite: instructor's consent.

EL 992. Superintendency/Internship (3-6).
Two-semester course designed for candidates/interns who are completing program coursework to obtain licensure as district-level school leaders. A research-based analysis for a long-term change project is designed by each student based on their projected leadership interest. Requirements focus on role expectations of district-level leaders and include field experiences designed to emphasize knowledge and performance skills and functions of the respective standards in leadership practices and procedures. Capstone course for the program. Prerequisite: instructor's consent.

EL 999. Dissertation Research (2-6).
Provides students with dissertation proposal and dissertation advisement and may be taken for 2-6 credit hours per semester for a maximum of 50 credit hours. Up to 15 credit hours may be counted toward program completion. Graded S/U. Prerequisites: admission to EdD program in educational leadership, required coursework, and successful completion of comprehensive examination.

EMBA - Executive MBA

Courses numbered 300 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

EMBA 800. Decision Making and Analytics (2.5).
Focuses on critical evaluation of the nature of business problems and opportunities in ways that allow data-driven decision making. This includes problem discovery and framing, data exploration using descriptive techniques, and inferential analysis using parametric (e.g., t-tests, correlation, regression) and nonparametric techniques. It also emphasizes appropriate communication of data. Prerequisite: admission to EMBA program.

EMBA 801. Organizational Behavior (2.5).
Examines leadership styles, power, authority, motivations, communications and their impact on human behavior. Includes organizational learning, team building, participative management, transformational leadership, managing diversity, conflict management, network organizations, organizational change and re-engineering. Prerequisite: admission to EMBA program.

EMBA 802. Strategic Marketing (2.5).
Focuses on strategic marketing analysis, planning, integration and implementation. Designed to prepare middle, senior and executive-level leaders to make effective marketing decisions and is taught using the case-study method. Introduces key principles and processes for the development of effective integrated marketing programs aligned with organizational strategy. Prerequisite: admission to EMBA program.

EMBA 803. Business Economics (2.5).
Focuses on the elements of economics that are most useful for middle- and upper-level managers. Covers the basic concept of a market (demand and supply), the internal operations of the firm (production, cost structures, internal organization and pricing policies), and the micro environment of the firm (competitive market structures and government regulation). Prerequisite: admission to EMBA program.

EMBA 804. Operations and Supply Chain Management (2.5).
Provides a fundamental understanding of manufacturing and service operations and their role in the organization, along with other functions like sales, finance, etc. An overview of a range of topics including operations strategy, capacity planning, quality management, lean, inventory management, and forecasting. Special emphasis is placed on the conceptual frameworks and modeling tools used to implement improvements in business processes. Also highlights the use of analytics in operations and supply chain management. Prerequisite: admission to EMBA program.

EMBA 805. Global Business and Competitiveness for Executives (3).
Focuses on applications of economic analysis to international business decisions, international and macroeconomic components, understanding the implications of macro policies and developments for the firm's business environment, expansions into foreign markets, foreign investment and the relevance of global changes in technology and labor productivity, and foreign exchange, balance of payments, and trade policy issues. Prerequisite: admission to EMBA program.

EMBA 806. Financial Reporting & Analysis (2.5).
Studies the fundamental concepts of financial accounting and reporting by business entities in accordance with generally accepted accounting principles. Approaches the material from the perspective of the financial statement user rather than the financial statement preparer. Therefore, emphasis is placed on the use and interpretation of information contained in business financial statements by managers, investors and creditors. Prerequisite: admission to EMBA program.

EMBA 807. Corporate Finance (2.5).
Covers the foundations of finance with an emphasis on applications that are vital for corporate managers. An overview of basic financial analysis. Considers the major financial decisions made by corporate managers. Essential in most of these decisions is the process of valuation, which is an important course emphasis. Topics include criteria for making investment decisions, valuation of financial assets, relationships between risk and return, risk management, and capital structure choice. Course goals are to examine the role of finance in supporting the functional areas of a firm and to foster an understanding of how financial decisions themselves can create value. Prerequisite: admission to EMBA program.

EMBA 808. Accounting for Planning and Control (2.5).
Introduces students to modern tools and techniques designed to generate performance measures used for decision making, management and control purposes. Accounting information is used for a variety of managerial decisions such as product pricing and profitability analysis. Illustrates how performance measures are integrated into management control systems so as to align the objectives of (division) managers with those of the shareholders. Key building blocks of such systems are cost allocations, transfer pricing and compensation schemes. Illustrates the strengths and weaknesses of commonly-used performance metrics such as the Balanced Scorecard. Prerequisite: admission to EMBA program.

EMBA 809. Strategic Information Technology (1.5).
Explores how to successfully incorporate information technology into organizations to support business model innovation, business process innovation, and management decision making. Course goals are to equip managers with the understanding of how information technology can be used for value creation and sustainable competitive advantage. Prerequisite: admission to EMBA program.
EMBA 810. Organizational Investment Strategies for Executives (1.5).
Focused on strategic investment and risk management building on the valuation, decision-making tools and analytics developed in the corporate finance and accounting modules. Portfolio management, valuation, asset allocation, security selection and performance assessment are addressed from a theoretical and practical hands-on portfolio project. Risk management using options and derivatives are also integral parts of the course. Prerequisite: admission to EMBA program.

EMBA 811. Competitive Strategy (2.5).
Integrates the other courses in the program by addressing the strategic management of an organization. Focuses on the factors surrounding achieving and sustaining competitive advantage in the business unit and extending competitive advantage across business units. Strategy is discussed in terms of how to create maximum value for customers and to capture as much of that value as possible for growing and sustaining the organization. Prerequisite: admission to EMBA program.

EMBA 812. Business Law and Ethics for Executives (2.5).
Stimulates critical thinking about the application of law and ethics in business. Provides an overview of the legal system and dispute resolution procedures. Covers specific legal topics of particular importance to business leaders including contracts, torts, constitutional law, product liability, intellectual property, employment law, business entities and business regulation. Introduces students to ethical decision making processes, the major philosophical traditions in ethical theory, as well as principles of corporate governance, corporate responsibility, and sustainability. Focuses on stimulating analytical thinking and class discussion about how to apply ethical principles to practical business situations. Prerequisite: admission to EMBA program.

EMBA 890. Executive Seminar in Special Topics (0.75-3).
Repeatable for credit. Prerequisite: admission to EMBA program.

ENGL - English
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ENGL 503. American Literature I (3).
The major fiction, poetry and nonfiction prose of the classic American period. Discussions may include the historical evolution of American letters, the development of the novel and romance, the transcendent period, and the rise of Western and regional literatures. Prerequisites: junior standing and one college literature course.

ENGL 504. American Literature II (3).
Fiction, poetry and drama from the late 19th century to after World War II. Readings also may include literary criticism and other types of nonfiction prose. Discussions cover themes, topics and literary forms inspired by the social and cultural movements and events of the first half of the 20th century. Prerequisites: junior standing and one college literature course.

ENGL 508. Critical Studies in Film (3).
Subjects announced each semester. Intensive analysis of a particular film genre, period, director or theme, giving special attention to the historical, cultural, theoretical and technical contexts in which the films were made. Repeatable once for credit with a change of content. Prerequisites: ENGL 102, one college-level literature or film course.

ENGL 512. Studies in Fiction (3).
Subjects announced each semester. Repeatable once for credit. Prerequisites: junior standing and one college literature course.

ENGL 512C. Studies in Fiction: The Supernatural (3).
Subjects announced each semester. Repeatable once for credit. Prerequisites: junior standing and one college literature course.

ENGL 513. Studies in Poetry (3).
Subjects announced each semester. Repeatable once for credit. Prerequisites: junior standing and one college literature course.

ENGL 514. Studies in Drama (3).
Subjects announced each semester. Repeatable once for credit. Prerequisites: junior standing and one college literature course.

ENGL 515. Studies in Shakespeare (3).
Subjects announced each semester. Repeatable for credit, except by students who take ENGL 340. Prerequisites: junior standing and one college literature course, or instructor's consent.

ENGL 516. Studies in a Major Author (3).
Designed to allow in-depth study of the works of a major American or British author, emphasizing the development of that author's art and considering the work from a variety of critical perspectives.

ENGL 517. Scriptwriting I (3).
General education advanced further study course. Cross-listed as THEA 516. The writing of scripts for performance. Emphasizes both verbal and visual aspects of scriptwriting. If possible, the scripts are given in-class readings by actors. Prerequisite: instructor's consent.

ENGL 518. Scriptwriting II (3).
General education advanced further study course. Cross-listed as THEA 517. The writing of scripts for performance. Emphasizes both verbal and visual aspects of scriptwriting. If possible, the scripts are given in-class readings by actors. Prerequisite: instructor's consent.

ENGL 520. Epic and Romance (3).
Readings in classic and early Western narratives, beginning with Homer's Bronze-Age epic and ending with late medieval romance. Examines the literary conventions and cultural assumptions that typify these works. Pays particular attention to the historical shift in interest from epic to romance as a reflection of broad changes, not only in literary form and content, but also in social customs and worldview. Prerequisites: junior standing and one college literature course.

ENGL 521. Medieval Literature (3).
Works by writers of the eighth to 15th centuries, often thematically or historically focused. Readings may include lyric poetry, epic, romance, saga and drama. Prerequisites: junior standing and one college literature course, or instructor's consent.

ENGL 522. Renaissance Literature (3).
Works by writers of the 16th through the mid-17th centuries, often thematically or historically focused. Readings may include lyric poetry, drama, fiction and nonfiction prose. Prerequisites: junior standing and one college literature course, or instructor's consent.

ENGL 524. Restoration and 18th Century Literature (3).
Works by writers of the late 17th through the 18th centuries, often thematically or historically focused. Readings may include poetry, fiction, drama and nonfictional prose. Prerequisites: junior standing and one college literature course, or instructor's consent.

ENGL 526. Romantic Literature (3).
Works by writers of the late 18th and/or early 19th centuries, often thematically or historically focused. Readings may include fiction, poetry, drama, and/or literary criticism or other nonfiction prose. Prerequisites: junior standing and one college literature course, or instructor's consent.

ENGL 527. Victorian Literature (3).
Works by writers of the mid to late 19th century, often thematically or historically focused. Readings may include fiction, poetry, drama,
and/or literary criticism or other nonfiction prose. Prerequisites: junior standing and one college literature course, or instructor's consent.

ENGL 532. Modern British Literature (3).
Irish and English literature of the 20th century. Subjects announced each semester. Repeatable once for credit with change of topic. Prerequisites: junior standing and one college literature course.

ENGL 533. Contemporary Literature (3).
Modern literature, primarily British and American, since 1950. Subjects announced each semester. Repeatable once for credit. Prerequisites: junior standing and one college literature course.

ENGL 536. Writing by Women (3).
Cross-listed as WOMS 536. Explores various themes in critical approaches to literature composed by women writers, especially those whose works have been underrepresented in the literary canon. Genres and time periods covered, critical theories explored, and specific authors studied vary in different semesters. Course includes diversity content.

ENGL 540. Introduction to Critical Theory (3).
Introduces students to critical literary theory. Topics may include readings in gender theory, historicism, psychoanalytical theory, cultural criticism, Marxism, reader-response theory and deconstruction. May also offer a survey of classical and early-modern critical methodologies from Plato to the formalist schools of the early 20th century. Prerequisites: English 102 and/or instructor's consent.

ENGL 546. Studies in Ethnic Literature (3).
The study of literature by a specific ethnic group or groups in the United States or Great Britain. Content varies by instructor, and subjects are announced each semester. Fosters an appreciation for the unique literary tradition of a distinct ethnic group or groups and gives students some understanding of the larger historical and national contexts in which that tradition emerged. Course includes diversity content. Repeatable once for credit with a change in topic. Prerequisites: junior standing and one college-level literature course.

ENGL 550. Independent Reading (1-3).
For majors and nonmajors who wish to pursue special reading or research projects in areas not normally covered in coursework. Repeatable once for credit. Prerequisites: ENGL 102 and departmental consent.

ENGL 560. Grammar and Style in Composition (3).
Explores writing at the sentence and paragraph levels. Students learn to craft stylish, surprising and impactful sentences and paragraphs suited to various kinds of writing. Examines the social, cultural and political dimensions of English usage, such as correctness, the teaching of grammar, and new writing technologies. Because of its combined emphases on practice and theory, this course should appeal both to students who wish to enhance their writing skills and to those interested in teaching English. Prerequisites for undergraduates: English 101 and 102.

General education advanced further study course. Designed to allow in-depth study of the graphic novel with special emphasis on critical responses. Readings may be thematically or historically focused. Prerequisites: junior standing, ENGL 377, and at least one other college literature course or instructor's consent.

ENGL 580. Special Studies (1-3).
Topic selected and announced by the individual instructor. Repeatable once for credit. Prerequisites: junior standing and one college literature course or departmental consent.

ENGL 581. Composition Practicum (1).
Required for all teaching assistants in English. Does not count for credit toward the MA or MFA degree. Focuses on techniques and strategies for teaching composition. Each participant enrolls in the syllabus group appropriate to the composition course he or she teaches. Repeatable for credit. Graded S/U. Prerequisite: appointment as a graduate teaching assistant in the department of English.

ENGL 585. Writer's Tutorial: Prose Fiction (3).
Tutorial work in creative writing in literary fiction with visiting writer. Repeatable for credit. Prerequisite: consent of creative writing director.

ENGL 586. Writer's Tutorial: Poetry (3).
Tutorial work in creative writing in literary poetry with visiting writer. Repeatable for credit. Prerequisite: consent of creative writing director.

ENGL 590. Senior Seminar (3).
In-depth study of a specialized literary topic. Emphasis is on focused readings, interactive debate, individual research and the presentation of research reports and essays. Topics vary according to the specialization of the instructor. This is a required capstone course for the English major and should be taken during a student's final year of study. Prerequisite: completion of 18 hours toward the major. Not available for graduate credit.

ENGL 665. History of the English Language (3).
This course offers an in-depth historical study of the English language by tracing the history of how the language has changed across time. We will consider Old, Middle, Modern, American English, as well as newer World Englishes. We will address the nature and mechanisms of language change over time and the social, political, and other historical conditions related to such changes. The course will focus on the particular phonological, morphological, syntactic, lexical, and semantic changes that have happened diachronically, while touching upon the literature and culture of the different historical periods. Prerequisite: ENGL/LING 315.

ENGL 667. English Syntax (3).
Cross-listed as LING 667. Studies the basic principles of English syntax, covering the major facts of English sentence construction and relating them to linguistic theory. Prerequisite: ENGL/LING 315 or equivalent, or departmental consent.

ENGL 668. Field Methods of Linguistics (3).
Cross-listed as LING 668. Students learn how to collect and analyze data from a language unknown to them by interacting with a native speaker – course language consultant. Students gain some familiarity with the phonetics, phonology, morphology and syntax of the language, while developing techniques for studying an unfamiliar language more generally and for managing the data collected. Course includes diversity content. Repeatable three times for a total of 9 credit hours. Prerequisite: ENGL/LING 315.

ENGL 672. Studies in Language Variety (3).
Cross-listed as LING 672. Introduces the study of language variety with special attention to regional and social dialect in America and methods of studying it. May be repeated for credit when content varies. Prerequisite: ENGL/LING 315 or departmental consent.

ENGL 680. Theory and Practice in Composition (3).
Introduces theories of rhetoric, research in composition and writing programs, and practices in schools and colleges. Students investigate the process of writing, analyze varieties and samples of school writing, and develop their own writing skills by writing, revising and evaluating their own and others' work. Designed especially for prospective and practicing teachers; may not be taken for credit by students with credit in ENGL 780.
ENGL 681. Editing American English (3).
Students master the rules and conventions of grammar, sentence structure, spelling, punctuation, usage and mechanics, and learn how to apply them while they are revising and editing a written text. Students work as tutors in the writing center to learn and understand the practical application of editing rules. Includes instruction in the conventions of Editing Standard English (also known as Edited American English) and in methods of effective tutoring. Prerequisites: ENGL 101, 102.

ENGL 686. Professional, Technical and Scientific Writing and Editing (3).
Introduces students to editing and writing in professional, scientific, technical and medical fields. Through careful reading and analysis of exemplary technical and scientific documents, students gain exposure to numerous writing genres produced for different audiences and contexts. They practice writing in several forms, which may include research summaries, press releases, procedures, specifications, infographics, public service announcements, fact sheets and popular science writing. Assignments help strengthen students' rhetorical awareness, as well as the precision, clarity and readability of their writing.

ENGL 700. Introduction to Graduate Study in English (3).
Prepares students to perform effectively in graduate classes in English. Covers: (1) basic bibliographical tools; (2) terminology both technical and historical; (3) various approaches to the study of literature, such as intrinsic analysis of a literary work, the relationships of biography to literary study, and the relevance of other disciplines, such as psychology, to literature; and (4) the writing of interpretative and research essays. Maintains a balance between criticism and research throughout the semester. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership for students who receive a grade of B or better.

ENGL 703. Seminar in American Literature I (3).
Advanced study of major issues and themes in fiction, poetry and nonfiction prose from the early American period to the Civil War, with attention to the social and cultural contexts that shaped the literary history of the colonial period and the early nation. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 704. Seminar in American Literature II (3).
Advanced study of major issues and themes in fiction, poetry and nonfiction prose from the post-bellum period to 1920, with attention to the social and cultural contexts that shaped such trends as realism and modernism. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 705. Seminar in American Literature III (3).
From 1920 to 1970. Advanced study of major issues and themes in fiction, poetry and nonfiction prose from 1920 to the contemporary period, with attention to the social and cultural contexts that shaped such trends as modernism and postmodernism. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 712. Graduate Studies in Fiction (3).
Selected topics in the development of the form and content of prose fiction. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 713. Graduate Studies in Poetry (3).
Selected topics in forms, techniques and history of poetry. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 714. Graduate Studies in Drama (3).
Selected topics in the history and nature of dramatic literature. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 715. Seminar in Chaucer (3).
Advanced study of Chaucer's major works. Readings are in Middle English and include selections from the Canterbury Tales, Troilus and Criseyde, the dream visions, the lyrics, and a limited number of comparative readings in other late 14th century authors such as Langland, the Gawain-Poet and Gower. Emphasis is placed on close reading and interpretation of the text, and on the historical context of Chaucer's work, which involves study of subjects such as the black plague, the peasants' revolt, guilds, fairs, chivalry, trade and healing. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 720. Seminar in Old English (3).
Cross-listed as LING 720. Advanced course in Old English language and literature. Studies the Old English language in enough detail to enable the reading of some prose and poetry, including parts of Beowulf and the elegiac poems in the original. Some literature, including all of Beowulf, is read in translation. Particular attention is given to close reading and interpretation of the text, and to important literary and cultural features of the period and its Norse heritage. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 721. Seminar in Medieval Literature (3).
Advanced study of selected works from old and middle English literature and continental literature of the medieval period, with an emphasis on close reading as well as the social and cultural context of the readings. Content varies at the discretion of the instructor. Readings may include epic, romance, drama, lyric and satire, as well as examples of discourse — oratory, history, memoir, political writings, philosophy — and major works and authors such as Beowulf, Cynewulf, Wulftstan, Chretien de Troyes, Marie de France, Chaucer, the Gawain-Poet and Malory. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 722. Seminar in Renaissance Literature (3).
Advanced study of works by important writers of the 16th and earlier 17th centuries. Content varies at the discretion of the instructor. Offerings may be thematically or historically focused, and may include poetry, drama, fiction or nonfiction prose. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 724. Seminar in Restoration and 18th Century British Literature (3).
Advanced study of major selected works and authors of the period between 1660 and 1789, covering the crucial genres of drama, poetry, the essay and the novel. Content varies at the discretion of the instructor. Study may include satire, political discourse, comedy, tragedy, parody, and/or innovative forms such as the novel and fictionalized biography. Canonical figures such as Congreve, Dryden, Pope, Swift, Fielding and Johnson may figure prominently. Historical
contexts are emphasized. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 726. Seminar in Romantic Literature (3).
Advanced study of the authors, genres, themes and/or movements in late 18th and early 19th century literature, with content varying at the discretion of the instructor. Possible topics might include Romantic-era women writers, the historical contexts of the French Revolution and British imperialism, the rise of the novel, the canonical Romantic poets (Blake, Wordsworth, Coleridge, Shelley, Byron and Keats), the development of mass print culture, and/or representations of sublime landscapes, solitary meditation and European travel. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 728. Seminar in Modern British Literature (3).
Advanced study of the authors, genres, themes and/or movements in British literature (1900 to 1980). Possible topics may include the British novelists (Conrad, Lawrence, Woolf, Forster, Joyce, Waugh, Greene, Amis, Durrell, Burgess, etc.) and; the British poets (Housman, Yeats, Lawrence, Eliot, Auden, Thomas, Hughes, etc.); the playwrights (Shaw, Beckett, Eliot, Coward, Maugham, etc.). The seminar may also focus on additional poets, novelists and dramatists, such as modernism, postmodernism, etc. Repeatable once for credit with change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 730. Seminar in Victorian Literature (3).
Advanced study of the authors, genres, themes and/or movements in Victorian literature (1832-1900). Possible topics might include the Victorian novelists (William Thackeray, Charles Dickens, George Eliot, Anthony Trollope, Thomas Hardy, Rudyard Kipling, etc.); the Victorian poets (Tennyson, Browning, Arnold, Arthur Hugh Clough, Dante, Gabriel Rossetti, Christina Rossetti, George Meredith, Algernon Charles Swinburne, etc.); the Victorian prose writers (Carlyle, Mill, Newman, Ruskin, Arnold, Pater, etc.). The seminar may also focus on themes within Victorian literature, such as the Young England movement, the Higher Criticism and its effects, the Woman Question, industrialization and labor, or the Victorian Empire. Repeatable once for credit with a change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 733. Seminar in Contemporary Literature (3).
Covers selected topics in the literature of the last quarter-century, including literature in translation. Deals with a broad range of authors and genres. Repeatable for credit with change of content and departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 780. Advanced Theory and Practice in Composition (3).
For teaching assistants in English. Review of new theories of rhetoric, recent research in composition, and new promising developments in composition programs in schools and colleges. Students are given practice in advanced writing problems, situations and techniques and may propose projects for further special study.

ENGL 781. Cooperative Education (1-3).
Similar to ENGL 481 in design and content, this course provides the student with practical experience, under academic supervision, that complements and enhances the student's academic program. Individual programs must be formulated in consultation with appropriate faculty sponsors and approved by departmental consent. Graded Cr/NCr. Prerequisites: ENGL 700 and at least 12 total hours in graduate English courses.

ENGL 785. Current Theories in the Teaching of Writing (3).
Examines current areas of interest in rhetoric and composition. Specific topics vary from semester to semester but may include digital and multimedia composition; online writing instruction; language diversity; writing program administration; place, space, and embodiment; transfer; and assessment. Students explore the teaching of writing in settings other than first-year composition, such as writing across the curriculum and writing in the disciplines, undergraduate writing majors, and business, technical, and professional writing. Students leave this course with a fuller understanding of current research in rhetoric and composition and the many types of writing instruction available at colleges and universities.

ENGL 787. Writing and Invention (3).
Examines invention as a canon of rhetoric, a stage in the writing process, and a product of thinking, writing or making. Students survey theories of invention as they are expressed in rhetorical theory, composition pedagogy, historical works, and/or literature. Students consider the relationships among invention, originality and creativity, and the ways in which these concepts impact the teaching of English.

ENGL 801. Creative Writing: Fiction (3).
Advanced work in creative writing: literary fiction. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Repeatable for credit. Prerequisite: consent of creative writing director.

ENGL 803. Creative Writing: Nonfiction (3).
Advanced work in creative nonfiction: forms of nonfiction requiring a distinctive voice and demanding a formal artistry generally associated with fiction. Prerequisite: consent of creative writing director.

ENGL 805. Creative Writing: Poetry (3).
Advanced work in creative writing: literary poetry. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Repeatable for credit. Prerequisite: consent of creative writing director.

ENGL 808. Graduate Studies in Film (3).
Examines film as a literary form while acknowledging its unique status as a visual medium. Subjects the film medium to the standard tools of literary criticism and critical theory to fully comprehend exactly how film functions as a narrative form. Students are directed to develop a vocabulary of film terminology and to understand how film functions as a story-telling medium. Emphasis is placed on interpretive strategies. Prerequisites: graduate standing, completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 814. Graduate Studies in British and World Literature Before 1900 (3).
Examines the major genres and authors of literature before 1900. Typical subject matter may include the rise of the novel, the changing role of poetry, and the evolution of drama, or similar topics. Repeatable once for credit with a change of content. Prerequisites: graduate standing, completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.
ENGL 816. Graduate Studies in Major Author(s) (3).
Careful study of the works of a major author with readings in secondary sources. Assignments may include reports, discussions and papers. Occasionally an appropriate pairing of major authors may be offered. Repeatable for credit with change of content. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 825. Theories of Rhetoric: Classical (3).
An intensive study of the rhetorical theories of classical writers from 466 B.C. to the decline of Roman oratory. Emphasizes Isocrates, Plato, Aristotle, Quintilian, Cicero and Longinus.

ENGL 826. Theories of Rhetoric: Renaissance to Early Modern (3).
A study of the emerging patterns of rhetoric from the Second Sophistic to modern times. Analyzes the rhetorical systems associated with such figures as Augustine, Fenelon, Bulwer, Sheridan, Steele, Rush, John Quincy Adams, Blair, Campbell and Whately.

ENGL 840. Graduate Studies in Criticism (3).
Selected topics in the theory and practice of literary criticism. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 850. Directed Reading (1-3).
For graduate students who want to pursue special research in areas not normally covered in coursework. A directed reading prospectus must be approved by the directing faculty and the graduate coordinator before registering. Repeatable for credit with departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 860. Graduate Seminar in Special Topics (1-3).
Intensive study of selected texts, writers or literary problems. Seminar discussions, reports and research projects. Repeatable for credit with departmental consent. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGL 875. MFA Final Writing Project (1-6).
Final writing project preparation.

ENGL 880. Writer’s Tutorial: Fiction (3).
Tutorial work in creative writing in literary fiction with visiting writer. Graded S/U. Prerequisite: consent of creative writing director.

ENGL 881. Writer’s Tutorial: Poetry (3).
Tutorial work in creative writing in literary poetry with visiting writer. Graded S/U. Prerequisite: consent of creative writing director.

ENGL 885. Craft of Fiction (3).
Subject announced each semester. Advanced study in the forms and techniques in literary fiction such as plot, setting or voice. Repeatable once for credit with creative writing program director's consent. Prerequisite: students not enrolled in the MFA program must receive permission from the instructor. A student may not take more than one craft course per semester.

ENGL 886. Craft of Poetry (3).
Subject announced each semester. Advanced study in the forms and techniques in literary poetry such as the poetic line, image or rhythm. Repeatable once for credit with creative writing program director's consent. Prerequisite: students not enrolled in the MFA program must receive permission from the instructor. A student may not take more than one craft course per semester.

ENGL 890. Master’s Thesis (1-3).
May be repeated, but a maximum of three units of ENGL 890 can be applied toward the degree requirements. A thesis prospectus must be approved by the thesis advisor and the graduate coordinator before the student may register for 890. Graded S/U. Prerequisite: completion of or concurrent enrollment in ENGL 700, or permission of English graduate coordinator.

ENGT - Engineering Technology
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

Covers concepts related to cyber attack, penetration testing, cyber intelligence, reverse engineering, and cryptanalysis. Students learn how security infrastructure integrates with the rest of the business and IT infrastructure through the use of hands-on projects. Prerequisite: MIS 310 with a C- or better grade, or instructor's consent.

ENGT 510. Solar and Wind Engineering (3).
2 Classroom hours; 2 Lab hours. Covers types of solar generation, solar radiation, sun path charts, shading effect, sizing of solar panels, inverters, batteries, V-1 curves for solar panels, grid connected and off-grid solar system, types of batteries, NEC codes for solar systems, economic analysis of PV system, carbon footprint, wind power generation, advantages and disadvantages of wind power, comparison between the wind energy and solar energy, wind energy system economics and environmental aspects and impacts. Prerequisite: ENGT 320 or EE 282.

ENGT 590. Independent Study in Engineering Technology (1-3).
Arranged individual independent study in specialized areas of engineering technology under the supervision of a faculty member. Repeatable for credit. Prerequisite: consent of the supervising faculty member.

ENGT 600. Water and Wastewater Treatment (3).
Studies water quality constituents and introduces the design and operation of water and wastewater treatment processes. Prerequisites: ENGT 323, ENGT 370; or departmental consent.

ENGT 601. Digital Forensics (3).
Covers concepts related to hardware and software forensics, incident response, cyber crime, and cyber law enforcement. Students learn different aspects of computer and cyber crime and ways in which to uncover, protect, exploit, and document digital evidence. Students are exposed to different types of tools (both software and hardware), techniques and procedure, and are able to use them to perform rudimentary forensic investigations. Focuses on the entire lifecycle of incident response, including preparation, data collection, data analysis, and remediation. Case studies reveal the methods behind and remediation strategies for today's most insidious attacks. Prerequisite: ENGT 501 with a C- or better grade, or instructor's consent.

Focuses on the methodology to conduct cyber security risk assessments for critical cyber and cyber-physical systems. Students learn risk assessment methodology techniques to: identify, classify, and analyze cyber threats and vulnerabilities in cyber and cyber-physical systems, conduct criticality and impact analysis, and create risk mitigation plans. Also, students learn how to design cyber-infrastructures to securely capture, process and manage cyber security data obtained from embedded systems deployed in industrial infrastructures, SCADA networks and control systems. Prerequisite: ENGT 501 with a C- or better grade, or instructor's consent.

ENGT 610. Hydraulics and Hydrology (3).
Studies water resources engineering topics and methods. Hydraulic and hydrological concepts are explored through the application of
Aspects of managing a growing business on a day-to-day basis. This could include small enterprise units that are static. Teaches the practical aspects of strategic management of growth associated with a rapidly changing environment. Focuses on the organization, operation, marketing and financial aspects of managing an entrepreneurial firm. Emphasizes the strategic management of growth associated with a rapidly changing business, as distinguished from small business management, which could include small enterprise units that are static. Teaches the practical aspects of managing a growing business on a day-to-day basis. Practical application to intrapreneurship, such as growing a division or department within a larger organization. For undergraduate credit only. Prerequisites: ENTR 310, and junior standing.

**ENTR 668. New Venture Development (3).** Emphasizes the development of a comprehensive business plan around a unique product or service idea that satisfies a customer need or solves a customer problem. Focuses on conceptualizing a value proposition and business model for a new venture and validating each with customers and industry experts. Financial and organizational principles associated with entrepreneurial finance including financial structuring of the firm, pro forma development of financial statements, and the capitalization of the firm are also examined. Provides opportunity to pitch and present one's business concept and plan as well as to learn how to evaluate the business ideas of others. For undergraduate students only. Prerequisites: ENTR 440, 455, senior standing.

**ENTR 690. Special Topics in Entrepreneurship (1-3).** Advanced course with in-depth study of emerging topics in entrepreneurship. Repeatable with instructor's consent. Prerequisites: ENTR 310, junior standing or instructor's consent, advanced standing.

**ENTR 690W. Study Abroad in France A (2-3).** This course establishes a foundation of entrepreneurship fundamentals and small business management principles. We will discuss the steps, principles, and methods associated with the venture creation process and how to generate and evaluate good business ideas, and develop those ideas in ways that are attractive to business partners and investors.

**ENTR 705. Technology Entrepreneurship (3).** Students explore issues surrounding the transformation of knowledge into commercially useful products, services and viable businesses. Course employs a hands-on experiential approach using current active technologies from the university, community or national research laboratories. Market validation, opportunity recognition, intellectual property protection (patents, copyright, trade secrets) and valuation are core learning elements employed in the commercial-potential evaluation process. Evaluation documents produced in the course are provided to intellectual property owners to aid moving a technology into commercial markets. Prerequisite: junior standing.

**ENTR 706. Seminar in New Product and Technology Development (3).** Cross-listed as MKT 706. Provides a form to the function of idea commercialization. Examines the product development practices of successful, innovative companies and focuses on how customer needs can be translated into products and innovations. Students explore idea generation, market validation, prototype development, product concept testing, product launch strategies, post launch product evaluation, and managing innovative teams. Students apply learning through developing and testing a product idea that solves a customer problem.

**ENTR 750. Workshop in Entrepreneurship (1-4).** Prerequisite: junior standing.

**ENTR 855. Entrepreneurial Finance Seminar (3).** Looks in depth at the financial side of starting, maintaining and (perhaps) ultimately, exiting a small and/or new business venture. Begins with an overview of the entrepreneurial process, highlighting the importance of finance in the many facets of running a business. Topics include: the measure and evaluation of financial performance, consideration of the various sources of capital available to companies, valuation of business ventures and associated securities laws, venture capital, and the options available for exiting a business.

**ENTR 865. Entrepreneurship, Creativity & Innovation (3).** Students learn how to use their unique mix of knowledge, talents, skills, abilities and resources to develop a value proposition for potential customers. Course has two major components. The first is ideation.
Initially, it focuses on identifying problems and developing solutions. This requires students to improve their creative problem solving skills. Students then learn how to systematically evaluate business ideas and develop functional business models. Students interact with MID faculty, other students, creative professionals and entrepreneurs in a seminar format.

ENTR 890. Seminar Special Topics (1-3).
Repeatable with instructor's consent.

ENTR 891. Directed Studies (1-5).
Prerequisite: instructor's consent.

ETHS - Ethnic Studies
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ETHS 512. Diversity and Aging (3).
General education advanced further study course. Cross-listed as AGE 512. Introduces students to issues in aging that are unique to minority older adults. Demonstrates differences in the aging experience by race/ethnicity and addresses the differential patterns of health and illness in later life in relation to race/ethnicity, gender and culture. In addition, the student develops an appreciation for how race/ethnicity affects mental and social dimensions of life. Attention is given to the impact on the social, financial and health aspects of those who speak a language other than English. Course perspective is interdisciplinary, taking into account the physical, psychological, interpersonal and social influences which shape our understanding of the challenges older minorities face when relocating to the United States. Course includes diversity content.

ETHS 540. Advanced Cross-Cultural Communication (3).
General education advanced further study course. Special topics in human relations. Course includes diversity content. Prerequisite: ETHS 210.

ETHS 545. Cross-Cultural Communication Theory (3).
An examination of current cross-cultural communication theory and its impact on contemporary cross-cultural issues. Course includes diversity content.

ETHS 579. Asian Women in Modern History (3).
Cross-listed as HIST 579 and WOMS 579. Examines women's historical and contemporary experiences in Asian America and eight major countries in modern Asia. Covers topics on Asian women's activism in relation to nationalism and women's rights. Investigates Asian women's roles and statuses in the family and society and their educational attainment and contributions to the export-oriented industrialization of the Asia-Pacific region. Examines the intra-regional migration of female guest workers among various countries in Asia. Traces the ways in which the changes in immigration laws during the 20th century affect patterns of Asian women's migration to the United States. Introduces writing that integrates Asian women's lives and Asian American experiences into the discourses on ethnicity, national origin, class, gender and sexual orientation in the United States and the Asia-Pacific region. Course includes diversity content.

Students conduct independent research related to a specific ethnic group. Course includes diversity content. Repeatable for a total of 6 hours. Prerequisite: 50 hours of Wichita State credit or program consent.

ETHS 725. Concepts of Cross-Cultural Communication (3).
A critical survey of the concepts of cross-cultural communication. An in-depth examination of the rationale used to evaluate different ethnic groups' language and behavior. Provides a conceptual understanding of special implications and necessary adaptations of communication to, between and among diverse ethnic groups in our society. Course includes diversity content.

FA - Fine Arts
Although there is no graduate degree in general fine arts, the following courses are available for graduate credit.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

FA 590. Special Topics in the Fine Arts (1-4).
For group instruction. May be repeated for credit. Involves interdisciplinary upper-division/graduate-level topics with the fine arts (music, art, dance and theatre). Prerequisite: senior undergraduate or graduate standing or instructor's consent.

FA 710. Seminar in Creativity and Innovation (1-3).
As one of four core courses in the Master of Innovation Design, the purpose of this seminar is to help the student better understand and appreciate the subject of creativity. To that end, this course focuses on developing new ways of thinking which are different from those typically learned in single discipline design programs. The seminar provides many opportunities to apply these new ways of thinking through class exercises, possible course projects, and conversations with a wide array of guests who have prospered through the incorporation of creativity/innovation into what they do professionally. Students learn techniques for improving the flexibility and originality of their thinking and explore approaches used by others to create and sustain high levels of innovation. Topics include: personal thinking preferences, everyday creativity and eliminating mental blocks, creative thinking techniques, idea selection approaches, teaming techniques for creativity, conditions that promote creativity, design for interaction, disruptive technologies, and intellectual property. Seminar uses fun and hands-on activities to stimulate innovation. Repeatable for credit.

FA 750. Workshop (1-4).
Intensive study of topics related to fine arts. Differing topics are denoted by a letter following the course number (i.e., 750C, 750U, etc.).

FIN - Finance
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

FIN 610. Insurance & Risk Management (3).
Covers the concepts of insurance and risk management. Topics include risk identification and analysis, risk management, legal aspects of insurance, structure of the insurance industry, regulation, reinsurance, underwriting, financial issues and analysis, policy analysis, and an overview of many types of personal and commercial insurance including: automobile, homeowner's, property and casualty, umbrella, commercial general liability, errors and omissions, directors and officers, health insurance (including traditional indemnity, HMO and PPO), disability, long-term care and life. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 611. Real Estate Finance (3).
Cross-listed as RE 611. Covers the institutions and instruments used to finance residential and commercial properties, and provides essential knowledge and skills for students who are interested in a career as a commercial banker, mortgage banker or an analyst or investor in mortgage-related securities. Topics include fixed-rate and alternative
mortgage instruments, financial analysis and decision making, residential mortgage underwriting, mortgage market regulations, primary and secondary mortgage market structure and institutions, and mortgage-backed securities. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 618. Real Estate Investment Analysis (3).
Cross-listed as RE 618. Covers the tools and techniques used to evaluate the financial profitability of real estate investments, as well as real estate decisions affecting businesses. Students learn about pro forma and discounted cash flow analysis of real estate, the effects of leverage on real estate investments, federal tax treatment of real estate investments, and disposition and renovation decisions. In addition, topics such as lease-versus-own analysis, sale-leasebacks and other corporate real estate issues are discussed. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 620. Investments (3).
An analysis of investment risks, financial information and industry characteristics. Examines corporate, government, municipal and financial institution securities and other investment types. Presents personal portfolio construction, supervision and management. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 622. Future and Options Markets (3).
Presents an overview of the futures and options markets. Discusses basic theoretical concepts as well as the practical issues of hedging and speculating in these markets. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 625. International Financial Management (3).
Cross-listed as ECON 674 and IB 625. A study of the international financial and monetary system, emphasizing currency markets. Also examines market instruments and techniques, including synthetic and derivative securities and their application to management of currency risk in international trade and finance. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 631. Fixed Income Securities and Markets (3).
An analysis of the market for fixed-income securities from the investor's point of view. Emphasizes pricing of these securities and an understanding of the factors that determine the structure and level of interest rates. Portfolio management techniques and the use of derivatives are also covered. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 632. Bank and Financial Institution Management (3).
Presents and analyzes asset and liability management by banks and financial institutions. Also covers financial institution structure, management, regulation, and operations. Covers risk management topics in detail. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 635. Commodity & Energy Trading (3).
Focuses on trading in commodity and energy markets. Introduces how commodity and energy markets function, emphasizing trading and hedging strategies. Explores the control systems trading firms need in place to manage market, credit, and liquidity risks, as well as the financial accounting, regulatory compliance, and tax issues that arise from trading. Much of the classwork is hands-on exercises. Students engage in a simulated commodity and energy trading game and use real-world database management software from Allegro Development. Students also have the opportunity to interact with local business experts in commodity and energy trading throughout the semester. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

FIN 660. Cases in Finance (3).
This case-centered course is designed as the capstone course for the finance major and provides an exploration of the problems and operations for which the financial decision maker is responsible, emphasizing current best practices for various types of financial analyses. Should be taken at the end of a finance student's degree program. Prerequisites: FIN 440 and two 600-level finance electives with a grade of C+ (2.300) or better in each, junior standing, advanced standing.

FIN 675. Spreadsheet Modeling for Decision Making (3).
Cross-listed as DS 675. A practical spreadsheet-based approach to the modeling of a wide variety of business problems. Concentrates on problem solving in an interdisciplinary context and developing spreadsheet skills. Not open to students with credit in DS 675 or 875. Prerequisites: DS 350, and FIN 340 each with a grade of C+ (2.300) or better, junior standing, advanced standing, or instructor's consent.

FIN 750. Workshop in Finance (1-4).
Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing.

FIN 850. Managerial Finance (3).
Provides knowledge and tools to make informed investment and financing decisions. Includes capital markets, capital budgeting, decision making under uncertainty, asset pricing models, capital structure, payout policy, restructuring and corporate control issues. Prerequisite: MBA 800 or equivalent.

FIN 860. Advanced Managerial Finance (3).
Study of advanced strategic issues that impact financial managers. Includes corporate valuation, working capital management, capital structure decisions such as initial public offerings, leveraged buyouts, restructurings, mergers and acquisitions, and issues related to entrepreneurial finance. Prerequisite: FIN 850.

FIN 865. Advanced Investment Analysis and Portfolio Management (3).
Study of the theory and practice of security valuation and investment management. Includes portfolio analysis, asset allocation, fixed income securities and term structure, equity analysis, derivatives and measurement of performance. Prerequisite: FIN 850.

FIN 866. Public Financial Management (3).
Cross-listed as PADM 866. Addresses special topics of government capital budgeting and financing as well as general public infrastructure management skills and knowledge useful for public administrators and citizens. Specific topics include: capital planning, budgeting, financing strategies and options, debt management, policy and issuance processes, as well as innovative public capital financing such as public-private partnerships and state-local revolving funds. Prerequisite: PADM 865 or instructor's consent.

FIN 890. Seminar Special Topics (1-3).
Repeatable with departmental consent. Prerequisites: FIN 850 and MBA 800 or equivalent.

FIN 891. Directed Studies (1-5).
Prerequisites: FIN 850 and MBA 800 or equivalent.

FREN - French
Although a complete graduate program is not currently available in French, the following courses may apply toward a master's degree if approved in advance of enrollment by the student's advisor, the chairperson of the department of modern and classical languages and literatures, and the dean of the Graduate School.
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

FREN 501. French for Business (3).
Designed for French speakers at the intermediate level seeking to communicate accurately in professional situations and especially for those pursuing parallel studies in business or management. Prerequisite: FREN 324 or departmental consent.

FREN 505. Advanced French Phonetics (3).
2 Classroom hours; 2 Lab hours. Cross-listed as LING 505A. Includes articulatory phonetics, phonemics, sound/symbol correspondences, dialectal and stylistic variations. Required for future French teachers. Prerequisite: any 200-level course or departmental consent.

FREN 515. Major Topics in French (1-4).
Special studies in (A) language, (B) literature, (C) commercial French, (D) the language laboratory, (E) music, (F) composition, (I) problems in teaching French, (J) civilization, (L) translation, (K) conversation, and (M) phonetics. Repeatable for credit. Prerequisite: departmental consent.

FREN 520. Novel and Film (3).
Analysis and discussion of celebrated French novels together with major film versions of the same. The status of the image in relation to the works' historical and cultural contexts is the focus. Prerequisite: FREN 300.

FREN 525. Advanced French Conversation (3).
Designed to increase proficiency in spoken French. Assignments include oral reports, dialogues and work in the language laboratory. Prerequisite: FREN 324 or departmental consent.

FREN 526. Advanced French Composition and Grammar (3).
Emphasizes theme writing, original compositions and detailed study of modern French grammar. Prerequisite: FREN 324 or departmental consent.

FREN 540. French Literature in English Translation (3).
General education advanced further study course. Topic varies. May be used to satisfy the LAS literature requirement and may count toward a French major or minor if readings and papers are done in French.

FREN 541. French Literature of Africa and the Caribbean in Translation (3).
General education advanced further study course. A study of the concept of Negritude through the works of major African and Caribbean writers. No knowledge of a foreign language is necessary. May be used to satisfy the LAS literature requirement and may count toward a French major or minor if readings and papers are done in French.

FREN 551. French Civilization: The Middle Ages to the Restoration (3).
Emphasizes key aspects of the civilization of France as seen in its art, architecture, political structure, social evolution and intellectual traditions. Interdisciplinary course complements studies in French language and literature. Classwork and required readings are in French. Pre- or corequisite: FREN 300.

FREN 552. Contemporary French Civilization (3).
Emphasizes the major events, themes, ideas, trends and movements in French civilization since the Revolution. Interdisciplinary course complements French language and literature courses. Classwork and readings are in French. Pre- or corequisite: FREN 300.

FREN 623. Seminar in French (2-3).
Seminar in French literature, language or civilization. Repeatable for credit. Prerequisite: FREN 300.

FREN 629. Medieval French Literature (3).
Analysis and discussion of major French works from 900 to 1500, the literary movements to which they pertain, and the place of individual authors in the overall tradition. Prerequisite: FREN 300.

FREN 630. Renaissance French Literature (3).
Analyzes and discusses major French works, 1500-1600. Prerequisite: FREN 300.

FREN 631. 17th Century French Literature (3).
Prerequisite: FREN 300.

FREN 632. 18th Century French Literature (3).
Prerequisite: FREN 300.

FREN 633. 19th Century French Literature (3).
Prerequisite: FREN 300.

FREN 634. 20th Century French Literature (3).
Analyzes and discusses major works of French fiction, poetry and drama from the Belle Epoque through World War II. Prerequisite: FREN 300.

FREN 635. Introduction to Romance Linguistics (3).
Cross-listed as LING 635 and SPAN 635. Provides a contrastive examination of the phonology, morphology and syntax of the major contemporary Romance languages (French, Spanish, Italian, Portuguese, Catalan and Romanian). Introduces students to the sound and writing system and basic grammar of Latin, and contrasts the phonological and grammatical systems of the contemporary Romance languages (French and Spanish in particular) with those of Latin. It compares specific features of the modern Romance languages synchronically (i.e., apart from Latin) as well. Students are advised to have a solid grounding in at least one Romance language (preferably French or Spanish) and a familiarity with at least one other (French, Spanish, Latin, Italian or Portuguese). Prerequisite: departmental or instructor's consent.

FREN 636. Contemporary French Literature (3).
Analyzes and discusses major works of French fiction, poetry and drama, 1945-present. Prerequisite: FREN 300.

FREN 726. French Composition and Stylistics (3).
Offers background in rhetoric and stylistics as an approach to literary models, with a view to developing the creative use of style together with grammatical accuracy in writing. Practice in revision forms the basis of this course. Prerequisite: FREN 526 or departmental consent.

FREN 750. Workshop in French (2-4).
Repeatable for credit.

FREN 815. Special Studies in French (1-3).
Prerequisite: departmental consent. Repeatable for credit.

GEOG - Geography
Although there is no graduate program in geography, the following courses are available.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

GEOG 510. World Geography (3).
A study of world regions including an analysis of each region's physical, political, economic, historical and cultural geography. Focus on a specific geographical problem for in-depth study and analysis. May not be taken if credit has been received for GEOG 210. Prerequisite: instructor's consent.
GEOG 530. Geography of Latin America (3).
General education advanced further study course (social sciences). Physical, political, economic, historical and human geography of Latin America.

GEOG 542. Geography of Europe (3).
General education advanced further study course (social sciences). Physical, political, economic, historical and human geography of Europe.

GEOG 695. Special Studies in Geography (1-3), 3 or 2 Classroom hours; 3 Lab hours. Lab fee. (Lab is included when appropriate.) Systematic study in a selected area of topical interest in geography. Course given on demand; repeatable for credit when content differs. May require field trips. Prerequisite: junior standing.

GEOG - Geology
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

GEOG 526. Sedimentary Geology (3).
2 Classroom hours; 2 Lab hours. Origin, classification, primary structures and physicochemical processes controlling deposition of sedimentary rocks. Reviews diagenesis of carbonate rocks and evaporites. Includes a survey of modern and ancient sedimentary depositional environments and petrographic study of sedimentary rocks in thin sections. May require field trips. Prerequisite: GEOL 102 (with lab) or 111.

GEOG 540. Field Map Methods (3).
6 Lab hours. Field mapping methods with special reference to use of level, compass, barometer, alidade and airphotos. Field trips required. Prerequisite: GEOL 102 (with lab) or 111 or GEOL/GEOG 201.

GEOG 544. Structural Geology (3).
2 Classroom hours; 2 Lab hours. Stress-strain theory and mechanics of rock deformation, description, and genesis of secondary structural features in crustal rocks resulting from diastrophism, elements of global tectonics, and laboratory solution of geologic problems in three dimensions and time. May require field trips and field problems. Prerequisites: MATH 112 or 123; GEOL 312; and GEOL 324 or 526.

GEOG 552. Physical Stratigraphy (3).
2 Classroom hours; 2 Lab hours. Description, classification, methods of correlation and determination of relative ages of stratigraphic rock units; stratigraphic principles and practice, importance and use of biostratigraphy, the nature of cyclic sedimentation and controls on deposition, elements of sequency stratigraphy, measurement and correlation of stratigraphic sections in outcrops. Requires field trips. Prerequisites: GEOL 312, 526.

GEOG 560. Geomorphology and Land Use (3).
Identification of landforms and their genesis, processes producing landforms, the influence of geomorphology in aspects of natural hazards such as landslides, floods, earthquakes and volcanic activity; soil erosion, drainage basin modification, coastal and desert environments, mineral resource exploitation, and their effects on humans; importance of these influences in environmental management and land-use planning. Prerequisite: GEOL 111 or GEOL 102 or GEOG 201.

GEOG 564. Remote Sensing Interpretation (3).
2 Classroom hours; 2 Lab hours. Introduces interpretation techniques for most types of images acquired by remotely positioned means. Physical principles that control various remote sensing processes using the electromagnetic spectra are applied to geology, land use planning, geography, resource evaluation and environmental problems. Derivative maps generated from a variety of images. May require field trips. Prerequisite: GEOL 102 or 111 or GEOG 201.

GEOL 570. Biogeology (3).
2 Classroom hours; 2 Lab hours. General education advanced further study course. Systematic survey of major fossil biogeological materials, analysis of the origin and evolution of life, and paleoecological interpretation of ancient environments and climates. Includes handlens and binocular microscopic examination of major fossil biogeological materials. Includes application of analyzed fossil data to the solution of problems in biogeochronology, paleoecology, paleoclimatology and paleogeography. Cites examples from fields of invertebrate, vertebrate and micropaleontology, and palynology. May require museum and field trips. Prerequisite: GEOL 312.

GEOL 574. Special Studies in Paleontology (3).
2 Classroom hours; 2 Lab hours. General education advanced further study course. A systematic study in selected areas of paleontology. Content differs, upon demand, to provide in-depth analysis in the fields of: (A) invertebrate paleontology, (B) vertebrate paleontology, (C) micropaleontology, (D) palynology, and (E) paleoecology. Gives appropriate laboratory instruction in the systematics, taxonomy and biogeological relationships within the selected fields listed. May require field trips. Repeatable for credit to cover all five areas listed.

GEOL 621. Geochemical Cycling (3).
Capstone course. The geochemistry of earth materials and the important geochemical processes; cycles operating on and within the atmosphere, hydrosphere and lithosphere through time; anthropogenic effects on these cycles today. Prerequisites: GEOL 102 (with lab) or GEOL 111 and CHEM 211; or instructor's consent.

GEOL 630. Field Studies in Geology (2-6).
Off-campus, systematic field study in a selected area of geological significance. Course given upon demand, repeatable for credit when locality and/or content differ. Where appropriate, travel, lodging and board costs are charged. Prerequisite: instructor's consent.

