exposed to developmental changes in masculinity across the life course. Students are

General education social and behavioral sciences introductory course. Introduces basic concepts, propositions and theoretical approaches of sociology, including elementary methods of studying social phenomena. The basic course for students who intend to take additional courses in sociology.

SOC 306. Introduction to Gender Studies (3).
General education social and behavioral sciences advanced further study course. Cross-listed as WOMS 306. Introduces the sociology of gender. Explores how gender is socially constructed through culture, everyday interactions, the media, and institutions such as the family, education and work. Considers the consequences of gender for relationships, sexuality, economic opportunity and well-being, with a goal of connecting theory and research on gender to personal experiences. Examines how gender intersects with other forms of social inequality, including race, social class and sexual orientation. Course includes diversity content.

Romantic relationships are studied from the perspective that rapid changes in society can and do affect what we experience as romance. Technology, aging, urbanization, the Internet, the emancipation of women, cohabitation, divorce and later marriage are social variables that impact romantic relations. Examines such subjects with an eye to contemporary research on the topics.

SOC 308. Relationship Problems (3).
Looks at different relationship types and the common problems found in such relationships. Course has practical information about how to avoid the pitfalls of close relationships. Students are exposed to romantic relations, friendships, family and co-worker relationship types and look at how these relationships are affected by such variables as gender, power, conflict, communication and boundary problems.

SOC 311. Introduction to Sociological Theory (3).
Comprehensive survey of classical sociological theory. Emphasizes theories relevant to the development of sociology. Prerequisite: SOC 111.

SOC 312. Introduction to Social Research (3).
Provides students with a general understanding of the core concepts and techniques used in designing and executing a social research project. Special emphasis is given to the major data collection techniques commonly used by sociologists. Prerequisite: SOC 111.

SOC 313. Introduction to Social Statistics (3).
Applies descriptive and inferential statistics to sociological problems. Includes computer experience with statistical software. Prerequisite: SOC 111. Pre- or corequisite: SOC 312.

SOC 315. Marriage & Families (3).
General education social and behavioral sciences advanced further study course. Aids students in the acquisition of a sociological perspective of relationship processes as they exist in the United States today. Explores dating relationships, mate selection, the transition to parenthood, marital and family interaction, communication and other issues relating to families over the life course. Prerequisite: SOC 111.

SOC 316. Men and Masculinities (3).
General education social and behavioral sciences advanced issues and perspectives course. Cross-listed as WOMS 316. Presents the sociological perspective on contemporary masculinities. Students are exposed to developmental changes in masculinity across the life course and such topics as: masculine socialization, race/ethnicity variations, work, relationships, sexualities, media, family and the men's movement. Course includes diversity content.

SOC 319. Sociology of Sexualities (3).
General education social and behavioral sciences advanced issues and perspectives course. Course goal is to encourage students to use a sociological perspective to view all areas of sexuality. A sociological perspective of sexuality examines how sexual desires, identities, relationships, and practices are socially and culturally constructed and enforced. Such a course works to dispel myths about sexuality and uncovers the complexity of sexuality. Investigates cultural variations in sexual practices and understandings of sexuality and explores how cultural values and beliefs about sexuality shape individual desires, relationships, and well-being. Explores how sexuality influences and is influenced by other identities, including race and ethnicity, gender, socioeconomic status, age, and religion. Identifies how “normative” sexual identities are enforced in schools, families, workplaces and in the media. Course includes diversity content.

SOC 320. Contemporary Social Problems (3).
General education social and behavioral sciences advanced further study course. Examines the theoretical and methodological frameworks used to analyze contemporary social problems. Emphasizes examining the complex interrelationship among specific social problems and developing critical-thinking skills necessary to analyze political and social policy debates.

SOC 322. Deviant Behavior (3).
General education social and behavioral sciences advanced further study course. The structure, dynamics and etiology of those behavior systems that are integrated around systematic violations of the control norms. Presents and evaluates competing theories within the context of the assumption that humans are a social product. Prerequisite: SOC 111.

SOC 325. Parenting (3).
General education social and behavioral sciences advanced further study course. Examines the role of parenting in American society from a number of different perspectives. Focuses on the major developmental changes facing couples as they move through the family life cycle. Covers the decision to have children, remaining childless, the transition into parenthood, parent-infant relationships, parents and school-age children, and the transition from active parenthood. Also includes single parents, divorce, step-parenting and dual-career parents. Discusses several different parenting techniques and styles as well.

SOC 326. Sociology of Race & Ethnicity (3).
General education social and behavioral sciences advanced issues and perspectives course. Examines the overlapping concepts of culture, race and ethnicity from a sociological perspective in order to foster an understanding of race as both a category of social organization and social stratification among ethnic groups that make up American culture today. Courseunpacks the intersecting contexts in which race relations are socially constructed and regulated at the micro and macro levels. Controversial topics, such as affirmative action, as well as theories of discrimination, and resistance strategies are discussed and analyzed. Course includes diversity content. Prerequisite: SOC 111.

