

BS in Dental Hygiene - Degree Completion

The degree completion Bachelor of Science in dental hygiene is available to dental hygienists who seek to expand their professional role in such areas as community dental hygiene, teaching in a dental hygiene program, alternative practice settings, or in preparation for a graduate degree. The program is completely online, accessible 24 hours a day, and can be completed in as little as 12–15 months (full time) or up to six years (part time). In addition to the flexibility and convenience of the program, the comprehensive curriculum advances knowledge base and experiences to provide a gateway to advanced career opportunities and to meet the necessary requirements for pursuing a graduate degree in dental hygiene.

Students interested in more information should visit the degree completion webpage (<http://wichita.edu/dhonline/>)¹, or contact the BSDH degree completion advisor:

- Email: dhonline@wichita.edu
- Phone: 316-978-7332

 - e. 120 total credit hours required for Bachelor of Science in dental hygiene.

Applied Learning

Students in the degree completion Bachelor of Science in dental hygiene program are required to complete an applied learning experience to graduate from the program. The requirement can be met by applying the knowledge gained in the didactic portion of DH 452 Population Health Management in Dental Hygiene to systematically assess, plan, develop, implement and evaluate an oral health promotion project for an underserved target population. Program implementation occurs outside of the classroom through professional collaboration with a community partner.