GEOL 630B. Tropical Marine Environment (3).
Off-campus, systematic field study in a selected area of geological significance. Course given upon demand, repeatable for credit when locality and/or content differ. Where appropriate, travel, lodging and board costs are charged. Prerequisite: instructor's consent.

GEOL 640. Field Geology (6).
Capstone course. Field investigation of sedimentary, igneous and metamorphic rock units and their structures. Includes the application of mapping methods in solving geologic problems. Held at an off-campus field camp for five weeks (including weekends). Preparation of geologic columns, sections, maps and an accompanying report are due on campus during the sixth week. Prerequisite: GEOL 324, 540, 544, 552.

GEOL 650. Geohydrology (3).
2 Classroom hours; 2 Lab hours. Capstone course. The hydrologic cycle, physical and chemical properties of water; fluid flow through permeable media, exploration for and evaluation of groundwater, water quality and pollution, and water law. Prerequisites: GEOL 552, MATH 242 and 243; or instructor's consent.

GEOL 657. Earth Science Instructional Methods (3).
Practice in teaching an introductory course in the earth sciences. Developing and presenting the latest scientific laboratory techniques and evaluating their effectiveness. May be taken more than once if content and objectives differ. Prerequisite: senior standing and department chairperson's permission.
GEOL 678. Geologic Perspectives on Climatic Change (3).
Capstone course. Modern climate and climatic changes and analysis of climactic deterioration; systematic study of geologic evidence of climate change through time. Emphasizes theoretical causes, feedback mechanisms and recognition of effects on climactic perturbations in the rock record. Prerequisites: GEOL 312, 526.

GEOL 680. Geologic Resources and the Environment (3).
2 Classroom hours; 2 Lab hours. Occurrence and origin of metallic and nonmetallic economic mineral deposits, laboratory examination of ores and industrial minerals. Occurrence and supply, regeneration and future demand for water and soil resources, and fossil and nuclear fuels. Studies environmental aspects of resource exploitation and use, generation and disposal of waste, environmental hazards, and reclamation. May require field trips. Prerequisites: GEOL 324.

GEOL 682. Petroleum Geology (3).
2 Classroom hours; 2 Lab hours. The origin, migration and accumulation of oil and gas in the earth's crust; reservoir trap types in common hydrocarbon fields, origin and types of porosity systems, and distribution of world petroleum supplies. Introduces subsurface study techniques. May require field trips. Prerequisites: GEOL 526, 552.

GEOL 684. Methods of Subsurface Analysis (2).
1 Classroom hour; 2 Lab hours. Methods of remotely logging and describing the geologic occurrence of subsurface strata; characterization of subsurface strata, including laboratory analysis of recovered subsurface samples; application to petroleum geology, mineral resource evaluation and environmental geology. Prerequisites: GEOL 312, 526, 552; or instructor's consent.

GEOL 690. Special Studies Geology (1-3).
Systematic study in selected areas of geology. Offered on demand; repeatable for credit when content differs. Requires laboratory work or field trips (instructor's option). Prerequisite: instructor's consent.

GEOL 690AO. History of Geology (3).
The course examines the historical development of Earth science from prehistoric to modern times. The course analyzes the various techniques of data collection and interpretation that were used throughout history.

GEOL 690AP. Petroleum Engineering: An Introduction for Geoscientists (3).
An introduction to the theory and application of petroleum engineering to oil and gas exploration and development. Oriented to students with a geology or geoscience background.

GEOL 698. Independent Study in Geology (1-3).
Independent study on special problems in selected areas of geology: (a) general, (b) mineralogy, (c) petrology, (d) structural, (e) paleontology, (f) economic geology, (g) sedimentation, (i) stratigraphy, (j) geophysics, and (k) petroleum. Requires a written final report. Prerequisite: consent of sponsoring faculty.

GEOL 720. Geochemistry (3).
The chemistry of natural aqueous solutions and their interaction with minerals and rocks; thermodynamics and kinetics of reactions; emphasizes application to sedimentary environments and environmental problems. Requires some laboratory work. Prerequisites: GEOL 324 and CHEM 212 or instructor's consent.

GEOL 724. Soils (3).
Geologic analysis of soil types, their formation, occurrence and mineralogy; soil management and conservation, environmental aspects of soil occurrence including stability studies, pollution and reclamation.

GEOL 726. Carbonate Sedimentology (3).
2 Classroom hours; 2 Lab hours. The origin and genetic description of carbonate particles, sediments and rocks, mineralogy and textural classifications, depositional environments in carbonate rocks and analysis of modern and ancient depositional system. May require field trips. Prerequisites: GEOL 526, 552 or equivalents.

GEOL 727. Carbonate Diagenesis (3).
2 Classroom hours; 2 Lab hours. Analyzes diagenesis of carbonate sediments and rocks. Includes mineralogical stability in natural waters, meteoric, marine and deep-burial diagenesis, dolomitization processes and products, trace-elements and isotopes as diagenetic tools, cathodoluminescence and X-ray diffraction studies of carbonates; origin and porosity. Prerequisite: GEOL 726 or instructor's consent.

GEOL 740. Basin Analysis (3).
A practical course in analysis of petroleum-bearing or other sedimentary basins; emphasizes detailed subsurface mapping to document depositional, tectonic and burial history of sedimentary basins; subsurface lithologic and geochemical sample analysis and evolution of sedimentary facies systems and hydrocarbons maturation history. Includes compilation of existing data to determine geologic evolution of basins. Prerequisites: GEOL 682, 684 or instructor's consent.

GEOL 745. Advanced Stratigraphy (3).
Analysis of stratigraphic sequences at the local to global scales in terms of sequence stratigraphic concepts and high-resolution interpretation of depositional sequences (from outcrop and subsurface data); seismic sequence stratigraphy, and significance of unconformities in sequence identification and development; local to global correlation of sequences and sea level history through time; cratonic sequences of North America. Required seven-day field trip. Prerequisites: GEOL 312, 526, 726.

GEOL 751. Advanced Geohydrology (3).
Integrations of practical and theoretical coverage of subsurface fluid flow as applied to shallow aquifers. Covers the mass transport in both the saturated and vadose zones as well as the occurrence and movement of nonaqueous fluids. Covers groundwater quality, sources of groundwater contamination, retardation of contaminants, retardation and attenuation of dissolved solids, and the response of inorganic and organic substances to subsurface aqueous and framework chemistries. Computer simulation models used whenever practical along with detailed analysis of case histories, including those related to environmental geoscience. Prerequisites: GEOL 650, 681, MATH 344, or instructor's consent.

GEOL 752. Climatic Evolution of Earth (3).
Basics of climatology and paleoclimatology, and recognition of paleoclimatic indicators in the rock record. Climatic changes at different scales in Earth history and possible causes, and nature of climactic records. Roles of climate change on the evolution of Earth's biosphere, hydrosphere, atmosphere and lithosphere. Field trip(s) may be required. Prerequisite: GEOL 721, graduate standing, or instructor's consent.

GEOL 760. Exploration Geophysics (3).
Introduces the theory and application of geophysical techniques for hydrocarbon, mineral and groundwater prospecting. Includes use of seismic techniques, instrumentation for acquisition on land and sea, seismic processing, structural and stratigraphic modeling, 3-D seismic exploration, and seismic refraction techniques. Prerequisites: completion of geology undergraduate math and physics requirements; MATH 344 or 555; GEOL 324, 544, instructor's consent.

GEOL 781. Advanced Numerical Geology (3).
Involves practical implementation of algorithms and computer code. Includes the analysis of multivariate techniques and the development of the computer/algorithm skills needed to handle very large databases. Covers standard statistical approaches to data analysis, treatment of applied linear algebra and matrix theory; the application of linear and
Although a complete graduate program is not currently available in German, the following courses may apply toward a master's degree if approved in advance of enrollment by the student's advisor, the chairperson of the department of modern and classical languages and literatures, and the dean of the Graduate School.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

GERM 505. German Phonology (2).
Course deals with corrective pronunciation (articulation of German speech sounds and intonation) as well as formal phonetic analysis. Teaches students the International Phonetic Alphabet in order to improve their use of German dictionaries and possible comparison of German dialects. Prerequisites: GERM 224, 225, or instructor's consent.

GERM 526. Advanced German Grammar and Composition (3).
Continues the advanced grammar review begun in GERM 300 and focuses on developing German writing skills, including the ability to express oneself with grammatical accuracy and stylistically appropriate vocabulary. Prerequisite: GERM 300 or instructor's consent.

GERM 650. Directed Studies In German (1-3).
Enrollment in any of the areas listed takes place only upon consultation with the department and agreement with the instructor concerned:
(A) Introduction to the Study of German Literature; (B) Survey I: From the Medieval Period Through the Age of Goethe; (C) Survey II: 19th Century to 1945; (D) Contemporary Literature, including the literatures of East and West Germany, 1949-1989; (E) Special Topics in Literature, repeatable once for credit; (F) Special Topics in Language, repeatable once for credit. Prerequisite: GERM 300 or instructor's consent.

GREK - Greek

Although a complete graduate program is not currently available in Greek, the following courses may apply toward a master's degree.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

GREK 515. Special Studies in Greek (1-4).
Topic announced by instructor. Repeatable for credit. Prerequisite: GREK 224 or instructor's consent.

GREK 532. Advanced Greek (3).
Thucydides. Prerequisite: GREK 531.

HIST - History

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

HIST 500. Your Family in History (3).
Bridges the gap between history and genealogy through demonstrations of the kinds of research techniques available to those who are interested in creating a family history. Students demonstrate understanding of these techniques in a family history project.

HIST 501. American Colonies (3).
General education advanced further study course. Colonization of the New World emphasizing the British colonists and their development.

HIST 502. American Revolution and the Early Republic (3).
General education advanced further study course. Examination of selected phases of the Revolutionary, Confederation and Federal periods.
HIST 503. Age of Jefferson & Jackson (3).
General education advanced further study course. Examines the eras of Thomas Jefferson and Andrew Jackson; that is roughly the period from 1800 to 1850. During that time, the United States experienced tremendous territorial growth, cultural ferment and reform movements, engaged in two major international wars and a number of Indian conflicts, and moved toward the sectional showdown over slavery that culminated in a bloody civil war. The focus is on political, social and military history, as America expanded from the Mississippi River across the North American continent.

HIST 504. Civil War (3).
General education advanced further study course. Explores the origins and history of the bloodiest war this nation has ever fought. Students study antebellum America, focusing on the sectional differences between North and South, the institution of slavery, the abolitionist crusade, and the battlefields of the Civil War.

HIST 505. The United States, 1865 to 1920 (3).
General education advanced further study course. Examines the political, economic, social and cultural developments during the Gilded Age and Progressive Era. Students read articles, books, and primary documents to trace the experiences of the American nation and people as they transform from a growing nation into a global power with special focus on topics such as Reconstruction, political and economic corruption and reform, industrialization, the development and mechanization of the trans-Mississippi West; the rise of corporations, railroads, cities and the American State; and the challenges of African Americans, immigrants and women. In the end, students should walk away from the course with a better, more in-depth understanding of the history of, and major historical debates concerning, the Gilded Age and Progressive Era in the United States.

HIST 506. The Vietnam Conflict (3).
General education advanced further study course. Studies U.S. participation in Vietnam. Includes the French experience in Indochina, U.S. troop buildup, the Tet Offensive in 1968, and the anti-war movement at home. Examines political factors as well as military strategy and major battles.

HIST 507. United States 1900-1945 (3).
General education advanced further study course. Major topics explored include World War I, the Great Depression, and World War II. While this period in U.S. history is noteworthy for conflict, consensus in the form of Progressivism, the New Deal, and the emergence of the modern presidency also characterize these decades. An examination of political leadership is a major component of this course. The emphasis, however, is "history from the bottom up" as the lives of ordinary Americans are examined.

HIST 508. United States Since 1945 (3).
General education advanced further study course. In this time period, the United States emerged as a world leader. Although the Cold War became a defining force both at home and abroad, "hot" wars in Korea and Vietnam also produced social, economic and political repercussions in the United States. Course explores major issues and events of the period with a focus on international relations, the Civil Rights Movement, and the growth of the imperial presidency.

HIST 509. The African-American Historical Experience (3).
Provides a panoramic examination of the African-American experience. Chronologically, it covers life in Africa before the trans-Atlantic slave trade to the present day. It focuses on the social, political and economic development of the transplanted Africans in the United States. Course includes diversity content. Prerequisites: junior, senior or graduate status.

HIST 510. 20th Century African American History (3).
The 20th century witnessed a dramatic transformation of the African-American community. As the century began, the vast majority of African-Americans lived in the rural South. At century's end, the vast majority of African-Americans lived in urban areas across the U.S. Besides the demographic relocation of black America, the 20th century also witnessed the Black Freedom Movement (comprised of the Civil Rights and Black Power movements), which dramatically changed the social, economic and political status of blacks. Course examines these and other aspects of the African-American experience during the pivotal 20th century.

HIST 511. Women in Early America, 1600-1830 (3).
Focuses on women and gender in U.S. history between 1600 and 1830 by examining the lives, experiences, and interactions with social, political and economic systems of women. Students read articles, books, and primary documents that examine women's experiences from the first colonial contact with Native Americans to the dawn of the first women's movement in the 19th century. Focuses specifically on colonization, regionalism, the roles of race and ethnicity in the construction of gender, women in religious life, the impact of the American Revolution, Republican Motherhood, and women's contributions to the public sphere and market economy. In the end, students should walk away with an understanding of women in early U.S. history and of the major historical debates concerning women's and gender history.

HIST 512. Women and Reform in America, 1830-Present (3).
Focuses on women, gender, and reform in U.S. history from 1830 to 2000 by examining the lives, experiences, and interactions with social, political and economic systems of women. Students read articles, books, and primary documents that examine women's experiences from the emergence of a domestic economy in the 1830s to 21st century popular culture with specific focus on topics such as the Cult of True Womanhood, slavery, Civil War and Reconstruction, Progressivism, suffrage, WWI, post-war feminism, and popular culture. In the end, students should walk away with an understanding of women in early U.S. history and of the major historical debates concerning women's and gender history.

HIST 515. Economic History of the United States (3).
Cross-listed as ECON 627.

HIST 517. Constitutional History of the United States (3).
General education advanced further study course. The evolution of the American constitutional system from English and Colonial origins through the Civil War.

HIST 517H. Constitutional History of the United States (3).
General education advanced further study course. The evolution of the American constitutional system from English and Colonial origins through the Civil War. Honors section.

HIST 518. Constitutional History of the United States (3).
General education advanced further study course. American constitutional development from Reconstruction to the present.

HIST 521. Diplomatic History of the United States to 1914 (3).
General education advanced further study course. American diplomatic history during the 20th century; that is, from the era of
Theodore Roosevelt and the "big stick" through the presidency of Bill Clinton. This was a period when the United States emerged as a major player in global affairs, engaged in numerous military conflicts, waged a cold war against the "evil empire" of the Soviet Union, and ultimately stood alone as the world's only economic and military super power.

HIST 525. American Military History (3).
*General education advanced further study course.* Surveys the American military heritage and its role in shaping the modern United States. Studies the history of warfare from frontier conflicts during the Colonial period through Desert Storm; focusing on the most significant wars and battles, and the evolution of military institutions and their impact on American social, economic and political traditions.

HIST 526. The Civil Rights/Black Freedom Movement (3).
A detailed examination of the mid-to-late 20th century phenomenon known as the Black Freedom Movement, which consisted of the (passive-resistance) Civil Rights Movement and the (more aggressive) Black Power Movement.

Surveys the history of African-Americans as entrepreneurs and business people. Drawing from a commercial tradition dating back to pre-trans-Atlantic Africa, business minded blacks overcame a variety of obstacles (such as slavery and Jim Crow segregation) to establish a commercial presence in America. Besides chronicling these efforts, the course also examines why African-American business history has traditionally received minimal attention in both the realms of American business history and African-American history.

HIST 528. History of Wichita (3).
*General education advanced further study course.* A history of Wichita, Kansas, 1865-present, emphasizing the lessons of local history for future planning and its importance to an individual citizen's sense of place.

HIST 530. American Woman In History (3).
*General education advanced further study course.* Examination of the history, status and changing role of women in American society. *Course includes diversity content.*

HIST 531. American Environmental History (3).
*General education advanced further study course.* Examines the historical, physical, economic, scientific, technological and industrial interactions of the peoples of America with their environment. Emphasizes the period 1800-present. *Course includes diversity content.*

HIST 532. Women in Ethnic America (3).
Cross-listed as WOMS 532. An in-depth, thematic understanding of the historical experiences of women of color across space and time in U.S. history. Employing a female-centered framework of analysis, course probes the intersections of race, class, gender and sexuality in women's lives. *Course includes diversity content.*

HIST 533. The American City: from Village to Metropolis (3).
A study of urbanization and urban life from Colonial times to the present-changing lifestyles and thought patterns, urban architecture, ethnic assimilation, emergence of the suburb, political and ecological adjustments, and the influence of new technology and forms of business organization.

HIST 535. History of Kansas (3).
*General education advanced further study course.* History of the Kansas region from Spanish exploration to the present, emphasizing the period after 1854.

HIST 536. Survey of American Indian History (3).
*General education advanced further study course.* Surveys the history of Native American nations from prehistoric times to the present. Includes the process of European colonization and indigenous responses, the strategies of accommodation, assimilation and resistance, and the resurgence of tribalism in the 20th century. *Course includes diversity content.*

HIST 538. The American West in the 20th Century (3).
*General education advanced further study course.* Explores the growth of the trans-Mississippi West in the 20th century, emphasizing political development, economic growth, cultural manifestations, the role of minority groups, and the impact of science and technology.

HIST 541. Modern France (3).
*General education advanced further study course.* History of the major trends in French history from Napoleon to DeGaulle emphasizing French attempts to adjust politically, socially, economically and culturally to the changing conditions of modern industrial society.

HIST 542. Religion in America (3).
Cross-listed as REL 542. Surveys various religious traditions in American history from Colonial times to the present. Discusses how religious groups, beliefs and issues have changed over time and how they interact with each other. Includes the different branches of Christianity and Judaism, the study of awakenings and revivals, the stories of prominent religious thinkers and leaders, immigrant religious traditions, the tensions between liberal and traditional religious forms, the prophetic and apocalyptic traditions in American, and the impact of Native American, Asian and African beliefs and practices on the religious landscape.

HIST 553. History of Mexico (3).
*General education advanced further study course.* "Poor Mexico: So far from God, so close to the United States." Examines the influences of the Maya, the everyday life of the Aztecs, and the destruction wrought when the Spanish invaded the New World. Major figures and the roles they played in Mexican history such as Santa Anna, Benito Juarez and Pancho Villa emerge in this study. Course concludes with the impact of a 2000-mile border with the United States and a brief look at NAFTA.

HIST 559. Classical Athens (3).
*General education advanced further study course.* Focuses on Athens from the sixth to the fourth centuries, from the emergence of the Greek city state to the age of Demosthenes. Examines how Athens founded and maintained the earliest democracy and how individuals such as Socrates, Pericles, Plato and Aristotle fit into their society. Other topics may include warfare, the family, farming, commerce and the law.

HIST 560. The Hellenistic World and Rise of Rome (3).
*General education advanced further study course.* Begins with the conquests of Alexander the Great and provides an overview of the new Greek world which he left behind. Examines changes in Greek culture and society as a result of the spread of Hellenism to the older kingdoms of the New East and India. Includes the rise of the Roman Republic in the context of the Greek world in the first century B.C. with the defeat of Cleopatra, or the last queen of Egypt.

HIST 562. Roman Republic (3).
*General education advanced further study course.* Covers the period of early Roman history from the founding of the city to the first emperor Augustus. Includes coverage of wars and the Roman army, government, society and culture. Emphasizes the end of the republic during the dictatorship of Julius Caesar, the civil wars, and the role of the emperor Augustus.

HIST 563. Roman Empire (3).
*General education advanced further study course.* Focuses on social and cultural achievements of the Roman empire starting with the dissolution of the republic and the invention of the empire by Emperor Augustus in the first century B.C. Ends with the sack of Rome in the fifth century A.D. Emphasizes the spread of Roman law, government
and culture to areas outside of Italy, including Roman Britain, Judea and Roman Egypt, the rise of Christianity, and the reasons for the decline of Rome.

HIST 586. Medieval History 500-1200 (3). General education advanced further study course. The history of Europe from the fall of the Roman Empire through the Crusades, 500 to 1200.

HIST 567. Medieval History 1200-1500 (3). General education advanced further study course. History of Europe, 1200 to 1500.

HIST 569. Medieval England (3). An examination of the development of Medieval England from the Anglo-Saxon Invasions until the end of the 14th century. The Norman Conquest, the role of the Angevins, the reign of Edward I, and the daily life of those peoples who became the English receive particular attention.

HIST 575. Italian Renaissance (3). General education advanced further study course. Italian history from the 14th through the 16th centuries emphasizing cultural achievements.

HIST 576. The Reformation (3). General education advanced further study course. The great religious changes in the 16th century in the political, social and intellectual contexts.

HIST 577. Medieval Women (3). Deals with the lives and accomplishments of Christian women in Late Antiquity and the Middle Ages. Course includes diversity content.

HIST 579. Asian Women in Modern History (3). Cross-listed as ETHS 579 and WOMS 579. Examines women’s historical and contemporary experiences in Asian America and eight major countries in modern Asia. Covers topics on Asian women’s activism in relation to nationalism and women’s rights. Investigates Asian women’s roles and statuses in the family and society and their educational attainment and contributions to the export-oriented industrialization of the Asia-Pacific region. Examines the intra-regional migration of female guest workers among various countries in Asia. Traces the ways in which the changes in immigration laws during the 20th century affect patterns of Asian women’s migration to the United States. Introduces writing that integrates Asian women’s lives and Asian American experiences into the discourses on ethnicity, national origin, class, gender and sexual orientation in the United States and the Asia-Pacific region. Course includes diversity content.

HIST 581. Europe 1789-1870 (3). General education advanced further study course. A focused survey of European social, cultural and political history from 1789-1870. Among the topics covered are the Enlightenment, the French Revolution, industrialization, Romanticism, nationalism, liberalism, socialism, the revolutions of 1848, and the role of women in European society.

HIST 582. Europe 1871-1945 (3). General education advanced further study course. A focused survey of European history between the years 1871-1945. Among the subjects covered are the phenomena of nation building and the imperial project, the rise and growth of European socialism, the emergence of a “mass society,” the role of women and minorities, the origins and impact of World War I, inter-war politics and diplomacy, the Nazi Era, and World War II.

HIST 588. History of Early Russia (3). General education advanced further study course. Covers the social, political and cultural history of Kievan and Muscovite Russia.

HIST 589. History of Imperial Russia (3). General education advanced further study course. A survey of the political, social and cultural history of Imperial Russia.

HIST 592. History of Soviet Union (3). General education advanced further study course. A survey of Soviet history from the Bolshevik Revolution to the present.

HIST 593. Former Soviet Union (3). General education advanced further study course. An examination of contemporary life in the former USSR: historical background, Marxist/Leninist ideology, industrial and agricultural economies, roles played by women, national minorities and dissidents in Soviet society, the press, literature and art, health care, and prospects for the country’s future.

HIST 594. American Law and Film (3). American popular culture has demonstrated an enduring fascination with lawyers, the law and the legal system. Course focuses on the portrayal of attorneys and the legal system in films. Uses films as a lens through which to examine the American criminal and civil justice systems, lawyers and legal education, and social and civil rights, while considering how film helps shape public perception of lawyers, creates viewer expectations regarding law and justice, and may influence the conduct of practicing attorneys and judges.

HIST 595. Law in American Society (3). Examines the role that law plays in American society from the early Colonial settlements through the 20th century. Examines the connection between law and society in four parts: crime and punishment in early America; property, economy and American identity; the 15th Amendment and questions of female citizenship; and the origins of the Civil Rights movement. By looking at laws and court cases in the larger context of American social history, students gain a fuller understanding of the impact and influence that law has on the development of American society.

HIST 596. Law in American History Honors (3). Examines the role that law plays in American society from the early Colonial settlements through the 20th century. Examines the connection between law and society in four parts: crime and punishment in early America; property, economy and American identity; the 15th Amendment and questions of female citizenship; and the origins of the Civil Rights movement. By looking at laws and court cases in the larger context of American social history, students gain a fuller understanding of the impact and influence that law has on the development of American society.

HIST 597. Historiography (3). Required of undergraduate history majors. This capstone course engages students in a systematic analysis of major historians and schools of historical thought. Class assignments and discussions encourage students to examine their own ideas about history as an academic discipline. Prerequisite: 12 upper-division hours in history or instructor’s consent.

HIST 701. Introduction to Local and Community History (3). Introduces the study of local history and community history. Discusses the various venues through which local and community history takes place including historic preservation, archival administration, museum studies, documentary work, and writing for a variety of audiences. Students learn relevant practices as well as issues that face those who study local topics and/or specific communities. Prerequisite: graduate standing or instructor’s consent.
HIST 702. Historic Preservation (3).  
Advanced survey of the multifaceted, multidisciplinary field of historic preservation. Presents a broad and sophisticated view of the many arms of preservation in the U.S., as well as the numerous opportunities available to trained professionals in the field. Prerequisite: HIST 701 or instructor's consent.

HIST 703. Museum Administration (3).  
Addresses the many facets of museum administration from a specialist's point of view. Covers collecting, management, law and ethics, and resource development. Gives a close view of the operations of American museums. Prerequisite: HIST 701 or instructor's consent.

HIST 704. Interpreting History to the Public: Explaining the Past (3).  
Looks at ways history can be communicated to audiences, including scholarly texts, popular written histories, movies, videos, guidebooks, museums, and other similar media. Explores the differences between various forms of historical communication and assesses the ways they reach audiences. Students learn to discern various components of historical texts to use in the design of interpretation materials on their own. Prerequisite: HIST 701 or instructor's consent.

HIST 705. Introduction To Archives (3).  
Introduces the basic knowledge, theory and related skills of archival administration, including the nature of information, records and historical documentation; the role of archives in modern society, and issues and relationships that affect archival functions. Covers the theory and skills necessary to understand and apply basic archival functions. Prerequisite: graduate standing and/or instructor's consent.

HIST 725. Advanced Historical Methods (3).  
Reviews basic historical research methods, the general character of field bibliographies and recent interpretations, and the techniques of professional narrative development. Required of graduate degree students during their first year of enrollment. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Prerequisite: graduate standing and/or instructor's consent.

HIST 727. Readings In History (1-3).  
Readings in ancient, medieval, modern, European and American field bibliographies. Repeatable for credit. Prerequisite: departmental consent.

HIST 730. Seminar American History (3).  
Repeatable for credit. Prerequisite: departmental consent.

HIST 733. Seminar European History (3).  
Repeatable for credit. Prerequisite: departmental consent.

HIST 750. Workshop in History (2-3).  
Repeatable for credit but does not satisfy requirements for history majors.

HIST 781. Cooperative Education (1-2).  
Graduate history students participate in internship experiences through the cooperative education program. May substitute for HIST 803. A maximum of 4 credit hours of any combination of HIST 803 and HIST 781 may count toward degree requirements with permission from the program area. Graded Cr/NCr. Prerequisite: instructor's consent.

HIST 801. Thesis Research (1-2).  
Thesis preparation.

HIST 802. Thesis (1-2).  
Thesis preparation.

HIST 803. Internship Public History (1-4).  
Public history students practice their skills in summer or semester internships. Type and level of responsibility varies depending on student's interests and work setting. Internship should be in area related to student's MA thesis. Graded S/U. Prerequisites: HIST 701 and consent of public history faculty.

HIST 810. Special Topics in History (1-3).  
Repeatable for credit to a maximum of 6 hours.

HIST 810D. Local Wichita History (3).  
A study of local history and how it is presented to different audiences. Students explore the presentation of local topics, work with a local historical museum, a local archive, and a research project involving the Chisholm Trail.

**HP - Health Professions**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

HP 570. Selected Topics (0.5-4).  
Lecture/discussion; focuses on a discrete area content relevant to the health disciplines. In-depth study of a particular topic or concept, including didactic and current research findings and technological advances relevant to the topic. Repeatable to a maximum of 6 credit hours with program consent, upper-division status.

HP 570BA. Care of Populations Badge: Public Health Science (0.5).  
Focuses on the core competency for Public Health Professionals, Public Health Science Skills, Tier 1. Focuses on the science of public health practice which integrates, competencies, essential services, retrieval of evidence, and core functions toward the goal of improving the health of populations. As part of the course requirements, the student completes step 1 of an integrated community health assessment and health improvement plan.

HP 740. Advanced Health Professions Badges (0.5-2).  
An umbrella course created to explore a variety of subtopics differentiated by letter (e.g., 306A, 306B, etc.). Students should enroll in the lettered courses with specific topics in the titles.

Explores how development and learning are impacted by nutrition and health disparities in the school-aged child. Attention is given to both the community within and outside of the school. Graded Bg/NBg.

HP 740BB. School Health Badge: Advocacy, Legal and Ethical Issues (1).  
Examines legal responsibilities in the school setting as set by nurse practice acts and other professional guidelines. Review of school policies and ethical boundaries while advocating for children. Graded Bg/NBg.

HP 740BC. School Health Badge: Evidence Based Practice, Research and Collaboration (1).  
An update and application of research evidence to support and facilitate best practices in the school environment. Explores opportunities for collaboration. Graded Bg/NBg.

HP 750. Workshop in Health Professions (1-4).  
An opportunity for intensive study of special topics related to health profession practice, education or research.

HP 800. Research Methods for Evidence-Based Practice (2).  
Online course provides foundational and advanced knowledge and skills regarding research methods to prepare students to develop
research studies and locate, appraise and apply health related research to answer clinical questions. Emphasizes principles of evidence-based practice, research ethics, professional and scholarly training, research design and methodologies, framing research questions, and interpretation of basic and advanced statistics necessary to critically evaluate, interpret, and apply health care and health policy research to patient/client care and health care systems. Prerequisites: admission into a graduate-level health professions program and instructor's consent.

HP 801. Interprofessional Evidence-Based Practice (1). Interprofessional course uses small group discussion and practical exercises to advance students’ skills in evidence-based practice. Students practice integration of clinical expertise and patient/client preferences and values with the best available health care and health policy research to optimize individual health care, public health outcomes and health care systems. Students also have the opportunity to practice and develop skills in working in an interprofessional team. Course assumes advanced knowledge and skills in research methods and evidence-based practice. Prerequisites: concurrent or prior enrollment in HP 800 or prior completion of an approved graduate-level research methods course with instructor's consent.

HPS - Human Performance Studies

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

HPS 510. Coaching Principles (3). Provides the skills and knowledge necessary for individuals to successfully coach and officiate both elementary and secondary school interscholastic and intramural athletics. Instruction for coaching and officiating techniques, coaching progression, skill analysis and skill development is provided. Management techniques for interscholastic and intramural athletics are included. A variety of coaching strategies as well as discipline and motivation techniques are discussed. Prerequisite: completion of Core I of teacher education program if undergraduate standing, graduate standing at WSU, or instructor's consent.

HPS 541. Strength Training and Conditioning (3). Helps prepare students for the National Strength and Conditioning Association (NSCA) Certification Commission’s Certified Strength and Conditioning Specialist (CSCS) examination and/or the NSCA-Certified Personal Trainer certification examination. Anatomy, biochemistry, biomechanics, endocrinology, nutrition, exercise physiology, psychology and the other sciences that relate to the principles of designing safe and effective training programs are covered. Prerequisite: junior classification or graduate student status.

HPS 590. Independent Study (1-3). Prerequisite: departmental consent.

HPS 595. Human Performance Research (3). Experiential learning course provides opportunities to engage in research activities conducted in the Human Performance Laboratory. Repeatable for a maximum of 6 credit hours. Prerequisite: departmental consent.

HPS 715. Body Composition and Weight Management (3). A comprehensive coverage of the theoretical and scientific aspects of body composition assessment and current strategies for effective weight management. The limitations and usefulness of reference and field methods for assessing body composition in research, clinical and health/fitness settings are addressed. The overall intent of this course is not only to provide classroom-based theory regarding body composition assessment, but also hands-on experience and training in applying the different assessment techniques.

HPS 732. Pathophysiology of Cardiovascular Disease (3). Introduces the pathophysiology of multiple cardiovascular conditions and the developing industry of cardiac rehabilitation. Introduces assessment techniques in electrocardiography (ECG) to assist in the diagnosis of cardiovascular disease. Includes an introduction to ECG leads, rate and rhythm, ECG complexes and intervals, conduction disturbances, arrhythmia, ECG identification of myocardial infarction location and drug effects on an ECG. Prerequisite: HPS 490.

HPS 740. Endocrinology and Metabolism of Exercise (3). Provides students an in-depth examination of the energy metabolism during exercise and the role of the endocrine system in regulating acute and chronic metabolic responses to exercise. Special endocrine issues related to exercise physiology are discussed.

HPS 750L. Motivation (3). This course is designed to provide the skills and knowledge necessary to properly motivate individuals, groups and teams in a leadership role. Focus is placed on enhancing, creating or maintaining intrinsic motivation through the comprehension of motivation theory, primarily Self-Determination Theory, Achievement Goal Theory and The Progressive Motivation Cycle. In addition, techniques will be developed to apply concepts learned from theory and research to real situations. The knowledge and skills gained from this course will help students excel as leaders in sport, education, business or any chosen career.

HPS 750P. ACE Group Fitness Instructor Course (1). Designed to give students the knowledge and understanding necessary to prepare for the ACE group fitness instructor exam. In addition, students become more effective education fitness instructors. Students can take the exam for an additional $249.

HPS 750Q. ACE Personal Training Course (1-2). Gives students the knowledge and understanding necessary to prepare for the ACE personal training certification exam. Students learn a comprehensive system for designing individualized programs based on the unique health and fitness goals of clients. Students can take the exam for an additional $249.

HPS 750T. Human Performance Research - PTRM I (3). Provides students with opportunities to engage in research activities in the Human Performance Laboratory.

HPS 762. Statistical Concepts in Human Performance Studies (3). Covers descriptive statistics, elementary probability, distributional properties, one- and two-population mean and variance comparisons, ANOVA, linear regression and correlations. In addition, more advanced principles in parametric and nonparametric statistics are emphasized. Prerequisite: junior classification or graduate student status.

HPS 780. Physical Dimensions of Aging (3). Cross-listed as AGE 780. Covers the complex physiological changes that accompany advancing age and how exercise affects the aging process. Includes an appreciation for how functional consequences affect mental and social dimensions of life. Emphasizes factors associated with the preparation, implementation and evaluation of research projects involving elderly populations.

HPS 781. Cooperative Education (1-3). Provides the graduate student with a field placement which integrates theory with a planned and supervised professional experience designed to complement and enhance the student's academic program. Individualized programs must be formulated in consultation with appropriate graduate faculty. The plan of study for a graduate degree-bound student must be filed before approval of enrollment for cooperative education graduate credit. May be repeated for credit. A maximum of 3 hours (for nonthesis option) or 6 hours (for thesis option) may count toward the graduate degree. Graded Cr/NCr.
HPS 790. Applied Exercise Physiology (3).
Focuses on the applied aspect of exercise physiology. Includes the areas of environmental influences on performance; optimizing performance through training, nutrition and ergogenic aids; training and performance of the adolescent athlete and the differences in performance and training between genders. Prerequisite: HPS 490 or 830.

HPS 795. Physiology of Athletic Performance (3).
Explores the physiological responses involved with various athletic performances, including sports requiring endurance, speed and power. Includes such areas of physiological study as metabolic energy systems, cardiovascular and skeletal muscle adaptation, muscle fiber type differentiation and responses to extreme environmental conditions. Discovers parameters for performance and establishes guidelines for training at high levels of performance.

HPS 797. Exercise in Health and Disease (3).
Introduction to the physiology of disease and the effects of short- and long-term exercise on specific conditions. Understanding the guidelines for exercise testing and prescription in high risk populations. Prerequisite: HPS 490.

HPS 800. Recent Literature in the Profession (3).
Survey and critical analysis of research and other pertinent materials in the field.

HPS 815. Fitness Assessment/Exercise Recommendations (3).
Introduces techniques appropriate for screening, health appraisal and fitness assessment as required for prescribing exercise programs for individuals without disease or with controlled disease. Requires out-of-class laboratory experiences. Prerequisites: HPS 490 or equivalent and graduate standing.

HPS 830. Advanced Physiology and Anatomy of Exercise (3).
In-depth study of the physiological and anatomical basis of exercise and training. Includes respiratory dynamics, cardiovascular function, energy metabolism, regulation during rest, steady state and exhaustive physical activity, identification of joint movements, and the recognition of muscles and nerves that are involved in movement. Emphasizes immediate and long-term adaptation to exercise and training. Prerequisite: HPS 490.

HPS 857. Internship in Exercise Science/Wellness (6).
Internship in selected area of specialization within the exercise science program. Students spend the equivalent of full-time employment in an appropriate agency for one full semester. Prerequisite: departmental consent.

HPS 860. Research Methods in the Profession (3).
Examination of research methodology as related to topics in health, PE, sports studies and exercise science/wellness. Includes review and critical evaluation of the literature, research design and statistical processes, methodology, data collection techniques, computer-based analysis of data and thesis/report writing. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Students design and complete a mini research project.

HPS 875. Thesis Research (1-2).
Development of a research problem and proposal with the direction of a graduate faculty member. Repeatable, but total credit hours counted toward degree requirements must not exceed 2. Prerequisites: admission to graduate school in good standing, HPS 860, departmental consent.

HPS 876. Thesis (1-2).
Repeatable, but total credit hours counted toward degree requirements must not exceed 2. Students must be enrolled in this course during the semester in which all requirements for the thesis are met. Prerequisites: HPS 875 and consent of the student’s committee chair.

HPS 890. Special Topics (1-4).
Directed reading and research under supervision of a graduate instructor. Prerequisite: departmental consent.

Provides opportunity for the student to develop, in collaboration with a departmental faculty member, objectives and protocol for independent work.

HRM - Human Resource Management
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

HRM 665. Employment Law (3).
Legal issues involved in hiring and employment, including lawful hiring practices, discrimination and harassment law, performance reviews, termination, labor laws, labor relations and other legal issues. Prerequisite: junior standing.

HRM 666. Human Resource Staffing (3).
Analysis of all phases of the selection process as implemented in private and public sector organizations. Includes an analysis of the impact of federal and state anti-discrimination legislation on selection practices as well as human resource planning, recruiting, job analysis, and selection techniques including testing and interviewing. Validation of selection techniques is covered. Prerequisites: HRM 466, junior standing. Business students should have advanced standing.

HRM 668. Compensation (3).
Approaches to compensation processes in organizations. Discusses job evaluation techniques, wage level and wage structure determination, individual performance analysis, individual wage rate decisions, incentive plans and benefits. Considers the legal constraints on compensation practices. Prerequisites: HRM 466, junior standing. Business students should have advanced standing.

HRM 669. Training and Development (3).
Analyzes the training and development function as applied in private and public sector organizations. Considers the role of training and development in today’s business environment, needs assessment, learning objectives, learning theory, instructional methods and techniques, and evaluation of training effectiveness. Prerequisites: HRM 466, junior standing. Business students should have advanced standing.

HRM 690. Seminar in Selected Topics (1-5).
Repeatable with departmental consent. Prerequisites: HRM 466 or instructor’s consent, junior standing, advanced standing.

HRM 750. Workshop in Human Resources (1-4).
Prerequisite: junior standing.

HRM 867. Seminar in Human Resource Management (3).
An in-depth study and analysis of several critical and/or major current problems in human resources and a review of significant literature. Prerequisite: MBA 801 or equivalent.

HRM 890. Seminar Special Topics (1-3).
Repeatable with departmental consent.

HRM 890C. Rewards (3).
Advanced approaches to compensation and benefits processes in organizations. Discusses job evaluation techniques, wage level and wage structure determination, individual performance analysis,
individual wage rate decisions, incentive plans and benefits. Considers the legal constraints on compensation practices.

HRM 890D. Talent Development (3).
Advanced approaches to the training and development function as applied in private and public sector organizations. Considers the role of training and development in today's business environment, needs assessment, learning objectives, learning theory, instructional methods and techniques, and evaluation of training effectiveness.

HRM 891. Directed Studies (1-5).
Prerequisite: departmental consent.

HS - Health Sciences
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

HS 550. Kidney Function and Disease for Health Professions: Glomerular Filtration and Renal Blood Flow (1).
First in a series of four courses developed for students preparing for health professional programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science) who have a desire to expand their background in kidney physiology before entering these fields. Prerequisite: BIOL 223 or HS 290.

HS 551. Kidney Function and Disease for Health Professions: Tumular Processing of Glomerular Filtrate (1).
Second in a series of four courses developed for students preparing for health professional programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science) who have a desire to expand their background in kidney physiology before entering these fields. Prerequisite: HS 550.

HS 552. Kidney Function and Disease for Health Professions: Regulation of Extracellular Fluid Osmolarity (1).
Third in a series of four courses developed for students preparing for health professional programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science) who have a desire to expand their background in kidney physiology before entering these fields. Prerequisite: HS 551.

HS 553. Kidney Function & Disease for Health Professions: Potassium, Kidney Diseases & Diuretics (1).
Fourth in a series of four courses developed for students preparing for health professional programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science) who have a desire to expand their background in kidney physiology before entering these fields. Prerequisite: HS 552.

HS 560. Cranial Nerves I: Embryology (2).
First in a series of two courses developed for students who have a desire to expand their background on the cranial nerves before entering a health professional field (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degree in the sciences (e.g., biology, exercise science). Prerequisite: BIOL 223 or HS 290.

HS 561. Cranial Nerves II: Anatomy & Physiology (2).
Second in a series of two courses developed for students who have a desire to expand their background on the cranial nerves before entering a health professional field (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degree in the sciences (e.g., biology, exercise science). Prerequisite: BIOL 223 or HS 290.

HS 570. Neuroscience for Health Professionals: Peripheral Nervous System (1).
First in a series of four courses developed for students preparing for health professions programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science, biochemistry) who have a desire to expand their background in neuroscience before entering these fields. Prerequisite: instructor's consent.

HS 571. Neuroscience for Health Professionals: Ascending and Descending Pathways (1).
Second in a series of four courses developed for students preparing for health professions programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science, biochemistry) who have a desire to expand their background in neuroscience before entering these fields. Prerequisites: HS 570 or instructor's consent.

HS 572. Neuroscience for Health Professionals: Brainstem and Cerebellum (1).
Fourth in a series of four courses developed for students preparing for health professions programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science, biochemistry) who have a desire to expand their background in neuroscience before entering these fields. Prerequisites: HS 570, 571.

HS 573. Neuroscience for Health Professionals: Forebrain (1).
Fourth in a series of four courses developed for students preparing for health professions programs in a variety of settings (e.g., nursing, physician assistant, physical therapy, medical degrees), or advanced degrees in the sciences (e.g., biology, exercise science, biochemistry) who have a desire to expand their background in neuroscience before entering these fields. Prerequisites: HS 570, 571, 572.

HS 583. Anatomy of the Body Cavities (3).
The gross anatomy of the human body cavities presented in a four-week summer term using a regional approach. Teams of eight students dissect the thoracic, abdominal, and pelvic cavities on human cadavers, emphasizing cardiovascular, respiratory, gastrointestinal, and urogenital systems. Prerequisite: BIOL 203 or 223.

HS 600. Advanced Clinical Anatomy (5).
Structured to present the human body using a regional approach. Emphasis on learning gross anatomy with a clinical mindset. In addition to lectures, the students use prosected cadavers, skeletal specimens, radiographic films and anatomical models. Designed for those students who desire to pursue a degree within health professions and who would like to deepen their knowledge of human anatomy and its application to clinical scenarios. Prerequisite: BIOL 223 or HS 290.

HS 700. Gross Anatomy (6).
3 Classroom hours; 9 Lab hours. Study of the structure of the human body emphasizing integration of anatomical information with human functional abilities. Prerequisites: four semesters of biological sciences and instructor's consent.

HS 710. Applied Clinical Pharmacology (3).
Discusses clinical applications of selected drug classes commonly prescribed in the primary care setting as well as the follow-up management of common chronic diseases. Discusses pharmacological management as to pharmacokinetics, dosages, mechanisms of action (at molecular and systemic levels), side effects, drug interactions, contraindications, therapeutic use and expected outcomes. Emphasizes the practical application of this knowledge in various patient populations of all ages as well as rational drug selection and monitoring. Methodology includes lecture presentations, group discussions, clinical case studies, assessment of recent literature,
homework assignments, quizzes and exams. Prerequisites: HS 301, admission to graduate health professional program or PA professional program, or instructor's consent.

**HS 711. Pharmacological Management of Acute and Chronic Diseases (3).** Discusses the clinical application of specific categories of drugs used in the treatment of several common acute and chronic diseases. Presents pharmacokinetics, mechanisms of action, dosages, side effects and monitoring parameters of medications as they are used in these diseases and in various patient populations. Facilitates clinical application of this knowledge through case studies, class discussions and reviews of the latest medical literature. Prerequisites: admission to graduate nursing program and department consent, or completion of HS 710 and admission to PA professional program.

**HS 712. Administration of Hospital-Based Education (3).** 2 Classroom hours; 2 Lab hours. Historical perspective of hospital health education, resources and requirements for providing institution-wide educational services, identification and analysis of educational needs, hospital's role in community health planning and program evaluation.

**IB - International Business**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**IB 561. International Economics and Business (3).** Cross-listed as ECON 672. A survey of the economic foundations of international trade and investment. Studies international trade, theory and policy (the international economy), then explores the operations of the multinational firm within that environment. **Course includes diversity content.** Prerequisites: ECON 201, 202, junior standing, advanced standing.

**IB 600. International Management (3).** Overview of international business including strategy and organizational behavior. Equips students to manage effectively in an increasingly diverse global marketplace. Covers international strategy formulation, cross-border alliances, control and coordination systems in multinational organizations, social responsibility and ethics, culture and communication in global management, international negotiations, and management of global human resources. **Course includes diversity content.** Prerequisites: MGMT 360, IB 333, advanced standing, junior standing.

**IB 601. International Marketing (3).** Cross-listed as MKT 601. Problems and procedures of marketing in foreign countries. Includes the effects of foreign cultures and marketing systems on the design of marketing programs. **Course includes diversity content.** Prerequisites: MKT 300 with a minimum grade of C+ (2.300), junior standing, advanced standing.

**IB 625. International Financial Management (3).** Cross-listed as ECON 674 and FIN 625. Studies the international financial and monetary system, emphasizing currency markets. Also examines market instruments and techniques, including synthetic and derivative securities and their application to management of currency risk in international trade and finance. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

**IB 690. Special Topics in International Business (3).** Covers emerging topics within the field of international business. Prerequisites: completion of or concurrent enrollment in all required IB courses, junior standing, advanced standing.

**IB 690L. Study Abroad in France (3).** This course establishes a foundation of international business fundamentals. We will discuss the steps, principles, and methods associated with international business.

**IB 836. International Business and Competitiveness (3).** An introduction to international business administration with particular attention to the development of multinational business strategies in light of the diverse economic, political, social and cultural dimensions of the environments that exist in both developed and developing areas of the world.

**IB 890. Seminar in Special Topics (1-3).** Repeatable with departmental consent.

**IB 891. Directed Studies in IB (1-6).** Prerequisite: departmental consent.

**IB 892. Internship in IB (1-3).** Prerequisite: departmental consent.

**ID - Innovative Design**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**ID 500. Design Thinking Process (1).** Today organizations of all sizes are looking to be more innovative, deliver unique, high-quality user experiences and even disrupt their industry. This course looks at techniques and approaches to innovation design past and present, but focuses on the process of design thinking. Design thinking takes a human-centered approach to problem solving and can be applied to nearly any situation including new ways of looking at products and services, consumer markets, user wants and needs, team functions and building, company alignment, strategy, and more. Course purpose is to help students learn, understand and appreciate the process of design thinking. Focuses on techniques for developing empathy and understanding, effectively defining a problem, exploring ideas, rapid prototyping and testing. Students observe and collaborate with interdisciplinary teams to discover user insights, improve user experiences, innovate new products and services, create team alignment, and overall problem solving. Intended for students with diverse interests and nontechnical backgrounds.

**ID 500H. Design Thinking Process (1).** Today organizations of all sizes are looking to be more innovative, deliver unique, high-quality user experiences and even disrupt their industry. This course looks at techniques and approaches to innovation design past and present, but focuses on the process of design thinking. Design thinking takes a human-centered approach to problem solving and can be applied to nearly any situation including new ways of looking at products and services, consumer markets, user wants and needs, team functions and building, company alignment, strategy, and more. Course purpose is to help students learn, understand and appreciate the process of design thinking. Focuses on techniques for developing empathy and understanding, effectively defining a problem, exploring ideas, rapid prototyping and testing. Students observe and collaborate with interdisciplinary teams to discover user insights, improve user experiences, innovate new products and services, create
team alignment, and overall problem solving. Intended for students with diverse interests and nontechnical backgrounds.

**ID 501. Design Thinking Facilitation (1).**
Looks at various techniques and approaches to facilitating teams in the design thinking process, understanding stakeholders, dealing with a variety of personality types, and handling group dynamics and conflicts. Intended for students with diverse interests and nontechnical backgrounds. Prerequisite: ID 500.

**ID 501H. Design Thinking Facilitation (1).**
Looks at various techniques and approaches to facilitating teams in the design thinking process, understanding stakeholders, dealing with a variety of personality types, and handling group dynamics and conflicts. Intended for students with diverse interests and nontechnical backgrounds. Prerequisite: ID 500.

**ID 502. Design Thinking Implementation: Design Challenges Level I (2).**
Using design thinking processes, students are assigned to teams to tackle one or more design challenges provided by a Fortune 100 company to innovate new ideas and solutions. (Design challenges vary by semester.) These challenges are more involved than those in ID 501. Each team works through the challenge, develops ideas, prototypes, evaluates and redesigns as needed to reach a final solution which is presented by the team. Intended for students with diverse interests and nontechnical backgrounds. Prerequisite: ID 500 or 500H.

**ID 503. Introduction to Branding (1).**
Looks at companies that have developed successful brands and what can be learned from them. Topics include: what branding really is, how branding can impact sales short-term and long-term, who really owns the brand, and how companies manage their brands. Intended for students with diverse interests and nontechnical backgrounds. Prerequisite: ID 501.

**ID 504. Building a Brand Strategy (1).**
Looks at how to position companies for long-term success by developing a well thought out brand strategy. Using the tools learned in ID 503, students work on developing a strategy for a new startup company. Students collaborate in teams, but ultimately turn in an individual company brand strategy. Intended for students with diverse interests and nontechnical backgrounds. Prerequisite: ID 503.

**ID 505. Design Thinking Implementation: Design Challenges Level II (2).**
Using design thinking processes, students are assigned to teams to tackle one or more design challenges provided by a Fortune 100 company to innovate new ideas and solutions. (Design challenges vary by semester.) These challenges are more involved than those in ID 502. Each team works through the challenge, develops ideas, prototypes, evaluates and redesigns as needed to reach a final solution which is presented by the team. Intended for students with diverse interests and nontechnical backgrounds. Prerequisite: ID 502.

**ID 506. Leadership Development for Innovation (3).**
Examines what makes or breaks a great leader, not just in companies, but in life. Studies the six “C”s of leadership: character, charisma, commitment, competence, communication and courage, and how each one can enhance or take away from leadership ability. Intended for students with diverse interests and nontechnical backgrounds.

**ID 752. Product, Service, and Process Prototyping (3).**
Provides an overview of prototyping concepts with the specific intent of help innovation design degree students identify various methods of successfully demonstrating the potential of their ideas. Intended for students with diverse interests and nontechnical backgrounds.