SOC 330. Social Inequality (3).
General education social and behavioral sciences advanced further study course. Analyzes class, status and inequality in various societies especially in the United States. Also includes the relationship of social inequality to various social institutions. Course includes diversity content. Prerequisite: SOC 111.

SOC 332. Media Through a Sociological Lens (3).
General education social and behavioral sciences advanced further study course. Presents the sociological perspective on the institution
of Media. Students are encouraged to examine their own reflexivity (personal world view) within the influence of a society that is immersed “from cradle to grave” in media. By examining the major theoretical frameworks of sociological theory and applying them to a rich analysis of many modes of media (film, television, video games, social networks, etc.) students engage in an introduction to the field of visual sociology. Students exit the class with media literacy and a better understanding of this major institution of socialization.

SOC 336. Work In Modern Society (3).
General education social and behavioral sciences advanced issues and perspectives course. Broad overview of work in the modern economy. Examines the historical development of industrial-based capitalism, both the organizational-level changes and relations between management and labor. Also examines from a sociological perspective industrial and occupational level data focusing on changes in work environments, occupational and industrial opportunities, demographics of work occupants, and changes in compensation and work status.

SOC 337. Young Women’s Health (3).
General education social and behavioral sciences advanced further study course. Examines topics in young women’s health in the United States. Explores the intersections of physical, emotional, social, economic, intellectual and spiritual health. Based on a developmental approach, it traces the underpinnings of health from childhood to adolescence and young adulthood. Students leave this class with the knowledge to enhance their own health and well-being.

SOC 338. Health & Lifestyle (3).
General education social and behavioral sciences advanced further study course. Examines the component dimensions of health and the societal-level factors and lifestyle choices that influence health across the life span.

SOC 346. Sociology of Globalization (3).
General education social and behavioral sciences advanced issues and perspectives course. Critically examines the global integration of markets, known as globalization. Identifies and explores social processes and relations surrounding rapidly growing international flows of people, goods, services, information and assets. Identifies and explores social issues relating to political, cultural and economic causes and effects of globalization. Topics include trade agreements such as NAFTA, international institutions such as the International Monetary Foundation and the World Bank, the global restructuring of workplaces and jobs, the globalization of American culture, effects of globalization on the natural environment, and the various types of responses to globalization by individuals, interest groups and governments. Course includes diversity content.

SOC 350. Social Interaction (3).
General education social and behavioral sciences advanced further study course. Studies the effect groups have on individuals. Primary focus on the symbolic interactionist perspective in sociology. The goal is for students to understand how social interaction influences their daily activities. Includes the meaning and importance of the symbol, the nature and development of self, social roles and their influence on individuals, and the social construction of society. Prerequisite: SOC 111.

SOC 399A. Social Madness (The Good, the Bad & the Ugly) (3).
Provides an overview of the social dynamics and phenomena of the internet and the social world. Provides students with an understanding of the cultural and social principles of a virtual world from the perspective of social sciences and with a focus upon the relationship between social networks and society. Examines the ways in which society is changing due to the introduction and wide spread use of virtual communication. Explores the social changes due to the internet, including new social networks and their impact on social lives including cyber-bullying/stalking, online gaming, online dating/romance, cyber-warfare, virtual crime and the social dynamics of various virtual worlds.

SOC 399B. Visual Sociology (3).
Explores the ever growing visual nature of the student’s world and the means in which the visual can represent both an avenue of investigation and a means of applying and displaying sociological concepts. Attention is given to understanding the production and consumption of a variety of modes of visual content (such as film, video, photography, comic books, memes and other emerging visual texts), as students learn common methods of conducting visual sociological study in order to analyze potential social meanings.

SOC 399AC. Social Epidemiology (3).
This course will focus on how social processes are fundamentally linked to the health of populations and/or individuals. Social epidemiology considers social, psychological, biological, and medical determinants of disease and health using a multidisciplinary approach to analyze and explain complex contemporary social issues. Additionally, this course will also emphasize the role of social determinants of health, such as socioeconomic status and/or race/ethnicity in relation to health equity. The course will also analyze the social determinants of health and how society makes individuals sick and/or healthy. Addressing not only the existing evidence of health/ethnic disparities, identification of new disease risk factors (e.g., deficient social capital) as well as how well-known exposures (e.g., cigarette smoking, lead paint, health insurance) emerge, promote or undermine the health of populations and are maintained by the social system.

SOC 399AD. Sociology of Mental Disorders (3).
Examines the individual and structural level variables that influence the development and treatment of various mental disorders.

