

Minor in Geology

Program Requirements

A minor in geology consists of at least 15 credit hours of geology including:

Course	Title	Hours
GEOL 102	Earth Science and the Environment (with lab)	4
or GEOL 111	General Geology	
Select at least 11 additional credit hours in GEOL		11
Total Credit Hours		15

It is suggested that students minoring in geology consult with the department in selecting courses that would be most appropriate to their major field of study.