**ID 840. Innovation in Practice (1-6).**
Independent study course for students undertaking the Master of Innovation Design or other related programs. Built around experiential enrichment related to the broad topic of innovation. Topics such as intellectual property, branding, pitching, wire-framing, prototyping and funding are discussed in a group setting and may include guest speakers and/or visits to local companies. Repeatable for credit, but only 3 credit hours may count toward plan of study. Graded S/U.

**ID 841. Project (1-6).**
Independent study course for students undertaking the project development/creativity option for completion of the Master of Innovation Design. A project is a substantive piece of creative work involving primary and/or secondary development, which serves to demonstrate mastery over the discourse, methods and content of at least one academic, creative or professional field. Requires students to synthesize knowledge and skills acquired over the course of the graduate career. Project must be designed and completed under the supervision of a graduate faculty supervisor and at the supervisor's discretion, may be reviewed by additional faculty advisors. Repeatable for credit. Limit of 3 credit hours can be applied to plan of study. Graded S/U.

**ID 842. Thesis (1-6).**
Independent study course for innovation design degree students undertaking the research and writing of a master's thesis. A thesis is a substantive piece of scholarship or creative work involving primary and/or secondary research, which serves to demonstrate mastery over the discourse, methods and content of at least one academic, creative or professional field. Requires students to synthesize knowledge and skills acquired over the course of the graduate career. Thesis projects must be designed and completed under the supervision of a graduate faculty thesis supervisor and, at the supervisor's discretion, may be reviewed by additional faculty advisors. Repeatable for credit. Limit of 6 credit hours can be applied to the plan of study. Graded S/U.

**IME - Industrial and Manufacturing Engineering**

Please note that for all graduate programs in ISME, some IME courses may require programming skills as a prerequisite, and some IME courses may require Linear Algebra or Calculus III as a prerequisite.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**IME 524. Engineering Probability and Statistics II (3).**
A study of confidence interval, regression analysis, analysis of variance, correlation analysis and design of experiments emphasizing applications to engineering. For undergraduate students only. Prerequisite: IME 254.

**IME 549. Industrial Ergonomics (3).**
A systematic approach to the optimization of the human-task-environment system. Includes work space design, manual materials handling, work related musculoskeletal disorders and environmental factors. Emphasizes applications in industry. Prerequisite: IME 254 or departmental consent.

**IME 550. Operations Research I (3).**
Covers deterministic models and methods in operations research including linear programming, integer programming, and network optimization to aid in the analysis and solution of complex, large-scale decision problems. Prerequisite: MATH 511.
IME 553. Production Systems (3).
Quantitative techniques used in the analysis and control of production systems. Includes forecasting, inventory models, operation planning and scheduling. Prerequisite: IME 254. Corequisite: IME 255.

IME 554. Statistical Quality Control (3).
A study of the measurement and control of product quality using statistical methods. Includes acceptance sampling, statistical process control and total quality management. Prerequisite: IME 254.

IME 556. Information Systems (3).
Provides a basic understanding of information systems in a modern enterprise, including database design, information technology and ethics using hands-on activities and directed classroom discussion. For ISME undergraduates students only. Prerequisite: CS 211 or MIS 310 or MATH 451.

IME 557. Safety Engineering (3).

IME 558. Manufacturing Methods and Materials II (4).
3 Classroom hours; 2 Lab hours. Covers theoretical and practical aspects of manufacturing processes, including material properties and behavior as influenced by the manufacturing process. In-depth study of such manufacturing processes as casting heat treatment, bulk forming, sheet metal forming, metal cutting, nontraditional machining and process monitoring. Includes measurement of manufacturing process variables. Also includes laboratory experience and plant tours. Prerequisites: IME 258, ME 250.

IME 563. Facilities Planning and Design (3).
Quantitative and qualitative approaches to problems in facilities planning and design, emphasizing activity relationships, space requirements, materials handling and storage, and plant layout. Quantitative and qualitative approaches to selection of material handling devices and design of storage systems, and introduction to concepts of supply chain. Prerequisites: IME 452, 550, 553.

IME 565. Systems Simulation (3).
The design of simulation models and techniques for use in designing and evaluating discrete systems, including manufacturing systems too complex to be solved analytically. Emphasizes general purpose computer simulation languages. Prerequisite: computer programming competency. Corequisites: IME 553, 524.

IME 590. Industrial Engineering Design I (3).
An industry-based team design project using industrial engineering and manufacturing engineering principles; performed under faculty supervision. May not be counted toward graduate credit. Prerequisites: IME 553; must be within two semesters of graduation or departmental consent.

Covers the application of analysis and simulation methods and tools to evaluate product designs for strength, life and robustness. Includes laboratory experience and a design project aimed at developing proficiency in virtual product evaluation. Prerequisites: AE 333 and IME 425.

IME 650. Operations Research II (3).
The second of a two-course sequence on models and solution approaches commonly used in the analysis of decision-making problems. Familiarizes students with nonlinear deterministic as well as probabilistic models in operations research and their applications. In particular, upon completion of this course, students develop an understanding of how to model and analyze systems that show nonlinear and probabilistic behavior. Moreover, students learn how to use state-of-the-art optimization solvers. Topics include nonlinear programming, decision making under uncertainty, game theory, Markov chains, queueing theory and dynamic programming. Prerequisite: IME 550 or instructor’s consent.

IME 658. Forming Processes (3).
Introduction to the fundamentals of deformation and techniques for analysis of forming processes. Application to various forming and sheet metal forming processes. Introduction to applied nonlinear finite element analysis and its application for analysis and design of forming processes. Prerequisite: AE 333.

IME 664. Engineering Management (3).
Cross-listed as ENGT 664. Introduction to the design and control of technologically-based projects. Considers both the theoretical and practical aspects of systems models, organizational development, project planning and control, resource allocation, team development and personal skill assessment. Prerequisites: IME 254, 255.

IME 676. Aircraft Manufacturing and Assembly (3).
Covers key aspects of assembly design for aircraft structures. First module covers design of jigs and fixtures to locate parts and machine features to tolerance, and the effect of part and tool stiffness on the tolerances. Second module covers gage design and gage studies, and geometric dimensioning and tolerancing. Third module covers assembly planning and best practices for aircraft assembly. Laboratory experiments and case studies are used to understand issues related to aircraft assembly. Prerequisite: IME 258.

IME 690. Industrial Engineering Design II (3).
Continuation of the design project initiated in IME 590 or the performance of a second industrial engineering design project; an industry-based team design project using industrial and manufacturing engineering principles; performed under faculty supervision. May not be counted toward graduate credit. Prerequisites: IME 590 and departmental consent.

IME 724. Statistical Methods for Engineers (3).
For graduate students majoring in engineering. Students study and model real-life engineering problems and draw reliable conclusions through applications of probability theory and statistical techniques. Not available for undergraduate credit. Prerequisite: MATH 243.

IME 731. Foundations of Optimization (3).
An extensive treatment of the theories and concepts of linear, nonlinear, constrained and unconstrained optimization techniques. Prerequisite: IME 550.

IME 740. Analysis of Decision Processes (3).
Decision analysis as it applies to capital equipment selection and replacement, process design and policy development. Explicit consideration of risk, uncertainty and multiple attributes is developed and applied using modern computer-aided analysis techniques. Prerequisites: IME 254, 255.

IME 749. Ergonomic Assessment Methods (3).
Covers current and commonly used risk and exposure assessment methods used for musculoskeletal disorders in the workplace. Students develop an understanding and working knowledge of how to evaluate and control the risk of work-related musculoskeletal disorders in the design of workplaces. Critical assessments and discussions of risk and exposure assessment techniques are performed relative to the strengths and weaknesses of each technique as well as the evidence for risk control and validity of the various methods. Prerequisite: IME 549 or instructor’s consent.

IME 753. Advanced Linear Programming (3).
Linear and integer programming formulations, simplex method, geometry of the simplex method, sensitivity and duality, interior point methods. Prerequisite: IME 550 or instructor’s consent.
IME 754. Reliability and Maintainability Engineering (3).
Studies problems of quantifying, assessing and verifying reliability. Presents various factors that determine the capabilities of components emphasizing practical applications. Examples and problems cover a broad range of engineering fields. Prerequisite: IME 524 or 724.

IME 755. Design of Experiments (3).
Application of analysis of variance and experimental design for engineering studies. Includes general design methodology, single-factor designs, randomized blocks, factorial designs, fractional replication and confounding. Prerequisite: IME 524 or 724.

IME 758. Analysis of Manufacturing Processes (3).
Introduces students to plasticity and builds upon their knowledge of mechanics and heat transfer in order to analyze various manufacturing processes. Numerical techniques (mainly finite element analysis) as well as theoretical methods are introduced and applied to analysis of processes such as open and closed die forging, superplastic forming, machining, grinding, laser welding, etc. The effect of friction, material properties and process parameters on the mechanics of the processes and process outputs is the main focus of study. Prerequisite: AE 333.

IME 759. Ergonomic Interventions (3).
Provides an understanding and working knowledge of how to evaluate and control the risk of musculoskeletal disorders in the design of workplaces and processes. Scientific aspects of intervention design and effectiveness assessment are discussed, including an assessment of the strengths and weaknesses of the intervention research literature. Prerequisite: IME 549 or instructor's consent.

IME 760. Ergonomics Topics (3).
New or special courses on topics in ergonomics and human factors engineering. May be repeated for different topics. Prerequisite: departmental consent.

IME 764. Systems Engineering and Analysis (3).
Presentation of system design process from the identification of a need through conceptual design, preliminary design, detail design and development, and system test and evaluation. Studies operational feasibility, reliability, maintainability, supportability and economic feasibility. Prerequisites: IME 254, 255.

IME 767. Lean Manufacturing (3).
Introduces lean concepts as applied to the manufacturing environment. Deals with the concepts of value, value stream, flow, pull and perfection. Includes waste identification, value stream mapping, visual controls and lean metrics. Prerequisite: IME 553.

IME 768. Metal Machining: Theory and Applications (3).
Provides basic understanding of the various conventional metal machining processes and the nature of various phenomena that occur in it. Includes fundamental treatments of the mechanics of chip formation under orthogonal and oblique conditions, temperatures in machining, tool materials, tool wear, surface roughness, numerical and mechanistic modeling methods, and discusses current research trends and possible future developments. Prerequisite: AE 333 or ME 250.

IME 775. Computer Integrated Manufacturing (3).
A study of the concepts, components and technologies of CIM systems; enterprise modeling for CIM, local area networks, CAD/CAM interfaces, information flow for CIM, shop floor control and justification of CIM systems. Prerequisites: knowledge of a programming language, IME 558.

IME 777. IME Colloquium (0).
Presentations and discussions of industrial engineering problems, research methods, and case analyses for graduate students. Repeatable for credit. Graded S/U.

IME 778. Machining of Composites (3).
Introduction to a wide range of machining processes used in the secondary manufacturing of composites, focusing on scientific and engineering developments affecting the present and future of composites manufacturing. Major traditional and nontraditional machining processes are discussed. The effect of process parameters, material parameters and system parameters on the material removal rate and the quality of the machined part are also discussed. Emphasis is given to the application of nontraditional machining processes in the manufacture of fiber-reinforced polymers used in the aerospace and aviation industries. Students learn the advantages and disadvantages of each machining process and how to select the most appropriate process for different materials and geometries. Prerequisite: AE 333 or instructor's approval.

IME 780. Topics in Industrial Engineering (3).
New or special courses are presented under this listing. Repeatable for credit when subject matter warrants.

IME 780AK. Advanced Industrial Information Systems (3).
Utilize database and analytical software to develop advanced industrial information systems. Topics include: advance Microsoft Access for end-users, Logic-based systems, Analytics in Microsoft Excel, data modeling, and data analytics.

IME 780AL. Energy Analytics & Management (3).
Covers topics on energy auditing, rate structures, economic evaluation techniques, analysis of opportunities in energy systems including but not limited to lighting, compressed air, process heating, steam, and other process-based energy systems. Also covers multiple software programs used by energy auditing professionals. Prerequisites: EE 282 or instructor’s approval.

IME 781. Cooperative Education (1-8).
A work-related placement with a supervised professional experience to complement and enhance the student's academic program. Intended for master's level or doctoral students in IME. Repeatable for credit. May not be used to satisfy degree requirements. Graded Cr/NCr. Prerequisites: departmental consent, graduate GPA of 3.000 or above.

IME 781P. Cooperative Education (1).
Introduces the student to professional practice by working in industry in an academically-related job and provides a planned professional experience designed to complement and enhance the student's academic program. Individualized programs must be formulated in consultation with, and approved by, appropriate faculty sponsors and cooperative education coordinators. Students must enroll concurrently in a minimum of 6 hours of coursework including this course in addition to a minimum of 20 hours per week at their co-op assignment. Graded Cr/NCr unless student has received permission before enrolling for course to be used as an elective. May be repeated. For graduate students.

IME 783. Supply Chain Management (3).
Quantitative and qualitative techniques used in the design and management of the supply chain. Includes distribution management, multi-plant coordination, optimal design of the logistics network, adequate safety stock levels and the risk pooling concept, and integrating decision support systems (DDS) in the management of the supply chain. Prerequisite: IME 553.

IME 825. Enterprise Engineering (3).
How to design and improve all elements associated with the total enterprise through the use of engineering and analysis methods and tools to more effectively achieve its goals and objectives. Deals with the analysis, design, implementation and operation of all elements associated with an enterprise. Includes business process re-engineering.
graphical enterprise modeling tools and architectures, and enterprise transformation. Prerequisite: IME 553.

IME 835. Applied Forecasting Methods (3).
A study of forecasting methods, including smoothing techniques, time series analysis, and Box-Jenkins models. Prerequisite: IME 724 or instructor's consent.

IME 850. Discrete Optimization (3).
Modeling with integer variables, various applications of discrete optimization in industry, service and science, enumeration and cutting plane methods, branch and bound methods, decomposition algorithms, computational and software issues (AMPL and CPLEX), and dynamic programming. Prerequisite: IME 550 or instructor's consent.

IME 851. Stochastic Modeling and Analysis (3).
Discusses stochastic processes and their application to modeling and analysis of systems that involve uncertainty in engineering and management sciences. Topics include review of probability concepts and random variables, discrete-time Markov chains, Poisson processes, continuous-time Markov processes, renewal theory, and basic queueing models. Prerequisite: IME 550 or instructor's consent.

IME 854. Quality Engineering (3).
A broad view of quality tools and their integration into a comprehensive quality management and improvement system. Covers the theory and approaches of the major quality leaders such as Deming, Juran and Crosby. Explores off-line and online quality engineering techniques, including cost of quality, the seven old and seven new tools, Quality Function Deployment, and statistical process control methods. Explores design of engineering experiments, including Taguchi's methods. Prerequisite: IME 554 or instructor's consent.

IME 858. Nonlinear Finite Element Analysis of Metal Forming (3).
Introduces the use of an LS-DYNA software package for metal forming simulations and discusses the theoretical foundation necessary to understand the physics and mechanics behind some of the options that need to be used to ensure solution accuracy in FEA of metal forming. Prerequisite: AE 722 or ME 650K or IME 780K.

IME 864. Risk Analysis (3).
Provides a set of methods that have been widely used to evaluate and void the risk of technological systems and devices in engineering applications. The methods introduced are multi-disciplinary in terms of the scope of the methodology and the concepts that are being applied in many industries. Students are expected to have an engineering background and the capability of using statistics and operations research tools. Prerequisite: IME 724 or 754 or instructor's consent.

Covers analytical and experimental techniques for the modeling and analysis of discrete systems with a focus on discrete event simulation of terminating and nonterminating systems. Course material includes some discussion of Markov Chains and Queuing Theory as they pertain to systems simulation. Systems applications come from the manufacturing and service sectors. Students investigate issues through readings, lectures and hands-on projects. Prerequisites: IME 553, 724, or instructor's consent.

IME 874. MSIE Graduate Seminar (1).
Seminar course performed under faculty supervision, related to a topic of research interest to both the faculty and the student. Repeatable. Graded S/U. Prerequisite: faculty consent.

IME 876. Thesis (1-6).
Repeatable for credit. Graded S/U. Prerequisite: consent of thesis advisor.

IME 877. Foundations of Neural Networks (3).
For students from a variety of disciplines. Introduces the theory and practical applications of artificial neural networks. Covers several network paradigms, emphasizing the use of neural networks as a solution tool for industrial problems which require pattern recognition, predictive and interpretive models, pattern classification, optimization and clustering. Presents examples and discusses them from a variety of areas including quality detection, process monitoring, robotics, simulation metamodeling, economic and finance analysis, diagnostic models, combinatorial optimization, and machine vision. Prerequisite: IME 724 or instructor's consent.

IME 878. Master's Directed Project (1-3).
A project conducted under the supervision of an academic advisor for the directed project option. Requires a written report and an oral presentation on the project. Graded S/U. Prerequisite: consent of academic advisor.

IME 880. Topics in Industrial Engineering (3).
New or special courses are presented under this listing on sufficient demand. Repeatable for credit when subject matter warrants.

IME 880Y. Forecasting and Analytics (3).
Covers topics on time series regression models, forecasting and smoothing, exploratory data analytics, predictive analytics and modeling, and ARIMA models. Students will use R program to model predictive analytics problems. Prerequisites: IME 524 and IME 724 or instructor's approval.

IME 883. Supply Chain Analytics (3).
Uses operations research and analytics to provide state-of-the-art mathematical models, concepts and solution methods important in the design, control, operation and management of global supply chains by emphasizing a quantitative analytical approach. Prerequisites: IME 550 and IME 553; or instructor's consent.

IME 890. Independent Study in Industrial Engineering (1-3).
Analysis, research and solution of a selected problem. Prerequisite: instructor's consent.

IME 930. Multiple Criteria Decision Making (3).
An extensive treatment of techniques for decision making where the multiple criteria nature of the problem must be recognized explicitly. Prerequisite: IME 550.

IME 950. Occupational Biomechanics (3).
Theoretical fundamentals of the link system of the body and kinetic aspects of body movement. Includes application of biomechanics to work systems. Prerequisites: IME 549, AE 223.

IME 960. Advanced Selected Topics (3).
New or special courses on advanced topics presented under this listing on sufficient demand. Prerequisite: instructor's consent.

IME 976. PhD Dissertation (1-12).
Repeatable for credit. Graded S/U. Prerequisite: admission to doctoral aspirant status.

IME 990. Advanced Independent Study (1-3).
Arranged individual, independent study in specialized content areas. Repeatable toward the PhD degree. Prerequisites: advanced standing and departmental consent.

LASI - LAS Interdisciplinary
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.
LASI 501. Great Plains Experience (1-3).
Offered during fall and spring semesters as a 1-hour field experience and in the summer session as a 3-hour field experience. For students in the Great Plains Studies certificate program. Visit museums, anthropological and archeological sites, nature preserves, and other places of significance in Great Plains Studies. Prerequisite: LASI 201 or 800 or instructor's consent.

LASI 510. Great Plains Seminar (3).
For students completing the Great Plains Studies certificate program. Focuses on contemporary issues and critical contexts for research. Students develop research projects appropriate to their classification as undergraduates or graduates and which reflect their particular interests in Great Plains Studies. Supplemental resources provided by faculty through lectures, consultation, course materials and mentoring. Prerequisites: 12 hours of Great Plains Studies coursework, including LASI 201 and 501; undergraduates must have senior status or instructor's consent.

LASI 680. International Student Exchange Program - Graduate (9).
The international student exchange program encourages graduate students to attend a university outside the USA while retaining full-time student status and paying regular tuition at WSU. A student who wishes to enter this program must apply. Application forms may be obtained from the WSU Office of International Education; next, the student meets with his or her assigned program adviser to request academic and course equivalent approval to attend the proposed university. Upon approval from the student's WSU program, application may be completed. The enrollment designation documents the status and the tuition payment of the student enrolled in ISEP for the duration of the residence at the collaborating university. At the end of the exchange semester, all coursework from the selected university is transferred to WSU. At that time, the transfer course(s) replace the LASI hours of enrollment with only the International Student Exchange Program designation remaining on the transcript.

LASI 750. Workshop in LASI (1-3).
Meets identified needs of specific audiences.

LASI 800. Research Goals/Strategies (3).
Introduces the methodology and practice of interdisciplinary research. Emphasizes the integration of methods native to the humanities, social sciences and natural sciences. Develops skills required for the writing of research papers and theses. Required of all students in the Master of Arts in liberal studies (MALS) program during the first 12 hours of coursework.

LASI 875. Thesis (1-6).
For students who are finishing the Master of Arts in liberal studies. The student writing a thesis is enrolled in this course until the thesis is completed and all thesis requirements have been satisfied. Prerequisite: consent of student's degree committee chairperson and instructor.

LASI 885. Terminal Project (1-6).
For students who are near the end of their MALS program and involved in a terminal project. The terminal project may have many aspects such as field work, practicum, curriculum development or some other individualized activity. The project must be approved by the student's advisory committee and the MALS graduate coordinator prior to beginning work on any terminal activity, whether thesis or project. While the terminal project allows for more creative flexibility than the thesis option, students and their terminal project committee should be aware that the standards of quality and research expectations are equivalent. The student involved in a project must be enrolled in this course until the project is completed and all project requirements have been satisfied.

LATN - Latin
Although a complete graduate program is not currently available in Latin, the following courses may apply toward a master's degree.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

LATN 525. Medieval Latin (3).
Introduction to medieval Latin language and culture. Samples the range of Latin literature from the fifth to the 12th centuries through readings of religious and secular (including philosophical, political, historical and linguistic) texts in prose as well as the Latin poetry and drama of various medieval writers. Prerequisite: LATN 224 or departmental consent.

LATN 526. Advanced Grammar and Composition (3).

LATN 541. Roman Lyric Poetry (3).
The lyric poems of Catullus and Horace emphasizing imagery, symbolism, structure, diction and meter.

LATN 542. Virgil's Aeneid (3).
Selected books of the Aeneid in the original and the rest in translation. Studies imagery, symbolism, structure, meter and diction. Considers the place of the Aeneid in Augustan Rome and in the epic tradition.

LATN 546. Advanced Latin (1-3).
Directed reading of Latin. Reading may be combined with Latin prose composition at the option of the students. Repeatable for credit when content varies.

LATN 651. Roman Historians (3).
A study of the development of Roman historiography. Readings from Sallust, Caesar, Livy and Tacitus.

LATN 652. Cicero (3).
The orations, letters and essays of Cicero. Concentrates on Cicero as the master of Latin prose and as one of the most important political figures of the fall of the Roman Republic.

LATN 653. Lucretius and Epicureanism (3).
Reading of Lucretius' De Rerum Natura and study of Epicureanism, the atomic theory, and Democritean materialism. Gives consideration to the place of Lucretius in Latin poetry.

LING - Linguistics
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

LING 505A. Advanced French Phonetics and Diction (2).
Cross-listed as FREN 505. Includes articulatory phonetics, phonemics, sound/symbol correspondences, dialectal and stylistic variations. Required for future French teachers. Prerequisite: any 200-level course or departmental consent.

LING 505B. Russian Phonology (2).
Cross-listed as RUSS 505. Corrective pronunciation and auditory perception for non-native speakers of Russian. Includes articulatory phonetics, phonemics and morphophonemics, as well as the study and production of intonation contours (intonatsionnye konstruktsii). Prerequisite: any 200-level course or instructor's consent.
LING 505C. Spanish Phonetics (3).
Cross-listed as SPAN 505. Includes articulatory phonetics, phonemics, sound/symbol correspondences, dialectal and stylistic variations. Required for future Spanish teachers. Prerequisite: any 200-level SPAN course or departmental consent.

LING 590. Special Studies in Linguistics (1-3).
Topic selected and announced by individual instructor. Credit is assigned to Group A, B, or C depending on content. Repeatable for credit when content varies.

LING 595. Directed Readings (1-3).
Credit assigned to Group A, B or C depending on content. Repeatable for credit.

LING 635. Introduction to Romance Linguistics (3).
Cross-listed as FREN 635 and SPAN 635. Provides a contrastive examination of the phonology, morphology and syntax of the major contemporary Romance languages (French, Spanish, Italian, Portuguese, Catalan and Romanian). Introduces students to the sound and writing system and basic grammar of Latin, and contrasts the phonological and grammatical systems of the contemporary Romance languages (French and Spanish in particular) with those of Latin. It compares specific features of the modern Romance languages synchronically (i.e., apart from Latin) as well. Students are advised to have a solid grounding in at least one Romance language (preferably French or Spanish) and a familiarity with at least one other (French, Spanish, Latin, Italian or Portuguese). Prerequisite: departmental or instructor's consent.

LING 651. Language & Culture (3).
Cross-listed as ANTH 651 and MCLL 651. Prerequisite: 3 hours of linguistics or MCLL 351 or 6 hours of anthropology.

LING 665. History of the English Language (3).
This course offers an in-depth historical study of the English language by tracing the history of how the language has changed across time. We will consider Old, Middle, Modern, American English, as well as newer World Englishes. We will address the nature and mechanisms of language change over time and the social, political, and other historical conditions related to such changes. The course will focus on the particular phonological, morphological, syntactic, lexical, and semantic changes that have happened diachronically, while touching upon the literature and culture of the different historical periods. Prerequisite: ENGL/LING 315.

LING 667. English Syntax (3).
Cross-listed as ENGL 667. Studies the basic principles of English syntax, covering the major facts of English sentence construction and relating them to linguistic theory. Prerequisite: LING/ENGL 315 or equivalent or departmental consent.

LING 668. Field Methods of Linguistics (3).
Cross-listed as ENGL 668. Students learn how to collect and analyze data from a language unknown to them by interacting with a native speaker – course language consultant. Students gain some familiarity with the phonetics, phonology, morphology and syntax of the language, while developing techniques for studying an unfamiliar language more generally and for managing the data collected. Course includes diversity content. Repeatable three times for a total of 9 credit hours. Prerequisite: ENGL/LING 315.

LING 672. Dialectology (3).
Cross-listed as ENGL 672. Introduces the study of language variety, emphasizing regional and social dialect in America and methods of studying it. May be repeated for credit when content varies. Prerequisite: LING/ENGL 315 or departmental consent.

LING 720. Seminar in Old English (3).
Cross-listed as ENGL 720. Advanced course in Old English language and literature. Studies the Old English language in enough detail to enable the reading of some prose and poetry, including parts of Beowulf and the elegiac poems in the original. Some literature, including all of Beowulf, is read in translation. Particular attention is given to close reading and interpretation of the text, and to important literary and cultural features of the period and its Norse heritage. Repeatable once for credit with a change of content and departmental consent.

LING 740. Graduate Studies in Linguistics (3).
Selected topics in theories of language and methods of linguistic study. Repeatable for credit with departmental consent.

MART - Media Arts

Although there is no graduate degree in media arts, the following courses are available for graduate credit.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MART 540. Advanced Editing & Mastering (3).
Explores editing, recording and production techniques at an advanced level. Students gain experience with industry standard digital audio workstations.

MART 570. Electronic Music Production (2).
Gain a working knowledge of composition and production of music made by computers. Covers techniques used in the electronic music genre ranging from EDM to music concrete.

MART 571. Live Sound Design (3).
Explores the acoustical, musical, and technical aspects of the live performance, in order to present the best possible sound to the audience.

MART 575. Seminar in Music Technology (3).
Covers developing trends in music technology and production.

MATH - Mathematics

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MATH 501. Elementary Mathematics (5).
A study of topics necessary to an understanding of the elementary school curriculum, such as set theory, real numbers and geometry. Not for major or minor credit. Prerequisites: elementary education major and MATH 111 or equivalent with a grade point of 2.00 or better, or departmental consent.

MATH 502. Mathematics for Middle School Teachers (5).
A study of the mathematical knowledge which forms the theoretical foundations of, the applications of, and extensions of middle school mathematics. This capstone course serves to reinforce mathematics skills learned in prerequisite courses and assists students in recognizing the unifying principles within their mathematical experiences. Prerequisites: MATH 111, 121, 123, 144, 501, and STAT 370 or equivalent with a grade point of 2.00 or better in each.

MATH 511. Linear Algebra (3).
An elementary study of linear algebra, including an examination of linear transformations and matrices over finite dimensional spaces. Prerequisite: MATH 243 with a grade point of 2.00 or better.
MATH 513. Fundamental Concepts of Algebra (3).
Defines group, ring and field, and studies their properties. Prerequisites: MATH 415 and 511 with a grade point of 2.000 or better, or departmental consent.

MATH 525. Elementary Topology (3).
Studies topological spaces, open and closed sets, bases for topology, continuous mappings, homeomorphisms, connectedness and compactness, Hausdorff and other spaces, with special emphasis on metric spaces. Prerequisite: MATH 415 with a grade point of 2.000 or better.

MATH 530. Applied Combinatorics (3).
Basic counting principles, occupancy problems, generating functions, recurrence relations, principles of inclusion and exclusion, the pigeonhole principle, Fibonacci sequences and elements of graph theory. Prerequisite: MATH 344 with a grade point of 2.000 or better.

MATH 531. Introduction to the History of Mathematics (3).
General education advanced issues and perspectives course. Studies the development of mathematics from antiquity to modern times. Solves problems using the methods of the historical period in which they arose. Requires mathematical skills. Prerequisites: MATH 511 and two additional courses at the 500 level or above, with a grade point of 2.000 or better in each.

MATH 531H. Introduction to the History of Mathematics - Honors (3).
General education advanced issues and perspectives course. Studies the development of mathematics from antiquity to modern times. Solves problems using the methods of the historical period in which they arose. Requires mathematical skills. Honors section. Prerequisites: MATH 511 and two additional courses at the 500 level or above, with a grade point of 2.000 or better in each.

MATH 545. Integration Techniques and Applications (3).
Studies the basic integration techniques used in applied mathematics. Includes the standard vector calculus treatment of line and surface integrals, Green's Theorem, Stokes's Theorem, and the Divergence Theorem. Also includes the study of improper integrals with application to special functions. Prerequisite: MATH 344 with a grade point of 2.000 or better.

MATH 547. Advanced Calculus I (3).
Covers the calculus of Euclidean space including the standard results concerning functions, sequences and limits. Prerequisites: MATH 344 and 415 with a grade point of 2.000 or better in each.

MATH 548. Introduction to Complex Variables (3).
Study of complex numbers, analytic functions, differentiation and integration of complex functions, line integrals, power series, residues and poles, and conformal mapping with applications. Prerequisites: MATH 344 with a grade point of 2.000 or better.

MATH 551. Numerical Methods (3).
Approximating roots of equations, interpolation and approximation, numerical differentiation and integration, and the numerical solution of first order ordinary differential equations. Some computer use. Prerequisites: MATH 344 and 451 with a grade point of 2.000 or better, or departmental consent.

MATH 553. Mathematical Models (3).
Covers case studies from the fields of engineering technology and the natural and social sciences. Emphasizes the mathematics involved. Each student completes a term project which is the solution of a particular problem approved by the instructor. Prerequisite: Math 344 with a grade point of 2.000 or better, or departmental consent.

MATH 555. Differential Equations I (3).
A study of first order equations including separation of variables and exact equations, second order equations including the general theory of initial value problems, constant coefficients, undetermined coefficients, variation of parameters and special methods of solution using power series and the Laplace transform methods. A standard course in differential equation for students in the sciences and engineering. Prerequisite: MATH 243 with a grade point of 2.000 or better, or departmental consent.

MATH 555H. Differential Equations I - Honors (3).
A study of first order equations including separation of variables and exact equations, second order equations including the general theory of initial value problems, constant coefficients, undetermined coefficients, variation of parameters and special methods of solution using power series and the Laplace transform methods. A standard course in differential equation for students in the sciences and engineering. Honors section. Prerequisite: MATH 243 with a grade point of 2.000 or better, or departmental consent.

MATH 580. Selected Topics In Math (1-3).
Topic chosen from topics not otherwise represented in the curriculum. May be repeated up to a maximum of 6 hours credit with departmental consent. Prerequisite: departmental consent.

MATH 615. Elementary Number Theory (3).
Studies properties of the integers by elementary means. Prerequisite: MATH 344 with a grade point of 2.000 or better, or departmental consent.

MATH 621. Elementary Geometry (3).
Studies Euclidean geometry from an advanced point of view. Prerequisite: MATH 344 with a grade point of 2.000 or better, or departmental consent.

MATH 640. Advanced Calculus II (3).
A continuation of MATH 547. Prerequisites: MATH 511 and 547 with a grade point of 2.000 or better in each.

MATH 655. Differential Equations II (3).
A continuation of MATH 555 (but with more emphasis on theoretical issues) that covers higher order differential equations, systems of first order equations (including the basics of linear algebra), some numerical methods, and stability and behavior of solutions for large times. Prerequisite: MATH 555 with a grade point of 2.000 or better, or departmental consent.

MATH 657. Optimization Theory (3).
Introduces selected topics in linear and nonlinear optimization. Develops the revised simplex method along with a careful treatment of duality. Then extends the theory to solve parametric, integer and mixed integer linear programs. Prerequisite: MATH 511 with a grade point of 2.000 or better.

MATH 713. Abstract Algebra I (3).
Treats the standard basic topics of abstract algebra. Prerequisite: MATH 513 with a grade point of 2.000 or better, or departmental consent.

MATH 720. Modern Geometry (3).
Examines the fundamental concepts of geometry. Prerequisite: MATH 513 with a grade point of 2.000 or better, or departmental consent.

MATH 725. Topology I (3).
Studies the results of point set and algebraic topology. Prerequisite: MATH 547 with a grade point of 2.000 or better, or departmental consent.
MATH 743. Real Analysis I (3).
Includes a study of the foundations of analysis and the fundamental results of the subject. Prerequisite: MATH 640 with a grade point of 2.00 or better, or departmental consent.

MATH 745. Complex Analysis I (3).
Studies the theory of analytic functions. Prerequisite: MATH 640 with a grade point of 2.00 or better, or departmental consent.

MATH 750Y. Smooth Manifolds (3).
Knowledge of differentiable manifolds has become very important in a large number of areas of mathematics and of its applications. In fact, much of advanced calculus and analysis is based on the study of differentiable manifolds. For example, topics such as line and surface integrals, divergence and curl of vector fields and Stokes' and Green's theorems are most naturally described using manifold theory. Course gives a careful introduction to differentiable manifolds, illustrating each new definition and theorem with the study of spheres, tori, real and complex projective spaces, and matrix groups. Talks about tangent spaces, vector fields, differential forms and integral curves. Concludes with Stokes' theorem on manifolds.

MATH 751. Numerical Linear Algebra (3).
Includes analysis of direct and iterative methods for the solution of linear systems, linear least squares problems, Eigenvalue problems, error analysis, and reduction by orthogonal transformations. Prerequisites: MATH 511, 547, 551 with a grade point of 2.00 or better in each, or departmental consent.

MATH 753. Ordinary Differential Equations (3).
Covers existence, uniqueness, stability and other qualitative theories of ordinary differential equations. Prerequisite: MATH 545 or 547 with a grade point of 2.00 or better, or departmental consent.

MATH 755. Partial Differential Equations I (3).
Studies the existence and uniqueness theory for boundary value problems of partial differential equations of all types. Prerequisite: MATH 547 with a grade point of 2.00 or better, or departmental consent.

MATH 757. Partial Differential Equations for Engineers (3).
Includes Fourier series, the Fourier integral, boundary value problems for the partial differential equations of mathematical physics, Bessel and Legendre functions, and linear systems of ordinary differential equations. Prerequisite: MATH 555 with a grade point of 2.00 or better.

MATH 758. Complex and Vector Analysis for Engineers (3).
A survey of some of the mathematical techniques needed in engineering including an introduction to vector analysis, line and surface integrals, and complex analysis, contour integrals and the method of residues. Not applicable toward a graduate degree in mathematics. Prerequisite: MATH 555 with a grade point of 2.00 or better.

MATH 813. Abstract Algebra II (3).
A continuation of MATH 713. Prerequisite: MATH 713 or equivalent.

MATH 825. Topology II (3).
A continuation of MATH 725. Prerequisite: MATH 725 or equivalent.

MATH 828. Selected Topics Topology (2-3).
Repeatable with departmental consent. Prerequisite: departmental consent.

MATH 828G. Smooth Geometry (3).
Begins with basic smooth manifold theory including topics such as vector bundles, tensor fields, flows, Lie derivatives and the theorems of Green, Gauss and Stokes. Introduces some elementary topics from Riemannian geometry.

MATH 828I. Topics in Geometric Topology (3).
Studies a variety of topics in low-dimensional topology including knot theory, the topological classification of surfaces and the classification of three-dimensional manifolds. With regard to the latter, students also briefly discuss Thurston's Geometrisation Conjecture.

MATH 828J. Smooth Geometry II (3).
Survey of topics in the areas of smooth manifold theory and Riemannian geometry. Emphasizes the Riemann Curvature Tensor and the relationship between topology and positive curvature.

MATH 828K. Partial Differential Operator Theory (3).
Begin with an introduction to the theory of smooth manifolds, fiber bundles, their section spaces, and operators on sections spaces from a categorical point of view. Introduces jet theory with the goal of proving Peetre's theorem. Studies sheaves, ringed spaces, and morphisms of each with the ultimate goal of proving Slovák's generalization of Peetre's theorem. Finally, investigates applications of the two main theorems.

MATH 829. Selected Topics in Geometry (2-3).
Repeatable with departmental consent. Prerequisite: departmental consent.

MATH 843. Real Analysis II (3).
A continuation of MATH 743. Prerequisite: MATH 743 or equivalent.

MATH 845. Complex Analysis II (3).
A continuation of MATH 745. Prerequisite: MATH 745 or equivalent.

MATH 848. Calculus of Variations (3).
Includes Euler-Lagrange equations, variational methods and applications to extremal problems in continuum mechanics. Prerequisite: MATH 547 or 757.

MATH 849. Selected Topics in Analysis (2-3).
Repeatable with departmental consent. Prerequisite: departmental consent.

MATH 849G. Broad Topics in Analysis (3).
Seminal publications in mathematical analysis will be introduced, examined and discussed and incorporated into the research of participating students.

Includes analysis of algorithms for the solution of initial value problems and boundary value problems for systems of PDEs with applications to fluid flow, structural mechanics, electromagnetic theory and control theory. Prerequisite: MATH 751.

MATH 854. Tensor Analysis with Applications (3).
After introducing tensor analysis, considers applications to continuum mechanics, structural analysis and numerical grid generation. Prerequisite: MATH 545 or 757.

MATH 856. Partial Differential Equations II (3).
A continuation of MATH 755. Prerequisite: MATH 755.

MATH 857. Selected Topics in Engineering Mathematics (3).
Advanced topics in mathematics of interest to engineering students, including tensor analysis, calculus of variations and partial differential equations. Not applicable toward the MS in mathematics.
MATH 858. Selected Topics in Engineering Mathematics II (3). Advanced topics in mathematics of interest to engineering students, including tensor analysis, calculus of variations and partial differential equations. Not applicable toward the MS in mathematics.

MATH 859. Selected Topics in Applied Mathematics (2-3). Repeatable with departmental consent.

MATH 859K. Mathematical Physics (3). Advanced topics of mathematics as applied to problems in quantum computing and quantum information. Includes mappings, simulations and diffeomorphisms of quantum measures.

MATH 859L. Mathematical Physics II (3). Advanced topics of mathematics as applied to problems in quantum computing and quantum information. Includes mappings, simulations and diffeomorphisms of quantum measures.

MATH 859M. Computational Fluid Dynamics (3). A study of the fundamental equations in fluid mechanics. In particular, discusses numerical solvers of the Euler equations and, in general, conservation laws. The numerical methods are applied to fluid dynamical problems in plasma physics and nuclear fusion.

MATH 859N. Math of Machine Learning I (3). Study of complex and quantum machine learning, evaluating the complexity of the mappings possible in tractable time.

MATH 880. Proseminar (1). Oral presentation of research in areas of interest to the students. Prerequisite: major standing.

MATH 881. Individual Reading (1-5). Repeatable up to a maximum of 6 hours with departmental consent. Prerequisite: departmental consent.

MATH 881AB. App of Conformal Mapping (3). Applications of conformal mapping: We will consider applications of conformal mapping to inverse problems.

MATH 881Z. Topics in Geometry (3). Introductory course in geometry. Students learn about various classical geometries in two- and three- dimensions: Euclidean, projective, elliptic and hyperbolic.

MATH 885. Thesis (1-4). May be repeated to a maximum of 6 hours credit. Graded S/U. Prerequisite: departmental consent.

MATH 941. Applied Functional Analysis I (3). Introduces functional analysis and its applications. Prerequisites: MATH 843, 755 (MATH 755 may be a corequisite).

MATH 942. Applied Functional Analysis II (3). Introduces functional analysis and its applications. Prerequisites: MATH 843, 755 (MATH 755 may be a corequisite).

MATH 947. Theory Fluid Dynamics I (3). Mechanics of fluid flow, momentum and energy principles, Navier-Stokes and Euler equations, potential flows, vortex dynamics, stability analysis and numerical methods applied to fluid dynamics. Prerequisite: MATH 745.

MATH 948. Theory Fluid Dynamics II (3). Mechanics of fluid flow, momentum and energy principles, Navier-Stokes and Euler equations, potential flows, vortex dynamics, stability analysis and numerical methods applied to fluid dynamics. Prerequisite: MATH 745.

MATH 952. Advanced Topics in Numerical Analysis (3). Advanced topics of current research interest in numerical analysis. Topics chosen at instructor's discretion. Possible areas of concentration are numerical methods in ordinary differential equations, partial differential equations and linear algebra. Repeatable with departmental consent. Prerequisites: MATH 751, 851, and instructor's consent.

MATH 958. Selected Advanced Topics in Applied Mathematics (3). Topics of current research interest in applied mathematics. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

MATH 959. Selected Advanced Topics in Applied Mathematics (3). Topics of current research interest in applied mathematics. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

MATH 981. Advanced Independent Study in Applied Mathematics (1-3). Arranged individual directed study in an area of applied mathematics. Repeatable to a maximum of 6 hours. Prerequisites: must have passed the PhD qualifying exam and instructor's consent.

MATH 985. PhD Dissertation (1-9). Repeatable to a maximum of 24 hours. Graded S/U. Prerequisite: must have passed the PhD preliminary exam.

MBA - Master of Business Administration

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MBA 781. Cooperative Education (1). Provides the graduate student with a field placement which integrates theory with a planned and supervised professional experience. Programs must be formulated in consultation with appropriate graduate faculty. May be repeated for credit up to 3 hours. May not be used to fulfill degree requirements. Graded Cr/NCr.

MBA 799. Professional Development/360 (0). MBA students conduct self-assessment and go through peer assessment of various competencies. They receive feedback on these competencies through a 360 assessment report. Provides students with the opportunity to reflect on the feedback on competencies, explore improvement options, and outline development goals to challenge themselves over the course of the MBA program.

MBA 800. Fundamentals of Finance and Financial Analysis (3). Provides students whose undergraduate degrees were in disciplines other than business the background accounting and finance fundamentals required for the MBA program. Topics covered include the design and use of financial statements including the balance sheet,
income statement and statement of cash flows, analyzing companies using financial ratios, time value of money theory and calculations, investment decision rules, securities valuation, and fundamentals of capital budgeting. Prerequisites: graduate standing and permission of the MBA director.

MBA 801. Management & Marketing (3).
Highlights foundation knowledge from the disciplines of management and marketing integrated with a strong component of communication skills. Primarily, provides students with a knowledge base in management and marketing from which to build in their MBA coursework. Secondly, builds oral and written communication skills necessary for success in the MBA curriculum and beyond. Prerequisites: graduate standing and permission of the MBA director.

MBA 802. Fundamentals of Accounting (1.5).
Provides students whose undergraduate degrees were in disciplines other than business the background accounting fundamentals required for the MBA program. Topics covered include the design and use of financial statements including the balance sheet, income statement and statement of cash flows, and analyzing companies using financial ratios. Prerequisites: graduate standing and permission of the MBA director.

MBA 803. Fundamentals of Finance (1.5).
Provides students whose undergraduate degrees were in disciplines other than business the background finance fundamentals required for the MBA program. Topics covered include time value of money theory and calculations, investment decision rules, securities valuation, and fundamentals of capital budgeting. Prerequisites: graduate standing and permission of the MBA director.

MBA 804. Marketing Basics (1.5).
Highlights foundation knowledge from the discipline of marketing integrated with a strong component of communication skills. Primarily, provides students with a knowledge base in marketing and assists in building oral and written communication skills necessary for success in the MBA curriculum and beyond. Prerequisites: graduate standing and permission of the MBA director.

MBA 805. Management Basics (1.5).
Highlights foundation knowledge from the discipline of management integrated with a strong component of communication skills. Primarily, provides students with a knowledge base in management and assists in building oral and written communication skills necessary for success in the MBA curriculum and beyond. Prerequisites: graduate standing and permission of the MBA director.

MCLL - Modern and Classical Languages and Literatures
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MCLL 651. Language & Culture (3).
Cross-listed as ANTH 651 and LING 651. An introduction to the major themes in the interactions of language and society and language and culture, including ethnography of communication, linguistic relativity, and determinism; types of language contact, the linguistic repertoire, and cross-cultural discourse analysis. Content may vary with instructor. Prerequisite: 3 hours of linguistics, or MCLL 351, or 6 hours of anthropology.

MCLL 790Q. Special Topics in Music and Foreign Language (1-5).
Cross-listed as MUSP 790Q (College of Fine Arts). Allows undergraduate and graduate students to take courses in the modern foreign languages together with individualized instruction in the translation and diction of poetical texts set to music. Course may be used to satisfy the foreign language requirement of the Bachelor of Music in performance-vocal emphasis. Repeatable for credit. Prerequisite: departmental consent.

ME - Mechanical Engineering
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

ME 502. Thermodynamics II (3).
Continuation of ME 398, emphasizing cycle analysis, thermodynamic property relationships and psychrometrics, with an introduction to combustion processes and chemical thermodynamics. For undergraduate students only. Prerequisite: ME 398.

ME 521. Fluid Mechanics (3).
The definition of a fluid and the concept of a continuum. Stress and strain in a Newtonian fluid. Description and classification of fluid motions. Hydrostatic pressure and forces on submerged surfaces. Reynolds Transport Theorem and integral analysis of conservation laws. Introduction to differential analysis of fluid motion. Dimensional analysis and similitude. Study of flow in closed conduits: pressure drop in fully developed viscous flow. The boundary layer concept and lift and drag forces on immersed bodies. For undergraduate students only. Prerequisites: ME 335, 398, MATH 555; all with a minimum grade of C (2.000).

ME 522. Heat Transfer (3).
Introduction to the three modes of heat transfer in the context of the laws of thermodynamics; the heat equation and its application to steady conduction in one- and two-dimensions as well as to unsteady one-dimensional conduction; the thermal boundary layer. Reynolds Analogy, and the problem of convection; free and forced convection in internal and external flows; boiling and condensation; thermal radiation. Emphasizes problem solving using analytical methods approximate solutions, analogies, empirical correlations, and numerical methods. For undergraduate students only. Prerequisites: ME 325, ME 521 and PHYS 314; each with a minimum grade of C (2.000).

ME 533. Mechanical Engineering Laboratory (3).
2 Classroom hours; 3 Lab hours. Introduces the basics of engineering measurements. Discusses related theory, followed by applications in such areas as strain, sound, temperature and pressure measurements. Format includes lectures, recitation (presenting the concept of the experiment to be performed and the required data analysis), and laboratories. Analyzes the data obtained from measuring systems set up and operated in the laboratory to demonstrate and reinforce fundamental concepts of engineering mechanics. For undergraduate students only. Prerequisites: EE 282, AE 333, ME 325, ENGL 102, COMM 111, PHYS 315; Corequisite: ME 522.

ME 541. Mechanical Engineering Design II (3).
Applications of engineering design principles to the creative design of mechanical equipment. Problem definition, conceptual design, feasibility studies, design calculations to obtain creative solutions for current real engineering problems. Introduction to human factors, economics and reliability theory. Group and individual design projects. For undergraduate students only. Prerequisites: ME 339 and ME 439.

ME 581. Introduction to Corrosion (3).
Provides information about basic corrosion processes, underlying principles of corrosion formations, and general protection methods. Studies basic corrosion and corrosion mechanisms, importance of corrosion, coating systems, and how the materials are protected from the corrosion formations. Concerns fundamental theory of the thermodynamics and kinetics of the corrosion process of metals and
alloys as well as polymer materials both in atmosphere and water solutions. Focuses on electrochemical aspects and the influences of the properties of the metals and their oxides on the corrosion behavior, which is exemplified by different corrosion types. Existing corrosion protection strategies, including surface treatments and coatings are described and choice of material is discussed from a corrosion point of view. Prerequisites: ME 250 and ME 398; or instructor’s consent.

ME 602. Engineering for the Environment (3).
Engineering for the environment, air, water and noise pollution, and handling of hazardous wastes. Covers briefly the main pollutants, their major sources, their effects and their attainment levels set by the U.S. Environmental Protection Agency. Emphasizes engineering systems for pollution control. Prerequisites: ME 398, AE 223, IME 255, or departmental consent.

ME 633. Mechanical Engineering Systems Laboratory (3).
2 Classroom hours; 3 Lab hours. Selected experiments illustrate the methodology of experimentation as applied to mechanical and thermal systems. Experiments include the measurement of performance of typical systems and evaluation of physical properties and parameters of systems. Group design and construction of an experiment is an important part of the course. Team and individual efforts are stressed as are written and oral communication skills. For undergraduate students only. Prerequisites: ME 522, ME 533.

ME 637. Computer-Aided Engineering (3).
2 Classroom hours; 3 Lab hours. Integrates computer-aided design, finite element analysis, kinematics analysis, heat transfer analysis and other considerations for design of mechanical components and systems. Provides a blend of theory and practice. Prerequisites: ME 339 and ME 439, or equivalent.

ME 639. Applications of Finite Element Methods in Mechanical Engineering (3).
2 Classroom hours; 3 Lab hours. Introduces the finite element method (FEM) as a powerful and general tool for solving differential equations arising from modeling practical engineering problems. Finite element solutions to one- and two-dimensional mechanical engineering problems in mechanical systems, heat transfer, fluid mechanics and vibrations. Includes Galerkin’s and variational finite element models. Introduces commercial finite element computer tools such as ANSYS. Prerequisites: ME 325, ME 339 and ME 439; Corequisite: ME 522 or instructor’s consent.

Analysis and design of heating, ventilating and air-conditioning systems based on psychometrics, thermodynamics and heat transfer fundamentals with focus on advanced duct design for composite building, cooling load calculations and thermal-issues based psychometric. Focuses on design procedures for space air-conditioning, and heating and cooling loads in buildings. Prerequisites: ME 521, 522; or instructor’s consent.

ME 650. Selected Topics in Mechanical Engineering (1-3).
New or special topics are presented on sufficient demand. Repeatable for credit when subject material warrants. Prerequisite: departmental consent.

ME 651. Biomaterials (3).
Introduction to biomaterials and biotechnology for both undergraduate and graduate students focusing on biomaterials (e.g., metals and alloys, composites, polymers and ceramics), biodevices, basic fabrication and characterization techniques, and their general properties and applications. Prerequisites: ME 250, ME 251; or instructor’s consent.

ME 659. Mechanical Control Systems (3).
Cross-listed as EE 684. Modeling and simulation of dynamic systems. Theory and analysis of the dynamic behavior of control systems, based on the laws of physics and linear mathematics. Concerns classical methods of feedback control systems and design. Prerequisites: (1) EE 282 and MATH 555, or (2) EE 383.

ME 660. Polymer Materials and Engineering (3).
Introduces the basic science and engineering of polymer materials. Provides the scientific foundation for an understanding of the relationships among material structures and properties of different types of polymer materials (thermoplastics, thermosets, synthetic fibers and rubbers, etc.) for various applications from consumer electronics to aviation industry. An understanding of these materials, processing techniques, their properties, and how they are applied in the industry. Prerequisite: ME 250 or CHEM 211.