SOC 399Q. Sociology of Violence (3).
Designed to explore the question, what is violence? At first pass, this question may seem straightforward, but it is complex and requires a sociological imagination to see the interpersonal, institutional and structural factors at play in any violent situation or event. Moreover, the very nature of what it means to be violent is open to debate. Class is designed to help students engage in essential debates and develop an informed point of view on violence, its causes, and its solutions. Violence is studied as a social phenomenon. Students explore general descriptions and explanations of violent crime, specific causal explanations for violence such as alcohol, drug use, or gun availability, and possible methods to reduce lethal and nonlethal violence. While many forms of personal violence are examined, special emphasis is given to sexual and family violence, gang violence, and terrorism.

SOC 399R. LOVE (3).
Examines some of the cultural, structural and theoretical perspectives of love and relationships. Looks at a subject taken for granted, but not understood — that love is both a physiological state and a socially constructed experience. Course is designed to explore how intimate moments are socially shaped and to help the student navigate the structural and cultural factors that have made being in love, and relationships and love a fundamental part of life.

SOC 399V. Social Inequalities in Health (3).
Explores various social determinants and forces that structure health.

SOC 399W. Sports Violence and Deviance (3).
Sport, as a cultural institution, has many far-reaching effects on many demographic groups. With the high-profile nature of modern sport, increased amounts of media attention have highlighted not only individual acts of sport deviance or violence, but also the role of groups, organizations, and communities. Class exposes students to
various explanations for sport deviance and violence in hopes of arming
them with the conceptual tools necessary for not only understanding
or responding to incidents of sport deviance, but also identifying
mechanisms to decrease of eliminate sport deviance. An emphasis on
explanations of sport deviance or violence through theoretical description
helps students develop complicated answers regarding complicated
questions of how sport deviance occurs.

SOC 399Y. Social Perspectives on Intimate Partner Violence (3).
Examines the social ecology of intimate partner violence including
interpersonal, structural, and cultural perspectives. Focuses on the
dynamics of violence (verbal, physical, sexual) within romantic
relationships. Historical views, policy directions, health outcomes,
gender dynamics, and prevention initiatives are explored through a
combination of lecture, films, personal reflection and applied learning
activities.

SOC 405. Sociology of Aging (3).
General education social and behavioral sciences advanced further
study course. Cross-listed as AGE 405. Analysis of the social
dimensions of old age, including changing demographic structure and
role changes and their impact on society. Prerequisite: SOC 111.

SOC 481. Cooperative Education (1-4).
Provides the student with practical experience under academic
supervision, that complements the student's academic program.
Consultation with, and approval by, an appropriate faculty sponsor are
necessary. Prerequisite: instructor's consent.

SOC 481N. Internship (1-4).
Complements and enhances the student's academic program by
providing an opportunity to apply and acquire knowledge in a
workplace environment as an intern. Prerequisite: departmental consent.

An applied study of the conceptual tools and methodological skills
needed to conduct quantitative sociological research. Prerequisites:
SOC 111, 312, 501. Corequisite: SOC 512L.

SOC 512L. Measurement & Analysis Lab (0).
The lab component of the SOC 512 course covers learning how to use
the statistical software program SPSS and working on projects as part
of the applied study of the conceptual tools and methodological skills
needed to conduct quantitative sociological research.

SOC 514. Sociology Capstone (3).
Capstone experience designed to provide students an opportunity
to integrate the knowledge, skills and insights they've developed as
emerging Sociologists. While specific sociological topic areas may
vary from semester to semester, the course exposes students to current
research and perspectives while providing opportunities to engage in
sociological practice by applying the tools of the discipline to a relevant
social phenomenon and drawing links between the classroom and
potential careers. For undergraduate credit only. Pre- or corequisites:
SOC 111, 311, 312, 313.

SOC 515. Family Diversity (3).
General education social and behavioral sciences advanced further
study course. Analyzes the varieties of family forms in the U.S. with
particular emphasis on the intersection of gender, race/ethnicity, social
class and sexual orientation. Attention is given to the reciprocal effects
of families and their social environments and the impact of public
policies on families. Course includes diversity content. Prerequisite:
SOC 111.

SOC 516. Sociology of Gender (3).
General education social and behavioral sciences advanced further
study course. Cross-listed as WOMS 516. Focuses on historic and
current gender issues within a national and global context. Students
explore both the individual and structural-level factors that influence
the experience of "doing gender" within a variety of social institutions
including potential avenues for change and collective action. Course
includes diversity content.

SOC 517. Intimate Relations (3).
Examines the social dimensions of intimacy including an analysis of
intimacy in different types of relationships, i.e., romantic, friendship,
maturity. Reviews theory and research in the area with a special focus
on the place of intimacy in social interaction. Course includes diversity
content. Prerequisite: SOC 111.

