

Honors Baccalaureate

The Honors Baccalaureate (HB) degree is conferred by the Dorothy and Bill Cohen Honors College. A rigorous interdisciplinary degree designed by the student with faculty mentorship and approval, the HB is higher education for the 21st century. To receive the HB degree, a student selects two or three academic disciplines from at least two academic colleges, receives faculty approval for each concentration course of study, and completes a thesis or capstone project.

HB students engage in integrative learning and problem solving, preparing effectively for further study and careers in areas such as university teaching, law, medicine, community activism or entrepreneurship.

Admission

To pursue the Honors Baccalaureate, a student must be admitted to the Dorothy and Bill Cohen Honors College. There are **no minimum ACT/SAT or GPA requirements** for admission to the Cohen Honors College. Interested students submit an online application through the link on the college website.

So how do we determine acceptance? We complete a holistic review of each application. We want to learn about you -- how your involvement and experiences have shaped you, your family and community. We look for evidence of qualities such as a creative approach to solving problems; urge to make a positive impact on the community and in the world; open-minded embrace of diversity in backgrounds, values and perspectives; and the willingness and ability to take on intellectual challenges.

While we do not require a minimum ACT/SAT or GPA, we do consider your scores as part of our review with greater emphasis being placed on your essay and resume.

For honors admission deadlines, including priority consideration for scholarships deadline, visit the Dorothy and Bill Cohen Honors College admissions webpage (https://www.wichita.edu/academics/honors_college/AdmissionRequirements.php)¹.

Program Requirements

A minimum total of 120 credit hours is required for the Honors Baccalaureate. To receive the degree, students must:

- Have a cumulative GPA of 3.250;
- Complete 21 honors credit hours² including a research or design-thinking experience (3-4 credit hours) chosen from the list of options below and HNRS 491 Honors Thesis (3 credit hours); and
- Complete two or three concentrations (36 credit hours) from at least two colleges.

² Honors credit hours may be earned by completing HNRS, WSUN or H department courses, or using an honors option agreement (<http://www.wichita.edu/honorsforms/>) (link opens new window) to turn a regular course into an honors course. Honors courses may meet general education, major, elective or honors area-of-emphasis requirements.

Students may complete but aren't required to complete an honors area-of-emphasis by using their honors credits to fulfill requirements for an Emory Lindquist Honors Scholar, Honors Leadership, or Honors Law and Public Policy track. Track requirements are listed separately in the

catalog. Students who complete an area-of-emphasis track will receive a transcript notation.

In addition to meeting the requirements of the WSU General Education Program (<http://catalog.wichita.edu/undergraduate/academic-information/general-education-program/>) and the requirements of Dorothy and Bill Cohen Honors College, students must meet the following requirements:

Course	Title	Hours
General Education		
Select courses to meet General Education requirements ³		34-35
Major Requirements		
HNRS 102	Honors Colloquium	0
HNRS 103	Honors Colloquium Portfolio	0
<i>Research or Design-Thinking Experience</i>		
Select 3-4 credit hours from the following		3-4
HNRS 310X & HNRS 410	First Year Research Experience: Introduction to STEM Research and Independent Study	
HNRS 306J	Lead for Tomorrow	
HNRS 406C	Making Social Impact	
HNRS 485	Honors Independent Research or Creative Activity	
HNRS 486	Honors Collaborative Research and Creative Activity Seminar	
ID 300H	Human-Centric Design Thinking Honors	
A department research methods course with an honors option agreement or completion of McNair Scholar, NASA Suits, KINBRE, or equivalent program may be used to meet this requirement.		
<i>Concentration</i>		
A concentration may be based on any existing major, minor or certificate. Courses that meet concentration requirements are approved by a faculty member in the associated department or college. Courses used to meet concentration requirements may be honors courses, but they aren't required to be honors courses.		
Select one of the following		36
Complete at least 18 credit hours in each of two departmental majors/disciplines from at least two colleges (for a total of at least 36 credit hours)		
Complete at least 12 credit hours in each of three departmental majors/disciplines from at least two colleges (for a total of at least 36 credit hours)		
<i>Thesis Course</i>		
HNRS 491	Honors Thesis (The student works with a faculty mentor who supervises a capstone thesis project during the student's last year. The faculty mentor must approve the final thesis and submit approval to the Honors College dean. The dean reviews all theses before submitting certification to the registrar's office, and the honors thesis is kept in the honors library archive with permission of the student and faculty supervisor.) ⁴	3
Open Electives		

Select enough electives to reach 120 credit hours with the help of the
Cohen Honors College advisor or dean 42-44

Total Credit Hours **120**

³ Required major courses may also count towards General Education requirements. Students will need to select additional electives to reach 120 credit hours required for graduation with assistance from an advisor.

⁴ All Honors Baccalaureate students must enroll in at least 3 credit hours of HNRS 491 and successfully complete a thesis to complete requirements for the degree. At the discretion of the thesis supervisor, students may register for thesis project credit over one or two semesters, e.g. register for 1 credit hour in the first semester of their senior year and 2 credit hours in the second/final semester of their senior year. Students may be required by the thesis supervisor to register for more than 3 credit hours for HNRS 491. The honors dean reviews all theses before submitting certification to the registrar's office, and the honors thesis is kept in the honors library archive with permission of the student and faculty supervisor.

Applied Learning

Students in the Honors Baccalaureate program are required to complete an applied learning or research experience to graduate from the program. The requirement can be met by successful completion of a thesis or capstone project and registration in HNRS 491 Honors Thesis.

Honors Thesis: The student works with a faculty mentor who supervises a capstone thesis project during the student's last year. The faculty mentor must approve the final thesis and submit approval to the Honors College dean. The dean reviews all theses before submitting certification to the registrar's office, and the honors thesis is kept in the honors library archive with permission of the student and faculty supervisor.⁴