ME 662. Senior Capstone Design (3).
1 Classroom hour; 6 Lab hours. A culminating course that allows students nearing graduation to combine the knowledge and skills acquired in their program and apply it to a major project or assignment. An exercise in the practice of mechanical engineering for undergraduate students in their graduating semester; students engage in a comprehensive design project requiring the integration of knowledge gained in prerequisite engineering, science and design courses along with economic comparisons of engineering alternatives considering the time value of money, taxes and depreciation. Team effort and both oral and written presentations are a part of the experience. For undergraduate students only. Prerequisites: ME 339, ME 439, ME 522. Corequisites: ME 633, ME 659.

ME 664. Introduction to Fatigue and Fracture (3).
Deals with the primary analytical methods used to quantify fatigue damage. These are the stress life approach, strain life approach and the fracture mechanics approach. Prerequisite: ME 439.

ME 665. Selection of Materials for Design and Manufacturing (3).
Focuses on the selection of engineering materials to meet product and manufacturing requirements. Solution to various product and manufacturing problems by appropriate selection of materials is illustrated through the use of numerous examples and case studies. Prerequisite: ME 439.

ME 667. Mechanical Properties of Materials (3).
Major focus on deformation mechanisms and on crystal defects that significantly affect mechanical properties. Also covers plasticity theory, yield criteria for multi-axial states of stress, fracture mechanics and fracture toughness. Includes some review of basic mechanics of materials and elasticity as needed. Prerequisite: ME 439.

ME 669. Mechanical Vibrations and Acoustics (3).
Introduction to the dynamics and vibrations of lumped-parameter models of mechanical systems and the fundamentals of acoustics including the study of simple harmonic systems, acoustics waves and transmission phenomena. Topics covered include kinematics, force-momentum formulation for systems of particles and rigid bodies in planar motion, work-energy concepts, virtual displacements and virtual work, Lagrange’s equations for systems of particles and rigid bodies in planar motion, and linearization of equations of motion, 3D elasticity, fluid and elastic wave equations, elastic and plastic waves in rods and beams, waves in plates, and dynamics and acoustics of cylindrical shells, acoustic fluids effects such as radiation and scattering by submerged plates and shells, and interaction between structural elements, response of plates and shells to high-intensity loads, dynamic plasticity and fracture, and structural damage caused by implosive and impact loads, free and forced vibration of linear multi-degree of freedom models of mechanical systems and matrix eigenvalue
ME 670. Introduction to Nanotechnology (3).
Introduction to the underlying principles and applications of the field of nanotechnology and nanoscience. Covers basic principles of nanotechnology, nanomaterials and associated technologies and provides a background of the understanding, motivation, implementation, impact, future, and implications of nanotechnology. Focuses on processing techniques of nanoparticles, nanofibers/wires, nanotubes, nanofilms and nanocomposites using physical, chemical and physicochemical techniques, as well as their characterizations and potential commercial applications. An understanding of nanomaterials, fabrication and characterization techniques, and how they are applied in nanodevice fabrication. Material covered includes nanofabrication technology (how one achieves the nanometer length scale, from "bottom up" to "top down" technologies), the interdisciplinary nature of nanotechnology and nanoscience (including areas of chemistry, material science, physics and molecular biology), examples of nanoscience phenomena (the crossover from bulk to quantum mechanical properties), and applications (from integrated circuits, quantum computing, MEMS and bioengineering). Prerequisites: ME 250 and ME 398; or instructor's consent.

ME 672. Manufacturing of Composites (3).
2 classroom hours; 3 laboratory hours. Provides the basis for understanding and use of composite materials in various engineering applications such as space and aerospace structures. Different classes of composite materials, the characteristics of their constituents, an introduction to micromechanics of composites, commonly used composite manufacturing techniques in detail, along with their capabilities and limitations, characterization methods, degradation, joining, tooling, machining, and recycling of composites is discussed. Contains laboratory modules designed to provide hands-on experience to emphasize the practical aspects of the topics covered. Prerequisites: ME 250, ME 251, AE 333; or instructor's consent.

Introduces basic standards in recycling and reusing processes of different materials and the importance of recycling for the economy, health and environmental aspects. Focuses on basic separation techniques of various recyclable materials, recycled products reprocessing, as well as characterizations and potential commercial applications in different industries. Undergraduate and graduate students are expected to gain an understanding of recycling processes, recycled materials and applications. Prerequisites: ME 250, ME 251, AE 333; or instructor's consent.

ME 678. Studies in Mechanical Engineering (1-3).
Arranged individual, independent study in specialized content areas in mechanical engineering under the supervision of a faculty member. Requires written report or other suitable documentation of work for departmental records. Three (3) hours maximum technical elective credit. Not for graduate credit. Prerequisite: departmental consent.

ME 682. Engineering Applications of Computational Fluid Dynamics and Heat Transfer (3).
Reviews the basic laws of fluid flow and heat transfer including the Navier-Stokes equations. Applications include a CFD software emphasizing the finite volume method and introducing turbulence modeling. Additional topics include grid generation and benchmarking exercises as well as open-ended projects. Prerequisites: ME 325 (or AE 227) and ME 522 (or AE 424) with a minimum grade of C in each, or instructor's consent.

ME 702. Energy and Sustainability (3).
Cross-listed as PHYS 702. Introduction to sustainability in a world of increasing population with more energy intensive lifestyles and diminishing resources; anthropogenic global climate change and the engineer's responsibilities; a critical look at the human ecological footprint; survey of alternative energy sources with special emphasis on wind and solar energy; life cycle analysis (LCA) of engineered products; the electric grid; emissions from various transportation modes, and alternatives. Consists of traditional lectures, seminars by invited experts, and the use of case studies. Meets the ME undergraduate curricular requirement for thermal/fluids elective and/or a general ME elective. Course includes diversity content. Prerequisite: ME 522 or PHYS 551; or instructor's consent.

ME 709. Injury Biomechanics (3).
Offers insight into the trauma problem and methods used to quantify and reduce it. Research methods used in injury biomechanics and their limitations are discussed including tests with human volunteers, cadavers, animals, mechanical crash test dummies and computer models. Provides a basic understanding of injury mechanisms and tolerances for the different body parts, including head, spine, thorax and extremities. Presents both automotive and aircraft impact safety regulations on occupant protection and related biomechanical limits. Students are exposed to and gain experience in using mathematical/numerical/computer models for injury biomechanics. Prerequisite: instructor's consent.

ME 719. Basic Combustion Theory (3).
Introduction to the fundamental principles of combustion processes. Examines the chemistry and physics of combustion phenomena, that is, detonation and flames, explosion and ignition processes. Prerequisites: CHEM 211, ME 502.

ME 728. Advanced Electronic Materials (3).
Focuses on electronic materials which are fundamental and critical to performances and applications of electronic devices. Structure-property and property-relationships of different types of electronic materials are discussed. Cutting edge technologies in development of advanced electronic materials and devices are introduced. High level knowledge of electronic material structures, properties and applications of electronic materials, and basic principles for material design for electronics. Prerequisites: ME 250 or PHYS 313; or instructor's consent.

Modeling and analysis of planar motion for multibody mechanical systems including automatic generation of governing equations for kinematic and dynamic analysis, as well as computational methods and numerical solutions of governing equations. Computer applications. Open-ended student projects on engineering applications such as mechanisms design and vehicle dynamics. Technical elective course for mechanical engineering students. Prerequisites: ME 335, 339, MATH 555; or instructor's consent.

Provides rigorous understanding of physics and engineering mathematics in order to model practical scientific and engineering problems in fluid mechanics, heat transfer, solid mechanic, and vibrations. Focuses on analytical approaches and introduces computational methods for modeling engineering systems using computer codes. Prerequisites: MATH 555 and ME 325, or departmental consent.

ME 731. Advanced Heat Exchanger Design (3).
Topics cover advanced design of fluidized bed, heat pipe, and high-temperature heat exchangers. Design experience through individual projects. Prerequisites: ME 521, ME 522.
ME 737. Robotics and Control (3).
A systems engineering approach to robotic science and technology. Fundamentals of manipulators, sensors, actuator, end-effectors and product design for automation. Includes kinematics, trajectory planning, control, programming of manipulator and simulation, along with introduction to artificial intelligence and computer vision. Prerequisite: ME 659 or equivalent.

ME 739. Advanced Machine Design (3).
A broad coverage of principles of mechanical analysis and design of machine elements. Emphasizes dynamic system modeling, prediction of natural frequencies and forced response, effect of support flexibility, failure theories used in design and fatigue life prediction. Typical mechanical systems studied are gears, bearings, shafts, rotating machinery and many types of spring-mass systems. Uses fundamentals learned in mechanics, strength of materials and thermal sciences to understand mechanical system modeling, analysis and design. Prerequisite: ME 541 or instructor's consent.

ME 745. Design of Thermal Systems (3).
Covers component design for a typical Rankine power cycle. Design of boilers, condensers, various types of turbine, pipe flow networks, and power plant system integration are covered. Prerequisites: ME 521, ME 522.

ME 747. Microcomputer-Based Mechanical Systems (3).
2 Classroom hours; 3 Lab hours. Microcomputer-based real-time control of mechanical systems. Familiarizes students with design and methodology of software for real-time control. Includes an introduction to the C programming language which is most relevant to interfacing and implementation of control theory in computer-based systems. Laboratory sessions involve interfacing microcomputers to mechanical systems and software development for control methods such as PID. Prerequisite: ME 659 or instructor's consent.

ME 750. Selected Topics in Mechanical Engineering (1-3).
New or special topics are presented on sufficient demand. Repeatable for credit when subject material warrants. Prerequisite: departmental consent.

ME 750AC. Laser Applications in Manufacturing (3).
Looks into laser technology which is defined as the methods, processes or products that make use of the spectrum of laser light, and any systems whose function is to study, measure, transform or transmit the light. Engineers, scientists and technicians are being called on to determine how the laser beams can be employed to assist in their operations so as to produce the most cost effective products and services. A good working knowledge of lasers is required to better understand their use for specific applications. Laser technology creates new opportunities and will have pervasive economic effects and substantial employment implications.

ME 751. Selected Topics in Mechanical Engineering (1-3).
New or special topics are presented on sufficient demand. Repeatable for credit when subject material warrants. Prerequisite: departmental consent.

ME 752. Failure Analysis Methods and Tools (3).
Introduces the fundamental concepts of the failure analysis of engineering components at various environmental and testing conditions, and provides general knowledge on the procedures and mechanisms involved in failure analysis. Topics include procedural approaches in failure analysis; metallographic and fractographic studies, analysis of broken components by macroscopic, microscopic and nanoscopic observations, reviews common experimental methods used in failure analysis, and specific descriptions of failures for metallic, ceramics, polymeric and composite materials at micro- and nanoscales. Students learn advanced materials characterization techniques including scanning electron microscopy (SEM), energy dispersive spectroscopy (EDS) and compositional dot mapping, x-ray diffraction (XRD), Fourier transform infrared spectroscopy (FTIR) optical microscopy, and fracture surface sample preparation. Undergraduate and graduate students are expected to gain an understanding of these subjects, and how they are applied in industrial applications. Prerequisites: ME 250, ME 439; or instructor's consent.

Introduces the advanced materials and fundamental principles behind the energy systems and devices. Focuses on advanced materials (e.g., metals and alloys, composites, polymers, ceramics and semiconductors) at micro- and nanoscale, novel energy conversion systems and devices, fabrication and characterization techniques and their general properties and applications. Efficiencies of most energy systems are limited by materials engineering and reliability of these systems. Covers the application of scientific and engineering principles for materials used in energy systems. Equips students with knowledge and skills that enable them to solve a wide range of energy materials technology and engineering problems to minimize operational risks and maximize process reliability, and ensure a more sustainable future. Students gain an understanding of these advanced materials and devices, importance of them, and how they are applied in energy related technologies and future developments. Prerequisites: ME 250, ME 398, ME 469 or ME 522 (either one of ME 469 or ME 522); or instructor's consent.

ME 755. Intermediate Thermodynamics (3).
Laws of thermodynamics, introduction to statistical concepts of thermodynamics, thermodynamic properties, chemical thermodynamics, Maxwell's relations. Prerequisite: ME 502 or departmental consent.

Standard first nonlinear controls course. Covers stability, feedback linearization (robotic, mechanical, electro-mechanical system applications), differentially-flat systems (with rotor-craft position tracking applications), back-stepping control-design methods (electro-mechanical, robotic and rotor-craft applications), MIMO systems, normal form, zero dynamics, and adaptive control of robotic systems. EE 792, Linear Systems, while not a prerequisite, is helpful. Prerequisite: ME 659 or EE 684; or equivalent.

ME 759. Neural Networks for Control (3).
Introduces specific neural network architectures used for dynamic system modeling and intelligent control. Includes theory of feed-forward, recurrent, and Hopfield networks; applications in robotics, aircraft and vehicle guidance, chemical processes, and optimal control. Prerequisite: ME 659 or departmental consent.

ME 760. Fracture Mechanics (3).
Covers fracture mechanics in metals, ceramics, polymers and composites. Suitable for graduate and undergraduate study in metallurgy and materials, mechanical engineering, civil engineering and aerospace engineering where a combined materials-fracture mechanics approach is stressed. Prerequisite: ME 439 or instructor's consent.

ME 762. Polymeric Composite Materials (3).
Designed to provide students with an understanding and knowledge about polymeric composite materials. The characteristics of various reinforcements and polymeric matrices are presented and their processing techniques, capabilities and limitations are highlighted. In addition, various methods for manufacturing of polymeric composites along with their capabilities are discussed. Characterization techniques, test methods, assembly, and joining of polymeric composites are presented. Prerequisites: ME 250, ME 251, AE 333, ME 439, and MATH 555; or instructor's consent.
ME 764. Thermodynamics of Solids (3).
 Presents basic thermodynamic concepts which form the working tools throughout the course. Emphasizes the interpretation of certain types of phase diagrams — not upon the use of thermodynamics to assist phase diagram construction but upon the use of phase diagrams to obtain thermodynamic quantities. Also, the thermodynamics of defects and defect interactions in metals, ceramics, polymers, elemental semiconductors, and compounds. Prerequisites: ME 250 and 398 or departmental consent.

ME 766. SEM and EDAX (3).
 Introduces Scanning Electron Microscopy (SEM), a powerful tool in materials science and engineering which can be used to analyze structural defects in materials. Discusses both the theory and experimental methods, as well as the application of these methods. Prerequisite: ME 250 or departmental consent.

ME 767. X-Ray Diffraction (3).
 Theory of X-ray diffraction, experimental methods, and their applications which can include determination of the crystal structure of materials, chemical analysis, stress and strain measurements, study of phase equilibria, measurement of particle size, and determination of the orientation of a single crystal. Prerequisites: ME 250 and AE 333 or departmental consent.

ME 769. Impact Dynamics (3).
 Classical methods are presented to analyze mechanical components and structures for impact response. Impact methods include stereo mechanics, contact mechanics, impulse-momentum, stress-wave, energy method and plastic impact. Finite element analysis (FEA) modeling of impact events are examined and applied to classical methods. Material properties evaluation for impact conditions, design techniques for impact and shock mitigation, and an introduction to crashworthiness are also presented. Course goals are to understand characteristics such as loading, stresses, deflections, contact forces and material response to impact events. Prerequisite: ME 439 or instructor's consent.

ME 777. Mechanical Engineering Seminar (0).
 A mechanical engineering graduate seminar to develop critical thinking/ foundation for students' future professional careers with cutting-edge research activities in the area of mechanical engineering. Provides the necessary scientific and mechanical engineering knowledge for future successful professionals. Students are required to register and pass this course at least one semester during their entire graduate study. Course meets biweekly per semester. Graded S/U. Prerequisite: none.

ME 781. Cooperative Education (2-8).
 A work-related placement with a supervised professional experience to complement and enhance the student's academic program. Intended for master's level or doctoral students in mechanical engineering. Repeatable for credit. May not be used to satisfy degree requirements. Graded Cr/NCr. Prerequisites: graduate standing, departmental consent, graduate GPA of 3.000 or above.

ME 781A. Cooperative Education (1).
 Introduces the student to professional practice by working in industry in an academically-related job and provides a planned professional experience designed to complement and enhance the student's academic program. Individualized programs must be formulated in consultation with, and approved by, appropriate faculty sponsors and cooperative education coordinators. Intended for students who will be working full time on their co-op assignment and need not be enrolled in any other course. Graded Cr/NCr unless student has received permission before enrolling for course to be used as an elective. Repeatable. Prerequisite: approval by the appropriate faculty sponsor.

ME 781P. Cooperative Education (1).
 Introduces the student to professional practice by working in industry in an academically-related job and provides a planned professional experience designed to complement and enhance the student's academic program. Individualized programs must be formulated in consultation with, and approved by, appropriate faculty sponsors and cooperative education coordinators. Students must enroll concurrently in a minimum of 6 hours of coursework including this course in addition to a minimum of 20 hours per week at their co-op assignment. Graded Cr/NCr unless student has received permission before enrolling for course to be used as an elective. Repeatable. Prerequisite: approval by the appropriate faculty sponsor.

ME 801. Boundary Layer Theory (3).
 Development of the Navier-Stokes equation, laminar boundary layers, transition to turbulence, turbulent boundary layers, and an introduction to homogeneous turbulence. Prerequisite: ME 521 or departmental consent.

ME 802. Turbulence (3).
 An overview of the theory, practical significance and computation of turbulent fluid flow. Prerequisites: ME 521, 801.

 Computational methods in modeling and analysis of spatial multibody mechanical systems. Includes Euler parameters, automatic generation of governing equations of kinematics and dynamics, numerical techniques and computational methods; computer-oriented projects on ground vehicles with suspension and steering mechanisms, crashworthiness and biodynamics. Prerequisite: ME 729 or instructor's consent.

ME 844. Advanced Biomaterials (3).
 Explores the cutting-edge technologies for synthesis of advanced biomaterials related to biotechnology. Focuses on biomaterials (e.g., metals and alloys, composites, polymers and ceramics), biodevices, basic fabrication and characterization techniques and their general properties and applications. The interaction between the human body environment and synthetic materials, including materials for medical implants and for dental restoration and appliances is explored. Tissue engineering, biosensing, imaging and drug delivery interact directly with biomaterials. Consideration of new technologies that depend on overcoming present material limits, and improving material/ biological environment interactions. Throughout the lectures, students are expected to gain an understanding of these materials, importance of them, and how they are applied in medical technology. Prerequisites: ME 250, and ME 651; or instructor's consent.

 2 Classroom hours; 3 Lab hours. Control theory condensed to engineering practice with the analysis, design and construction of operating control systems. Experiments with pneumatic, hydraulic and electro-mechanical servo-systems. Implementation of feedback and feed forward control schemes for various industrial systems and machine tools. The experiments are project-oriented and intended to be representative of the current state-of-the-art in classical and modern control practice. Prerequisite: ME 659 or equivalent.

ME 850. Selected Topics in ME (1-3).
 New or special topics are presented on sufficient demand. Repeatable for credit when subject material warrants. Prerequisite: departmental consent.

ME 850AE. Nonlinear Controls for Electro-Mechanical Systems (3).
 The standard first nonlinear controls course. Covers stability, feedback linearization (robotic, mechanical, electro-mechanical system applications), differentially-flat systems (with rotor-craft position
tracking applications), back-stepping control-design methods (electromechanical, robotic and rotor-craft applications), MIMO systems, normal form, zero dynamics, and adaptive control of robotic systems. EE 792, Linear Systems, while not a prerequisite, is helpful.

ME 850AP. Advanced Failure Analysis (3).
Cross-listed as ME 752. Introduces the basic fundamental concepts of the failure analysis of engineering components. Topics include analysis of broken components by macroscopic and microscopic observation, review of common experimental methods used in failure analysis, specific description of failure mechanics of metallic, ceramics, polymeric and composite materials. Throughout the classes, students are expected to gain an understanding of these subjects, and how they are applied in industrial applications.

ME 854. Two-Phase Flow Heat Transfer (3).
Thermodynamic and mechanical aspects of interfacial phenomena, boiling; condensation near immersed surface, pool boiling, internal flow convective boiling and condensation. Prerequisites: ME 522, MATH 555, or departmental consent.

ME 859. Introduction to Molecular Simulations (3).
Introduces the molecular simulation methods (classical molecular dynamics simulations and Monte-Carlo simulation) aimed at understanding fundamentals of the nanoscale mechanical, thermal, materials, energy, and bio systems and their engineering for desired functionalities. Prerequisites: MATH 555 and ME 335, or instructor's consent.

ME 860. Introduction to Ceramics (3).
Introduces the fundamental principles of ceramic science and engineering with application on ceramics processes and fabrications. Presents the concepts and properties using the crystal structure background. Discusses nonequilibrium aspect of phase relation in ceramics systems and their influence on processing parameters. Covers the microstructure form by liquid, liquid-solid, and solid-state reaction with some detail in combination with heat treatment. Students are expected to have backgrounds in chemistry, physics, math, thermodynamics, mechanics of solids and introduction to materials in undergraduate engineering courses.

ME 862. Synthesis and Applications of Nanomaterials (3).
Introduces various types of nanomaterials, nanostructures, their synthesis methods, properties, characterization techniques, and explores their engineering applications. The structural defects, purification techniques, and functionalization of nanomaterials and nanostructures is discussed. Self-assembly of nanomaterials in various patterns and processing of structural nanocomposites is lectured and several lab activities are performed. In addition, fabrication of nanodevices, nanosensors, energy storage systems, and various forms of nanocomposites are explored and their performance is discussed. Prerequisites: ME 439, ME 670; or instructor's consent.

ME 864. Physical Metallurgy (3).
Covers a range of basic concepts in physical metallurgy essential for further study in materials engineering. Topics include structure and diffraction, dislocations, defects and thermal processes, solid solution and hardening, diffusion, and phase diagrams and transformations. Prerequisites: ME 250, 398, AE 333, or departmental consent.

ME 865. Corrosion Science Engineering (3).
Designed for graduate students aimed at investigating the complex causes of corrosion problems and failures. Emphasizes the electrochemical reactions occurring and the tools and knowledge necessary for predicting corrosion, measuring corrosion rates, and combining this with prevention and materials selection. Studies oxidation and degradation processes, and protection methods. Provides an overview of the surface treatment, surface modification, and coatings synthesis and deposition technologies. Conventional and most advanced techniques and processes of coatings and thin films deposition to prevent corrosion. Surface interface phenomena occurring during the coatings of thin films deposition (such agglomeration, adsorption, diffusion, nucleation, microstructure development, etc.) are covered. Coating techniques, monitoring, performance evaluation, characterization and applications of advanced coatings in industry are investigated for advanced corrosion protection. Prerequisites: ME 250, ME 398, ME 581; or instructor's consent.

ME 866. Advanced Fracture Mechanics (3).
Covers the fracture mechanics of elastic-brittle, ductile, time dependent, and heterogeneous materials at an advanced level. The material is suitable for graduate study only in metallurgy and materials, mechanical engineering, and aerospace engineering where a combined materials-fracture mechanics approach is stressed. Prerequisites: ME 250, AE 333, or departmental consent.

ME 867. Mechanical Properties of Materials II (3).
After a brief review of pertinent concepts of the macro-mechanical behavior of deformable bodies, course focuses on deformation mechanisms and on crystal defects that significantly affect mechanical properties and strengthening mechanisms. This includes point, line and planar crystalline defects; dislocation dynamics, and various hardening and strengthening mechanisms. Concludes with discussion of physical properties and testing methods to measure these properties. Prerequisite: ME 667 or departmental consent.

ME 870. Advanced Laser Applications in Manufacturing (3).
Examines laser technology which is defined as the methods, processes or products that make use of the spectrum of laser light, and any systems whose function is to study, measure, transform or transmit the light. Covers laser processing to produce features and modify properties in metals, organic polymers, inorganic insulators, superconductors, semiconductors and biological materials on the meso, micro and nano scales. Analysis and discussion of selected technical papers on the use of laser nano/micro materials processing in electronic, opto-electronic, MEMS, medical-therapeutic applications, heat treatment, scanning, engraving, photolithography, peening, cladding, engraving and bonding. Cutting-edge technologies in design and applications of new laser systems are investigated. Prerequisite: ME 522 or instructor's consent.

ME 876. Thesis (1-6).
Repeatable for credit toward the MS thesis option up to 6 hours. Graded S/U. Prerequisite: consent of MS thesis advisor.

ME 878. Master’s Directed Project (1-4).
A project conducted under the supervision of an academic advisor for the directed project option. Requires a written report and an oral presentation on the project. Graded S/U. Prerequisite: consent of academic advisor.

ME 890. Independent Study in Mechanical Engineering (1-3).
Arranged individual, independent study in specialized content areas. Prerequisite: instructor's consent.

ME 901. Advanced X-Ray Diffraction Theory (3).
First part concentrates on the fundamental X-ray diffraction theories including dynamical theory of X-ray and anomalous absorption, with which a serious student in this field must be thoroughly familiar. Second part emphasizes the general theory of X-ray diffraction in a concise and elegant form using Fourier transforms. The general theory is then applied to various atomic structures, ideal crystals, imperfect crystals and amorphous bodies. Prerequisites: ME 767, MATH 757.
ME 960. Advanced Selected Topics (1-3).
New or specialized advanced topics in mechanical engineering.
Prerequisite: instructor's consent.

ME 962. Advanced Ceramics (3).
Covers concepts in ceramics science and engineering essential to understanding and using advanced ceramic materials such as high temperature metaloceramics. Expands coverage of fundamental concepts and physical properties presented in ME 860. Provides deeper understanding of crystalline solids and characteristic properties of ceramics. Incorporates many of the most recent advances in the area. Students are expected to have backgrounds in chemistry, physics, math, thermodynamics, mechanics of solids and introduction to materials in undergraduate engineering courses.

ME 976. PhD Dissertation (1-16).
Repeatable for credit. Graded S/U. Prerequisite: admission to doctoral aspirant status.

ME 990. Advanced Independent Study (1-16).
Arranged individual, independent study in specialized content areas. Repeatable toward the PhD degree. Prerequisites: advanced standing and instructor's consent.

MGMT - Management
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MGMT 662. Managing in Diverse Organizations (3).
Modern organizations face the challenge of managing employees with diverse backgrounds and talents to provide products and services to diverse customers. Course examines workforce diversity from the perspective of maximizing its benefits to group and organizational effectiveness, including developing skills to facilitate the constructive resolution of conflict, encouraging cooperation and teamwork, and enhancing identification with the work unit. Course includes diversity content. Prerequisites: MGMT 360, junior standing, advanced standing.

MGMT 680. Making Effective Decisions (3).
Studies the theories of decision making with attention to the factors of rational decision making and application of quantitative methods, cognitive and motivational influences, intuition, political influences, ethics, and the process of negotiation and decision making in groups along with decision implementation and learning from past decisions. Prerequisites: MGMT 360, junior standing, advanced standing.

MGMT 681. Strategic Management (3).
An analysis of business problems from a strategic management perspective. A capstone course which integrates the functional areas of business, including management, marketing, finance, accounting and production. Discusses both domestic and international policy issues, large and small firms, and various sources of competitive advantage. Prerequisites: DS 350, FIN 340, MKT 300, MGMT 360, senior standing, advanced standing.

MGMT 690. Seminar in Selected Topics (1-5).
Repeatable with departmental consent. Prerequisites: junior standing, advanced standing.

MGMT 750. Workshop in Management (1-4).
Prerequisite: junior standing.

MGMT 803. Business Decision Making and Analysis (3).
A study of business decision making and problem solving methodologies including problem definition, research design, data gathering techniques, analytical techniques, reporting strategies and communication issues. Prerequisites: ECON 231 or equivalent, MBA 801 or equivalent.

MGMT 862. Organizational Behavior (3).
The study of individual and group behavior as it impacts organizational effectiveness and employee well-being. Applies concepts such as motivation, personality, job attitudes, interpersonal relations, teams, organizational culture and leadership/influence to organizational settings, emphasizing integration and application of concepts. Prerequisite: MBA 801 or equivalent.

MGMT 885. Advanced Strategic Management (3).
An analysis of business problems from a strategic perspective. Builds on prior coursework to focus on a firm's ability to develop a sustainable competitive advantage. Firms studied represent a broad range of manufacturing and service, global and domestic, entrepreneurial and mature issues. Prerequisite: to be taken during last semester of student's program, or departmental consent.

MGMT 885G. Global Strategic Management (3).
This course draws from the knowledge base that students accumulate in their accounting, economics, finance, management, operations, IT, and marketing classes. Knowledge from all the business disciplines and students' "real world" experiences are integrated in the course. The course emphasizes strategy formulation and implementation. The perspective taken is that of an organization's general manager. The general manager may be a corporate CEO, a divisional chief executive, the head of an operating unit, or an owner/manager of a small business. This focus will be beneficial to both those that will function as general managers, and those that are and will be functional specialists. Any organizational position requires successful coordination and integration of activities and decisions to achieve organizational goals. Therefore, a thorough understanding of strategic issues allows functional managers to perform their tasks better.

MGMT 890. Seminar Special Topics (1-3).
Repeatable with departmental consent.

MGMT 891. Directed Studies (1-5).
Prerequisite: departmental consent.

MIS - Management Information Systems
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MIS 600. Database Management Systems (3).
Introduces various methodologies for conceptual data modeling including entity-relationship data modeling and object-oriented database design. Covers relational database management systems, the SQL standard and data administration issues. Students obtain hands-on development with SQL servers in a client/server environment in a required database programming project. Covers electronic commerce transaction processing, data warehousing, data mining and distributed database management. Prerequisites: BADM 160, 162 and 163 with a grade of C+ (2.300) or better, junior standing, advanced standing.

MIS 605. Systems Analysis and Design (3).
Introduces various methodologies for systems analysis, design and implementation. Examines application development in the context of the overall MIS master planning effort; examines techniques related to business process engineering. Uses a real-life project as the vehicle to put into practice tools and techniques related to interviewing, cost/benefit analysis, computer-aided software engineering, software project
MIS 610. Dynamic Web Programming (3).
Uses ASP.NET as the programming tool to teach Web application development. Includes HTML forms, server objects, and SQL-based data sources for developing interactive and dynamic Web applications within a server-based scripting environment. Covers advanced topics such as ADO and implementing security in Web environments. Prerequisites: MIS 310, 600 each with a grade of C+ (2.300) or better, junior standing, advanced standing.

MIS 611. Topics in Computer Networking (3).
Selected data communications and networking topics are examined in greater detail and depth. Students study the design, configuration, implementation, maintenance, management, troubleshooting and evaluation of selected networking technologies and software. Time is devoted to both concepts and hands-on exercises. Prerequisites: MIS 325 with a C+ (2.300) or higher, junior standing, advanced standing.

MIS 615. Advanced Business Application Development (3).
Presents advanced concepts and techniques for business problem solving by developing software applications using a contemporary business programming language. Special emphasis is placed on object-oriented programming approach. Topics include developing classes, using a multi-tiered approach toward application development, establishing database connection, working with data tables, and database processing. Prerequisites: MIS 310 with a grade of C+ (2.300) or better, junior standing, advanced standing.

MIS 690. Seminar in Selected Topics (1-3).
Repeatable for credit with departmental consent. Prerequisites: senior standing, departmental consent, advanced standing.

MIS 696. Management of the IS Function (3).
Addresses the issues of managing the information systems (IS) function. Includes the role of IS as a corporate entity, developing a strategic plan for IT investments, organizing the IS department, IS personnel management, IS project management, the role of IS as a user-support entity, auditing the IS function and emerging issues in managing the IS department. Prerequisites: MIS 605 (or concurrent enrollment), junior standing, advanced standing.

MIS 750. Business Intelligence and Analytics (3).
Introduces design and implementation of business intelligence systems for tactical, managerial and strategic level decision making. Addresses how organizational data and analytics support business performance management. Prepares managers for developing and implementing digital performance dashboards to monitor business processes and make informed decisions. Replaces MIS 650 effective fall 2013.

Explores the link between business strategy and information systems strategy. Addresses the organizational implications of investing in information systems and prepares managers with an understanding of the potential of information systems for value creation, while recognizing the uncertainties associated with it. Provides the necessary know-how to managers in using information systems for creating sustainable competitive advantage.

MIS 884. Database Planning & Management (3).
Prepares students to deal with issues in planning and managing organization-wide integrated databases. Emphasizes logical database design and relational database implementation. Includes SQL, assuring database integrity, database conversion, database administration and data management.

MIS 890. Seminar in Special Topics (1-3).
Repeatable for credit with departmental consent.

MIS 891. Directed Study (1-3).
Individual study of various aspects and issues in information technology. Repeatable for credit with departmental consent.

MKT - Marketing
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MKT 601. International Marketing (3).
Cross-listed as IB 601. Problems and procedures of marketing in foreign countries. Includes the effects of foreign cultures and marketing systems on the design of marketing programs. Course includes diversity content. Prerequisites: MKT 300 with a minimum grade of C+ (2.300) or better, and MKT 405.

MKT 607. Promotion Management (3).
An analysis of all issues involved with the promotion of an organization and its products or services. Students develop coordinated marketing strategies in the areas of advertising, personal sales, public relations and special promotional activities such as direct marketing, interactive media and sales promotions. Prerequisites: MKT 300 with a minimum grade of C+ (2.300), MKT 405.

MKT 608. Selling and Sales Force Management (3).
Cross-listed as ENTR 608. An analysis of current behavioral concepts of personal selling and the problems and policies involved in managing a sales force. Prerequisites: MKT 300 with a grade of C+ (2.300) or better, MKT 405.

MKT 609. Marketing Programs (3).
Studies all the aspects of the marketing mix that are integrated to make an effective and coordinated marketing program. Prerequisites: MKT 300 with a grade of C+ (2.300) or better, 6 additional hours of marketing, junior standing, advanced standing.

MKT 690. Seminar in Selected Topics (1-5).
Repeatable with instructor's consent. Prerequisites: junior standing, advanced standing.

MKT 690G. Digital Marketing (3).
This course provides students with a strategic overview of the digital environment and the role of digital within the overall marketing strategy of an organization.

MKT 706. Seminar in New Product and Technology Development (3).
Cross-listed as ENTR 706. Provides a form to the function of idea commercialization. Examines the product development practices of successful, innovative companies and focuses on how customer needs can be translated into product concept testing, product launch strategies, postlaunch product evaluation, and managing innovative teams. Students apply learning through developing and testing a product idea that solves a customer problem.

MKT 750. Workshop in Marketing (1-4).
Prerequisite: junior standing.

MKT 801. Marketing Management (3).
Develops an understanding of the difference between a sales/marketing department and a marketing orientation. Emphasizes the integral role of a marketing orientation throughout the modern organization. Prerequisite: MBA 801.

MKT 803. Marketing Analysis (3).
An application of the scientific method to the design and implementation of research procedures that support the need for
management decision making, planning and strategy development in the marketplace. Prerequisite: MBA 801 or equivalent.

**MKT 805. Consumer Decision-making Process** (3).
MKT 805. Consumer Decision Processes (3). An examination of different aspects of the behavior of consumers and of the factors that help explain their behavior. Includes an analysis of current concepts and models. Prerequisite: MBA 801 or instructor’s consent.

**MKT 807. Services and Nonprofit Marketing** (3).
Examines the characteristics of commercial and nonprofit services that pose unique marketing challenges for these types of organizations. Prerequisite: MKT 800 or equivalent.

**MKT 890. Seminar in Special Topics** (1-3). Repeatable with instructor’s consent.

**MKT 890J. Digital Marketing** (3).
This course provides students with a strategic overview of the digital environment and the role of digital within the overall marketing strategy of an organization.

**MKT 891. Directed Studies** (1-5). Prerequisite: departmental consent.

### MUSA - Applied Music

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

**MUSA 712A. Applied Music Instruction for Nonmajors – Bassoon** (1-2).
Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

**MUSA 712B. Applied Music Instruction for Nonmajors – Cello** (2).
Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

**MUSA 712C. Applied Music Instruction for Nonmajors – Clarinet** (1-2).
Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.
Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

Basic applied instruction for persons who are not active in a music degree program. May not be used to fulfill music degree requirements. Repeatable for credit.

MUSA 717W. Violin Class for Adult Beginners (2).
Beginning violin class: violin fundamentals, emphasizing tone and intonation development, basic techniques for reading (notes and rhythm). May not be applied to music major requirements. Repeatable for credit.

MUSA 717Y. Popular Vocal Styles (2).
Class voice instruction for adults emphasizing basic vocal technique and how it can be applied for use in popular styles of singing, including vocal jazz, pop, music theatre, etc. Gives students an opportunity to explore techniques for developing their own voices and to practice singing in a supportive environment. Includes information via lecture, demonstration and listening to recordings related to stylistic differences in the popular idiom. Intended for non music majors; not applicable to music degree requirements. Repeatable for credit.

MUSA 731A. Applied Music Instruction for Majors - Bassoon (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731B. Applied Music Instruction for Majors - Cello (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731C. Applied Music Instruction for Majors - Clarinet (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731D. Applied Music Instruction for Majors - Euphonium (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731E. Applied Music Instruction for Majors - Flute (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731F. Applied Music Instruction for Majors - French Horn (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731G. Applied Music Instruction for Majors - Classical Guitar (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731J. Applied Music Instruction for Majors - Guitar (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731K. Applied Music Instruction for Majors - Harp (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731L. Applied Music Instruction for Majors - Oboe (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731M. Applied Music Instruction for Majors - Organ (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731N. Applied Music Instruction for Majors - Percussion (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731P. Applied Music Instruction for Majors - Piano (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731R. Applied Music Instruction for Majors - String Bass (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731S. Applied Music Instruction for Majors - Trombone (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731T. Applied Music Instruction for Majors - Trumpet (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731U. Applied Music Instruction for Majors - Tuba (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731V. Applied Music Instruction for Majors - Viola (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731W. Applied Music Instruction for Majors - Violin (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731X. Applied Music Instruction for Majors - Saxophone (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731Y. Applied Music Instruction for Majors - Voice (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 731Z. Applied Music Instruction for Majors - Electric Bass (1).
For majors only. Study on secondary instruments. Basic instruction. Repeatable for credit. Graduate.

MUSA 732A. Applied Music Instruction for Majors - Bassoon (2).
For majors only. Repeatable for credit. Graduate.
MUSA 732B. Applied Music Instruction for Majors - Cello (2). For majors only. Repeatable for credit. Graduate.

MUSA 732C. Applied Music Instruction for Majors - Clarinet (2). For majors only. Repeatable for credit. Graduate.

MUSA 732D. Applied Music Instruction for Majors - Euphonium (2). For majors only. Repeatable for credit. Graduate.

MUSA 732E. Applied Music Instruction for Majors - Flute (2). For majors only. Repeatable for credit. Graduate.

MUSA 732F. Applied Music Instruction for Majors - French Horn (2). For majors only. Repeatable for credit. Graduate.

MUSA 732J. Applied Music Instruction for Majors - Guitar (2). For majors only. Repeatable for credit. Graduate.

MUSA 732K. Applied Music Instruction for Majors - Harp (2). For majors only. Repeatable for credit. Graduate.

MUSA 732L. Applied Music Instruction for Majors - Oboe (2). For majors only. Repeatable for credit. Graduate.

MUSA 732M. Applied Music Instruction for Majors - Organ (2). For majors only. Repeatable for credit. Graduate.

MUSA 732N. Applied Music Instruction for Majors - Percussion (2). For majors only. Repeatable for credit. Graduate.

MUSA 732P. Applied Music Instruction for Majors - Piano (2). For majors only. Repeatable for credit. Graduate.

MUSA 732R. Applied Music Instruction for Majors - String Bass (2). For majors only. Repeatable for credit. Graduate.

MUSA 732S. Applied Music Instruction for Majors - Trombone (2). For majors only. Repeatable for credit. Graduate.

MUSA 732T. Applied Music Instruction for Majors - Trumpet (2). For majors only. Repeatable for credit. Graduate.

MUSA 732U. Applied Music Instruction for Majors - Tuba (2). For majors only. Repeatable for credit. Graduate.

MUSA 732V. Applied Music Instruction for Majors - Viola (2). For majors only. Repeatable for credit. Graduate.

MUSA 732W. Applied Music Instruction for Majors - Violin (2). For majors only. Repeatable for credit. Graduate.

MUSA 732X. Applied Music Instruction for Majors - Saxophone (2). For majors only. Repeatable for credit. Graduate.

MUSA 732Y. Applied Music Instruction for Majors - Voice (1-2). For majors only. Repeatable for credit. Graduate.

MUSA 732Z. Applied Music Instruction for Majors - Electric Bass (2). For majors only. Repeatable for credit. Graduate.

MUSA 734A. Applied Music Instruction for Majors - Bassoon (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734B. Applied Music Instruction for Majors - Cello (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734C. Applied Music Instruction for Majors - Clarinet (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734D. Applied Music Instruction for Majors - Euphonium (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734E. Applied Music Instruction for Majors - Flute (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734F. Applied Music Instruction for Majors - French Horn (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734J. Applied Music Instruction for Majors - Guitar (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734K. Applied Music Instruction for Majors - Harp (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734L. Applied Music Instruction for Majors - Oboe (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734M. Applied Music Instruction for Majors - Organ (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734N. Applied Music Instruction for Majors - Percussion (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734P. Applied Music Instruction for Majors - Piano (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734R. Applied Music Instruction for Majors - String Bass (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734S. Applied Music Instruction for Majors - Trombone (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734T. Applied Music Instruction for Majors - Trumpet (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734U. Applied Music Instruction for Majors - Tuba (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734V. Applied Music Instruction for Majors - Viola (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734W. Applied Music Instruction for Majors - Violin (4). For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.
MUSA 734X. Applied Music Instruction for Majors - Saxophone (4).
For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734Y. Applied Music Instruction for Majors - Voice (4).
For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSA 734Z. Applied Music Instruction for Majors - Electric Bass (4).
For performance and pedagogy majors or students preparing for master's degree recitals only. Repeatable for credit. Graduate.

MUSC - Musicology Composition
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MUSC 510. Interrelated Art (3).
Presents an aesthetic analysis of the fine arts: music, visual arts, drama, literature and dance. Emphasizes style and commonality among the arts disciplines.

MUSC 523. Form And Analysis (2).
Extensive analysis of the forms and formal processes of musical literature. Prerequisite: MUSC 228.

MUSC 531. Introduction to Electronic Music (2).
Basic techniques of electronic music. Directed toward musicians who wish to use the electronic medium in teaching, performing or communicating through music in any way.

MUSC 560. Applied Composition (2).
Individual study in advanced musical composition emphasizing writing for small ensembles in the smaller forms. For theory-composition majors. Repeatable. Prerequisites: MUSC 260 and consent of theory-composition area faculty and musicology-composition coordinator, to continue as a theory-composition major.

MUSC 561. 18th Century Counterpoint (2).
Contrapuntal devices of the 18th century as found in the works of J.S. Bach. Prerequisite: MUSC 228.

MUSC 587. Organ Literature & Design I (2).
Broad survey of the historical eras of organ literature and design. Open to non-organ majors. Prerequisite: minimum of two years applied organ study or departmental consent.

MUSC 588. Organ Literature & Design II (2).
Broad survey of the historical eras of organ literature and design. Open to non-organ majors. Prerequisite: minimum of two years applied organ study or departmental consent.

MUSC 616. Symphonic Literature (3).
An advanced course in orchestral literature covering the development of the symphonic music from Baroque to the present day. Designed primarily for music majors who have already had MUSC 334 and 335.

MUSC 623. Opera Literature (3).
A comprehensive survey of Italian, German, French, Russian, English and American opera literature from the 17th century to the present. MUSC 113 is strongly recommended before taking the course. For upper-division or graduate students. Not limited to music majors.

MUSC 624. Oratorio and Cantata Literature (2).
A study of the solo vocal literature of the larger sacred and secular forms from the 17th century to the present. Not limited to music majors.

MUSC 641. Orchestration (2).
The study of instrumentation, emphasizing idiomatic scoring for various instrumental combinations with an approach to the problems of full orchestra and band scores. Prerequisite: MUSC 227.

MUSC 660. Applied Composition (2).
Individual study in musical composition emphasizing writing for both small ensembles and large groups in the larger forms. Repeatable. Prerequisites: MUSC 560 and instructor's consent.

MUSC 671. Chromatic Harmony (2).
Advanced study of chromatic harmonic materials of all periods with special attention to the 19th century. Emphasizes analysis and creative writing. Prerequisite: MUSC 228.

MUSC 672. Contemporary Techniques (2).
Advanced study of music from impressionism to the present, emphasizing related literature and creative writing. Prerequisite: MUSC 228.

MUSC 685. String Literature & Materials (2).
A survey and stylistic analysis of music for solo strings and chamber combinations, beginning with the early Baroque period.

MUSC 726. Voice Literature (3).
A comprehensive survey of early Italian arias, French chansons, German lieder, contemporary English songs, and Russian and Spanish literature.

MUSC 750. Musicology-Composition Workshop (1-4).
Repeatable for credit. Prerequisite: instructor's consent.

MUSC 753. Choral Literature I (2).
A historical and stylistic survey of choral literature of the Renaissance and Baroque eras.

MUSC 754. Choral Literature II (2).
A historical and stylistic survey of choral literature of the Classical, Romantic and Contemporary eras.

MUSC 782. Piano Literature I (2).
Survey of the historical eras of professional piano repertory.

MUSC 783. Piano Literature II (2).
Survey of the historical eras of professional piano repertory.

MUSC 786. Chamber Music Literature I (2).
Survey of composers, styles and works of chamber music from Baroque to about 1828.

MUSC 787. Chamber Music Literature II (2).
Survey of composers, styles and works of chamber music from about 1828 to the present.

MUSC 790. Special Topics in Music (1-4).
For individual or group instruction. Repeatable with departmental consent.

MUSC 830. Seminar in Music Theory (3).
An analytical study of the materials used in musical composition from antiquity to the present, employing analytical approaches such as Schenker, Hindemith and serial techniques. Develops analytical perspective rather than compositional skills.

MUSC 832. Topics in Music Analysis (3).
Develops areas of music theory in relation to analysis. Includes ideas evoking the most interest and considered by the instructor to be of the greatest professional benefit. Prerequisite: MUSC 830.

MUSC 840A. Seminar in the Techniques of Composition (2).
Examines the nature of compositional techniques through selected works in large ensembles. Prerequisites: MUSC 671, 672, 641, or departmental consent.
MUSC 840B. Seminar in the Techniques of Composition (2).
Examines the nature of compositional techniques through selected works in small ensembles. Prerequisites: MUSC 671, 672, 641, or departmental consent.

MUSC 841. Special Project in Music (1-3).
Individually supervised study or research emphasizing the professional needs of the student. Repeatable for credit. Prerequisite: instructor's consent.

MUSC 852. Introduction to Bibliography and Research (3).
Techniques of research and development of bibliography in music and music education. Course must be elected the first available semester of enrollment in MM or MME programs.

MUSC 860. Advanced Composition (2).
Original work in the large forms and a continuation and expansion of MUSC 659-660. Repeatable for credit. Prerequisite: MUSC 660 or equivalent.

MUSC 875. Thesis Research (1-2).
Thesis preparation.

MUSC 876. Thesis (1-2).
Thesis preparation.

MUSC 891. Seminar in Music History pre-1750 (3).
Explores special topics and conceptual issues in music history and literature before 1750, focusing on the interaction of musical repertories with society, history and politics. Students are required to engage with primary sources (musical and textual) and musico-lological literature. Repeatable for credit. Prerequisite: MUSC 852 or MUSE 853.

MUSC 892. Seminar in Music History post-1750 (3).
Explores special topics and conceptual issues in music history and literature after 1750, focusing on the interaction of musical repertories with society, history and politics. Students are required to engage with primary sources (musical and textual) and musico-lological literature. Repeatable for credit. Prerequisite: MUSC 852 or MUSE 853.

**MUSE - Music Education**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MUSE 511. Jazz Pedagogy (2).
For both music education and music performance majors interested in teaching improvisation, jazz history, and large and small jazz ensembles. Includes a review of current jazz methods and materials, rehearsal techniques for jazz ensembles, how to listen to jazz, lectures by visiting jazz performers, and effective jazz programming. Prerequisite: completion of MUSC 228 or instructor's consent.

Methods and materials for teaching music in the preschool and kindergarten classroom. Includes the development of the child's musical growth through singing, listening, rhythmic and creative activities; a survey of available materials, and development of playing, singing and conducting skills.

MUSE 611. Music for Special Education (2).
Open to upper-division or graduate students and intended for the potential practicing music teacher, classroom teacher or special education teacher. Includes identification of dysfunctioning children and their problems and current theory and practices in special music education. Satisfies the requirement, effective September 1, 1981, that applicants for initial certification or renewal of secondary and/or elementary certification shall present a survey course, or equivalent content from other courses, in the subject area of exceptional children.

This provision applies to initial certification and recertification of music teachers only, grades K-12.

MUSE 617. Literacy Strategies for Content Areas: Music (2).
Covers principles and strategies used in effective instruction, including vocabulary development and comprehension skills needed to more fully read to learn in content areas. Students receive training to use the six- trait analytical rating guide for assessing writing, which is the method used to score the Kansas state writing assessment. Students develop lessons and assessments appropriate for a comprehensive literacy-based music program based on national and state music standards representing appropriate and varied music education philosophies. Prerequisite: instructor's consent.

MUSE 686. Marching Band Techniques (2).
A systematic approach to the marching band with regard to organization, show development, instrumentation, music adaptation, drill construction and script development. Teaches both traditional drill and corps-style marching using manual methods and computer generated graphics. Field observations, films, photographs, and live performances by marching bands complement the class syllabus. Required for all instrumental majors.

MUSE 732. Instructional Methods in Middle Level/Secondary Music (2).
Includes administrative structures, the curriculum, adolescent development, teaching as behavior and competencies needed for successful teaching of general, choral and instrumental music for adolescent learners.

MUSE 750. Music Education Workshop (1-4).
Repeatable for credit.

MUSE 750AJ. Technology for the Music Classroom (1).
Participants are introduced to current trends in educational technology for the music classroom. Teachers gain experience with sound reinforcement tools, recording equipment and software, composition software, and pedagogical tools.

MUSE 750AK. Instrument Repair for Teachers (1).
Provides teachers with the information and skills necessary for basic instrument repair in the instrumental classroom. Teachers learn how to identify problems with instruments and make simple repairs.

MUSE 761. Kodaly Methods Level One (3).
Kodály curriculum designed for grades K-1. Transcriptions of 50 folk songs with teaching activities appropriate for young learners. Introduction of music literacy components. Concurrent enrollment with MUSE 762 recommended.

MUSE 762. Kodaly Solfege Level One (2).
Includes one- and two-part materials in major and minor tonalities. Demonstrated ability to conduct folk song literature appropriate for beginning singers. Prerequisite: prior or concurrent enrollment in MUSE 761.

MUSE 763. Kodaly Methods Level Two (3).
Kodály curriculum designed for grades 2-4. Song analysis for 50 additional folk songs and appropriate literacy activities for general music programs. Added emphasis on folk dance and listening lessons for masterworks. Prerequisites: MUSE 761, 762 or instructor's consent. Concurrent enrollment with MUSE 764 recommended.

MUSE 764. Kodaly Solfege Level Two (2).
Adds chromatic, whole tone and modes. Demonstrated ability to conduct folk song literature up to four parts. Prerequisite: MUSE 762.

MUSE 765. Kodaly Methods Level Three (3).
Kodály curriculum designed for grades 4-12. Expansion of song repertoire with emphasis on activities which develop choral singing
independence and music theory skills. Prerequisites: MUSE 763, 764 or instructor's consent. Concurrent enrollment with MUSE 766 recommended.

