

Dual/Accelerated Bachelor's to Master's Degree in Mechanical Engineering

The dual/accelerated bachelor's to master's degree (ABMS) is designed to offer outstanding students the opportunity for advancing their careers by pursuing the bachelor's and master's in a parallel program and accelerated time frame. The ABMS also provides more focused advising, preparing the student for graduate study during their sophomore and junior years. The ABMS program develops a close working relationship between the student and a graduate advisor early in the student's academic career. Eligibility requires ME majors to be within 30–45 credit hours of graduating and have a WSU GPA of 3.250 or better.