SOC 520. Family and Aging (3).
Cross-listed as AGE 520. An analysis of the families and family
systems of older people. Emphasizes demographic and historical
changes, widowhood, caregiving and intergenerational relationships as
these relate to the family life of older people. Course includes diversity
content. Prerequisite: AGE 100, SOC 111, or junior standing.

SOC 528. Schools and Society (3).
General education social and behavioral sciences advanced further
study course. Introduces sociological perspectives on the purpose of
schools and their connection to the larger society. Uses key sociological
courses, theories and methods to go beyond individual experiences
and explore the educational system in the context of larger social
forces. Examines the multiple functions and goals of education,
stratification between schools and within schools, and inequalities of
race, social class and gender. Other topics may include family and
school relationships, bullying and youth culture, sexuality education,
and educational policy issues. Course includes diversity content.
Prerequisite: SOC 111.

SOC 534. Urban Sociology (3).
General education social and behavioral sciences advanced further
study course. Studies the process of urbanization and its influence on
the development of cultural and social structures throughout the world.
Also discusses social problems associated with urbanization. Course
includes diversity content. Prerequisite: SOC 111.

SOC 537. The Social Consequences of Disability (3).
An eclectic survey of the social aspects of disability showing the impact
of social values, institutions and policies upon adults with disabilities.
Appropriate for both students of sociology and the service professions.
Course includes diversity content. Prerequisite: SOC 111.

SOC 538. Medical Sociology (3).
General education social and behavioral sciences advanced further
study course. Analyzes social and cultural factors related to physical
and mental illness. Also includes the dynamics of communication and
role relationships among patients and medical personnel and social
research and theory relevant to the health professions. Course includes
diversity content.

SOC 539. Juvenile Delinquency (3).
General education social and behavioral sciences advanced further
study course. The factors related to juvenile delinquency and the
measures of treatment and prevention. Prerequisite: SOC 111.

SOC 540. Criminology (3).
The extent and nature of criminal behavior and societal reactions to it.
Course includes diversity content. Prerequisite: SOC 111.

SOC 543. Aging and Public Policy (3).
Cross-listed as AGE 543. Seminar-style course explores the impact
of an aging population on social institutions, covers the history of
American aging policies, the organization and financing of health
care for the elderly, and discusses policy analysis as an evaluation
tool for comparing public approaches to responding to the needs of an
increasingly diverse aging population. Considers the process of policy
formation, identifies key players and interest groups, and contrasts political ideologies regarding federal, state and private responsibilities for older people. Emphasizes Social Security, the Older Americans Act, Medicare and Medicaid as policy examples. Also looks at the potential contributions of the older population to society (volunteer services, provision of family care, etc.) as affecting and affected by policy. Course includes diversity content. Prerequisite: SOC 111 or AGE 100 or junior standing.

**SOC 559. Successful Aging: Theory, Research and Practice** (3).
Cross-listed as AGE 559, PSY 559, and SCWK 559. Reviews current interventions which promote successful aging. Theoretical bases of this work in biomedical and life span/developmental psychology are featured. Intended for students in the College of Health Professions, Liberal Arts & Sciences and Engineering. Course includes diversity content. Prerequisite: AGE 100, or PSY 111, or SCWK 201, or SOC 111.

**SOC 600. Selected Topics in Sociology** (3).
Study in a specialized area of sociology emphasizing student research projects. Includes deviant behavior, political sociology and the family. Repeatable for a total of 6 credit hours. Prerequisites: SOC 111, instructor's consent, and substantive area course.

**SOC 651. Directed Research** (1-3).
Gives the student further research skills in an area of special interest. All students are under the direction of a member of the graduate faculty who guides them in developing research skills. Prerequisites: SOC 512 or equivalent and instructor's consent.

**SOC 670. Independent Reading** (1-3).
For the advanced student capable of doing independent work in an area of special interest. Prerequisites: 15 hours of sociology and instructor's consent.

**SOC 711. Sociological Theory** (3).
Comprehensive survey of classical sociological theory emphasizing theories relevant to the development of sociology. Prerequisite: departmental consent.

**SOC 713. Statistics for Social and Behavioral Sciences** (3).
Applies descriptive and inferential statistics to sociological problems. Includes computer experience with statistical software. Prerequisite: departmental consent.

**SOC 750. Sociology Workshop** (1-3).
Provides specialized instruction using a variable format in a sociologically relevant subject.

**SOC 781. Cooperative Education** (1-4).
Provides practical experience, under academic supervision, that complements the student's academic program. Consultation with, and approval by, an appropriate faculty advisor are necessary. With advisor approval, up to 4 hours of cooperative education may count toward graduate degree requirements.

**SOC 781N. Sociological Practice Internship** (1-3).
Integrates academic theory with planned professional experience providing students with practical skills training under academic supervision to complement the student's academic program. Individualized programs must be formulated in consultation with, and approved by, appropriate faculty sponsors as well as the Career Development Center. Repeatable for credit.