MUSE 766. Kodaly Solfege Level Three (2).
Includes advanced materials from a variety of literature. Demonstrated ability to conduct expanded literature appropriate for public and private school choral programs. Prerequisites: MUSE 762, 764.

MUSE 767. Kodaly Applications (2).
Provides individually supervised research and application opportunities for the advanced student who has completed an OAKE endorsed Kodály certification program. Repeatable for credit. Prerequisites: MUSE 761, 762, 763, 764, 765, 766, or OAKE endorsed Kodály certification.

MUSE 781. Cooperative Education (1-3).
A field placement which integrates coursework with a planned and supervised professional experience designed to complement and enhance the student's academic program. Individualized programs must be formulated with, and approved by, appropriate faculty sponsors and cooperative education coordinators. May be repeated for credit. Graded Cr/NCr. Note: a maximum of 4 S/U or Cr/NCr hours may be counted toward a graduate degree and must be taken in consultation with the graduate advisor for an approved graduate plan of study. Prerequisite: satisfactory academic standing prior to the first job assignment.

MUSE 790. Special Topics in Music (1-4).
For individual or group instruction. Individual study enrollment requires departmental consent. Repeatable with departmental consent.

MUSE 790Z. Chamber Music Pedagogy (2).
Serves local and regional music communities through a structured chamber music experience led by WSU music performance and music education students. Students work with area band directors to develop a chamber music program appropriate for their students, then serve as coaches to develop the performance level of those students in various chamber music applications, culminating in performances at Soleo and Ensemble festivals, school concerts, and other community functions. Future music educators explore skills for teaching chamber music, transferable teaching skills, develop relationships with local music educators, and develop a stronger base of skills for teaching chamber music.

MUSE 821. Leadership and Administration in Music Education (3).
Investigates research and strategies in music education relating to communication, classroom management, current trends, and teaching and learning styles. Includes teacher assessments and evaluation issues.

MUSE 822. Advanced Techniques in Special Music Education (3).
Studies research literature and trends in special music education. Includes an evaluation of materials and techniques and special projects exploring the development of musical understanding in the dysfunctioning child. Course satisfies the requirement, effective September 1, 1981, that applicants for initial certification or renewal of secondary and/or elementary certification shall present a survey course, or equivalent content from other courses, in the subject area of exceptional children. This provision applies to initial certification and recertification of music teachers only. For special music education MME candidates only. Prerequisite: MUSE 611 or instructor's consent.

MUSE 823. Special Music Education Practicum (3).
For special music education MME candidates only. Supervised teaching in special education classrooms. A companion course to MUSE 822; gives the MME special education candidate experience in teaching in special education classrooms. Pre- or corequisite: MUSE 822.

MUSE 831. Developing Music Learning (3).
Focuses on application of music learning theories and aesthetic development for the K–12 classroom. Students study major music methodologies through teaching demonstrations, critical reflections, and curricular planning. Students construct lessons designed to integrate aesthetic and creativity concepts into music teaching for children and youth.

Critical analysis of new materials and literature. Includes current bibliography. Repeatable for credit.

MUSE 841. Special Project in Music Education (1-3).
Individually supervised study or research emphasizing the student's personal needs. Repeatable for credit. Prerequisite: instructor's consent.

MUSE 842. Special Project in Music Education (1-3).
Individually supervised study or research emphasizing the student's personal needs. Repeatable for credit. Prerequisite: instructor's consent.

MUSE 844. Terminal Conducting Project (2).
Individually supervised project for those accepted for the conducting option in the instrumental or choral emphasis under the MME degree. Prerequisites: instructor's and departmental consent.

MUSE 845A. Seminar in Instrumental Music Education Literature (2).
Critical analysis of literature for band, orchestra, and small ensembles in elementary and secondary schools. Uses current bibliography. Repeatable for credit.

MUSE 853. Research Design and Methods (3).
Includes historical, philosophical, qualitative, quantitative, meta-analysis and action research. Prepares graduate students to reflectively analyze research related to learning theory, curriculum and administrative topics associated with relevant arts education applications. Prerequisite: graduate status.

MUSE 854. Terminal Project in Music Education (2-3).
Continued application of techniques of research. Requires the completion of a major research project. May be selected as the MME terminal requirement for specified programs. Prerequisite: MUSC 852.

MUSE 855. Psychology of Music (3).
An overview of music behaviors from a psychological perspective. Relates recent literature concerning human psychoacoustics, melodic, rhythmic, and harmonic perception, and major learning theories to current trends in music education.

MUSE 871. History and Philosophy of Music Education (3).
A study of historical trends and contemporary philosophies relevant to music education. Prerequisite: MUSE 851.

MUSE 875. Thesis Research (1-2).
Thesis preparation.

Thesis preparation.

MUSP - Music Performance
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

MUSP 555. Senior Project (1).
Cross-listed as THEA 555. An interdisciplinary course to showcase the talents of graduating seniors to professional producers, agents and casting directors. Students develop and produce a variety show demonstrating their talents in singing, dancing, acting, directing and choreography. For majors only. Prerequisite: instructor's consent.
MUSP 580. Piano Pedagogy (2).
Primarily the art and science of teaching. Includes observations of master teachers in the university and community.

MUSP 581. Piano Teaching Materials (2).
A survey of teaching methods and materials from beginning through early advanced levels.

MUSP 596. Organ Pedagogy (2).
An approach to the art and practical aspect of teaching the organ. Includes a survey of teaching and learning methods and graded repertoire. Course includes diversity content. Repeatable for credit. Prerequisite: minimum of two years of applied organ study or departmental consent.

MUSP 599. Organ Keyboard Skills, Service Playing and Accompanying (2).
Refining keyboard, sight-reading and hymn-playing skills as pertaining to the church service. Accompanying with a review of organ literature for the church service, Gregorian chant, harmonization and improvisation. Course includes diversity content. Repeatable for credit. Prerequisite: minimum of two years of applied organ study or departmental consent.

MUSP 620. String Pedagogy: Violin and Viola (2).
Required for violin and viola performance majors. A study of tutorial techniques for violin and viola, including the teaching of mini-lessons for instructor and class critique. Prerequisite: violin or viola performance capability or instructor's consent.

MUSP 625. Voice Pedagogy (2).
Acquaints the voice major with vocal techniques, concepts and materials of private and class instruction.

MUSP 651. Advanced Conducting and Score Reading (2).
Baton technique, score reading and musicianship. Prerequisite: MUSP 307 or 308 or equivalent.

MUSP 680. Woodwind Pedagogy (2).
A comprehensive study of woodwind instrument techniques, concepts and materials of studio instruction for the advanced student. Includes the teaching of mini-lessons for instructor and class critique. Prerequisite: performance capability on a woodwind instrument or instructor's consent.

MUSP 681. Brass Pedagogy (2).
A comprehensive study of brass instrument techniques, concepts and materials of studio instruction for the advanced student. Includes the teaching of mini-lessons for instructor and class critique. Prerequisite: performance capability on a brass instrument or instructor's consent.

MUSP 682. Percussion Pedagogy (2).
A comprehensive study of percussion instrument techniques, concepts and materials of studio instruction for the advanced student. Includes the teaching of mini-lessons for instructor and class critique. Prerequisite: performance capability on percussion instruments or instructor's consent.

MUSP 691. Advanced Choral Conducting (2).
A comprehensive study of conducting and rehearsal techniques, analysis, ear training and types of choral composition for the advanced student. Prerequisite: MUSP 307 or 308 or equivalent.

MUSP 707. Piano Repertoire (1).
Performing and listening experience for piano performance majors. Repeatable for credit.

MUSP 710B. Wind Ensemble (1).
An auditioned ensemble comprising the top wind, brass and percussion students enrolled at Wichita State University. The ensemble performs the highest quality literature written for the wind band and often engages soloists and premieres new music. Repeatable for credit. Prerequisite: audition required.

MUSP 711A. Orchestra (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711E. Opera Lab (1).
Provides opportunities for students to perform staged arias, scenes and one act operas. Students who audition for Opera Theatre but are not cast should enroll in Opera Lab. Those interested in stage management, directing and backstage work may also enroll. Audition is required.

MUSP 711F. Summer Choir (1).
A nonauditioned ensemble open to all university students and community members. The ensemble sings a wide variety of repertoire representative of composers from the past five centuries. Performs one major concert during their summer season.

MUSP 711J. Piano Accompanying (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711K. Opera Theatre (1).
Provides the opportunity for students to gain performance experience with a major role in fully staged, high quality productions of a diverse repertory with orchestral accompaniment. Repeatable for credit. Prerequisite: audition required.

MUSP 711L. Madrigal Singers (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711M. Jazz Combo/Banda Hispanica (1).
Coached performing ensemble.

MUSP 711N. Woodwind Ensemble (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711P. Brass Chamber Ensemble (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711R. Percussion Ensemble (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711T. Jazz Arts Ensemble 1 (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 711U. Musical Theatre Performance (1).
Cross-listed as DANC 320 and THEA 590E. An interdisciplinary practicum class for students cast in a musical theatre production. Admission is by audition. Gain rehearsal and performance experience in a Mainstage production with orchestra. Rehearsals are in the evenings for 6-10 weeks. Repeatable for credit.

MUSP 711V. Guitar Ensemble (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 712D. Women's Glee Club (1).
Nonauditioned women's chorus made up of both music and nonmusic majors. The ensemble performs an eclectic mix of classical, folk and popular music, reflecting the diverse musical interests of its members. Women's Glee performs annual fall and spring concerts, participates in the Candlelight Christmas concert, and performs as part of athletic, academic, and social functions throughout WSU's campus. Repeatable for credit.

MUSP 712F. A Cappella Choir (1).
Repeatable for credit. Prerequisite: audition required.

MUSP 712K. Opera Theatre (2).
Provides the opportunity for students to gain performance experience with a major role in fully staged, high quality productions of a diverse
MUSP 781. Noncredit Internship (0).
A field placement which integrates coursework with a planned and supervised professional experience designed to complement and enhance the student's academic program. Repeatable for credit.

MUSP 790. Special Topics in Music (1-2).
For individual or group instruction. Repeatable with departmental consent.

MUSP 790AE. Orchestral Excerpts for Viola (1-2).
This course will introduce and prepare cellists for professional orchestral auditions. Students will study, prepare and perform standard cello orchestral excerpts. Two Mock Juries will provide an opportunity for students to experience an actual audition with detailed and immediate feedback from multiple performance area faculty.

MUSP 790AF. Orchestral Excerpts for Cello (2).
This course will introduce and prepare cellists for professional orchestral auditions. Students will study, prepare and perform standard cello orchestral excerpts. Two Mock Juries will provide an opportunity for students to experience an actual audition with detailed and immediate feedback from multiple performance area faculty.

MUSP 790AG. Graduate Aural Skills Concepts and Practical Applications for the Performer (2).
Intensive independent study in aural skills/theory meant to broaden the comprehension of the graduate (MM or MME) music major. Class has three main components: (1) a graduate review of all basic aural skills concepts such as singing-at-site — in solfeggio — the Robert W. Ottman (9th Ed. Pearson) melodies from later chapters, as well as the professor's own composed melodies, (2) defining harmonic contexts by singing chord structures as they relate to vertical intervals (e.g., V7 chord, i6 chords, in a harmonic context related to one’s melodic instrument). Voice-leading is examined in this section, as well. Vertical and horizontal application of harmony is critical to developing one's ear as a performer and as an ensemble member. Finally, (3) the examination of rhythmic structures, rhythmic solmization to better integrate one’s playing with one’s ear. This may also include an examination of formal structures in music (e.g., sonata form, etc.) that can be identified aurally.

MUSP 790E. Musical Theatre and Opera Audition (1-3).
Cross-listed as THEA 630. Practicum course develops techniques and audition repertory singers need to gain professional employment and/or successfully compete for placement in advanced training programs. Also covers the business skills necessary to a professional career, and brings students into contact with professional guest artists who can provide additional insight and contacts. Prerequisite: instructor's consent.

MUSP 790P. Special Topics: Pedagogy (1-2).
For individual or group instruction. Repeatable with departmental consent. For Graduate/Undergraduate Credit. (P: Piano)

MUSP 790Q. Special Topics in Music and Foreign Language (1-5).
Cross-listed as MCLL 790Q (College of Liberal Arts & Sciences). Allows undergraduate and graduate students to take courses in the modern foreign languages together with individualized instruction in the translation and diction of poetical texts set to music. Course may be used to satisfy the foreign language requirement of the Bachelor of Music in performance—vocal emphasis. Repeatable for credit. Prerequisite: departmental consent.

MUSP 841. Special Project in Music (1-3).
Individually supervised study or research emphasizing the personal needs of the student. Repeatable for credit. Prerequisite: instructor's consent.
MUSP 842. Special Project in Music (1-3).
Individually supervised study or research emphasizing the personal needs of the student. Repeatable for credit. Prerequisite: instructor's consent.

MUSP 843. Piano Pedagogy Seminar (2).
Variable topics, such as (1) advanced techniques in class piano or private piano (college curriculums); (2) class piano in early childhood; (3) class piano for leisure-age students; (4) class piano in public (or private) schools, extending the advanced preparation of piano pedagogy students as needed. Repeatable for credit. Prerequisite: MUSP 580, or instructor's consent.

MUSP 871. Graduate Accompanying Recital: Vocal (1). Required for MM piano majors, vocal accompanying emphasis. Prerequisites: the student must have completed 18 hours toward the degree, including two semesters of applied piano and be enrolled in MUSP 723 or 724.

MUSP 872. Graduate Accompanying Recital: Instrumental (1). Required for MM piano majors, instrumental accompanying emphasis. Prerequisites: the student must have completed 18 hours toward the degree, including two semesters of applied piano and be enrolled in MUSP 723 or 724.

MUSP 873. Graduate Recital (1-2). Performance of a full recital featuring the chief performing medium. Prerequisite: consent of instructors in applied area.

MUSP 874. Professional In-Service Presentation Project (1-2). Planning, organizing and presenting a three-hour in-service presentation (workshop) to in-service private piano teachers, perhaps in conjunction with an established community piano teacher's league, etc. Available as a terminal requirement alternative (in lieu of performance recital) in the Master of Music—piano pedagogy emphasis. Students approved for this terminal requirement option are also required to perform a major piano work, prepared at acceptable recital level, during semester jury examination within the final year (two semesters) of the degree program. Requires approval of piano performance area faculty. Prerequisite: departmental consent.

NURS - Nursing
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

NURS 505. Directed Study in Nursing (1-4). Elective. Individual study of the various aspects and/or problems of professional nursing. Repeatable. Prerequisite: departmental consent.

NURS 543. Women and Health Care (3). Cross-listed as WOMS 543. Examines the historical development of the women's health movement, focuses on current issues relevant to women and health care, and explores the roles of women in the health care system and as consumers of health care. Examines self-care practices of women and studies ways to promote positive health practices. Open to non-nursing majors. Course includes diversity content.

NURS 566. Perspectives on Self-Help Groups (3). Cross-listed as PSY 566 and SCWK 566. Provides an interactive format that constitutes a community resource for health and human service professionals and promotes an interdisciplinary understanding of the nature and diversity of self-help groups for persons with virtually any health problem or personal issue. Reviews contemporary theory and research, explaining the attractiveness and effectiveness of self-help groups. Panels of support group members share their experiences with self-help groups on such topics as addiction, cancer and other illnesses, eating disorders, bereavement, mental illness and parenting.

NURS 567. Psychology of Helping Relationships (3). Cross-listed as PSY 506 and SOC 506. Introduces students to a psychological perspective on helping relationships that is useful in both practice and research. Topics covered include the definition of relationship and identification of the ways in which the roles of helper and help-seeking can be structured to maximize effectiveness: e.g., power, distance, similarity and reciprocity. Relationships of interest include: counseling and psychotherapy, nursing and doctoring, family caregiving, mentoring, self-help/mutual aid, and volunteering. The emerging topic of relationship-centered care models in the education of health care professionals is discussed. Prerequisite: 6 hours in psychology including PSY 111 or instructor's consent.

NURS 701. Advanced Health Assessment (2). Designed to assist students to refine history taking, psychosocial assessment and physical assessment skills. Focuses on assessment of individuals throughout the life span. Emphasis is placed on detailed health history taking, differentiation, interpretation and documentation of normal and abnormal findings. Course includes lecture, discussion, and integrated history-taking and physical assessment assignments. Prerequisite: admission to graduate nursing program. May be taken concurrently with or prior to NURS 702.

NURS 702. Advanced Health Assessment Laboratory (1). Companion course for NURS 701. Apply history-taking and assessment skills within a laboratory setting. Emphasizes differentiation, interpretation and documentation of normal and abnormal findings. Requires a complete history and physical examination of a client. Prerequisite: admission to graduate nursing program. May be taken concurrently with, or within one year of completion of, NURS 701.

NURS 703. Theoretical Foundations of Advanced Nursing Practice (3). Emphasizes the role of theory in developing knowledge-based advanced nursing practice. Relationships among theory, research and practice are addressed. The application of selected theories, models and frameworks to advanced practice nursing is discussed. Prerequisite: admission to graduate nursing program.

NURS 715. Advanced Nursing Practice Roles (1). Designed for the student preparing for advanced practice nursing. The historical development of the advanced practice role, as well as current and future professional and legal descriptions of advanced practice nursing roles is explored. Prerequisite: admission to graduate nursing program.

NURS 720. Human Lactation (2-4). For the graduate student preparing for practice as a lactation consultant. Provides an in-depth focus on the anatomical and physiological basis of lactation and breastfeeding. Explores factors that impact maintenance of health during lactation and clinical decisions for disease prevention. Addresses preparation for lactation consultant certification. Students work on case studies, develop a paper for publication and take a final examination via the Internet. Open to non-nursing majors. Prerequisite: admission to graduate nursing program.

NURS 723. Foundations of Nursing Education (3). Assists the student to explore theoretical and practical aspects of curriculum development, and teaching of nursing in higher education and continuing education. Prerequisite: departmental consent.

NURS 724. Nursing Education Practicum (1-3). Students, under professional guidance, become directly involved in clinical and classroom teaching, curriculum development and participation in other faculty functions in higher education and continuing education, or patient education. A seminar and directed observation of a master teacher accompanies the field experience.
NURS 726. Common Dermatological Conditions in Primary Care (1-3).
Interactive online course guides students through an instructional program with a focus on common dermatological conditions encountered in primary care. Information is presented in brief case scenarios; students identify the condition. Resource links are available for in-depth study of each condition. For clinical use, patient education links are provided. Cases give the didactic information needed to make clinical decisions. Prerequisite: senior rule or admission to the Graduate School or instructor's consent.

NURS 727. Low Back Pain (1-3).
Interactive online course guides students through an instructional program based on the low back pain guidelines from the Agency for Health Care Policy and Research. Case study format stimulates critical thinking. Linked information gives information needed to make clinical decisions. Prerequisite: senior rule or admission to the Graduate School or instructor's consent.

NURS 728. Advanced Practice Technology and Skills (3).
Focuses on application of clinical skills, advanced health assessment, and interpretation of technologies used in a variety of clinical settings. Students practice these skills in laboratory and clinical settings. Students practice history-taking and physical examination, with emphasis on differentiation, interpretation and documentation of normal and abnormal findings. A 40-hour precepted experience is included.

NURS 733. Diabetes Mellitus Nursing (3).
Exploration of clinical theories; identifies and studies appropriate nursing systems for clients with diabetes mellitus. Emphasizes attaining and maintaining optimal levels of functioning and the psychological adjustment of the client and family to a potentially devastating disease. Open to non-nursing majors.

NURS 734. Diabetes Mellitus Nursing Practicum (3).
An intensive clinical experience; the student studies, designs and implements nursing systems for individuals or groups in the area of diabetes mellitus nursing management. A weekly one-hour seminar accompanies the practicum. Open to non-nursing majors.

NURS 750. Workshops in Nursing (1-4).
An opportunity for intensive study of special topics related to nursing practice, education or research. Open to non-nursing majors.

NURS 757. Teaching Strategies for Nursing Education (3).
Analysis of teaching strategies for the nurse educator to accommodate the changing health care scene. Teaching methods, including technology appropriate for a variety of learners, and learning environments are discussed. Roles of the nurse educator across the scope of learning environments are investigated: nursing education, in-service and patients/clients/families. Current issues and trends influencing nursing education are explored. The course focuses on the use of research-based evidence to guide teaching strategies. Pre- or corequisite: NURS 723. May be taken by graduate nursing students or undergraduate nursing students with senior standing.

NURS 775. Health Care Information Systems (3).
Examines information systems as they relate to health care. Analyzes information systems in clinical management, administration, education and research. Emphasizes issues surrounding information systems and hands-on experience with selected health care information management exercises.

NURS 791. Special Studies in Nursing (1-6).
Students engage in extensive study of particular content and skills directly or indirectly related to nursing practice. Repeatable. Open to graduate or undergraduate students. Prerequisite: departmental consent.

NURS 791G. Applied Drug Therapy II (3).
Expands the clinical application of drug therapy in the primary care setting. Employs evidence-based medicine to determine the proper management of the various disease states discussed. Application is made through age-appropriate case studies including complex patients. Prerequisites: NURS 795 and admission to graduate nursing program.

NURS 793. Advanced Pathophysiology I (4).
Explores in depth scientific knowledge base relevant to selected pathophysiological states confronted in advanced nursing practice. Provides the basis for the foundation of clinical decisions related to diagnostic tests and the initiation of therapeutic regimens. Age-specific and developmental alterations are correlated with clinical diagnosis and management. Application is made through age-appropriate examples and case studies. Prerequisite: admission to graduate nursing program or instructor's consent.

NURS 795A. Applied Drug Therapy I (3).
Discusses the clinical application of specific categories of drugs commonly encountered in primary care settings. Explains the use of protocols, prescription writing, and the ethical/legal and economic issues surrounding the advanced nurse's role in prescribing and monitoring pharmacologic therapies in the ambulatory setting. Discusses factors such as age-appropriate content related to pharmacokinetics, dosages, expected outcomes and side effects of the drugs. Addresses first-line versus second-line drugs, alternate drugs, drug interactions, adjusting drug dosages, patient education and compliance issues related to drug therapy. Explores the nurse practitioner's role and responsibility related to data collection, problem identification and consultation with the physician. Application is made through age-appropriate case studies. Prerequisites: admission to graduate nursing program and departmental consent.

NURS 795B. Applied Drug Therapy II (3).
Expands the clinical application of drug therapy in the primary care setting. Employs evidence-based medicine to determine the proper management of the various disease states discussed. Application is made through age-appropriate case studies including complex patients. Prerequisites: NURS 795A, admission to graduate nursing program.

NURS 796. Nursing Practicum in Special Settings (1-6).
Opportunity for directed practice in various settings including clinical specialties, nursing administration, nursing education and consultation. Prerequisite: departmental consent.

NURS 799. Directed Readings in Nursing (1-2).
Student engages in critical search of the literature in areas related to the profession and practice of nursing. Prerequisite: departmental consent.

Designed to provide an overview of policies that make up the U.S. health system, and the influence policy has on advanced practice nursing and health care. Focuses on how to analyze policies relevant to advanced practice nurses and advocacy strategies, particularly politics, to influence policy implementation and evaluations. Prerequisite: admission to the graduate nursing program. Prerequisite: admission to the graduate nursing program.

NURS 803. FNP Primary Care I (3).
Focuses on common health problems seen in individuals and families throughout the life span using a primary care focus. Emphasis on applications of research and theory-based interventions appropriate for management by advanced practice registered nurses. Emphasizes...
strategies and protocols to manage common problems in urban and rural patients, interventions to restore individual and family levels of pre-illness health, and positive behaviors. Prerequisites: NURS 728, and admission to the FNP specialization. Corequisites: NURS 804, 830, 838.

NURS 804. FNP Primary Care Practicum I (4).
Concentrated clinical practicum in a primary care setting that addresses individuals and families throughout the life span within the context of the community. Theory and research used in clinical settings. Health promotion, maintenance and prevention interventions emphasized. Prerequisites: NURS 728, admission to the FNP specialization. Corequisites: NURS 803, 830, 838.

NURS 806. Evidence-Based Nursing Practice and Outcomes of Care (3).
Evidence-based practice is the integration of the best research evidence with clinical expertise and patient values to facilitate clinical decision making. Focuses on identifying and evaluating evidence for its relevance in nursing practice. Prerequisite: admission to the graduate nursing program. Pre- or Corequisite: NURS 703 or departmental consent.

NURS 808. Advanced Role Practicum (3-6).
Prepares the student for advanced nursing practice. An intensive practicum experience; the student works with an advanced nurse practitioner in a selected clinical setting. Emphasizes role development, case management and analysis of strategies to improve nursing practice. Prerequisites: all core courses, NURS 795 or HS 711, pathophysiology (NURS 781, 783 or 793) and all other clinical courses in the specialty option.

NURS 812. Nursing and Health Care Systems Administration Practicum (2-6).
Practicum in a health care setting; students, under professional guidance, become directly involved in existing leadership, administrative and management systems. Types of experience may include roles in nursing service administration, nursing education, mid-level nursing administration/management, staff development, community health, or other related area as arranged. Repeatable for credit up to a maximum of 6 hours. (180 practice hours for 3 credit hours.) Pre- or corequisite: departmental consent or 24 hours of graduate work.

NURS 819. Foundations of Psychiatric/Mental Health Nursing (3).
Focuses on common mental health problems found in individuals and families throughout the life span. Emphasis on application of theory-based interventions appropriate for management of mental disorders by psychiatric/mental health nurse practitioners. Prerequisites: all NP core courses, NURS 854 or departmental consent.

NURS 821. Thesis (1-6).
The student, in conjunction with the academic advisor and a three-member thesis committee, designs and conducts a formal research project. Graded S/U. Prerequisites: admission to graduate nursing program and departmental consent, NURS 703.

NURS 822. Psychiatric/Mental Health Nursing Practicum I (4).
Intensive clinical experience in which students plan, implement and evaluate nurse-therapist strategies with psychiatric patients across the life span. Emphasis is on the performance of individual psychotherapy as well as psychiatric assessment which includes interpretation of relevant data, differential diagnosis and development and implementation of treatment plans. Appropriate interventions to promote the therapeutic process are emphasized. Prerequisites: all NP core courses and NURS 854 or departmental consent.

NURS 823. Graduate Project (1-3).
An opportunity to develop and pursue a scholarly project other than a thesis. This may take the form of a position paper, a historical study, a philosophical paper or other type project developed in conjunction with the student's faculty advisor. Repeatable up to 6 credit hours. Graded S/U. Prerequisites: admission to graduate nursing program, departmental consent and 12 hours of graduate coursework, including NURS 703, 705.

NURS 824. Advanced Pathophysiology II (2).
Analyzes the cellular and molecular pathophysiology and management of health problems through the life span. Emphasis is placed on the scientific underpinnings used to enhance clinical decision-making skills including differentiation of disease states. The major themes address normal physiology, pathophysiology, assessment and evaluation of disease states. Prerequisites: admission to DNP, completion of at least one clinical course in specialty area.

NURS 825. Independent Study (1-6).
Provides opportunity for the student to develop, in collaboration with a school faculty member, objectives and protocols for independent work related to the practice of nursing. Repeatable up to 6 credit hours. Prerequisites: admission to graduate nursing program and departmental consent, NURS 703.

NURS 826. Evidence-Based Nursing Project I (2).
The course focus on evidence-based practice and quality improvement initiatives in healthcare. Critical appraisal of evidence is used to inform advanced nursing decision making. Prerequisite: NURS 806 or departmental consent.

NURS 828. Evidence-Based Nursing Project II (2).
Management of clinical data including data analysis techniques with spreadsheet and statistical manipulation. Students use existing data to determine health care outcomes and to evaluate delivery of care. Extensive computer use in laboratory setting with technical support. Computer literacy is expected. Prerequisite: NURS 826 or departmental consent.

NURS 830. FNP Management and Clinical Application I (1).
Students engage in extensive clinical case discussion emphasizing pathophysiology principles and clinical management of primary care common health problems across the life span. Emphasis is on incorporation of theory and evidence-based practice in clinical decision making and problem solving while providing cost-effective care. Prerequisites: NURS 728 and admission to the FNP specialization. Corequisites: NURS 803, 804, 838.

NURS 832. Pediatric and/or Women's Health Nursing: Practicum I (3).
An intensive clinical experience. Focuses on the process of systematic developmental, psychosocial and health assessment of individuals within a family system. Experiences based on the student's clinical interests. Prerequisite: all core courses, NURS 703. Pre- or corequisite: CESP 728.

NURS 836. Pediatric and/or Women's Health Nursing: Practicum II (3).
An intensive clinical experience; the student analyzes, prioritizes and designs therapeutic interventions in the management of common health problems affecting individuals and family systems. Experiences based on the student's clinical interests. Prerequisites: all core courses, NURS 703, 805. Pre- or corequisite: NURS 853.

NURS 838. FNP Advanced Practice Role I (1).
Focuses on the application of theoretical models of practice, FNP role, evidence-based nursing practice, outcomes of care, and practice issues. Case discussions emphasize the application of physiologic principles
and clinical management of common health problems of primary care populations across the life span. Prerequisites: NURS 728 and admission to the FNP specialization. Corequisites: NURS 803, 804, 830.

NURS 840. Pathophysiology and Management of Adult/Older Adult Acute Care Problems I (3).
First of two courses that examines pathophysiology and management of acute, chronic and multisystem health problems in adult/older adult populations. Emphasizes the scientific underpinnings for clinical decision making and practice issues. Major themes address normal physiology, pathophysiology, age-related changes, assessment, diagnosis, and management of acute, critical, and exacerbation of chronic disease states. Health promotion and disease prevention are emphasized. Prerequisites: NURS 793 and admission to ACNP specialization.

NURS 842. Transition to the ACNP Advanced Practice Role (1).
Focuses on the application of theoretical models of practice, ACNP role, evidence-based nursing practice, outcomes of care, and practice issues. Case discussions emphasize the application of physiologic principles and clinical management of acute, critical and exacerbation of chronic health problems of adult/older adult populations. Corequisites: NURS 840, 874.

NURS 846. PNP Management and Clinical Application I (1).
Students engage in extensive clinical case discussion emphasizing pathophysiology principles and clinical management of acute pediatric health problems. Emphasis is on incorporation of theory and evidence-based practice in clinical decision making and problem solving while providing cost effective care. Prerequisites: NURS 728 and admission to the PNP specialization. Corequisites: NURS 847, 848, 850.

NURS 847. PNP Primary Care I (3).
Focuses on common health problems found in individuals and families during the infant, childhood and adolescent years. Emphasis is on applications of research and theory-based interventions appropriate for management by advanced registered nurse practitioners. Emphasizes strategies and protocols to manage common problems in urban and rural patients, interventions to restore individual and family levels of pre-illness health, and positive behaviors. Prerequisites: NURS 728, admission to the PNP specialization. Corequisites: NURS 846, 848, 850.

NURS 848. PNP Primary Care Practicum I (4).
Concentrated clinical practicum in a primary care setting that addresses children and their families within the context of the community. Theory and research are used in clinical settings. Health promotion, maintenance and prevention interventions are emphasized. Prerequisites: NURS 728, admission to the PNP specialization. Corequisites: NURS 846, 847, 850.

NURS 849. Nurse Practitioner Preceptorship (3-6).
A concentrated clinical practicum in an acute or primary health care setting that emphasizes the management of care for individuals. Students synthesize concepts and principles from previous classes and clinical experiences, applying theoretical and research content to acute, chronic, urgent and/or common health problems. Preceptorship is in a clinical agency appropriate to the student's clinical interests. Prerequisites: departmental consent and admission to one of the NP options.

NURS 850. Transition to PNP Advanced Practice Role I (1).
Focuses on the role of the Pediatric Nurse Practitioner in pediatric primary care practice. Topics of presentations are guided by current lecture material in PNP Primary Care I. Prerequisites: NURS 728 and admission to the PNP specialization. Corequisites: NURS 846, 847, 848.

NURS 851. Clinical Management (3).
Management of clinical data and analysis of professional issues including business skills necessary for advanced nursing practice. Students use existing data to determine health care outcomes and to evaluate delivery of care. Extensive computer use in laboratory setting with technical support. Computer literacy is expected. Prerequisites: all core courses, NURS 703. Pre- or corequisite: enrollment in a course within the student's clinical or administration specialization.

NURS 852. Adult Nursing Practicum II (3).
An intensive clinical experience in which the student is expected to design, implement, and evaluate nursing care for adults. Specialized areas of study are selected and may involve health maintenance or illness care of acutely or chronically ill adults. Prerequisites: NURS 703, 834.

NURS 854. Diagnosis and Management of Mental Disorders (3).
Explores current diagnostic and psychopharmacological strategies in advanced psychiatric nursing practice. Emphasis is on diagnostic reasoning and the management of mental health problems across the life span. Prerequisites: Admission to the graduate nursing program and departmental consent.

NURS 855. Management of the Acutely and Critically Ill Adult (3).
Examines advanced nursing interventions focused on client stabilization and management of complications in the acutely/critically ill adult. Emphasizes the management of the adult with complex health problems. Interventions focus on application of advanced practice nursing care to the restoration of health/well being. Prerequisites: NURS 805, 834, 839, 852, admission to the ACNP option and departmental consent.

NURS 856. Transition to PMHNP Advanced Practice Role I (1).
Focuses on the application of theoretical models used in practice, the role of the psychiatric/ mental health nurse practitioner, practice issues, and case scenario presentations with interactive discussions based on the use of established protocols and guidelines. Prerequisites: all core courses and NURS 854. Corequisites: NURS 819, 822.

NURS 857. Pediatric Primary Care II: Management of Common Health Issues (3).
Focuses on health promotion, health maintenance, and risk reduction for children and adolescents with special health care needs. Emphasizes comprehensive assessment, diagnosis, and management of health, developmental, and chronic health problems within a family and developmental framework. Considers children with developmental and learning disabilities and children with selected complex and chronic health problems. Emphasizes the collaborative and interdisciplinary nature of a child's care in school and other settings. Addresses the unique needs of children in underserved communities. Stress applications of current research and theory-based interventions appropriate for management by advanced registered nurse practitioners. Emphasizes strategies and protocols to manage complex patient problems in urban and rural patients and interventions to restore children's and family levels of pre-illness health, including secondary and tertiary prevention. Prerequisites: NURS 703, 847 and 848.

NURS 858. Pediatric Primary Care II Practicum: Clinical Management of Common Health Issues (3).
A concentrated clinical practicum that emphasizes assessment and management of health promotion, health maintenance, and risk reduction for children and adolescents with special health care needs. Emphasizes comprehensive assessment, diagnosis, and management of health, developmental, and chronic health problems within a family
and developmental framework. Includes children with developmental and learning disabilities and children with select complex and chronic health problems. Seminars focus on analysis and evaluation of clinical situations and cases. Prerequisite: NURS 703. Pre- or corequisite: NURS 857.

NURS 863. Nursing and Health Care Systems Administration: Capstone Seminar (3).
Assists the student to integrate knowledge from nursing and administration courses to develop the individual's own management/administration practice. Uses a seminar approach with case studies, student presentations, and presentations by executives and other experts from the community. Prerequisites: NURS 703, 811, 812 (3 credit hours), 827 and HMCD 642, 648. Pre- or corequisites: NURS 812 (additional 3 credit hours), 851.

NURS 871. Leadership and Emerging Issues in Nursing (3).
Covers key current topics for advanced nurses in leadership and direct care roles. Topics in technology, quality improvement, health professional roles, and other emerging areas of interest are discussed and analyzed as they relate to individual and population health and health outcomes. Prerequisite: admission to the MSN program or departmental consent.

NURS 872. Clinical Focus Education Practicum (2-6).
Advanced clinical nursing experience in which the student develops clinical expertise for a population of interest or a specific role. Experiences are designed to strengthen patient care delivery skills, system assessment and intervention. May be repeated for a total of 6 credits. Pre- or Corequisite: NURS 723.

NURS 874. Adult/Older Adult ACNP Practicum I (4).
A clinical experience that builds on pathophysiology and clinical management coursework, emphasizing evidence-based practice. Students participate in a medical rotation that is supervised by an ACNP or physician preceptor in the acute care setting. Emphasis is placed on physical assessment, interpretation of data, differential diagnosis, development and implementation of management plans, and performing relevant procedures with adult/older adult populations. Patient and family education, health promotion and prevention are emphasized. Prerequisite: NURS 728. Corequisites: 840, 842.

NURS 899. Special Topics (1-3).
Provides a topic-specific update for those who hold a master's degree in nursing (MN or MSN) and who require additional knowledge in the Doctor of Nursing Practice (DNAP) program. Repeatable for credit. Prerequisite: admission to the DNAP-postmaster's graduate nursing program.

NURS 899A. Health Care System Policy and Politics Update (1-3).
This course will provide an overview and update of US health system policies and how they influence advanced practice nursing. Attention is focused on how to analyze health policies relevant to advanced practice nurses.

NURS 899B. Evidence-Based Nurse Practitioner Update (1-3).
This course is designed to provide students with an update regarding the utilization of best research evidence to facilitate decision-making in nursing practice.

NURS 899C. Management of Care Update (1-3).
This course provides a focused update of evidence-based practice for key national and global health issues and conditions.

NURS 901. Organizational Systems and Leadership (3).
Focuses on the application of theories of leadership and leadership development in changing and diverse health care organizations. Emphasis is on examining the impact of the art and science of leadership principles and practices on diverse health care organizations.

Prerequisite: completion of one specialty practicum course or departmental consent.

NURS 902. Population and Social Determinants of Health (3).
Provides an analysis of major social variables that affect population health. Students examine health consequences of various social and economic factors. Emphasizes evidence-based practice strategies for populations. Prerequisite: completion of one specialty practicum course or departmental consent.

NURS 903. FNP Primary Care II (3).
Focuses on complex problems seen in individuals and families through the life span using a primary care focus. Stresses applications of current research and theory-based interventions appropriate for management by advanced practice registered nurses. Emphasizes strategies and protocols to manage complex patient problems in urban and rural patients, interventions to restore individual and family levels of pre-illness health, including secondary and tertiary prevention. Prerequisites: NURS 803, 804, 830, 838. Corequisites: NURS 904, 905, 906.

NURS 904. FNP Primary Care Practicum II (4).
Emphasizes assessment and management of health problems across the life span, based on knowledge of theory and research. Primary care clients with conditions affecting major body systems assessed and managed. Prerequisites: NURS 803, 804, 830, 838. Corequisites: NURS 903, 905, 906.

NURS 905. FNP Management and Clinical Application II (2).
Students engage in extensive discussion and application of the pathophysiology and management of primary care complex health problems in individuals across the life span. Emphasis is on the use of theory and evidence-based practice for clinical decision making and problem solving while providing cost effective care. Prerequisites: NURS 803, 804, 830, 838. Corequisites: NURS 903, 905, 906.

NURS 906. Transition to FNP Advanced Practice Role II (1).
Focuses on collaborative practice, outcomes of care, practice issues, and case discussion. Emphasis is on developing collaborative relationships with other health professionals. Case discussions emphasize the application of physiologic and clinical management of complex health problems in primary care. Prerequisites: NURS 803, 804, 830, 838. Corequisites: NURS 903, 904, 905.

NURS 909. Pathophysiology and Management of Adult/Older Adult Acute Care Problems II (3).
The second of two courses that examine pathophysiology and management of acute, chronic and multisystem health problems in adult/older adult populations. Emphasis is placed on the scientific underpinnings for clinical decision making and practice issues. Major themes address normal physiology, pathophysiology, age-related changes, assessment, diagnosis and management of acute, critical and exacerbation of chronic disease states. Health promotion and disease prevention are emphasized. Prerequisites: NURS 793, 840. Corequisites: NURS 910, 911.

NURS 910. Adult/Older Adult ACNP Practicum II (4).
Advanced clinical experience that is a continuation of NURS 874. Students participate in surgical and/or emergency department rotations supervised by an ACNP or physician preceptor in the acute care setting. Emphasis is placed on physical assessment, interpretation of data, differential diagnosis, development and implementation of management plans, and performing relevant procedures with adult/older adult populations. Patient and family education, health promotion and prevention are emphasized. Prerequisite: NURS 842, 874. Corequisites: NURS 909, 911.
NURS 911. Transition to the ACNP Advanced Practice Role II (1).
Focuses on collaborative practice, outcomes of care, practice issues and case discussion. Emphasis is placed on developing collaborative relationships with other health professionals. Case discussions emphasize the application of physiologic principles and clinical management of acute health problems of adult/older adult populations. Corequisites: NURS 909, 910.

NURS 912. Management of Acute and Critical Problems of Adult/ Older Adult Populations (3).
Examines advanced nursing interventions focused on client stabilization and management of complications in the acutely and critically ill adult/older adult populations. Emphasis is placed on diagnostic reasoning and the management of the adult with complex health problems. Interventions focus on application of advanced practice nursing care to the restoration of health/well-being. Prerequisites: NURS 909, 910.

NURS 915. PNP Primary Care II (3).
Focuses on complex problems seen in pediatric patients and families. Stresses applications of current research and theory-based interventions appropriate for management by advanced registered nurse practitioners. Emphasizes strategies and protocols to manage complex pediatric health problems, and interventions to restore individual and family levels of pre-illness health, including prevention. Prerequisites: NURS 846, 847, 848, 850. Corequisites: NURS 916, 917, 918.

NURS 916. Primary Care Practicum II (4).
Emphasizes assessment and management of complex pediatric health problems, based on knowledge of theory and research. Primary care pediatric clients with complex conditions affecting major body systems are assessed and managed. Prerequisites: NURS 846, 847, 848, 850. Corequisites: NURS 915, 917, 918.

NURS 917. PNP Management and Clinical Application II (2).
Students engage in extensive discussion and application of the pathophysiology and management of acute and chronic health problems in pediatric patients. Emphasis on the use of theory and evidence-based practice for clinical decision making and problem solving while providing for cost effective care. Prerequisites: NURS 846, 847, 848, 850. Corequisites: NURS 915, 916, 918.

NURS 918. Advanced Practice Role II (1).
Focuses on the role of the Pediatric Nurse Practitioner in the application of theoretical models used in pediatric primary care practice. Topics of presentations are guided by current lecture material in Primary Care II. Prerequisites: NURS 846, 847, 848, 850. Corequisites: NURS 915, 916, 917.

NURS 921. Complex Issues in Psychiatric/Mental Health Nursing (3).

NURS 922. Psychiatric/Mental Health Nursing Practicum II (4).
An intensive clinical experience in which students analyze group processes and initiate and evaluate therapeutic strategies with groups across the life span. Emphasis on the performance of group therapy as well as psychiatric assessment which includes interpretation of relevant data, differential diagnosis, and development and implementation of management plans. Appropriate interventions to promote the group process are emphasized. Prerequisites: NURS 819, 822, 856.

NURS 923. Transition to PMHNP Advanced Practice Role II (1).
Focuses on the critical analysis of therapeutic strategies used in the role of the psychiatric/mental health nurse practitioner. Prerequisites: NURS 819, 822, 856.

NURS 924. Advanced Pharmacotherapy for Advanced Practice Nursing (3).
Updates the knowledge base for the advanced practice nurse for more informed prescribing for the complex patient throughout the life span. Presents pharmacokinetics/pharmacodynamics, pharmacogenomics, pharmacoeconomics and pharmaeconomics as they apply in the clinical setting. Discusses drug development and the use of new drugs in the clinical setting. Facilitates clinical application of this knowledge through case studies, lectures and reviews of the latest medical literature. Prerequisite: admission to postmaster's DNP program or nationally certified APRN with program approval.

NURS 952. Advanced Nursing Practice Preceptorship (3).
Concentrated clinical practicum in the student's specialization health care setting that emphasizes the management of care for individuals. Students synthesize concepts and principles from previous classes and clinical experiences, applying theoretical and research content to acute, chronic, urgent and/or common health problems. Preceptorship is in a clinical agency appropriate to the student's clinical interests. Prerequisites: completion of all core and specialization courses in the NP option, departmental consent.

NURS 956. Practice Management (2).
Management and analysis of professional issues including business skills necessary for advanced nursing practice. Emphasizes business practices needed for advanced nursing practice including contract negotiation and strategies for outcomes evaluation. Prerequisite: completion of two specialty practicums or departmental consent.

NURS 959. Evidence-Based Nursing Project III (3).
Evidence-based project includes needs assessment, problem identification and the development of a project proposal. The student works collaboratively with a graduate nursing faculty member to develop the project for a practice setting. Prerequisite: NURS 828 or departmental consent.

NURS 960. Residency (2-6).
An extensive, advanced-level learning experience tailored for the student and mentored by at least one graduate nursing faculty member and one other graduate faculty member. The post-baccalaureate DNP student will take a portion of the residency hours (not to exceed 2 hours) as a clinical residency. The final residency hours allow the student to complete and disseminate the results of the project developed in NURS 959. At the end of the residency, the student submits a DNP portfolio including the evidence-based project manuscript or abstract and other student-authored manuscripts, clinical innovations, literature. Prerequisite: admission to postmaster's DNP program or nationally certified APRN with program approval.

NURS 952. Advanced Nursing Practice Preceptorship (3).
Concentrated clinical practicum in the student's specialization health care setting that emphasizes the management of care for individuals. Students synthesize concepts and principles from previous classes and clinical experiences, applying theoretical and research content to acute, chronic, urgent and/or common health problems. Preceptorship is in a clinical agency appropriate to the student's clinical interests. Prerequisites: completion of all core and specialization courses in the NP option, departmental consent.

NURS 956. Practice Management (2).
Management and analysis of professional issues including business skills necessary for advanced nursing practice. Emphasizes business practices needed for advanced nursing practice including contract negotiation and strategies for outcomes evaluation. Prerequisite: completion of two specialty practicums or departmental consent.

NURS 959. Evidence-Based Nursing Project III (3).
Evidence-based project includes needs assessment, problem identification and the development of a project proposal. The student works collaboratively with a graduate nursing faculty member to develop the project for a practice setting. Prerequisite: NURS 828 or departmental consent.

NURS 960. Residency (2-6).
An extensive, advanced-level learning experience tailored for the student and mentored by at least one graduate nursing faculty member and one other graduate faculty member. The post-baccalaureate DNP student will take a portion of the residency hours (not to exceed 2 hours) as a clinical residency. The final residency hours allow the student to complete and disseminate the results of the project developed in NURS 959. At the end of the residency, the student submits a DNP portfolio including the evidence-based project manuscript or abstract and other student-authored manuscripts, clinical innovations, critical care application of knowledge to the clinical setting. Facilitates clinical application of this knowledge through case studies, lectures and reviews of the latest medical literature. Prerequisite: admission to postmaster's DNP program or nationally certified APRN with program approval.

PA - Physician Assistant

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

PA 525. Special Topics (1-4).
Lecture/discussion; focuses on a discrete area content relevant to the health disciplines. In-depth study of a particular topic or concept,
including didactic and current research findings and technological advances relevant to the topic. Open to non-majors; requires departmental consent.

**PA 700. Clinical Practice I (3).**
Provides advanced theoretical knowledge and skills necessary to obtain an appropriate medical history and physical examination. Includes additional emphasis on the identification of normal and abnormal physical findings. Practice of methods and techniques learned takes place in a faculty-proctored laboratory setting. Opportunities are provided for observation and participation in the medical history and physical examination in inpatient and outpatient settings. Prerequisite: admission to PA professional program.

**PA 700L. Clinical Practice I Lab (1).**
Complements PA 700 to provide advanced theoretical knowledge and skills necessary to obtain an appropriate medical history and physical examination. Includes additional emphasis on the identification of normal and abnormal physical findings, interpersonal communication, and patient education. Focuses on practicing methods and techniques within a faculty-proctored laboratory setting. Course includes diversity content. Graded S/U. Prerequisite: admission to PA professional program.

**PA 716. Clinical Laboratory (2).**
Provides foundational and advanced knowledge and skills in the efficient selection and rational interpretation of laboratory tests for the purposes of diagnosing and managing common clinical problems. Appropriate test choices, optimum clinical laboratory use, and limitations of tests are emphasized as well as the pathophysiologic basis of laboratory tests. Covers core competencies in genetics necessary to incorporate knowledge and skills into routine health care. Prerequisite: admission to the PA professional program.

**PA 717. Professional Issues (1).**
Introduces students to a wide variety of issues relevant to PA practice including common legal, ethical and professional concerns facing practicing PAs. Emphasis is placed on health care delivery, cultural competency, health care administration, credentialing, continuing education, medical informatics, advancements in medical technology and end-of-life decisions. Prerequisite: admission to the PA professional program.

**PA 718. Clinical Medicine Cardiology (3).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the cardiovascular system. Emphasizes normal and abnormal cardiovascular development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the cardiovascular system. Prerequisite: admission to the PA professional program.

**PA 719. Clinical Medicine Pulmonology (3).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the respiratory system. Emphasizes normal and abnormal respiratory development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the respiratory system. Prerequisite: admission to the PA professional program.

**PA 721. Clinical Medicine Genitourinary/Renal (2).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the genitourinary and renal systems. Emphasizes normal and abnormal genitourinary and renal development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the genitourinary and renal systems. Prerequisite: admission to the PA professional program.

**PA 722. Clinical Medicine Gastroenterology (3).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the gastrointestinal system. Emphasizes normal and abnormal gastrointestinal development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the gastrointestinal system. Prerequisite: admission to the PA professional program.

**PA 724. Clinical Medicine OB/GYN (3).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the female reproductive system. Emphasizes normal and abnormal female reproductive development of pediatric and adult patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the female reproductive system and pregnancy. Prerequisite: admission to the PA professional program.

**PA 726. Physician Assistant Research Methods (3).**
An introductory course concerning the basic concepts of research methodology as appropriate to the physician assistant professional. Focuses on types of research, research questions and methods (both qualitative and quantitative), review of basic statistics, interpreting the medical literature using evidence-based techniques, literature reviews, data analysis (using computer technology), reporting results, summarizing findings, and the ethical concerns of research. Successful completion of course gives the student a foundation for designing and interpreting a research project or paper. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Prerequisite: admission to the PA professional program.

**PA 727. Preventive Medicine (2).**
Advanced course uses principles of epidemiology, health promotion, and public health research to develop and integrate knowledge and skills related to population-based preventive approaches to health care. Emphasizes behavioral techniques used in making health behavior change, health risk appraisal instruments, health screening, disease and accident prevention, risk factors for major causes of disability, and the distribution and determinants of disease frequency in human populations. Prerequisite: admission to the PA professional program.

**PA 728. Clinical Medicine Endocrinology (2).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the endocrine system. Emphasizes normal and abnormal endocrine development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the endocrine system. Prerequisite: admission to the PA professional program.

**PA 729. Clinical Behavioral Medicine (2).**
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the clinical behavioral medicine. Emphasizes normal and abnormal psychological development of pediatric, adult and geriatric patients, major disease
pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to behavioral medicine and psychiatry. Prerequisite: admission to the PA professional program.

PA 730. Clinical Medicine Musculoskeletal (2).
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the musculoskeletal system. Emphasizes normal and abnormal musculoskeletal development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the musculoskeletal system. Prerequisite: admission to the PA professional program.

PA 731. Clinical Medicine Dermatology (2).
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the dermatological system. Emphasizes normal and abnormal dermatological development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the dermatological system. Prerequisite: admission to the PA professional program.

PA 732. Clinical Medicine EENT (2).
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the EENT system. Emphasizes normal and abnormal EENT development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the EENT system. Prerequisite: admission to the PA professional program.

PA 734. Clinical Medicine Neurology (2).
Advanced pathophysiologic and clinical assessment and management course uses an evidence-based practice approach to develop and integrate knowledge and skills related to the neurological system. Emphasizes normal and abnormal neurological development of pediatric, adult and geriatric patients, major disease pathophysiology, diagnosis, treatment, prognosis and disease prevention as it relates to the neurological system. Prerequisite: admission to the PA professional program.

PA 736. Clinical Practice II (2).
Advances theories and skills learned in PA 700 by emphasizing patient management, evaluation of diagnostic studies, clinical problem solving, evidence-based practice, and critical thinking in both inpatient and outpatient settings. Includes advanced and problem-focused history taking and physical examinations as well as documentation and presentation techniques. Practice of methods and techniques learned takes place in a faculty-proctored laboratory setting. Opportunities are provided for observation and participation in the medical history and physical examination in inpatient and outpatient settings. Prerequisite: admission to PA professional program.

PA 736L. Clinical Practice II Lab (1).
Building upon PA 700L, this faculty-proctored laboratory course provides hands-on practice of advanced techniques and methods necessary to obtain an appropriate medical history and physical examination including normal and abnormal physical findings, differential diagnosis, interpretation of diagnostic studies, treatment, prognosis, and disease prevention as it relates to clinical practice. Includes advanced and problem-focused history taking and physical examination as well as documentation and presentation techniques. Course includes diversity content. Graded S/U. Prerequisite: admission to PA professional program.

PA 789. Clinical Anatomy (5).
A graduate-level clinical anatomy course that emphasizes an advanced understanding and integration of human anatomy of the back, upper extremity, lower extremity, head, neck, thorax, and gastrointestinal and genitourinary systems. Course material is delivered through a combination of online lecture and cadaver lab instruction. Prerequisite: admission to the PA professional program.

PA 789L. Clinical Anatomy Lab (1).
Compliments PA 789 to provide an advanced understanding and integration of human anatomy of the back, upper extremity, lower extremity, head, neck, thorax, and gastrointestinal and genitourinary systems. The laboratory instruction and applied learning involves online lecture, computer-application, anatomical models and human cadaver dissections. Graded S/U.

PA 801. Advanced Clinical Rotation I (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 802. Advanced Clinical Rotation II (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 803. Advanced Clinical Rotation III (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through
standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 804. Advanced Clinical Rotation IV (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 805. Advanced Clinical Rotation V (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 806. Advanced Clinical Rotation VI (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 807. Advanced Clinical Rotation VII (4).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems they have encountered with their assigned patients. This course also includes assessment of knowledge and skills through standardized means, discussion of professional practice, and methods to advance competencies for the physician assistant profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice. Prerequisite: successful completion of the didactic phase of the physician assistant program.

PA 808. Advanced Clinical Rotation VIII (7).
Supervised clinical experience that builds on pathophysiologic assessment, analysis, and application of the didactic coursework completed during the first year of the program. This includes: taking a history and performing physical exams, using laboratory and diagnostic studies, formulating the most likely diagnosis, recommending appropriate pharmaceutical therapies and other clinical interventions, and applying concepts of basic science. Clinical rotation sites may be in inpatient or outpatient settings. Students are expected to augment their clinical experiences with a regular program of reading, concentrating on topics and problems encountered with assigned patients, with the goal of advancing competencies for the PA profession in the following areas: medical knowledge, interpersonal and communication skills, patient care, professionalism, practice-based learning and improvement, and systems-based practice.

**PADM - Public Administration**

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.
PADM 501. Integrity in Public Service (3).
Cross-listed as CJ 501. Exposes the student to basic principles of personal and professional integrity and how those principles apply to daily life as a member of the community and as an employee of a government or social service agency. Employs a case study method, using cases and examples from a wide range of government and nonprofit agency experiences. Students become aware of the moral and ethical issues which may arise in their professional and personal lives, begin to develop critical thinking and analytical skills regarding ethical behavior, and become more personally and professionally responsible. Prerequisite: junior- or senior-level or instructor's permission.

PADM 550. Workshop (1-3).
Specialized instruction using variable formats in relevant urban and public affairs subjects. Repeatable for credit up to 6 hours. Prerequisite: departmental consent.

PADM 701. Public & Nonprofit Governance (3).
Designed to help students develop an understanding of: (a) the governmental and political complexities within which public administration operates; (b) the nonprofit sector-including its major public-benefit sub components-and its role in the public administration environment; and (c) challenges facing both public and nongovernmental actors. Students should develop a working awareness of the significant concepts and components of the governance, politics and institutions, that enables them to analyze forces of change in this challenging environment.

PADM 702. Research Methods (3).
Cross-listed as AGE 702. Acquaints students with applied public policy research methods. Emphasizes locating, collecting, appraising and using both primary and secondary sources of data of the type used in policy, planning and administrative research. Students must complete several short research projects. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership when completed in conjunction with PADM 802.

PADM 709. Urban Economics (3).
Cross-listed as RE 709 and ECON 709. A survey of the economic structure and problems of urban areas on both the microeconomic and macroeconomic levels. Stresses the application of regional economic analysis in the study of urban areas as economic regions. Prerequisites: for undergraduate students, ECON 201 and 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

PADM 710. Public Sector Organizational Theory and Behavior (3).
Cross-listed as POLS 710. Reviews the scope of the field of public administration, including a survey of key concepts and schools of thought underlying the field. Examines issues shaping the future development of the field.

PADM 725. Public Management of Human Resources (3).
Cross-listed as POLS 725. Surveys the major areas of management of human resources in the public sector. Includes hiring, training, evaluation and pay promotion policies. Emphasizes the laws governing public personnel management, and on the unique merit, equal employment opportunity, productivity, unionization and collective bargaining problems found in the public sector.

PADM 750. Public Administration Workshops (1-3).
Specialized instruction using variable formats in a public administration relevant subject. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

PADM 750F. Social Entrepreneurship (3).
Social entrepreneurship is a growing field that depends on market driven practices to create social change. Social entrepreneurs leverage available economic resources and innovation to support their passion to have a positive impact on the global and local community. Social entrepreneurship is a critical topic for students and professionals who plan careers in both for-profit and not-for-profit organizations. A global interest in ecological, economic, political and social welfare requires that organizations respond wisely to societal demands. An examination of social entrepreneurship provides the framework for understanding and practicing socially responsible behaviors. Proponents of social entrepreneurship recognize that innovation, creativity, adaptation and planning are key ingredients in creating ventures that respond to critical social needs. Course introduces students to the complex dynamics underlying social entrepreneurship as an emerging national and global phenomenon. Challenges the student to look beyond well-established business objectives — the creation of wealth — and investigate how wealth creation can impact public good. Consists of lectures, case discussions, and original research conducted by the students. An investigation of global social entrepreneurial initiatives including the establishment of India’s Grameen Bank, Transparency International, Social Accountability International, the Ashoka Foundation, and other well known, and lesser well known, “social value” initiatives and their leaders is useful in understanding the entrepreneurial aspects of business planning, scaling and sustainability.

PADM 755. Special Topics in Urban and Public Affairs (1-3).
Provides students with an opportunity to engage in advanced study in topics that are of immediate concern and arise only occasionally. Content varies with issues that arise, student needs, and faculty expertise. Directed to Master of Public Administration students. May be repeated if topics are different. Prerequisite: instructor's consent.

PADM 760. State and Local Economic Development (3).
Explores the roles of state and local governments and officials in economic development through the use of case studies. Examines financing in economic development from the perspectives of public purpose and community objectives.

PADM 765. Public Sector Economics (3).
Cross-listed as ECON 765. Examination of theories of economic decision making and institutions, with a focus on how economic tools can be used to inform policy and management in the public and nonprofit sectors. Covers economic principles as well as discussing market failures and public policies intended to correct or alleviate market failure. Economic decision making tools for public and nonprofit management are also introduced.

PADM 771. Planning Process (3).
For students desiring to work in an urban planning agency or who will be involved in planning issues as an administrator at the city, county, state or federal level. Also for students seeking an understanding of the complex process of urban-related life. Examines the role of planning in solving human and environmental problems. Emphasizes the relationship between specialists, citizens and elective officials as participants in the planning process.

PADM 775. State and Local Government Law (3).
Exposes students to the legal principles which undergird the foundation of governmental operation and administration.

PADM 785. Public Works Administration (3).
Introduces public works administration and management. Includes discussion of public works professionals, public works organizations and institutions, infrastructure planning, policy and project analysis; procurement, purchasing and contract administration; geographic
information systems; and transportation, water, waste water and surface water system construction, maintenance and replacement.

**PADM 798. Independent Study (1-3).**
For graduate students to pursue research in areas not normally covered in coursework. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

**PADM 802. Quantitative Methods for Public Sector Professionals (3).**
Uses standard microcomputer statistical software and analysis to introduce statistics and quantitative analysis for organizational and policy decision making. Emphasizes the application of statistics and writing with quantitative evidence to real public sector policy questions. Assumes little or no background in statistics and software applications. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership when completed in conjunction with PADM 702. Prerequisite: PADM 702.

**PADM 825. State and Local Government Administration (3).**
Examines administrative leadership in state and local government through case study and field experience. Draws on the experience of professional public managers. Designed for students nearing completion of the Master of Public Administration degree and planning careers in public management. Prerequisite: instructor's consent.

**PADM 845. Public Policy Analysis and Program Evaluation (3).**
An overview of approaches to public policy analysis and program evaluation. Examines the roles of participants in public policy development, implementation and evaluation. Explores policy and program functions and their intended and unintended impacts. Focuses on methodologies for collection of data and their use in the assessment of programs and program impacts. Prerequisites: an approved statistics class and an approved methods class.

**PADM 865. Public and Nonprofit Financial Management (3).**
Cross-listed as POLS 865. Introduction to state local government financial administration. Topics include: government accounting systems, budgeting, government financial statement and financial condition analysis, internal financial control systems, debt management and policy, and government cash management and pension investment management systems. Prerequisite: PADM 765 or instructor's consent.

**PADM 866. Public Financial Management (3).**
Cross-listed as FIN 866. Addresses special topics of government capital budgeting and financing as well as general public infrastructure management skills and knowledge useful for public administrators and citizens. Specific topics include: capital planning, budgeting, financing strategies and options, debt management, policy and issuance processes, as well as innovative public capital financing such as public-private partnerships and state-local revolving funds. Prerequisite: PADM 865 or instructor's consent.

**PADM 867. State and Local Government Budgeting (3).**
Covers government budgeting processes and institutions as well as a variety of tools and techniques for budget preparation, decision making, executing and evaluating spending programs while maintaining good financial condition. Emphasizes both political and technical skills in managing public resources. Along with spreadsheet exercises for technical analysis, cases on government budgeting are used to understand (1) how public budgets reflect a government's purposes, policies and priorities as well as its implementation plans, and (2) how public budgets reveal the political power used by a variety of actors involved in the decision-making process. Prerequisite: PADM 865 or instructor's consent.

**PADM 870. Fundraising and Financial Management for Nonprofit Organizations (3).**
Focuses on fundraising and financial management in nonprofit organizations. Examines fundraising from public and private sources including funding research, proposal writing and budgeting. Includes analysis of financial statements for the purpose of managing both the short-term and the long-term financial condition of a nonprofit organization. Prerequisite: PADM 865.

**PADM 871. Community Networks (3).**
Students learn how to use systems logic to define problems and develop collaborative solutions through networks that involve governmental and nongovernmental organizations. Prerequisites: PADM 702, 745, 802.

**PADM 873. Strategic Planning in Public and Nonprofit Organizations (3).**
Students create a strategic plan for a public or nonprofit organization. The course begins with an introduction to measurement and performance management. Students create a logic model that describes key elements of a service or process. Stakeholder analysis, an environmental scan and SWOT (strengths, weaknesses, opportunities and threats) are among the techniques explored. Students formulate a strategic issue. Scenarios and other planning techniques are used to assess alternative courses of action. The final product is an action plan that includes decision points, cost and implementation details.

**PADM 890. Internship (3).**
Integrates academic pursuits and practical experience. Students admitted to the internship are assigned to work in an approved government, community or private organization for a minimum of nine months. Prerequisites: completion of all PADM core courses and 6 hours of additional graduate-credit courses.

**PADM 895. Public Decision Making (3).**
Focuses on decision making by public managers through case study method. Reviews models of public decision making. Explores public management from the perspective of public purposes, politics, organizational results and ethics. Prerequisites: successful completion of all other core courses in the MPA or instructor's consent.

**PHIL - Philosophy**
Although there is no graduate degree in philosophy, the following courses are available for graduate credit.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

**PHIL 501. Philosophy of Language (3).**
Examines the relationships between philosophy and language. Focuses on questions such as: What is the relation between language and thought? Language and the world? What can the study of language contribute to the resolution of philosophical problems? Prerequisite: one 300-level or higher course in philosophy.

**PHIL 510. Philosophy of History (3).**
A philosophical examination of the meta-level issues that arise in the discipline and practice of history. Issues investigated include: What is history? What is the proper form of explanation in history? How are causal claims in history to be understood? Is it possible to achieve objectivity in historical explanations? What criteria should be employed in evaluating historical explanations? What are the moral obligations which should guide historical research and presentation? Prerequisite: instructor's consent.

**PHIL 525. Evidential Reasoning (3).**
Explores philosophical issues related to reasoning about evidence. Topics may include: induction, confirmation, falsification, the under-
PHIL 540. Theory of Knowledge (3).
A critical examination of the nature of knowledge and of the philosophical problems concerning skepticism, knowledge of the self, material objects, other minds, the past, present and future, universals, and necessary truths. Includes selections from both historical and recent writings. Prerequisite: one course in philosophy.

PHIL 546. Rationalism (3).
A study of the philosophical views that emphasize reasoning rather than sensory experience as the source of knowledge with particular attention to the philosophies of Descartes, Spinoza and Leibniz.

PHIL 549. Topics in Ancient Philosophy (3).
Explores one decisive issue in philosophy from the time of Thales through the Stoics. The examination of an issue may confine itself to one period within the total span of ancient philosophy or it may trace the issue throughout the span, indicating its contemporary treatment. Some issues treated are: the nature of what is, the concept of the sacred, the meaning of truth, the relation of invariance and process, the existence of universal standards of thought and conduct, the problem of knowledge, skepticism, the nature of language, and the character of philosophical inquiry.

PHIL 550. Metaphysics (3).
An exploration of some basic topics in the theory of reality. Includes such notions as space, time, substance, causality, particulars, universals, appearance, essence and being. Prerequisite: one course in philosophy.

PHIL 555. Philosophy of the Social Sciences (3).
Studies such topics as the relation of social sciences with natural sciences and philosophy, methodological problems peculiar to social sciences, the nature of sound explanation concepts and constructs, and the roles of mathematics and formal theories in social sciences.

PHIL 557. Contemporary European Philosophy (3).
An exploration of a theme, issue, philosopher, or movement in contemporary European philosophy. Includes philosophers Husserl, Heidegger, Jaspers, Gadamer, Habermas, Marcuse, Adorno, Bergson, Sartre, Merleau-Ponty, Bachelard, Lacan, Derrida, Foucault, and Ricoeur. Examines philosophical movements such as phenomenology, idealism, existentialism, structuralism, process philosophy, hermeneutics, and Marxism.

PHIL 565. Topics in Asian Philosophy (3).
An in-depth examination of selected topics in Asian philosophy. The topics covered in any particular semester vary. Representative topics include movements such as Confucianism, Taoism or Buddhism. Prerequisite: one philosophy course.

PHIL 577. Philosophy of The Arts (3).
General education advanced issues and perspectives course. Intensively examines one or more fundamental problems or themes in the philosophy of art or in the special aesthetics of painting, music, sculpture, literature, drama, movies and so forth. Includes the problem of tragedy, the character of the aesthetic attitude, the function of the arts, the legitimacy of general art theory, the presuppositions of specialized art theory, the creative act, art and truth, art and life, and the nature and function of art criticism.

PHIL 585. Studies in a Major Philosopher (3).
A concentrated study of the thought of one major philosopher announced by the instructor when the course is scheduled. Repeatable for credit. Prerequisite: instructor's consent.

PHIL 585R. Major Philosopher: Nietzsche (3).
Examines Nietzsche's writings as philosophy and as literature, and considers the implications of Nietzsche's "perspectivism" for philosophy, morality and interpretation. Nietzsche's own writings are, of course central, although students also engage the celebrated book, "Nietzsche: Life as Literature," and consider Nietzsche's influence on contemporary approaches to literary, biblical and constitutional interpretation.

PHIL 585RH. Major Philosopher: Nietzsche (3).
Examines Nietzsche's writings as philosophy and as literature, and considers the implications of Nietzsche's "perspectivism" for philosophy, morality and interpretation. Nietzsche's own writings are, of course central, although students also engage the celebrated book, "Nietzsche: Life as Literature," and consider Nietzsche's influence on contemporary approaches to literary, biblical and constitutional interpretation. Honors section.

PHIL 590. Special Studies (1-3).
Topic for study announced by instructor. Repeatable for credit. Prerequisite: instructor's consent.

PHIL 590K. Philosophy of Medicine (3).
Covers topics related to the metaphysics and epistemology of medicine, not excluding their human impact. Topics of philosophical investigation may include for example concepts of disease and disability, evidence based medicine, medical models and mechanisms, reductionism, constructivism, expert consensus, clinical judgment, categorization and classification, epidemiology, and outcome measurement. May include historical and multicultural approaches to health and medicine.

PHIL 699. Directed Readings (1-3).
For the student interested in doing independent study and research in a special area of interest. Repeatable for credit. Prerequisite: departmental consent.

PHIL 850. Directed Readings (2-3).
For the graduate student desiring independent study and research in an area of special interest. May be repeated for credit. Prerequisite: departmental consent.

PHIL 900. Ethics & Psychology (3).
Cross listed as PSY 900. An in-depth analysis of moral issues that arise in the profession of psychology. Provides a detailed familiarization with current moral controversies and develops ethical reasoning skills that will enable one to address new issues as they arise. Representative topics include: informed and voluntary consent, rights of human research subjects, privacy and confidentiality, assessment, conflicting obligations, ownership of research results, multiple relationships in teaching, research and practice, conflicts between therapeutic and forensic roles, objectivity in research, the nature and boundaries of teaching psychology, etc.

PHIL 850R. Major Philosopher: Nietzsche (3).
Examines Nietzsche's writings as philosophy and as literature, and considers the implications of Nietzsche's "perspectivism" for philosophy, morality and interpretation. Nietzsche's own writings are, of course central, although students also engage the celebrated book, "Nietzsche: Life as Literature," and consider Nietzsche's influence on contemporary approaches to literary, biblical and constitutional interpretation.

PHIL 850RH. Major Philosopher: Nietzsche (3).
Examines Nietzsche's writings as philosophy and as literature, and considers the implications of Nietzsche's "perspectivism" for philosophy, morality and interpretation. Nietzsche's own writings are, of course central, although students also engage the celebrated book, "Nietzsche: Life as Literature," and consider Nietzsche's influence on contemporary approaches to literary, biblical and constitutional interpretation. Honors section.

PHIL 585R. Major Philosopher: Nietzsche (3).
Examines Nietzsche's writings as philosophy and as literature, and considers the implications of Nietzsche's "perspectivism" for philosophy, morality and interpretation. Nietzsche's own writings are, of course central, although students also engage the celebrated book, "Nietzsche: Life as Literature," and consider Nietzsche's influence on contemporary approaches to literary, biblical and constitutional interpretation.
PHS 621. *Supervisory Management in Health Care Organizations* (3).
A study of supervisory management concepts and techniques that apply to health care organizations and programs. Emphasis is on understanding the health care environment and its various health care settings, the identification of issues facing front-line employees, supervisors and mid-level managers, and the development of administrative and leadership skills necessary to successfully lead health care work teams. Identifies, analyzes and solves problems that clinical department heads, supervisors and other health related mid-management personnel encounter in their work. The principles of effective management techniques — planning, decision making, organizing, budgeting, time management, leadership, direction, delegation, communication, motivation, discipline, performance appraisal, management of change, teamwork, effective meetings, working with unions, quality improvement and career development — are covered.

Intended for clinical health care professionals who will assume responsibility for managing people in health services organizations. An introduction to the essential theories, components and issues of human resources management in the health care field. Includes, among many other topics, the study of the effectiveness of the human resources management function, employee recruitment, selection, training, performance appraisal, benefits and compensation, employee relations and other relevant legal requirements affecting employment in the health care sector. Covers issues of contemporary relevance for human health services resource departments such as employee health and safety, employee assistance programs, occupational stress and job burnout, use of the Internet in the workplace, violence in the workplace, and work/family issues. Students are required to learn and demonstrate the ability to analyze human resources problems and to find and present sound solutions. Students are expected to learn and demonstrate effective group working skills as they join small groups and engage in collaboratively solving a number of human resources management problems.

PHS 624. *Community Development Methods* (3).
Builds on the foundation of public health by examining a variety of advanced methods, theories and skills used for community development. Students familiarize themselves with the approaches used to assess and improve health outcomes in a community context, and familiarize themselves with how to effectively apply these approaches. Includes lecture, group and individual projects, fieldwork and visiting lectures from practicing community development professionals.

PHS 642. *Financing Health Care Services* (3).
Examines the principles of financial analysis and management used in health care institutions, which are most useful to nonfinancial personnel. Emphasizes understanding and application of general financial concepts crucial to the health setting; considers financial organization, sources of operating revenues, budgeting and cost allocation methods. Uses examples for various types of health service organizations.

PHS 644. *Program Planning & Evaluation* (3).
Introduces students to the planning, development and evaluation of health programs through the use of lecture, group projects and individual presentations. Students familiarize themselves with a variety of approaches available in the field of program planning. Emphasizes the application of this material to the development of a program plan.

Addresses quality management in health services organizations, with a focus on a systematic approach to meet the Institute of Medicine’s aim to provide care that is safe, effective, patient-centered, timely, efficient and equitable. The history and current status of quality management initiatives, as well as the role of quality in organizational strategic management are presented. Students learn the role of quality from theory to application in a broad base of organizational settings.

Introductory statistics for graduate students in the social and health sciences with little or no background in statistics. Provides first year (or equivalent) MPH students with a basic understanding of certain statistical techniques, the appropriate application of these techniques, and use of the software package, SPSS.

PHS 808. *Principles of Epidemiology* (3).
An introductory graduate-level course concerning epidemiological principles and how these form the scientific basis for public health.

PHS 812. *Health Care Policy and Administration* (3).
An in-depth look at policy and management issues in the health system from a public health perspective. Topics include health policy, trends in the health care system, and administrative issues. Topics are critiqued with regard to public health goals, the interests of consumers and providers, and ethics.

Examines the characteristics, beliefs and behaviors of individuals and groups involved in the process of health care. Draws on concepts and principles of the social, behavioral and clinical sciences, especially dynamics that define the interactions of providers and consumers of health care. Explores why people react to perceived symptoms the way they do, the reasons providers respond as they do to patients with different social attributes, the factors which predispose individual reactions to illness and its correlates, and the effects on health of societal agreements and expectations.

PHS 816. *Environmental Health* (3).
A survey course in environmental health designed to provide an understanding of the fundamental theory and methods for the control of disease. Includes environmental law, disease systems, water supplies, plumbing, waste water treatment, food sanitation, vector control, recreation sanitation, solid waste disposal, housing sanitation and air pollution.

PHS 824. *Cultural Competency in Health Care* (3).
Examines the importance of culturally-informed care as a professional responsibility in clinical practice. Designed to critically examine cultural competency, explore the challenge of responding to health disparity, and develop skills for providing person-centered care. Cultural context constructs the ways people frame, react to, and treat illness and other health risks. Individual illness experience is shaped by such factors as age, identity, gender, ethnicity, education, religion, income, tradition and ability and, and influences such as power, hierarchy in medicine, economics, history, authority, resource allocation and technology. The confluence of these factors may result in major differences between a patient’s and provider’s understanding of illness, potentially resulting in adverse health outcomes. Course challenges students to develop an understanding of the role of culture in health care and to increase cultural responsiveness within the clinical context. Includes an introduction to culture theory, themes and key concepts, exploration of health disparity, a comparative overview of diversity in health beliefs and behaviors, exposure to applied skill sets intended to improve patient/provider congruence, and appreciation for interprofessional practice. Format includes lecture, discussion, reflection, film, case studies and follow-up clinical rotation reflection and evaluation.
PHS 833. Health Economics (3).
An application of classical economic theories, principles and concepts to traditional U.S. medical care. Both the traditional and unique determinants of demand and supply are considered with emphasis on the role of need for care, provider-induced demand, and health insurance. The legitimate role of government in health care is also considered.

PHS 841. Leadership and Change Agency in Public Health (3).
Explores the essential leadership competencies and characteristics necessary to effectively promote innovation and facilitate adaptation in today's complex and rapidly evolving health care system. Combines classic theory and cutting edge concepts to ground students in the principles which underpin the current emphasis on leaders as change agents. Explores and applies strategies for effective change in the thinking and behavior of people, the design and vision of organization, and the health and well being of communities. Emphasizes the generalizability of leadership principles across the various sectors of public health.

PHYS - Physics
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

PHYS 501. Special Studies in Physics for Educators (1-3).
3 Lab hours. A series of courses covering basic physical concepts which provide a physical science background for teachers. Repeatable for a maximum of 5 hours. Prerequisite: inservice or preservice teacher.

PHYS 501K. Nuclear Concepts (1-3).
Part of a series of courses covering basic physical concepts which provide a physical science background for teachers. Structure of atoms and the experiments that revealed this structure, quantization of matter, electric charge, and light, concepts of quantum mechanics. This course may also include further topics and applications, for example cosmic microwave background radiation or other topics of current interest.

Introductory course for prospective teachers. Basic physics concepts in mechanics, heat, and electricity and magnetism developed through laboratory investigations. Emphasizes science process skills and the nature of the scientific endeavor. Prerequisite: MATH 111 or equivalent; inservice or preservice teacher.

PHYS 516. Advanced Physics Laboratory (2).
4 Lab hours. Experiments in classical and modern physics to stress scientific methods and experimental techniques. The experiments are open-ended projects requiring individual study. Repeatable up to a maximum of 8 credit hours. Corequisite: PHYS 551.

PHYS 517. Electronics Laboratory (2).
1 Classroom hour; 3 Lab hours. Experiments in electronics that treat some of the applications of electronics in scientific physics research. Experiments cover the uses of transistors, op-amps, integrated and digital circuits. Prerequisite: PHYS 314.

PHYS 551. Topics in Modern Physics (3).
An introduction to selected areas of modern physics emphasizing the features of atomic, nuclear and solid state physics that require modifications of classical physics for their explanation. Prerequisite: PHYS 214 or 314, or departmental consent. Corequisite: MATH 344.

PHYS 555. Modern Optics (3).
Geometrical and physical optics, coherence theory and Fourier optics. Additional topics may include radiation, scattering, optical properties of solids and optical data processing. Prerequisites: PHYS 214 or 314 and MATH 344.

PHYS 595. Astrophysics (3).
Covers the formation, life and death of stars. Topics include: HR-diagrams, atomic and molecular spectra, radiative and convective transfer, the structure and spectra of stellar atmospheres, and stellar evolution. Prerequisite: PHYS 551.

PHYS 600. Individual Readings in Physics (1-3).
Repeatable but total credit may not exceed 6 hours for physics majors. Prerequisite: departmental consent.

PHYS 601. Individual Readings in Astrophysics (1-3).
Studies several topics in astronomy and astrophysics in depth. Lectures, independent readings and student projects may be assigned. May be repeated up to 6 hours. Prerequisite: instructor's consent.

PHYS 616. Computational Physics Laboratory (2).
1 Classroom hour; 2 Lab hours. Provides a working knowledge of computational techniques with applications in both theoretical and experimental physics, including an introduction to the FORTRAN and C++ languages as used in physics. Corequisite: MATH 555.

PHYS 621. Analytical Mechanics (3).
Motion of a particle or system of particles in one or several dimensions, central forces, rotating coordinate systems, the harmonic oscillator and the Lagrangian and Hamiltonian formulation of mechanics. Prerequisites: PHYS 214 or 314, and MATH 344 with grades of C or better.

PHYS 623. Advanced Mechanics (3).
Continuation of PHYS 621. Covers dynamics of a system of coupled particles, fluid mechanics, systems with continuum distributions of mass, and theory of small oscillations all in a Lagrangian or Hamiltonian formulation. Prerequisite: PHYS 621, or MATH 553 or 555, or instructor's consent.

PHYS 631. Electricity and Magnetism (3).
Electric and magnetic field theory, direct and alternating currents and Maxwell's electromagnetic wave theory. Prerequisites: PHYS 214 or 314, and MATH 344 with grades of C or better.

PHYS 641. Thermophysics (3).
The laws of thermodynamics, distribution functions, Boltzmann equation, transport phenomena, fluctuations, and an introduction to statistical mechanics. Prerequisites: PHYS 214 or 314, and MATH 344.

PHYS 651. Quantum Mechanics I (3).
Introduction to quantum mechanics, the Schrodinger equation, elementary perturbation theory and the hydrogen atom. Prerequisite: PHYS 551.

PHYS 652. Quantum Mechanics II (3).
A continuation of PHYS 651 and covers time dependent perturbation theory, WKB, scattering, Bell's theorem, quantum reality, applications of quantum mechanics, and nanotechnology. Prerequisite: PHYS 651.

PHYS 661. Introduction to Atomic Physics (3).
Quantum mechanics is the basis of all our physical understanding of atomic and molecular spectra. This course uses quantum mechanics to understand the nature and formation of the spectra of one, two and many-electron atoms. A discussion of atomic collisions is included. Corequisite: PHYS 651.

PHYS 675. Nuclear/Particle Physics (3).
Theories of nuclear and particle physics, including experimental techniques and important features of current data. Summary of mesons, baryons and leptons, and their electromagnetic, strong and weak nuclear force interactions. Phenomenological descriptions of nuclear and high-energy scattering and particle production leading to the quark theory of matter and other new exotic particles. Prerequisite: PHYS 551.
PHYS 681. Solid State Physics (3).
A one-semester introduction to solid state physics, which explores and explains-in terms of the microscopic processes that produce them-the thermal, mechanical and electronic properties of solids. Discusses practical applications and interdisciplinary material. Prerequisite: PHYS 551.

PHYS 701F. Astrophysics II (3).
Continuation of PHYS 595. Covers the properties of the solar system and extra-solar planets. Other topics of modern astronomy are included such as the formation of galaxies, cosmology and the Big Bang model. Prerequisite: PHYS 595 or instructor's consent.

PHYS 702. Energy and Sustainability (3).
Cross-listed as ME 702. Introduction to sustainability in a world of increasing population with more energy intensive lifestyles and diminishing resources; anthropogenic global climate change and the engineer's responsibilities; a critical look at the human ecological footprint; survey of alternative energy sources with special emphasis on wind and solar energy; life cycle analysis (LCA) of engineered products; the electric grid; emissions from various transportation modes, and alternatives. Consists of traditional lectures, seminars by invited experts, and the use of case studies. Meets the ME undergraduate curricular requirement for thermal/fluids elective and/or a general ME elective. Course includes diversity content. Prerequisite: ME 522 or PHYS 551; or instructor's consent.

PHYS 714. Theoretical Physics (3).
A study of mathematical techniques applicable to physics and other sciences. Instructor selects topics, such as power series, infinite products, asymptotic expansions, WKB method, contour integration and residue methods, integral transforms, Hilbert spaces, special functions and integral equations. Prerequisite: MATH 555 or instructor's consent.

1 Classroom hour; 2 Lab hours. Essential elements, principles and strategies of forward and inverse numerical computer modeling. Formulation of a qualitative problem (parametrization), model design, implementation, and interpretation of model results. Working knowledge of computational techniques with examples in physics, geology, chemistry and environmental sciences. Prerequisites: PHYS 616 or EEPS 701, plus knowledge of a programming language or numerical or symbolic mathematics package, or instructor's consent.

PHYS 761. Environmental Physics (3).
Covers the application of physics to the environment, including the production and use of energy, the transport of pollutants, and the study of noise. Topics include basic thermodynamics with applications to fossil fuels, hydroelectric, wind, geothermal and solar energies, plus effects on global warming, pollution and climate. Prerequisites: PHYS 313-314 and MATH 242, or EEPS 721, or instructor's consent.

PHYS 795. Earth and Space Physics (3).
Cross-listed as GEOL 795. An introduction to the geosciences and astrophysics of the solar system. Topics include the surface, interior and atmospheres of the planets with a comparative planetology approach, and the sun-planet system including solar physics and the effect of the sun on the earth's environment and geologic history. Prerequisites: PHYS 313-314, and MATH 242, or EEPS 721, or instructor's consent.

PHYS 800. Individual Readings (1-3).
Repeatable for credit up to 3 hours. Prerequisites: 30 hours of physics and departmental consent.

PHYS 801. Selected Topics (2-3).
Repeatable for credit up to 6 hours. Prerequisite: departmental consent.

PHYS 807. Seminar (1).
Review of current periodicals; reports on student and faculty research. Repeatable for credit up to 2 hours. Prerequisite: 20 hours of physics.

PHYS 809. Research (1-3).
Repeatable for credit up to 6 hours.

PHYS 811. Quantum Mechanics (3).
The Schrodinger and Heisenberg formulations of quantum mechanics. Applications include rectangular potentials, central forces, and the harmonic oscillator. Also includes spin, time independent and time dependent perturbation theory. Prerequisites: PHYS 621, 651 or departmental consent and MATH 555.

PHYS 812. Advanced Quantum Mechanics (3).
Applications of quantum mechanics. Topics which may be included are the WKB approximation, scattering, N-body problem, second quantization and relativistic quantum mechanics. Prerequisite: PHYS 811.

PHYS 816. Methods in Experimental Physics (2).
Experiments in modern physics and experimental methods are covered stressing the development of experimental techniques and how to analyze data statistically and mathematically from these experiments. Prerequisites: PHYS 516, 517, or their equivalents.

PHYS 821. Classical Mechanics (3).
The Lagrangian, Hamiltonian and Hamilton-Jacobi methods of mechanics and an introduction to variational calculus. Applications selected from central forces, rigid bodies, relativity, small oscillations and continuous media. Prerequisites: PHYS 621, MATH 555.

PHYS 831. Classical Electricity and Magnetism (3).
Maxwell's equations with application to static electricity and magnetism. Also may include electromagnetic fields, vector potentials, Greens functions, relativity, optics and magnetohydrodynamics. Prerequisites: PHYS 631, MATH 555.

PHYS 871. Statistical Mechanics (3).
An introduction to the basic concepts and methods of statistical mechanics with applications to simple physical systems. Prerequisites: MATH 555, PHYS 621.

PHYS 876. Elementary Particles & Fields (3).
A survey of nuclear, elementary particle and astro-particle physics topics in the mathematical framework of the Standard Model and its experimental verification. Students may benefit from taking PHYS 816 prior to this course, but it is not required. Prerequisite: PHYS 811 or departmental consent.

PHYS 881. Solid State Physics (3).
A second course in solid state physics for students who have had an introduction to the subject. Transport, dielectric and optical properties, magnetic properties, superconductivity and applications to semiconductor devices. Prerequisites: MATH 555, PHYS 651, 681, or departmental consent.

PHYS 895. Advanced Astrophysics (3).
Covers topics in astrophysics in relation to stellar structure, atmospheres and stellar evolution. Advanced topics in galactic dynamics, formation and cosmology may be included. Prerequisite: PHYS 595 or instructor's consent.

PHYS 983. Advanced Independent Study in Physics (1-3).
Arranged individual directed study in an area of physics. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

PHYS 987. PhD Dissertation (1-9).
Repeatable to a maximum of 24 hours. Graded S/U. Prerequisite: must have passed the PhD preliminary exam in physics.
POLS - Political Science

Although there is not a graduate program in political science, the following courses are available for graduate credit.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

POLS 523. Government and Politics of Latin America (3).
General education advanced further study course. An examination of the political institutions and processes that currently exist in the Latin American republics. Emphasizes the social, economic and psychocultural factors affecting these institutions and processes.

POLS 524. Politics of Modern China (3).
General education advanced further study course. Studies China's political system since 1949 in terms of non-Western goals and ideas of social organization. Uses themes of political integration and political development to minimize distortion or cultural bias. Encompasses the roots of the political system, the system as it is now, and the goals China is striving to realize. Some assessment about the future development of communism in China. Includes Chinese communism and the ideological heritage, political culture, political leadership, leadership succession, political participation, the Chinese Communist Party, political communications and socialization, legal developments, policy choices, and major events, such as the Hundred Flowers Campaign, Great Leap Forward, and the Proletarian Cultural Revolution.

POLS 570. International Political Economy (3).
Cross-listed as ECON 570. Examination of policy decisions regarding exchanges of trade, money and labor that span national boundaries. Studies the interaction of politics and economics at the international level, as well as the modern history of the global economy. Economics often studies the material benefits and costs of different policies. Political science asks why these policies exist in the first place with a focus on who gets the benefits, who pays the costs, and how decisions about allocating benefits and costs are made. Course includes diversity content.

The problems of government encountered in the administration of public policy. Analytical approach rather than descriptive. Repeatable for credit.

POLS 600. Senior Thesis (3).
Capstone course for political science majors designed to pull together many of the themes and concepts covered in introductory and upper-division courses. The main component is writing a senior thesis in which students conduct in-depth research about a topic of their interest. The topic should be related to one of the main areas of political science: American politics, international relations or comparative politics. In exceptional cases, students may write a paper related to political theory. Course professor provides guidelines and a schedule of activities, supervises and grades the overall research process; however each student works closely with a faculty member in order to develop his or her research projects. For undergraduate students only.

POLS 655. Urban Government Finance (3).
Cross-listed as ECON 655. Analysis of urban government expenditure and revenue systems. Introduction to urban financial administration.

POLS 687. Introduction to Urban Affairs (3).
Cross-listed as ECON 687 and SOC 687. Introduction to the study of the metropolis as a social, political and economic system.

POLS 687H. Introduction to Urban Affairs - Honors (3).
Cross-listed as ECON 687H and SOC 687H. An introduction to the study of the metropolis as a social, political and economic system. Honors section.

POLS 700. Advanced Directed Readings (1-3).
Repeatable for credit. Graded S/U. Prerequisite: departmental consent.

POLS 710. Public Sector Organizational Theory and Behavior (3).
Cross-listed as PADM 710. Review of the scope of the field of public administration including a survey of key concepts and schools of thought underlying the field and identification of issues shaping the future development of the field.

POLS 725. Public Management of Human Resources (3).
Cross-listed as PADM 725. Surveys the major areas of management of human resources in the public sector. Includes hiring, training, evaluation and pay promotion policies. Emphasizes the laws governing public personnel management and the unique merit, equal employment opportunity, productivity, unionization and collective bargaining problems found in the public sector.

POLS 750. Workshop (2-4).
Prerequisite: instructor's consent.

POLS 760. Local Government Finance (3).
Cross-listed as ECON 760. An analysis of state and local government expenditure and revenue systems with an introduction to state and local financial administration. Prerequisites: ECON 202Q and a course in statistics or instructor's consent.

POLS 761. State and Local Financial Systems (3).
Deals with selected aspects of state and local government financial management. Introduction to fund accounting, costing of government services, capital budgeting and asset management.

POLS 810. Seminar in Comparative Government (3).
The comparative study of selected aspects of the politics and institutions of foreign governments.

POLS 835. Seminar in International Relations (3).
Analysis of special problems in, and approaches to, the study of international relations. Prerequisite: departmental consent.

An analytical study of selected topics in the politics and administration of revenue, expenditure and borrowing policies of governmental organizations. Prerequisite: departmental consent.

POLS 856. Seminar in American Politics and Institutions (3).
Analytical study of selected topics in American political behavior emphasizing individual research. Repeatable for credit when content differs substantially. Prerequisite: departmental consent.

POLS 865. Public and Nonprofit Financial Management (3).
Cross-listed as PADM 865. Introduction to state local government financial administration. Topics include: government accounting systems, budgeting, government financial statement and financial condition analysis, internal financial control systems, debt management and policy, and government cash management and pension investment management systems. Prerequisite: PADM 765 or instructor's consent.

POLS 867. State and Local Government Budgeting (3).
Cross-listed as PADM 867. Analysis of the development and use of the budgetary process in government administration emphasizing the budget in relation to its role in policy formulation and management. Prerequisite: PADM 865 or instructor's consent.

Cross-listed as PADM 868. An analytical study of selected topics in the politics and administration of revenue, expenditure, and borrowing
policies of governmental organizations. Prerequisite: departmental consent.

POLS 873. Seminar Paper Option (3).
Requires students to extensively revise a seminar paper they wrote within their area of emphasis. Paper is written under the direction of a faculty member and orally defended before a committee of three or more faculty, including a chairperson. Prerequisite: departmental approval.

POLS 874. Internship (1-6).
An intensive applied learning experience supervised by a university department or committee. To receive credit, a student must secure approval of a written report from his or her own department. Graded S/U. Prerequisite: departmental consent.

POLS 875. Research Design (3).
Requires the development of a research design for the thesis. The design must be submitted to a departmental committee for evaluation and approval. Graded S/U. Prerequisite: departmental consent.

POLS 876. Thesis (1-3).
Thesis preparation.

PSY - Psychology

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

PSY 506. Psychology of Helping Relations (3).
Cross-listed as NURS 567 and SOC 506. Introduces students to a psychological perspective on helping relationships that is useful in both practice and research. Topics covered include the definition of relationship, and identification of the ways in which the roles of helper and help seeker can be structured to maximize effectiveness: e.g., power, distance, similarity and reciprocity. Relationships of interest include: counseling and psychotherapy, nursing and doctoring, family caregiving, mentoring, self-help, mutual aid, and volunteering. The emerging topic of "relationship-centered care models" in the education of health care professionals is discussed. Prerequisite: 6 hours in psychology including PSY 511 or instructor's consent.

PSY 506H. Psychology of Helping Relations - Honors (3).
Cross-listed as NURS 567 and SOC 506. Introduces students to a psychological perspective on helping relationships that is useful in both practice and research. Topics covered include the definition of relationship, and identification of the ways in which the roles of helper and help seeker can be structured to maximize effectiveness: e.g., power, distance, similarity and reciprocity. Relationships of interest include: counseling and psychotherapy, nursing and doctoring, family caregiving, mentoring, self-help, mutual aid, and volunteering. The emerging topic of "relationship-centered care models" in the education of health care professionals is discussed. Honors section. Prerequisite: 6 hours in psychology including PSY 511 or instructor's consent.

PSY 508. Psychology Tutorial (1-3).
Selected topics in psychology. Repeatable for a maximum of 6 hours credit. Instructor's consent may be required. Check Schedule of Courses. Prerequisite: PSY 111.

PSY 511. Introduction to School Psychology (3).
Cross-listed as CLES 511. Introduces students to a career in school psychology. School psychologists work in schools to solve students' academic and behavioral problems through consultation, assessment and intervention. Course examines the roles and functions of school psychologists, the methods used to address students' psychosocial needs, and the school and community systems within which they operate. Course includes diversity content.

PSY 512. Exploring Concepts and Careers in Educational Psychology (3).
Cross-listed as CLES 512. Explores the field of educational psychology and its application in different areas, such as teaching, learning, coaching, training, assessment and research. Introduces students to the wide variety of careers in educational psychology. Also introduces students to the practical application of educational psychology by considering topics such as cognition (problem solving, memory, decision making), behavioral learning principles, motivation, human development, curriculum development, assessment, basic research design, and the role of research. Course includes diversity content.

PSY 514. Psychology of Health and Illness (3).
A survey of the relationships between psychology/behavior and physical health and illness. Includes stress and coping, health habits, symptom perception, health care provider-client relationships, hospitalization and prevention. May include a self-study of lifestyle and behavior in relation to health and illness. Prerequisite: PSY 111.

PSY 516. Drugs and Human Behavior (3).
General education advanced further study course. A survey of the actions and effects of use of legal and illegal psychoactive drugs and of the use of prescription drugs in the treatment of psychological disorders. Details social-cultural, personal, and situational determinants and consequences of drug use and abuse. Prerequisite: PSY 111.

PSY 534. Psychology of Women (3).
General education advanced issues and perspectives course. Cross-listed as WOMS 534. Psychological assumptions, research and theories of the roles, behavior and potential of women in contemporary society. Course includes diversity content. Prerequisite: PSY 111.

PSY 536. Behavior Modification (3).
A study of the basic assumptions, principles and issues of behavioral approach to helping persons with psychological problems. Includes demonstration and individualized practice in general helping skills as well as individual projects in applying these skills. Course includes diversity content. Prerequisites: PSY 111 and instructor's consent.

PSY 544. Abnormal Psychology (3).

PSY 546. Aerospace Psychology (3).
Exploration of the many roles of scientific psychology in aviation and aerospace science. Surveys the research and literature in areas such as psychophysiological aspects of flight, environmental effects on human performance in aviation, aircrew skill requirements and training, pilot workload, cockpit control and display systems, and aviation safety. Prerequisite: 15 hours of psychology or instructor's consent.

PSY 556. Introduction to Clinical Psychology (3).
PSY 556. Introduction to Clinical Psychology (3). A survey of current ethical, conceptual and research issues involved in the assessment and treatment of psychopathology. Reviews contemporary psychotherapies emphasizing the relative efficacy of each and the therapeutic mechanisms through which they initiate behavioral change. Prerequisite: PSY 324.

PSY 559. Successful Aging: Theory, Research & Practice (3).
Cross-listed as AGE 559, SCWK 559, and SOC 559. Reviews current interventions which promote successful aging. Theoretical bases of this work in biomedical and life span/developmental psychology are featured. Intended for students in the College of Health Professions, Liberal Arts & Sciences and Engineering. Course includes diversity content.
content. Prerequisite: AGE 100, or PSY 111, or SCWK 201, or 
SOC 111.

PSY 566. Perspectives on Self-Help Groups (3).
Cross-listed as NURS 566 and SCWK 566. Provides an interactive 
format that constitutes a community resource for health and human 
service professionals and promotes an interdisciplinary understanding 
of the nature and diversity of self-help groups for persons with virtually 
any health problem or personal issue. Reviews contemporary theory 
and research, explaining the attractiveness and effectiveness of self-help 
groups. Panels of support group members share their experience with 
self-help groups on such topics as addiction, cancer and other illnesses, 
eating disorders, bereavement, mental illness and parenting.

PSY 568. Computer Applications to the Behavioral Sciences (3).
Introduction to state of the art programming environments designed for 
psychological research. Students learn how to perform basic statistical 
alyses, program visual and auditory experiments, and analyze data. 
Applications include such areas as mathematical modeling and creating 
experiments. Previous programming experience is encouraged, but not 
required. Repeatable for different topics. Prerequisite: 9 hours in the 
social sciences.

PSY 608. Special Investigation (1-3).
Upon consultation with instructor, advanced students with adequate 
preparation may undertake original research or directed readings in 
psychological problems. Repeatable for a maximum of 6 credit hours. 
Requires consultation with, and approval by, appropriate adviser prior 
to registration. Prerequisites: 9 hours in psychology and instructor's 
consent.

PSY 727. Selected Topics in Human Factors Psychology (3).
Introduction to one of several special topics in the area of human 
factors. Students review relevant literature and learn theory 
and application of specific methodologies in a variety of work 
environments. Repeatable. Graded S/U only. Prerequisite: instructor's 
consent.

PSY 750. Psychology Workshop (1-3).
Specialized instruction, using various formats in selected topics and 
areas of psychology. Graded S/U.

PSY 900. Ethics & Psychology (3).
Cross listed as PHIL 900. An in-depth analysis of moral issues 
that arise in the profession of psychology. Provides a detailed 
familiarization with current moral controversies and develops ethical 
reasoning skills that will enable one to address new issues as they arise. 
Representative topics include: informed and voluntary consent, rights 
of human research subjects, privacy and confidentiality, assessment, 
conflicting obligations, ownership of research results, multiple 
relationships in teaching, research and practice, conflicts between 
therapeutic and forensic roles, objectivity in research, the nature and 
boundaries of teaching psychology.

PSY 901. Graduate Research (1-3).
Individual research. Graded S/U. Prerequisites: advisor's consent and graduate standing.

PSY 902. Advanced Research Methods I (4).
3 Classroom hours; 3 Lab hours. Part one of a two-course sequence 
aimed at advanced treatment of statistical and research design issues. 
Statistical methods included are analysis of variance, analysis of 
covariance, multiple comparisons and multiple regression. Design 
issues include research planning, validity, quasi vs. experimental 
designs, prediction vs. explanation and modeling. The associated lab provides basic computer skills for access to the mainframe and 
some basic training for EXCEL, and SPSS for Windows. Prerequisite: 
instructor's consent.

PSY 903. Advanced Research Methods II (4).
3 Classroom hours; 3 Lab hours. Continuation of PSY 902. Statistical 
techniques emphasized are a continuation of multiple regression, 
structural analyses including AMOS, factor analysis, canonical 
correlation and discriminant analysis. Includes advanced design issues. 
The associated lab provides additional computer skills for Excel, and 
SPSS for Windows. Prerequisites: PSY 902, instructor's consent.

PSY 904. Biological and Philosophical Foundations of 
Psychology (3).
Develops the idea that psychology is a biosocial science. Examines 
the philosophical foundations of science itself before exploring the 
biological foundations and contextual nature of psychological science. 
Readings cover biological factors as they pertain to psychology: 
evolution, genetics, maturation, functional neuroanatomy, physiology. 
Includes critical reviews of genetic determinism, neural localization and 
hemispheric specialization. Prerequisite: instructor's consent.

PSY 905. Cognitive/Learning Foundations of Behavior (3).
Focuses on how human beings learn, maintain and modify behavior, 
and how cognitive knowledge is acquired, maintained, represented 
and used. Serves as an integrated resource of the main issues and 
the theoretical questions investigated in the psychology of learning 
and cognition. A basic understanding of classical and instrumental 
conditioning, and the cognitive processes of memory, language, 
speech, thought, decision making and problem solving are provided. 
Prerequisite: instructor's consent.

PSY 906. Assessment of Personality and Individual 
Differences (3).
Reviews psychometric principles underlying assessment of individual 
differences in cognition and personality. Major approaches to 
assessment of normal personality variables are examined. Students self- 
administer several personality instruments and assess a client under 
 supervision. Prerequisite: instructor's consent.

PSY 907. Social and Developmental Foundations of Behavior (3).
Examines basic assumptions, theories and methods in social and 
developmental psychology. Describes and analyzes research concerning 
the functional significance of social relationships for development 
and the embeddedness of behavior in social, ecological and cultural 
contexts, focusing on a number of substantive issues such as person 
perception and social cognition, affiliation and attachment, socialization 
and interpersonal interaction, social support, and social roles and 
contexts over the life span. Considers the applications of theories of 
attrition, attitude change, group functioning and attachment to current 
social problems. Prerequisite: instructor's consent.

PSY 908. Doctoral Dissertation (1-3).
Repeatable for credit. Graded S/U. Prerequisite: admission to candidacy 
and instructor's consent.

PSY 909. Preproposal Research (1-3).
A research course for students who have completed the second year 
project but have not taken qualifying examinations. Focuses on the first 
steps in developing a dissertation proposal. May be taken an unlimited 
number of times. Graded S/U.

PSY 911. Teaching of Psychology: Principles, Practices and 
Ethics (1-3).
Prepares doctoral students in psychology to assume undergraduate 
teaching duties. Presents basic pedagogical tools as well as university 
and departmental policies and procedures. Students learn about 
opportunities to incorporate technology in the classroom and have 
several occasions to observe and practice teaching. Introduces students 
to important ethical issues that confront teachers of psychology and 
provides strategies for handling ethical dilemmas. Psychology graduate 
students are required to complete 3 credit hours of this course or have
equivalent experience before teaching. Partially fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Graded S/U.

**PSY 912. Seminar on Cultural Diversity** (3).
Examines theoretical frameworks and develops culturally appropriate strategies in therapy and prevention efforts in the community. Emphasizes understanding the importance of culture and how it may impact treatment and prevention outcomes. Focuses on developing skills to work effectively with diverse populations. Prerequisite: instructor's consent.

**PSY 920. Psychological Principles of Human Factors** (3).
Focuses on the interaction of people with machines and technology in a variety of environments. Provides depth to the topics surveyed in PSY 405 and serves as a means of integrating cognitive, biological and perceptual psychology in applied settings. Prerequisites: completion of undergraduate course in cognitive psychology or PSY 905; and instructor's consent after interview for doctoral students from other disciplines.

**PSY 921. Seminar in Human Factors** (3).
Focuses on a sample of contemporary human factors problems through review of current literature and theory. Content changes as new problems attain prominence internationally, but a typical sample might be human factors in the aging population; human factors in airport security and baggage marking; and human factors in third-world industrialization. Prerequisites: completion of 9 hours of foundations of psychology doctoral courses; for doctoral students from other disciplines, instructor's consent after an interview.

**PSY 922. Seminar in Software Psychology** (3).
Intensive study of principles and methods of engineering psychology (human factors) applied to the design and evaluation of computer software. Includes research methods, programming as human performance, programming style, software quality evaluation, organizing the programming team, interactive interface issues, and the design of interactive computer systems. Prerequisite: instructor’s consent.

**PSY 925. Seminar in Perception** (3).
Intensive study in theory and research in perceptual processes. Prerequisites: PSY 409, or equivalent and instructor’s consent.

**PSY 926. Internship in Human Factors Psychology** (1-3).
Repeatable up to 6 hours. A planned placement experience in an off-campus setting, giving the doctoral human factors psychology student an opportunity to apply the principles of human factors psychology. Prerequisite: adviser’s consent.

**PSY 940. Seminar in Community-Clinical Psychology** (3).
Introduces basic historical, conceptual, research, methodological and ethical issues in community-clinical psychology. Examines the responsibilities and roles of psychologists in the promotion of human functioning. Reviews models and determinants of human behavior from individual, developmental and ecological/contextual perspectives. Details the reciprocal relationship between research and practical applications of psychological knowledge and the application of that knowledge to human psychosocial problems. Prerequisite: instructor's consent.

An examination of research methods which are used in community settings to develop and evaluate programs. Regarding program development, there is discussion of different data collection strategies used to assess community needs. Explores a variety of topics related to program evaluation including research design issues, developing criteria of merit, and the politicization of program evaluation. Prerequisite: instructor's consent.

**PSY 942. Seminar in Community and Organizational Intervention** (3).
Focuses on the development and/or change of community-based programs and organizations and the implementation and funding of community-based programs. Explores the theoretical and conceptual basis of these interventions, drawing on material from community psychology, public health and applied social psychology. Helps prepare students to become involved as professionals in community-based health or mental health interventions in a variety of roles: as program developers, proposal writers, program implementers and program managers. Prerequisite: instructor's consent.

**PSY 943. Seminar in Prevention** (3).
Reviews the historical, theoretical and empirical bases of prevention psychology. Presents contemporary models of prevention psychology including the ecological, social and community mental health perspectives. Could include primary prevention, empowerment, community-based prevention, self-help, social policy and the prevention of psychosocial problems through environmental intervention. Prerequisite: instructor's consent.

**PSY 944. Practicum in Community Psychology** (1-3).
Provides supervised practice working in community-based organizations on such tasks as needs assessment, program development and program evaluation. Organizational settings may be in the areas of mental health and education. Services may be prevention-oriented. Repeatable for credit. Graded S/U. Prerequisite: instructor's consent.

**PSY 948. Seminar in Community Leadership** (3).
Seminar explores contemporary principles of community leadership from a community psychology framework. In an interactive and applied learning format, this seminar focuses on relevant theory, research, best practices and experiential knowledge regarding community leadership to gain understanding of key concepts and practices of leadership, develop individual leadership skills based on personal strengths, be introduced to the breadth of opportunity for civic and community engagement, and gain leadership skills to become more effective in improving community and civic life. Prerequisite: instructor's consent.

**PSY 949. Seminar in Community Advocacy & Social Policy** (3).
Seminar explores contemporary principles of community advocacy and social policy from a community psychology framework. In an interactive and applied learning format, this seminar focuses on relevant theory, research, best practices and experiential knowledge regarding community advocacy and social policy to gain an understanding of key concepts and practices of grassroots advocacy and the development and implementation of social policy. Opportunities for civic and community engagement to gain skills for a more effective community are provided. Prerequisite: instructor's consent.

**PSY 960. Ethical and Professional Issues in Clinical Psychology** (3).
Focusses on several pertinent professional, legal, ethical and related issues and concerns that impact the self-identity, credentialing, practice and status of contemporary clinical psychology. Includes an historical overview of the development of both the discipline and profession of clinical psychology; professional associations that represent each; the credentialing and education/training of clinical psychologists; and how the practice of clinical psychology is governed and impacted by the APA Ethical Code, related laws and associated judicial rulings such as Tarasoff, and professional practice standards.
PSY 961. Seminar in Cognitive-Behavioral Assessment (3).
Surveys standards used in evaluating the quality of cognitive-behavioral assessment techniques and procedures. Provides a description, critical analysis and conceptualization of how such assessment methods as interviewing, behavioral observations, self-monitoring, self-report inventories, and standardized intelligence testing can be used to meet the goals of a cognitive-behavioral approach to psychological assessment. Prerequisite: instructor's consent.

PSY 961L. Cognitive-Behavioral Assessment Lab (1).
Supplements PSY 961 by providing students with hands-on training and experience with an array of techniques and procedures used in conducting psychological assessments from a cognitive-behavioral perspective. Covers interviewing, self-report inventories, self-monitoring, behavioral observations, and the use of standardized intelligence tests. Graded S/U. Prerequisites: concurrent enrollment in PSY 961, instructor's consent.

PSY 962. Seminar in Cognitive-Behavioral Therapy (3).
3 Classroom hours; 3 Lab hours. Reviews the theoretical and empirical support for specific behavior therapeutic practices. Approaches may include systematic desensitization, flooding, contingency management techniques and cognitive therapies. Also discusses the interface between behavioral assessment and clinical practice. Prerequisite: instructor's consent.

PSY 962L. Cognitive-Behavioral Therapy Lab (1).
Supplements PSY 962 by providing students with hands-on training and experience with an array of techniques and procedures used in conducting psychological interventions from a cognitive-behavioral perspective. Covers reinforcement procedures, desensitization, cognitive therapy, dialectical behavior therapy, and self-regulation procedures. Graded S/U. Prerequisites: concurrent enrollment in PSY 962, instructor's consent.

PSY 963. Practicum in Clinical Psychology (1-3).
Gives the student further experience in developing clinical skills. Students are supervised in their clinical work with individual clients seen through the department clinic, and/or other appropriate sites. May be repeated for credit. Graded S/U. Prerequisite: instructor's consent.

PSY 964. Development of Abnormal Behavior (3).
Considers the descriptive characteristics of abnormal behavior; a developmental perspective. Considers the ecological, social-environmental, personal, and genetic-biological contexts and causes of such behavior. Discusses implications for preventative and clinical interventions. Prerequisite: instructor's consent.

PSY 965. Special Issues in Psychological Assessment (1-4).
Covers contemporary and developing approaches to psychological assessment identified by the department. Course procedures and content vary according to topic. Repeatable. Prerequisite: departmental or instructor's consent.

PSY 966. Special Issues in Psychotherapeutic Interventions (1-4).
Covers contemporary and developing approaches to psychotherapy identified by the department. Course procedures and content vary according to topic. Repeatable. Prerequisite: departmental or instructor's consent.

PSY 972. Techniques of Counseling (3).
Cross-listed as CESP 824. Examines and practices techniques of counseling through simulated counseling situations and extensive examination of counseling case studies. Prerequisites: CESP 728, 802, 803 (or concurrent enrollment), 804, 821, 822 or 811, or departmental consent.

PSY 975. Seminar in Psychotherapy (3).
Provides an in-depth description and critical analysis of various theories and methods of psychotherapy, an examination of the efficacy of these therapeutic approaches, and a survey of common issues in psychotherapy, such as process and outcome, and client and therapist variables in the therapeutic process. Prerequisites: PSY 111 and instructor's consent.

PSY 976. Advanced Psychopathology (3).
An overview of major categories of psychopathology consistent with the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders. Reviews descriptive features of each diagnostic category and information on the clinical course and etiology. Examines differing definitions of psychopathology and paradigmatic approaches to the study of psychopathology. Prerequisite: instructor's consent.

PSY 977. Internship in Clinical Psychology (1-3).
A planned one-year supervised clinical internship at an off-campus site approved by APPIC for training in clinical psychology. Gives the clinical student an opportunity to further develop and employ clinical skills in an applied supervised training setting. Graded S/U. Prerequisite: advisor's consent.

PSY 979. Seminar in Personality Assessment (3).
Introduces students to organizing theories of personality and how personality frameworks allow for the conceptualization and assessment of psychopathology. Designed to teach students about the appropriate administration, usage and interpretation of major personality assessment instruments, such as the MMPI-2, MCMI-III, and PAI. Discusses how personality can be assessed at different levels of functioning and with differing methodologies, and how these methods must be carefully considered in understanding the whole person. Students learn how to write an assessment report with attention devoted to how findings from various measures and methods converge and diverge.

PSY 990. Seminar in Current Developments (1-3).
Intensive study of current issues, techniques, research and application. Repeatable for different topics for a maximum of 6 hours. Prerequisite: instructor's consent.

PSY 990C. Psychosocial Interventions for Noncompliant and Aggressive Youth (3).
Introduces evidence-based strategies for working with noncompliant and aggressive youth and their families. Treatment principles are considered within a developmental lens, addressing concerns related to preschoolers, school-age children, and adolescents.

PSY 991. Judgment and Decision Making (3).
Provides a graduate-level overview of the field of judgment and decision making. It covers methodological as well as theoretical topics. Full attention is given to theories of decision making as well as the heuristics and biases literature. Topics include confidence, learning from experience, affect, debiasing and more. Prerequisite: instructor's consent.

PSY 992. Advanced Linear Models (3).
Covers theory and application of generalized linear models and hierarchical models in psychology. Computing is emphasized.
Prerequisite: 902 or instructor's consent.

PT - Physical Therapy
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

PT 700. Pathophysiology for PT (3).
Focuses on the differentiation of major disease pathophysiology at the micro and macro levels. Content is specific to physical therapists and
emphasizes causes and effects on the overall physical capacities of a patient/client as they relate to prevention and rehabilitation.

**PT 708. Introduction to Professional Practice I** (2).
Focuses on foundational concepts of the profession of physical therapy and doctoring professions. Knowledge in psychological development and dynamics is related to interactions with patients and clients. Students have the opportunity to evaluate individual values and personality preferences that influence their interactions with others, and to develop interpersonal skills for working effectively with patients, families and professional colleagues. Appreciation of psychological and social diversity is emphasized.

**PT 709. Foundations of Therapeutic Exercise** (3).
An introduction to the scientific principles of therapeutic exercise foundations and techniques for physical therapists. Designed to follow the Guide to Physical Therapist Practice. Laboratory sessions include skill development for safe, effective use of commonly used therapeutic exercise equipment.

**PT 725. Anatomy for Physical Therapists** (6).
Presents a regional approach to the structure of the human body, using supervised dissection of human cadavers, observation of prosected materials, radiographic films and anatomical models. Emphasis is placed on surface anatomy and the neuromuscular, cardiovascular and skeletal systems.

**PT 731. Clinical Kinesiology** (3).
Details and analyzes kinesiological and biomechanical foundations that are required to differentiate causes of musculoskeletal dysfunction.

**PT 736. Physical Agents** (4).
Presents concepts and practical applications of a host of therapeutic modalities. Indications, contraindications and the appropriateness of these modalities are assessed.

**PT 741. Clinical Practicum and Seminar I** (2).
The first of a two-course series that builds on the integration of physical therapy knowledge, skills and professional values within a seminar setting and part-time clinical experience. A variety of professional and practice issues are examined, and the student gains observational experiences in a variety of acute, outpatient and rehabilitation settings.

**PT 751. Foundations of Research** (2).
Critical analysis of the scientific literature focusing on design and statistics for physical therapy and related disciplines. Successful completion of this course gives the student a foundation for designing and interpreting a research project or paper.

**PT 755. Clinical Pharmacology for Physical Therapists** (2).
Details major classes of pharmacological agents. Pharmacokinetics, mechanisms of action, side effects, drug interactions, contraindications, therapeutic use and appropriate drug monitoring are addressed. Clinical application of this knowledge emphasizes the physical therapist's role in assessment, management and proper referral of patients experiencing subtherapeutic benefits or drug-related problems.

**PT 761. Clinical Practicum and Seminar II** (2).
The second of a two-course series that culminates with the integration of physical therapy knowledge, skills and professional values within a seminar setting and part-time clinical experience. A variety of professional and practice issues are examined, and the student gains observational experiences in a variety of acute, outpatient and rehabilitation settings.

**PT 770. Musculoskeletal Clinical Medicine** (2).
Differentiates etiology, diagnosis, pathology, medical treatment and prognosis for orthopedic conditions that are managed by physical therapists.

**PT 771. Critical Inquiry I** (2).
The first in a series of three consecutive research application courses following Foundations of Research for physical therapy and related disciplines. Students work with an assigned adviser to plan either a research project or a research paper, that will be implemented and evaluated in subsequent courses.

**PT 772. Foundations of Clinical Skills** (2).
Provides specialized instruction for common patient care skills including bed positioning, transfers, gait training with assistive devices, vital signs, infection control and selected screening tests.

**PT 773. Neuroscience I** (2).
First of two courses describing the relationship of structure and function of the nervous system with selected neuromuscular conditions. Specifically covers the spinal cord, cerebral cortex, autonomic nervous system, and the effects of injury/disease to these structures. For students enrolled in physical therapy education program.

**PT 774. Neuromuscular Interventions I** (2).
First of three courses detailing examination, assessment and interventions for patients with neuromuscular conditions. Patients with spinal cord injuries and cerebral vascular accident are assessed and evaluated.

**PT 781. Foundations of Musculoskeletal Examination and Intervention** (3).
Emphasizes the scientific foundation and clinical rationale used during assessment, evaluation and intervention with musculoskeletal conditions. Provides specialized instruction in the art of palpating surface anatomy, performance of manual muscle testing, and goniometric measurements. An emphasis is placed on the clinical and scientific literature pertaining to evaluation and treatment of musculoskeletal conditions.

**PT 790. Selected Topics in Physical Therapy** (1-4).
Intensive study of current issues, technology, research and application of selected topic.

**PT 799. Experimental Course** (1-4).
One-time course offerings.

**PT 821. Professional Practice I** (2).
The first of two courses designed to provide students with an overview of health systems, health regulation, risk management, and administrative theory and principles as related to the practice of physical therapy. Primary focus is health policy and health systems.

**PT 831. Musculoskeletal Management of the Upper Quarter** (3).
Emphasizes the scientific foundation and clinical rationale used during assessment, evaluation and intervention with musculoskeletal conditions. Builds on the foundations from various courses during the first year of the DPT curriculum. It provides an in-depth study of different injuries and lesions, specific evaluation techniques, and treatments of those injuries and pathologies of the upper quarter. Emphasis is placed on organizing and synthesizing information from courses throughout the physical therapy curriculum to allow integration of problem-solving skills that enables students to better make the transition from students to competent practicing physical therapists.

**PT 840. Directed Study** (1-3).
Individual study with a focus developed in collaboration with a departmental faculty member. Allows students to pursue an area of special interest in physical therapy.

**PT 848. Life Span of the Adult** (2).
Focuses on the relationship of structure and function to the development of movement skills through older age. First of two courses.
PT 851. Critical Inquiry II (2).
The second in a series of three consecutive research application courses following Foundations of Research for physical therapy and related disciplines. Students work with an assigned adviser to collect data, complete statistical analyses (as appropriate), and complete a preliminary draft of either a research project or a research paper.

PT 852. Clinical Education I (8).
Prepares the student to provide physical therapy care in varied settings requiring communication and interpersonal relations skills, professional socialization, application of physical therapy procedures, beginning development of a generalist in physical therapy. Graded S/U.

PT 853. Neuroscience II (2).
Second of two courses describing the relationship of structure and function of the nervous system with selected neuromuscular conditions. Specifically covers the brainstem, cerebellum, basal ganglia and diencephalon, and the effects of injury/disease to these structures. For students enrolled in physical therapy education program.

PT 854. Neuromuscular Interventions II (2).
Second of three courses detailing examination, assessment and interventions for patients with neuromuscular conditions. Patients with problems of the visual system and the basal ganglia are assessed and evaluated.

PT 855. Prosthetics & Orthotics (2).
Addresses selected integumentary system conditions and special conditions. Focuses on examination, clinical decision making, and treatment planning for patients/clients with these conditions. Interventions using prosthetics and orthotics are emphasized. Roles of other health care team members including prosthetists and orthotists and interactions with physical therapists are discussed relative to these conditions.

PT 856. Integumentary Conditions and Acute Care (2).
Addresses selected integumentary system conditions and the acute care practice setting. Focuses on examination, clinical decision making, and treatment planning for these conditions. Roles of other health care team members and interactions with physical therapists in the acute care settings are discussed relative to integumentary conditions. Prerequisite: departmental consent.

PT 861. Professional Practice II (3).
The second of two courses designed to provide students with an understanding of health systems, health regulation, risk management, and administrative theory and principles as related to the practice of physical therapy. The primary focus is understanding legal concerns, risk management, and planning, applying and interviewing for employment in the physical therapy profession.

PT 871. Critical Inquiry III (2).
The third in a series of three consecutive research application courses following Foundations of Research for physical therapy and related disciplines. Students work with an assigned adviser to finalize and disseminate either a research project or a research paper and give a formal oral presentation of their work.

PT 874. Neuromuscular Interventions III (2).
Third of three courses detailing examination, assessment and interventions for patients with neuromuscular conditions. Patients with problems of sensory integration, motor control and the vestibular system are assessed and evaluated.

PT 877. Clinical Knowledge and Practice in Cardiovascular and Pulmonary Conditions (2).
Develops clinical skills in examining, assessing and managing patients/clients with cardiovascular and pulmonary impairments. Common pathophysiology of the cardiovascular and pulmonary system are covered.

PT 881. Musculoskeletal Management of the Lower Quarter (3).
Reviews the basic scientific foundation and clinical rationale used during evaluation, assessment and treatment of musculoskeletal conditions of the lower quarter. Elaborates on the foundations brought forth from various courses during the first year of the DPT curriculum. Evokes an in-depth study of different injuries and lesions, specific evaluation techniques, and treatments of those injuries and pathologies. Emphasis is placed on organizing and synthesizing information from courses throughout the physical therapy curriculum to allow integration and problem-solving skills that enables students to better make the transition from students to competent practicing physical therapists.

Introduces the student to the basic scientific foundation and clinical rationale used during evaluation, assessment and treatment of musculoskeletal conditions of the cervical/thoracic spine and TMJ. Designed to build on the foundations brought forth from previous courses. Studies in depth different injuries and lesions, specific evaluation techniques, and treatment of those injuries and pathologies of the cervical spine, thoracic spine and TMJ. Emphasis is placed on organizing and synthesizing information from courses throughout the physical therapy curriculum to allow integration and problem solving skills that enable students to better make the transition from students to competent practicing physical therapists.

Introduces the student to the basic scientific foundation and clinical rationale used during evaluation, assessment, and treatment of musculoskeletal conditions of the lumbar spine and pelvis. Designed to build on the foundations brought forth from previous courses. Studies in depth different injuries and lesions, specific evaluation techniques, and treatments of those injuries and pathologies of the lumbar spine and pelvis. Emphasis is placed on organizing and synthesizing information from courses throughout the physical therapy curriculum to allow integration and problem solving skills that enables students to better make the transition from students to competent practicing physical therapists.

Focuses on the relationship of structure and function to the development of movement skills from birth through adolescence. Second of two courses.

 Applies teaching and learning theories as they apply to physical therapy education of patients, students, health professionals and community. Methods of evaluating instruction, content, strategies and learners are included.

Course specializes in teaching advanced orthopedic manual physical therapy techniques. Designed to follow the Guide to Physical Therapist Practice. Laboratory sessions include skill development for safe, effective use of manual therapy techniques, including mobilizations and manipulations. Prerequisite: departmental consent.

PT 932. PT Sports Orthopedics (2).
Introduces the student to the basic foundation of sports physical therapy. Includes education related to assessment and treatment of sports related injuries, emergency care, and musculoskeletal conditions, skin conditions, environmental conditions and use of protective equipment. Designed for individuals ultimately seeking specialization
in the area of sports physical therapy and eventually working toward ABPTS—Sports PT Section Advanced Clinical Competencies.

PT 933. Advances in Orthotics (1).
Introduces the student to the rationale and the clinical application of a variety of treatment approaches for patients with hand or foot pathology. Splint fabrication and application for the upper extremity are covered. Lower extremity orthotics prescription, ordering, fabrication and fitting are covered.

PT 934. PT Advanced Strength and Conditioning in the Athletic Population (2).
Introduces the student to the basic foundation of strength and conditioning principles. Includes education related to assessment of strength and power in the athletic population, adaptations to such training, and program design for this specialized population. Designed for physical therapists ultimately seeking specialization in the area of athletic strength and conditioning, with goals of pursuing certification in Olympic weightlifting and/or as a certified strength and conditioning specialist.

PT 941. PT Program Planning, Implementation and Evaluation I (2).
Students develop a service learning or clinical program with five primary components: needs analysis, program proposal, marketing, delivery and assessment.

PT 942. PT Program Planning, Implementation and Evaluation II (2).
Students continue to develop a service learning or clinical program with five primary components: needs analysis, program proposal, marketing, delivery and assessment.

PT 943. Practice Management (2).
Designed for the student whose goals are to manage a therapy department and/or start a private practice. Familiarizes students with assessing the marketplace, developing policies and procedures for the department/practice, planning and designing a facility, hiring personnel and other staffing considerations, marketing the department/practice, budgeting, knowing requirements necessary to meet local, state and federal regulations, and developing a business plan. The student partners with an appropriate mentor.

PT 951. Evidence-Based Practice (1).
Focuses on the use of current best evidence from clinical care research in the management of patients. Students gain knowledge of how to understand and appraise evidence from research.

PT 953. Clinical Education II (10).
First in a series of three 10-week courses offering continued development of clinical management of patients in varied clinical settings. Includes managerial aspects of care, teaching and some opportunities for clinical research.

PT 954. Clinical Education III (10).
Second in a series of three 10-week courses offering continued development of clinical management of patients in varied clinical settings. Includes managerial aspects of care, teaching and some opportunities for clinical research.

PT 955. Clinical Education IV (10).
Last in a series of three 10-week courses offering continued development of clinical management of patients in varied clinical settings. Includes managerial aspects of care, teaching and some opportunities for clinical research.

PT 961. Women’s Health Physical Therapy (2).
Introductory course in the study of anatomy, diagnosis and treatment of topics in women’s health physical therapy. Topics include evaluation and treatment techniques for obstetrical and postpartum clients, urinary and fecal incontinence, chronic pelvic pain, osteoporosis and female athlete considerations.

PT 975. Diagnostic Imaging for the Physical Therapist (1).
Normal and abnormal radiographic findings in the spine and extremities are covered. Cinemaradiography, functional radiographs, MRI, CT-Scan and tomography are studied. A variety of pathologies affecting the practice of physical therapy are identified. Radiographic findings are correlated to common surgical procedures seen by the physical therapist. Radiographic findings as well as physical findings that require prompt referral to other disciplines within the health care team are also addressed.

PT 980. Licensure Exam Review (1).
Students review and apply knowledge and skills learned in preceding academic semesters and clinical education experiences, learn test taking strategies, and develop a comprehensive study plan to assist them in preparing for the National Physical Therapy Examination.

PT 990. Clinical Conference I (1).
Forum for discussion of a clinical case presented by a group of students. Facilitates application and integration of didactic information from the classroom into clinical practice by expanding clinical problem solving through examination of clinical cases. A formal presentation covering selected background information is followed by a presentation of the case. Ideally, research supporting the reliability/validity of evaluation tools and efficacy of treatment is presented as well. Designed to afford students the opportunity to work as a team to present clinical cases to their peers and faculty.

RE - Real Estate

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

RE 611. Real Estate Finance (3).
Cross-listed as FIN 611. Covers the institutions and instruments used to finance residential and commercial properties, and provides essential knowledge and skills for students who are interested in careers as commercial bankers, mortgage bankers or analysts or investors in mortgage-related securities. Topics include fixed-rate and alternative mortgage instruments, financial analysis and decision making, residential mortgage underwriting, mortgage market regulations, primary and secondary mortgage market structure and institutions, and mortgage-backed securities. Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

RE 614. Real Estate Appraisal (3).
Provides in-depth coverage of the methods used to estimate the value of residential and commercial properties. Students learn about the sales-comparison, cost and income-capitalization approaches for appraising real estate. (Note: non Barton School students do not need special permission to enroll in this course.) Prerequisite: junior standing.

RE 618. Real Estate Investment Analysis (3).
Cross-listed as FIN 618. Covers the tools and techniques used to evaluate the financial profitability of real estate investments, as well as real estate decisions affecting businesses. Students learn about pro forma and discounted cash flow analysis of real estate, the effects of leverage on real estate investments, Federal tax treatment of real estate investments, and disposition and renovation decisions. In addition, topics such as lease-versus-own analysis, sale-leasebacks and other corporate real estate issues are discussed. Prior enrollment in RE 310 recommended for students with a declared emphasis in real estate.
Prerequisites: FIN 340 with a grade of C+ (2.300) or better, junior standing, advanced standing.

RE 619. Urban Land Development (3).
A hands-on course focusing on the challenges and opportunities associated with real estate development projects. Class time is devoted to analyses of actual development projects, with numerous guest lecturers and field trips. Topics covered include market and feasibility analysis, site selection, development financing, ownership structures and marketing strategies. (Note: non-Barton School students do not need special permission to enroll in this course.) Prerequisites: junior standing and RE 310, or admission into either the Master of Public Administration or Master of Business Administration program; students with a declared emphasis in real estate are strongly recommended to take as many other real estate classes as possible before taking RE 619.

RE 690. Seminar in Selected Topics (1-5).
Repeatable with departmental consent. Prerequisites: junior standing, advanced standing.

RE 709. Urban Economics (3).
Cross-listed as ECON 709 and PADM 709. A survey of the economic structure and problems of urban areas on both the microeconomic and macroeconomic levels. Stress the application of regional economic analysis in the study of urban areas as economic regions. Prerequisites: for undergraduate students, ECON 201 and 202, junior standing; for graduate students, the equivalent of ECON 201, 202.

RE 750. Workshop in Real Estate (1-4).
Prerequisite: junior standing.

RE 890. Seminar in Special Topics (1-3).
Repeatable with departmental consent.

RE 891. Directed Studies (1-5).
Prerequisite: departmental consent.

REL - Religion
Although there is no graduate program in religion, the following courses may be taken for graduate credit.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

REL 542. Religion in America (3).
Cross-listed as HIST 542. Surveys various religious traditions in American history from Colonial times to the present. Discusses how religions, groups, beliefs and issues have changed over time and how they interact with each other. Includes the different branches of Christianity and Judaism, the study of awakenings and revivals, the stories of prominent religious thinkers and leaders, immigrant religious traditions, the tensions between liberal and traditional religious forms, the prophetic and apocalyptic traditions in American, and the impact of Native American, Asian and African beliefs and practices on the religious landscape.

REL 780. Special Topics in Religion (1-3).
Intensive study of topic(s) in religion. Discussion, reports and research projects. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

REL 790. Independent Study (1-3).
For the student who is capable of doing graduate work in a specialized area of the study of religion not formally offered by the department. Repeatable for credit. Prerequisite: departmental consent.

RUSS - Russian
Although a complete graduate program is not currently available in Russian, the following courses may apply toward a master's degree.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

RUSS 505. Russian Phonology (2).
Cross-listed as LING 505B. Corrective pronunciation and auditory perception for non-native speakers of Russian. Includes articulatory phonetics, phonemics and morphophonemics, as well as the study and production of intonation contours (intonatsionnye konstruktsii). Prerequisite: any 200-level course or instructor's consent.

RUSS 515. Special Studies In Russian (1-3).
Advanced reading and translation in Russian social sciences, literature and civilization. Repeatable for credit. Prerequisite: departmental consent.

RUSS 540. Russian Literature in English (3).
General education advanced issues and perspectives course. Survey course in representative Russian literature (prose) of the 19th century, of the Soviet (socialist realism) or post-Soviet period, or of a particular author. The survey of 19th century Russian literature typically includes major prose works of Pushkin, Lermontov, Gogol, Goncharov, Turgenev, minor prose works of Tolstoy and Dostoevsky, and the more popular plays of Chekhov. Emphasis on Russian and European history, historiography and intellectual movements, as well as fundamental concepts of general literary analysis and criticism. No knowledge of Russian is required, although some is desirable. Prerequisite: departmental consent.

SCWK - Social Work
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

SCWK 521. Forensic Social Work (3).
Cross-listed as CJ 521. Introduction to and overview of the field of forensic social work. Course content focuses on the role of social workers in forensic arenas, and the issues related to recent practice trends, relevant theoretical frameworks, collaborative team roles, and multisystem interactions. Psychosocial and legal issues are explored, with particular focus on intersections with family and social services, education, child welfare, mental health, substance abuse, criminal justice, diversity and human rights. Prerequisite: 6 hours of social sciences.

SCWK 531. Social Work Practice in Addictions (3).
Prepares students for social work practice in the field of substance abuse and to intervene effectively when working in other areas where addictions are a concern. Includes content on the epidemiology of alcoholism and drug addiction, intervention approaches and prevention, public policy toward the regulation of drugs and their consequences, and the treatment of chemical dependency among special populations. Included in the curriculum to fulfill requirements for the Licensed Addiction Counselor (LAC) with the Behavioral Sciences Regulatory Board (BSRB). The program requires an addiction treatment focused practicum. Interested students should be advised by the social work adviser assigned to this program. Replaces SCWK 610V effective fall 2013.
SCWK 532. Pharmacology and Drug Classification in Social Work (3).
Prepares students for social work practice in the field of substance abuse and to intervene effectively when working in other areas where addiction may be a concern. It includes psychological, physiological and sociological effects of mood altering substances and behaviors and their implications for the addiction process. An emphasis on pharmacological effects of tolerance, dependency/withdrawal, cross addiction and drug addiction are covered. Understanding common patterns and causes of drug use among subcultures of diverse populations is included. Included in the curriculum to fulfill requirements for the Licensed Addiction Counselor (LAC) with the Behavioral Sciences Regulatory Board (BSRB). The program requires an addiction treatment focused practicum. Interested students should be advised by the social work adviser assigned to this program.

SCWK 541. Women & Poverty (3).
General education advanced issues and perspectives course. Cross-listed as WOMS 541. Addresses the problem of poverty among women in the U.S. today, and examines existing and proposed public policies designed to alleviate the problem. Explores theoretical models of poverty policy analysis and the role of values in their formulation and implementation. Discussed issues of age, race and family; special attention is given to poverty among Kansas families. Course includes diversity content. Prerequisite: 6 hours of social science.

Introduces the student to international social work and social welfare policy. Provides an overview of micro and macro practice outside of one's own culture and internationally that facilitates skill development in cross-cultural assessment and intervention at the individual, group and community levels. It includes a history of international social work, community and social development. Course examines social problems, policies, programs, services, and national and multinational responses as well as current trends in the global community.

SCWK 551. Independent Studies (1-3).
Individual projects for social work students who are capable of doing independent work in areas of special interest. Repeatable for credit not to exceed 6 hours. Prerequisite: instructor's consent.

SCWK 559. Successful Aging: Theory, Research & Practice (3).
Cross-listed as AGE 559, PSY 559 and SOC 559. Reviews current interventions which promote successful aging. Theoretical bases of this work in biomedical and life span/developmental psychology are featured. Intended for students in the College of Health Professions, Liberal Arts & Sciences and Engineering. Course includes diversity content. Prerequisite: AGE 100, or PSY 111, or SCWK 201, or SOC 111.

SCWK 571. Contemporary Issues and Perspectives: LGBTQ (3).
General education advanced issues and perspectives course. Cross-listed as WOMS 571. Explores contemporary issues within the lesbian, gay, bisexual, transgender and queer communities. Explores personal attitudes regarding the social context for LGBTQ persons as well as other issues which have emerged as matters of concern and celebration with LGBTQ individuals and communities. Empowerment principles are employed and used to highlight a positive and affirming framework of the LGBTQ community. Students acquire basic skills in understanding issues of diversity and other contemporary conditions of life and culture. Course includes diversity content.

SCWK 572. Social Work Practice with Families of Diverse Cultures (3).
Designed to introduce students to the global context of working with grandfamilies. Provides students with a working knowledge of the elements of diversity when working with grandfamilies (i.e. families where a grandparent(s) is raising their grandchildren). Course enhances students' knowledge, skills and ethics to contribute to more effective work with grandfamilies in general. Course includes diversity content.

SCWK 590. Domestic Violence (3).
Cross-listed as WOMS 580J and CJ 522. Deals with the roots of domestic violence embedded in family roles, legal systems, religious beliefs, and the psychology of women, children and men. Also covers the consequences and prevention of family abuse. Includes discussion of literature and films. Course includes diversity content.

SCWK 591. Sexual Assault Issues (1).
Cross-listed as WOMS 591. Explores the cultural myths and stereotypes about sexual assault, the legal system, methods of self-protection, community resources providing help for victims, and other related issues. Primary focus is on education to not only prevent, but eradicate sexual assault. Course includes diversity content. Repeatable for credit.

SCWK 610. Topics In Social Work (1-3).
Selected topics in practice, policy, research and human behavior in the social environment within a selected field of social welfare. Covers specific topics identified by the program in consultation with majors, groups of community practitioners, and area service institutions. Repeatable. Prerequisite: instructor's or program consent.

SCWK 611. Special Topics in Social Work (1-3).
Special topics in practice, policy, research and human behavior in the social environment within a selected field of social welfare. Covers specific topics identified by the program in consultation with majors, groups of community practitioners, and area service institutions. Repeatable. Prerequisite: instructor's or program consent.

SCWK 611K. Social Work & Entrepreneurship (1-3).
Introductive course seeks to expand student awareness about the role of social workers as entrepreneurs within the nonprofit and for-profit environments. Examines nonprofit practices of economic empowerment and nonprofit enterprise. Presents opportunities for the social work profession to engage in entrepreneurial practices, including business plan development and grant writing. The contemporary landscape of social entrepreneurship & innovation is covered where new business models are focusing on social responsibilities.

SCWK 611Q. Social Work in Sports (3).
Cross-listed as CLES 750V. Explores the role of social work practice in serving the holistic needs of an athlete while understanding their involvement in the culture of sport. Explores the vulnerabilities and resiliencies of individuals who participate in youth, secondary, collegiate and professional sports. Provides a foundation for professionals interested in social work practice in sporting environments and begins to prepare social workers to assist athletes at all levels and in various settings.

SCWK 611R. Hip Hop & Social Justice (3).
Helps students move beyond the traditional classroom pedagogy and experience an inclusive and culturally competent approach to learning, synthesizing, and ultimately engaging in action. Critical evaluation occurs under the broad Hip Hop umbrella and involve music, literature, speech/language, culture, politics, stories and experiences as modes of expression. Ultimately creates an understanding of Hip Hop as a world view, a culture, and a part of the story of diversity.

SCWK 611S. Understanding Contemporary State Insurance Resources (1).
Designed to introduce students to Medicaid in Kansas. Specific programs are defined and eligibility criteria presented. Current programs offering services to persons with physical disabilities, intellectual and developmental disabilities, autism, etc. are discussed. In addition, the course delves into ways current programs and services are
impacted by a variety of factors. Participants are introduced to tools to prepare them in roles where they may assist consumers with Medicaid application completion, grievance/appeal processes as well as accessing services for eligible clients. Other areas of study include: a comparison of Medicare and Medicaid, an overview of client money obligations, value-added service options, and nursing home care/alternatives.

SCWK 611T. Creative Techniques and Skills in Practice with Adolescent Girls (1-3).
Introduces the techniques and practice of interpersonal skills with adolescent girls. Focuses on development of skills and knowledge to better work with this population, in a manner that acknowledges and addresses the risks and strengths of adolescent girls. Course is didactic as well as interactive and includes experiential learning.

SCWK 700. Foundations of Generalist Practice I (3).
Provides foundation content in the knowledge and skills for empowerment-based generalist social work practice with individuals, families, groups, organizations, and communities. Includes professional role development, communication and interviewing theory, skill development in social work assessment, intervention and evaluation methods. Prerequisite: degree admission to MSW program. Corequisite: SCWK 720.

SCWK 702. Foundations of Generalist Practice II (3).
Provides continued social work practice foundation content emphasizing developing generalist knowledge and skill at the group, organizational, community and societal levels. Emphasizes material on group process, and organizational and community leadership in the development of a problem-solving model for work with systems of all sizes. Prerequisites: SCWK 700, degree admission to MSW program. Corequisite: SCWK 721.

SCWK 710. Micro Human Behavior and the Social Environment (3).
Provides theories and knowledge of human bio-psycho-social development and functioning of individuals and families, and of the transaction between individuals and families and their environment. Presents theoretical perspectives on development over the life span and family functioning. Explores areas of universality and differences across gender, race, ethnicity, class, physical and mental ability, and sexual orientation. Prerequisite: degree admission to MSW program. Corequisite: SCWK 717.

SCWK 712. Macro Human Behavior and the Social Environment (3).
Provides theories and content on organizational and community structure, dynamics and change, social movements, large groups and structural oppression, and provides a theory base for the contextualization of social work practice within diverse environments and macro systems. Emphasizes understanding the needs of minority communities and understanding change and empowerment strategies which further social justice in communities and organizations. Prerequisites: SCWK 710, degree admission to MSW program. Corequisite: SCWK 751.

Surveys social welfare institutions, emphasizing the strengths and weaknesses of programs within the context of the social problems they address. The comparison of these structures and provisions enables the development and use of frameworks for analyzing social policies and evaluating programs in light of the mission of the social work profession, the principles of social and economic justice, and the historical, economic and political factors which impinge on policy. Content on the effects of policy and social work practice includes the uses of professional roles in shaping the processes of policy formulation in agency and governmental arenas. Prerequisite: degree admission to the MSW program. Corequisite: SCWK 710.

SCWK 720. Field Practicum I (4).
Placement in community social service agencies for supervised periods of observation and direct service assignments emphasizing development of basic practice knowledge and skills. Promotes an understanding of the social service agency and its role in the community service network. Corequisite: SCWK 700.

SCWK 721. Field Practicum II (4).
Requires placement in community social service agencies for supervised periods of observation and direct service assignments emphasizing development of basic practice knowledge and skills. Promotes an understanding of the social service agency and its role in the community service network. Corequisite: SCWK 702.

SCWK 730. Graduate Topics in Social Work (1-3).
Specialized instruction using a variable format in a social work relevant subject. Repeatable.

SCWK 731. Social Work & The Law (3).
Students develop an integrated, advanced generalist framework for interdisciplinary, advanced generalist practice within a legal setting. Students develop a basic knowledge of the law, the roles social workers play within the legal system, and the issue of crime and social justice with respect to race and ethnicity. Students develop an understanding of how the law shapes and regulates social work practice and the actions of social workers and their clients alike. As legal and social problems are often interdependent, students develop skill in communicating with attorneys to enhance their effectiveness in resolving clients’ problems.

SCWK 750. Social Work Workshops (2-5).
Selected topics in practice, policy, research and human behavior in the social environment within a selected field of social welfare. Covers specific topics identified by the program in consultation with majors, groups of community practitioners and area service institutions. Repeatable for up to a total of 6 hours of credit.

SCWK 751. Fundamentals of Social Work Research (3).
Introduces students to the components of quantitative and qualitative research methods and describes how research is designed to conduct studies which seek to improve social work practice. Introduces the basic concepts of the social work research process as well as the methods that are employed. Students develop a framework for critically evaluating (1) methods employed in current social work research, and (2) potential benefits of applying these research findings to social work practice. Prerequisite: degree admission to the MSW program. Corequisite: SCWK 712.

SCWK 760. Advanced Generalist Practice Seminar I (1).
Builds on the graduate social work student’s knowledge, experience and skills by integrating social work theory, values, ethics, methodology and literature. It is based in the generalist perspective and prepares students for the advanced generalist practice curriculum. This course is a prerequisite to all 800-level MSW core courses and must be completed in the summer before beginning the advanced generalist 800-level courses. Prerequisite: degree admission to the MSW program.

SCWK 799. Directed Study (1-3).
Individual study with a focus developed in collaboration with a departmental faculty member. Allows students to pursue an area of special interest. Repeatable for up to 6 credit hours. Prerequisite: departmental consent.

SCWK 800. Thesis (1-3).
The thesis preparation.
SCWK 810. Cultural Competency for Advanced Generalist Practice (3).
Examines the impact of culture, race and ethnicity on client/worker interactions. Presents practice theories and interventions for culturally competent advanced generalist practice with different populations. Emphasizes experiential learning of cultural competency skills to provide services cross-culturally. Prerequisites: SCWK 760 and degree admission to the MSW program.

SCWK 816. Advanced Generalist Practice With Individuals (3).
Develops the advanced generalist practice competencies needed for intervention with individual clients. Evidence-based theories and practice intervention strategies are applied. Advanced generalist practice skills in work with clients from diverse backgrounds are developed, and critical thinking skills are enhanced in developing an advanced generalist practice perspective integrating individual clients with larger social systems. Prerequisites: SCWK 760, degree admission to the MSW program. Corequisites: SCWK 822, 851.

SCWK 817. Policy II: Advocacy and Social Justice (3).
Provides students with advanced generalist skills, knowledge and ethics for advanced policy practice roles within social agencies, communities and political arenas. Examines the history, strategies and approaches to advocacy and policy/program planning and development. Students demonstrate advanced skills in working with communities and policy processes on multiple levels. Prerequisites: SCWK 760, degree admission to the MSW program. Corequisite: SCWK 833.

SCWK 821. Advanced Generalist Summer Practicum Seminar (1-3).
Requires placement in a community social service agency for supervised periods applying direct and indirect practice. Provides students the opportunity to integrate and apply advanced generalist practice theory within their field experience. Students are required to demonstrate increased knowledge and skills in practice, research and evaluation across multi-level systems. Requires up to 100 hours of practicum service during the summer semester. Course counts as 1 credit hour toward required MSW program electives. Prerequisite: SCWK 760 and approval by practicum office.

SCWK 822. Field Practicum III (4).
Placement in community social service agencies for supervised periods applying direct and indirect practice. Provides students the opportunity to integrate and apply advanced generalist practice theory within their field experience. Students are required to demonstrate increased knowledge and skills in practice, research and evaluation across multi-level systems. Requires 350 hours of agency service. Prerequisites: SCWK 760, degree admission to the MSW program. Corequisites: SCWK 816, 851.

SCWK 823. Field Practicum IV (4).
Continuation of SCWK 822. Requires 350 hours of agency service. Prerequisites: SCWK 760, 822, degree admission to the MSW program. Corequisites: SCWK 860, 899.

SCWK 832. Social Work Practice in the Schools (3).
Conveys an understanding of systematic intervention in schools using various intervention modalities. Focuses on the roles of social workers in schools, including provision of direct service, consultation, advocacy, program development and evaluation, as well as liaison functions with families and community systems. Students integrate an understanding of child development, familial and school crises that affect child development and the importance of the social worker/parent relationship. For graduate students only.

SCWK 833. Advanced Generalist Practice with Families and Groups (3).
Develops the advanced generalist practice competencies needed for intervention with families and groups. Evidence-based theories and practice intervention strategies are applied. Advanced generalist practice skills in work with families and groups from diverse backgrounds are developed, and critical thinking skills are enhanced in developing an advanced generalist practice perspective integrating families and group client systems with larger social systems. Prerequisites: SCWK 760, degree admission to the MSW program. Corequisite: SCWK 817.

SCWK 840. Advanced Graduate Topics in Social Work (1-3).
Specialized instruction using a variable format in an advanced social work relevant subject. Repeatable.

SCWK 840P. Social Work Practice using Biofeedback (3).
Introduction to the use of biofeedback and neurofeedback. Covers the history of biofeedback, overview of learning theories, research methods, and stress and bio-psycho-social models of stress and illness. Covers the principles of self-regulation, mind-body interaction, the basics of instrumentation and treatment applications, and professional ethical conduct in the helping professions.

SCWK 840Q. Mindfulness and Physical Activity (1-3).
Explores the use of mindfulness and physical activities in social work practice. Students learn about the importance of using mindfulness and physical activity to promote self care as well as client care. Explores mindfulness and physical activity from a holistic approach which includes the intersection of mind, body, and spirit through a variety of mental and physical exercises which can be incorporated in individual and group practices.

SCWK 840R. Attachment & Trauma (3).
Provides a thorough review of theories of attachment as well as the background research of the prominent minds behind them. The core elements of the three primary theories of attachment; secure, anxious and avoidant are more deeply explored. Additionally, the effects of trauma on attachment at the micro, mezzo and macro level are addressed, and possible interventions at each level explored.

Prepares students to be ethical practitioners who assess the benefits of social work interventions on an ongoing basis. Because of the importance of evaluation in social work, students develop the research skills needed to evaluate their own practice, conduct program evaluations, use the computer as a research tool, and interpret descriptive and inferential statistics. Prerequisites: SCWK 760, degree admission to the MSW program. Corequisites: SCWK 816, 822.

SCWK 860. Advanced Generalist Practice Administering Organizations and Communities (3).
Develops the advanced generalist practice competencies needed for administrative and supervisory intervention with organizations and communities. Evidence-based theories and practice intervention strategies are applied. Provides advanced generalist practice skills in administrating, leading and managing organizations, and intervening with diverse communities. Prerequisites: SCWK 760, 816, degree admission to the MSW program. Corequisites: SCWK 823, 899.

SCWK 870. Clinical Assessment for Advanced Generalist Practice (3).
Uses a bio-psycho-social perspective to understand problematic patterns of functioning identified as diagnoses in the DSM 5. Students critically examine the DSM 5 as a basis for social work assessment and learn its use within an advanced generalist practice perspective. Prerequisite: program consent.
SCWK 899. Advanced Generalist Practice Seminar II (1).
Requires students to apply advanced generalist practice skills and knowledge to a final project. The project demonstrates mastery of the competencies required of an advanced generalist practitioner. Graduating students are required to develop and present their completed projects in a public forum. Prerequisites: SCWK 760, degree admission to the MSW program. Corequisites: SCWK 823, 860.

SMGT - Sport Management

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

SMGT 511. Selling in the Sport Industry (3).
Examines both the theory and the practical application of sales and promotions in the sports industry. Students learn a process for sales and use that process in a real-life sales exercise. Students are introduced to methods of sales management. The class conducts sales projects for local sports organizations for practical experience and application of theory.

SMGT 520. Sport Tournament and Event Management (3).
Examines the processes, methods and practices involved in sport event management, including sport tournaments, sports team events and individual sporting events. Students completing this class should feel prepared to initiate and execute a sport event on their own. Prerequisite: SMGT 112 or graduate standing.

SMGT 525. Sport Facility Management (3).
Focuses on various aspects of facility management, such as mission development, funding and budget, site selection/planning/design, floor surfaces, risk management, equipment purchase and maintenance, and personnel management. Prerequisite: SMGT 112 or graduate standing.

SMGT 540. Business Analytics in Sport (3).
Integrates the knowledge base of sport and business as it applies in the practical setting. Prerequisites: 2.000 GPA, junior, senior or graduate standing.

SMGT 545. Sport Governance & Policy (3).
Discusses the fundamental aspects of management and administration within any sport-related organization. Students are exposed to key industry concepts such as strategic management, ethics and event planning activities, in addition to governance and policy related topics such as scholastic, intercollegiate and amateur sport.

SMGT 547B. Internship in Sport Administration (6-12).
Second internship experience for students in sport administration; takes place in a different setting than KSS 547A. Students spend the equivalent of full-time employment in the appropriate agency for a total of at least 640 hours. Prerequisites: KSS 547A, 2.500 GPA overall and for major, senior standing in College of Education, advisor's approval.

SMGT 552. Study Abroad in Global Sport Industry (3).
Introduces students to global sport management principles and provides firsthand experience in international sport events or organizations through a study abroad opportunity. Addresses ethics, marketing, sponsorship, event management, business and financial topics as well as challenges and issues in the global sport industry. Course includes diversity content. Prerequisite: 18 years of age or older.

SMGT 590. Independent Study (1-3).
Prerequisite: departmental consent.

SMGT 711. Structuring and Scheduling Sports Tournaments (3).
The structural design, scheduling processes, and mathematics of sport tournaments, elimination, placement and round robin formats.

SMGT 750C. Sport Consumer Research (3).
This course investigates the decision making process of sport consumers. Focuses on the scientific research and practical case studies that illuminates the psychological processes underlying consumer behavior, with specific focus on spectator and participant based sport, tourism, and recreation activities.

SMGT 750D. Sociology of Coaching (3).
The purpose of the course is to provide an exhaustive examination of the role, purpose, and impact of sport coaches on all levels of sport. Students will use sociological concepts to explain coaching dynamics within and outside the realm of sport.

SMGT 750E. Marketing in Sport Industry (3).
This course focuses on the application of marketing principles in a sport-related setting. Specifically, the course will address content areas such as corporate sponsorships, ticket sales, broadcast agreements, promotional events, and direct marketing in the sport entertainment, sport participation and sporting goods sectors of the industry.

SMGT 750F. Financial Dimens of Sport Mgmt (3).
This course is designed to provide the prospective sport manager with an overview of the major financial issues concerning the sport industry. The concepts of resource acquisition and financial management will be examined and applied to the problems faced by sport and leisure organizations today, primarily at the college and professional levels, with some attention to commercial recreational enterprises.

SMGT 750G. Public Relations in Sport Mgmt (3).
A sport organization’s success is largely dependent on the degree to which it can effectively communicate with key constituents. This class addresses topics pertaining to organizational communication, including public relations management, image, media relations and community relations.

SMGT 750L. Sociocult Dimens of Sport Mgmt (3).
A basic understanding of the developments, trends, and social processes explaining the popular sporting and physical activity experiences within the sport management industry.

SMGT 750J. Technology in the Sports Industry (3).
Students in this course will gain a greater appreciation for applications of current technology in the area of sport management including but not limited to: the fundamentals of computers and their use, the application of commercial software to the sport management setting, and ethical issues sport managers face in using computers to conduct research and work with various social media platforms in sport settings.

SMGT 750K. Building Sport Franchises (3).
Introduces the sport management student to financial challenges, financial planning and related issues within professional sport organizations.

SMGT 750L. Personnel Management in Sport (3).
Initial introduction into the administration of sport in public schools, institutions of higher education, and commercial and professional sport organizations. Learn about the various components of sports administration by reading appropriate materials and entering into dialogue with practicing administrators.

SMGT 750N. Social Psychological Foundations of Sport (3).
Examines relevant psychological and sociological concepts that explain individual, community and cultural patterns of sport, exercise and physical activity participation.

SMGT 777. Legal Issues in the Profession II (3).
Provides students with the knowledge, understanding and application of how the following legal issues influence the sport industry. Specific content includes: agency law, collective bargaining, labor and antitrust law, criminal law, intellectual property rights, product liability
and sport governance. In addition to the above content knowledge and application, case studies and class discussions focus on the enhancement of problem-solving skills and prudent managerial decision making.

SMGT 781. Cooperative Education (1-3).
Provides the graduate student with a field placement which integrates theory with a planned and supervised professional experience designed to complement and enhance the student's academic program. Individualized programs must be formulated in consultation with appropriate graduate faculty. The plan of study for a graduate degree-bound student must be filed before approval of enrollment for cooperative education graduate credit. May be repeated for credit. A maximum of 3 hours (for nonthesis option) or 6 hours (for thesis option) may count toward the graduate degree. Graded Cr/NCr.

SMGT 800. Analytics and Decision-Making In Sport (3).
Highlights various data application in sport management as a professional tool to make informed decisions. Topics include understanding how to collect, interpret, represent and disseminate data in an organizational setting, and to better understand how data informs decision-making processes within sport.

SMGT 801. Management In Sport (3).
Initial introduction into the administration of sport in public schools, institutions of higher education, and commercial and professional sport organizations. Learn about the various components of sports administration by reading appropriate materials and entering into dialogue with practicing administrators.

SMGT 802. Ethics in Sport (3).
Designed to give students an understanding of the various issues and concepts relating to ethical decision making in sport management settings. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership.

SMGT 803. Sport Marketing (3).
Focuses on the application of marketing principles in a sport-related setting. Addresses such content areas as corporate sponsorships, ticket sales, broadcast agreements, promotional events, and direct marketing in the sport entertainment, sport participation and sporting goods sectors of the industry.

SMGT 809. Sport Management Technology (3).
Students gain a greater appreciation for applications of current technology in the area of sport management including but not limited to: the fundamentals of computers and their use, the application of commercial software to the sport management setting, and ethical issues sport managers face in using computers to conduct research and work with various social media platforms in sport settings.

SMGT 810. Applied Leadership In Sport and Physical Activity (3).
Experiential learning with focus on applying leadership principles and activities in sport, recreation, physical activity and entertainment industries. Course includes diversity content. Repeatable for credit.

SMGT 811. Sport In Society (3).
Addresses the impact of sports on American culture, with focus on competition, economics, mythology, education, religion, ethics, professional sports, sports and minorities.

SMGT 818. Psychology of Sport (3).
An in-depth analysis of the psychology of motor learning and its implications for the teacher/coach.

SMGT 822. Communication in Sport (3).
A sport organization's success is largely dependent on the degree to which it can effectively communicate with key constituents. Addresses a variety of communication-related topics, including public relations management, image, media relations and community relations.

SMGT 828. Financial Management in Sport (3).
Designed to provide the prospective sport manager with an overview of the major financial issues concerning the sport industry. The concepts of resource acquisition and financial management are examined and applied to the problems faced by sport and leisure organizations today, primarily at the college and professional levels, with some attention to commercial recreational enterprises.

SMGT 835. Legal Issues in the Profession I (3).
Provides students with the knowledge, understanding and application of how the following legal issues influence the sport industry. Specific content includes: the legal system, legal research, statutory law, risk management, tort law (negligence and intentional torts), contracts, alternative dispute resolution, and employment-related issues within the sport industry. In addition to the above content knowledge and application, case studies and class discussion focus on the enhancement of problem-solving skills and prudent managerial decision making. Prerequisites: admission to the MEd in sport management program or instructor's consent.

SMGT 847. Internship (1-12).
Internship in selected areas of specialization in sport management. Prerequisite: departmental consent.

SMGT 890. Special Topics (1-4).
Directed reading and research under supervision of a graduate instructor. Prerequisite: departmental consent.

SOC - Sociology

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

SOC 501. Sociological Statistics (3).
Application of descriptive and inferential statistics to sociological problems. Includes computer experience with statistical software. Prerequisites: SOC 111, SOC 312 or concurrent enrollment, and MATH 111.

An applied study of the conceptual tools and methodological skills needed to conduct quantitative sociological research. Prerequisites: SOC 111, 312, 501.

SOC 512L. Measurement & Analysis Lab (0).
The lab component of the SOC 512 course covers learning how to use the statistical software program SPSS and working on projects as part of the applied study of the conceptual tools and methodological skills needed to conduct quantitative sociological research.

SOC 515. Family Diversity (3).
General education advanced further study course. Analyzes the varieties of family forms in the U.S. with particular emphasis on the intersection of gender, race/ethnicity, social class and sexual orientation. Attention is given to the reciprocal effects of families and their social environments and the impact of public policies on families. Course includes diversity content. Prerequisite: SOC 111.

SOC 516. Sociology of Gender (3).
General education advanced further study course. Cross-listed as WOMS 516. Focuses on historic and current gender issues within a national and global context. Students explore both the individual and structural-level factors that influence the experience of "doing gender"
within a variety of social institutions including potential avenues for change and collective action. *Course includes diversity content.*

**SOC 517. Intimate Relations (3).**
Examines the social dimensions of intimacy including an analysis of intimacy in different types of relationships, i.e., romantic, friendship, marriage. Reviews theory and research in the area with a special focus on the place of intimacy in social interaction. *Course includes diversity content.* Prerequisite: SOC 111.

**SOC 520. Family & Aging (3).**
Cross-listed as AGE 520. Analyzes the families and family systems of older people. Emphasizes demographic and historical changes, caregiving, and intergenerational exchanges and relationships. *Course includes diversity content.* Prerequisite: SOC 111 or AGE 100 or junior standing.

**SOC 528. Schools and Society (3).**
*General education advanced further study course.* Introduction to sociological perspectives on the purpose of schools and their connection to the larger society. Uses key sociological concepts, theories and methods to go beyond individual experiences and explore the educational system in the context of larger social forces. Examines the multiple functions and goals of education, stratification between schools and within schools, and inequalities of race, social class and gender. Other topics may include family and school relationships, bullying and youth culture, sexuality education, and educational policy issues. *Course includes diversity content.* Prerequisite: SOC 111.

**SOC 534. Urban Sociology (3).**
*General education advanced further study course.* Studies the process of urbanization and its influence on the development of cultural and social structures throughout the world. Also discusses social problems associated with urbanization. *Course includes diversity content.* Prerequisite: SOC 111.

**SOC 537. The Social Consequences of Disability (3).**
An eclectic survey of the social aspects of disability showing the impact of social values, institutions and policies upon adults with disabilities. Appropriate for both students of sociology and the service professions. *Course includes diversity content.* Prerequisite: SOC 111.

**SOC 538. Medical Sociology (3).**
*General education advanced further study course.* Analyzes social and cultural factors related to physical and mental illness. Also includes the dynamics of communication and role relationships among patients and medical personnel and social research and theory relevant to the health professions. *Course includes diversity content.* Prerequisite: SOC 111.

**SOC 539. Juvenile Delinquency (3).**
*General education advanced further study course.* The factors related to juvenile delinquency and the measures of treatment and prevention. Prerequisite: SOC 111.

**SOC 540. Criminology (3).**
The extent and nature of criminal behavior and societal reactions to it. *Course includes diversity content.* Prerequisite: SOC 111.

**SOC 543. Aging & Public Policy (3).**
Cross-listed as AGE 543. Seminar-style course explores the impact of an aging population on social institutions, covers the history of American aging policies, the organization and financing of health care for the elderly, and discusses policy analysis as an evaluation tool for comparing public approaches to responding to the needs of an increasingly diverse aging population. Considers the process of policy formation, identifies key players and interest groups, and contrasts political ideologies regarding federal, state and private responsibilities for older people. The course emphasizes Social Security, the Older Americans Act, Medicare and Medicaid as policy examples. Also looks at the potential contributions of the older population to society (volunteer services, provision of family care, etc.) as affecting and affected by policy. *Course includes diversity content.* Prerequisite: SOC 111 or AGE 100 or junior standing.

**SOC 545. Sociological Theory (3).**
A comprehensive survey of classical sociological theory. Emphasis on theories relevant to the development of sociology. Prerequisite: 9 hours of sociology.

**SOC 559. Successful Aging: Theory, Research & Practice (3).**
Cross-listed as AGE 559, PSY 559, and SCWK 559. Reviews current interventions which promote successful aging. Theoretical bases of this work in biomedical and life span/developmental psychology are featured. Intended for students in the College of Health Professions, Liberal Arts & Sciences and Engineering. *Course includes diversity content.* Prerequisite: AGE 100, or PSY 111, or SCWK 201, or SOC 111.

**SOC 600. Selected Topics in Sociology (3).**
Study in a specialized area of sociology emphasizing student research projects. Includes deviant behavior, political sociology and the family. Repeatable for a maximum of 6 hours credit. Prerequisites: SOC 111, instructor's consent, and substantive area course.

**SOC 651. Directed Research (1-3).**
Gives the student further research skills in an area of special interest. All students are under the direction of a member of the graduate faculty who guides them in developing research skills. Prerequisites: SOC 512 or equivalent and instructor's consent.

**SOC 670. Independent Reading (1-3).**
For the advanced student capable of doing independent work in an area of special interest. Prerequisites: 15 hours of sociology and instructor's consent.

**SOC 750. Sociology Workshop (1-3).**
Provides specialized instruction using a variable format in a sociologically relevant subject.

**SOC 781. Cooperative Education (1-4).**
Provides practical experience, under academic supervision, that complements the student's academic program. Consultation with, and approval by, an appropriate faculty advisor are necessary. With advisor approval, up to 4 hours of cooperative education may count toward graduate degree requirements. Graded Cr/NCr.

**SOC 781N. Sociological Practice Internship (1-3).**
Integrates academic theory with planned professional experience providing students with practical skills training under academic supervision to complement the student’s academic program. Individualized programs must be formulated in consultation with, and approved by, appropriate faculty sponsors as well as the Career Development Center. Repeatable for credit. Graded Cr/NCr.

**SOC 801. Application of Advanced Statistical Techniques (3).**
Seminar demonstrates the application of statistical packages via personal computers to analyze data and interpret the output. Examines statistical tests from univariate to multivariate. Usually offered fall semester only. Prerequisite: SOC 501 or departmental consent.

**SOC 811. Advanced Research: Quantitative Methods (3).**
Seminar course designed to provide graduate students with the conceptual tools and methodological skills needed to conduct quantitative sociological research. Students are introduced to sampling, measurement and data management issues. In addition, students gain experience with statistical software packages using large-scale data sets. Prerequisite: departmental consent.
SOC 812. Advanced Research: Qualitative Methods (3).
Graduate students deepen their understanding of the research process as they are introduced to qualitative methods, methodology and analysis. Students learn to address methodological issues by developing a pilot project requiring them to apply their understanding of qualitative methods, sampling and coding. Through this process, students are prepared to compare the strengths and limitations of quantitative, qualitative and mixed method approaches while becoming critical consumers of qualitative research. Prerequisite: SOC 512 or departmental consent.

SOC 813. Advanced Sociological Perspectives of Aging (3).
Cross-listed as AGE 813. Overview of the significant sociological perspectives, social issues and social science research pertaining to the phenomenon of aging in society. Examines the major theories of social aging, analyzes the changing demographic trends and the political economy issues facing aging societies; describes how the broader societal context affects the nature of family relationships, community involvement, and the experiences of retirement and widowhood among older adults. Examines the current issues in health and social service delivery for care of older adults. Examines a substantive field which includes major social policy as well as personal significance in contemporary life. Course includes diversity content.

SOC 815. Seminar On The Family (3).
Review of recent research on the family and the theoretical implications thereof. Prerequisite: SOC 515 or departmental consent.

SOC 830. Seminar in Stratification and Power Structure (3).
Examines different theoretical and methodological approaches to understanding stratification and class analysis. Prerequisite: departmental consent.

SOC 845. Seminar in Sociological Theory (3).
A comprehensive survey of contemporary sociological theories and their classical roots. Emphasis on theories applicable to students' thesis and nonthesis projects. Generally offered spring semester only. Prerequisite: departmental consent.

SOC 847. Seminar in Recent Developments in Sociology (3).
Major issues, new theories, new techniques of research, new areas of research, and new applications. Repeatable for credit but not to exceed 6 hours. Prerequisites: 15 hours of sociology and departmental consent.

SOC 847C. Seminar in the Sociology of Gender (3).
Explores emerging and ongoing issues, theories, research and practice related to the sociology of gender.

SOC 847D. Seminar in Global Women's Health (3).
Focuses on emerging and ongoing issues, theories, research and practice in regard to women's health globally.

SOC 847E. Seminar in Sociological Media Studies (3).
Focuses on the investigation of Media from a sociological perspective including emerging and ongoing issues, theories, research and practice.

SOC 847F. Advanced Data Management (3).
Review of database designs, modeling and data preparation for analysis and reporting including programming, data management techniques and data imputation. Course is an applied research experience utilizing institutional data and common analytical software.

SOC 847G. Statistical Modeling (3).
Applied course using institutional data to perform statistical modeling for defined student outcomes. Familiarity with regression analysis, data management, SPSS syntax and SQL is required.

SOC 851. Directed Project (1-3).
A project conducted under the supervision of an academic adviser for the nonthesis option. Requires the completion of a written report and an oral presentation of the research to the faculty. Prerequisite: consent of academic adviser.

SOC 860. Proseminar - Sociology (3).
Examines the academic roles of sociologists, the fields of study and types of research. Usually offered fall semester only. Fulfills the university's professional and scholarly integrity training requirement covering research misconduct, publication practices and responsible authorship, conflict of interest and commitment, ethical issues in data acquisition, management, sharing and ownership. Prerequisite: departmental consent.

SOC 870. Independent Reading (1-3).
Advanced systematic reading in a topical area under the tutelage of a member of the graduate faculty. Repeatable for credit not to exceed 6 hours. Prerequisite: departmental consent.

SOC 875. Thesis (1-3).
Thesis preparation.

SOC 876. Thesis (1-3).
Thesis preparation.

SPAN - Spanish
Upper-division courses are given on a rotating basis. SPAN 300 is a prerequisite for all upper-division literature and civilization courses, unless otherwise indicated.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

SPAN 505. Spanish Phonetics (3).
Cross-listed as LING 505C. Includes articulatory phonetics, phonemics, sound/symbol correspondences, dialectal and stylistic variations. Required for future Spanish teachers. Prerequisite: any 200-level course or departmental consent.

SPAN 515A. Major Topics in Spanish (1-4).
Repeatable for credit. Prerequisite: departmental consent.

SPAN 515G. Spanish in the U.S. (3).
Exploration of the structural and social aspects of Spanish in the United States. Examines the history and social context of the use of Spanish in the U.S. and addresses the various Spanish-speaking communities that currently exist here. Studies the Spanish language as it is spoken in the U.S., including phenomena that result from the contact between Spanish and English and dialectical variation. Investigates the social factors that affect language structure and use, and the role of language in the social interactions of U.S. Spanish-speakers. Covers Spanish in education, in the media and in other aspects of public life in the U.S. Taught in Spanish. Prerequisite: SPAN 526 or instructor's consent.

SPAN 520. Literature in Film (3).
Spanish or Latin American literature and its representation in film. Repeatable for credit. Prerequisite: SPAN 300.

SPAN 525. Advanced Spanish Conversation (3).
Provides students the opportunity to further develop aural and oral proficiency through listening, vocabulary building, culturally appropriate communication strategies, skits, presentations and pronunciation practice in an immersion environment. Prerequisite: SPAN 325 or departmental consent.

SPAN 526. Advanced Spanish Grammar and Composition (3).
Prerequisite: SPAN 220 or 221 or departmental consent.

SPAN 531. Survey of Spanish Literature (3).
Main currents of Spanish literature from 1700 to the present. Prerequisite: SPAN 300 or departmental consent.
SPAN 532. Survey of Spanish Literature (3).
Spanish literature from the beginning to 1700. Prerequisite: SPAN 300 or departmental consent.

SPAN 534. Contemporary Spanish Theatre (2-3).
Prerequisite: SPAN 300 or departmental consent.

SPAN 536. Contemporary Spanish Novel (3).
Prerequisite: SPAN 300 or departmental consent.

SPAN 540. Contemporary Spanish Literature in English Translation (3).
Content may vary from semester to semester, including Spanish and/or Latin-American literature. No knowledge of a foreign language is necessary. May be used to satisfy the general education literature requirement and may count toward a Spanish major or minor if readings and papers are done in Spanish and prerequisite of SPAN 300 is met. Repeatable for credit.

SPAN 546. Spanish Language Learning (3).
Introduction to language learning from an applied linguistics perspective: the processes of first and second language acquisition, elements of Spanish grammar that are often difficult for English speakers, and social aspects of language learning. Appropriate for advanced undergraduate students and graduate students. Taught in Spanish. Course includes diversity content. Prerequisite: SPAN 526.

SPAN 547. Spanish in the U.S. (3).
Exploration of the structural and social aspects of Spanish in the United States. Examines the history and social context of the use of Spanish in the U.S. as well as dialectical and contact phenomena in U.S. Spanish. Also covers Spanish in education, in the media and in other aspects of public life in the U.S. Appropriate for advanced undergraduate students and graduate students. Taught in Spanish. Course includes diversity content. Prerequisite: SPAN 526 or departmental consent.

SPAN 552. Business Spanish (3).
Provides the opportunity to learn and practice commercial correspondence, business vocabulary, translation and interpretation of business texts. Prerequisite: SPAN 526.

SPAN 557. Principles of Translation and Interpreting (3).
For students wishing to learn skills and techniques of translation and interpreting in addition to developing vocabulary in different domains of professional Spanish. Course combines readings, discussions and applied practice/hands-on activities. Prerequisite with concurrence: SPAN 526 or departmental consent.

SPAN 558. Advanced Translation and Interpreting (3).
Further study of translation and interpreting of different types of texts for the professional world. Prerequisites: SPAN 526, 557; or departmental consent.

SPAN 620. Survey of Latin-American Literature (3).
Survey of Latin-American literature from pre-Columbian times through the building of new nations, and to the rise of Modernismo at the turn of the 20th century. Prerequisite: SPAN 300 or departmental consent.

SPAN 621. Survey of Contemporary Latin-American Literature (2-3).
Provides students with a chronological and thematic approach to the main currents of Latin-American literature in the 20th and 21st centuries. Provides a critical presentation of major realist, naturalist, avant-garde, boom and postboom authors. Prerequisite: SPAN 300 or departmental consent.

SPAN 622. Special Studies in Spanish (1-4).
Topic for study chosen with aid of instructor. Repeatable for credit. Prerequisite: instructor's consent.

SPAN 623. Seminar In Spanish (2-3).
Seminar in Spanish literature, language or civilization. Repeatable for credit. Prerequisite: SPAN 300.

SPAN 623B. Seminar in Spanish and Latin-American Literature (1-5).
Studies a selection of Latin-American cultural productions (literature and film) to answer two questions: How do criticism, fatality and heroism interrelate with Latin American culture? What can this threefold relationship tell us about the cultural development of Latin America? Latin-American cultural productions are centered in representing a dichotomy; on the one hand, romantic and erotic instincts related to sexual appetites and, on the other, thematic digressionnal, and chaotic energies — pathological desire — that constantly challenge the utopic integration of Latin-American nations.

SPAN 623C. Seminar in Spanish-American Culture (1-5).
Special studies in Spanish and Latin-American culture and civilization. For graduate/undergraduate credit. Given on a rotating basis. Repeatable for credit. Prerequisite: departmental consent.

SPAN 623X. Cooking Communities: Food, Literature, and Culture in the Hispanic World (3).
Students analyze food as if it were one of their national symbols and therefore as meaningful as ours are for our culture. Students look for examples of the importance of food through the years and pay particular attention to the diasporic communities and the impact of immigrant food. Students analyze culture and diversity through food and pay particular attention to Latino traditions. Students work with literature, recipes, movies, documentaries, class activities, and delicious food of course.

SPAN 624. Seminar in Latin-American Literature or Culture (3).
May focus on a literary genre, historic or artistic period, main historic figure or author, region or topic, including transnational or transatlantic phenomena. Repeatable for credit. Prerequisite: SPAN 300 or departmental consent.

SPAN 625. Contemporary Latin-American Novel (3).
Prerequisite: SPAN 300 or departmental consent.

SPAN 626. Spanish Civilization (3).
Intensive study of Spanish culture, including historical and geographical factors in its development and its contributions to world civilization. Pre- or corequisite: SPAN 300 or departmental consent.

SPAN 627. Latin-American Civilization (3).
Intensive study of Latin-American culture, including the historical and geographical factors of its development and its contributions to world civilization. Pre- or corequisite: SPAN 300 or departmental consent.

SPAN 631. Latin-American Short Story (3).
Study of the main writers in contemporary Latin-American literature. Prerequisite: SPAN 300 or departmental consent.

SPAN 635. Introduction to Romance Linguistics (1-3).
Cross-listed as FREN 635 and LING 635. Provides a contrastive examination of the phonology, morphology and syntax of the major contemporary Romance languages (French, Spanish, Italian, Portuguese, Catalan and Romanian). Introduces students to the sound and writing system and basic grammar of Latin, and contrasts the phonological and grammatical systems of the contemporary Romance languages (French and Spanish in particular) with those of Latin. It compares specific features of the modern Romance languages synchronically (i.e., apart from Latin) as well. Students are advised to have a solid grounding in at least one Romance language (preferably French or Spanish) and a familiarity with at least one other (French, Spanish, Latin, Italian or Portuguese). Prerequisite: departmental or instructor's consent.
SPAN 640. Mexico: Its People and Culture (3).
Study of the cultural development of Mexico, exploring the legacy of the Spanish encounter in areas such as literature, the arts, music and film industry. Prerequisite: SPAN 300 or departmental consent.

SPAN 650. South America: Its People and Cultures (3).
Study of the cultural development of South America, exploring the legacy of Indian cultures and the Spanish encounter in areas such as literature, the arts, music and the film industry. Prerequisite: SPAN 300 or departmental consent.

SPAN 726. Spanish Grammar and Stylistics (3).
Intensive study of advanced grammar and stylistic usage. Prerequisite: SPAN 526.

SPAN 750. Workshop in Spanish (2-4).
Repeatable for credit.

SPAN 801. Spanish Linguistics (3).
Historical and structural study of the Spanish language.

SPAN 805. Directed Readings Spanish (1-4).
Readings vary according to the student's preparation. Includes preparation of reports, literary critiques and special projects in linguistics.

SPAN 827. Latin American Civilization and Culture (3).
Introduction to historical and cultural development in Latin America, exploring the legacy of the Spanish encounter/conquest. Emphasizes Spanish colonization. Prerequisite: graduate standing.

SPAN 831. Seminar in Spanish Literature (3).
(a) Middle Ages, (b) Renaissance, (c) Golden Age theater, (d) Cervantes, (e) modern novel, (f) Generation of '98, (i) Romanticism, (j) 20th century poetry, (k) criticism, (l) literature, (m) 20th century theatre, (n) contemporary Spanish novel, (o) picaresque novel, and (p) Spanish short story.

SPAN 831A. Seminar in Spanish Literature: Before the Middle Ages (3).
The Middle Ages.

SPAN 831B. Seminar in Spanish Literature: Renaissance (3).
The Renaissance.

SPAN 831C. Seminar in Spanish Literature: Golden Age Theater (3).
Golden Age theater.

SPAN 831F. Seminar in Spanish Literature: Generation of '98 (3).
Generation of '98.

SPAN 831I. Seminar in Spanish Literature: Romanticism (3).
Romanticism.

SPAN 831K. Seminar in Spanish Literature: Criticism (2-3).
Criticism.

SPAN 831L. Seminar in Spanish Literature: Literature (3).

SPAN 831N. Seminar in Spanish Literature: Contemporary Spanish Novel (3).
Contemporary Spanish novel.

SPAN 831P. Seminar in Spanish Literature: Spanish Short Story (3).
Spanish short story.

SPAN 832A. Seminar in Latin-American Literature: Colonial Period (3).
Colonial period.

SPAN 832B. Seminar in Latin-American Literature: Contemporary Novel (2-3).
Contemporary novel.

SPAN 832C. Seminar in Latin-American Literature: Short Story (1-3).
Short story.

SPAN 832D. Seminar in Latin-American Literature: Poetry (3).
Poetry.

SPAN 832E. Seminar in Latin-American Literature: Modernism (3).
Modernism.

SPAN 832F. Seminar in Latin-American Literature: Essay (3).
Essay.

Latin-American literature.

SPAN 833. Survey of Spanish Literature I (to 1700) (3).
Survey of medieval and early modern Spanish literature. Topics include major authors, works and literary movements of the periods. Consists of analysis of short stories, poems, plays and other genres.

SPAN 834. Survey of Spanish Literature II (3).
Overview of modern Spanish literary history. Topics covered include major authors, works and literary movements of modern Spanish literature (1700 to the present). The course consists of critical analysis of short stories, poems, plays, essays and excerpts from novels. Prerequisite: graduate standing.

SPAN 835. Survey of Latin-American Literature (15th-19th Centuries) (3).
Survey of Latin-American literature from its indigenous origins, through the colonial period, to the end of the independence campaigns. Consists of the close analysis of chronicles, short stories, poetry and other texts. Emphasis is placed on the relationship between ideology, nation building and literature. Prerequisite: graduate standing.

SPAN 836. Survey of Latin-American Literature (20th and 21st Centuries) (3).
In-depth overview of the cultural and commercial processes which gave way to the internationalization of Latin-American literature in the 20th century. Emphasis on how Latin-American literature became an object of interest in the U.S. and Europe in the 1960s and 1970s. It also examines the space some Spanish-American authors occupy currently in the world literary market. Prerequisite: graduate standing.

SPAN 851. Advanced Topics in Spanish Culture and Civilization (3).
Covers major events and sociopolitical movements in Spain from prehistoric times to present-day Spain. Through history, students examine the different cultures within Spain (Castilian, Catalan, Basque and Galician), focusing on language, nationality and political implications. Students explore major artists in all media including visual arts, music and literature, while also considering folkloric customs and traditions of the various regions (i.e. Culture and culture).

STAT - Statistics

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

STAT 570. Special Topics in Statistics (3).
Covers topics of interest not otherwise available. Prerequisite: departmental consent.
STAT 571. Statistical Methods I (3).
General education advanced further study course. Includes probability models, points and interval estimates, statistical tests of hypotheses, correlation and regression analysis, introduction to nonparametric statistical techniques, least squares, analysis of variance, and topics in design of experiments. Prerequisite: MATH 243 with a grade point of 2.000 or better, or departmental consent.

STAT 572. Statistical Methods II (3).
General education advanced further study course. Includes probability models, points and interval estimates, statistical tests of hypotheses, correlation and regression analysis, introduction to nonparametric statistical techniques, least squares, analysis of variance, and topics in design of experiments. Prerequisite: MATH 243 with a grade point of 2.000 or better, or departmental consent.

STAT 574. Elementary Survey Sampling (3).
Reviews basic statistical concepts. Covers simple, random, stratified, cluster and systematic sampling, along with a selection of sample size, ratio, estimation and costs. Applications studied include problems from social and natural sciences, business and other disciplines. Prerequisite: any elementary course in statistics, such as STAT 370, SOC 501 or PSY 301 with a grade point of 2.000 or better.

STAT 576. Applied Nonparametric Statistical Methods (3).
General education advanced further study course. Studies assumptions and needs for nonparametric tests, rank tests, and other nonparametric inferential techniques. Applications involve problems from the social and natural sciences, business and other disciplines. Prerequisite: any elementary statistics course such as STAT 370, SOC 501 or PSY 301 with a grade point of 2.000 or better.

STAT 701. Matrix Theory (3).
Studies matrix theory as a tool for studying linear models, analysis of variance, regression analysis, time series, and multivariate analysis. Topics include Eigenvalues and Eigenvectors, matrix factorization and matrix norms, generalized inverses, partitioned matrices, Kronecker product, vec operator, and matrix derivatives, with applications to statistics in each topic and special emphasis on quadratic forms in normal variates. Although some background in statistics is desirable, it is not necessary. Prerequisite: MATH 511 with a grade point of 2.000 or better.

STAT 761. Probability (3).
A study of axioms of probability, discrete and continuous random variables, expectation, examples of distribution functions, moment generating functions, and sequences of random variables. Prerequisite: MATH 344 with a grade point of 2.000 or better.

Studies random variables, expectation, limit theorems, Markov chains, and stochastic processes. Prerequisite: STAT 761 or 771 with a grade point of 2.000 or better or departmental consent.

STAT 763. Applied Regression Analysis (3).
Studies linear, polynomial and multiple regression. Includes applications to business and economics, behavioral and biological sciences, and engineering. Uses computer packages for doing problems. Prerequisites: STAT 571, MATH 344 and 511 with a grade point of 2.000 or better in each, or departmental consent.

STAT 764. Analysis of Variance (3).
An introduction to experimental design and analysis of data under linear statistical models. Studies single-factor designs, factorial experiments with more than one factor, analysis of covariance, randomized block designs, nested designs, and Latin square designs. Uses computer packages for doing problems. Prerequisites: STAT 571, MATH 344 and 511 with a grade point of 2.000 or better in each, or departmental consent.

An examination of stochastic dependence distributions of functions of random variables limiting distributions, order statistics, theory of statistical inference, non-parametric tests, and analysis of variance and covariance. Prerequisite: MATH 545 or 547 with a grade point of 2.000 or better, or departmental consent.

STAT 772. Theory of Statistics II (3).
An examination of stochastic dependence distributions of functions of random variables limiting distributions, order statistics, theory of statistical inference, non-parametric tests, and analysis of variance and covariance. Prerequisite: MATH 545 or 547 with a grade point of 2.000 or better, or departmental consent.

STAT 774. Statistical Computing I (3).
Trains students to use modern statistical software for statistical modeling and writing of technical reports. Examines many of the advanced features of most commercial statistical packages. Students perform complete statistical analyses of real data sets. Prerequisites: STAT 763 and 764, or departmental consent.

STAT 775. Applied Statistical Methods I (3).
Covers selected topics from time series analysis including basic characteristics of time series, autocorrelation, stationarity, spectral analysis, linear filtering, ARIMA models, Box-Jenkins forecasting and model identification, classification, and pattern recognition. Prerequisite: STAT 763 with a grade point of 2.000 or better, or departmental consent.

STAT 776. Applied Statistical Methods II (3).
Covers selected topics from multivariate analysis including statistical theory associated with the multivariate normal, Wishart and other related distributions, partial and multiple correlation, principal component analysis, factor analysis, classification and discriminant analysis, cluster analysis, James-Stein estimates, multivariate probability inequalities, majorization and Schur functions. Prerequisite: STAT 764 with a grade point of 2.000 or better, or departmental consent.

STAT 861. Theory of Probability I (3).
The axiomatic foundations of probability theory emphasize the coverage of probability measures, distribution functions, characteristic functions, random variables, modes of convergence, the law of large numbers and central limit theorem, and conditioning and the Markov property. Prerequisites: MATH 743, STAT 771.

STAT 862. Theory of Probability II (3).
The axiomatic foundations of probability theory emphasize the coverage of probability measures, distribution functions, characteristic functions, random variables, modes of convergence, the law of large numbers and central limit theorem, and conditioning and the Markov property. Prerequisites: MATH 743, STAT 771.

STAT 870. Theory of Statistical Inference I (3).
Covers asymptotic theory of maximum likelihood estimation, sufficiency and completeness, unbiased estimation, elements of decision theory and the Neyman-Pearson theory of testing hypotheses. Prerequisites: MATH 743, STAT 771.

STAT 871. Theory of Statistical Inference II (3).
Covers asymptotic theory of maximum likelihood estimation, sufficiency and completeness, unbiased estimation, elements of decision theory and the Neyman-Pearson theory of testing hypotheses. Prerequisites: MATH 743, STAT 771.
STAT 872. Theory of Linear Models I (3).
An introduction to the theory of linear models and analysis of variance. Includes multivariate normal distribution, distributions of quadratic forms, general linear models, general linear hypothesis, confidence regions, prediction and tolerance intervals, design models (1-factor and 2-factor), analysis of covariance and components-of-variance models. Prerequisites: MATH 511, STAT 772.

STAT 873. Theory of Linear Models II (3).
An introduction to the theory of linear models and analysis of variance. Includes multivariate normal distribution, distributions of quadratic forms, general linear models, general linear hypothesis, confidence regions, prediction and tolerance intervals, design models (1-factor and 2-factor), analysis of covariance and components-of-variance models. Prerequisites: MATH 511, STAT 772.

STAT 875. Design of Experiments (3).
A study of basic concepts of experimental design which include completely randomized design, randomized block design, randomization theory, estimation and tests, Latin square design, factorial experiments, confounding, split-plot designs, incomplete block designs, and intra- and interblock information. Prerequisite: STAT 572 or 772.

STAT 876. Nonparametric Methods (3).
An introduction to the theory of nonparametric statistics. Includes order statistics, tests based on runs, tests of goodness of fit, rank-order statistics; one-, two- and k-sample problems; linear rank statistics, measure of association for bivariate samples, and asymptotic efficiency. Prerequisite: STAT 772.

STAT 877. Multivariate Statistical Methods (3).
Elementary theory and techniques of analyzing multidimensional data; covers Hotelling's T2, multivariate analysis of variance, principal components analysis, linear discrimination analysis, canonical correlation analysis, and analysis of categorical data. Prerequisites: MATH 511, STAT 772.

STAT 878. Special Topics (2-3).
Repeatable with departmental consent. Prerequisite: departmental consent.

STAT 879. Individual Readings (1-5).
Repeatable to a maximum of 6 hours with departmental consent. Prerequisite: departmental consent.

STAT 884. Statistical Computing II (3).
Teaches special graphics and numerical methods needed in the analysis of statistical data. Includes advanced simulation techniques, numerical methods for linear and nonlinear problems, analysis of missing data, smoothing and density estimation, projection-pursuit methods, and graphic techniques. Prerequisites: MATH 751 and STAT 772 with C or better or departmental consent.

STAT 971. Selected Advanced Topics in Probability and Statistics (3).
Topics of current research interest in probability and statistics. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

STAT 972. Selected Advanced Topics in Probability and Statistics (3).
Topics of current research interest in probability and statistics. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

STAT 978. Advanced Independent Study in Probability and Statistics (1-3).
Arranged individual directed study in an area of probability or statistics. Repeatable to a maximum of 6 hours. Prerequisites: must have passed the PhD qualifying exam and instructor's consent.

Repeatable to a maximum of 24 hours. Graded S/U. Prerequisite: must have passed the PhD preliminary exam.

THEA - Theatre

While a formal major in theatre at the graduate level is not offered, the following courses are available.

Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

THEA 510. Design Project (1).
Advanced work in the problems of stage lighting design, costume design or scenic design. With the permission and supervision of the appropriate faculty member, the student designs for specific productions for either Main Stage or Experimental Theatre. Repeatable twice for credit if taken in different design areas. Prerequisite: instructor's consent.

THEA 516. Scriptwriting I (3).
*General education advanced further study course.* Cross-listed as ENGL 517. The writing of scripts for performance in theatre, film, television and the Internet. Emphasizes both verbal and visual aspects of scriptwriting. If possible, the scripts are given in-class readings by actors. Prerequisite: instructor's consent.

THEA 517. Scriptwriting II (3).
*General education advanced further study course.* Cross-listed as ENGL 518. The writing of scripts for performance in theatre, film, television and the Internet. Emphasizes both verbal and visual aspects of scriptwriting. If possible, the scripts are given in-class readings by actors. Prerequisite: instructor's consent.

THEA 530. Musical Theatre Scene Study (2).
An interdisciplinary practicum course with opportunities for student performers to refine interdisciplinary techniques by performing scenes from a variety of musical theatre genres including operetta, book musicals and rock musicals. Advanced students may explore opportunities to gain experience in directing and choreographing under faculty guidance and supervision. Prerequisites: junior or senior musical theatre, dance or voice majors only; and/or permission of the instructors.

THEA 544. Applied Materials and Process Lab for Production (3).
Lab arr. Advanced stagecraft class. Explores advanced construction techniques for the fabrication of stage scenery and stage properties through applied study in materials and processes. Students complete a research project and presentation/demonstration of research findings. Independent projects relating to materials and techniques studied are pursued in arranged labs. Includes a minimum of 45 hours of applied processes and materials laboratory time. Prerequisite: THEA 244.

THEA 546. Scene Painting (3).
Presented with a lecture demonstration-studio arrangement. Explores various theatre painting materials and techniques enabling the student to develop skill as a scenic artist. Prerequisite: THEA 244.

THEA 555. Senior Project (1).
Cross-listed as MUSP 555. An interdisciplinary course to showcase the talents of graduating seniors to professional producers, agents
and casting directors. Students develop and produce a variety show demonstrating their talents in singing, dancing, acting, directing and choreography. For majors only. Prerequisite: instructor’s consent.

THEA 559. Directing II  (3).
Lab. arr. Staging and rehearsal techniques emphasizing the problems of the period and stylized play. Prerequisites: THEA 359 or departmental consent and junior standing.

THEA 575. Capstone Project - BA  (1).
Independent research or practical and creative final project encompassing multiple areas of study which combines the students major area of interest and their minor and/or designated plan of study. Project results in a work that is presented for evaluation to faculty only, or to faculty and invited audience. The form the project takes and manner of presentation is determined in consultation with student’s program advisor. For undergraduate majors only. Prerequisites: ENGL 101, 102; COMM 111; MATH 111 or 131; senior standing and departmental consent.

THEA 590. Theatre: Special Topics  (1-3).
Designed to expand and strengthen the experience of the student academically and professionally. Study of developments in theatre that go beyond, or are related to, courses already offered gives students a much richer preparation for their field of study. Topics include new technology, new materials, contemporary explorations in performance, and in-depth study of production methods.

THEA 610. Directing the Musical  (3).
An interdisciplinary course using interdepartmental expertise (theatre, dance, music) to teach the student how to produce a musical. Prerequisite: instructor’s consent.

THEA 621. Advanced Oral Interpretation  (3).
Intensive study and analysis of various forms of literature, the techniques of effective oral communication and the building of the individual or group concert recital. Arranged workshops and festivals. Prerequisites: THEA 221Q and junior standing.

THEA 622. Academic Theatre Practicum  (2).
The investigation and exploration of the theatrical act in the classroom situation within the university community. Reinforces researching, writing, directing and performing skills. Enrolled students, functioning as a company, produce and perform for various disciplines on campus. Repeatable once for credit.

THEA 623. Theatre History I  (3).
The history of theatrical activity as a social institution and an art form from its beginnings to the 17th century. Includes representative plays, methods of staging and theatrical architecture of various periods. Prerequisite: THEA 228.

THEA 624. Theatre History II  (3).
General education advanced further study course. History of theatrical activity as a social institution and an art form from the 17th century to the present. Includes representative plays, methods of staging and theatrical architecture of various periods.

THEA 630. Music Theatre and Opera Audition  (3).
Cross-listed as MUSP 790E. A practicum course which develops techniques and audition repertory singers need to gain professional employment and/or successfully compete for placement in advanced training programs. Also covers the business skills necessary to a professional career, and brings students into contact with professional guest artists who can provide additional insight and contacts. Prerequisite: instructor's consent.

THEA 643. Styles In Acting  (3).
Training in, and development of, the special techniques required for period or stylized plays with special emphasis on Greek, Shakespearian and Restoration styles. Prerequisites: THEA 243, 342, junior standing.

THEA 647. Scene Design II  (3).
Continuation of THEA 344 with more advanced work in designing settings for the stage and including studies in scenographic techniques and exercises in model building. Students design settings for a production having a single set, a production requiring a simultaneous setting and a production using multiple settings. Requires no laboratory work in theatre production. Prerequisites: THEA 244, 344.

THEA 649. Stage Lighting II and Theatre Sound  (3).
Continues the study and application of the theories and techniques of THEA 345, emphasizing advanced concepts of design, and provides an introduction to theatre sound production. Prerequisite: THEA 345.

THEA 651. Scene Study  (3).
The synthesis of all previous acting courses. Studies scenes in depth as preparation for performance. Course goal is the presentation of fully realized characterizations in those scenes studied, integrating the elements of the actor’s craft learned in the prerequisite courses. Prerequisites: THEA 643 and junior standing.

THEA 653. History of Costume  (3).
Lab. arr. Historical survey and individual research of dress from ancient Egypt to present day emphasizing social, political, economic and religious influences. Theory and practice of adapting period styles to the stage. Prerequisite: THEA 253 or departmental consent.

THEA 675. Directed Study  (1-4).
Cross-listed as COMM 675. Individual study or projects. Repeatable for credit with departmental consent. Prerequisite: departmental consent.

THEA 780. Theatre Internship  (3-15).
Advanced theatre production work as arranged by students in directing, acting, scenery and lighting; costume design and construction; or theatre management with a professional theatre company. Work is evaluated by graduate faculty. Total of internship activity applicable toward graduation is 15 hours. Prerequisite: junior standing or departmental consent.

THEA 820. Investigation & Conference  (1-3).
Cross-listed as COMM 820. Directed research and experimentation for graduate students in some phase of (a) public address, (b) theatre history and production, (c) radio-television, or (d) the teaching of speech. Repeatable for credit up to a total of 6 hours.

An examination of the major movements in the modern theatre since 1870. Emphasizes both literary and physical elements to styles.

WOMS - Women's Studies
Courses numbered 500 to 799 = undergraduate/graduate. (Individual courses may be limited to undergraduate students only.) Courses numbered 800 to 999 = graduate.

WOMS 508. Women and the Environment  (3).
On completion of this course, students should be able to appreciate and understand: environmental challenges at a local, regional and global scale; gender and environment; the role of women in the environment; case studies of women's leadership and contribution to environmental custodianship; critical analysis and military-industrial discourse in relation to gender; relationships between environment and interactions with different types of global, illicit trade. Course includes diversity content.
WOMS 510. Hollywood Melodrama: The Woman’s Film (3). Melodrama, as a “woman’s genre,” is important to the development of feminist film criticism, which interrogates the contradictory meanings of motherhood and family within this culture. Through readings and films, this course provides a stylistic, literary and cultural/historical background for this 19th-century form with a specific focus on the woman’s film and the family melodrama which highlight woman’s position within the home. Uses textual analysis and some psychoanalytic criticism to explore and critique the fantasies and desires expressed in the visual excesses of film melodrama. Course includes diversity content.

WOMS 511. Women in Early America, 1600-1830 (3). General education advanced further study course. Course includes diversity content.

WOMS 513. Issues and Perspectives on African Women and Globalism (3). General education advanced issues and perspectives course. Cross-listed as WOMS 383, ETHS 381AC. For those whose primary notions of Africa derive from little or unconfirmed information. Uses research, writing and other expressions by African women to present women dealing with their postcolonial and globalized national contexts. When possible, a teleconference with an author is arranged for a more global learning experience. Learning through local African communities, dramatic/artistic expressions and group projects is encouraged. Aims to help students develop critical and independent thinking about Africa, African women and their global engagement. Course includes diversity content.

WOMS 514. Women in the Middle East (3). Examines Arab women of the Middle East. Focuses on women in the region historically designated as the fertile plains—Egypt, Lebanon, Syria, Jordan and the Palestinian Territories. Covers the impact of Western colonialism and global geopolitics on women’s lives; women’s activism in relation to nationalism and women’s rights; Western racial stereotypes of Arab women and men and their role in foreign intervention in the 20th and 21st centuries. Provides case study in the relationship of nationalism and women’s roles as framed by Arab women’s studies. Course includes diversity content.

WOMS 516. Sociology of Gender (3). General education advanced further study course. Cross-listed as SOC 516. Focuses on historic and current gender issues within a national and global context. Students explore both the individual and structural-level factors that influence the experience of “doing gender” within a variety of social institutions including potential avenues for change and collective action. Course includes diversity content.

WOMS 523. Feminist Film Criticism (3). Applies critical methods of analysis from the field of feminist film studies (such as psychoanalysis, ideology critique, close textual analysis, narrative and genre criticism) to the representation of women in film. Emphasizes historical development of feminist film theory and criticism as it relates to classical Hollywood narrative, film genres and avant-garde film. Course includes diversity content. Prerequisite: 3 hours of upper-level humanities or 3 hours of upper-level women’s studies.

WOMS 530. The American Woman in History (3). Cross-listed as HIST 530. Course includes diversity content.

WOMS 532. Women in Ethnic America (3). Cross-listed as HIST 532. An in-depth, thematic understanding of the historical experiences of women of color across space and time in U.S. history. Employing a female-centered framework of analysis, course probes the intersections of race, class, gender and sexuality in women’s lives. Course includes diversity content.

WOMS 533. Women and the Law (3). Introduces the legal aspects of women’s rights, including the equal rights amendment to the U.S. Constitution, right to choose a name, sex discrimination in employment, education, and credit; welfare and criminal justice. Also considers women in the field of law, such as lawyers and legislators. Course includes diversity content.

WOMS 534. Psychology of Women (3). General education advanced issues and perspectives course. Cross-listed as PSY 534. Psychological assumptions, research and theories of the roles, behavior and potential of women in contemporary society. Course includes diversity content. Prerequisite: PSY 111.

WOMS 536. Writing by Women (3). Cross-listed as ENGL 536. Explores various themes in critical approaches to literature composed by women writers, especially those whose works have been underrepresented in the literary canon. Genres and time periods covered, critical theories explored, and specific authors studied vary in different semesters. Course includes diversity content.

WOMS 541. Women, Children and Poverty (3). General education advanced issues and perspectives course. Cross-listed as SCWK 541. Addresses the problem of poverty among women in the U.S. today, and examines existing and proposed public policies designed to alleviate the problem. Explores theoretical models of poverty policy analysis and the role of values in their formulation and implementation. Discusses issues of age, race and family; special attention is given to poverty among Kansas families. Course includes diversity content. Prerequisite: 6 hours of social sciences.

WOMS 542. Women in Other Cultures (3). Cross-listed as ANTH 542. Deals with the place of women in primitive and other non-Western societies, in various aspects of culture: political, economic, social, religious, domestic, intellectual, psychological and aesthetic. Compares and contrasts societies in order to see how different kinds of roles for women are related to different kinds of societies. Course includes diversity content.

WOMS 570. Directed Readings (1-3). For students who wish to pursue special reading or research projects not covered in coursework. Prerequisite: instructor’s consent. Course includes diversity content.

WOMS 571. Contemporary Issues and Perspectives: LGBTQ (3). General education advanced issues and perspectives course. Cross-listed as SCWK 571. Explores contemporary issues within the lesbian, gay, bisexual, transgender and queer communities. Explores personal attitudes regarding the social context for LGBTQ persons as well as other issues which have emerged as matters of concern and celebration with LGBTQ individuals and communities. Empowerment principles are employed and used to highlight a positive and affirming framework of the LGBTQ community. Students acquire basic skills in understanding issues of diversity and other contemporary conditions of life and culture. Course includes diversity content.

WOMS 579. Asian Women in Modern History (3). Cross-listed as HIST 579 and ETHS 579. Examines women’s historical and contemporary experiences in Asian America and eight major countries in modern Asia. Covers topics on Asian women’s activism in relation to nationalism and women’s rights. Investigates Asian women’s roles and statuses in the family and society and their educational attainment and contributions to the export-oriented industrialization of the Asia-Pacific region. Examines the intra-regional migration of female guest workers among various countries in Asia. Traces the ways...
in which the changes in immigration laws during the 20th century affect patterns of Asian women's migration to the United States. Introduces writing that integrates Asian women's lives and Asian American experiences into the discourses on ethnicity, national origin, class, gender and sexual orientation in the United States and the Asia-Pacific region. Course includes diversity content.

WOMS 580. Special Topics (1-3).
Focuses on advanced topics of interest to women's studies. Course includes diversity content.

WOMS 580AB. Women and Reform in America, 1830-Present (3).
Focuses on women, gender, and reform in U.S. history from 1830 to 2000 by examining the lives, experiences, and interactions with social, political, and economic systems of women. Students read articles, books, and primary documents that examine women's experiences from the emergence of a domestic economy in the 1830s to 21st century popular culture with specific focus on topics such as the Cult of True Womanhood, slavery, Civil War and Reconstruction, Progressivism, suffrage, WWII, postwar feminism, and popular culture. In the end, students should walk away with an understanding of women in early U.S. history and of the major historical debates concerning women's and gender history. Course includes diversity content.

WOMS 580G. Women in China and the Chinese Diaspora (3).
Course includes diversity content.

WOMS 580J. Domestic Violence (3).
Cross-listed as SCWK 590 and CJ 522. Deals with the roots of domestic violence embedded in family roles, legal systems, religious beliefs, and the psychology of women, children and men. Also covers the consequences and prevention of family abuse. Includes discussion of literature and films. Course includes diversity content.

WOMS 580N. Gender, Race, Knowledge (3).
General education advanced issues and perspectives course. Course includes diversity content.

WOMS 580T. Women & Aging (3).
Course includes diversity content.

WOMS 580X. Sex, Work and Culture (3).
Course includes diversity content.

WOMS 580Z. Femme Fatale and Fighting FToy in Film (3).
Course includes diversity content.

WOMS 585. The Femme Fatale In Film Noir (3).
From the 1970s to the present, feminism has exerted a profound influence on theories of cinema. By focusing on film noir as a genre expressed visually and thematically, this course explores various filmic representations of women, and how and why these representations are politically, socially and theoretically significant. We apply various critical methods of analysis (psychoanalysis, ideology critique, close textual analysis, narrative, style/genre) to approach women's representation, in particular, the femme fatale (dark lady, evil seductress) within the classic film noir era which occurred between 1944 and 1958. Course includes diversity content.

WOMS 586. Gender, Race, Knowledge (3).
General education advanced issues and perspectives course. Examines construction of objects that lie at the boundary between popular and academic or "official" knowledge (understanding of objects, people, events and activities). Examines those objects within gender and race frameworks in women's studies. Thematically organized, problem focused and methodologically interdisciplinary. Past topics include "America, Post 9/11," "A Genealogy of the Middle East," science, modernity and anthropology. Course includes diversity content.

WOMS 587. Theories of Feminism (3).
Because feminism is not a single ideological stance or perspective, course examines a variety of ideas underlying feminist cultural critiques and visions for social change. Discusses the contribution of women's studies to various academic disciplines. Course includes diversity content. Prerequisites: WOMS 287, 387, or 6 hours of women's studies courses, or instructor's consent.

WOMS 588. Gender, Race and the West/East Divide (3).
General education advanced issues and perspectives course. Examines critically the role of gender and race in the making of a supposed essential divide between the West and the East. Students are introduced to Edward Said's concept of Orientalism and the field of critique that targets how Europe and the U.S. craft an identity the West via its other, called variously, the Orient, Islam, the Muslim world, and the Arab world. Questions explored include: What is Orientalism? What is the relationship between colonialism/imperialism and the representation of the Orient or the East? How, for whom, and for what purposes do gender and race matter in this construct of a divide between West and East? These questions are examined across genres and media —i.e., in travel accounts, film, literature, policy making and news reportage. Course includes diversity content.

WOMS 591. Sexual Assault Issues (1).
Cross-listed as SCWK 591. Explores the cultural myths and stereotypes about sexual assault, the legal system methods of self-protection, community resources providing help for victims, and other related issues. Primary focus is on education to not only prevent, but eradicate sexual assault. Course includes diversity content.

WOMS 701. Selected Topics in Women's Studies (3).
Repeatable for credit up to 6 hours. Prerequisite: departmental consent. Course includes diversity content.

WOMS 701A. Map Intersections of Gender (3).
Course includes diversity content.

WOMS 701B. Women and the Environment (3).
Course includes diversity content.

WOMS 701C. Writing by Women (3).
Course includes diversity content.

WOMS 701D. Women in Africa (3).
Course includes diversity content.

WOMS 701E. Feminism and Girl Culture (3).
Course includes diversity content.

WOMS 870. Directed Readings (1-3).
For graduate students to pursue research in areas not normally covered in coursework. Course includes diversity content. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

WOMS 880. Seminar in Women's Studies (3).
Intensive study of selected women's studies topics. Seminar discussion, reports and research project. Previous topics include Advanced Theories of Feminism, and Contemporary Women's Fiction. Course includes diversity content. Repeatable for credit with departmental consent. Prerequisite: instructor's consent.

WOMS 880G. Gender, Race and Knowledge (3).
Course includes diversity content.
